Apopka City Hall Commission Chambers

APOPKA CITY COMMISSION MEETING WILL BE LIVE-STREAMED ON YOUTUBE. TO WATCH, PLEASE VISIT:
https://www.youtube.com/CityofApopkaFL

CALL TO ORDER

INVOCATION

Vice Mayor Velazquez's selection for Invocation is: Pastor George Sotolongo, Remnant Christian Church

PLEDGE

PUBLIC COMMENT PERIOD

The Public Comment Period is for City-related matters that are not on today's Agenda as business items or public hearings. If you are here to speak for a matter that requires a public hearing, please wait for that item to come up on the agenda. The Public Comment period will be held to a total of thirty (30) minutes. Each speaker will be given three (3) minutes to speak. If you are here for the Public Comment Period, please fill out a GREEN Intent to Speak Form and provide it to the City Clerk prior to the start of the meeting. When the Mayor calls for Public Comment Period, the City Clerk will read the submitted GREEN Intent to Speak Forms in the order they were received. Should a large number of citizens submit public comment period speaker cards, the speaking time per citizen may be reduced to a maximum of two (2) minutes per speaker, to give as many citizens an opportunity to speak as possible during the Public Comment Period. Groups of citizens who wish to speak on the same item or concern may elect a spokesperson to speak on their behalf, in which case an additional one (1) minute will be given to the spokesperson's time per citizen, up to six (6) minutes total. Citizens wishing to elect a spokesperson must be present during the public comment period, indicate the spokesperson on their Intent to Speak forms, and submit their forms together to the City Clerk. If you wish to speak on one of the business items or public hearing items, please fill out a WHITE Intent to Speak Form and provide it to the City Clerk prior to the start of the meeting. Once the item has been presented, the Mayor will call for Public Comment on that specific item. At that time, the City Clerk will read the submitted WHITE Intent to Speak Forms for the current item, in the order they were received. Each speaker will be given three (3) minutes to speak. Please refer to Resolution No. 2025-19 for further information regarding Public Participation Policy & Procedures for addressing the City Commission.

MAYOR'S REPORT

INFORMATION ITEMS

1. **City of Apopka FY2026 Budget-to-Actual for Nine Months Ending June 30, 2026.**

ADJOURNMENT
Individuals with disabilities needing assistance to participate in any of these proceedings should contact the City Clerk at least two (2) working days in advance of the meeting date and time at (407) 703-1704. F.S. 286.0105 If a person decides to appeal any decision or recommendation made by Commission with respect to any matter considered at this meeting, he will need record of the proceedings, and that for such purposes he may need to ensure that a verbatim record of the proceedings is made, which record includes the testimony and evidence upon which the appeal is to be based.

Any opening invocation that is offered before the official start of the Commission meeting shall be the voluntary offering of a private person, to and for the benefit of the Commission. The views or beliefs expressed by the invocation speaker have not been previously reviewed or approved by the City Commission or the city staff, and the City is not allowed by law to endorse the religious or non-religious beliefs or views of such speaker. Persons in attendance at the City Commission meeting are invited to stand during the opening ceremony. However, such invitation shall not be construed as a demand, order, or any other type of command. No person in attendance at the meeting shall be required to participate in any opening invocation that is offered or to participate in the Pledge of Allegiance. You may remain seated within the City Commission Chambers or exit the City Commission Chambers and return upon completion of the opening invocation and/or Pledge of Allegiance if you do not wish to participate in or witness the opening invocation and/or the recitation of the Pledge of Allegiance.

City of Apopka
CITY COMMISSION STAFF REPORT

Section: CONSENT (Action Item)
Item #: 1.
Meeting Date: August 5, 2026
Department: Code Enforcement

SUBJECT:
Approve Code Enforcement Settlement Agreement for 608 Oshea Court

ACTION ITEM INFORMATION:
Approval of Code Enforcement Settlement Agreement - 608 Oshea Court

REQUEST:
Approve Code Enforcement Settlement Agreement - 608 Oshea Court

SUMMARY:
On December 21,2021, the City of Apopka rendered an Order Finding JESUS & MARIA DURAN, the owner of the property at 608 Oshea Court ("Subject Property") in violation of IMPC Chapter 3, Sections 302.4 and 304.14 of the Apopka Municipal Code and Article 4, Section 4.3.2.B, Article 5, Sections 5.5.4.1 and 5.1.5.A.4 of the Land Development Code. A fine in the amount of Five Hundred ($500.00) Dollars per day, was imposed starting on January 21, 2022.

On July 24, 2026, JESUS DURAN agreed to enter into a Settlement Stipulation to reduce the unpaid code enforcement lien to a settlement amount of Ten Thousand One Hundred and Fifty ($10,150.00) Dollars, paid to the City. The property is currently in compliance with the International Property Maintenance Code, Apopka Municipal Code and Land Development Code.

FUNDING SOURCE:
N/A

RECOMMENDED MOTION:
City Council approve the Code Enforcement Settlement Agreement.

ATTACHMENTS:
1. Settlement Stipulation - 608 Oshea Court
2. Affidavit of Compliance - 608 Oshea Court
3. Case Report - 608 Oshea Court

BEFORE THE CODE ENFORCEMENT HEARING OFFICER
CITY OF APOPKA, FLORIDA

CITY OF APOPKA, FLORIDA,

Petitioner,

v.

OWNER

Respondent(s).
JESUS DURAN & MARIA DURAN/

Case No.: 21-00647

Address: 608 OSHEA CT
APOPKA, FL 32712

Parcel ID: 04-21-28-9638-00-180

SETTLEMENT AGREEMENT

Petitioner, CITY OF APOPKA, FLORIDA ("Petitioner"), a Florida municipal corporation, and Respondent(s), OWNER ("Respondent") (collectively, the "Parties"), hereby enter into this Settlement Agreement (the "Agreement") in the above-styled action as follows (the "Action"):

1. This Agreement is meant to settle all issues arising from the violations alleged in Case No. 21-00647, before the Code Enforcement Hearing Officer for the City of Apopka, Florida.

2. The Parties agree that because Petitioner is a public entity, the City Commission must hold a duly noticed public meeting to consider and accept this Agreement. For the City Commission to consider and accept this Agreement, Respondent must execute this Agreement and this Agreement shall be placed on the next regularly scheduled City Commission meeting for consideration. This Agreement shall not become effective until the City authorizes and executes the Agreement following a duly noticed public meeting required by Florida law. If the City Commission fails to accept this Agreement, then the Action shall continue to proceed in accordance with Florida law, and this Agreement shall become null and void.

3. The Parties agree that once the City Commission considers and accepts this Agreement, Petitioner shall execute the Agreement and send a copy of the Agreement to

Respondent. The date of execution by Petitioner shall be the effective date of this Agreement.

4. In consideration of payment in the amount of ten thousand one hundred and fifty dollars and no cents ($10,150.00) from Respondent to Petitioner within ninety (90) days of the effective date of this Agreement, Petitioner shall cause to be recorded in the Public Records of Orange County, Florida, a Release of Lien that is the subject of the Action, and previously recorded in Document #20220403239, Public Records of Orange County, Florida.

5. The Parties agree that Respondent's settlement payment to Petitioner must be paid within ninety (90) days of the effective date of this Agreement via one lump sum payment. Respondent agrees that payment must be made in full and partial payments will not be accepted by Petitioner. If Respondent does not submit payment within ninety (90) days of the effective date of this Agreement, Petitioner may immediately file an action to foreclose the full amount of the lien at issue in the Action, plus attorney's fees and costs, in accordance with Florida law.

6. This Agreement shall be governed by the laws of the State of Florida and the courts of the Ninth Judicial Circuit in and for Orange County, Florida shall have exclusive jurisdiction and venue to enforce this Agreement. In the event of dispute arising out of this Agreement, the prevailing party shall be entitled to attorneys' fees and costs resulting from enforcement of this Agreement.

7. The Parties expressly agree that this Agreement results from an arm's length negotiation process in which each party was given the opportunity to consult with counsel and contribute to the drafting of this Agreement. No legal or other presumptions against the party drafting this Agreement shall therefore accrue to the benefit of either of the Parties and the Parties expressly waive the right to assert such a presumption in any proceedings or disputes connected with, arising out of, or involving this Agreement. The Parties expressly recognize that they have

each entered into this Agreement knowingly and voluntarily.

8. Each party represents and warrants to the other party that is has the requisite authority to enter into and execute this Agreement.

IN WITNESS WHEREOF, the Parties hereto have executed and delivered this Settlement Agreement, with the effective date this ___ day of _____, 2026.

Respondent(s)

JESUS & MARIA DURAN

CASE NO. 21-00647
ADDRESS: 608 OSHEA CT LIEN
PARCEL ID:04-21-28-9638-00-180

AFFIDAVIT OF COMPLIANCE WITH ORDER
OF APOPKA CODE ENFORCEMENT HEARING OFFICER

STATE OF FLORIDA
COUNTY OF ORANGE

BEFORE ME, the undersigned authority, personally appeared **Chris Smith,** Code Enforcement Officer for the City of Apopka, who, after being duly sworn, deposes and says:

1. That on **12/21/2021** the Code Enforcement Hearing Officer held a public hearing and issued its Order in the above-styled matter.

2. That, pursuant to said Order, Respondent was to have taken certain corrective action by or before **01/20/2022**

3. That re-inspection was performed on **12/18/24** and was in compliance.

If Compliance was met after corrective action date specified in said Order, Respondent must contact the Apopka Code Enforcement Office at (407) 703-1738 to resolve accrued daily fines.

FURTHER AFFIANT SAYETH NOT.

Dated this **12/18/2024**

Chris Smith
Code Enforcement Officer

STATE OF FLORIDA

City of Apopka
CITY COMMISSION STAFF REPORT

Section: CONSENT (Action Item)
Item #: 2.
Meeting Date: August 5, 2026
Department: Finance Department

SUBJECT:
Award contracts for RFQ: 2026-A-243 City Wide Roofing Repair and Replacement to: Advanced Roofing, Inc., APD Construction, LLC., Architectural Sheet Metal, Inc., BFARR Contracting, Central Florida Equity Builders, CMM Roofing, Inc., Fraizer Contracting, JMD Global Developers, LLC., Next Dimension Construction & Roofing, and Ulloa Management Group, LLC.

ACTION ITEM INFORMATION:

REQUEST:
Award contracts for RFQ: 2026-A-243 City Wide Roofing Repair and Replacement.

SUMMARY:
Staff advertised a Request for Qualification (RFQ) to establish a qualified list of roofing contractors to provide roofing services throughout the City, on an as-needed basis.

The contracts shall be multi-year terms, with an initial contract term of three (3) years with two (2) additional one (1) year renewal options. The purpose of awarding this solicitation in this manner is to ensure the City has a diverse pool of qualified roofing contractors capable of handling projects of all sizes. Projects will be awarded individually to the lowest priced roofing contractor via a Request for Secondary Quoting (RSQ) process. The RSQ process ensures the City receives competitive pricing and best value for each project. Staff will issue an RSQ to the awarded Contractor(s), outlining the scope of work, any addenda and the required timeframe. Contractors must provide a total cost and detailed breakdown covering all expenses needed to complete the work. Projects are awarded individually to the lowest qualified contractor. Additional providers may be added to the list of awarded contractors, if deemed necessary by the City and subject to approval.

The advertisement schedule and statistics were as follows:

Date Issued & Advertised:	June 9, 2026
Inquiry Deadline:	June 30, 2026
E-Bid Submittal Deadline:	July 14, 2026
Evaluation Meeting:	July 22, 2026
Notified Users:	2744
Project Views:	804
Vendors Following the Project:	43

Thirteen (13) submitted bids. Three (3) of the thirteen (13) were deemed non-responsive, due to not meeting required qualifications. At this time, staff recommends contract awards to the following ten (10) responsive and responsible bidders:

Awarded Vendors

- Advanced Roofing, Inc.
- APD Construction, LLC.
- Architectural Sheet Metal, Inc.
- BFARR Contracting
- Central Florida Equity Builders
- CMM Roofing, Inc.
- Fraizer Contracting
- JMD Global Developers, LLC.
- Next Dimension Construction & Roofing
- Ulloa Management Group, LLC.

The ten (10) contractor submittals have been reviewed to include their bid, history, and references. Each individually awarded project will be funded through fiscal year budgetary appropriations.

FUNDING SOURCE:
Within fiscal year budgetary appropriations.

RECOMMENDED MOTION:
Approve contract awards to: Advanced Roofing, Inc., APD Construction, LLC., Architectural Sheet Metal, Inc., BFARR Contracting, Central Florida Equity Builders, LLC., CMM Roofing, Inc., Fraizer Contracting, JMD Global Developers, LLC., Next Dimension Construction & Roofing, and Ulloa Management Group, LLC.

City of Apopka
CITY COMMISSION STAFF REPORT

Section: CONSENT (Action Item)
Item #: 3.
Meeting Date: August 5, 2026
Department: Finance Department

SUBJECT:
Authorize the execution of piggyback contracts for the assigned terms: Quadient, Inc. (Mail Processing Equipment), Barco Products, LLC (Playground, Water Play and Aquatic Equipment, Site Amenities, and Outdoor Fitness Equipment, with Related Accessories and Services), and People Ready Florida, Inc. (Supplemental Employment).

ACTION ITEM INFORMATION:

REQUEST:
Authorize the execution of a piggyback contract for the assigned terms.

SUMMARY:
The department purchases various commodities in its daily operations, including equipment, tooling, and services throughout the year. A piggyback contract can be executed via another entity's agreement when the items or services have already been bid by other governmental agencies or special co-operative agreements, provided such contracts are the result of a competitive bidding process and all terms and conditions are the same. This method provides the most efficient method of purchase or the best cost savings for the quantities that are being utilized. These contracts are also encouraged when applicable for operational proficiencies and to minimize staff processing time. Contractual information is kept on record with each purchase order issued.

Per Purchasing Policy 107.3.17 - Piggyback Contracts: Piggyback contracts will only be authorized during the period of time that the original contract is active and has not expired (if the original contract expires or terminates, so shall the piggyback contract). The Department Director or designee must review and confirm potential piggyback contracts for applicability and scope. The request for utilizing a piggyback contract must be submitted to the Finance Department for purchasing review. Upon approval, the Purchasing Administrator or designee shall submit their review to the City Attorney for final approval. Contracts that are over $50,000 will also require City Commission approval. Multi-Year Piggybacks: if determined to be over $50,000 and once authorized by City Commission, if the dollar amount allotted in the fiscal year budget is available for the services or commodities, it will not require additional City Commission approval.

Below is a full listing of the piggyback contracts that are being requested by department submittals, vendors, descriptions, sources, and expiration dates. Please note, contracts may have varying effective start dates.

Department:	**Citywide**
Vendor:	**Quadient, Inc.**

City of Apopka
CITY COMMISSION STAFF REPORT

Section: CONSENT (Action Item)
Item #: 4.
Meeting Date: August 5, 2026
Department: Finance Department

SUBJECT:
Authorize the execution of an Interagency Agreement per the assigned terms with the Seminole County Sheriff's Office, for Criminal Justice Computer Services and Support.

ACTION ITEM INFORMATION:

REQUEST:
Authorize the execution of an Interagency Agreement for the assigned terms.

SUMMARY:
The departments purchase various commodities in its daily operations, including equipment, tooling, and services throughout the year. A contract shall be utilized when it is determined that the terms and conditions are complex or incremental or in any other way require a contract. They are also encouraged when applicable for operational proficiencies. Contracts are acquired under the most efficient method of purchase or best cost savings for the quantities that are being utilized. Contract renewals are requested when the contract is scheduled to expire and the City seeks to continue the terms and conditions for an additional period of time. Contractual information is kept on record with each purchase order issued.

Per Purchasing Policy 107.3.15 - Contracts:
A contract means a written agreement or purchase order between the City and a vendor detailing the legal responsibilities of both parties in the offer and acceptance of a specific act, usually for the procurement of goods, services, or construction for money or other considerations. A contract shall be used for a commodity, contractual service, construction service and/or where the City Attorney, Department Director, Purchasing Administrator or designee determines that the terms and conditions are complex or incremental or in any other way require a contract. All contracts must be reviewed by the City Attorney. Purchasing will forward all non–state-affiliated piggyback contracts to the City Attorney for review when applicable. All contracts less than $50,000.00 must be approved by the City Administrator. All contracts of $50,000.00 or more must be approved by the City Council and City Attorney prior to the Mayor or City Administrator signing.

Per Purchasing Policy 107.3.17 - Piggyback Contracts:
Piggyback contracts will only be authorized during the period of time that the original contract is active and has not expired (if the original contract expires or terminates, so shall the piggyback contract). The Department Director or designee must review and confirm potential piggyback contracts for applicability and scope. The request for utilizing a piggyback contract must be submitted to the Finance Department for purchasing review. Upon approval, the Purchasing Administrator or designee shall submit their review to the City Attorney for final approval. Contracts that are over $50,000 will also require City Council approval. Multi-Year Piggybacks: if determined to be over $50,000 and once authorized by City Council, if the dollar amount allotted in the fiscal year budget is available for the services or commodities, it will not require additional City Council approval.

Below is a full listing of contracts that are being requested by; department submittal, vendor, description, source, and expiration dates.

Department:	**Police Department**
New Contract/ Renewal/Amendment	**Renewal**
Contract Type:	**Interagency Agreement**
Vendor:	**Seminole County Sheriff's Office**
Contract Description:	**Criminal Justice Computer Services and Support**
Terms:	**Term Contract**
Contract Start Date:	**October 1, 2026**
Expiration Date:	Perpetual Contract with a 90-day Notice of Termination
Renewals Available:	Automatic Annual Software Renewals each Fiscal Year
Annual Cost	Fiscal year budgetary appropriations
Contract Source Method:	**PURCHASING POLICY 107.3.9.8.5. INFORMATION TECHNOLOGY SOFTWARE/HARDWARE: Software/hardware that is currently owned or utilized requires no further formal competitive procurement if upgrades, maintenance, or additional services are needed.**
Contract Summary	The City originally acquired this software in 2014. This contract will ensure the City continues to receive the support, maintenance, and upgrades needed to maintain a fully operational system. As stated above, the contract source method will be procured under a policy exemption for *Information Technology software and hardware* already owned or utilized, which removes the requirement for formal competitive procurement when additional services, upgrades, or maintenance are needed.
History	The City of Apopka acquired this software in 2014. The annual expenditures for the last four (4) years are as follows: FY2026 - $111,200 FY2025 - $107,961 FY2024 - $104,817 FY2023 - $101,764

FUNDING SOURCE:

As authorized, adopted, and per the appropriated fiscal year budgetary funding within each departmental budget.

RECOMMENDED MOTION:

Authorize the execution of renewal of the Interagency Agreement with Seminole County Sheriff's Office, per the assigned terms.

ATTACHMENTS:

1. Interagency Agreement - Seminole County - Criminal Justice Computer Services & Support

INTERAGENCY AGREEMENT
SEMINOLE COUNTY SHERIFF'S OFFICE AND APOPKA POLICE DEPARTMENT - AGREEMENT FOR CRIMINAL JUSTICE COMPUTER SERVICES AND SUPPORT

THIS AGREEMENT is made and entered by and between DENNIS M. LEMMA, Seminole County Sheriff's Office, hereinafter referred to as "SCSO", a Constitutional Officer of the political subdivision of Seminole County, Florida, whose address is 100 Eslinger Way, Sanford, Florida 32773, and the APOPKA POLICE DEPARTMENT, hereinafter referred to as "PD", whose address is 112 East 6th Street, Apopka, Florida 32703.

WITNESSETH

WHEREAS, SCSO and PD, are criminal justice agencies, formally recognized by the Federal Bureau of Investigations (FBI) and the Florida Department of Law Enforcement (FDLE); and

WHEREAS, in accordance with sections 163.01(2) and 163.01(14) Florida Statutes, SCSO and PD are authorized to enter into inter-local Agreements for the provision of services; and

WHEREAS, SCSO presently has the benefit of access to the Florida Criminal Justice network (CJNet), National Crime Information Center (NCIC), the Florida Crime Information Center, and the Interstate Identification Index (III) all hereafter referred to as FCIC, via network connectivity to the FDLE; and

WHEREAS, SCSO has developed sophisticated law enforcement software which is presently in use by other law enforcement and criminal justice agencies and is supported and maintained by SCSO staff on a seven days per week, twenty-four hours per day basis; and

WHEREAS, PD has determined that it is advantageous to enter into a contractual agreement with SCSO for the provision of criminal justice computer software services, including continued access to FCIC and state/national criminal justice information for the administration of criminal justice; and

WHEREAS, SCSO and PD entered into an agreement on January 8, 2018 for similar services and wish to terminate that agreement upon execution of this agreement.

NOW, THEREFORE, in consideration of the mutual understandings and agreements set forth herein, the Parties agree as follows:

1. Agreement Term

The TERM of this Agreement shall be from the date of final execution until such time as either party desires to end the Agreement in accordance with termination provisions set forth in Section 8 of this Agreement, the dates of signature of the Parties notwithstanding.

2. Purpose

The purpose of this Agreement to establish terms and conditions under which SCSO shall provide criminal justice computer software services and support to the PD.

3. Cooperation

It is agreed that both Parties shall provide all reasonable and necessary cooperation and assistance so as to facilitate the terms of this Agreement.

4. Basic Services

1. SCSO agrees to:

A. Provide CAFEWEB, NEXCad, MICAD, Sherlock, and other related criminal justice software available on SCSO'S network to the PD.

B. Provide database security and backup services for PD data residing on SCSO systems.

C. Provide necessary instruction and training to PD personnel on CAFEWEB, NEXCad, MICAD, Sherlock, and other related software to support the use of new SCSO systems. After initial system setup, SCSO may, at its sole discretion, offer additional training to PD.

D. Provide highest level expert support to the PD for CAFEWEB, NEXCad, MICAD, Sherlock, and other related software.

E. Provide for a sufficient number of appropriately qualified personnel to perform those services set forth within this Agreement.

F. Make reasonable efforts to ensure delivery of the provision of services set forth herein. SCSO makes no warranties, representations, or guarantees with regards to specific performance levels, data accuracy, data completeness, system uptime, security, or system integration and SCSO will not be held liable for any direct or indirect damages incurred by PD's use of the software/system(s), including but not limited to loss of data or loss of system use.

G. Provide PD license plate data for purposes of sharing with other law enforcement agencies.

H. Share PD CAFEWEB data with N-DEx via the FINDER and or LINX data sharing system.

I. Share PD CAFEWEB data with the Law Enforcement Information Exchange (LINX).

J. Provide PD with the ability to audit user logs for all SCSO CJIS software programs, (currently MICad, CafeWeb, NEXCad Report Utility, NEXCad history, FCIC switch history and any additional software that may be added in the future) in order to be in compliance with the auditing standards of the CJIS Security Policy.

2. PD agrees to:

A. Abide by all applicable local, state, and federal laws, rules and regulations, as well as the FBI CJIS Security Policy and rules and regulations of FCIC with regards to the use of said criminal justice computer systems and ensure compliance with Florida Public Records laws

in regard to exempt and confidential data contained within criminal justice software systems provided by SCSO.

B. Abide by all the terms and conditions of the Criminal Justice User Agreement executed between the FDLE and SCSO, a copy of which is attached to this Agreement.

C. Limit use of provided criminal justice computer systems to authorized personnel within the PD and only for the administration of criminal justice.

D. Acknowledge, by executing this Agreement, that all software written by SCSO is subject to copyright protection and may not be sold or transferred to any other entity without the express written consent of SCSO.

E. Provide adequate computer hardware compatible with the software, hardware and network equipment utilized by SCSO.

F. Ensure that all authorized PD personnel attend training on CAFEWEB, NEXCad, MICAD, Sherlock and other related software provided by SCSO prior to utilizing SCSO systems.

G. Maintain all required software licenses required to access SCSO'S law enforcement software systems.

H. Provide for a sufficient number of appropriately qualified personnel to support and maintain SCSO's law enforcement software on PD computers. This includes performing technical support for basic user issues (Tier 1) and providing administrative level support (Tier 2) for advanced technical troubleshooting.

I. Agrees to refrain from making additional impactful demands upon network traffic, (i.e. addition of streaming surveillance video or other large packet data) without first discussing it with SCSO's Designee.

J. PD agrees to not decompile or otherwise copy, or download content or data on SCSO's System or other proprietary information of SCSO or any other participating agency using SCSO's System under similar agreement for any purpose other than those stated in this Agreement, unless said data is that compiled and maintained on behalf of PD under this agreement.

K. As per the CJIS Security Policy, assign a representative who will be responsible for auditing user logs on a weekly basis. Representative shall maintain records of such audit and make those records available for review upon request of SCSO. PD shall notify SCSO of the name and contact information of the assigned representative.

5. Compensation and Payment

1. PD agrees to reimburse SCSO for services provided for within this Agreement in accordance with the following schedule, which utilizes an updated pricing model and includes a catch-up provision of 21% for the 3- year period from FY 2027 through FY 2029. Thereafter, the annual charge will be based upon the Pricing Model with a 5% cap on the annual increase.

Fiscal Year 2027	10/01/2026 – 09/30/2027	$134,552.00
Fiscal Year 2028	10/01/2027 – 09/30/2028	$162,808.00
Fiscal Year 2029	10/01/2028 – 09/30/2029	$196,998.00
Thereafter	Beginning Fiscal Year 2030	Pricing Model with a 5% cap on the increase

2. Annual payment requests shall be made by SCSO no later than October 31 of the fiscal year in question. Payments shall be made within thirty (30) days of an invoice submittal by SCSO.

3. PD may request custom programming or other specialized computer services that are outside the scope of this agreement. Such services will be provided at the sole discretion of SCSO and will be charged $125.00 per hour worked. SCSO will provide estimates for such services, but PD acknowledges and agrees that it receives estimates only, and the actual cost for the services may be less or more. SCSO shall invoice PD for its work once per month. Payment for specialized services shall be payable within 30 days of receipt of the invoice.

   All payments made by PD shall be sent to the following address:

   Seminole County Sheriff's Office
   Fiscal Services - Accounting
   100 Eslinger Way
   Sanford, FL 32773

6. Indemnification

Pursuant to Florida Statutes and to the extent provided for by Florida law, neither SCSO nor PD waives any defense of sovereign immunity, or increases the limits of its liability, upon entering into this Agreement. This Agreement does not contain any provision that requires one party to indemnify or insure the other party for the other party's actions, or to assume any liability for the other party's actions.

7. Dispute Resolution

This Agreement shall be governed by and construed with the laws of the State of Florida. Venue shall be in Seminole County, Florida. SCSO'S designee, the Director of Technology Solutions, and PD'S designee, the Police Chief, shall resolve minor disputes.

Notices
Whenever any party desires to give notice unto the other party, notice may be sent to:

For SCSO:

Director of Technology Solutions
Seminole County Sheriff's Office
100 Eslinger Way
Sanford, FL 32773

For PD:

Chief of Police
Apopka Police Department
112 East 6th Street
Apopka, FL. 32703

8. Termination

Either party may terminate this agreement upon providing ninety (90) days written notice, except that SCSO may terminate this agreement immediately and without notice upon finding that the PD has willfully violated the terms of this agreement. Within thirty (30) days following termination, SCSO will provide PD with a copy of PD data stored on SCSO's systems in Microsoft SQL Server format.

9. Entire Agreement

It is understood and agreed that the entire Agreement of the parties is contained herein and that this Agreement supersedes all oral agreements and negotiations between the parties relating to the subject matter hereof, as well as any previous Agreement presently in effect between the parties relating to the subject matter hereof. Any alterations, amendments, deletions, or waivers of the provisions of this Agreement shall be valid only when expressed in writing, approved by the respective parties and duly executed on behalf of each party as set forth herein.

IN WITNESS HEREOF, the parties hereto have caused this agreement to be executed by the proper officers and officials.

CITY COMMISSION STAFF REPORT

Section: CONSENT (Action Item)
Item #: 5.
Meeting Date: August 5, 2026
Department: Finance Department

SUBJECT:
Authorize the issuance of Sole Source Memo: Fluid Control Specialties, Inc.

ACTION ITEM INFORMATION:

REQUEST:
Approve the issuance of a sole source memo for (FY) 2026

SUMMARY:
107.3.9.8.3. SOLE SOURCE.
Sole Source procurements are proprietary and used when only one vendor is able to provide commodities, contractual services, or construction services of adequate quality or quantity that meet City's requirements, or when compatibility with existing systems requires procurement from a single source. Note: A memo of explanation must be sent to the appropriate approval authority along with the requisition documentation being attached to the purchase order. The City Administrator must give approval for the Sole Source designation. The Sole Source designation will expire each fiscal year after approval and may be renewed upon submission of a new request with documentation. Sole Source designations above $50,000.00 must be noticed per Section 287.057(3)(c), Florida Statutes.

Vendor Sole Source Memo Details:

Vendor:	**Fluid Control Specialties, Inc.**
Department:	**Utilities Operation**
Requested Amount:	**Annual Budgetary Appropriations**
Policy Requirements:	**Sole Source procurement is proprietary and used when only one vendor is able to provide commodities, contractual services, or construction services of adequate quality or quantity that meet City's requirements:** DeZURIK Company is the original equipment manufacturer (OEM) and the exclusive authorized provider of OEM replacement parts, factory-certified repairs, services, proprietary software support, technical assistance, and warranty service, installed throughout the City's water and wastewater treatment facilities and infrastructures. DeZURIK replacement internal assemblies are proprietary OEM components manufactured specifically for existing DeZURIK plug valves.
Policy Requirements:	**Compatibility with existing systems requires procurement from a single source:** In accordance with the Utilities Design and Construction Standard Manual- Dezurik is the approved material and product for Plug Valves. Fluid Control Specialties is the

	sole-authorized dealer for our region." The City currently utilizes DeZurik plug valves throughout the City's utility infrastructure.
Policy Requirements:	**Justification:** DeZURIK's Limited Warranty requires that products be properly installed, operated, and serviced in accordance with manufacturer recommendations. Unauthorized modifications, repairs, or installation of non-OEM components may void warranty coverage and eliminate manufacturer support. Procurement of genuine DeZURIK OEM components through the authorized distributor ensures compatibility with the City's existing infrastructure, preserves manufacturer warranty protection, and maintains reliable operation of these critical assets. **In accordance with Utilities Design and Construction Standard Manual- Dezurik is the approved material and product for Plug Valves.** The City currently utilizes DeZurik plug valves throughout the City's utility infrastructure. **Additionally, DeZURIK has provided written confirmation that Fluid Control Specialties, Inc. is the exclusive factory-authorized supplier for DeZURIK valves, parts, service, and maintenance within the City's geographic service area.** Therefore, competitive procurement of equivalent OEM replacement assemblies is not available.

CITY COMMISSION STAFF REPORT

Section: CONSENT (Action Item)
Item #: 6.
Meeting Date: August 5, 2026
Department: Finance Department

SUBJECT:
Authorize the Chief of Police to accept and execute the Seminole County Sheriff's Office (SCSO) Subrecipient Agreement (HID0326G0677-00) for the FY2026 High Intensity Drug Trafficking Areas (HIDTA) Program.

ACTION ITEM INFORMATION:

REQUEST:

Authorize the Chief of Police to accept and execute the Seminole County Sheriff's Office (SCSO) Subrecipient Agreement (HID0326G0677-00) for the FY2026 High Intensity Drug Trafficking Areas (HIDTA) Program.

SUMMARY:
The High Intensity Drug Trafficking Areas (HIDTA) Program is a federal grant and operational program administered by the White House's Office of National Drug Control Policy (ONDCP). It supports regional, multi-agency task forces aimed at dismantling major drug trafficking and money laundering organizations.

The Seminole County Sheriff's Office (SCSO), as a fiduciary of Central Florida HIDTA, desires to reimburse the Apopka Police Department for its performance to support the activities, programs and projects of Central Florida HIDTA upon the terms and conditions hereinafter set forth.

The Grant Period is: 01/01/2026 - 12/31/2027. The items that are eligible for reimbursement are:

Overtime Reimbursement
Maximum overtime reimbursement for each agent will be determined by the Group Supervisor of each HIDTA Task Force. Overtime reimbursements paid to each agent will not exceed the annual amount authorized by the Central Florida HIDTA Executive Committee. It will be the SUBRECIPIENT's responsibility to ensure that each agent does not exceed the Federal Overtime cap for each calendar year of the grant.

Fuel Reimbursement
Fuel reimbursement requests shall be submitted to the HIDTA Group Supervisor with accompanying documentation confirming the fuel purchases.

Vehicle Lease Reimbursement
HIDTA may pay a vehicle allowance to agencies that provide a vehicle on a full-time basis for agents participating in a HIDTA initiative. By requesting payment of a vehicle allowance, SUBRECIPIENT is attesting that the vehicle assigned to the agent is used exclusively for HIDTA initiative related activities. Vehicle allowance requests shall not exceed six hundred twenty dollars ($620) per month.

FUNDING SOURCE:
Reimbursement Agreement funded by the Office of National Drug Control Policy through the Seminole County Sheriff's Office (SCSO). No local match required.

RECOMMENDED MOTION:

Authorize the Chief of Police to accept and execute the Seminole County Sheriff's Office (SCSO) Subrecipient Agreement (HID0326G0677-00) for the FY2026 High Intensity Drug Trafficking Areas (HIDTA) Program.

Sheriff Dennis M. Lemma

SHERIFF
SEMINOLE COUNTY

July 20, 2026

Lovetta Quinn-Henry, PhD
Apopka Police Department
112 E. 6th Street
Apopka, FL 32703

Dear Chief Quinn-Henry:

The Office of National Drug Control Policy (ONDCP) has awarded the Seminole County Sheriff's Office grant funding in support of the Central Florida High Intensity Drug Trafficking Areas Program. As a member of Central Florida HIDTA, your agency is a subrecipient of the grant funds awarded to the Sheriff's Office. In order for the Sheriff's Office to reimburse your agency for expenses incurred as part of Central Florida HIDTA activities, please sign and return the included subrecipient agreement as soon as possible. The Sheriff's Office will not be able to reimburse any expenses until a signed subrecipient agreement is completed. An email copy of the signed agreement is acceptable in lieu of an original.

Please ensure the following sections of the subrecipient agreement are completed:
- Section 7 – Designated Representatives
- Section 15 – Notices
- Exhibit B – Subrecipient's Unique Entity Identifier (EIN)

If you have any questions, please contact me at btaylor@seminolesheriff.org.

Sincerely,

Barbara A. Taylor

Procurement and Agreements Manager

Attachment: Seminole County Sheriff's Office HIDTA Subrecipient Agreement

SEMINOLE COUNTY SHERIFF'S OFFICE
SUBRECIPIENT AGREEMENT FOR THE
HIGH INTENSITY DRUG TRAFFICKING AREAS PROGRAM
(HIDTA)

THIS AGREEMENT made and entered into the ____ day of _____, 2026 by and between Dennis M. Lemma, as Sheriff of Seminole County on behalf of the Seminole County Sheriff's Office whose address is 100 Eslinger Way, Sanford, Florida 32773, a Constitutional Officer of the political subdivision of Seminole County, State of Florida, holding tax exempt status, hereinafter referred to as "SCSO" and the Apopka Police Department whose principal and local address is 112 East 6th Street, Apopka, Florida 32703 hereinafter referred to as "SUBRECIPIENT." SCSO and SUBRECIPIENT are collectively referred to herein as the Parties.

***WITNESSETH*:**

WHEREAS, on July 03, 2026, the Executive Office of the President, Office of National Drug Control Policy awarded a grant to SCSO for the High Intensity Drug Trafficking Areas (HIDTA) Program (Grant #HID0326G0677-00) for a period of two (2) years beginning on January 1, 2026 which is attached as Exhibit C, Grant Agreement; and

WHEREAS, SUBRECIPIENT as a member of Central Florida HIDTA acknowledges the obligations of participation in the program; and

WHEREAS, SCSO, as a fiduciary of Central Florida HIDTA desires to reimburse SUBRECIPIENT for its performance to support the activities, programs and projects of Central Florida HIDTA upon the terms and conditions hereinafter set forth.

NOW, THEREFORE, in consideration of the mutual covenants and agreements hereinafter contained and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, it is agreed by and between the Parties hereto as follows:

SECTION 1: GENERAL PROVISIONS.

(a). The term "SUBRECIPIENT" as used in this Agreement is hereby defined herein as that person or entity, including employees, servants, partners, principals, agents and assignees participating in activities of Central Florida HIDTA under this Agreement.

(b). The recitals herein are true and correct and form and constitute a material part of this Agreement upon which the parties have relied.

(c). Each party hereto represents to the other that it has undertaken all necessary actions to execute this Agreement, and that it has the legal authority to enter

into this Agreement and to undertake all obligations imposed on it. The person(s) executing this Agreement for SUBRECIPIENT certify they are authorized to bind SUBRECIPIENT fully to the terms of this Agreement.

(d). Time is of the essence of the lawful performance of the duties and obligations contained in this Agreement .

(e). When the term “law” is used herein, said phrase shall include statutes, codes, rules and regulations of whatsoever type or nature enacted or adopted by a governmental entity of competent jurisdiction.

(f). It is agreed that nothing herein contained is intended or should be construed as in any manner creating or establishing a relationship of co-partners between the parties, or as constituting SUBRECIPIENT (including, but not limited to, its officers, employees, and agents) the agent, representative, or employee of SCSO for any purpose, or in any manner, whatsoever.

(g). Persons employed by SUBRECIPIENT to participate in the functions of Central Florida HIDTA pursuant to this Agreement shall have no claim to pension, workers’ compensation, unemployment compensation, civil service or other employee rights or privileges granted to SCSO’s officers and employees either by operation of law or by SCSO.

(h). No claim for reimbursement by SUBRECIPIENT not specifically provided for herein shall be honored by SCSO.

SECTION 2: SUBRECIPIENT RESPONSIBILITIES.

(a). SUBRECIPIENT acknowledges that funding for HIDTA operations is in the form of a federal grant and agrees to abide by all requirements set forth in the Grant Agreement in Exhibit C and the HIDTA Program Policy and Budget Guidance Manual located on the National HIDTA Assistance Center (NHAC) website at http://www.nhac.org/hidta_guidance/Program_Policy_and_Budget_Guidelines2017.pdf .

(b). SUBRECIPIENT shall be responsible for submittal of reimbursement requests in a format acceptable to SCSO as detailed in Section 7 of this Agreement.

(c). Neither SCSO’s review, approval or acceptance of, nor payment of any reimbursement invoice, shall be construed to operate as a waiver of any rights under this Agreement or of any cause of action arising out of the performance of this Agreement. SUBRECIPIENT shall be and remain liable to SCSO in accordance with applicable law for all damages to SCSO caused by SUBRECIPIENT’s negligent or improper reimbursement requests. SCSO is responsible to validate such damages or loss to SUBRECIPIENT.

(d). The rights and remedies of SCSO, provided for under this Agreement, are in addition to any other rights and remedies provided by law.

(e). SUBRECIPIENT shall disclose any potential conflicts of interest to this Agreement to SCSO prior to execution of the Agreement or if discovered after execution, as soon as SUBRECIPIENT is aware of the potential conflict of interest.

SECTION 3: SCSO RIGHTS AND RESPONSIBILITIES.

(a). SCSO shall reasonably cooperate with SUBRECIPIENT in a timely fashion as set forth in this Section.

(b). SCSO shall furnish a SCSO Representative, as appointed by the Designated Representative to administer, review and coordinate the payment of all reimbursement requests.

(c). SCSO shall make SCSO personnel available where, in SCSO's opinion, they are required and necessary to assist SUBRECIPIENT. The availability and necessity of said personnel to assist SUBRECIPIENT shall be determined solely at the discretion of SCSO.

(d). SCSO shall examine all of SUBRECIPIENT's reimbursement requests and indicate SCSO's approval or disapproval within a reasonable time so as not to materially delay the reimbursement of SUBRECIPIENT.

(e). SCSO shall transmit instructions, relevant information, and provide interpretation and definition of SCSO policies and decisions with respect to matters pertinent to the reimbursements covered by this Agreement.

(f). SCSO shall give written notice to SUBRECIPIENT whenever SCSO's Designated Representative knows of a development that affects the performance of this Agreement.

SECTION 4: REIMBURSEMENT.

Reimbursement requests, and all financial matters, shall be as set forth in Exhibit A, Reimbursement Procedures.

SECTION 5: INVOICE PROCESS.

(a). Invoices shall be submitted in the format in Exhibit D. Invoices shall be submitted on a quarterly basis to the appropriate HIDTA Group Supervisor for approval no later than fifteen (15) days following the end of the prior quarter. For this agreement, the end of each quarter is the months of December, March, June and September. Invoices without disputable items will be processed for payment within thirty (30) days of receipt of an approved invoice by SCSO.

(b). SUBRECIPIENT will be notified of any disputable items contained in invoices submitted by SUBRECIPIENT within fifteen (15) days of receipt by SCSO with an explanation of the deficiencies.

(c). SCSO and SUBRECIPIENT will make every effort to resolve all disputable items contained in SUBRECIPIENT invoices.

SECTION 6: TERM/LENGTH OF AGREEMENT.

(a). This Agreement shall commence January 1, 2026 and shall terminate on December 31, 2027 or until terminated pursuant to the terms of this Agreement.

SECTION 7: DESIGNATED REPRESENTATIVES.

(a). SCSO designates SCSO's Procurement and Agreements Manager or his/her designated representative, to represent SCSO in all matters pertaining to and arising from this Agreement.

(b). SCSO's Procurement and Agreements Manager, or his/her designated representative, shall have the following responsibilities:

(1). Transmission of instructions, receipt of information, and interpretation and definition of SCSO's policies and decisions with respect to this Agreement.

(2). Giving prompt notice to SUBRECIPIENT whenever SCSO's designated representative knows of a change necessary in the project.

(c). Until further notice from SCSO, the designated representative for this Agreement is:

Barbara Taylor, CPPO
Procurement and Agreements Manager
Seminole County Sheriff's Office
100 Eslinger Way
Sanford, Florida 32773

(d). SUBRECIPIENT's designated representative is:

Lovetta Quinn-Henry, PhD.
Chief of Police
Apopka Police Department
112 East 6th Street
Apopka, Florida 32703

SECTION 8: EMPLOYEES

(a). SUBRECIPIENT may engage employees at its discretion and is responsible for all such employees.

(b). SUBRECIPIENT shall comply with the requirements of the *Americans with Disabilities Act* (ADA), and any and all related Federal or State laws which prohibits discrimination by public and private entities on the basis of disability.

(c). SCSO will not intentionally award publicly-funded contracts to any SUBRECIPIENT who knowingly employs unauthorized alien workers, constituting a violation of the employment provisions contained in 8 U.S.C. Section 1324a(e) Section 274A(e) of the *Immigration and Nationality Act* (*INA*)]. SCSO shall consider the employment by SUBRECIPIENT of unauthorized aliens, a violation of Section 274A (e) of the *INA*. Such violation by SUBRECIPIENT of the employment provisions contained in Section 274A (e) of the *INA* shall be grounds for termination of this Agreement.

(d). If applicable, in accordance with Section 216.347, *Florida Statutes*, SUBRECIPIENT shall not use funds provided by this Agreement for the purpose of lobbying the Legislature, the judicial branch or State agency.

(e). SUBRECIPIENT shall advise SCSO in writing if it has been placed on a discriminatory vendor list, may not submit a bid on a contract to provide goods or services to a public entity, or may not transact business with any public entity.

(f). SUBRECIPIENT shall not knowingly engage in any action that would create a conflict of interest in the performance of that actions of any SCSO employee or other person during the course of performance of, or otherwise related to, this Agreement or which would violate or cause others to violate the provisions of Part III, Chapter 112, *Florida Statutes*, relating to ethics in government.

SECTION 9: ACCESS TO RECORDS/AUDIT /PUBLIC RECORDS.

(a). SUBRECIPIENT shall maintain books, records, documents, time and costs accounts and other evidence directly related to this Agreement. All time records and cost data shall be maintained in accordance with generally accepted accounting principles.

(b). SUBRECIPIENT shall maintain and allow access to the records required under this Section for a minimum period of five (5) years after the completion of this Agreement and date of final payment, or date of termination of this Agreement.

(c). SCSO may perform, or cause to have performed, an audit of the records of SUBRECIPIENT regarding payments issued hereunder. This audit shall be performed at a time mutually agreeable to SUBRECIPIENT and SCSO subsequent to the close of the final fiscal period of the agreement. Total compensation to SUBRECIPIENT may be determined subsequent to an audit as provided for in this Section, and the total

compensation so determined shall be used to calculate final payment to SUBRECIPIENT. If such audit confirms that SUBRECIPIENT was underpaid, SUBRECIPIENT shall submit an invoice to SCSO within fifteen (15) days of notice of underpayment for the balance owed. Conduct of this audit shall not delay payments as required by this Section. SUBRECIPIENT shall have no obligation to pay any costs incurred in any audit performed by SCSO or at SCSO's direction and such costs shall be the sole obligation of SCSO.

(d). In addition to the above, if Federal, State, County, or other entity funds are used for services under this Agreement, the Comptroller General of the United States or the Chief Financial Officer of the State of Florida, or Seminole County, or any representatives, shall have access to any books, documents, papers, and records of SUBRECIPIENT which are directly pertinent to this Agreement for purposes of making audit, examination, excerpts, and transcriptions.

(e). In the event of any audit or inspection conducted reveals any overpayment by SCSO under the terms of the Agreement, SUBRECIPIENT shall refund such overpayment to SCSO within thirty (30) days of notice by SCSO of the request for the refund.

(f). SUBRECIPIENT agrees that if any litigation, claim, or audit is started before the expiration of the record retention period established above, the records shall be retained until all litigation, claims or audit findings involving the records have been resolved and final action taken.

SECTION 10: DEBARMENT AND SUSPENSION

Federally awarded contracts must not be made to parties listed on the government wide exclusions in the System for Award Management (SAM). By executing this Agreement, SUBRECIPIENT is certifying SUBRECIPIENT is not currently on this list and will immediately notify SCSO if SUBRECIPIENT is placed on the list.

SECTION 11. ANTI-LOBBYING AMENDMENT

By executing this Agreement, SUBRECIPIENT is certifying that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award.

SECTION 12: CONTROLLING LAWS/VENUE/INTERPRETATION.

(a). This Agreement is to be governed by the laws of the State of Florida.

(b). Venue for any legal proceeding related to this Agreement shall be in the Eighteenth Judicial Circuit Court in and for Seminole County, Florida.

SECTION 13: *FORCE MAJEURE*.

Neither party shall be considered in default in performance of its obligations hereunder to the extent that performance of such obligations, or any of them, is delayed or prevented by *Force Majeure*. *Force Majeure* shall include, but not be limited to, hostility, terrorism, revolution, civil commotion, strike, epidemic, pandemic, fire, flood, wind, earthquake, explosion, any law, proclamation, regulation, or ordinance or other act of government, or any act of God or any cause whether of the same or different nature, existing or future; provided that the cause whether or not enumerated in this Section is beyond the control and without the fault or negligence of the party seeking relief under this Section.

SECTION 14: EXTENT OF AGREEMENT/INTEGRATION/AMENDMENT.

(a). This Agreement, together with the exhibits, if any, constitutes the entire integrated Agreement between SCSO and SUBRECIPIENT and supersedes all prior written or oral understandings in connection therewith. This Agreement, and all the terms and provisions contained herein, including without limitation the Exhibits hereto, constitute the full and complete agreement between the parties hereto to the date hereof, and supersedes and controls over any and all prior agreements, understandings, representations, correspondence and statements whether written or oral.

(b). This Agreement may only be amended, supplemented, terminated or modified by a formal written amendment.

(c). Any alterations, amendments, deletions, termination or waivers of the provisions of this Agreement shall be valid only when expressed in writing and duly signed by the parties.

SECTION 15: NOTICES.

(a). Whenever either party desires to give notice unto the other, it must be given by written notice, sent by registered United States mail, with return receipt requested, addressed to the party for whom it is intended, at the place last specified, and the place for giving of notice shall remain such until it shall have been changed by written notice in compliance with the provisions of this Section.

(b). For the present, the parties designate the following as the representative places for giving of notice, to-wit:

(1). For SCSO:

Barbara Taylor, CPPO
Procurement and Agreements Manager
Seminole County Sheriff's Office
100 Eslinger Way
Sanford, Florida 32773

(2). For SUBRECIPIENT:

Lovetta Quinn-Henry, PhD.
Chief of Police
Apopka Police Department
112 East 6th Street
Apopka, Florida 32703

(c). Written notice requirements of this Agreement shall be strictly construed and such requirements are a condition precedent to pursuing any rights or remedies hereunder. SUBRECIPIENT agrees not to claim any waiver by SCSO of such notice requirements based upon SCSO having actual knowledge, implied, verbal or constructive notice, lack of prejudice or any other grounds as a substitute for the failure of SUBRECIPIENT to comply with the express written notice requirements herein. Computer notification (e-mails and message boards) shall not constitute proper written notice under the terms of the Agreement.

SECTION 16: WAIVER.

The failure of SCSO to insist in any instance upon the strict performance of any provision of this Agreement or to exercise any right or privilege granted to SCSO hereunder shall not constitute or be construed as a waiver of any such provision or right and the same shall continue in force. The failure of SUBRECIPIENT to insist in any instance upon the strict performance of any provision of this Agreement or to exercise any right of privilege granted to SCSO hereunder shall not constitute or be construed as a waiver of any such provision or right and the same shall continue in force.

SECTION 17: CAPTIONS.

The Section headings and captions of this Agreement are for convenience and reference only and in no way define, limit, describe the scope or intent of this Agreement or any part thereof, or in any way affect this Agreement or construe any provision of this Agreement.

SECTION 18: SEVERABILITY/CONSTRUCTION.

(a). If any term, provision or condition contained in this Agreement shall, to any extent, be held invalid or unenforceable, the remainder of this Agreement, or the

application of such term, provision or condition to persons or circumstances other than those in respect of which it is invalid or unenforceable, shall not be affected thereby, and each term, provision and condition of this Agreement shall be valid and enforceable to the fullest extent permitted by law when consistent with equity and the public interest.

(b). All provisions of this Agreement shall be read and applied in *pari materia* with all other provisions hereof.

SECTION 19: COUNTERPARTS.

This Agreement may be executed in any number of counterparts, each of which shall be deemed an original, but all of which, taken together, shall constitute one and the same document.

SECTION 20: GRANT INFORMATION

See Exhibit B, Required Grant Information for information required for all subawards to this Federal Grant.

IN WITNESS WHEREOF, the parties hereto have made and executed this Agreement on the respective dates under each signature: SCSO and SUBRECIPIENT signing by and through its duly authorized corporate officer having the full and complete authority to execute same.

EXHIBIT A
REIMBURSEMENT PROCEDURES

SUBRECIPIENT shall provide reimbursement documentation to SCSO for agents participating in HIDTA sponsored task forces as outlined below.

Availability of funds for reimbursement is determined by the Central Florida HIDTA Executive Board. Not all categories listed are eligible for all agencies.

Requests for reimbursement shall be submitted on a quarterly basis to the HIDTA Group Supervisor in accordance with Section 7 of this Agreement.

Overtime Reimbursement

Maximum overtime reimbursement for each agent will be determined by the Group Supervisor of each HIDTA Task Force. Overtime reimbursements paid to each agent will not exceed the annual amount authorized by the Central Florida HIDTA Executive Committee. SUBRECIPIENT will compensate their agent(s) for overtime pay in accordance with SUBRECIPIENT's compensation policy. SUBRECIPIENT shall submit the reimbursement request with accompanying documentation confirming the overtime payment to the HIDTA Group Supervisor for approval. Overtime shall be reimbursed on actual overtime paid to the agent as documented on the agent's pay check.

At a minimum, overtime documentation shall include the following:

(a). Log of HIDTA hours worked
(b). Copy of payroll detail for each agent showing hours paid and hourly rate
(c). Copy of check stub showing overtime payment for HIDTA hours worked
(d). If overtime is paid on a different pay cycle than the pay period, an explanation of how overtime hours are calculated.

It will be the SUBRECIPIENT's responsibility to ensure that each agent does not exceed the Federal Overtime cap for each calendar year of the grant.

Fuel Reimbursement

Fuel reimbursement requests shall be submitted to the HIDTA Group Supervisor with accompanying documentation confirming the fuel purchases.

At a minimum, fuel reimbursement documentation shall include the following:

(a). Copy of each fuel receipt showing the date of purchase, amount of fuel purchased and total cost of each purchase.
(b). Proof of payment by the SUBRECIPIENT for the fuel purchase, i.e., copy of check, credit card statement, etc.
(c). If fuel payments are through a fuel card vendor such as WEX, reimbursement will

be for the amount paid to the fuel card vendor, not the amount on the receipt. The statement from the fuel card vendor will need to be submitted to document the actual amount paid.

Vehicle Lease Reimbursement

HIDTA may pay a vehicle allowance to agencies that provide a vehicle on a full-time basis for agents participating in a HIDTA initiative. By requesting payment of a vehicle allowance, SUBRECIPIENT is attesting that the vehicle assigned to the agent is used exclusively for HIDTA initiative related activities.

Vehicle allowance requests shall be submitted to the HIDTA Group Supervisor with the quarterly invoice. Vehicle allowance requests shall not exceed six hundred twenty dollars ($620) per month.

EXHIBIT B
REQUIRED GRANT INFORMATION

Required Information	
Subrecipient Name	Apopka Police Department
Subrecipient's Unique Entity Identifier	**U5ELGNDQMLV3**
Federal Award Identification Number	HID0326G0677-00

A. GENERAL TERMS AND CONDITIONS

(1) This award is subject to the Uniform Administrative Requirements, Cost Principles, and Audit Requirements in 2 C.F.R. § 200 (the "§ 200 Uniform Requirements"), as adopted and implemented by the Office of National Drug Control Policy (ONDCP) in 2 C.F.R.§3603. For this award, the § 200 Uniform Requirements supersede, among other things, the provisions of 28 C.F.R. §§ 66 and 70, as well as those of 2 C.F.R. §§ 215, 220, 225, and 230. For more information on the § 200 Uniform Requirements, see https://www.ecfr.gov/current/title-2/subtitle-A/chapter-II/part-200. For specific, award- related questions, recipients should contact ONDCP promptly for clarification.

(2) As a recipient of federal funding, compliance with all applicable laws and Executive Orders (EO) is a condition of this award, as required by federal regulations, including the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards 2 CFR Part 200. Your compliance responsibilities are ongoing throughout the period of performance.

- Your organization is expected to:
  - Review applicable EOs and associated guidance;
  - Update internal policies and practices to ensure alignment with these requirements; and
  - Cooperate fully with any compliance reviews or audits conducted by ONDCP.
- Failure to comply with applicable EOs may result in enforcement actions, including suspension or termination of funding, recovery of funds, or referral for debarment proceedings.
- Applicable EOs include, but are not limited to:
  - Executive Order 14159: Protecting the American People from Invasion
  - Executive Order 14168: Defending Women from Gender Ideology Extremism and Restoring Biological Truth to the Federal Government
  - Executive Order 14182: Enforcing the Hyde Amendment
  - Executive Order 14303: Restoring Gold Standard Science
  - Executive Order 14321: Ending Crime and Disorder on America's Streets
- Additional Executive Orders, including any issued during the period of performance, may apply. Applicants are responsible for ensuring compliance with all federal laws, regulations, Executive Orders and public policies governing financial assistance awards. If you have any questions regarding which EO(s) apply to your award or need technical assistance in updating your policies, please contact your program official.

(3) This award is subject to the following additional regulations and requirements:

- 28 C.F.R. § 69 – "New Restrictions on Lobbying"
- 2 C.F.R. § 25 – "Unique Entity Identifier and System for Award Management"
- Conflict of Interest and Mandatory Disclosure Requirements
- Non-profit Certifications (when applicable)

(4) Audits conducted pursuant to 2 C.F.R. § 200, Subpart F, "Audit Requirements" must be submitted no later than 9 months after the close of the recipient's audited fiscal year to The Federal Audit Clearinghouse (fac.gov)

(5) Recipients are required to submit Federal Financial Reports (FFR) to the Department of Health and Human Services, Payment Management Services (HHS/PMS). The Federal Financial Report is required to be submitted quarterly and within 90 days after the award is closed out.

(6) The recipient gives the awarding agency or the Government Accountability Office, through any authorized representative, access to, and the right to examine, all paper or electronic records related to the award.

(7) Recipients are not agents of ONDCP. Accordingly, the recipient, its fiscal agent(s), employees, contractors, as well as state, local, and federal participants, either on a collective basis or on a personal level, shall not hold themselves out as being part of, or representing, the Executive Office of the President or ONDCP.

(8) Recipient agrees that federal funds cannot be used for programs that discriminate based on protected characteristics. The recipient agrees to monitor sub-awards to ensure ongoing compliance with federal nondiscrimination laws.

(9) Failure to adhere to the General Terms and Conditions as well as the Program Specific Terms and Conditions may result in the termination of the award or the initiation of administrative action. ONDCP may also terminate the award if it no longer effectuates program goals or agency priorities. See 2 C.F.R. § 200.340.

(10) Conflict of Interest and Mandatory Disclosures

Conflict of Interest Requirements

As a recipient entity, you must follow ONDCP's conflict of interest policies for federal awards. Recipients must disclose in writing any potential conflict of interest to an ONDCP Program Officer; recipients that are pass-through entities must require disclosure from sub-recipients or contractors. This disclosure must take place immediately whether you are an applicant or have an active ONDCP award.

The ONDCP conflict of interest policies apply to sub-awards as well as contracts, and are as follows:

As a recipient entity, you must maintain written standards of conduct covering conflicts of interest and governing the performance of your employees engaged in the selection, award, and administration of sub-awards and contracts.

None of your employees may participate in the selection, award, or administration of a sub-award or contract supported by a federal award if he or she has a real or apparent conflict of interest. Such a conflict of interest would arise when the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of the parties indicated herein, has a financial or other interest in or a tangible personal benefit from an organization considered for a sub-award or contract. The officers, employees, and agents of the recipient entity must neither solicit nor accept gratuities, favors, or anything of monetary value from sub-recipients or contractors or parties to sub-awards or contracts.

If you have a parent, affiliate, or subsidiary organization that is not a state, local government, or

Indian tribe, you must also maintain written standards of conduct covering organizational conflicts of interest. Organizational conflicts of interest means that because of relationships with a parent company, affiliate, or subsidiary organization, you are unable or appear to be unable to be impartial in conducting a sub-award or procurement action involving a related organization.

Mandatory Disclosure Requirement

As a recipient entity, you must disclose, in a timely manner, in writing to ONDCP all violations of federal criminal law involving fraud, bribery, or gratuity violations potentially affecting the federal award. Recipient entities that have received a federal award are required to report certain civil, criminal, or administrative proceedings, including the terms and conditions outlined in 2 C.F.R part 200, Subpart F, Appendix XII, to the System for Award Management (SAM), currently the Federal Awardee Performance and Integrity Information System. Failure to make required disclosures can result in any of the remedies described in 2 C.F.R. § 200.339. (See also 2 C.F.R. § 180, 31 U.S.C. § 3321, and 41 U.S.C. § 2313.)

None of the funds appropriated or otherwise made available by this award or any other Act may be used to fund a contract, grant, or cooperative agreement with an entity that requires employees or contractors of such entity seeking to report fraud, waste, or abuse to sign internal confidentiality agreements or statements prohibiting or otherwise restricting such employees or contractors from lawfully reporting such waste, fraud, or abuse to a designated investigative or law enforcement representative of a federal department or agency authorized to receive such information. This limitation shall not contravene requirements applicable to Standard Form 312, Form 4414, or any other form issued by a federal department or agency governing the nondisclosure of classified information.

(11) Federal Funding Accountability and Transparency (FFATA) / Digital Accountability and Transparency Act (DATA Act). Each applicant is required to (i) be registered in SAM before submitting its application; (ii) provide a valid Unique Entity Identifier number in its application; (iii) continue to maintain an active SAM registration with current information at all times during which it has an active federal award; and (iv) provide all relevant recipient information required for ONDCP to collect for reporting related to FFATA and DATA Act requirements.

(12) Subawards are authorized under this award. Subawards must be monitored by the award recipient as outlined in 2 C.F.R. § 200.331.

(13) Recipients must comply with the Government-wide Suspension and Debarment provision set forth at 2 C.F.R. § 180, dealing with all sub-awards and contracts issued under the award.

(14) As specified in 2 C.F.R. § 200.303 Internal Controls, recipient must:

a) Establish and maintain effective internal controls over the federal award that provides reasonable assurance that federal award funds are managed in compliance with federal statutes, regulations and award terms and conditions. These internal controls should be in compliance with the guidance in “Standards for Internal Control in the federal Government,” issued by the Comptroller General of the United States and the “Internal Control Integrated Framework,” issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

b) Comply with federal statutes, regulations, and the terms and conditions of the federal awards.

c) Evaluate and monitor the recipient entity’s compliance with statute,

regulations, and the terms and conditions of the federal award.

d) Take prompt action when instances of noncompliance are identified, including noncompliance identified in audit findings.

e) Take reasonable measures to safeguard protected personally identified information (PII) and other information ONDCP or pass-through entity designates as sensitive or the recipient entity considers sensitive consistent with applicable federal, state, and local laws regarding privacy and obligations of confidentiality.

(15) Recipients are prohibited from using federal award funds to purchase certain telecommunication and video surveillance services or equipment in alignment with § 889 of the National Defense Authorization Act of 2019, Pub. L. No. 115-232. See 2 C.F.R. §200.216.

(16) Recipients should provide a preference, to the extent permitted by law, to maximize use of goods, products, and materials produced in the United States. See 2 C.F.R. § 200.322.

(17) When issuing statements, press releases, requests for proposals, bid solicitations and other documents describing projects or programs funded in whole or in part with federal money, all recipients receiving federal funds shall clearly state—

a) the percentage of the total costs of the program or project which will be financed with Federal money;

b) the dollar amount of Federal funds for the project or program; and

c) percentage and dollar amount of the total costs of the project or program that will be financed by non-governmental sources.

B. RECIPIENT INTEGRITY AND PERFORMANCE MATTERS

Reporting of Matters Related to Recipient Integrity and Performance

(1) General Reporting Requirement.

If the total value of your active grants, cooperative agreements, and procurement contracts from all Federal agencies exceeds $10,000,000 for any period of time during the period of performance of this Federal award, then you as the recipient must ensure the information available in the responsibility/qualification records through the System for Award Management (*SAM.gov*), about civil, criminal, or administrative proceedings described in paragraph (b) of this award term is current and complete. This is a statutory requirement under section 872 of Public Law 110-417, as amended (41 U.S.C. 2313). As required by section 3010 of Public Law 111-212, all information posted in responsibility/qualification records in *SAM.gov* on or after April 15, 2011 (except past performance reviews required for Federal procurement contracts) will be publicly available. See 2 C.F.R. Part 200, Appendix XII.

(2) Proceedings About Which You Must Report.
You must submit the required information about each proceeding that —

a. Is in connection with the award or performance of a grant, cooperative agreement, or procurement contract from the federal Government;

b. Reached its final disposition during the most recent five-year period; and

c. Is one of the following:

(1) A criminal proceeding that resulted in a conviction, as defined in paragraph 5 of this award term and condition;

(2) A civil proceeding that resulted in a finding of fault and liability and payment of a monetary fine, penalty, reimbursement, restitution, or damages of $5,000 or more;

(3) An administrative proceeding, as defined in paragraph 5 of this award term and condition, that resulted in a finding of fault and liability and your payment of either a monetary fine or penalty of $5,000 or more or reimbursement, restitution, or damages in excess of $100,000; or

- Any other criminal, civil, or administrative proceeding if:

  (i) It could have led to an outcome described in paragraph 2.c.(1), (2), or (3) of this award term and condition;

  (ii) It had a different disposition arrived at by consent or compromise with an acknowledgment of fault on your part; and

  (iii) The requirement in this award term and condition to disclose information about the proceeding does not conflict with applicable laws and regulations.

(3) Reporting Procedures

Enter in the SAM.gov Entity Management area the information that SAM.gov requires about each proceeding described in paragraph 2 of this award term and condition. You do not need to submit the information a second time under assistance awards that you received if you already provided the information through SAM.gov because you were required to do so under federal procurement contracts that you were awarded.

(4) Reporting Frequency

During any period of time when you are subject to the requirement in paragraph 1 of this award term and condition, you must report proceedings information through SAM.gov for the most recent five-year period, either to report new information about any proceeding(s) that you have not reported previously or affirm that there is no new information to report. Recipients that have federal contract, grant, and cooperative agreement awards with a cumulative total value greater than $10,000,000 must disclose semiannually any information about the criminal, civil, and administrative proceedings.

(5) Definitions

For purposes of this award term and condition:

a. Administrative proceeding means a non-judicial process that is adjudicatory in nature in order to make a determination of fault or liability (e.g., Securities and Exchange Commission Administrative proceedings, Civilian Board of Contract Appeals proceedings, and Armed Services Board of Contract Appeals proceedings). This includes proceedings at the Federal and State level, but only in connection with performance of a Federal contract or grant. It does not include audits, site visits, corrective plans, or inspection of deliverables.

b. Conviction means a judgment or conviction of a criminal offense by any court of competent jurisdiction, whether entered upon a verdict or a plea, and includes a conviction entered upon a plea of nolo contendere.

c. Total value of currently active grants, cooperative agreements, and procurement contracts includes the value of the Federal share already received plus any anticipated Federal share under those awards (such as continuation funding).

C. PAYMENT BASIS

(1) A request for advance or reimbursement shall be made using the HHS/PMS system (https://pms.psc.gov/).

(2) The recipient, must utilize the object classes specified within the initial budget/award application each time they submit a disbursement request to ONDCP. Requests for payment in the PMS system will not be approved unless the required disbursements have been entered using the corresponding object class designations. The recipient must provide written explanations or support, with specificity, for requests for each drawdown. Payments will be made via Electronic Fund Transfer to the award recipient's bank account. The bank must be Federal Deposit Insurance Corporation (FDIC) insured. The account must be interest bearing.

(3) Except for interest earned on advances of funds exempt under the Intergovernmental Cooperation Act (31 U.S.C. § 6501 et seq.) and the Indian Self-Determination and Education Assistance Act (25 U.S.C. §§ 5301 — 5423) awardees and sub-awardees shall promptly, but at least annually, remit interest earned on advances to HHS/PMS using the remittance instructions provided below.

Remittance Instructions – Remittances must include pertinent information of the payee and nature of payment in the memo area (often referred to as "addenda records" by Financial Institutions) as that will assist in the timely posting of interest earned on federal funds.

Pertinent details include the Payee Account Number (PAN), reason for check (remittance of interest earned on advance payments), check number (if applicable), awardee name, award number(s), interest period covered, and contact name and number. The remittance must be submitted as instructed in https://pms.psc.gov/grant-recipients/returning-funds-interest.html.

(4) The recipient or subrecipient may keep interest amounts up to $500 per year for administrative purposes.

D. PROGRAM SPECIFIC TERMS AND CONDITIONS

The grant conditions are as follows:

- This award is subject to the requirements in the SUPPORT for Patients and Communities Act, 21 U.S.C. §§ 1701 et seq. and in the ONDCP National HIDTA Program Office HIDTA *Program Policy and Budget Guidance* (September 9, 2021) (PPBG). The HIDTA PPBG is issued pursuant to authority granted the Director of ONDCP by the SUPPORT for Patients and Communities ACT (21U.S.C. § 1706) and the Uniform Administration Requirements (2 C.F.R. § 200) which provide the Director of ONDCP authority to coordinate funds and implement oversight and management function with respect to the HIDTA Program. The HIDTA PPBG can be accessed at the following website: https://www.nhac.org/PDF/Program_Policy_and_Budget_Guidance2021.pdf

- In addition, as a condition for receiving this award, recipients must coordinate all counterdrug operations with a local or regional Homeland Security Task Force.

Drawdown of awards, as described in Section C, constitutes your acceptance of these terms and conditions.

Recipients are prohibited from using federal grant funds to purchase certain telecommunication and video surveillance services or equipment in alignment with § 889 of the National Defense Authorization Act of 2019, Pub. L. No. 115-232. See 2 C.F.R. §200.216. See also, HIDTA PPBG, § 7.20, Prohibited Uses of HIDTA Funds.

E. FEDERAL AWARD PERFORMANCE GOALS

HIDTA award recipients must adhere to the performance measures, goals and requirements set forth in the PPBG Performance Management chapter (§ 10.0) and the HIDTA Performance Management Process (PMP) database.

City of Apopka
CITY COMMISSION STAFF REPORT

Section: CONSENT (Action Item)
Item #: 7.
Meeting Date: August 5, 2026
Department: Community Development

SUBJECT:
Authorization for the Mayor to Execute Three Temporary Right-of-Entry and Hold Harmless Agreements Related to the SR 429/Binion Road Half Interchange Project

ACTION ITEM INFORMATION:
Owner(s): APK Commerce, LLC; APK Corner, LLC; APK Development Opportunity, LLC (or the exact ownership names from the executed ROEs if they differ)
Location: The Ridge Planned Development (PD), Binion Road / SR 429 Interchange Area
Project: SR 429/Binion Road Half Interchange Project – Temporary Right of Entry Agreements
Project Manager: Jean Sanchez, Senior Planner

REQUEST:
Authorize the Mayor to execute three Temporary Right of Entry and Hold Harmless Agreements between the City of Apopka and the property owners of parcels within The Ridge Planned Development (PD) to facilitate construction of the SR 429/Binion Road Half Interchange Project by the Central Florida Expressway Authority (CFX).

SUMMARY:
The Central Florida Expressway Authority (CFX) is advancing the SR 429/Binion Road Half Interchange Project, which will provide a northbound entrance ramp and southbound exit ramp connecting Binion Road to State Road 429. To support construction of the interchange improvements, CFX requires temporary access to three privately owned parcels within The Ridge Planned Development (PD). The property owners of the affected parcels have executed Temporary Right-of-Entry and Hold Harmless Agreements granting CFX access for the construction activities identified in the agreements. The agreements are limited in scope and duration and do not convey any permanent property rights or easements. Under the Interlocal Agreement between the City of Apopka and CFX, the City agreed to assist CFX in obtaining the rights of entry needed for the project. Approval of this item will authorize the Mayor to execute the three agreements on behalf of the City and allow CFX to continue advancing the project.

Based on the latest information provided by CFX, advertisement of the Design-Build procurement is tentatively anticipated between in August or September 2026. The procurement schedule is currently being refined following the appointment of CFX's new Procurement Director. The Design-Build contract is anticipated to be presented to the CFX Governing Board for award in February 2027. Following award, the project will move through final design, permitting, utility coordination, and construction, with completion currently anticipated during the third or fourth quarter of 2029.

FUNDING SOURCE:
N/A

RECOMMENDED MOTION:

Move to authorize the Mayor to execute the three Temporary Right of Entry and Hold Harmless Agreements associated with the SR 429/Binion Road Half Interchange Project.

CENTRAL FLORIDA EXPRESSWAY AUTHORITY

Exhibit A - SR 429 Binion Road Interchange

City of Apopka
CITY COUNCIL STAFF REPORT

Section: BUSINESS (Action Item)
Item #: 1.
Meeting Date: November 5, 2025
Department: Community Development

SUBJECT:
Interlocal Agreement with the Central Florida Expressway Authority (CFX) – Binion Road/SR 429 Half Interchange

ACTION ITEM INFORMATION:
The City of Apopka and the Central Florida Expressway Authority (CFX) have worked collaboratively to bring forward a new half interchange at Binion Road and State Road 429, providing a northbound on-ramp and southbound off-ramp.

REQUEST:
Approve the Interlocal Agreement between the City of Apopka and the Central Florida Expressway Authority for the Binion Road and SR 429 Half Interchange Project, and authorize the Mayor to execute the agreement and any related documents.

SUMMARY:
The City of Apopka and the Central Florida Expressway Authority (CFX) have worked collaboratively for several years to bring forward a new half interchange at Binion Road and State Road 429. The interchange will provide a northbound on-ramp and southbound off-ramp, improving access to southwest Apopka and supporting growth in this area.

This project was first brought before the City Council in December 2021, when Pam Richmond presented a request for the City to support an interchange connection at Binion Road and SR 429. Since then, CFX initiated a Project Development and Environment (PD&E) study in 2022, and in April 2025, CFX held a public meeting to share design concepts, traffic analyses, and environmental findings. Throughout this period, staff has coordinated with CFX to align local access needs with regional expressway planning.

In parallel, the City also processed related actions, including an October 2024 interlocal agreement with Orange County to transfer a portion of Binion Road right-of-way to Apopka, ensuring local control over the roadway improvements tied to the interchange project.

Key Terms of Agreement:

- CFX Responsibilities: CFX will design, fund, permit, and build the interchange and associated improvements. This includes realignment of Boy Scout Road, installation of a roundabout, a frontage road, sidewalks, and a trail. After completion, CFX will own and maintain all interchange facilities within their right-of-way.
- City Responsibilities: The City will transfer limited-access right-of-way to CFX, review project plans for compliance with City roadway standards, and, after completion, own and maintain improvements in the City’s right-of-way (Binion Road, sidewalks, and trail).

- Costs: CFX will cover all project costs through design, construction, and long-term interchange maintenance. The City's financial role is limited to maintaining its own local improvements once constructed.

The project represents a significant transportation improvement for Apopka, provides direct benefits to residents and businesses, and advances a longstanding Council priority initially presented by staff in 2021. Approval of this agreement secures CFX's role in fully funding and delivering the interchange, while clearly defining the City's responsibilities for local roadway maintenance.

FUNDING SOURCE:

The project construction is fully funded by CFX.

RECOMMENDED MOTION:

Approve the Interlocal Agreement between the City of Apopka and the Central Florida Expressway Authority for the Binion Road and SR 429 Half Interchange Project, and authorize the Mayor to execute the agreement and any related documents.

CENTRAL FLORIDA EXPRESSWAY AUTHORITY

Agenda Item 20

ILA – SR 429 Binion Rd

SR 429 BINION ROAD INTERCHANGE
INTERLOCAL AGREEMENT

THIS BINION ROAD INTERCHANGE INTERLOCAL AGREEMENT (this "Agreement") is made and entered into as of this 11th day of December, 2025 by and between Central Florida Expressway Authority, an agency of the state, existing under Chapter 348, Part II, F.S. ("CFX") and the City of Apopka, a municipal corporation of the State of Florida (the "City") (each a "Party" and collectively, the "Parties").

RECITALS

WHEREAS, CFX is authorized by Chapter 348, Florida Statutes, to construct, reconstruct, improve, extend, repair, maintain and operate its expressway system, together with approaches, streets, roads, bridges, and avenues of access for such system (collectively, "Expressway System") and to enter into contracts and other agreements with municipalities for the purpose of carrying out such powers; and

WHEREAS, the City desires to more directly connect State Road 429 with southwest Apopka through the addition of a half interchange (northbound entrance and southbound exit ramp) connecting Binion Road to State Road 429; and

WHEREAS, in August 2022, CFX began a Project Development and Environment (PD&E) Study for the addition of the half interchange; and

WHEREAS, the PD&E Study shows certain requirements and CFX agrees to perform additional work beyond what is required in the PD&E as follows: (1) the addition of the half interchange, which requires the realignment of the existing Boy Scout Road to stay within the right-of-way that currently exists; (2) the design and construction of a sidewalk along the south side of the re-aligned Boy Scout Road; (3) the design and construction of a frontage road as shown as Access Road on Exhibit "A" for the existing property owners along the existing Boy Scout Road applicable only to driveways that can safely be connected to the frontage road (the remaining driveways to be connected directly to the re-aligned Boy Scout Road); (4) the installation of a roundabout at the intersection of the re-aligned Boy Scout Road and Binion Road; (5) the design, construction and reconfiguration of Binion Road within the existing Binion Road right-of-way without encroachment on CFX right-of-way, and; (6) the design and construction of a trail along the west side of Binion Road within the existing Binion Road right-of-way without encroachment on CFX right-of-way, as more particularly described in Exhibit "A" attached hereto and incorporated herein by this reference (the "Project"); and

WHEREAS, Re-aligned Boy Scout Road, existing Boy Scout Road, Access Road, and Binion Road are local roads owned by the City, all to continue to be maintained by the City; and

WHEREAS, the properties/driveways along Access Road will maintain the address of Boy Scout Road when construction is completed; and

WHEREAS, the City agrees to transfer the defined areas of limited access right of way presently owned by the City as shown in Exhibit "A"; and

WHEREAS, all improvements within the City's right of way will be maintained by the City and all improvements within the Limited Access right of way will be maintained by CFX; and

WHEREAS, CFX desires to enter an agreement with the City setting forth the terms and conditions governing the design, permitting, funding, construction, operation, and maintenance of the Project; and

WHEREAS, CFX wishes to assume all responsibility for the implementation of the Project, including, the funding, planning, design, acquisition of permits, development of construction plans, construction, construction management and construction inspection of the Project; and

WHEREAS, the City is willing under the terms and conditions of this Agreement to authorize CFX to implement the Project within the City Property as described in Exhibit "A"; and

WHEREAS, CFX will solicit the services of a design consultant and construction contractor for the Project and has included this project in its five-year work program; and

WHEREAS, in the event CFX issues revenue bonds, whether on system-wide basis or specific to the Project, the City acknowledges that toll revenues generated by the users of the Project as part of CFX's expressway system may be pledged to secure any such revenue bonds issued by CFX.

NOW THEREFORE, in consideration of the mutual promises, covenants, and agreements contained herein and other valuable consideration, receipt of which is hereby acknowledged, the Parties mutually undertake, promise, and agree for themselves, their successors, and assigns as follows:

SECTION 1. RECITALS. CFX and the City acknowledge and agree the foregoing recitals are true and correct and by reference incorporated and made a part of this Agreement.

SECTION 2. AUTHORIZATION. The City authorizes CFX to manage and direct the construction, operation, and funding of the Project within the City Property in accordance with the terms and conditions of this Agreement. Prior to completion of the design of the Project, the City shall cooperate and work in good faith to negotiate any necessary right of entry over, upon, and across private development (third parties) for the construction of the Project improvements in accordance with the terms and conditions hereof. Upon completion and acceptance of the Project by CFX as set forth herein, the improvements to the City Property shall be owned and maintained by the City. Upon completion and acceptance of the Project by CFX as set forth herein, the Project within the limited access area shall otherwise be owned, operated, maintained and repaired by CFX. Neither the granting of permission to use the City Property nor the placing of the Project upon the City Property shall operate to convey any ownership of or otherwise create or vest any property right to or in the City Property in CFX other than the specific right of way for the limited access improvements deeded to CFX from the City and use rights granted to CFX pursuant to this

Agreement and any subsequent easement or agreement. The City acknowledges that it does not have any ownership or interest in the Project and this Agreement does not create or vest any property right to or in the Project to the City.

SECTION 3. CONDITION OF THE CITY PROPERTY. CFX acknowledges that the City is making no representations regarding the suitability of the City Property for the Project, and CFX will utilize the City Property "as-is" without any expenditure or action by the City to alter or improve the City Property or remedy any condition thereon. CFX has inspected the City Property to the extent desired by CFX for the use contemplated by this Agreement and CFX is satisfied with the physical condition of the City Property with respect to such use. It is understood and agreed that all understandings and discussions of the Parties concerning the City Property are merged into this Agreement and that this Agreement is entered into after full investigation of the City Property by CFX for the use contemplated by this Agreement, with neither party relying upon any statements or representations of the other not embodied in this Agreement. CFX acknowledges that the City has afforded and has agreed to continue to afford it the opportunity of a full and complete investigation, examination, and inspection of the City Property for the use contemplated by this Agreement and all matters and items related or connected to the City Property. There are no expressed or implied warranties given by the City to CFX in connection with the City Property except as otherwise expressly set forth in this Agreement. CFX EXPRESSLY RELEASES THE CITY FROM ANY LIABILITY, WARRANTY, OR OBLIGATION TO CFX RELATING TO THE CONDITION OF THE CITY PROPERTY FOR THE USE CONTEMPLATED BY THIS AGREEMENT, SPECIFICALLY INCLUDING: LATENT AND PATENT CONDITIONS; PERMITTING; SUBSOIL CONDITIONS; STORMWATER DRAINAGE CONDITIONS; THE EXISTENCE OR CONDITION OF ANY UTILITIES; AND ANY AND ALL OTHER MATTERS RELATING TO THE PHYSICAL CONDITION OF THE CITY PROPERTY FOR THE USE CONTEMPLATED BY THIS AGREEMENT. THE PROVISIONS OF THIS SECTION 3 SHALL SURVIVE THE EXPIRATION OR EARLIER TERMINATION OF THIS AGREEMENT.

SECTION 4. PROJECT COSTS. CFX shall pay all costs associated with implementing the Project, including all costs of planning, permitting, design, construction, construction inspection and construction management. CFX shall pay all costs associated with the operation, maintenance, repair, and renewal of the interchange located within existing and proposed limited access right-of-way. The City shall pay all costs associated with the operation, maintenance, repair, and renewal of the City Property. CFX shall not cause or permit any liens or encumbrances to attach to any portion of City Property. CFX shall, at its expense, retain a consulting engineering firm prequalified by the CFX to provide Construction Engineering and Inspection ("CEI") services (as defined in Chapter 337, Florida Statutes) for all improvements constructed on the City Property by CFX or its contractor. All Project design and construction files shall be made readily available to the City upon their request. Prior to commencing physical construction on the Project within the City Property, CFX (or its contractor) shall obtain a payment and performance bond in an amount not less than the cost of construction of the Project, written by a surety authorized to do business in the State of Florida, with the City as an obligee thereunder. Said bond shall be in a form which is acceptable to the City. The bond shall remain in effect until completion of construction of the City Property improvements.

SECTION 5. PUBLIC INVOLVEMENT. The public was involved during the PD&E phase of this process and CFX shall ensure adequate public involvement during the design phase of the Project.

SECTION 6. DESIGN AND CONSTRUCTION STANDARDS. The portions of the Project within the City Property shall be designed and constructed in accordance with the City Roadway Standards. CFX shall not be required to landscape the roundabout. CFX shall submit any construction plans for the portions of the Project within the City Property ("Plans") for review by the City for compliance with the City's design standards prior to any work being commenced on the Project in City Property. Should any changes to the Plans be required during construction of the Project, CFX shall notify the City of the changes and submit the plan changes for City review for compliance with the City's design standards prior to the changes being constructed. During construction of the Project, CFX shall maintain the area of the Project at all times and coordinate any work needs with the City. The design and construction, and CEI of the Project shall only be undertaken by professional consultants and contractors. CFX shall contractually require all contractors and subcontractors to have all required licenses and certifications necessary to work on the Project.

SECTION 7. PERMITTING. All permits, licenses, and other authorizations required for construction of the Project shall be obtained by CFX, at CFX's sole cost and expense, from all federal, state, and local entities having jurisdiction, including, but not limited to, the following, if and as applicable: Federal Highway Administration, United States Army Corps of Engineers, the Florida Department of Environmental Protection, and the St. Johns River Water Management District. The City (at no cost to the City) shall reasonably cooperate with CFX in connection with CFX obtaining all such permits and licenses. All work performed by CFX (or on its behalf) on the City Property shall conform to all applicable federal, state, and local regulations. In connection with obtaining the required Environmental Resource Permit, or other equivalent environmental clearance, CFX shall perform a reevaluation of any existing environmental conditions or otherwise update the PD&E to the extent required or requested by any governmental authority or permitting agency having jurisdiction over the Project. Prior to commencement of construction on the Project, CFX shall provide the City with evidence, satisfactory to the City in its reasonable discretion, that CFX has obtained all required permits and environmental clearances required for construction of the Project.

SECTION 8. CONSTRUCTION ACTIVITIES. All construction of the Project shall be performed in strict accordance with the Plans provided to the City for review and in a good and workmanlike manner at no cost or expense to the City. CFX shall notify the City a minimum of 48 hours before beginning construction within the City Property. CFX shall notify the City if construction is suspended for more than five (5) consecutive working days. Any construction of the Project shall be performed and arranged in a manner which will not unreasonably interfere with the convenient, safe, and continuous use, and maintenance and improvement, of the public highway and streets located on or adjacent to the City Property. CFX shall protect all existing facilities and structures on the City's right-of-way during construction. CFX shall maintain its work in such condition that adequate drainage will exist at all times. The construction of the Project shall not temporarily or permanently cause a material adverse effect to existing functioning storm sewers, gutters, ditches, and other run-off facilities. Any fire hydrants on or adjacent to the City's

right-of-way shall be accessible at all times, and no material or obstruction shall be placed within fifteen (15) feet of any such fire hydrant. Heavy equipment shall not be operated close enough to pipe headwalls or other structures to cause damage or displacement. The City may, but shall not be required to, perform its own independent testing and inspection during the course of the Project. If the City determines a condition exists which fails to meet City standards or threatens the public's safety, the City may, in its discretion, cause construction operations to cease and immediately have any improvements that fail to meet City standards or potential hazards removed from its right-of-way at the sole cost, expense, and effort of CFX.

SECTION 9. UTILITIES. CFX shall be responsible for locating all existing utilities, both aerial and underground, and for ensuring that all utility locations are accurately documented on the construction plans. All utility conflicts shall be fully resolved by CFX directly with the applicable utility, at no cost or expense to the City, provided that no resolution shall impose any new or different obligations on the City or vary the terms of any permit or other authorization under which a utility occupies any part of the City Property. Any relocation of a utility to a new location within City owned right-of-way shall be coordinated with the City to avoid creating conflicts with future City projects. To the extent the City determines appropriate and feasible without any cost to the City, the City will request, or authorize CFX to request on the City's behalf, relocation of utilities where the permit or other authorization to occupy the City Property provides for relocation of the utility at the cost of the utility. Nothing in this section shall be construed as requiring the City to pay any costs associated with relocation of or damage to any utilities on the City Property or otherwise in connection with the Project.

SECTION 10. ENVIRONMENTAL POLLUTION. Execution of this Agreement constitutes a certification by CFX that the Project will be constructed, operated and maintained in conformance with all applicable environmental laws and regulations including those relating to:

A. the manufacture, processing, use, distribution, existence, treatment, storage, disposal, generation, and transportation of hazardous substances and pollutants;

B. air, soil, surface and subsurface strata. stream sediments, surface water, and groundwater;

C. releases of hazardous substances and pollutants;

D. protection of wildlife, endangered, and threatened species and species of special concern, wetlands, water courses and water bodies, historical, archeological, and paleontological resources, and natural resources;

E. health and safety of employees and other persons with respect to hazardous substances;

F. notification, documentation, and record keeping requirements relating to the foregoing; and

G. the securing of any applicable permits.

CFX will be responsible for any liability in the event of CFX's non-compliance with applicable environmental laws or regulations, including the securing of any applicable permits in connection with the construction of the Project and/or maintenance of the Project, taking appropriate action to contain, mitigate and promptly remediate any release of a hazardous material or substance on City Property by CFX, its contractors or any third party using the Project for highway purposes, and for any liability that results from CFX's (or any of its contractors') failure to exercise due care and take reasonable precautions with respect to any hazardous material or substance or pollution existing on the City Property in connection with the construction of the Project, taking into consideration the characteristics of such hazardous material or substance or pollution, in light of all relevant facts and circumstances, and will reimburse the City for any loss incurred by the City in connection therewith. If before, during, or because of construction of the Project remediation of any hazardous material or substance or pollution existing on the City Property before or during the commencement of construction of the Project is required by law, CFX shall timely perform, or cause to be performed, such remediation work as is required, at CFX's sole expense. The provisions of this Section 8 shall survive the expiration or earlier termination of this Agreement.

SECTION 11. PUBLIC SAFETY. CFX is responsible for ensuring the safety of the public during all phases of Project construction and maintenance. CFX and its contractors shall request the authority from the City to take any appropriate action to restrict or prohibit travel on any City owned road when required to protect the traveling public. CFX shall follow City procedures for any closure of a City owned road. Notwithstanding anything to the contrary in any City or other governmental procedure, if CFX, or its contractors, become aware of circumstances related to the Project that could present an imminent risk of harm to the travelling public, CFX shall, and shall require its contractors to, immediately take all appropriate steps to protect the public, including requesting immediate closure of any transportation facility.

SECTION 12. COMPLETION AND ACCEPTANCE. Initial construction of the Project shall be completed on or before ten (10) years from the Effective Date of this Agreement. Prior to completion of construction, CFX shall remove all CFX's property, machinery, and equipment that is not a permanent part of the Project from City right-of-way and shall restore those portions of City right-of-way disturbed or otherwise altered by the Project (but not occupied by the Project) to substantially the same or better condition that existed immediately prior to the commencement of the Project. Upon completion of construction, CFX shall certify to the City in writing that construction of the Project has been completed. For all Project work that originally required certification by a professional engineer, this notification shall contain an Engineers Certification of Compliance, signed and sealed by a professional engineer, certifying that all work which originally required certification by a professional engineer has been completed in compliance with the Project construction plans and specifications. If any deviations are found from the approved plans, the certification shall include a list of all deviations and the justification for each deviation. The City will review the as-built plans and Project documentation and perform such additional inspections as it requires to verify completion of the Project in accordance with the requirements of this Agreement and the City shall accept the Project as complete. In the event of and upon notice by the City to CFX that it is has determined that construction was not accomplished in accordance with the terms of this Agreement, CFX shall remedy any deficiency identified by the City and once CFX has remedied such deficiency the City shall accept the Project as complete. Once accepted as

complete by the City, the portions of the Project on City Property shall be maintained and repaired by the City.

SECTION 13. AS-BUILT PLANS. Upon completion of construction of the Project, CFX shall file with the City an as-built set of the digital plans of the Project. CFX's Engineer of Record ("EOR") shall review the as-built set. With the as-built set of plans, the EOR shall submit a final set of design computations. The EOR shall also submit the as-built drawings to the City in CADD files, using a format and layering system reasonably acceptable to the City.

SECTION 14. COMPLIANCE WITH LAWS. CFX shall perform this Agreement in a good and workmanlike manner, with reasonable care, in accordance with the terms and provisions of this Agreement and all applicable federal, state, local, administrative, regulatory, safety and environmental laws, codes, rules, regulations, policies, procedures, guidelines, standards and permits, as the same may be constituted and amended from time to time, including, but not limited to, those of the City, the St. John's Water Management District, Florida Department of Environmental Protection, Environmental Protection Agency, the Army Corps of Engineers, the United States Coast Guard and local governmental entities.

SECTION 15. JURY TRIAL WAIVER. CFX AND THE CITY EACH HEREBY IRREVOCABLY AND UNCONDITIONALLY WAIVES TRIAL BY JURY IN ANY LEGAL ACTION OR PROCEEDING ARISING OUT OF ANY MATTER PERTAINING OR RELATING TO THIS AGREEMENT AND FOR ANY COUNTERCLAIM THEREIN. The provisions of this Section shall survive the expiration or earlier termination of this Agreement.

SECTION 16. INDEMNIFICATION.

a. **Third Party Claims**: Subject to the terms and conditions of this section and to the extent permitted by law, CFX shall defend, indemnify, save and hold harmless the City and all of its officers, agents and employees, from any and all third-party claims resulting in actual losses, damages, costs, claims, demands, suits, judgments, fines, penalties, and reasonable attorneys' fees (including appellate and regulatory attorney's fees) of any kind or nature, to the extent arising out of any act, error, omission, or negligence by or through CFX or its employees, agents, contractors, or subcontractors, made in connection with the Project (a "Claim" and collectively "Claims"); provided, however, that CFX will not be liable under this subsection (a) for any Claim to the extent arising out of the sole negligence, intentional or wrongful acts of the City, or any of the City's officers, agents, or employees. For Claims covered by this subsection (a), CFX shall provide counsel reasonably acceptable to the City and pay all reasonable attorneys' fees and other litigation costs incurred to fulfill CFX's defense and indemnification obligations under this subsection (a).

Subject to the terms and conditions of this section and to the extent permitted by law, City shall defend, indemnify, save and hold harmless the CFX and all of its officers, board members, agents and employees, from any and all third-party claims resulting in actual losses, damages, costs, claims, demands, suits, judgments, fines, penalties, and reasonable attorney' fees (including appellate and regulatory attorney's fees) of any kind or nature, to the extent arising out of any act, error, omission, or negligence by or through City or its employees, agents, contractors, or

subcontractors, made in connection with the Project (a "Claim" and collectively "Claims"); provided, however, that City will not be liable under this subsection (a) for any Claim to the extent arising out of the sole negligence, intentional or wrongful acts of the CFX, or any of the CFX's officers, agents, or employees. For Claims covered by this subsection (a), City shall provide counsel reasonably acceptable to the CFX and pay all reasonable attorneys' fees and other litigation costs incurred to fulfill City's defense and indemnification obligations under this subsection (a).

Within thirty (30) days after receiving written notice of a Claim covered by this subsection (a), the party receiving the claim shall send written notice to the other party setting forth a statement of known facts pertaining thereto. Each party shall promptly send to the other a copy of any summons, suit, or subpoena served upon or received any of its agents, employees, or representatives, which asserts a claim or cause of action based upon any act, error, omission, or negligence of its employees, agents, contractors, or subcontractors in connection with the Project. A party's failure to promptly notify the other party of a Claim will not act as or constitute a waiver of any rights of the City under this Agreement, except to the extent that the party is prejudiced of such failure. Notwithstanding the foregoing, or anything to the contrary in this Agreement, in no event shall the requirements of this subsection (a) be construed to provide an independent legal basis to hold CFX or the City liable to any other person or entity for any damages, whether direct, indirect, punitive, special or consequential damages (including, but not limited to, loss of profits, interest, earnings or use) and whether arising in contract, tort or otherwise. Nothing in this subsection (a) shall be construed as a waiver or attempted waiver by the City or CFX of sovereign immunity in tort under the Constitution and the laws of the State of Florida for the benefit of any third party. However, the indemnification provided in this subsection (a) specifically includes and extends to claimed losses or damages by third parties, in inverse condemnation or otherwise, brought against the City by owners of property in the vicinity of the City Property by virtue of the existence of this Agreement or the Project ("Inverse Condemnation Claims"). Inverse Condemnation Claims shall be solely the responsibility of CFX and the City shall not be deemed responsible for any portion of such Claims by virtue of having entered into or acting under this Agreement, including, but not limited to, by approving any activities of CFX pursuant to this Agreement.

b. **Damage to City Facilities**. CFX shall also indemnify and hold harmless the City from any other actual losses or damages of any kind or nature to any other City owned facility or property, to the extent arising out of any act, error, omission, or negligence by or through CFX or its employees, agents, contractors, or subcontractors, made in connection with CFX's design, permitting, construction, operation or maintenance of the Project; provided, however, that CFX will not be liable under this subsection (b) for any losses or damages to the extent arising out of the sole negligence, intentional or wrongful act of the City, or any of the City's officers, agents, or employees.

c. **Mandatory Clause**. CFX agrees to include the following indemnification clause in all contracts entered into after the date of this Agreement with contractors, subcontractors, consultants, or subconsultants who perform work in connection with this Agreement (modified to appropriately identify the parties): "CFX's contractor/consultant shall indemnify and hold harmless CFX and the City of Apopka, including the City's officers and employees, from

liabilities, damages, losses and costs, including, but not limited to, reasonable attorney's fees, to the extent caused by the negligence, recklessness or intentional wrongful misconduct of the contractor/consultant and persons employed or utilized by the contractor/consultant in the performance of this agreement. This indemnification shall survive the termination of this agreement."

d. **Survival**. This section shall remain in full force and effect in accordance with its terms and shall not be terminated by any breach (fundamental, negligent or otherwise) by any Party of its representations, warranties or covenants hereunder or by the expiration, termination, or rescission of this Agreement by any Party.

e. **Third Parties**. The provisions of this Section are solely with respect to CFX and the City. No third party shall have the right to seek indemnification from CFX pursuant to this Section, and by entering into this Agreement, CFX expressly reserves its rights with respect to sovereign immunity to the extent applicable to any third-party claims.

SECTION 17. INSURANCE. CFX will, at all times, include the Project in the insurance program required by the CFX's Master Bond Resolution or any supplemental resolution, as amended from time to time, but always including multi-risk insurance on the Project that are of an insurable nature covering direct physical damage to the Project in amounts which CFX's general engineering consultant certifies as sufficient to repair, restore, and replace the Project. CFX covenants and agrees that the proceeds of any insurance policies paid to CFX in connection with damage to the Project shall be used solely to repair, restore, and replace the Project and the City Property. CFX will, at all times, require its contractors performing work on the Project during construction and the Project upon completion and acceptance of the Project to carry commercial general liability insurance against loss or liability in connection with bodily injury, personal injury, death, or property damage or destruction occurring on or about the City Property to the extent caused by the contractor's construction, operation, or maintenance of the Project and include the City as an additional insured under such insurance.

SECTION 18. CONDITIONS PRECEDENT. The Parties shall incur no obligations under this Agreement until ("Conditions Precedent"):

a. CFX has received an opinion of its bond counsel satisfactory to it in its sole discretion that this Agreement does not violate the terms of any resolution or indenture of CFX pursuant to which revenue bonds of CFX have been issued.

b. CFX has determined the funds are readily available for the design, permitting, construction, operation, and maintenance of the Project. The maintenance of the City property is limited to the time frame of the construction only. Upon completion of the Project the City will maintain the improvements within the City.

CFX will notify the City of the satisfaction of such conditions. In the event any of the Conditions Precedent are not satisfied, or otherwise waived by CFX, on or prior to ten (10) years from the Effective Date of this Agreement, either of the Parties hereto may elect to terminate this Agreement by providing written notice to the other Party. Notwithstanding the foregoing, the City understands and acknowledges that CFX is relying on and expending funds on the City's representations in this

Agreement that the City Property will be available for use for the Project, and as such, this Agreement shall remain in effect for fifteen (15) years from the Effective Date unless otherwise terminated by CFX. Upon satisfaction of all Conditions Precedent and thereafter, this Agreement may only be terminated by the mutual agreement of the Parties.

SECTION 19. E-VERIFY. CFX:

a. shall utilize the U.S. City of Homeland Security's E-Verify system to verify the employment eligibility of all new employees hired by CFX during the term of this Agreement; and

b. shall expressly require any contractors and subcontractors performing work or providing services pursuant to this Agreement to likewise utilize the U.S. City of Homeland Security's E-Verify system to verify the employment eligibility of all new employees hired by the contractor or subcontractor during the term of this Agreement.

SECTION 20. PUBLIC RECORDS. CFX shall allow public access to all documents, papers, letters, or other material subject to the provisions of Chapter 119, Florida Statutes, and made or received by CFX in conjunction with this Agreement. Specifically, CFX shall:

a. Keep and maintain public records that ordinarily and necessarily would be required by the City in order to perform the services being performed by CFX.

b. Provide the public with access to public records on the same terms and conditions that the City would provide the records and at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law.

c. Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law.

d. Meet all requirements for retaining public records and transfer, at no cost, to the City copies of all public records regarding the Project in possession of CFX.

All records stored electronically must be provided to the City in a format that is compatible with the information technology systems of the City. Failure by CFX to grant such public access shall be grounds for immediate unilateral cancellation of this Agreement by the City. CFX shall promptly provide the City with a copy of any request to inspect or copy public records in possession of CFX and shall promptly provide the City a copy of CFX's response to each such request. The provisions of this Section shall survive the expiration or earlier termination of this Agreement.

SECTION 21. MISCELLANEOUS.

a. CFX acknowledges that it has reviewed this Agreement, is familiar with its terms, and has had an adequate opportunity to review this Agreement with legal counsel of CFX's choosing. CFX has entered this Agreement freely and voluntarily. The City acknowledges that it has reviewed this Agreement, is familiar with its terms, and has had an adequate opportunity to

review this Agreement with legal counsel of the City's choosing. The City has entered this Agreement freely and voluntarily. This Agreement contains the complete understanding of the Parties with respect to the subject matter of this Agreement. All prior understandings and agreements, oral or written, made between the Parties are merged in this Agreement, which alone, fully and completely expresses the agreement between the City and CFX with respect to the terms of this Agreement. No modification, waiver, or amendment of this Agreement or any of its conditions or provisions shall be binding upon the City or CFX unless in writing and signed by both Parties.

b. The failure of either party to insist on one or more occasions on the strict performance or compliance with any term or provision of this Agreement shall not be deemed a waiver or relinquished in the future of the enforcement thereof, and it shall continue in full force and effect unless waived or relinquished in writing by the party seeking to enforce the same.

c. CFX may not assign, pledge or transfer any of the rights, duties and obligations provided in this Agreement without the prior written consent of the City Manager, which may be withheld at his or her sole discretion.

d. Except as specifically provided herein, nothing in this Agreement or in any documents executed pursuant to the terms of this Agreement shall be construed as a waiver or attempted waiver by the City of its sovereign immunity in tort under the Constitution and laws of the State of Florida and to the extent that the legality or enforcement of any of the provisions of this Agreement would be dependent upon a waiver of sovereign immunity, those provisions shall be deemed to be severed from this Agreement and the Agreement shall remain in full force and effect.

e. This Agreement shall not be deemed to be a binding commitment of funds in violation of Section 339.135(6)(a), Florida Statutes.

f. This Agreement is governed by the laws of the State of Florida, and any applicable laws of the United States of America. Venue for any action arising under this Agreement shall be in Orange County, Florida.

g. If any term or provision of this Agreement is found to be invalid, illegal, or unenforceable, the remainder of this Agreement will remain in full force and effect. The City and CFX shall endeavor in good-faith negotiations to replace the invalid, illegal, or unenforceable provision with valid provisions the economic effect of which comes as close as possible to that of the invalid, illegal, or unenforceable provision.

h. This Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective successors and assigns. Nothing in this Agreement is intended to confer any rights, privileges, benefits, obligations or remedies upon any other person or entity except as expressly provided for herein.

i. The parties acknowledge that the definition of the Project as set forth herein is solely for the purposes of this Agreement and that CFX may include the Project within the scope

of a larger capital improvement project that incorporates improvements within CFX's right-of-way.

j. The headings used herein are for convenience of reference only and shall not constitute a part hereof or affect the construction or interpretation hereof.

k. CFX agrees and warrants that in the performance of this Agreement, it will not discriminate or permit discrimination against any person or group of persons on the grounds of race, color, sex, religion, or national origin in any manner prohibited by the laws of the United States or the State of Florida applicable to CFX.

l. This Agreement shall not create any third-party beneficiary under this Agreement, nor shall this Agreement authorize anyone not a party to this Agreement to maintain a suit against the City or CFX pursuant to the terms of this Agreement. CFX's bondholders shall not be entitled to make or assert any claim or suit against the City under this Agreement.

m. All Exhibits attached to this Agreement are incorporated in this Agreement.

n. All notices, demands, or other writing required to be given, made, or sent, or which may be given, made, or sent, by either party to the other, shall be deemed to have been fully given, made, or sent when made in writing and either personally delivered by hand, overnight courier, or deposited in the United States mail, registered certified and postage prepaid, and sent to the following:

To the City

City of Apopka
Attn: City Administrator
120 E Main Street
Apopka, FL 32703

To CFX

Central Florida Expressway Authority
Attn: Executive Director
4974 ORL Tower Road,
Orlando, FL 32807

With a copy to:
Central Florida Expressway Authority
Attn: General Counsel
4974 ORL Tower Road,
Orlando, FL 32807

o. This Agreement may be executed in two or more counterparts and duplicate originals which have been signed and delivered by each of the Parties (a party may execute a copy of this Agreement and deliver it by electronic mail transmission; provided, however, that any such party shall promptly deliver an original signed copy of this Agreement).

p. Notwithstanding any other provision of this Agreement, nothing in this Agreement shall be construed to be a covenant by the City for the benefit of, or enforceable by, CFX's bondholders.

IN WITNESS WHEREOF, the parties hereto have made and executed this Agreement on the respective dates under each signature.

Signed, sealed, and delivered

4867-4454-2921 v.6

CENTRAL FLORIDA EXPRESSWAY AUTHORITY

Exhibit A - SR 429 Binion Road Interchange

TEMPORARY RIGHT OF ENTRY
AND HOLD HARMLESS

Mailing Address:
Ridge Commerce Center, LLC
1500 Cordova Road, Suite 203
Ft. Lauderdale, Florida 33016

Property Owners and Addresses:
Ridge Commerce Center, LLC
1227 S. Binion Road
Apopka, Florida 32703
Parcel ID Number of Subject Property 17-21-28-7345-01-000

Property description attached hereto as **Exhibit "A" "B" and "C" Right of Entry with the Ridge**

This Temporary Right of Entry and Hold Harmless sets forth the understanding that the above referenced Property Owner hereby grants the City of Apopka for itself and on behalf of Central Florida Expressway Authority, as well as their employees, agents, contractors, sub-contractors and the like, a non-exclusive, temporary authorization to access and right of entry, over and on the highlights only on each Exhibit, for the following:

1. This Right of Entry is granted for the sole and limited purpose of:
    a) properly matching the road grade at the right-of-way line of Boy Scout Road and Binion Road to the Property;
    b) providing drainage connections to existing or proposed stormwater infrastructure, including but not limited to storm sewer connections, swales, inlets, and related appurtenances necessary to ensure proper drainage and avoid adverse impacts; and
    c) installing, adjusting, or updating roadway signing and pavement markings as necessary to reflect the approved roadway geometrics and final design configuration.

2. This Right of Entry is non-exclusive and shall commence as of the date of acceptance by the City of Apopka, as set forth below, and shall expire upon the date Central Florida Expressway Authority ceases to use the Property for the purposes outlined herein, or one hundred eighty (180) days after the acceptance hereof by the City of Apopka, whichever occurs first.

The Property Owner understands that the City of Apopka and/or Central Florida Expressway Authority or their employees, agents, contractors, sub-contractors and the like, will traverse the Property for the purpose of matching the road grade at the right of way line of Boy Scout Road and Binion Road to the Property, as needed, and as deemed necessary and appropriate in the sole discretion of the City of Apopka and/or Central Florida Expressway Authority.

Further, the Property Owner acknowledges that, if necessary, the process of matching the road grade at the right of way line of Boy Scout Road and Binion Road to the Property may involve the use of motorized vehicles and other heavy equipment and tools.

The Property Owner understands and agrees that this Right of Entry does not create an obligation

upon the City of Apopka or Central Florida Expressway Authority or the elected or appointed officials, employees, agents, contractors, subcontractors, or the like, of either to perform maintenance activities on the Property following completion of the work contemplated hereunder.

In consideration of the work performed pursuant to this Right of Entry, the Property Owner hereby agrees to hold harmless the City of Apopka and Central Florida Expressway Authority, and any and all of its elected and appointed officials, employees, agents, contractors, subcontractors and the like, for any and all damages of any and all types, either to persons or property that might arise by or be related to the activities set forth herein unless caused by the negligence of such employees, agents, contractors or subcontractors, and the Property Owner does hereby release, discharge, and waive any action, either legal or equitable, that may arise by reason of, or be associated with any action of the City of Apopka and Central Florida Expressway Authority and/or any of its elected or appointed officials, employees, agencies, agents, contractors, subcontractors and the like, related to the activities on or adjacent to the Property unless based upon the alleged negligence of such employees, agents, contractors or subcontractors.

The City of Apopka and Central Florida Expressway Authority shall repair any damage caused to the Property by its employees, agents, contractors or subcontractors and shall hold harmless the Property Owner from any and all damages of any and all types, either to persons or property that might arise by or be related to the activities set forth herein which are caused by the negligence of such employees, agents, contractors or subcontractors.

The Property Owner has voluntarily provided this Temporary Right of Entry and hereby authorizes City of Apopka and Central Florida Expressway Authority employees, agents, contractors, subcontractors and the like, to access the Property for the purposes set forth herein. The Property Owner hereby certifies that it has the legal authority to grant this Temporary Right of Entry and Hold Harmless to the City of Apopka for itself and on behalf of Central Florida Expressway Authority for the purposes set forth herein this 29 day of June, 2026.

Property description attached hereto as **Exhibit "A" and "B" Right of Entry with the Ridge**

This Temporary Right of Entry and Hold Harmless sets forth the understanding that the above referenced Property Owner hereby grants the City of Apopka for itself and on behalf of Central Florida Expressway Authority, as well as their employees, agents, contractors, sub-contractors and the like, a non-exclusive, temporary authorization to access and right of entry, over and on the highlights only on each Exhibit, for the following:

1. This Right of Entry is granted for the sole and limited purpose of:
    a) properly matching the road grade at the right-of-way line of Boy Scout Road and Binion Road to the Property;
    b) providing drainage connections to existing or proposed stormwater infrastructure, including but not limited to storm sewer connections, swales, inlets, and related appurtenances necessary to ensure proper drainage and avoid adverse impacts; and
    c) installing, adjusting, or updating roadway signing and pavement markings as necessary to reflect the approved roadway geometrics and final design configuration.

2. This Right of Entry is non-exclusive and shall commence as of the date of acceptance by the City of Apopka, as set forth below, and shall expire upon the date Central Florida Expressway Authority ceases to use the Property for the purposes outlined herein, or one hundred eighty (180) days after the acceptance hereof by the City of Apopka, whichever occurs first.

The Property Owner understands that the City of Apopka and/or Central Florida Expressway Authority or their employees, agents, contractors, sub-contractors and the like, will traverse the Property for the purpose of matching the road grade at the right of way line of Boy Scout Road and Binion Road to the Property, as needed, and as deemed necessary and appropriate in the sole discretion of the City of Apopka and/or Central Florida Expressway Authority.

Further, the Property Owner acknowledges that, if necessary, the process of matching the road grade at the right of way line of Boy Scout Road and Binion Road to the Property may involve the use of motorized vehicles and other heavy equipment and tools.

The Property Owner understands and agrees that this Right of Entry does not create an obligation

upon the City of Apopka or Central Florida Expressway Authority or the elected or appointed officials, employees, agents, contractors, subcontractors, or the like, of either to perform maintenance activities on the Property following completion of the work contemplated hereunder.

In consideration of the work performed pursuant to this Right of Entry, the Property Owner hereby agrees to hold harmless the City of Apopka and Central Florida Expressway Authority, and any and all of its elected and appointed officials, employees, agents, contractors, subcontractors and the like, for any and all damages of any and all types, either to persons or property that might arise by or be related to the activities set forth herein unless caused by the negligence of such employees, agents, contractors or subcontractors, and the Property Owner does hereby release, discharge, and waive any action, either legal or equitable, that may arise by reason of, or be associated with any action of the City of Apopka and Central Florida Expressway Authority and/or any of its elected or appointed officials, employees, agencies, agents, contractors, subcontractors and the like, related to the activities on or adjacent to the Property unless based upon the alleged negligence of such employees, agents, contractors or subcontractors.

The City of Apopka and Central Florida Expressway Authority shall repair any damage caused to the Property by its employees, agents, contractors or subcontractors and shall hold harmless the Property Owner from any and all damages of any and all types, either to persons or property that might arise by or be related to the activities set forth herein which are caused by the negligence of such employees, agents, contractors or subcontractors.

The Property Owner has voluntarily provided this Temporary Right of Entry and hereby authorizes City of Apopka and Central Florida Expressway Authority employees, agents, contractors, subcontractors and the like, to access the Property for the purposes set forth herein. The Property Owner hereby certifies that it has the legal authority to grant this Temporary Right of Entry and Temporary Right of Entry and Hold Harmless to the City of Apopka for itself and on behalf of Central Florida Expressway Authority for the purposes set forth herein this 29 day of June, 2026.

Property description attached hereto as **Exhibit "A" and "B" Right of Entry with the Ridge**

This Temporary Right of Entry and Hold Harmless sets forth the understanding that the above referenced Property Owner hereby grants the City of Apopka for itself and on behalf of Central Florida Expressway Authority, as well as their employees, agents, contractors, sub-contractors and the like, a non-exclusive, temporary authorization to access and right of entry, over and on the highlights only on each Exhibit, for the following:

1. This Right of Entry is granted for the sole and limited purpose of:
    a) properly matching the road grade at the right-of-way line of Boy Scout Road and Binion Road to the Property;
    b) providing drainage connections to existing or proposed stormwater infrastructure, including but not limited to storm sewer connections, swales, inlets, and related appurtenances necessary to ensure proper drainage and avoid adverse impacts; and
    c) installing, adjusting, or updating roadway signing and pavement markings as necessary to reflect the approved roadway geometrics and final design configuration.

2. This Right of Entry is non-exclusive and shall commence as of the date of acceptance by the City of Apopka, as set forth below, and shall expire upon the date Central Florida Expressway Authority ceases to use the Property for the purposes outlined herein, or one hundred eighty (180) days after the acceptance hereof by the City of Apopka, whichever occurs first.

The Property Owner understands that the City of Apopka and/or Central Florida Expressway Authority or their employees, agents, contractors, sub-contractors and the like, will traverse the Property for the purpose of matching the road grade at the right of way line of Boy Scout Road and Binion Road to the Property, as needed, and as deemed necessary and appropriate in the sole discretion of the City of Apopka and/or Central Florida Expressway Authority.

Further, the Property Owner acknowledges that, if necessary, the process of matching the road grade at the right of way line of Boy Scout Road and Binion Road to the Property may involve the use of motorized vehicles and other heavy equipment and tools.

The Property Owner understands and agrees that this Right of Entry does not create an obligation

upon the City of Apopka or Central Florida Expressway Authority or the elected or appointed officials, employees, agents, contractors, subcontractors, or the like, of either to perform maintenance activities on the Property following completion of the work contemplated hereunder.

In consideration of the work performed pursuant to this Right of Entry, the Property Owner hereby agrees to hold harmless the City of Apopka and Central Florida Expressway Authority, and any and all of its elected and appointed officials, employees, agents, contractors, subcontractors and the like, for any and all damages of any and all types, either to persons or property that might arise by or be related to the activities set forth herein unless caused by the negligence of such employees, agents, contractors or subcontractors, and the Property Owner does hereby release, discharge, and waive any action, either legal or equitable, that may arise by reason of, or be associated with any action of the City of Apopka and Central Florida Expressway Authority and/or any of its elected or appointed officials, employees, agencies, agents, contractors, subcontractors and the like, related to the activities on or adjacent to the Property unless based upon the alleged negligence of such employees, agents, contractors or subcontractors.

The City of Apopka and Central Florida Expressway Authority shall repair any damage caused to the Property by its employees, agents, contractors or subcontractors and shall hold harmless the Property Owner from any and all damages of any and all types, either to persons or property that might arise by or be related to the activities set forth herein which are caused by the negligence of such employees, agents, contractors or subcontractors.

The Property Owner has voluntarily provided this Temporary Right of Entry and hereby authorizes City of Apopka and Central Florida Expressway Authority employees, agents, contractors, subcontractors and the like, to access the Property for the purposes set forth herein. The Property Owner hereby certifies that it has the legal authority to grant this Temporary Right of Entry and Temporary Right of Entry and Hold Harmless to the City of Apopka for itself and on behalf of Central Florida Expressway Authority for the purposes set forth herein this 29 day of June, 2026.

Item #: 1.
Meeting Date: August 5, 2026
Department: Mayor's Office

SUBJECT:
City Commission Rules and Order of Business

ACTION ITEM INFORMATION:

REQUEST:
Adoption of the City of Apopka City Commission Rules and Order of Business

SUMMARY:
Provided attached to this staff report are the proposed City Commission Rules and Order of Business for review, discussion, and adoption.

FUNDING SOURCE:
n/a

RECOMMENDED MOTION:
Adoption of the City of Apopka's City Commission Rules and Order of Business.

ATTACHMENTS:
1. CITY COMMISSION RULES AND ORDER OF BUSINESS

CITY COMMISSION RULES AND ORDER OF BUSINESS

Regular and Special Meetings.

(1) Regular meetings of the City Commission must be held on the first and third Wednesday of every month at the hour of 1:30 PM and 6:00 PM, respectively, unless scheduled for another day of the week, or hour of the day, or cancelled by a majority vote of the City Commission at a regular meeting. A regular meeting may also be cancelled or rescheduled by the Mayor when necessary by reason of a declared state of emergency or other exigent circumstance, with public notice given as soon as practicable. No notice of a regular meeting is required to be given to any member of the City Commission. This sentence addresses notice to members only and does not affect the public notice required by section 286.011, Florida Statutes.

(2) Special meetings of the City Commission may be called by the Mayor, or, in the Mayor's absence, at the call of the vice-mayor, or at the request of a majority of the City Commission. Notice of a special meeting must be given to each member of the City Commission and to the public at least twenty-four (24) hours in advance of the meeting, except in the case of an emergency, and the business transacted at a special meeting is limited to the subjects stated in the notice.

(3) Regular or special meetings must be held at the City Hall or at such other location in the City as designated by the City Commission.

Agenda.

Any and all reports, presentations, communications, ordinances, resolutions, contract documents or any other matters and materials to be presented to the City Commission, created for the Commission or by a Commission member, at a regular City Commission meeting must be delivered to the City Clerk on or before 4:00 PM on the day that is nine (9) days before the regular meeting of Commission at which such matter is to be submitted unless an exemption has been granted by the Mayor; whereupon, the City Staff will arrange an agenda of the submitted items for approval by the Mayor and once approved furnish a copy of the same to the Commissioners prior to the Commission meeting, when practical, at least seven (7) days in advance of each regular meeting. The agenda and supporting materials must be made available to the public on the City's website at the same time they are furnished to the Commissioners. Any member of the City Commission may cause an item to be placed on the agenda of a regular meeting by submitting it to the City Clerk within the time provided in this section. Agendas for any special meetings called will be provided with as much advance notice as possible, but at a minimum twenty-four (24) hours prior to the special meeting. These timelines do not apply to public comment(s)/presentation(s) by the public. See Resolution 2025-19 for information governing public comment(s)/presentation(s).

Presiding Officer—Designated; Duties.

The presiding officer at all Commission meetings must be the Mayor or, in the Mayor's absence, the vice-mayor, or, in the absence of both, the temporary presiding officer elected as provided in these rules. The presiding officer must:

- preserve strict order and decorum at all regular and special meetings of the Commission;
- state every question coming before the Commission, announce the decision of the Commission on all subjects and decide all questions of order;
- sign all ordinances and resolutions adopted by the Commission and all other documents authorized or approved by the Commission except as otherwise specifically provided.

Calling Commission to Order.

The Mayor, or the vice mayor in the absence of the Mayor, must call the City Commission meeting to order precisely at the hour appointed for the meeting. In the absence of the Mayor and vice mayor, the City Clerk or designee, must call the City Commission to order; whereupon, a temporary presiding officer must be elected by the present members of the City Commission. Upon the arrival of the Mayor or vice mayor, the temporary presiding officer must immediately relinquish the chair upon the conclusion of the business immediately before the City Commission.

Quorum.

A majority of all members elected to the Commission constitutes a quorum at any regular or special meeting of the Commission. If a quorum is not present within fifteen (15) minutes after the hour appointed for the meeting, the City Clerk must record the names of the members present and absent and the meeting stands adjourned, to be rescheduled with public notice as required by law.

Rules of Debate.

(1) *Presiding Officer May Debate and Vote, etc.* The Mayor or such other member of the Commission as may be presiding may move, second and debate from the chair, subject only to such limitations of debate as are by these rules imposed on all members and may not be deprived of any of the rights and privileges of a Commissioner by reason of acting as the presiding officer.

(2) *Getting the Floor; Improper Reference to be Avoided.* Every member desiring to speak must address the presiding officer, and, upon recognition by the presiding officer, must confine himself/herself to the question under debate.

(3) *Interruptions.* A member, once recognized, must not be interrupted when speaking unless it be to call him/her to order, or as herein otherwise provided. If a member, while speaking, be called to order, he/she must cease speaking until the question of order be determined, and, if in order, he/she must be permitted to proceed.

(4) *Motion to Reconsider.* A motion to reconsider any action taken by the Commission may be made only on the date such action was taken. It may be made either immediately during the same session, or at a recessed or adjourned session thereof. Such motion must be made by a member who voted on the prevailing side or, if the action was taken by unanimous vote, by any member; it may be seconded by any member; it has precedence over all other motions but may not be made while another member has the floor; and it is debatable. Nothing in this subsection prevents a member of the Commission from making a new motion on the same or any other subject at a subsequent meeting of the Commission.

Manner of Addressing Commission; Time Limit.

All persons addressing the Commission may be asked to state their name in an audible tone of voice for the record and must limit their address to three (3) minutes, unless such time is enlarged or contracted by majority vote of the City Commission, which change must apply uniformly to all speakers on the matter and be announced before public comment on that matter begins. The Commission will provide a reasonable opportunity to be heard on a proposition before it takes official action, as required by and subject to the exceptions stated in section 286.0114, Florida Statutes. No person, other than a member of the City Commission and the person having the floor, shall be permitted to enter into any discussion, either directly or through a member of the City Commission, without the permission of the presiding officer.

Silence Constitutes Affirmative Vote.

Silence by a member of the Commission during the taking of a vote must be recorded as an affirmative vote, except that a member who is prohibited from voting by reason of a voting conflict must abstain, and the abstention

must be recorded and disclosed as required by sections 286.012 and 112.3143, Florida Statutes. This section does not apply in a quasi-judicial proceeding.

Enforcement of Decorum.

The Chief of Police, or such member or members of the Police Department the Chief of Police may designate, must be Sergeant-at-Arms of the Commission meetings and must carry out all orders and instructions given by the presiding officer for the purpose of maintaining order and decorum at the City Commission meeting.

Any person whose conduct actually prevents or substantially interferes with the orderly conduct of the meeting shall be warned by the presiding officer that the conduct is interfering with the order of the meeting and shall be given the opportunity to cease that conduct. This section must be enforced without regard to the content or viewpoint of any speech.

If the individual fails to cease the offending conduct and continues interrupting the meeting, the individual shall be removed from the meeting room if the sergeant-at-arms is so directed by the presiding officer, and such person shall be barred from further audience for the remainder of the meeting.

In case the presiding officer shall fail to act, any member of the City Commission may move to require the presiding officer to act to enforce the rules, and the affirmative vote of a majority of the City Commission requires the presiding officer to act.

Any person who willfully and maliciously interrupts or disturbs a meeting of the City Commission may be subject to prosecution under section 871.01, Florida Statutes. Nothing in these rules limits, expands, or directs the exercise of any authority of law enforcement officers under general law, and the determination whether probable cause exists to make an arrest rests with the officer.

Special Committees.

All special committees must be appointed by the presiding officer, unless otherwise directed by the City Commission by majority vote.

Ordinances and Resolutions.

(1) *Preparation.* All ordinances and resolutions must be prepared by the City Attorney. No ordinance or resolution may be prepared for presentation to the Commission unless ordered by a majority vote of the City Commission, requested by the Mayor, or as otherwise provided by the City Charter.

(2) *Introducing for Passage or Approval.*

(a) Ordinances, resolutions and other matters or subjects requiring action by the City Commission must be considered in the manner provided by these rules, the City Charter, and general law.

(b) Each ordinance or resolution must be introduced in writing and must embrace but one subject and matters properly connected therewith. The subject must be clearly stated in the title.

No ordinance may be revised or amended by reference to its title only. Ordinances to revise or amend must set out in full the revised or amended act or section or subsection or paragraph of a section or subsection.

(c) Except as otherwise provided, a proposed ordinance must be read by title, or in full, on at least two (2) separate days, and must, at least ten (10) days prior to adoption, be noticed once in the manner required by Florida Statutes. The notice of proposed enactment must state the date, time and place of the meeting, the title or titles of proposed ordinances, and the place or places within the municipality where such proposed ordinances may be inspected by the public. Said notice also must advise that interested parties may appear at the meeting and be heard with respect to the proposed ordinance. An ordinance

that changes the actual list of permitted, conditional, or prohibited uses within a zoning category, or that changes the actual zoning map designation of a parcel or parcels of land, must instead be adopted in accordance with section 166.041(3)(c), Florida Statutes. An ordinance subject to referendum must be adopted in accordance with section 166.041(3)(b), Florida Statutes.

(d) The City Commission, by a two-thirds (⅔) vote, may enact an emergency ordinance without complying with the requirements of paragraph (c) of this subsection. However, no emergency ordinance may be enacted which enacts or amends a land use plan or which rezones private real property.

(3) Any resolution providing for the appropriation of money must designate the particular fund from which the appropriation is to be made.

(4) Nothing in this section may be deemed to prohibit the Commission from consideration or passage of any ordinance of an emergency nature in the manner provided by ordinance or any general or special law of the State of Florida.

Order of Business.

The order of business at each regular meeting of the City Commission is as follows, unless changed by the presiding officer without objection or by majority vote of the members present:

(1) Call to order.

(2) Invocation.

(3) Pledge.

(4) Public Comment Period.

(5) Approval of Minutes.

(6) Agenda Review.

(7) Proclamations, Presentations, and Awards.

(8) Consent (Action Item) - Any member of the City Commission may remove an item from the consent agenda, and an item so removed must be considered separately under Business.

(9) Business (Action Item).

(10) Public Hearings / Ordinances / Resolutions (Action Item).

(11) City Administrator's Report.

(12) City Attorney's Report.

(13) City Commissioner Reports.

(14) Mayor's Report.

(15) Information Items.

(16) Adjournment.

Rules of Procedure; Appeal; Suspension and Amendment.

(1) Questions of procedure not covered by these rules, the City Charter, the City Code, or general law are governed by Robert's Rules of Order, Newly Revised, latest edition, used as a guideline but not binding authority.

(2) These rules are procedural only, and the failure to observe any provision of these rules does not invalidate any action taken by the City Commission.

(3) Any provision of these rules may be suspended as to a particular matter by a majority vote of the members present. These rules may be amended only by a majority vote of all members of the City Commission at a regular meeting.

City of Apopka
CITY COMMISSION STAFF REPORT

Section: BUSINESS (Action Item)
Item #: 2.
Meeting Date: August 5, 2026
Department: City Clerk

SUBJECT:
Designate an official voting delegate for the Florida League of Cities Annual Conference

ACTION ITEM INFORMATION:

REQUEST:
Appointment of a member of the City Commission to act as a voting delegate at the annual conference

SUMMARY:
Each year, the Florida League of Cities (FLC) requests that member-cities designate one (1) member of their City Commission to be a voting delegate at the annual conference. This designation is done by nomination of the City Commission. The selected person will vote on new FLC leadership and resolutions as presented at the conference. The conference this year will take place August 13, 2026, through August 15, 2026. The League's voting delegates will vote on the report of the Resolutions Committee at the required business session taking place on Saturday, August 15, 2026, at 9:00 a.m.

City Commission members designated to act as the official voting delegate for the City during the past four (4) FLC Annual Conferences include the following:

2022 - Commissioner, Diane Velazquez
2023 - (then) Commissioner, Nick Nesta
2024 - Commissioner, Nadia Anderson
2025 - (former) Commissioner, Alexander Smith

FUNDING SOURCE:
001-1020 Administrative Services

RECOMMENDED MOTION:
City Commission to select a voting delegate for the 2026 Florida League of Cities Annual Conference from among its members.

Item #: 3.
Meeting Date: August 5, 2026
Department: Community Development

SUBJECT:
Quasi-Judicial - The Ridge Phase 3 - Major Development Plan

ACTION ITEM INFORMATION:
Owner(s): Apopka Centerline Development, LLCApplicant: VHB c/o James R. Hoffman, P.E.
Parcel Number(s): 17-21-28-7345-01-000
Location: Southeast corner of Binion Road and Boy Scout Road
Future Land Use (FLU): Mixed-Use
Zoning: PD (Planned Development)
Existing Use: Vacant
Proposed Use(s): 363 Multi-family units
Tract Size: 13.23 +/- acres
Intensity: 0.2 floor area ratio

REQUEST:
Approve the Ridge Phase 3 — Major Development Plan

SUMMARY:
ZONING REPORT
This chart includes the relationships to adjacent properties.

Direction	Future Land Use	Zoning	Present Use
North	Commercial	PD (Planned Development)	Vacant
East	Industrial	I-L (Light Industrial)	Northwest Industrial Distribution Center
South	Future Land Use - in Progress	T (Transitional)	Vacant
West	Mixed-Use	PD (Planned Development)	The Ridge Stormwater Pond and Amenity (Parcel 8)

PROJECT SUMMARY
The applicant requests approval of a Major Development Plan (MDP) for The Ridge PD – Parcel 3, located within The Ridge Planned Development. The proposed project consists of a multi-family residential community on the western portion of Parcel 3, together with the extension of Bronson Lake Drive. The Ridge PD was established by Ordinance No. 2858 on July 21, 2021, which rezoned the original Ridge property to Planned Development and authorized development consistent with the approved Master Plan and PD Agreement. The PD was subsequently amended by Ordinance No. 2938 on July 27, 2022, which modified the approved PD and expanded the overall development area. As amended, The Ridge remains subject to the approved Master Plan, amended development program, PD Agreement, and applicable provisions of the City's Land Development Code.

Parcel 3 encompasses approximately 30.49 acres and is designated for mixed-use development, including multi-family, commercial/office, and supporting infrastructure uses. Approximately 14.37 acres are allocated for the proposed apartment development. The remainder of Parcel 3 is identified for future commercial/office development and will be reviewed under a separate Major Development Plan. The total development capacity for Parcel 3 shall remain subject to the approved Ridge PD Master Plan and PD development program. The proposed multi-family development includes 363 multi-family dwelling units within 11 apartment buildings, along with a clubhouse/leasing building, pool, internal access drives, parking areas, sidewalks, landscaping, utilities, and related site improvements. The proposed development is consistent with the Ridge PD Master Plan and Ordinance No. 2938 and does not alter the intended land uses or allocated capacities established for Parcel 3.

Transportation and Access:
The Ridge PD is planned with an internal roadway system and multiple access points intended to distribute traffic throughout the development and connect the residential, commercial, office, industrial, open space, and recreation areas. The approved PD Master Plan identifies connections to Boy Scout Road, Ocoee Apopka Road, Binion Road, and internal PD roadways. Bronson Lake Drive was contemplated as a parallel facility to Boy Scout Road and is intended to help accommodate and distribute project traffic within this portion of The Ridge PD.

As part of the Parcel 3 MDP, Bronson Lake Drive will be extended from its previously constructed terminus to Ocoee Apopka Road, creating an important connection among Boy Scout Road, Ocoee Apopka Road, and the larger Ridge PD. The roadway extension is proposed to be publicly dedicated and will serve the proposed multi-family development through associated roadway construction, sidewalks, landscaping, utility coordination, stormwater drainage improvements, internal access drives, parking areas, cross-access, and pedestrian connections to the future commercial/office development on the remainder of Parcel 3, Bronson Lake Drive, and Parcel 8/Community Park.

The larger Ridge PD was evaluated through a Traffic Impact Analysis prepared for the overall mixed-use development. The analysis included the broader Ridge development program, including industrial, single-family, multi-family, office, and retail uses, and evaluated the surrounding roadway network and study intersections, including Ocoee Apopka Road/Boy Scout Road, Binion Road/Boy Scout Road, Boy Scout Road/Galway Boulevard, and project entrances. The TIA provides part of the transportation background for the approved Ridge PD and the roadway network contemplated for the overall development.

The plans identify proposed turn lane improvements along Ocoee Apopka Road. During the Development Review Committee meeting, staff and the applicant specifically discussed that final turn lane requirements would be further evaluated during the Construction Site Plan review. Consistent with that discussion, Note 1 on the Master Site Plan & Site Data sheet states: “Subject to determination of the posted speed limit on Boy Scout Road, a right-turn lane may be required prior to Construction Site Plan (CSP) approval if speed limit equals or exceeds 35 MPH.”

The Boy Scout Road Speed Zone Study recommends reducing the posted speed limit on Boy Scout Road from Binion Road to Ocoee Apopka Road from 45 miles per hour to 35 miles per hour. Accordingly, final roadway design, driveway configuration, turn lane requirements, sidewalk connections, emergency access, parking layout, utility coordination, and other traffic-related improvements will continue to be reviewed through Construction Site Plan approval and other applicable permitting.

Open Space and Amenity
The Ridge PD includes a larger open space, recreation, and pedestrian system intended to serve the overall mixed-use development. The approved PD Master Plan identifies Parcel 8 as the lake/recreation area and central amenity area for the development. The PD also contemplates recreational amenities and pedestrian/bicycle connections throughout the development, including trail improvements along major roadways and internal connections between residential, commercial, and open space areas.

For Parcel 3, the proposed multi-family development includes a clubhouse/leasing building, pool, sidewalks, landscaping, and pedestrian connections that support the residential community and connect the project to surrounding development areas. The plans also identify a pedestrian connection to the future commercial/office portion of Parcel 3 and a pedestrian connection toward Parcel 8, which is identified as the community park area. The community park is shown as being under separate application. Therefore, any improvements associated with Parcel 8 or the larger community park area will be reviewed separately, as applicable. Final details regarding required open space, recreation areas, landscaping, sidewalks, pedestrian connections, and any phase-specific

amenities will continue to be reviewed through Construction Plan approval for consistency with the approved PD Master Plan, PD Agreement, Land Development Code, and applicable City requirements.

Stormwater Management
The project will utilize an existing permitted stormwater management pond constructed as part of The Ridge PD master infrastructure. According to the applicant's project scope, the existing stormwater facility has been designed with sufficient capacity to accommodate runoff from the proposed Parcel 3 development. The Bronson Lake Drive extension will include stormwater drainage infrastructure, and the proposed roadway drainage system will connect into and function as part of the existing Bronson Lake Drive drainage system. The grading, drainage, and utility plans show proposed storm sewer, sanitary sewer, water main, reclaimed water, fire service, fire hydrants, and related utility improvements to serve the development. The plans also identify existing stormwater areas, an existing lake, a preliminary wetland line, previously approved wetland line and wetland buffer, and a potential wetland impact of approximately 0.25 acres. Stormwater, grading, drainage, erosion control, wetland impacts, utility connections, and related infrastructure shall be reviewed in detail during Construction Plan approval. Final engineering plans must demonstrate consistency with the approved PD Master Plan, PD Agreement, City standards, and all applicable local, regional, state, and federal permitting requirements, including any applicable St. Johns River Water Management District requirements.

Environmental Considerations
A Phase I Environmental Site Assessment was prepared for the larger Bronson Apopka Site, which includes lands within The Ridge PD. The assessment did not identify Recognized Environmental Conditions, Controlled Recognized Environmental Conditions, or Historical Recognized Environmental Conditions in connection with the subject property. The assessment did identify non-REC business environmental risk considerations associated with the historical agricultural use of the property and the site's partial location within an ethylene dibromide groundwater contamination setback area.

Any environmental, wetland, groundwater, soil, or related site conditions requiring further review or permitting shall be addressed through Construction Site Plan approval and applicable local, regional, state, and federal permitting requirements.

SCHOOL PLANNING
The project will be served by Wheatley Elementary School, Wolf Lake Middle School, and Wekiva High School. According to the Orange County Public Schools Capacity Encumbrance Letter and detailed capacity analysis, high school capacity is available for the project; however, elementary and middle school capacity are deficient. The analysis identifies a deficiency of 91.956 seats at the elementary school level and 44.588 seats at the middle school level, with no high school seat deficiency identified. The applicant provided the executed School Concurrency Mitigation Agreement and related amendments for The Ridge PD. The agreement reserved and provided mitigation for 678 multi-family units within The Ridge PD. Of those units, 304 multi-family units were previously allocated to other parcels in the PD, leaving 374 multi-family units reserved for The Ridge PD – Parcel 3 MDP. The proposed 363 multi-family dwelling units are within the remaining reserved multi-family capacity..

ORANGE COUNTY NOTIFICATION
Orange County was notified at the time of the site plan submittal for this property through the DRC agenda distribution.

FINDINGS
The Development Review Committee finds that the applicant has demonstrated competent, substantial evidence that:

- The proposed development and uses in the development plan comply with Article 3: Zoning Districts, and Article 4: Use Regulations;
- The development proposed in the development plan and its general layout and design comply with all the standards in Article 5: Development Standards, and Article 6: Environmental Standards;
- The development proposed in the development plan complies with all conditions of approval in any development approval or permit to which the plan is subject; and
- The development proposed in the development plan complies with all other applicable standards in this LDC and all other City regulations; and

- If any part of the development plan requires a plat, the plat is approved in accordance with Sec. 2.5.2.B, Plat (Subdivision), and is in substantial conformance with the development plan.

Note: Final technical compliance with engineering, utility, drainage, fire access, and construction details will be addressed through Construction Plan review and permitting. Approval of the Major Development Plan does not authorize construction.

PUBLIC HEARING SCHEDULE
June 9, 2026 – Planning Commission (5:30 PM)
July 1, 2026 – City Council (1:30 PM)
August 5, 2026 – City Council (1:30 PM)

FUNDING SOURCE:
N/A

JULY 1, 2026 CITY COMMISSION MEETING
At the July 1, 2026 City Commission meeting, this item was tabled to August 5, 2026 to allow additional discussion regarding transportation conditions and planned improvements in the Boy Scout Road/Ocoee Apopka Road and Boy Scout Road/Binion Road areas. Discussion included the broader transportation improvement obligations and agreements associated with The Ridge PD, as well as, the timing and implementation of roadway improvements contemplated for the surrounding network.

Staff recognizes that there are still important transportation improvements and issues that will need to be addressed as The Ridge PD continues to develop and as the surrounding roadway network is built out. However, the request before the City Commission is the Major Development Plan for Parcel 3. Based on the plans, staff report, and supporting exhibits, the applicant has demonstrated competent substantial evidence that the proposed MDP is consistent with the Comprehensive Plan, the approved Ridge PD Master Plan, the Land Development Code, and applicable development standards.

FUNDING SOURCE:
N/A

RECOMMENDED MOTION:
DEVELOPMENT REVIEW COMMITTEE (DRC)
On June 3, 2026, the Development Review Committee recommended approval of The Ridge Phase 3 – Major Development Plan at its meeting, and found it consistent with the Comprehensive Plan and Land Development Code based upon the findings and facts presented in the staff report and exhibits.

PLANNING COMMISSION
At its meeting on June 9, 2026, the Planning Commission found the proposed The Ridge Phase 3 — Major Development Plan consistent with the Comprehensive Plan and Land Development Code, and voted 4-2 to recommend approval of the Major Development Plan based upon the findings and facts presented in the staff report and exhibits. Planning Commissioners David Woods and Malika Harrison dissented. Discussion prior to the vote included transportation, access, and roadway improvement considerations associated with the project and the larger Ridge PD.

CITY COMMISSION
At its meeting on July 1, 2026, the City Commission tabled the item to August 5, 2026 based on additional discussion regarding transportation, access, and roadway improvement considerations associated with the project and the larger Ridge PD.

CITY COMMISSION — RECOMMENDED MOTION FOR AUGUST 5, 2026
Approve The Ridge Phase 3 — Major Development Plan.

Note: This item is considered quasi-judicial. The staff report and its findings are to be incorporated into and made a part of the minutes of this meeting.

PROJECT SCOPE
THE RIDGE PD - PARCEL 3 PROJECT CONSISTS OF THE DEVELOPMENT OF A MULTI-FAMILY RESIDENTIAL COMMUNITY ON THE WESTERN HALF OF THE SUBJECT PARCEL AS WELL AS THE EXTENSION OF BRONSON LAKE DRIVE. THE PARCEL IS LOCATED WITHIN THE RIDGE PLANNED DEVELOPMENT (RIDGE PD). THE OVERALL PARENT PARCEL ENCOMPASSES APPROXIMATELY 30.49 ACRES, OF WHICH APPROXIMATELY 14.37 ACRES ARE ALLOCATED FOR THE PROPOSED APARTMENT DEVELOPMENT.

AS PART OF THIS PROJECT, BRONSON LAKE DRIVE WILL BE EXTENDED FROM ITS PREVIOUSLY CONSTRUCTED TERMINUS AND CONNECT TO OCOEE APOPKA ROAD. THE ROADWAY EXTENSION WILL INCLUDE ALL ASSOCIATED IMPROVEMENTS INCLUDING ROADWAY CONSTRUCTION, SIDEWALKS, LANDSCAPING, AND STORMWATER DRAINAGE INFRASTRUCTURE. THE PROPOSED ROADWAY DRAINAGE SYSTEM WILL CONNECT INTO AND FUNCTION AS PART OF THE EXISTING BRONSON LAKE DRIVE DRAINAGE SYSTEM.

THE PROPOSED MULTI-FAMILY DEVELOPMENT WILL CONSIST OF 11 APARTMENT BUILDINGS (363 MULTI-FAMILY DWELLING UNITS) AND A CLUBHOUSE BUILDING, ALONG WITH ASSOCIATED SITE IMPROVEMENTS INCLUDING INTERNAL ACCESS DRIVES, PARKING AREAS, SIDEWALKS, LANDSCAPING AND SUPPORTING INFRASTRUCTURE NECESSARY TO SERVE THE RESIDENTIAL COMMUNITY.

THE REMAINDER OF PARCEL 3 IS REFERRED TO AS PARCEL 3 COMMERCIAL AND WILL BE DEVELOPED AND PERMITTED UNDER A SEPARATE MAJOR DEVELOPMENT PLAN (MDP).

THE PROPOSED 363 DU MULTI-FAMILY DEVELOPMENT ON THE WESTERN PORTION OF PARCEL 3 IS CONSISTENT THE RIDGE PD MASTER PLAN AND ORDINANCE No. 2938 FOR THE PD REZONING. THE PROPOSED DEVELOPMENT DOES NOT ALTER THE INTENDED LAND USES AND ALLOCATED CAPACITIES ESTABLISHED IN THE APPROVED PD DEVELOPMENT PROGRAM FOR PARCEL 3.

This item has been digitally signed and sealed by George E. Georgy, P.E. on May 4, 2026 using a Digital Signature.

Printed copies of this document are not considered signed and sealed and the signature must be verified on any electronic copies.

PRELIMINARY - NOT FOR CONSTRUCTION
THIS PRELIMINARY DEVELOPMENT PLAN IS SIGNED AND SEALED AS REQUIRED BY CITY OF APOPKA CODE SECTION 12.02.04.B. THESE PLANS ARE NOT FINAL CONSTRUCTION DOCUMENTS AND ARE NOT INTENDED FOR PERMIT, CONSTRUCTION, OR BIDDING PURPOSES.

Green Building Standards - Parcel 6		
Minimum Points Required	4	4.0 points required for Residential Development greater than 30 units.
Item	Points	Notes
Use central air conditioners that are Energy Star qualified	0.5	
Create a soil management plan for development site that promotes stormwater infiltration through improved organic matter content, reduced compaction levels, and increased infiltration capacity	0.5	The entire site is designed to drain to retention pond that will fully recover through infiltration.
Use vegetation or vegetated structures to shade HVAC units.	0.25	2 shrubs per A/C unit will be shown on the final landscape plans.
Provide a minimum of two electric vehicle (EV) level 2 charging stations that are made available in a parking structure or off-street parking lot to those using the building	0.5	
Elevate new and/or existing structures more than 3 feet above base flood elevation (BFE)	2	0.50 per foot above BFE (assume 4 ft conservative)
Install operable windows to allow for natural ventilation in the event of power failures	0.25	
Total Recommended Potential Points	4.0	

PHASING:

THIS PROJECT WILL BE DEVELOPED IN ONE (1) PHASE

MISCELLANEOUS:

POTABLE WATER SERVICE:	CITY OF APOPKA
WASTEWATER, RECLAIMED SERVICE:	CITY OF APOPKA
ELECTRIC SERVICE:	DUKE ENERGY
FIRE PROTECTION:	CITY OF APOPKA
AVERAGE DAILY TRAFFIC PER ITE 210 (10TH EDITION):	2,694

SIGNAGE:

SIGNAGE SHALL COMPLY WITH THE REQUIREMENTS OF SECTION 5.10.9 OF THE CITY OF APOPKA LAND DEVELOPMENT CODE.

LIGHTING:

EXTERIOR LIGHTING SHALL COMPLY WITH THE REQUIREMENTS OF SECTION 5.6 OF THE CITY OF APOPKA LAND DEVELOPMENT CODE.

GARBAGE PICKUP:

1) ONSITE COMPACTOR PROVIDED WITH PRIVATE PICKUP.
2) ANY MISCELLANEOUS GARBAGE, YARD WASTE, CONSTRUCTION DEBRIS, DEMOLITION DEBRIS, FERTILIZERS, HERBICIDES, INSECTICIDES, ETC., SHALL BE DISPOSED OF OFF-SITE ACCORDING TO THE SOLID WASTE AND HAZARDOUS WASTE REGULATIONS. USE CAUTION IF ANY HAZARDOUS WASTE IS PRESENT. CALL THE ORANGE COUNTY SOLID WASTE HOTLINE AT 407-836-6601 FOR INFORMATION.

FIRE:

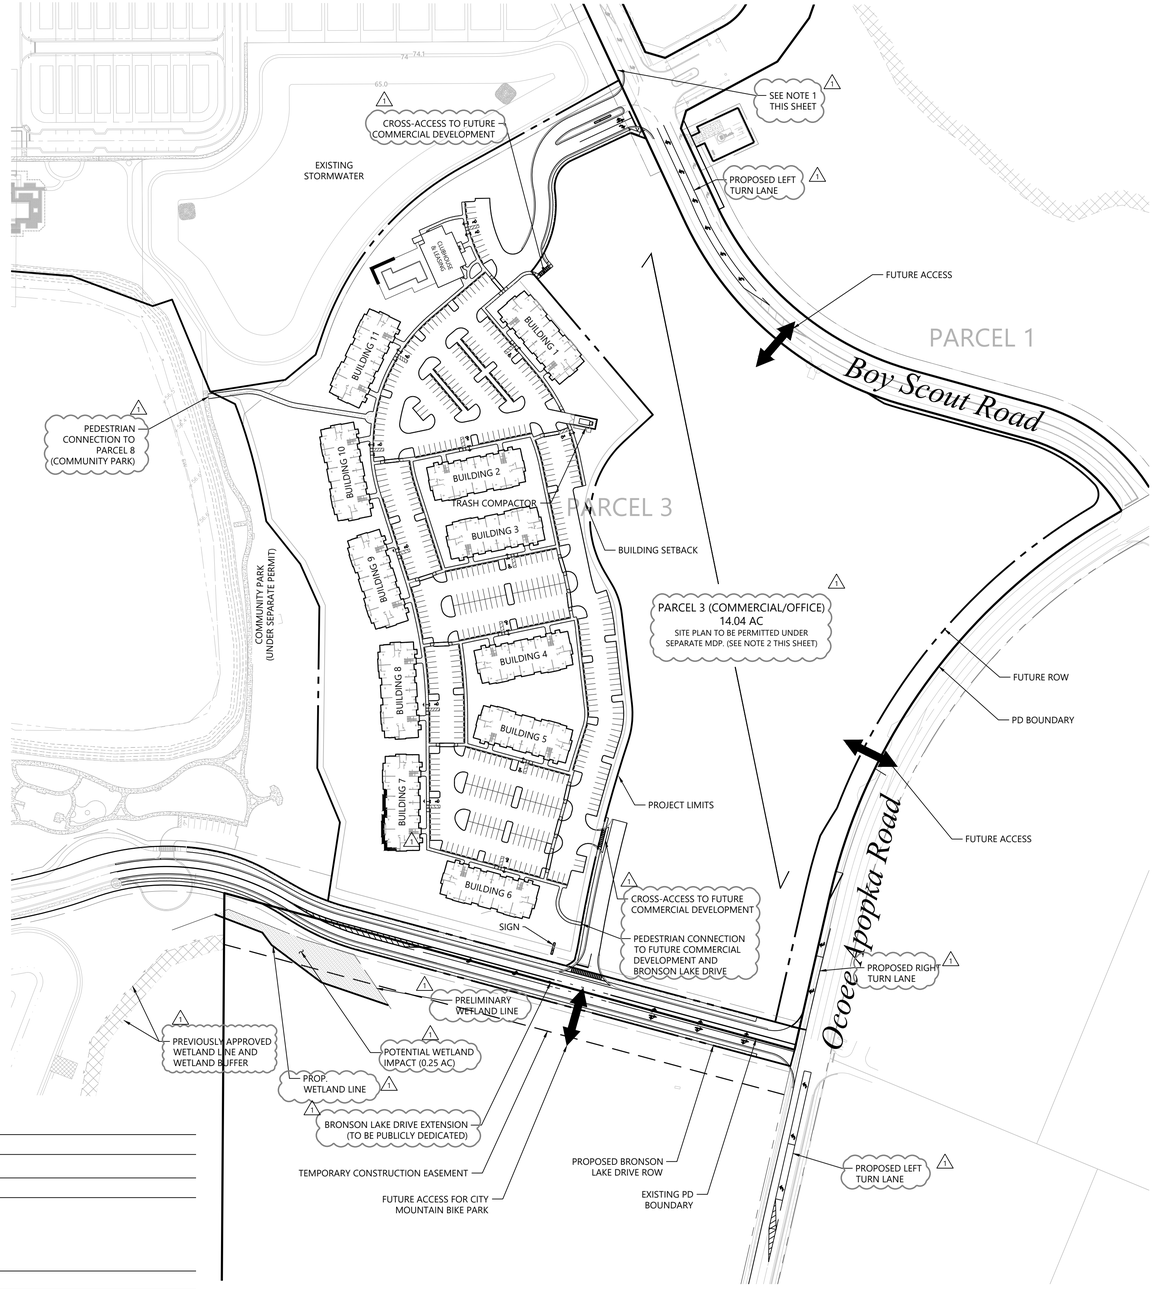
1. FIRE HYDRANTS SHALL BE INSTALLED SO THAT THE DESIGN AND CALCULATIONS MEET THE REQUIREMENTS IN THE CITY OF APOPKA CODE OF ORDINANCES AND THE FLORIDA FIRE PREVENTION CODE 5th EDITION (2012).
2. FIRE ACCESS SHALL BE FROM THE FRONT OF THE PROPOSED DWELLING UNITS. ACCESS SHALL BE IN ACCORDANCE WITH CHAPTER 18 NFPA 1 & 101, 2021 EDITION, FFPC 5TH EDITION (2020).
3. ANY COMMERCIAL STRUCTURE OR RESIDENTIAL BUILDING OF THREE OR MORE STORIES MAY BE REQUIRED TO HAVE AN AUTOMATIC FIRE SPRINKLER PROTECTION DEPENDING UPON THE BUILDING CONSTRUCTION TYPE, OCCUPANCY CLASSIFICATION, AND ADDITIONAL BUILDING OR FIRE CODE REQUIREMENTS.

ARCHITECTURAL:

ARCHITECTURAL DESIGN SHALL MEET THE INTENT OF THE CITY OF APOPKA'S DEVELOPMENT DESIGN GUIDELINES.

LANDSCAPE:

1. LANDSCAPING AND BUFFER STANDARDS SHALL BE IN ACCORDANCE WITH THE PD WHERE APPLICABLE AND WITH TABLE 5.2.5.B.3.D-1: BUFFERYARD APPLICATION OF THE CITY OF APOPKA LAND DEVELOPMENT CODE. INTERIOR LANDSCAPE BUFFERS BETWEEN ABUTTING PROPERTY BOUNDARIES MAY HAVE A TEN (10) FOOT WIDE LANDSCAPE BUFFER. LANDSCAPING STANDARDS FOR RESIDENTIAL DEVELOPMENT SHALL ADHERE TO SECTION 5.2.2(B) OF THE CITY OF APOPKA LAND DEVELOPMENT CODE.



OWNERSHIP/MAINTENANCE:

ROADWAYS	PRIVATE:	TO BE OWNED AND MAINTAINED BY PROPERTY OWNER
LAKE BRONSON DRIVE	PUBLIC:	TO BE OWNED AND MAINTAINED BY THE CITY OF APOPKA
UTILITY EASEMENTS	PUBLIC:	TO BE DEDICATED TO THE CITY OF APOPKA

ORDINANCE NO. 2938

AN ORDINANCE OF THE CITY OF APOPKA, FLORIDA, AMENDING ORDINANCE NO. 2858, WHICH IS KNOWN AS "THE RIDGE" PLANNED DEVELOPMENT (PD), GENERALLY LOCATED NORTH AND SOUTH OF BOY SCOUT ROAD, WEST OF SR 451, NORTH OF SR 414 AND WEST OF SR 429, COMPRISING 407.8 ACRES MORE OR LESS, OWNED BY TROY S. BRONSON FAMILY LP, BRONSON TROY S LIFE ESTATE, APOPKA CENTERLINE DEVELOPMENT, LLC, KS APOPKA CENTERLINE DEVELOPMENT, LLC, DRP FL, LLC, AG EHC II (LEN) MULTISTATE 1, LLC, AND RIDGE 429 OWNER, LLC; PROVIDING FOR DIRECTIONS TO THE COMMUNITY DEVELOPMENT DIRECTOR, SEVERABILITY, CONFLICTS, AND AN EFFECTIVE DATE.

WHEREAS, to manage growth, the City of Apopka, Florida, finds it in the best interest of the public health, safety and welfare of its citizens to establish zoning classifications within the City; and

WHEREAS, Vanasse Hangen Brustlin, Inc. has requested to amend Ordinance No. 2858; and

WHEREAS, the proposed Planned Development (PD) zoning has been found to be consistent with the City of Apopka Comprehensive Plan, and the City of Apopka Land Development Code.

NOW THEREFORE, BE IT ORDAINED, by the City Council of the City of Apopka, Florida, as follows:

SECTION I: That the zoning classification of the following described property be designated as Planned Development (PD), as defined in the Apopka Land Development Code, and with the following development standards and provisions, and subject to the following zoning provisions:

A. Development of the property shall occur consistent with the Master Plan/Major Development Plan set forth in Exhibit "B". Where any development standard conflicts between the Master Plan/Major Development Plan and the Land Development Code, the Master Plan/Major Development Plan shall preside. Any proposed revision to the Master Plan/Major Development Plan shall be evaluated and processed pursuant to the Land Development Code

B. A PD Agreement prepared in accordance with LDC Section 3.7.2.F.2 shall be approved by the City Council.

C. The uses permitted and prohibited within the PD District are those noted on the Master Plan and PD Agreement.

D. If a Plat associated with the PD district has not been approved by the City within three

years after approval of these Master Plan/Major Development Plan provisions, the approval of the Master Plan/Major Development Plan provisions will expire. At such time, the City Council may:

1. Permit a single six-month extension for submittal of the required Minor or Major Development Plan;

2. Allow the PD zoning designation to remain on the property pending resubmittal of new Master Plan provisions and any conditions of approval; or

3. Rezone the property to a more appropriate zoning classification.

SECTION II: That the zoning classification of the following described Property, attached hereto as Exhibit A and incorporated herein, being situated in the City of Apopka, Florida, is hereby PD as defined in the Apopka Land Development Code.

SECTION III: AUTHORITY OF COMMUNITY DEVELOPMENT DIRECTOR. That the Community Development Director, or the Director's designee, is hereby authorized to amend, alter, and implement the official zoning maps of the City of Apopka, Florida, to include said designation.

SECTION IV: SEVERABILITY. That if any section or portion of a section or subsection of this Ordinance proves to be invalid, unlawful, or unconstitutional, it shall not be held to invalidate or impair the validity, force or effect of any other section or portion of section or subsection or part of this ordinance.

SECTION V: That this Ordinance shall take effect upon the effective date of Ordinance No. 2938.

ORDINANCE NO. 2858

AN ORDINANCE OF THE CITY OF APOPKA, FLORIDA, CHANGING THE ZONING FROM RSF-1A (RESIDENTIAL SINGLE-FAMILY ESTATE), C-C (COMMUNITY COMMERCIAL) AND MU-ES-GT (MIXED-USE-EAST-SHORE-GATEWAY) DISTRICT TO PD (PLANNED DEVELOPMENT), FOR CERTAIN REAL PROPERTY GENERALLY LOCATED NORTH AND SOUTH OF BOY SCOUT ROAD, WEST OF SR 451 AND EAST OF BINION ROAD, OWNED BY TROY S. BRONSON FAMILY LP, JOHN AND DONNA MARIE KIRKLAND, BINION PARTNERS, LLC, AND APOPKA CENTERLINE DEVELOPMENT, LLC; COMPRISING 366.6 ACRES; PROVIDING FOR DIRECTIONS TO THE COMMUNITY DEVELOPMENT DIRECTOR, SEVERABILITY, CONFLICTS, AND AN EFFECTIVE DATE.

WHEREAS, to manage growth, the City of Apopka, Florida, finds it in the best interest of the public health, safety and welfare of its citizens to establish zoning classifications within the City; and

WHEREAS, VHB c/o John Prowell has requested a change in zoning on said property as identified in Section II of this ordinance; and

WHEREAS, the proposed Planned Development (PD) zoning has been found to be consistent with the City of Apopka Comprehensive Plan, and the City of Apopka Land Development Code.

NOW THEREFORE, BE IT ORDAINED, by the City Council of the City of Apopka, Florida, as follows:

SECTION I: That the zoning classification of the following described property be designated as Planned Development (PD), as defined in the Apopka Land Development Code, and with the following development standards and provisions, and subject to the following zoning provisions:

A. Development of the property shall occur consistent with the Master Plan set forth in Exhibit "B". Where any development standard conflicts between the Master Plan and the Land Development Code, the Master Plan shall preside. Any proposed revision to the Master Plan shall be evaluated and processed pursuant to the Land Development Code

B. A PD Agreement prepared in accordance with LDC Section 3.7.2.F.2 shall be approved by the City Council.

C. The uses permitted and prohibited within the PD District are those noted on the Master Plan and PD Agreement.

D. If a Plat associated with the PD district has not been approved by the City within three years after approval of these Master Plan, the approval of the Master Plan provisions will

expire. At such time, the City Council may:

1. Permit a single six-month extension for submittal of the required Minor or Major Development Plan;

2. Allow the PD zoning designation to remain on the property pending resubmittal of new Master Plan provisions and any conditions of approval; or

3. Rezone the property to an appropriate zoning classification.

SECTION II: That the zoning classification of the following described Property, attached hereto as Exhibit A and incorporated herein, being situated in the City of Apopka, Florida, is hereby PD as defined in the Apopka Land Development Code.

SECTION III: AUTHORITY OF COMMUNITY DEVELOPMENT DIRECTOR. That the Community Development Director, or the Director's designee, is hereby authorized to amend, alter, and implement the official zoning maps of the City of Apopka, Florida, to include said designation.

SECTION IV: SEVERABILITY. That if any section or portion of a section or subsection of this Ordinance proves to be invalid, unlawful, or unconstitutional, it shall not be held to invalidate or impair the validity, force or effect of any other section or portion of section or subsection or part of this ordinance.

SECTION V: That this Ordinance shall take effect adoption.

READ FIRST TIME: July 7, 2021

READ SECOND TIME
AND ADOPTED: July 21, 2021

Bryan Nelson, Mayor

Planned Development Zoning District Standards

The purpose of this PD is to provide flexibility in the development of a mixed-use project with residential, commercial, office and light industrial uses. The project is designed to respect the natural features of the land and is compatible with the character of the established surrounding neighborhoods.

Development within this PD shall be subject to the development standards outlined herein; however, if not addressed in this PD document, subject to the provisions of the City of Apopka Land Development Code.

SITE DATA

Future Land Use: Low Density Residential; Mixed Use
Existing Zoning: RSF-1A; MU-ES-GT
Proposed Zoning: (PD) Planned Development

Adjacent Future Land Use

North	South	East	West
Low Density Residential	Mixed Use	Industrial/Mixed Use	Mixed Use

Adjacent Zoning

North	South	East	West
RSF-1A/PD	T/MU-ES-GT	I-L	MU-ES-GT

OPEN SPACE

LAND USE	PERCENTAGE REQUIRED
Residential	30%
Commercial/Mixed Use	20%
Industrial	20%

1. Open space percentage requirements per Section 5.4, Table 5.4.4 Required Open Space Set-Asides of the City of Apopka LDC.
2. Open space and recreation requirements shall be calculated on the overall PD area, and not on an individual parcel basis.
3. Specific open space and recreation area calculations shall be provided on the minor or major development plans for each phase of development.

DEVELOPMENT PROGRAM

Parcel NO	Land Use	Gross Acres	Development Program
1	Commercial	29.2	100,000 sf
2	Residential	79.57	349 du
3	Multi-Family	18.0	374 du
	Office	7.0	75,000 sf
	Commercial	6.0	25,000 sf
4	Residential	59.46	303 du
5	Industrial	78.2	1,500,000 sf
6	Multi-Family	20.45	304 du
	Commercial	8.4	150,000 sf
7	Commercial	3.5	25,000 sf
8	Lake/Recreation	59.5	
9	Residential	40.6	44 du
TOTAL		407.88	

Permitted Uses: Permitted uses shall be those described in the RSF-1A, RSF-1B, C-C, I-L and MU-ES-GT use chart in the City of Apopka Land Development Code and listed in the PD Agreement. Additionally, wireless communication towers shall be a permitted use on Parcel 7 only.

Phasing: The project will be developed in multiple phases. Each phase of development shall have sufficient infrastructure to stand alone. Please refer to sheet C-8 for specific phasing.

RESIDENTIAL DEVELOPMENT STANDARDS

Single Family Residential

	Front Loaded (55 feet and greater)	Rear Loaded (50 feet or less)
Min Lot Area	5,500 sf	3,500 sf
Min Lot Width	55'	35'

Front Primary Structure	20'	15'
Front Porch	10'	10'
Front Entry Garage	25'	N/A
Side	5'	5'
Corner Side	15'	15'
Rear Primary Structure	20'	20'/3' (with detached garage)
Accessory Structures	5'	5'

Townhomes

Min Lot Area	1,800 sf
Min Lot Width	18'
Min Living Area	1,300 sf
Max Building Height	3-stories/40'
Minimum Setbacks	
Front Primary Structure	15'
Front Porch	10'
Side	0'/7' (end units)
Corner Side	10'
Rear Primary Structure	20'/3' (with detached garage)
Accessory Structures	5'
Minimum Building Separation	20'

Multi-Family

Min Living Area	500 sf
Max Building Height	5-stories/65'
Minimum Setbacks	
Front Primary Structure	15'
Side	10'
Corner Side	20'
Rear Primary Structure	25'
Minimum Building Separation	20'

Multi-Family Detached

Min Living Area	500 sf
Max Building Height	3-stories/40'
Minimum Setbacks	
Front Primary Structure	15'
Side	5'
Corner Side	10'
Rear Primary Structure	15'
Accessory Structure	5'
Minimum Building Separation	10'

NON-RESIDENTIAL DEVELOPMENT STANDARDS

Retail/Commercial/Office

Max FAR	0.30
Max ISR	0.60
Max Building Height	50'
Minimum Setbacks	
Front Primary Structure	15'
Side	10'
Corner Side	20'
Rear Primary Structure	10'/30' (adjacent to residential)

Industrial

Max FAR	0.60
Max ISR	0.85
Max Building Height	50'
Minimum Setbacks	
Front Primary Structure	10'
Side	10'
Corner Side	15'
Rear Primary Structure	10'/30' (adjacent to residential)

Trip Equivalency Conversion Matrix (Based on Daily 2-Way Trip Generation) (1)

Change From		Change To Land Use:					ITE Land Use	
Land Use	Size	Warehouse	Single Family		Retail		Daily 2-Way Trip Rate (1)	ITE Code
Warehouse	1,000 SF		0.1653	DU	0.0243	KSF	1.61 Trips per 1,000 SF	150
Single Family	1 DU	6.0497	KSF		0.1472	KSF	9.74 Trips per 1 DU	210
Retail	1,000 SF	41.1118	KSF	6.7937	DU		66.19 Trips per 1,000 SF	820

Example: To convert 100,000 SF of Warehouse space to equivalent Single Family or Retail.
To Single Family: 100,000 / 1,000 x 0.1653 = 16.53 DU's. Use 16 DU's.
To Retail: 100,000 / 1,000 x 0.0243 = 2.430 KSF. Use 2,430 SF.

To check if equivalent land use trip threshold is the same:
100,000 SF Warehouse Space = 100,000 / 1,000 x 1.61 = 161.00 Daily 2-Way Trips. Use 161.
Single Family: 16 x 9.74 = 155.84 Daily 2-Way Trips. Use 156.
Retail: (2.430 / 1,000) x 66.19 = 160.84 Daily 2-Way Trips. Use 161.

Estimated Trip Generation Rates (2)

Land Use	Land Use ITE Average Size		ITE Land Use Code (3)	Daily Trip Generation Rate
Warehouse	1,535,000	SF	150 /E	1.61
Single Family	226	DU	210 /E	9.74
Retail	74.035	SF	820 /E	66.19

(1) Conversion factors based upon PM Peak Hour 2-Way Trip Generation Rates from ITE 10th Edition Trip Generation Report.
(2) Trip Generation Rates from 10th Edition of ITE Trip Generation Report, 2012.
(3) ITE Land Use Code Number / E = Fitted Curve Equation
Lake Transportation Engineering Consultants, Inc., 2020
(4) Retail trip conversion matrix shall be recalculated for specific retail uses to account for fitted curve equation.

RECREATION AMENITIES – PARCEL 8

Picnic covered and outdoor seating areas	Dock with viewing and/or fishing pier
Visitor parking lot	Dog park
Bike paths and racks	Playground area and lawns
Open air pavilion	Community garden
Viewing and resting Benches along paths	Walking pedestrian paths

WAIVER REQUEST

A waiver is requested from Section 3.7.2(b)(1)(a) to allow for no more than 75% of the residential lots within Parcels 2 and 4 to be 50 feet in width or less, and the remaining residential lots Parcels 2, 4 and 9 be a mix of 55 and 60 feet in width (with a minimum of 12.5% of the total number of lots within each parcel be a minimum of 60 feet in width), in lieu of no more than 75% of the residential lots in a development or phase be 50 feet in width or less and the remaining lots shall be a minimum of 65 feet in width.

Justification: The proposed development is designed to be mixed use and pedestrian friendly. The additional lot width size will ensure compact neighborhood design is achieved and will allow for a variety of lot sizes to serve a range of economic levels needed for successful development.

DEVELOPMENT NOTES

1. All acreages are subject to change with final engineering and final plat review and approval.
2. A Minor or Major Development Plan application shall be submitted for each phase of development. Each application shall address the requirements of the PD District Development Standards set forth in the City of Apopka Land Development Code Table 3.7.2.E.1, unless specifically addressed in this PD plan.
3. Off street parking shall be provided in accordance with Table 5.1.6A: Minimum Number of Off-Street Vehicular Parking Spaces of the City of Apopka Land Development Code.
4. Landscaping and buffer standards shall be in accordance with Table 5.2.5.B.3.D-1: Bufferyard Application of the City of Apopka Land Development Code. Interior landscape buffers between abutting property boundaries may have a ten (10) foot wide landscape buffer. Landscaping standards for residential development shall adhere to Section 5.2.2(B) of the City of Apopka Land Development Code.
5. All stormwater ponds shown shall meet the City of Apopka Land Development Code requirements for slopes and depths requiring fencing.
6. Exterior lighting shall comply with the requirements of Section 5.6 of the City of Apopka Land Development Code.
7. Residential community signage shall comply with the requirements of Section 5.10.9 and non-residential standards shall comply with 5.10.7 of the City of Apopka's Land Development Code.
8. Architectural design shall meet the intent of the City of Apopka's Development Design Guidelines.
9. A concurrency application shall be submitted with each minor or major development plan for each phase of development.
10. Densities and intensities within The Ridge PD may be exchanged based on the traffic equivalency matrix shown on the PD plan.
11. In the event a cell tower is placed on Parcel 7, a fall zone radius will be provided adjacent to all residential, commercial and industrial structures located within the PD.
12. All townhomes shall front a dedicated street.
13. A Community Development District (CDD) will be established for ownership and maintenance of certain improvements within the development.
14. Green building standards shall be provided per Section 5.11.4 of the City of Apopka Land Development Code. Specific standards will be provided during each minor or major development plan for each phase of development.
15. Tree canopy retention standards shall be calculated on the overall PD area and not on an individual parcel basis. Tree canopy calculations shall be reviewed during the major development plan process. Tree canopy retention shall be maintained through each phase of development in accordance with Table 5.3.7.B.2C in Section 5.3.7 of the City of Apopka's Land Development Code. Specific table calculations will be provided with each minor or major development plan.

LEGAL DESCRIPTION:

FILE NUMBER: L190357

Beginning at the intersection of the South line of the right of way of Boy Scout Road with a line 42.50 feet East of the East line of the Northwest 1/4 of the Southwest 1/4 of Section 17, Township 21 South, Range 28 East, Orange County, Florida, and run South 89 degrees 43 minutes 32 seconds West, along said South right of way line, for a distance of 294.30 feet; thence run South 00 degrees 22 minutes 48 seconds West, parallel with the East line of said Northwest 1/4 of the Southwest 1/4, for a distance of 722.00 feet; thence run South 83 degrees 13 minutes 27 seconds East for a distance of 296.12 feet; thence run North 00 degrees 22 minutes 48 seconds East parallel with the East line of said Northwest 1/4 of the Southwest 1/4 for a distance of 758.35 feet to the POB.

FILE NUMBER: L190356

A portion of Section 17, Township 21 South, Range 28 East, Orange Country, Florida more particularly described as follows:

Commence at the South Quarter corner of said Section 17; thence N 07 degrees 19' 56" E to a point on the Westerly right of way of Ocoee Apopka Road, the arc of a curve concave to the East of the Point of Beginning; thence run along said right of way line and curve having a radius of 948.00', a delta of 11 degrees 35' 09", along a cord bearing of N26 degrees 13' 56" E, an arc distance of 191.70'; thence leaving said right of way run N75 degrees 44' 09" W, 278.00'; thence S57 degrees 12' 05" W, 100.86'; thence S10 degrees 59' 06" W, 134.01'; thence S79 degrees 38' 16" E, 300.05 to the Point of Beginning.

FILE NUMBER: L190473/ak

The South one-half (S 1/2) of the East one-half (E 1/2) of the Southwest one-quarter (SW 1/4) of the Northwest one-quarter (NW 1/4), (LESS the East twenty-five feet (E 25') of the South three hundred and forty feet (S 340')) of Section 17, Township 21 South, Range 28 East, Orange County, Florida, Less the South 30 feet thereof for Boy Scout Road.

Also less the land contained in Warranty Deed recorded in Official Records Book 1652, page 737, Public Records of Orange County, Florida, to wit:

Begin at the southwest corner of the South 1/2 of the East 1/2 of the Southwest 1/4 of the Northwest 1/4, Section 17, Township 21 South, Range 28 East; run North 0° 19' 30" West 668.54 feet; run thence East, North 87° 27' 40" East 15 feet; thence South 0° 19' 30" East 10 feet; thence West, South 87° 27' 40" West 3 feet; thence South 0° 19' 30" East to the south line of the South 1/2 of the East 1/2 of the Southwest 1/4 of the Northwest 1/4, Section 17, Township 21 South, Range 28 East; thence West to the Point of Beginning, less the South 30 feet in Boy Scout Road.

FILE NUMBER: L190355

PARCEL 1

The East half of the Southeast quarter of the Southeast quarter of Section 18, Township 21 South, Range 28 East, in Orange County, Florida;

and

The Southwest quarter of the Southwest quarter of Section 17, Township 21 South, Range 28 East, in Orange County, Florida;

and

The West 400 feet of: Begin 144 feet West of the Southeast corner of the Southwest quarter and run West to the Southwest corner of the Southeast quarter of the Southwest quarter of Section 17, Township 21 South, Range 28 East, thence run North 396.6 feet, South 75° East, a distance of 1,419 feet to a point 15 feet west of road, thence Southwesterly to the Point of Beginning, in Orange County, Florida.

PARCEL 2

The North one half (1/2) of the East one half (1/2) of the Southwest quarter (1/4) of the Northwest quarter (1/4) of Section 17, Township 21 South, Range 28 East, all in Orange County, Florida.

PARCEL 3A

The West 1/2 of the Southwest 1/4 of the Northwest 1/4 of Section 17, Township 21 South, Range 28 East, Orange County, Florida, less the West 433 feet of the South 220 feet;

PARCEL 3B

Begin at the southwest corner of the South 1/2 of the East 1/2 of the Southwest 1/4 of the Northwest 1/4, Section 17, Township 21 South, Range 28 East; run North 0° 19' 30" West 668.54 feet; run thence East, North 87° 27' 40" East 15 feet; thence South 0° 19' 30" East 10 feet; thence West, South 87° 27' 40" West 3 feet; thence South 0° 19' 30" East to the south line of the South 1/2 of the East 1/2 of the Southwest 1/4 of the Northwest 1/4, Section 17, Township 21 South, Range 28 East; thence West to the Point of Beginning, less the South 30 feet in Boy Scout Road.

PARCEL 4

That part of the Southeast 1/4 of the Northwest 1/4, the Northeast 1/4 of the Southwest 1/4 and the West 1/2 of the Southeast 1/4 of Section 17, Township 21 South, Range 28 East, Orange County, Florida, lying northwesterly of the northwesterly right of way line of Ocoee-Apopka Road, northeasterly of the northeasterly right of way of Boy Scout Road, and easterly of the east right of way line of Galway Blvd. (Tracts P and S) according to the plat of Breckenridge Phase 1 recorded in Plat Book 64, page 74, public records of Orange County, Florida.

PARCEL 5

Beginning at the southeast corner of the East 1/2 of the Southwest 1/4 of the Northwest 1/4 of Section 17, Township 21 South, Range 28 East; run thence West 25 feet, thence North 340 feet, thence East 25 feet, thence South 340 feet to the Point of Beginning;

and

The Southeast 1/4 of the Northwest 1/4 and that part of the Northeast 1/4 of the Southwest 1/4 of Section 17, Township 21 South, Range 28 East lying northerly and northeasterly of the right of way of Boy Scout Road and lying northerly and westerly of the north and west right of way lines of Galway Blvd. (tracts O and S) according to the plat of Breckenridge Phase 1 recorded in Plat Book 64, page 74, public records of Orange County, Florida.

PARCEL 6

That part of the West 1/2 of the Southeast 1/4, the North 1/2 of the Southwest 1/4 and the Southeast 1/4 of the Southwest 1/4 of Section 17, Township 21 South, Range 28 East, Orange County, Florida, lying westerly of the westerly right of way line of Ocoee-Apopka Road, and southerly and southwesterly of the southern and southwestern right of way line of Boy Scout Road, less and except the following parcels A, B and C:

A. Beginning 144 feet west of the quarter section post on the south boundary of Section line, 15 feet west of center of public road, run west 17 chains and 82 links, North 15 chains and 10 links, thence South 75° 30' East 21 chains and 55 links to a point 15 feet west of center of public road, southerly along said road to beginning.

B. Beginning at the intersection of the south line of the right of way of Boy Scout Road with a line 42.50 feet east of the east line of the Northwest 1/4 of the Southwest 1/4 of Section 17, Township 21 South, Range 28 East, Orange County, Florida, and run South 89° 43' 32" West, along said south right of way line, for a distance of 294.30 feet; thence run South 00° 22' 48" West, parallel with the east line of said Northwest 1/4 of the Southwest 1/4, for a distance of 722.00 feet; thence run South 83° 13' 27" East for a distance of 296.12 feet; thence run North 00° 22' 48" East parallel with the east line of said Northwest 1/4 of the Southwest 1/4 for a distance of 758.35 feet to the Point of Beginning.

C. A portion of Section 17, Township 21 South, Range 28 East, Orange County, Florida, more particularly described as follows:

Commence at the south quarter corner of said Section 17; thence North 07° 19' 56" East to a point on the westerly right of way of Ocoee Apopka Road, the arc of a curve concave to the east and the Point of Beginning; thence run along said right of way line and curve having a radius of 948.00 feet, a delta of 11° 35' 09", along a chord bearing of North 26° 13' 56" East, an arc distance of 191.70 feet; thence leaving said right of way run North 75° 44' 09" West, 278.00 feet; thence South 57° 12' 05" West, 100.86 feet; thence South 10° 59' 06" West, 134.01 feet; thence South 79° 38' 16" East, 300.05 feet to the Point of Beginning.

PARCEL 7

The Northeast 1/4 of the Southeast 1/4 of Section 18, Township 21 South, Range 28 East, and beginning 110 yards north of the southwest corner of the Northwest 1/4 of the Southeast 1/4, run North 110 yards, East 440 yards to the 40 line, South 110 yards, West 440 yards to beginning, Section 18, Township 21 South, Range 28 East, Orange County, Florida; less and except that portion conveyed to the State of Florida for State Road 437 by the Quit Claim Deed recorded in Deed Book 770, page 209, and less that part vested in the Orlando/Orange County Expressway Authority by the Stipulated Order of Taking recorded in Official Records Book 9046, page 4349 and Official Records Book 9398 page 1729 of the public records of Orange County, Florida.

PARCEL 8

The South 1/2 of the North 1/2 of the Southwest 1/4 of the Southeast 1/4 and the West 1/2 of the Southeast 1/4 of the Southeast 1/4 of Section 18, Township 21 South, Range 28 East, Orange County, Florida, less and except that portion conveyed to the State of Florida by the Quit Claim Deed recorded in Deed Book 769, page 164 and less and except those portions vested in the Orlando/Orange County Expressway Authority by the Stipulated Order of Taking recorded in Official Records Book 9046, page 4349 and Official Records Book 9893, page 1729 of the public records of Orange County, Florida.

PARCEL 9

The North 1/2 of the Northwest 1/4 of the Southeast 1/4 of Section 18, Township 21 south, Range 28 East, Orange County, Florida, less and except the North 33 feet thereof for road right of way and less road right of way on west.

SHIRLEY PARCEL

The Northwest 1/4 of the Northwest 1/4 of Section 17, Township 21 South, Range 28 East, Orange County, Florida.

Together with an Easement for ingress and egress over the East 30 feet of the following described property:

The West 1/2 of the SW 1/4 of the NW 1/4 of Section 17, Township 21 South, Range 28 East, Orange County, Florida, Less the West 433 feet of the South 220 feet, also subject to road right-of-way on South 30 feet.

TRIANGLE PARCEL

THAT PORTION OF THE NORTH 1/4 OF THE SOUTHWEST 1/4 OF THE SOUTHEAST 1/4 OF SECTION 18, TOWNSHIP 21 SOUTH, RANGE 28 EAST, ORANGE COUNTY, FLORIDA LYING EAST OF THE EAST RIGHT-OF-WAY LINE OF BINION ROAD, FORMERLY KNOWN AS STATE ROAD 437, LESS AND EXCEPT THAT PORTION VESTED IN THE ORLANDO/ORANGE EXPRESSWAY AUTHORITY BY THE STIPULATED ORDER OF TAKING RECORDED IN OFFICIAL RECORDS BOOK 9046, PAGE 4324 AND OFFICIAL RECORDS BOOK 9398, PAGE 1753 OF THE PUBLIC RECORDS OF ORANGE COUNTY, FLORIDA.

CITY OF APOPKA

Minutes of the City Council regular meeting held on July 21, 2021 at 7:00 p.m., in the City of Apopka Council Chambers.

PRESENT: Mayor Bryan Nelson
Commissioner Doug Bankson
Commissioner Kyle Becker
Commissioner Alexander Smith
Commissioner Diane Velazquez
City Administrator Edward Bass
City Attorney Michael Rodriguez

PRESS PRESENT: John Peery, The Apopka Chief

INVOCATION – Commissioner Smith provided the Invocation and led in the Pledge of Allegiance. He then recited the Fact of the Day as follows: On July 21, 2011, NASA's space shuttle program completes its final, and 135th, mission, when the shuttle Atlantis lands at Kennedy Space Center in Florida. During the program's 30-year history, its five orbiters—Columbia, Challenger, Discovery, Atlantis and Endeavour—carried more than 350 people into space and flew more than 500 million miles, and shuttle crews conducted important research, serviced the Hubble Space Telescope and helped in the construction of the International Space Station, among other activities. NASA retired the shuttles to focus on a deep-space exploration program.

APPROVAL OF MINUTES

1. Regular Council Meeting Minutes of June 7, 2021.

Mayor Nelson asked if anyone had any questions about the minutes. Commissioner Velazquez requested additional content be added to one of the public comments and asked if we can move this to the next meeting to allow time for this.

Mayor Nelson said we will postpone the approval until the next meeting.

AGENDA REVIEW

Edward Bass, City Administrator Edward Bass advised that there were no changes to the Agenda.

PUBLIC COMMENT PERIOD

Gary McSweeney, 1629 Spinfisher Drive, Apopka, FL 32712, and President of the Rock Springs Ridge HOA provided an update Rock Springs Ridge. He said we had a meeting today with the golf

group/developer/owner of the golf course lands. He said the HOA and that group put together a declaration of intent. He said this is a 7-point document from a white board and sent forward that outlines our understanding of what our agreement is. He said this been forwarded to the Mayor, where it will be articulated in a more formal way. He said based upon the combined review with the Commissioners, we will react to that and within a short period of time, we'll put together the written documents, which will be prepared by Kurt Ardamon, our Attorney. He said in order to give you confidence that the majority of people in Rock Springs Ridge are for this agreement, they're prepared to rent out the Amphitheater and said we can have you speak and have Kurt Ardamon there to answer any questions. He said we could have tables to sign up so that everything will be a hub of activity.

Mayor Nelson said during the week you won't need to rent it and asked him to be sure to get Susan on board so we can get this published so it will be a Sunshine meeting so that all of the Commissioners can come and weigh in as well. . He said the sooner the better.

Gary said that he feels the residents will be very favorable to this agreement. He said if there are any changes, it is what it is and we're all here to work together. He said this has been a long-time issue with Rock Springs Ridge and with the City and the developer and said the fact that we can come together as a three-way partnership here to make this work is pretty outstanding. He said much of it has to do with the Mayor in that he afforded us the opportunity to voice ourselves to voice even opposition to what is being proposed in an effort to try to and make all parties comfortable. He said this has been a real tribute to Apopka and its leadership.

Commissioner Velazquez asked if all of the residents were sent a letter asking them if they were interested in this. She said it was asked of the HOA during the meetings to send to all of the residents in Rock Springs Ridge, a small questionnaire as to whether they're interested in the purchase. She said she is being contacted by residents that are not on board and said it's likely that the other Commissioners are as well. She said she's assuring them that at some point, the HOA is going to send this letter to each individual household to ask them.

Gary said that we will be doing that over the next two weeks and said we're hopeful to have our meeting at the amphitheater 2 weeks from yesterday. He said we will be putting out information of our collective thoughts on this and said we just put the package together on his today and said prior to today, it's been somewhat in transition. He confirmed that they will make everyone aware of what this agreement is and how it will affect them.

Commissioner Velazquez asked that before you present that to the households, will you ask them if they're interested. She said at previous HOA meetings, it was asked if a letter will be sent to ask people if they're interested to which Gary said we can certainly do that as a part of this process. She said she represents the residents of Rock Springs Ridge and said this will give her the confidence to vote on something to move ahead. She said that's all she's asking.

Mayor Nelson asked Gary to put the list of the items we've talked about today at the bottom and said that way people can vote for both. He said we're not here to mandate what Rock Springs Ridge does and said we're not making the decision. He said we're providing the opportunity to the residents of Rock Springs Ridge to buy it or not and said they have the ability to do what they want to do.

Gary said on April 27th when the Mayor made his presentation and the Commissioners were all on stage with him, he said there was a significant outcry.

Commissioner Becker interjected and said that should not be indicative and said that there could've been people there that were part of the audience in the dissent. He said to Commissioner Velazquez's point, whenever you survey your neighborhood, it needs to be a binary yes or no with facts to support it.

CONSENT (Action Item)

1. Approve and Execute the Purchase and Sale Agreement for Camp Wewa.
2. Execute Release of Code Enforcement Lien for My Three Sons, LLC - 495 Sheeler Avenue Apopka, Florida.
3. Authorize the Mayor to sign the State of Florida transfer form, transferring the mobile command post from the OCSO to the City of Apopka.
4. Authorize the execution of piggyback contracts for fiscal year 2021.
5. Accept the disbursement report for June 2021.
6. Accept the third quarter Budget to Actual Report; beginning April 1, 2021 and ending June 30, 2021.

Mayor Nelson asked if anyone had any questions or needed to pull any of the other items from the Consent Agenda.

Commissioner Becker asked about item #6 and said this isn't just a quarterly report, it looks like it's total year to date.

Edward confirmed that this is year to date and said if you recall, two meetings ago, we provided a quarter report and said you'll get this report monthly and said this is an annual accounting so this is FY to date.

Commissioner Bankson asked to pull item #1 so he can vote on that separately. He said he also wanted to comment on item #3 and said that's tremendous thing for our ability to respond.

Mayor said Orange County Sheriff's office had a really nice command center and asked Chief McKinley to brief us on this.

Chief McKinley said that the Orange County Sheriff's office, using Urban Area Security Initiative Funding in 2004, applied for a mobile command post and received the vehicle and said it's a 2006 Freightliner and said the cost was a little over $1 million dollars at the time. He said it's been kept indoors as they have a great big warehouse facility they keep all their specialty vehicles in and said it hasn't been exposed to the exterior. He said he took Charlie from Fleet and Rob from IT and they went down and looked at it to make sure everything was functioning properly. He said they just took it to Freightliner and had them go through it and fixed a couple of things including hydraulic lines for the slide outs. He said our current command post is small and this gives us about 3 times the space. He said we can use it as a unified command with Police and Fire if needed during a critical incident. He said due to the funding they used, they can't sell it so they put it out to give it away. He said he claimed first right or refusal so we're going to accept it providing you all accept it. He said we've offered Winter Garden our current command post and said there is a little issue with the flooring. He said they're coming to look at this next week and if you all agree, we'll then donate this to the Winter Garden Police Department.

Mayor Nelson asked for a motion to approve item #'s 2-6 on the Consent Agenda.

MOTION by Commissioner Bankson, and seconded by Commissioner Becker to approve item #'s 2-6 on the Consent Agenda. Motion carried unanimously with Mayor Nelson, and Commissioners Bankson, Becker, Smith & Velazquez voting aye.

Mayor Nelson then asked for a motion to approve item # 1 and execute the Purchase and Sale Agreement for Camp Wewa.

MOTION by Commissioner Smith, and seconded by Commissioner Becker to approve item # 1 and execute the Purchase and Sale Agreement for Camp Wewa. Motion carried 4-1 to approve with Mayor Nelson, and Commissioners Becker, Smith & Velazquez voting aye and Commissioner Bankson voting nay.

MILLAGE RATE (Action Item)

1. Approve and Set the Proposed Fiscal Year 2021-22 Millage Rate.
   Presented by: Edward Bass

Edward Bass, City Administrator, provided an overview and said as you know, every year, we have to set the proposed millage rate and notify the Property Appraiser so that they can mail the notices out for the Property Taxes for the upcoming FY22 fiscal year. He said it's been a long week, we've had 3 workshops and have been through all of the line items of the departments and heard their requests and needs. He said he'll go through the budget you have before you tonight and will try and go through the lines and try and cover everything we covered in the workshops and significant items that you need to be aware of for your benefit as well as the Public. He said keep in mind, as

you look through this budget, it does not include Camp Wewa. He said you have just recently approved the purchase agreement for Camp Wewa so now Camp Wewa will need to be put into this budget. He said keep in mind, as you look through this budget, it does not include Camp Wewa. He said you have just recently approved the purchase agreement for Camp Wewa so now Camp Wewa will need to be put into this budget. He said as you saw tonight in your workshop from the Recreation Department, that is pretty much a break- even scenario. He said what we'll do is adjust this to reflect the increase in revenues and expenses and said the revenues will go up by a little more than $1 million dollars and the expense side will go up by $1 million dollars. He said Camp Wewa will be a separate cost center so we will add a separate line to this budget under Recreation's budget as we're going to keep those expenditures separate. He said that being neutral or break even, it won't have an impact on needing an increase into the revenues at this point. He said as we go through the revenues, he'll show you if we're using any reserves and specific reserves, he'll highlight as well. He said as you recall, we talked about some of the Duke Energy dollars to fund certain projects so I'll point those out as we move forward.

Commissioner Becker asked who was tracking this over the last 3 days as and asked how confident are we that this is the budget. He said he saw the lead in packet and what the staff recommendation is for millage rate.

Edward said that the budgets you received were the original budgets submitted by the departments. He said the Mayor and I went through these budgets with each department and said the presentations they presented to you at the workshops reflect those changes that were updated from the original budget package you have to what you'll see in this packet. He said this packet includes the original numbers that you saw in their presentations. He said he'll point this out to you as you we go along. He said you'll be setting the millage rate tonight and said it's hard to go up but we can go down before we get to September. He said in addition, he wants the public to know that we're also setting our first tentative hearing which will show on their proposed property tax bill. He said there are 2 hearings that will be held after 5:00 p.m. and said that in both of those hearings, the budget will be presented as the State numbers are still not finalized and won't be until August when the Revenue Estimating Council meets.

He said he'll start with the budget calendar that's in your packet and you can see that we're here tonight to set the proposed millage rate and said you'll see the dates of the budget workshops we've just gone through and said we must notify the Property Appraiser of the proposed millage rate by July 30th. He said there are dates included in this calendar in the event that we need to have another workshop. He said the CRA Budget will be brought forward on August 18, 2021 at 6:00 p.m. and said as you know, this is a separate board and separate budget. He said we're anticipating the date to be September 8, 2021 at 5:15 p.m., at City Hall for the First Reading and Public Hearing of the Tentative Budget and said you'll set this date tonight. He said we have to submit an ad to the paper before the next meeting and we'll schedule our Second Reading and Final Public Hearing, which will be the final meeting to adopt the millage rate and the Budget on September 15, 2021.

He said as a reminder, Council approved the meeting change from September 1, 2021 to September 8th, 2021 and this is reflected on our website.

He reviewed the changes to our personnel including proposed new positions, lateral changes and promotions. He said you'll note that under support services for Police, the 10 new officers are not in here as we're waiting to hear about the COPS Grant and said that would be an adjustment we'll need to make to this line. He said as you know their capital and their equipment is already in here. He said, also on Police, you'll see 1 additional support, new employee for the Code Enforcement officer. He said you'll see 2 dispatch positions for dispatch communications and said that as you recall, the Police Chief spoke about adding those and said they're included in this budget. He said Community Development will be adding 2 positions under Building Safety including 1 new inspector and 1 new Permit Clerk. He said Public Services has requested to add 1 Sanitation Equipment Operator and this is included in this budget. He said Facilities Maintenance requested an Electrician and said this is also included in this budget. Parks, Athletics and Events, requested 5 total positions and said 3 have been added into Parks and 2 have been added into Athletic Events. He said overall, you can see that last year, we had 479 approved and authorized positions and we've added 12 new positions in this budget and removed 1 position so we're at a total of 490 total full-time positions in this proposed budget.

Commissioner Bankson asked about the Clerk's office request to move the part-time position to full-time and asked if that in this budget to which Edward said this position is still in the budget as a part-time position.

Edward said this is the schedule that shows the millage rate and said that from FY21-FY22, our tax base went up a little over $397 million dollars and equates to a 10.4% increase in taxable assessed value. He said you can see that last year, our tax base generated almost $15.5 million dollars, based on a millage rate of 4.2876. He said this current budget FY22 is balanced using 4.1876, which is a tenth of a mil reduction and said this budget will generate an additional $1 million dollars from the Municipal Service Tax from the electric, water and gas bills. He said with that millage rate of 4.1876, it will generate an additional $1.2 million dollars over the last fiscal year or about 7.8% increase in property tax revenue. He said the scenarios on the bottom are what it would generate if we were to go to the roll-back rate; if you maintain the same current rate; and; what it would generate with the reduction of the .10 mil. He said the reduction of the .10 mil, would equal a $400,000 reduction to the budget. Edward spoke about the projected General Fund Revenues and said you can see property taxes represent 41.5% of the revenues that come in to fund the General Fund. He said licenses and permits reflect 12%; intergovernmental revenue (sales tax) reflects 19%; charges for services are at 7%; fines and forfeiture are at 1%; miscellaneous revenue is about 2.1%. He said transfer from other funds there is about 13%; transfer from reserves reflects 2.8%. He said 3% of this budget is being balanced with the reserves and said that as you know, we've built those reserves to 32% so this impact on the reserves will still leave the reserves at that 25%.

He said this budget is balanced currently at the millage rate of 4.1876 right at $57 million dollars. He said this is almost a 9% increase over last years fiscal year budget. He said this is one of the biggest increases we've had in the General Fund in a long time.

Edward said when you look at the Expenditures side, you can see that the Public Safety is at 60% and said it hovers around that percentage in just about every jurisdiction and said as you can see, with all of the money that's coming in, it's still maintaining that 60%. He said Community Development is a little over 4.5% of the budget; Recreation is 10% which is common in most jurisdictions; Public Services is a little more than 5%; Debt Service is 4%; Transfer to other funds is 2.4%; Administration is 11.7% and the Finance Department is right at 1.8%. He said on the expenditure side, this is balanced at $57 million dollars and said this budget is currently balanced at the millage rate of 4.1876.

He said another area that's critical to watch is your intergovernmental revenues and said that you can see that your state revenue sharing number is down so these numbers will probably change when the Revenue Estimating Council meets in August. He said the local government ½ cent sales tax is your actual sales tax number that is split with the County in all of the jurisdictions. He said you'll see that this is a little over 2% increase in that number but it's relatively flat and the projection for FY22 is not much of an increase. He said these numbers are subject to change but overall, you have less than 2% increase in your sales tax revenue and said this is a big revenue source. He said over the years, that has been $10 million dollars plus over the years. He said it's important for us to watch this number. He said the fees for the Orange County Services is the contract that we have to provide services to the Orange County Service Area and said there's a 3% increase in here and said this is the ad-velorum revenue that we get from the County to provide the Fire Service to that area and said this number is also dependent on Orange County's tax rate. He said we've added that increase in there for growth however as noted, this can change. He said the items that we went through tonight and that we reviewed in the workshops are the items that are in this budget. He said any items that you add this evening, we would need to balance that so we'll need to take from somewhere else. He said we're setting our millage rate tonight and said keep in mind that we can go down but it's difficult to go up.

Commissioner Becker said the business before us is just the millage rate. He said sometimes the millage gets a lot of focus and said it's at 4.28 right now and said we're the lowest of any full-service City and asked why staff is suggesting a 4.18 millage rate for the sacrifice of $400,000 when after hearing critical needs across the departments after the last few days. He said we talked about going for grants but those aren't guaranteed.

Edward said the water and wastewater you mentioned has nothing to do with the millage rate is an Enterprise Fund and is set based upon the utility rates so when the utility rate study comes to you, it will lay that out and you'll set that utility rate to fund those needs and said that will come at a later date. He said the millage rate is only for the services you see before you tonight.

Commissioner Bankson said if we're coming down the .10 mil to offset what they're going to be paying now through a different tax so they're not paying lower, they'll have to pay the roll-back rate to actually pay the same so it's actually an increase. He said to keep them where they're at, we'd have to go to the roll-back rate and said we have all of this uncertainty and we have to give ourselves that buffer that if there's something missing, and we don't realize it, we don't want to leave ourselves short.

Commissioner Velazquez said that there are so many things we need to fund and said that with the Police Department going for a grant, we don't know if they'll fund 5 officers or the full 10 yet and said if we roll this back from where we currently are, we're going to be back where we always are. She said the level of service will be the same, yet we're still growing and don't have the revenues from the newer developments yet. She said keeping it the same will give us that buffer. Commissioner Smith said he's in favor of leaving the millage rate where it is and if we need to in September, we can roll it back. He said he would like to see the position that the Clerk asked for become a full-time position and said that Fire asked for some additional personnel and said let's look at what we can do for them as well.

Mayor Nelson said he wanted to remind everyone that last March when Covid hit, we were 6 months into our budget and we were able to balance our budget where we lost $3 million dollars in 6 months. He said we have a great team and said we understand how to manage our budget and said we worked hard to put together a budget that will meet the needs of the residents; have a lot of funds available for grant opportunities as they come along and still give our residents a slight decrease in property taxes to offset their Municipal Service Tax increases.

Mayor Nelson then asked for a motion to approve and set the proposed millage rate of 4.2876.

MOTION by Commissioner Bankson, and seconded by Commissioner Becker to approve to and set the proposed millage rate of 4.2876. Motion carried unanimously with Mayor Nelson, and Commissioners Bankson, Becker & Velazquez voting aye.

Edward said we need to set the tentative budget hearing date for September 8, 2021 at 5:15 p.m.

Mayor Nelson then asked for a motion to set the tentative budget hearing date for September 8th, 2021 at 5:15 p.m.

MOTION by Commissioner Smith, and seconded by Commissioner Becker to set the tentative budget hearing date for September 8th, 2021 at 5:15 p.m. Motion carried unanimously with Mayor Nelson, and Commissioners Bankson, Becker & Velazquez voting aye.

BUSINESS (Action Item)

1. Designate an official voting delegate for the Florida League of Cities annual conference.
   Presented by: Edward Bass

Edward Bass said that every year, the Florida League of Cities has their annual conference and I believe all of you are planning to attend. He said we're required to designate an official voting delegate that will represent the City of Apopka at this conference so we need a motion to elect someone to serve as the delegate.

Commissioner Bankson said he would make a motion to have Commissioner Smith serve as our delegate.

Mayor Nelson said we have a MOTION by Commissioner Bankson, and seconded by Commissioner Velazquez, to designate Commissioner Alexander Smith as the voting delegate for the Florida League of Cities annual conference. Motion carried unanimously with Mayor Nelson, and Commissioners Bankson, Becker & Velazquez voting aye.

2. Major Development Plan – Apopka 429
Owner: Cypress Business Park, LLC
Applicant: Kimley-Horn & Associates, c/o Jason A. Lewis
Location: 4670 W Orange Blossom Trail
Project: 246.18 +/- acres
Project Manager: Bobby Howell

Bobby Howell said the applicant is requesting approval of the Major Development Plan for a parcel located Southwest of US 441 and West of the Apopka Airport. He said the Major Development Plan details the development of infrastructure servicing a proposed industrial warehouse development totaling 2,471,040 square feet on 246.8 acres, He said this major development plan is only for infrastructure and not for the buildings that are depicted on the major development plan. He said the internal roadway is proposed for construction leading from Orange Circle by the airport, up to Wesley Road, and terminating at US 441. He said the intersection is proposed to be a signalized intersection at full project build out and provided a summary of the additional onsite improvements.

Mayor Nelson asked if anyone else had any questions or if anyone from the public wished to speak on this item. Hearing none, he asked for a motion to approve the Major Development Plan for the Apopka 429 project.

MOTION by Commissioner Bankson, and seconded by Commissioner Smith, approve the Major Development Plan for the Apopka 429 project. Motion carried unanimously with Mayor Nelson, and Commissioners Bankson, Becker & Velazquez voting aye.

PUBLIC HEARINGS/ORDINANCES/RESOLUTION (Action Item)

1. Ordinance No. 2838 – Second Reading - Small Scale – Future Land Use Amendment – Golden Gem Property (-066)
From: County Rural

To: Mixed-Use
Owner: Carl C. and Donna S. Redder
Applicant: GL Summit Engineering c/o Geoffrey L. Summit, P.E.
Location: Southwest corner of Sadler Road and Golden Gem Road
Project: 1.79 +/- acres; Density: 5 du/acre minimum, 10 du/acre maximum
Project Manager: Jean Sanchez

Mayor Nelson asked if there have been any changes since the first reading to which Bobby Howell advised there were no changes.

Bobby Howell then provided a brief update as regards to OCPS. He said he spoke with Christopher Mills, the facilities planning manager for OCPS and said he indicated that the school board is looking to do a Workshop for elected officials with regard to capacity and concurrency. He said everyone should have received the information for all of the developments regarding capacity.

Commissioner Becker said we received preliminary data from School Board Member Byrd about a month ago and she had provided a list of all of the current OCPS schools that were over capacity including current enrollment was and their percentage. He said you've provided a list of all of the developments that have capacity reservations from the beginning of this year and said this provided a directional view and he thanked him for this. He said we as a board need to advocate to our school board member to make sure that those funds stay here in Apopka and don't get allocated elsewhere.

Mayor Nelson said Bobby ran some numbers on what we've paid into school impact fees for the last three years and said we'd like to go back to when the last school was built which was Wolf Lake.

Bobby stated the impact fees that were sent from the City to the school board for the years 2019, 2020 & 2021, were $10,944,832.68 and said according to Christopher Mills, the cost for the K-8 was $28,521,195.78.

Mayor Nelson said Bobby will go a little further back to when Wolf Lake Elementary and Middle Schools were being built in order to track where we're at with the money we're sending them. He then asked if anyone had any other questions or if anyone from the public wished to speak on this item. Hearing none, he asked for a motion to adopt Ordinance No. 2838.

MOTION by Commissioner Smith, and seconded by Commissioner Velazquez to adopt Ordinance No. 2838. Motion carried unanimously with Mayor Nelson, and Commissioners Bankson, Becker & Velazquez voting aye.

2. Ordinance No. 2839 – Second Reading – Small Scale – Future Land Use Amendment – Golden Gem Property (-085)

From: County Rural
To: Mixed-Use
Owner: Carl C. and Donna S. Redder
Applicant: GL Summit Engineering c/o Geoffrey L. Summit, P.E.
Location: Southwest corner of Sadler Road and Golden Gem Road
Project: 8.62 +/- acres; Density: 5 du/acre minimum, 10 du/acre maximum
Project Manager: Jean Sanchez

Mayor Nelson asked if there have been any changes since the first reading to which Bobby Howell advised there were none. He then asked if anyone had any questions or if anyone from the public wished to speak on this item. Hearing none, he asked for a motion to adopt Ordinance No. 2839.

MOTION by Commissioner Bankson, and seconded by Commissioner Velazquez to adopt Ordinance No. 2839. Motion carried unanimously with Mayor Nelson, and Commissioners Bankson, Becker & Velazquez voting aye.

3. Ordinance No. 2840 – Second Reading - Floridian Town Center - Change of Zoning and approval of PD Master Plan
From: Transitional (T)
To: Planned Development (PD)
Owner: Collier Benge Land Joint Venture LLC
Applicant: Andrew McCowan, GAI Consultants, Inc
Location: North of West Orange Blossom Trail and west of S.R. 429
Project: 73.93 +/- acres (0-15 dwelling units per acre, maximum of 0.25 Floor Area Ratio)
Project Manager: Phil Martinez
Postponed to date certain August 18, 2021

Bobby Howell announced that staff and the applicant are requesting to postpone the Second Reading of Ordinance No. 2840 to a date certain of Wednesday, August 18, 2021 in order to allow time to work out issues related to the development agreement.

MOTION by Commissioner Smith and seconded by Commissioner Bankson to adopt Ordinance No. 2840 to a date certain of Wednesday, August 18, 2021 in order to allow additional time to work out issues related to the development agreement. Motion carried unanimously with Mayor Nelson, and Commissioners Bankson, Becker & Velazquez voting aye.

4. Ordinance No. 2841 – Second Reading - Change of Zoning, Assignment of KPI neighborhood overlay district and Master Plan – Plymouth Sorrento Assemblage
   From: Transitional (T)
   To: Kelly Park Interchange Mixed Use (KPI-MU) and neighborhood overlay
   Owner: Klepzig Family Trust, Klepzig Dennis R Life Estate, Klepzig Joann Life Estate, Min Sun Cho, Hong Sik Kim and Deok Hwa Kim
   Applicant: Pulte Homes Company, LLC c/o Aaron Struckmeyer
   Location: East of SR 429, west of Plymouth Sorrento Road, and south of Joey McGuckin Road
   Project: 50.79 +/- acres; Density: 5 du/acre maximum; Proposed 3.5 du/ac
   Project Manager: Jean Sanchez

   Mayor Nelson asked if there have been any changes since the first reading to which Bobby Howell advised there were none. He then asked if anyone had any questions or if anyone from the public wished to speak on this item. Hearing none, he asked for a motion to adopt Ordinance No. 2841.

   MOTION by Commissioner Bankson, and seconded by Commissioner Velazquez to adopt Ordinance No. 2841. Motion carried unanimously with Mayor Nelson, and Commissioners Bankson, Becker & Velazquez voting aye.

5. Ordinance No. 2845 – Second Reading - Change of Zoning, Assignment of KPI neighborhood overlay district and Master Plan – Oakview
   From: Agriculture District (AG)
   To: Kelly Park Interchange Mixed Use (KPI-MU) and neighborhood overlay
   Owner: Kent A. Greer and Annie M. Greer
   Applicant: Ben Snyder, Hanover Land Company
   Location: South of W. Kelly Park Road and east of Round Lake Road
   Project: 39.6 +/- acres; Proposed Maximum Density: 2.85 dwelling units per acre, Maximum Density Permitted: 5 dwelling units per acre
   Project Manager: Phil Martinez

   Mayor Nelson asked if there have been any changes since the first reading to which Bobby Howell advised there were none. He then asked if anyone had any questions or if anyone from the public wished to speak on this item. Hearing none, he asked for a motion to adopt Ordinance No. 2845.

   MOTION by Commissioner Smith, and seconded by Commissioner Velazquez to adopt Ordinance No. 2845. Motion carried unanimously with Mayor Nelson, and Commissioners Bankson, Becker & Velazquez voting aye.

6. Ordinance No. 2848 – Second Reading – Annexation – Roper Property

Owner: Bert E. Roper and Barbara C. Roper Family Limited Liability Partnership
Applicant: JCF Living c/o Tara Tedrow
Location: Located west of SR 429 and north of Hooper Farms Road
Project: 1.53 +/- acres
Project Manager: Jean Sanchez

Mayor Nelson asked if there have been any changes since the first reading to which Bobby Howell advised there were none. He then asked if anyone had any questions or if anyone from the public wished to speak on this item. Hearing none, he asked for a motion to adopt Ordinance No. 2848.

MOTION by Commissioner Smith, and seconded by Commissioner Becker to adopt Ordinance No. 2848. Motion carried unanimously with Mayor Nelson, and Commissioners Bankson, Becker & Velazquez voting aye.

7. Ordinance No. 2850 – Second Reading - Small Scale – Future Land Use Amendment – Golden Gem Property
   From: County Rural (1 DU/10 AC)
   To: Mixed-Use (5-10 DU/AC AND/OR 0.5-0.75 FAR)
   Owner: PMDW Ventures, LLC
   Applicant: GL Summit Engineering c/o Geoffrey L. Summit, P.E.
   Location: Southwest corner of Sadler Road and Golden Gem Road
   Project: 9.86 +/- acres; Density 5 du/acre minimum, 10 du/acre maximum
   Project Manager: Jean Sanchez

   Mayor Nelson asked if there have been any changes since the first reading to which Bobby Howell advised there were none. He then asked if anyone had any questions or if anyone from the public wished to speak on this item. Hearing none, he asked for a motion to adopt Ordinance No. 2850.

   MOTION by Commissioner Becker, and seconded by Commissioner Velazquez to adopt Ordinance No. 2850. Motion carried unanimously with Mayor Nelson, and Commissioners Bankson, Becker & Velazquez voting aye.

8. Ordinance No. 2852 – Second Reading – Annexation – 1002 S Hawthorne Ave
   Owner: City of Apopka
   Applicant: City of Apopka, c/o Richard Earp

Location: 1002 S Hawthorne Ave
Project: 0.52 +/- acres
Project Manager: Allyson Williams

Mayor Nelson asked if there have been any changes since the first reading to which Bobby Howell advised there were none. He then asked if anyone had any questions or if anyone from the public wished to speak on this item. Hearing none, he asked for a motion to adopt Ordinance No. 2852.

MOTION by Commissioner Smith, and seconded by Commissioner Bankson to adopt Ordinance No. 2852. Motion carried unanimously with Mayor Nelson, and Commissioners Bankson, Becker & Velazquez voting aye.

9. Ordinance No. 2858 – Second Reading - Change of Zoning and approval of the PD Master Plan– The Ridge
From: Residential Single-Family Estate (RSF-1A), Community Commercial (C-C) and Mixed- Use East Shore Gateway (MU-ES-GT)
To: Planned Development (PD)
Owners: Troy S. Bronson Family LP; John and Donna Marie Kirkland; Binion Partners, LLC; and Apopka Centerline
Development, LLC
Applicant: VHB c/o John Prowell, P.E.
Location: North of south of Boy Scout Road; west of SR 451
Project: 366 +/- acres; Density: 15 du/ac maximum; 1321 total dwelling units proposed
Project Manager: Jean Sanchez

Mayor Nelson asked if there have been any changes since the first reading.

Bobby Howell said as a point of clarification, on the Master Plan, the minimum unit size for the townhomes is 1,350 square feet and the staff report said he minimum unit size was 1,800 square feet and explained that 1,800 square feet is for the townhome pad itself. He said that is in the master plan as presented at the first reading. He said other than that, there are no changes.

Mayor Nelson asked if any had any questions or if anyone from the public wished to speak on this item.

Dion Ross, 664 Longford Loop, Apopka, FL. He said he's the HOA President for Breckenridge and said that one of his concerns with this project is the major impact that this will cause on our entrance. He said anyone traveling Boy Scout Road knows that at our call box, we only have a 2-car stacking and whenever that delays, we have cars lining up in the street.

Erica Hughes, VHB, 225 E. Robinson, Orlando, FL 32801 spoke on behalf of the applicant and said as a part of their PD Agreement, there will be an extensive transportation improvement plan that we're dedicated to and that includes improvements along Boy Scout Road. She said we've been in contact with Breckenridge and have sent them our plans in order to keep them in the loop and understand the sensitivity to that entrance area.

Rod Olsen, 3156 Rolling Hills Lane, Apopka, FL, commented that this will be an additional 400-500 kids and said when OCPS opened Wolf Lake Elementary and Middle School approximately 15 years ago, there were 46 portables and we still have 46 portables. He said we keep adding and adding. Mayor Nelson asked if anyone else wished to speak and hearing none, he asked for a motion to adopt Ordinance No. 2858.

MOTION by Commissioner Becker, and seconded by Commissioner Velazquez to adopt Ordinance No. 2858. Motion carried unanimously with Mayor Nelson, and Commissioners Bankson, Becker & Velazquez voting aye.

10. Ordinance No. 2860 – Second Reading - Registration of Residential Property subject to foreclosure actions.
Presented by: Michael Rodriguez

Mayor Nelson asked if there have been any changes since the first reading to which Michael Rodriguez, City Attorney, advised there were none. He then asked if anyone had any questions or if anyone from the public wished to speak on this item. Hearing none, he asked for a motion to adopt Ordinance No. 2860.

MOTION by Commissioner Bankson, and seconded by Commissioner Smith to adopt Ordinance No. 2860. Motion carried unanimously with Mayor Nelson, and Commissioners Bankson, Becker & Velazquez voting aye.

11. Ordinance No. 2861 – First Reading – Amendment to the Florida Building Code relating to FEMA prerequisites for communities that participate in the Community Rating System (CRS) program.
Presented by: Richard Earp

Richard Earp, City Engineer, said this Ordinance reflects the specific requirements from FEMA and the State. He said there will be another ordinance brought forward at the next meeting to request the adoption of changes to the Land Development Code and said those are also required by FEMA.

Mayor Nelson asked anyone has any questions or if anyone from the Public wishes to speak on this matter. Hearing none, he closed the Public Hearing and asked for a Motion to approve Ordinance No. 2861 at first reading and hold over for a second reading and adoption.

MOTION by Commissioner Becker and seconded by Commissioner Smith, to approve Ordinance No. 2861 at first reading and hold over for a second reading and adoption. Motion carried unanimously with Mayor Nelson, and Commissioners Bankson, Becker, Smith and Velazquez voting aye.

12. Resolution No. 2021-32 - FY20/21 Budget Amendment
Presented by: Gladymir Ortega
Gladymir Ortega, Finance Director said this Budget Amendment has 4 different amendments. She said the first one includes changes in funding appropriations related to the Duke Energy Public Service Tax revenue. She said this amendment recognizes the revenue received for Duke and assigns expenditure funds for the Recreation Department. The funds will be used for the Amphitheater bathrooms & concession; the Fran Carlton storage building and park improvements. She said the remainder of these funds will be expensed and recognized via future adopted budgets or budget amendments that will be presented to the Council. She said the second budget amendment reflects the changes in funding and appropriations regarding the Airport fuel sales revenue and expenditures. She said the final sale of the Airport is currently pending with First Landing Aviation. She said the third budget amendment is in funding and appropriations related to the SJRWMD, Florida Spring Run program for the Distributed Sewer Retrofit project. She said lastly, the fourth budget amendment is for the funding and appropriations related to the American Rescue Plan for the Coronavirus State and Local fiscal recovery fund. She said the City of Apopka was awarded a total of $7,037,307 to provide resources to meet pandemic responsive needs.

Mayor Nelson asked if anyone had any questions or if anyone from the public wished to speak on this item. Hearing none, he asked for a motion to adopt Resolution No. 2021-32.

MOTION by Commissioner Bankson and seconded by Commissioner Velazquez to approve Resolution No. 2021-32. Motion carried unanimously with Mayor Nelson, and Commissioners Bankson, Becker & Velazquez voting aye.

CITY COUNCIL REPORTS

Commissioner Velazquez said she had nothing further to report.

Commissioner Bankson said it's been a long week and thanked all of his Colleagues and said our hearts are really in this. In addition, he thanked the City and all of our Staff and said over this last couple of years, everyone has worked hard and said he believes we'll come up with something that will be workable for everyone including our taxpaying public as well.

Commissioner Smith said he has a plaque for the Apopka Police Department. He said two weeks ago, the Apopka Police Department provided police protection for a kidney walk that was held at a location on SR 441 and they walked down to Central Avenue. He said the two officers escorted those walkers and was very cooperative and they wanted to show their appreciation.

Commissioner Becker said he had nothing further to report.

CITY ADMINISTRATOR REPORT

Edward Bass said he had nothing further to report.

CITY ATTORNEY'S REPORT

Michael Rodriguez said he has two items as a part of his report. He said the first item is in relation to the subject that was brought up at previous Council meetings which is a desire to regulate what are known as Small Box Discount Stores. He said the Community Development Department as well as the City Attorney's office has begun to do initial research as to the avenues the City has for regulation of this type of use. He said as we move forward to propose changes to the Land Development Code to address this matter, he suggested that the Council make a motion to authorize staff to begin the process. He said in that, authorize staff to bring forward a Moratorium Ordinance. He said Statutorily, what a moratorium ordinance will do is stop applications for such a use for approval for a fixed time. He said we can propose a moratorium of 6 months and said that during that time, there will be no applications for building permits for uses; no applications for site plans; no applications for zoning changes and no applications for land use amendments that will be accepted by the City, while the City conducts a study for the proper regulation of the use. He said the moratorium would take effect upon adoption of said Ordinance.

Mayor Nelson asked if anyone had any questions or if anyone from the public wished to speak on this item. Hearing none, he asked for a motion to authorize staff to bring forward a Moratorium to allow time to conduct a study for the proper regulation of Small Box Discount Stores.

MOTION by Commissioner Smith, and seconded by Commissioner Velazquez to authorize staff to begin the process and bring forward a Moratorium to allow time to conduct a study for the proper regulation of Small Box Discount Stores. Motion carried unanimously with Mayor Nelson, and Commissioners Bankson, Becker & Velazquez voting aye.

Michael Rodriguez said the second item is a summary of the 2021 Florida Legislative Bill Summary, which I've distributed to all of you. He said these are mainly the bills that specifically address issues of concern to or directly impact the City. He said earlier this year, he presented to you a list of bills that we're monitoring and said that not all of those bills were adopted by the Legislature or signed by

the Governor. He said the Growth Management Act has been amended and said the threshold for the Small-Scale Comprehensive Plan Amendments is now 50 acres instead of 10 acres. He said there will be fewer Comp Plan Amendments that will go through the dual process of State review and coming back. He said additionally, the State has stepped in and decided to regulate how local governments can adopt their impact fees and said increases to impact fees cannot be increased by more than 25%. He said if the City decides to go between 25% - 50%, there are certain regulations that will take effect. He said one of the other changes to the Growth Management Act is that Planned Development and Development Agreements can be amended without the consent of all property owners. He said the other one that is of concern and he's following as it's currently subject to federal litigation is HB1, which is the Public Disorder Bill. He said while there are the issues that are in the news and are of concern, there is one provision in HB1 that is of concern to the City He said that is that if a property owner suffers property damage during a disturbance, and that property owner believes that the City did not adequately respond to the disturbance, the property owner may file an action against the City. He said what is concerning is that the State has waived the sovereign immunity and therefore, there is no cap on what the City is financially liable to a property owner. He said the bill analysis noted concerns over this issue as well. He said other changes are that legislature has tried to encourage more electronic submission for Permit Applications as well as responses in trying to better streamline the permitting process. He said lastly, in the issue of preemption and erosion of Home Rule, the legislature has now deemed that the regulation of home businesses falls within the purview of the state and local governments cannot do anything to prohibit folks from having home businesses. He said the Statute does provide that the Cities can no longer create a category for home businesses and must treat them the same as regular businesses.

Commissioner Smith asked about the bill that passed in reference to Code Enforcement regarding anonymous calls.

Michael said that yes, the legislature has amended Chapter 162 to now prohibit anonymous complaints of Code Enforcement violations, which means if a violation is reported, the complainant has to leave their name and address.

Commissioner Smith then asked if the Code Enforcement Officer responds to an anonymous complaint, and the person didn't give their name and address, whether the officer has to divulge who reported it.

Michael said the complainant would be required to leave their identifying information in order to create a report.

Commissioner Becker said that if I had witnessed a crime, can I not call the Police Department anonymously and say there's a crime taking place? He said the same generally logic would apply here and said anonymity is protection to the person to ease that fear of retribution against retaliation.

MAYOR'S REPORT

Rock Springs Update
Mayor Nelson said he was glad Gary McSweeney came and updated him so we'll try and press forward to see where we get with that.

Camp Wewa Update
Mayor Nelson said that after the vote tonight, Lowes is trying to schedule something for the 1st two weeks of September to completely renovate Camp Wewa. He said he'll be reaching out to both Wekiva and Apopka High School for kids who need their community service hours and any community leaders and Friends of Wewa to come out and help so as soon as he gets the dates, we'll let everyone know. He said they'll have approximately 200 Lowe's Associates there to help. He said Kate Manley of the Apopka Chamber received a call from Finfah and said they want to rent Camp Wewa right out of the gate and said they'll have 1,000 people coming to that.

9/11 Events
Mayor Nelson said Gerry Maynard has really worked hard on this event and said we start out with registration from 6:00 a.m. – 6:30 a.m. for a 5 K race. He said what's unique about this race is that every member of the 1st Responders that we lost in the Towers and across the Country, will have their name on a plaque and said as you run around the course, you'll be able to remember all of the people that we lost during that tragic event. He said he's really excited about that. He said the proceeds will benefit the Armando Borjas Scholarship Foundation and said he was a firefighter and served for 14 years before dying at the age of 39 from Esophageal Cancer. He said the foundation helps send local youth to Fire and EMT School. He said the 9/11 Memorial Service will start at 8:30 a.m. and said we have a featured speaker from NYC Fire Department and said we're trying to find someone from NYPD as well.

Commissioner Velazquez asked if this will be at the Amphitheater to which Mayor Nelson confirmed yes. She said she would like to have something at our 9/11 Memorial as well. .

Mayor Nelson said that same evening, we have the Tribute to Heroes concert, which is sponsored by CFL Hope out of Clermont and said proceeds will go toward the Hope Center and the Armando Borjas Foundation. He said the general admission is $25 and $35 for covered seating. He said there will be a 20% discount for veterans and first responders and said there will be a Food Trucks; Fire Trucks; Military Vehicles and a kid zone. He said the featured musicians will be Low Cash; Donnie Lee; Randall Crawford; Adam Cunningham; Brandon Bing; and Country Airwaves.

Florida League of Cities Proposed Resolutions

Mayor Nelson said the FLC Proposed Resolutions are in your packets and asked if anyone had any problems with any of those that the FLC has presented. Hearing none, he asked for a motion to adopt those Resolutions.

MOTION by Commissioner Bankson, and seconded by Commissioner Smith to approve the Proposed Resolutions as presented by the FLC. Motion carried unanimously with Mayor Nelson, and Commissioners Bankson, Becker & Velazquez voting aye.

Sheeler Oaks Update

Mayor Nelson said we've got one inlet up and working and said we should have most of the project done within the next two weeks. He said we also added a 2nd pipe that will go from the last junction box, down to the lake. He said we're making progress there.

Lobby Closures

Mayor Nelson said that due to the increase in the Delta variant, we've closed all Public access to City Hall; Fire Departments; Police Department; Utility Billing and said we'll revisit this on Friday, next week. He said this is in an effort to protect not only our citizens but our employees here. He said on that note, the DOH mobile vaccination unit will be at the Billie Dean Community Center, on Friday, July 23rd, from 2:30 p.m. until 5:00 p.m.

Golden Gem

Mayor Nelson said lastly, we'll officially be taking on water at Golden Gem as of tomorrow. He said our 300-Million-gallon pond has been tested and no leaks.

ADJOURNMENT - There being no further business the meeting adjourned at 9:42 p.m.

PLANNED DEVELOPMENT AGREEMENT
(THE RIDGE)

This **Planned Development Agreement** (the "**PD Agreement**") is made and entered into this 18 day of August, 2021 (the "**Effective Date**") by and among, City of Apopka, a Florida municipal corporation, whose mailing is 120 East Main Street, Apopka, Florida 32703 (the "**City**"), and Apopka Development Opportunity, LLC, a Delaware limited liability company whose mailing address is 15481 SW 12th Street, Suite 309, Sunrise, Florida 33326 ("**ADO**"), Apopka Centerline Development, LLC, a Florida limited liability company, whose mailing address is 15481 SW 12th Street, Suite 309, Sunrise, Florida 33326 ("**Apopka Centerline**") ("ADO and Apopka Centerline are hereinafter collectively referred to as "**Centerline**"); Ruth Ina Bronson Trust and Troy S. Bronson Trust, whose mailing address is 1400 Ocoee Apopka Road, Apopka, Florida 32703 ("**Homestead**"), Troy S. Bronson Family, LP, a Florida limited partnership, whose mailing address is P.O. Box 1069, Apopka, Florida 32704 ("**Bronson LP**"); Binion Partners, LLC, a Florida limited liability company, whose mailing address is P.O. Box 1069, Apopka, Florida 32704 ("**Binion**"); and John and Donna Kirkland, as joints tenants with right of survivorship, whose mailing address is 1920 Boy Scout Road, Apopka, Florida 32703 ("**Kirkland**"), (Centerline, Homestead, Bronson LP, Binion and Kirkland are collectively hereinafter referred to as "**Developer**").

RECITALS

A. Developer is currently the owner and developer of that certain real property located in the City of Apopka, Florida legally described in **Exhibit "A"** attached hereto and made a part hereof ("**The Ridge**");

B. The Ridge is subject to that certain Planned Development zoning ordinance duly enacted by the City, as may be amended from time to time (the "**PD**"), consisting of a multi-phase single family, townhome, apartment, commercial, industrial, flex space and recreational use project (collectively, the "**Project**");

C. The City and the Developer are sometimes collectively referred to herein as the "**Parties**"; and

D. The Parties will establish a Community Development District ("**CDD**") as an independent local unit of special-purpose government created pursuant to, and existing under, the provisions of Chapter 190, Florida Statutes, to among other things; fund and administer the maintenance of certain common elements of the Project in order to ensure the orderly development of the Project as a quality community.

NOW THEREFORE, for and in consideration of, the mutual obligations contained herein and the sum of ten dollars ($10.00) and other good and valuable consideration the sufficiency of which is hereby conclusively acknowledged the parties agree as follows:

AGREEMENT

1. **Recitals.** The Recitals contained above are true and correct and are incorporated in this PD Agreement as full as if set forth herein verbatim.

2. **Project Phasing**. Developer may construct the Project in phases consistent with the Master Plan attached to the PD (the "**PD Master Plan**"), but shall not be required to construct them in the sequence set forth on the PD Master Plan. Phasing must occur consistent with limitations and conditions set forth in the Transportation Improvements Development Agreement and Grant of Easement attached hereto as **Exhibit "B"** and made part hereof (the "**Transportation Agreement**").

3. **CDD.** Prior to the issuance of the first building permit for the initial phase of the Project, the City and the Developer shall establish the CDD pursuant to the requirements of Chapter 190, Florida Statutes. The parties will execute any documents reasonably necessary to affect the establishment of the CDD. Any of the obligations of the Developer created herein on in the Transportation Agreement, PD, or in any other development approval issued by the City for the Project, may be funded or undertaken by the CDD pursuant to Sections 190.012(1)(g), (h), Florida Statutes. Developer shall cause the CDD to create a Board of Supervisors which shall, in turn, establish all governing documents for the CDD (the "**Governing Documents**"). The Governing Documents shall be consistent with this PD Agreement and the Transportation Agreement and, to the extent of a conflict, this PD Agreement and the Transportation Agreement shall supersede the Governing Documents. Developer shall also create a property owners' association that shall provide for the establishment of an Architectural Review Committee ("**ARC**"). Each individual phase of the Project shall be required to submit plans and specifications to the ARC before seeking approval of the same from the City. The ARC shall require that all such plans and specifications are consistent with this PD Agreement and the Transportation Agreement. The ARC shall issue an approval letter to the City as part of permit applications submitted to the City for the Project. The City and the Developer agree that the Project is intended to be a first-class community and the ARC shall establish review criteria consistent with such intent and similar communities within the Central Florida area.

4. **Ridge Permitted Uses.** Consistent with the PD, the permitted uses for the Project within The Ridge are attached hereto as **Exhibit "C"** and incorporated herein by this reference (the "**Permitted Uses**").

5. **Parking and On-Site Infrastructure.** Although the Project may be constructed in phases consistent with the PD Master Plan and this PD Agreement, each individual phase of the Project shall be required to provide sufficient on-site infrastructure to satisfy the applicable City Code requirements. Further, each individual phase shall be required to provide the number of parking spaces set forth within the PD and PD Master Plan. All on-street parking spaces within the public right-of-way shall be accessible to residents and guests of the entire Project.

6. **Shared Use Recreation Area**. The common recreational area of the Project is depicted on the PD Master Plan as Parcel 8 (the "**Shared Use Recreational Area**"). The City and Developer agree that the Recreational Area Phase will be developed by the Developer in one phase with the first phase of the Project. The Governing Documents of the CDD shall require that the CDD obtain and maintain ownership and control over the Shared Use Recreational Area once built. The Shared Use Recreational Area shall be consistent with the amenities appearing on the PD Master Plan.

7. **Apartments.** The apartment phases of the Project are characterized as luxury apartments and shall contain the following amenity features: (1) balconies/porches; (2) resort-style swimming pool; (3) recreational clubhouse and (4) washer and dryer in each apartment.

8. **Development Design Review**. Prior to or commensurate with the submittal of the Major Development Plan for the Project, Developer shall submit a document for review by City's Community Development Department demonstrating common design themes for utility and equipment located within common areas or private and public roadways, entrance features design, including but not limited to the street names, community theme, and recreational uses pursuant to section 3.7.2.E.1.a, Land Development Code, as may be amended ("**Land Development Code**"), and agreed to by Developer as per section 3.7.2.E.1.a., Land Development Code. Consistent with the Transportation Agreement, the CDD shall be responsible for maintaining the landscaping, trees and grass within all medians and rights-of-way along the Spine Road. Maintenance shall include, but not be limited to, mowing grass and maintaining any vegetation or trees planted within the right-of-way or round-about.

9. **Landscaping/Buffers**. Required landscaping shall comply with the minimum requirements of the Land Development Code, as amended. Developer shall, at its sole expense, install all common areas of The Ridge, as well as exercise any other measures reasonably necessary to ensure the long-term maintenance of the landscaping by the CDD.

10. **Utility Service; Connection Points and Oversizing**. The City shall provide water, sewer and reclaimed water service for The Ridge for all phases of the Project through buildout. In connection with the PD, the City has reviewed the master utility plan provided by the Developer and Developer agrees to connect to the existing City system at the connection points set forth on the PD. The route(s) of any off-site lines shall be consistent with engineering plans produced by Developer and approved the City. The Developer shall construct the facilities, lines and appurtenances necessary to serve the Project and provide such documentation necessary for the City to determine that the lines shall meet the minimum line size requirements as specified in the City's Land Development Code. Developer shall provide the City such easements or right of way in form reasonably acceptable to the City Attorney, as the City deems necessary for the installation and maintenance of utility services located on The Ridge, including but not limited to sewer, water, and reclaimed water services. No building permits shall

be issued for the Project by the City until water, sewer and reclaimed water are provided to an individual phase of the Project requiring such service, or until a bond or letter of credit is in place to guarantee the completion of off-site improvements. Developer shall be responsible for all costs of onsite and offsite improvements, including but not limited to the design, material, permitting and installation of sufficient size lines, lift stations and other appurtenances necessary to allow the City to serve the Project. Notwithstanding the foregoing to the contrary, with respect to the sewer force main connection at the intersection of Marden Road and State Road 414 (the "**Force Main Connection**"), the City has requested that the Developer oversize the force main from the size needed to serve the Project to a twenty (20) inch force main from the intersection of the Spine Road (as defined in the Transportation Agreement) to the Force Main Connection for an approximate distance of 6,500 linear feet as well as oversizing the force main along Boy Scout Road from the size needed to serve the Project to a twenty (20) inch force main along Boy Scout Road an approximate distance of 1,000 line feet for future use (collectively, the "**Force Main Oversizing**"). The City agrees to provide sewer impact fee credits to Developer for the actual out-of-pocket cost difference in construction and labor costs for such Force Main Oversizing. Such credits shall be issued within thirty (30) days of Developer completing the Force Main Oversizing work and may be freely used or assigned by Developer within the limits of the Corridor Study (as defined in the Transportation Agreement).

11. **Model Homes**. Each parcel/subdivision within the Project can apply for building permits and construct up to four (4) model homes per each such parcel/subdivision.

12. **Stormwater Management.** Developer agrees to provide at its expense a comprehensive stormwater management system consistent with all regulatory requirements of the City and the St. John's River Water Management District. Impacts to flood plains are allowed in accordance with the Water Management District procedures for compensating storage and will be based on the 100-year floodplain established by FEMA.

13. **Environmental Considerations**. The minimum requirements of Article 6, Land Development Code, as amended, shall be met.

14. **Covenants Running with the Land/Assignment**. The terms, provisions, covenants, conditions and restrictions set forth in this PD Agreement and the rights, privileges and benefits and duties, obligations and burdens assigned, granted, imposed and created pursuant to this PD Agreement shall and are hereby declared to be covenants running with the title to The Ridge. This PD Agreement shall legally benefit and bind the Developer and its respective successors and assigns.

15. **Legal Proceedings, Attorneys' Fees**. In the event that either of party shall institute litigation or other legal proceedings against the other to interpret or enforce any term, provision, warranty, covenant or condition set forth in this PD Agreement, the prevailing party in such litigation or other legal proceedings following all appeals therefrom, if any, shall be entitled to recover from the non-prevailing party in such litigation or other legal proceedings reasonable attorneys', paralegals', and experts' fees and expenses and court costs incidental thereto, including those incurred on any bankruptcy proceeding and/or appeal of a lower court decision.

16. **Notices.**

a. All notices provided for in this PD Agreement shall be in writing and delivered personally (including delivery by courier) or by registered or certified mail, return receipt requested, postage prepaid, or via facsimile to the parties, at the addresses and facsimile numbers set forth below, with a copy forwarded to their respective attorneys, at the addresses and facsimile numbers set forth below, or at such other addresses as the parties shall designate to each other in writing:

City: Edward Bass, City Administrator
120 East Main Street
Apopka, Florida 32703
Telephone: (407) 703-1712

With a copy to: Michael A. Rodriguez, City Attorney
120 East Main Street
Apopka, Florida 32703
Telephone: (407) 703-1658

Developer: Apopka Development Opportunity, LLC
Attention: Craig Perry
15481 SW 12th Street, Suite 309
Sunrise, Florida 33326
Telephone (954) 324-1710

With a copy to: Thomas R. Sullivan, Esq.
GrayRobinson, P.A.
301 E. Pine Street, Suite 1400
Orlando, Florida 32801
Telephone (407) 244-5664

b. Any notice, request, demand, instruction or other communication to be given to either party hereunder, shall be in writing and shall be hand-delivered, sent by Federal Express or a comparable overnight mail or delivery service, mailed by U.S. registered or certified mail, return receipt requested, postage prepaid, or transmitted by facsimile or telecopier to the parties and their listed co-recipients, at their respective addresses and/or facsimile numbers set forth herein. Any notice delivered as aforesaid shall be deemed delivered immediately upon mailing, delivery to an appropriate carrier, or receipt or refusal of delivery of said notice, whichever is earliest. The inability to deliver because of change in address of which no notice is given shall be deemed to be a receipt of the notice, demand and request. The party claiming delivery of notice via telecopier or facsimile shall have the burden of proving notice was in fact sent, which burden can be carried without further evidence if confirmed by the transmitting telecopier or facsimile machine. Any communication sent by facsimile or telecopier shall promptly be followed by a copy delivered by one of the other approved methods.

Receipt shall be deemed to have occurred if delivered to an authorized agent or any employee of the addressee or of the addressee's company. A time period in which a response to any notice, demand or request must be given pursuant to the terms of the PD Agreement, shall commence to run from the date of receipt. Any party may change the address for receiving notices, request, demands, or other communication by not less than three (3) days prior notice in accordance with this Paragraph. Telephone numbers are provided for convenience only.

c. City and Developer may from time to time notify the other of changes regarding where and to whom notices should be sent by sending notification of such changes pursuant to this Paragraph.

17. **Miscellaneous Provisions.**

a. **Entire Agreement**. This PD Agreement constitutes the complete and entire understanding and agreement between City and Developer concerning or with respect to the topics addressed in this PD Agreement and supersede any and all prior or contemporaneous covenants, agreements, undertakings, statements, representations or warranties, whether written or oral, of any party hereto concerning or with respect thereto.

b. **Relationship of the Parties**. This PD Agreement does not evidence the creation of, nor shall it be construed as creating a partnership or joint venture between the City and Developer. Developer cannot create an obligation or responsibility on behalf of City or bind City in any manner. Each Party is acting for its own account, and it has made its own independent decisions to enter into this PD Agreement and as to whether the same is appropriate or proper for it based upon its own judgment and upon advice from such advisers as it has deemed necessary. Each Party acknowledges that none of the other Parties hereto is acting as a fiduciary for or as an adviser to it in respect of this PD Agreement or any responsibility or obligation contemplated herein.

c. **Agency**. Developer and City, and their agents, contractors and subcontractors, shall perform all activities described in this PD Agreement as independent entities and not as agents of one another.

d. **Sovereign Immunity**. Nothing contained in this PD Agreement shall be construed as a waiver of City's right to sovereign immunity for tort claims under and subject to § 768.28, Florida Statutes.

e. **Captions and Paragraph Headings**. Captions and paragraph headings contained in this PD Agreement are for convenience of reference only and are in no way intended, and shall in no way be deemed, to define, describe, extend or limit the scope, content or intent of this PD Agreement or of any particular term, provision or paragraph hereof.

f. **Modification, Amendment or Termination**. This PD Agreement may not be changed, modified, amended or terminated except as expressly set forth in a

separate writing signed by both of the parties to this PD Agreement or their respective successors in interest or title.

g. **Recording in Public Records.** Developer shall that this PD Agreement and the Transportation Agreement are recorded among the public records of Orange County, Florida promptly after the execution of the PD Agreement and Transportation Agreement by all parties.

h. **Indemnification.** Developer hereby indemnifies and holds City and its elected and appointed officials, employees and agents harmless from and against any and all claims (at law or in equity), disputes, lawsuits, injuries, damages, attorneys' fees and all adverse matters in any way arising out of or relating to the risks assumed by Developer under this PD Agreement.

i. **Default**. Failure by a Party to perform any of its obligations hereunder shall constitute default hereunder. Prior to termination of this PD Agreement, the non-defaulting Party exercising such right shall first provide the defaulting Party with written notice specifying such default and the actions needed to cure same, in reasonable detail. Upon receipt of said notice, the defaulting Party shall be provided thirty (30) day opportunity within which to cure such default.

j. **Bankruptcy**. In the event (a) an order or decree is entered appointing a receiver for Developer or its assets or (b) a petition is filed by Developer for relief under federal bankruptcy laws or any other similar law or statute of the United States, which action is not dismissed, vacated or discharged within sixty (60) days after the filing thereof, then City shall have the right to terminate immediately this PD Agreement.

k. **No Liability or Monetary Remedy**. Notwithstanding anything herein to the contrary, Developer and City, on behalf of themselves, and their respective successors and assigns, hereby agree that neither Party shall be liable to the other for any direct, indirect, special, punitive or consequential damages, including but not limited to, damages based on loss of service, revenues, profits or business opportunities, and hereby waive any and all claims and causes of action for the recovery of such direct, indirect, special, punitive or consequential damages.

l. **Governing Law; Binding Effect**. This PD Agreement and the construction, interpretation and enforcement thereof shall be construed in accordance with and governed by the laws of the State of Florida and shall be binding upon, inure to the benefit of and be enforceable by the parties hereto and their respective successors in interest or title.

m. **Venue**. The location for settlement of any and all claims, controversies, or disputes, arising out of or relating to any part of this PD Agreement, or any breach hereof, shall be Orange County, Florida.

n. **Construction of Agreement**. The fact that any one of the parties to this PD Agreement shall have drafted or structured or shall be deemed to have drafted or

structured this PD Agreement or any particular term or provision of this PD Agreement shall not be considered by any court or other tribunal in the construction or interpretation of this PD Agreement or any particular term or provision of this PD Agreement, either in favor or to the disadvantage of such party.

o. **Severability**. If any of the terms, provisions, covenants or conditions set forth in this PD Agreement or the application thereof to any particular circumstance shall be held by any Court having jurisdiction to be illegal, invalid or unenforceable under applicable law, the remainder of this PD Agreement shall not be affected thereby and each provision of this PD Agreement shall be valid and enforceable to the fullest extent otherwise permitted by law.

p. **Counterparts**. This PD Agreement may be executed in two or more counterparts, each of which shall be and be taken to be an original and collectively but one instrument.

q. **Time of the Essence**. Time, and timely performance, is of the essence of this PD Agreement and of the covenants and provisions hereunder. When a date upon which a specified event shall occur or be performed falls upon a weekend or legal holiday, the time allowed for the event or performance to occur shall be extended to 5:00 p.m. on the next succeeding business day. For purposes of this PD Agreement, a "business day" shall mean any weekday that the banks in the county in which The Ridge is located are open for business (thereby excluding Saturdays, Sundays and legal holidays).

r. **Statutory Development Agreement**. This PD Agreement is not a statutory development agreement pursuant to Chapter 163, Florida Statutes (Florida Local Government Development Agreement Act) and is being entered into by the City pursuant to the City's home rule authority.

Exhibit "A"

The Ridge

Legal Description

Beginning at the intersection of the South line of the right of way of Boy Scout Road with a line 42.50 feet East of the East line of the Northwest 1/4 of the Southwest 1/4 of Section 17, Township 21 South, Range 28 East, Orange County, Florida, and run South 89 degrees 43 minutes 32 seconds West, along said South right of way line, for a distance of 294.30 feet; thence run South 00 degrees 22 minutes 4 8 seconds West, parallel with the East line of said Northwest 1/4 of the Southwest 1/4, for a distance of 722.00 feet; thence run South 83 degrees 13 minutes 27 seconds East for a distance of 296.12 feet; thence run North 00 degrees 22 minutes 48 seconds East parallel with the East line of said Northwest 1/4 of the Southwest 1/4 for a distance of 758.35 feet to the POB.

A portion of Section 17, Township 21 South, Range 28 East, Orange Country, Florida more particularly described as follows:

Commence at the South Quarter corner of said Section 17; thence N 07 degrees 19' 56" E to a point on the Westerly right of way of Ocoee Apopka Road, the arc of a curve concave to the East and the Point of Beginning; thence run along said right of way line and curve having a radius of 948.00', a delta of 11 degrees 35' 09", along a cord bearing of N26 degrees 13' 56" E, an arc distance of 191.70'; thence leaving said right of way run N75 degrees 44' 09" W, 278.00'; thence S57 degrees 12' 05" W, 100.86'; thence S10 degrees 59' 06" W, 134.01'; thence S79 degrees 38' 16" E, 300.05 to the Point of Beginning.

The South one-half (S 1/2) of the East one-half (E 1/2) of the Southwest one-quarter (SW 1/4) of the Northwest one-quarter (NW 1/4), (LESS the East twenty-five feet (E 25') of the South three hundred and forty feet (S 340')) of Section 17, Township 21 South, Range 28 East, Orange County, Florida, Less the South 30 feet thereof for Boy Scout Road.

Also less the land contained in Warranty Deed recorded in Official Records Book 1652, page 737, Public Records of Orange County, Florida, to wit:

Begin at the southwest corner of the South 1/2 of the East 1/2 of the Southwest 1/4 of the Northwest 1/4, Section 17, Township 21 South, Range 28 East; run North 0° 19' 30" West 668.54 feet; run thence East, North 87° 27' 40" East 15 feet; thence South 0° 19' 30" East 10 feet; thence West, South 87° 27' 40" West 3 feet; thence South 0° 19' 30" East to the south line of the South 1/2 of the East 1/2 of the Southwest 1/4 of the Northwest 1/4, Section 17, Township 21 South, Range 28 East; thence West to the Point of Beginning, less the South 30 feet in Boy Scout Road.

PARCEL 1

The East half of the Southeast quarter of the Southeast quarter of Section 18, Township 21 South, Range 28 East, in Orange County, Florida;

and

The Southwest quarter of the Southwest quarter of Section 17, Township 21 South, Range 28 East, in Orange County, Florida;

and

The West 400 feet of: Begin 144 feet West of the Southeast corner of the Southwest quarter and run West to the Southwest corner of the Southeast quarter of the Southwest quarter of Section 17, Township 21 South, Range 28 East, thence run North 996.6 feet, South 75° East, a distance of 1,419 feet to a point 15 feet west of road, thence Southwesterly to the Point of Beginning, in Orange County, Florida.

PARCEL 2

The North one half (1/2) of the East one half (1/2) of the Southwest quarter (1/4) of the Northwest quarter (1/4) of Section 17, Township 21 South, Range 28 East, all in Orange County, Florida.

PARCEL 3A

The West 1/2 of the Southwest 1/4 of the Northwest 1/4 of Section 17, Township 21 South, Range 28 East, Orange County, Florida, less the West 433 feet of the South 220 feet;

PARCEL 3B

Begin at the southwest corner of the South 1/2 of the East 1/2 of the Southwest 1/4 of the Northwest 1/4, Section 17, Township 21 South, Range 28 East; run North 0° 19' 30" West 668.54 feet; run thence East, North 87° 27' 40" East 15 feet; thence South 0° 19' 30" East 10 feet; thence West, South 87° 27' 40" West 3 feet; thence South 0° 19' 30" East to the south line of the South 1/2 of the East 1/2 of the Southwest 1/4 of the Northwest 1/4, Section 17, Township 21 South, Range 28 East; thence West to the Point of Beginning, less the South 30 feet in Boy Scout Road.

PARCEL 4

That part of the Southeast 1/4 of the Northwest 1/4, the Northeast 1/4 of the Southwest 1/4 and the West 1/2 of the Southeast 1/4 of Section 17, Township 21 South, Range 28 East, Orange County, Florida, lying northwesterly of the northwesterly right of way line of Ocoee-Apopka Road, northeasterly of the northeasterly right of way of Boy Scout Road, and easterly of the east right of way line of Galway Blvd. (Tracts P and S) according to the plat of Breckenridge Phase 1 recorded in Plat Book 64, page 74, public records of Orange County, Florida.

PARCEL 5

Beginning at the southeast corner of the East 1/2 of the Southwest 1/4 of the Northwest 1/4 of Section 17, Township 21 South, Range 28 East; run thence West 25 feet, thence North 340 feet, thence East 25 feet, thence South 340 feet to the Point of Beginning;

and

The Southeast 1/4 of the Northwest 1/4 and that part of the Northeast 1/4 of the Southwest 1/4 of Section 17, Township 21 South, Range 28 East lying northerly and northeasterly of the right of way of Boy Scout Road and lying northerly and westerly of the north and west right of way lines of Galway Blvd. (Tracts O and S) according to the plat of Breckenridge Phase 1 recorded in Plat Book 64, page 74, public records of Orange County, Florida.

PARCEL 6

That part of the West 1/2 of the Southeast 1/4, the North 1/2 of the Southwest 1/4 and the Southeast 1/4 of the Southwest 1/4 of Section 17, Township 21 South, Range 28 East, Orange County, Florida, lying westerly of the westerly right of way line of Ocoee-Apopka Road, and southerly and southwesterly of the southern and southwestern right of way line of Boy Scout Road, less and except the following parcels A, B and C:

A. Beginning 144 feet west of the quarter section post on the south boundary of Section line, 15 feet west of center of public road, run west 17 chains and 82 links, North 15 chains and 10 links, thence South 75° 30' East 21 chains and 55 links to a point 15 feet west of center of public road, southerly along said road to beginning.

B. Beginning at the intersection of the south line of the right of way of Boy Scout Road with a line 42.50 feet east of the east line of the Northwest 1/4 of the Southwest 1/4 of Section 17, Township 21 South, Range 28 East, Orange County, Florida, and run South 89° 43' 32" West, along said south right of way line, for a distance of 294.30 feet; thence run South 00° 22' 48" West, parallel with the east line of said Northwest 1/4 of the Southwest 1/4, for a distance of 722.00 feet; thence run South 83° 13' 27" East for a distance of 296.12 feet; thence run North 00° 22' 48" East parallel with the east line of said Northwest 1/4 of the Southwest 1/4 for a distance of 758.35 feet to the Point of Beginning.

C. A portion of Section 17, Township 21 South, Range 28 East, Orange County, Florida, more particularly described as follows:

Commence at the south quarter corner of said Section 17; thence North 07° 19' 56" East to a point on the westerly right of way of Ocoee Apopka Road, the arc of a curve concave to the east and the Point of Beginning; thence run along said right of way line and curve having a radius of 948.00 feet, a delta of 11° 35' 09", along a chord bearing of North 26° 13' 56" East, an arc distance of 191.70 feet; thence leaving said right of way run North 75° 44' 09" West, 278.00 feet; thence South 57° 12' 05" West, 100.86 feet; thence South 10° 59' 06" West, 134.01 feet; thence South 79° 38' 16" East, 300.05 feet to the Point of Beginning.

PARCEL 7

The Northeast 1/4 of the Southeast 1/4 of Section 18, Township 21 South, Range 28 East, and beginning 110 yards north of the southwest corner of the Northwest 1/4 of the Southeast 1/4, run North 110 yards, East 440 yards to the 40 line, South 110 yards, West 440 yards to beginning, Section 18, Township

21 South, Range 28 East, Orange County, Florida; less and except that portion conveyed to the State of Florida for State Road 437 by the Quit Claim Deed recorded in Deed Book 770, page 209, and less that part vested in the Orlando/Orange County Expressway Authority by the Stipulated Order of Taking recorded in Official Records Book 9046, page 4349 and Official Records Book 9893 page 1729 of the public records of Orange County, Florida.

PARCEL 8

The South 1/2 of the North 1/2 of the Southwest 1/4 of the Southeast 1/4 and the West 1/2 of the Southeast 1/4 of the Southeast 1/4 of Section 18, Township 21 South, Range 28 East, Orange County, Florida, less and except those portions lying westerly of the easterly right of way line of State Road 429 vested in the Orlando/Orange County Expressway Authority by the Stipulated Order of Taking recorded in Official Records Book 9046, page 4349 and Official Records Book 9893, page 1729 of the public records of Orange County, Florida.

PARCEL 9

The North 1/2 of the Northwest 1/4 of the Southeast 1/4 of Section 18, Township 21 south, Range 28 East, Orange County, Florida, less and except the North 33 feet thereof for road right of way and less road right of way on west.

TRANSPORTATION IMPROVEMENTS DEVELOPMENT AGREEMENT AND GRANT OF EASEMENT

THIS **TRANSPORTATION IMPROVEMENTS DEVELOPMENT AGREEMENT AND GRANT OF EASEMENT** (the "Transportation Agreement") is made and entered into as of the ____ day of _____, 2021, by and between **City of Apopka**, a Florida municipal corporation, whose mailing address is 120 East Main Street, Apopka, Florida 32703 (hereinafter referred to as "**City**"), and Apopka Development Opportunity, LLC, a Delaware limited liability company whose mailing address is 15481 SW 12th Street, Suite 309, Sunrise, Florida 33326 ("**ADO**"), Apopka Centerline Development, LLC, a Florida limited liability company, whose mailing address is 15481 SW 12th Street, Suite 309, Sunrise, Florida 33326 ("**Apopka Centerline**") ("ADO and Apopka Centerline are hereinafter collectively referred to as "**Centerline**"); Ruth Ina Bronson Trust and Troy S. Bronson Trust, whose mailing address is 1400 Ocoee Apopka Road, Apopka, Florida 32703 ("**Homestead**"), Troy S. Bronson Family, LP, a Florida limited partnership, whose mailing address is P.O. Box 1069, Apopka, Florida 32704 ("**Bronson LP**"); Binion Partners, LLC, a Florida limited liability company, whose mailing address is P.O. Box 1069, Apopka, Florida 32704 ("**Binion**"); and John and Donna Kirkland, as joints tenants with right of survivorship, whose mailing address is 1920 Boy Scout Road, Apopka, Florida 32703 ("**Kirkland**"), (Centerline, Homestead, Bronson LP, Binion and Kirkland are collectively hereinafter referred to as "**Developer**").

RECITALS

1. Developer is the of owner of The Ridge (as defined in the PD Agreement).

2. Developer is processing certain land use and zoning approvals with the City, including the PD (as defined in the PD Agreement), with respect to The Ridge.

3. Developer is planning to construct a multi-phase community featuring single family, townhome, apartment, commercial, industrial, flex space and recreational uses on The Ridge (the "**Project**").

4. The City envisions the development of other properties in the immediate vicinity of The Ridge.

5. The City has reviewed and approved that certain transportation methodology and associated analysis for The Ridge by Luke Transportation Engineering Consultants dated April, 2021 (the "**Approved Transportation Analysis**").

6. Based upon the Approved Transportation Analysis, the City has determined that the construction of certain improvements to a new two-lane public road with related improvements (the "**Spine Road**") generally from Ocoee Apopka Road through The Ridge to Boy Scout Road as more particularly described herein (collectively, the "**Spine Road Improvements**") are required in order to achieve the appropriate traffic circulation to and from the Project as well as other projects in the immediate area.

7. Developer agrees to undertake the Spine Road Improvements as set forth in this Transportation Agreement.

8. Based upon the significant public benefit to the City, the City has requested, and the Developer hereby agrees, to perform a preliminary design study to determine what specific transportation improvements are needed with respect to Ocoee-Apopka Road from Harmon Road to Bradshaw Road (the "**Corridor Study**"). Within thirty (30) days of the delivery of the Corridor Study to the City, the City agrees to reimburse the Developer for the actual out-of-pocket costs incurred by Developer in procuring the Corridor Study through the issuance of impact fee credits which Developer may use or freely assign within the limits of the Corridor Study (the "**Corridor Study Credits**").

9. In recognition of existing conditions, Developer agrees to undertake certain intersection improvements as part of the initial phase of construction for the Project which shall include the intersection of Binion Road and Boy Scout Road and the roadway elevation at the intersection of Boy Scout Road and Ocoee Apopka Road (collectively, the "**Initial Intersection Improvements**").

10. Developer further agrees to undertake additional transportation improvements to the intersections of Boy Scout Road and Ocoee-Apopka Road, and Spine Road and Ocoee-Apopka Road the extent of which shall be pursuant to the results of the Corridor Study, in return for credits against transportation impact fees to be paid in the future in connection with the Project (the "**Transportation Improvements**").

11. The Initial Intersection Improvements and the Transportation Improvements are hereinafter collectively referred to as the "Transportation Improvements".

12. Any of the obligations of the Developer created herein may be funded and/or undertaken by the CDD pursuant to Sections 190.012(1(g), (h), Florida Statutes.

13. City and Developer now desire to set forth in writing the terms and conditions regarding the foregoing.

NOW, THEREFORE, in consideration of the mutual covenants, premises and promises hereinafter set forth, the receipt, adequacy and sufficiency of which are hereby acknowledged, the City and the Developer hereby agree as follows:

1. **Recitals**. The foregoing recitals are true and correct in all respects and are expressly incorporated herein by reference.

2. **Transportation Impact Fee Credits**. In addition to the Corridor Study Credits, the City agrees that Developer shall be entitled to receive transportation impact fee credits for 100% of the actual out-of-pocket expenses incurred by Developer in performing the Transportation Improvements, including without limitation all costs of survey, design, permitting, construction, construction engineering, construction administration, performance/construction bonds, final testing and certification costs, as well as other customary and normal costs of the Transportation Improvements, which Developer may use or freely assign within the limits of the Corridor Study (the "**Transportation Improvements Credits**"). The City agrees to reimburse the Developer through the issuance of the Transportation Impact Fee Credits not later than thirty (30) days after receipt by, and the City's review of, of a written letter requesting Transportation Impact Fee Credits for a phase of the Transportation Improvements completed by (or caused to be completed by) Developer.

3. **Spine Road Improvements.**

A. Construction plans for the Spine Road Improvements must be approved by the City Engineer prior to commencing construction. The design of the Spine Road must comply with the City's design engineering standards.

B. The Spine Road Improvements may be constructed by the Developer in phases, as set forth in PD Master Plan (as defined in the PD Agreement).

4. **City Right-of-Way.**

A. In connection with the City's issuance of a right-of-way permit to Developer for the purposes of constructing the Spine Road Improvements and the

Transportation Improvements (hereinafter, collectively the "**Improvements**"), such permit issuance shall grant to Developer the right to perform the Improvements in all areas where the Improvements are to be located within public right-of-way or on Ridge Property otherwise owned by the City.

B. The City and Developer acknowledge that Developer may need to obtain certain approvals from Orange County in order to perform the Improvements. The City agrees to cooperate with Developer in connection with such County approvals.

C. The City shall inspect the Improvements during construction.

5. **Conveyance of Improvements.**

A. Developer shall, at is sole cost and expense, convey the Improvements, to the extent the same are under the control by Developer, to the City or County, as applicable, free and clear of all liens and encumbrances, within ten (10) business days of the issuance of a certificate of completion for the Improvements by the City and any other governmental agency, including the County, with authority over the Improvements.

B. As evidence of such transfer and conveyance, Developer shall convey each component of the Improvements to the City by plat or separate Bill of Sale. Developer shall also grant an access and maintenance easement in favor of the City with respect to the Improvements at the same of such transfer and conveyance.

C. Final acceptance ("**Final Acceptance**") of each component of the Improvements by the City shall occur upon satisfaction of the following:

a. Completion of construction of the particular component of the Improvements in accordance with the plans and specifications as approved by the City in the permitting process.

b. Delivery to City of one (1) complete set of record drawings with AutoCAD files and specifications certified by Developer's engineer.

c. Developer's assigning all warranties Developer has obtained from its contractors, suppliers, and/or materialmen with respect to the construction of the Improvements and materials used therein.

Provided all such conditions are met, the City agrees to accept such conveyance without delay, and shall thereafter be responsible for the operation and maintenance of the Improvements so conveyed to the City. As part of such conveyance, Developer agrees to warrant the Improvements so conveyed for a period of one (1) year from the date of acceptance by the City.

In the event that the City initiates an annexation of any portion of The Ridge on which the Improvements are located, Developer agrees to support any such annexation.

6. **Documentation from Developer.** The Developer shall submit to the City from the Developer's project engineer, contractor's affidavits, and certificates from the project engineer.

7. **Development Approvals.** This Transportation Agreement shall in no manner constitute a development approval regarding The Ridge. Except as may otherwise approved by the City, Developer must comply with all applicable provisions section 3.7.2.E.1.a, Land Development Code with Development Standards pursuant to Article 7 (Concurrency), Land Development Code, as may be amended, and agreed to by the Developer regarding the development of The Ridge.

9. **Disclaimer of Third Party Beneficiaries.** This Transportation Agreement is for the sole benefit of the parties hereto, and no right of action shall accrue upon or by reason hereof, to or for the benefit of any third party. Nothing in this Transportation Agreement either express or implied, is intended or shall be construed to confer upon or give any person, corporation or governmental entity, other than the parties hereto, any right, remedy or claim under or by reason of this Transportation Agreement or any provisions or conditions hereof, and all of the provisions, representations, covenants and conditions herein contained shall inure to the sole benefit of and shall be binding upon the parties hereto and their respective representatives, successors and assigns.

10. **Successors and Assigns.** This Transportation Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective successors and assigns.

11. **Waiver; Modification.** The failure by any party to insist upon or enforce any of its rights shall not constitute a waiver thereof and nothing shall constitute a waiver of any party's right to insist upon strict compliance with the terms of this Transportation Agreement. Any party may waive the benefit of any provision or condition for its benefit which is contained herein. No oral modification of this Transportation Agreement shall be binding upon the parties and any modification must be in writing and signed.

12. **Governing Law.** This Transportation Agreement shall be governed by and construed under the laws of the State of Florida.

13. **Application; Effect.** If any provision of this Transportation Agreement or the application thereof to any party, person or circumstance shall be held or deemed to be invalid or unenforceable to any extent, the remainder of this Transportation Agreement and the application of such provisions to other parties, persons, or circumstances shall not be affected thereby and shall be enforced to the greatest extent permitted by law.

14. **Notices.** Any notices which may be permitted or required hereunder shall be in writing and shall be deemed to have been duly given as of the date and time the same are personally delivered, transmitted electronically (i.e. telecopier device) or within three (3) days

after depositing the United State Postal Services, postage prepaid by registered or certified mail, return receipt requested, or within one (1) day after depositing with Federal Express or other overnight delivery service from which a receipt may be obtained, and addressed as follows:

City:	Edward Bass, City Administrator 120 East Main Street Apopka, Florida 32703 Telephone: (407) 703-1712
With a copy to:	Michael A. Rodriguez, City Attorney 120 East Main Street Apopka, Florida 32703 Telephone: (407) 703-1658
Developer:	Apopka Centerline Development, LLC Attention: Craig Perry 15481 SW 12th Street, Suite 309 Sunrise, Florida 33326 Telephone (954) 324-1710
With a copy to:	Thomas R. Sullivan, Esq. GrayRobinson, P.A. 301 E. Pine Street, Suite 1400 Orlando, Florida 32801 Telephone (407) 244-5664

15. **Attorney's Fees.** In the event of any dispute hereunder for any action to interpret or enforce this Transportation Agreement, any provision hereof or any matter arising herefrom, the prevailing party shall be entitled to recover its reasonable cost, fee, expenses, including, but not limited to, witness fees, expert fees, consultant fees, attorney, paralegal and legal assistant fees, costs and expenses and other professional fees, costs, and expenses, whether suit be brought or not, and whether in settlement, in any declaratory action, at trial or on appeal.

16. **Performance.** Time is of the essence in the performance of this Transportation Agreement.

17. **Traffic Capacity/Concurrency**. The City acknowledges that the City has reserved sufficient traffic capacity for the entire Project. The City further acknowledges that, pending the results of the Corridor Study, the performance of the Improvements as set forth herein satisfies all transportation improvement obligations of any kind, including but not limited to transportation concurrency and operational improvements, necessary for the full build out of The Ridge.

18. **Consistency**. To the extent any provisions of this Transportation Agreement are inconsistent with, or are more specific than, the PD, this Transportation Agreement controls.

IN WITNESS WHEREOF, the parties hereto have caused this Transportation Agreement to be executed in form and manner sufficient to bind them as of the date indicated hereinabove.

FIRST AMENDMENT TO PLANNED DEVELOPMENT AGREEMENT (THE RIDGE)

This **First Amendment Planned Development Agreement** (the **"First Amendment"**) is made and entered into this __ day of December, 2021 (the **"Effective Date"**) by and among, City of Apopka, a Florida municipal corporation, whose mailing is 120 East Main Street, Apopka, Florida 32703 (the **"City"**), and Apopka Development Opportunity, LLC, a Delaware limited liability company whose mailing address is 15481 SW 12th Street, Suite 309, Sunrise, Florida 33326 (**"ADO"**), Apopka Centerline Development, LLC, a Florida limited liability company, whose mailing address is 15481 SW 12th Street, Suite 309, Sunrise, Florida 33326 (**"Apopka Centerline"**) ("ADO and Apopka Centerline are hereinafter collectively referred to as **"Centerline"**); Ina Ruth Bronson Trust and Troy S. Bronson Trust, whose mailing address is 1400 Ocoee Apopka Road, Apopka, Florida 32703 (**"Homestead"**), Troy S. Bronson Family, Limited Partnership, a Florida limited partnership, whose mailing address is P.O. Box 1069, Apopka, Florida 32704 (**"Bronson LP"**); Binion Partners, LLC, a Florida limited liability company, whose mailing address is P.O. Box 1069, Apopka, Florida 32704 (**"Binion"**); and John and Donna Kirkland, as joints tenants with right of survivorship, whose mailing address is 1920 Boy Scout Road, Apopka, Florida 32703 (**"Kirkland"**), (Centerline, Homestead, Bronson LP, Binion and Kirkland are collectively hereinafter referred to as **"Developer"**).

RECITALS

WHEREAS, City and Developer entered into that certain Planned Development Agreement (The Ridge) recorded among the Public Records of Orange County, Florida on August 31, 2021 as Document Number #20210532976 (the **"Agreement"**);

WHEREAS, after entering into the Agreement, City and Developer established a Community Development District called The Ridge At Apopka CDD (the **"CDD"**) pursuant to Chapter 190, Florida Statutes to, among other things, construct certain improvements, including the Transportation Improvements; and

WHEREAS, City and Developer desire to amend the Agreement according to the terms, covenants and conditions as more particularly set forth herein;

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged by the parties, City and Developer agree to amend the Agreement as follows:

1. **Recitals**. The recitals set forth above are true and correct and are incorporated as if fully set forth herein.

2. **Definitions**. Capitalized terms not otherwise defined herein shall have the meanings ascribed to such terms in the Agreement.

3. **CDD**. Section 3 of the Agreement is hereby superseded and replaced as follows:

CDD. Prior to the issuance of the first building permit for the initial phase of the Project, the City and the Developer shall establish the CDD pursuant to the requirements of Chapter 190, Florida Statutes. The parties will execute any documents reasonably necessary to affect the establishment of the CDD. Any of the obligations of the Developer created herein on in the Transportation Agreement, PD, or in any other development approval issued by the City for the Project, may be funded or undertaken by the CDD pursuant to Sections 190.012(1)(g), (h), Florida Statutes. Developer shall cause the CDD to create a Board of Supervisors which shall, in turn, establish all governing documents for the CDD (the "**Governing Documents**"). The Governing Documents shall be consistent with this PD Agreement and the Transportation Agreement and, to the extent of a conflict, this PD Agreement and the Transportation Agreement shall supersede the Governing Documents. Developer shall also create and record a covenant that shall provide for the establishment of an Architectural Review Committee ("**ARC**"). Each individual phase of the Project shall be required to submit plans and specifications to the ARC before seeking approval of the same from the City. The ARC shall require that all such plans and specifications are consistent with this PD Agreement and the Transportation Agreement. The ARC shall issue an approval letter to the City as part of permit applications submitted to the City for the Project. The City and the Developer agree that the Project is intended to be a first-class community and the ARC shall establish review criteria consistent with such intent and similar communities within the Central Florida area.

4. **Ratification**. The Agreement remains in full force and effect except as expressly modified by this First Amendment and is ratified and confirmed. If there is a conflict between the terms of the Agreement and this First Amendment, the terms of this First Amendment shall control.

5. **Multiple Counterparts; Electronic Signatures**. This First Amendment may be executed in multiple counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same agreement. The counterparts of this First Amendment may be executed by electronic signatures and may be delivered electronically by any party to any other party and the receiving party may rely on the receipt of such document so executed and delivered by electronic means as if the original had been received.

Signatures appear on the following page(s).

IN WITNESS WHEREOF, the parties hereto have executed this First Amendment as of the date first above written.

FIRST AMENDMENT TO TRANSPORTATION IMPROVEMENTS DEVELOPMENT AGREEMENT AND GRANT OF EASEMENT

THIS **FIRST AMENDMENT TO TRANSPORTATION IMPROVEMENTS DEVELOPMENT AGREEMENT AND GRANT OF EASEMENT** (this "**First Amendment**") is entered into as of OCTOBER 19, 2022 (the "**Effective Date**") by and among **City of Apopka**, a Florida municipal corporation, whose mailing address is 120 East Main Street, Apopka, Florida 32703 (hereinafter referred to as "**City**"), and Apopka Development Opportunity, LLC, a Delaware limited liability company whose mailing address is 15481 SW 12th Street, Suite 309, Sunrise, Florida 33326 ("**ADO**"), Apopka Centerline Development, LLC, a Florida limited liability company, whose mailing address is 15481 SW 12th Street, Suite 309, Sunrise, Florida 33326 ("**Apopka Centerline**") ("ADO and Apopka Centerline are hereinafter collectively referred to as "**Centerline**"), AG EHC II (LEN) Multi State 1, LLC, a Delaware limited liability company, whose mailing address is 245 Park Ave., 26th Floor, New York, NY 10167 ("**Lennar**"), DRP FL 5, LLC, a Delaware limited liability company whose address is 251 Little Falls Drive, Wilmington, DE 19808 ("**DRP**"), and Ridge 429 Owner, LLC, a Delaware limited liability company whose mailing address is 3411 Silverside Road Tatnall Building #104, Wilmington, DE 19810 ("**429**") (Centerline, Lennar, DRP and 429 are collectively hereinafter referred to as "**Developer**").

RECITALS:

WHEREAS, City, Apopka Development Opportunity, LLC, Apopka Centerline Development, LLC, Ruth Ina Bronson Trust and Troy S. Bronson Trust, Troy S. Bronson Family, LP, Binion Partners, LLC, and John and Donna Kirkland Developer entered into that certain Transportation Improvements Development Agreement and Grant of Easement Development Agreement recorded among the Public Records of Orange City, Florida on August 31, 2021 as Pages 22-35 of Document Number #20210532976 (the "**Agreement**");

WHEREAS, Lennar, DRP and 429 are successor owners of property in The Ridge (as defined in the Agreement);

WHEREAS, the Agreement contemplates that Developer perform certain Transportation Improvements in exchange for Transportation Impact Fee Credits (as such terms are defined in the Agreement);

WHEREAS, after entering into the Agreement, City and Developer established a Community Development District called The Ridge At Apopka CDD (the "**CDD**") pursuant to Chapter 190, Florida Statutes to, among other things, construct certain improvements, including the Transportation Improvements; and

WHEREAS, City and Developer desire to amend the Agreement according to the terms, covenants and conditions as more particularly set forth herein;

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged by the parties, City and Developer agree to amend the Agreement as follows:

1. **Recitals**. The recitals set forth above are true and correct and are incorporated as if fully set forth herein.

2. **Definitions**. Capitalized terms not otherwise defined herein shall have the meanings ascribed to such terms in the Agreement.

3. **Constructing Party**. City and Developer agree that Centerline shall be the party causing the performance of the Transportation Improvements.

4. **Transportation Improvements**. City and Centerline agree that the full extent of the Transportation Improvements to be performed by the CDD and Centerline has now been agreed upon and generally include the Corridor Study, Initial Intersection Improvements, approximately 1.2 miles of improvements to Ocoee Apopka Road from Harmon Road to 13th Street as identified by the Corridor Study, conveyance of right of way for the realignment of Boy Scout Road at Binion Road in connection with future ramps, all as more particularly depicted and described on The Ridge Corridor Study Limits attached hereto and incorporated herein by this reference as **Exhibit "1"**, The Ridge Initial Intersection Improvements Plan attached hereto and incorporated herein by this reference as **Exhibit "2"**, The Ridge Boy Scout Road ROW and Stormwater Area attached hereto and incorporated herein by this reference as **Exhibit "3"**, and The Ridge Ocoee Apopka Roadway Construction attached hereto and incorporated herein by this reference as **Exhibit "4"**. It is anticipated that the total cost of the Transportation Improvements will total approximately $12,000,000.00.

5. **Transportation Impact Fee Credits**. Consistent with the Agreement, the City agrees that Centerline shall receive the Corridor Study Credits in the manner set forth in the Agreement. The City further agrees that Centerline shall receive transportation impact fee credits for 100% of the actual out-of-pocket costs and expenses incurred by Centerline to design, permit and construct the Initial Intersection Improvements. Such transportation impact fee credits for the Initial Intersection Improvements shall be awarded by the City to Centerline not later than thirty (30) days after the City's receipt and review a written letter from Centerline requesting such credits for the completion of the Initial Intersection Improvements.

6. **Reimbursement to Centerline**. In lieu of the Transportation Impact Fee Credits described in the Agreement, City and Centerline agree that City shall reimburse Centerline in cash or immediately available funds 100% of the actual out-of-pocket costs and expenses incurred by Centerline in performing the Transportation Improvements other than the Initial Intersection Improvements and the Corridor Study, including without limitation all costs of survey, design, permitting, construction, construction engineering, construction administration, performance/construction bonds, final testing and certification costs, as well as other customary and normal costs of causing the performance of the Transportation Improvements. For clarity and avoidance of doubt, to the extent owned by Centerline, Centerline shall dedicate thirty (30) feet of right of way along Ocoee Apopka Road to the City for no consideration. Should the approved Corridor Study identify additional right of way owned by Centerline beyond said thirty (30) feet, the City shall reimburse Centerline for the conveyance of such additional right of way to the City consistent with the appraisal process set forth in the City Code.

7. **Phasing**. The Transportation Improvements may be completed in phases by Centerline, its sole discretion, but in coordination with the City.

8. **Administration and Timing of Reimbursement**. Prior to commencing the Transportation Improvements (other than the Initial Intersection Improvements and the Corridor Study) any phase thereof, Centerline shall submit notice of intent to proceed to the City with such notice including a summary of the particular Transportation Improvements to be performed and the associated anticipated costs thereof. City shall respond, in writing, to such notice within ten (10) business days thereby confirming its agreement with the work to be performed and its associated costs. Such confirmation by the City shall include a binding representation that the City has the funds needed to reimburse Centerline on a monthly basis within thirty (30) days of Centerline performing such work which shall be relied upon by Centerline in performance thereof. In the event that the City does not timely respond to the notice or responds indicating that is does not agree with Centerline proceeding with the performance of the Transportation Improvements or phase thereof, Centerline shall not be obligated to proceed and City and Centerline shall work together in good faith to implement another amicable option to the construction of the Transportation Improvements.

9. **Insurance**. Centerline and/or its contractor(s) shall procure and maintain, throughout the construction of the improvements, insurance with limits and terms as specified below:

- Workers' compensation insurance with statutory workers' compensation limits and no less than $100,000 limit for Employers' Liability with a waiver of subrogation in favor of City, its consultants, agents, employees, and officials.

- Commercial general liability insurance for all operations including but not limited to contractual, products and completed operations, and personal injury with limits of not less than $1,000,000 per occurrence and an aggregate limit of at least twice the per occurrence limit.

- Business automobile liability insurance for all owned, non-owned, and hired vehicles with limits of not less than $1,000,000 per occurrence.

Centerline shall be responsible for ensuring that each of its contractors and subcontractors of every tier procure and maintain the insurance specified above and shall furnish to City satisfactory evidence of such insurance prior to commencement of construction. City shall be listed as an additional insured on all insurance policies required herein, except workers' compensation. All coverage shall be primary and not contributory with any insurance Centerline shall be responsible for ensuring that each of its contractors and or self-insurance maintained by City. City shall be notified not less than thirty (30) days prior to any material change, cancellation, or non-renewal of any policy required herein.

9. **Indemnification**. Centerline shall and shall cause its contractor(s) to defend, indemnify, and hold harmless City, its officials, and employees from and against all liabilities, claims, damages, losses, costs, and expenses (including attorneys' fees) arising out of or resulting from the performance of the construction activities, provided that any such liability, claim, damage, loss, cost, or expense:

- Is attributable to bodily injury, sickness, disease, or death, or to injury to or destruction of tangible property (other than the construction activities themselves) including the loss of use resulting therefrom and

- Is caused in whole or in part by any act or omission of the contractor, any subcontractor, anyone directly or indirectly employed by any of them, or anyone for whose acts any of them may be liable, regardless of whether or not it is caused in whole or in part by a party indemnified hereunder.

Provided, however, if this Agreement or any underlying contract for construction of any Improvements is deemed by a court of competent jurisdiction to be a construction contract under Section 725.06, Florida Statutes, any obligation of the contractors to defend, indemnify, or hold harmless City, its officials, and employees shall be limited to an obligation to indemnify and hold harmless to the extent caused by the negligence, recklessness, or intentionally wrongful conduct of the contractors and persons employed or utilized by the contractors in the performance of the construction activities.

The indemnification provisions contained herein shall survive the termination of this Agreement.

10. **Timeframe to Commence Transportation Improvements**. The City and Centerline agree that the Transportation Improvements are intended to be fully commenced within four (4) years of the Effective Date (the "**Commencement Date**"). In the event that the Transportation Improvements are not started by the Commencement Date, for any reason, then Centerline's obligation to perform any additional or remaining work that thhas not yet been commenced shall automatically terminate and be of no further force or effect.

11. **Ratification**. The Agreement remains in full force and effect except as expressly modified by this First Amendment and is ratified and confirmed. If there is a conflict between the terms of the Agreement and this First Amendment, the terms of this First Amendment shall control.

12. **Multiple Counterparts; Electronic Signatures**. This First Amendment may be executed in multiple counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same agreement. The counterparts of this First Amendment may be executed by electronic signatures and may be delivered electronically by any party to any other party and the receiving party may rely on the receipt of such document so executed and delivered by electronic means as if the original had been received.

Signatures appear on the following page(s).

IN WITNESS WHEREOF, the parties hereto have executed this First Amendment as of the date first above written.

School Board District:	# 7

Detailed Capacity Analysis: **Attachment A**

Upon review of the above-named application for School Concurrency Determination, the Department of Facilities Planning of Orange County Public Schools finds this application is approved based on sufficient school capacity at the affected Concurrency Service Areas (CSA) to support the development of 1,259 single family, townhome and multi-family residential units.

This determination expires on **June 13, 2022**. In the event this project does not possess a signed and notarized determination by the expiration date but still intends to move forward in the development process, the Applicant must resubmit the application and application fees, and be reevaluated by OCPS. In addition, should the scope of the project change (e.g., modification of unit count and/or unit type), a new determination will be required.

The following conditions shall apply to the approval of the CEL:

1. This letter must be signed and notarized by the Applicant, and returned to:

"The Orange County School Board is an equal opportunity agency."

Orange County Public Schools
Facilities Planning
6501 Magic Way, Building 200
Orlando Florida 32809

2. The Applicant must reserve capacity for the total units in the project in order to formally reserve school concurrency. As of the date of this CEL, the total School Capacity Reservation Fees for this project is $9,142,488.00, and shall be paid in accordance with the schedule below. Payment must be made using the Capacity Reservation Fee & Mitigation Form in Attachment B of this letter.

CAPACITY RESERVATION FEE SCHEDULE		
1st Installment Due On or Prior to June 13, 2022	$	3,047,496.00
2nd Installment Due On or Prior to June 13, 2023	$	3,047,496.00
3rd Installment Due On or Prior to June 13, 2024	$	3,047,496.00
TOTAL	**$**	**9,142,488.00**
Capacity reservation fees are NOT impact fees. However, capacity reservation fees should be applied as a credit toward school impact fees at the time of building permit issuance.		

3. Notwithstanding the schedule provided by Condition #2, the Applicant may prepay any or all of the Capacity Reservation Fees in advance or as the need arises. Applicant acknowledges and agrees that Applicant may only obtain building permits in direct proportion to the amount of Capacity Reservation Fees paid.
4. **If Applicant intends to start construction of the Project prior to the due date of the Capacity Reservation Fees, please contact the Department of Facilities Planning to discuss an alternate payment schedule.**
5. Upon issuance of this CEL, capacity for the Project will be encumbered for 180 days. Upon request, the CEL can be extended for an additional 180 days. Prior to the CEL expiration date, the owner of the account will be required to reserve the encumbered capacity by remitting the required payment.
6. School capacity for the project will be reserved for three years from the date of land use approval as long as payments are made in accordance with the Capacity Reservation Fee Schedule as described above. In the event a Capacity Reservation payment is not made, the reservation will be cancelled and the Applicant will need to re-apply for school concurrency.

This determination is governed by the provisions of the Amended Interlocal Agreement for Public School Facility Planning and Implementation of Concurrency, the provisions of the local government's adopted Comprehensive Plan, the Orange County Charter, and the Florida Statutes.

Please contact me at (407) 317-3700 ext. 2022391 or e-mail me at christopher.mills@ocps.net with any questions.

Sincerely,

Christopher Mills, AICP
Administrator, Facilities Planning

SECOND AMENDMENT TO SCHOOL CONCURRENCY MITIGATION AGREEMENT APK-21-021-A2 THE RIDGE PD

PARCEL IDs#: 17-21-28-0000-00-006; 17-21-28-0000-00-007; 17-21-28-0000-00-017; 17-21-28-0000-00-018; 17-21-28-0000-00-023; 17-21-28-0000-00-030; 17-21-28-0000-00-031; 18-21-28-0000-00-013; 18-21-28-0000-00-014; 18-21-28-0000-00-103

THIS SECOND AMENDMENT TO SCHOOL CONCURRENCY MITIGATION AGREEMENT ("Second Amendment"), is entered into as of the Effective Date (as defined below) by **THE SCHOOL BOARD OF ORANGE COUNTY, FLORIDA** a body corporate and political subdivision of the State of Florida, ("School Board"); **CITY OF APOPKA**, a municipal corporation of the State of Florida, ("City"); and **APOPKA CENTERLINE DEVELOPMENT, LLC**, a Florida limited liability company, whose address is 15481 SW 12th Street, Suite 309, Sunrise, FL 33326; **DRP FL 5, LLC**, a Delaware limited liability company ("DRP") licensed to do business in Florida, whose address is c/o DW Partners, LP, 590 Madison Avenue, 13th Floor, New York, NY 10022; and **AG EHC II (LEN) MULTI STATE 1, LLC**, a Delaware limited liability company ("AG") licensed to do business in Florida, whose address is c/o Essential Housing Asset Management, LLC, 8585 E. Hartford Drive, Suite 118, Scottsdale, AZ 85255 (collectively, the "Applicants"). The School Board, the City and the Applicants are collectively referred to herein as the "Parties."

RECITALS:

WHEREAS, the School Board and Applicants entered into that certain School Concurrency Mitigation Agreement (APK-21-021) dated effective on September 13, 2022, and recorded on October 7, 2022, as Document #20220608957, as amended by that certain First Amendment to School Concurrency Mitigation Agreement (APK-21-021-A1) dated effective March 23, 2023, and recorded on April 6, 2023, as Document #20230193113, all in the Public Records of Orange County, Florida (collectively, the "Agreement"); and

WHEREAS, the First Amendment resulted in an extension of the above referenced agreement by 6 months and 60 days; and

WHEREAS, Governor DeSantis declared a State of Emergency on November 7, 2022, under Executive Order No. 22-253, declaring a State of Emergency due to the threat posed by

Subtropical Storm Nicole (referred to as the "Nicole EO"). On August 29, 2023, Governor DeSantis declared a State of Emergency due to Hurricane Idalia under Executive Order number 23-175 (referred to as the "Idalia EO"; the Nicole EO and the Idalia EO are sometimes hereinafter collectively referred to as the "Executive Orders"): and

WHEREAS, Section 252.363(1)(a), Florida Statutes, provides that in the event the Governor declares a state of emergency, the declaration tolls the period remaining under a permit or development order for the duration of the declaration and extends the permit or development order for an additional six-month period; and

WHEREAS, Senate Bill 250 amended Section 252.363(1)(a) to allow for an extension of twenty-four months, instead of six months, plus the length of time the state of emergency for a natural disaster is in effect, not to exceed forty-one (41) months and 305 days in total in the event of multiple natural emergencies; and

WHEREAS, the Executive Orders result in an extension of the above-referenced Agreement by a total of forty-one (41) months and 305 days; and

WHEREAS, the Parties desire to amend and modify the terms of the Agreement in accordance with the terms and conditions set forth herein and Section 16 of the Agreement.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby agree as follows:

1. Recitals; Definitions. The foregoing recitals are true and correct and are incorporated herein by reference. Capitalized terms not otherwise defined herein shall have the meaning set forth in the Agreement.

2. Capacity Reservation Fee. The Parties agree and acknowledge that the payment schedule for the 2nd Installment of the School Capacity Reservation Fee, and each subsequent installment, as set forth in Section 9 of the Agreement, shall be extended for an additional forty-one (41) months and 305 days.

3. Recording of this Second Amendment. The School Board agrees to record this Second Amendment, at Applicants' expense, in the Public Records of Orange County, Florida.

4. Effective Date. The effective date of this Second Amendment shall be the date when the last one of the Parties has properly executed this Second Amendment as determined by the date set forth immediately below their respective signatures (the "Effective Date").

SECOND AMENDMENT TO PLANNED DEVELOPMENT AGREEMENT (THE RIDGE)

This **Second Amendment Planned Development Agreement** (the **"Second Amendment"**) is made and entered into this 21st day of July, 2022 (the "**Effective Date**") by and among **City of Apopka**, a Florida municipal corporation, whose mailing address is 120 East Main Street, Apopka, Florida 32703 (hereinafter referred to as **"City"**), and Apopka Development Opportunity, LLC, a Delaware limited liability company whose mailing address is 15481 SW 12th Street, Suite 309, Sunrise, Florida 33326 ("**ADO**"), Apopka Centerline Development, LLC, a Florida limited liability company, whose mailing address is 15481 SW 12th Street, Suite 309, Sunrise, Florida 33326 ("**Apopka Centerline**") ("ADO and Apopka Centerline are hereinafter collectively referred to as "**Centerline**"), AG EHC II (LEN) Multi State 1, LLC, a Delaware limited liability company, whose mailing address is 245 Park Ave., 26th Floor, New York, NY 10167 ("**Lennar**"), DRP FL 5, LLC, a Delaware limited liability company whose address is 251 Little Falls Drive, Wilmington, DE 19808 ("**DRP**"), and Ridge 429 Owner, LLC, a Delaware limited liability company whose mailing address is 3411 Silverside Road Tatnall Building #104 Wilmington, DE 19810 ("**429**") (Centerline, Lennar, DRP and 429 are collectively hereinafter referred to as "**Developer**").

RECITALS

WHEREAS, City, Apopka Development Opportunity, LLC, Apopka Centerline Development, LLC, Ruth Ina Bronson Trust and Troy S. Bronson Trust, Troy S. Bronson Family, LP, Binion Partners, LLC, and John and Donna Kirkland Developer entered into that certain Planned Development Agreement (The Ridge) recorded among the Public Records of Orange City, Florida on August 31, 2021 as Pages 1-20 of Document Number #20210532976, as amended by that certain First Amendment to Planned Development Agreement (The Ridge) recorded among the Public Records of Orange County, Florida on December 9, 2021 as Document#20210532976 (hereinafter collectively, the " Executed **Agreement**");

WHEREAS, Lennar, DRP and 429 are successor owners of property in The Ridge (as defined in the Agreement);

WHEREAS, City and Developer entered into that certain First Amendment to Planned Development Agreement (The Ridge) recorded among the Public Records of Orange County, Florida on August 31, 2021 as Document Number #20210751331 (the "**First Amendment**");

WHEREAS, the Executed Agreement and the First Amendment and hereinafter collectively referred to herein as the "Agreement"; and

WHEREAS, City and Developer desire to amend the Agreement to address certain utility infrastructure matters as well as certain zoning district standards for The Ridge according to the terms, covenants and conditions as more particularly set forth herein;

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged by the parties, City and Developer agree to amend the Agreement as follows:

1. **Recitals**. The recitals set forth above are true and correct and are incorporated as if fully set forth herein.

2. **Definitions**. Capitalized terms not otherwise defined herein shall have the meanings ascribed to such terms in the Agreement.

3. **The Ridge. Exhibit "A"** of the Agreement (the legal description of "**The Ridge**") is hereby superseded and replaced with the legal description set forth on "**Exhibit "A"** attached hereto and incorporated herein by this reference.

4. **Utility Service; Connection Points and Oversizing.** Section 10 of the Agreement is hereby superseded and replaced as follows:

Utility Service; Connection Points and Oversizing. The City shall provide water, sewer and reclaimed water service for The Ridge for all phases of the Project through buildout. In connection with the PD, the City has reviewed the master utility plan provided by the Developer and Developer agrees to connect to the existing City system at the connection points set forth on the PD. The route(s) of any off-site lines shall be consistent with engineering plans produced by Developer and approved the City. The Developer shall construct the facilities, lines and appurtenances necessary to serve the Project and provide such documentation necessary for the City to determine that the lines shall meet the minimum line size requirements as specified in the City's Land Development Code. Developer shall provide the City such easements or right of way in form reasonably acceptable to the City Attorney, as the City deems necessary for the installation and maintenance of utility services located on The Ridge, including but not limited to sewer, water, and reclaimed water services. No building permits shall be issued for the Project by the City until water, sewer and reclaimed water are provided to an individual phase of the Project requiring such service, or until a bond or letter of credit is in place to guarantee the completion of off-site improvements. Developer shall be responsible for all costs of onsite and offsite improvements, including but not limited to the design, material, permitting and installation of sufficient size lines, lift stations and other appurtenances necessary to allow the City to serve the Project. Following a bid process, Developer has selected Junior Davis to perform

such improvements. Notwithstanding the foregoing or any City Code provisions to the contrary, with respect to the sewer force main connection at the intersection of Marden Road and State Road 414 (the "**Force Main Connection**"), the City has requested that Centerline (i) oversize the force main from the eight (8) inch force main needed to serve the Project to a twenty (24) inch force main from the intersection of Boy Scout Road to the Force Main Connection for an approximate distance of 4,600 linear feet, (ii) oversize the force main along Boy Scout Road from the eight (8) inch force main needed to serve the Project to a twenty (24) inch force main along Boy Scout Road from the intersection of Boy Scout Road and Ocoee-Apopka Road an approximate distance of 1,000 linear feet to the Project's master lift station, and (iii) oversize the Project's master duplex lift station needed to serve the Project and located just east of the intersection of Boy Scout Road and Galway Boulevard to a master triplex lift station which shall be oversized to accommodate a future third pump for future installation by the City at the City's sole cost and expense (collectively, the "**Force Main Oversizing**"). The City agrees to provide sewer impact fee credits to Centerline for the actual out-of-pocket cost difference in construction and labor costs for such Force Main Oversizing. Such credits shall be issued within thirty (30) days of Centerline completing the Force Main Oversizing work and may be freely used or assigned by Developer within the limits of the Corridor Study (as defined in the Transportation Agreement). Additionally, the City has requested that Centerline oversize the water main from the ten (10) and twelve (12) inch water main needed to serve the Project to a sixteen (16) inch water main along Boy Scout Road, as depicted on the aforementioned master utility plan, for an approximate distance of 3,500 linear feet (the "**Water Main Oversizing**"). The City agrees to provide water impact fee credits to Centerline for the actual out-of-pocket cost difference in construction and labor costs for such Water Main Oversizing. Such credits shall be issued within thirty (30) days of Centerline completing the Water Main Oversizing work and may be freely used or assigned by Centerline within the limits of the Corridor Study (as defined in the Transportation Agreement).

5. **Ridge Permitted Uses. Exhibit "C"** of the Agreement (the "**Permitted Uses**") is hereby superseded and replaced with the Permitted Uses set forth on "**Exhibit "B"** attached hereto and incorporated herein by this reference.

6. **Ratification**. The Agreement remains in full force and effect except as expressly modified by this Second Amendment and is ratified and confirmed. If there is a conflict between the terms of the Agreement and this Second Amendment, the terms of this Second Amendment shall control.

7. **Multiple Counterparts; Electronic Signatures**. This Second Amendment may be executed in multiple counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same agreement. The counterparts of this Second Amendment may be executed by electronic signatures and may be delivered electronically by any party to any other party and the receiving party may rely on the receipt of such document so executed and delivered by electronic means as if the original had been received.

Signatures appear on the following page(s).

IN WITNESS WHEREOF, the parties hereto have executed this Second Amendment as of the date first above written.

Exhibit "A"

LEGAL DESCRIPTION:

FILE NUMBER: L190357

Beginning at the intersection of the South line of the right of way of Boy Scout Road with a line 42.50 feet East of the East line of the Northwest 1/4 of the Southwest 1/4 of Section 17, Township 21 South, Range 28 East, Orange County, Florida, and run South 89 degrees 43 minutes 32 seconds West, along said South right of way line, for a distance of 294,30 feet; thence run South 00 degrees 22 minutes 4 8 seconds West, parallel with the East line of said Northwest 1/4 of the Southwest 1/4, for a distance of 722.00 feet; thence run South 83 degrees 13 minutes 27 seconds East for a distance of 296.12 feet; thence run North 00 degrees 22 minutes 48 seconds East parallel with the East line of said Northwest 1/4 of the Southwest 1/4 for a distance of 758.35 feet to the POB.

FILE NUMBER: L190356

A portion of Section 17, Township 21 South, Range 28 East, Orange Country, Florida more particularly described as follows:

Commence at the South Quarter corner of said Section 17; thence N 07 degrees 19' 56" E to a point on the Westerly right of way of Ocoee Apopka Road, the arc of a curve concave to the East of the Point of Beginning; thence run along said right of way line and curve having a radius of 948.00', a delta of 11 degrees 35' 09", along a cord bearing of N26 degrees 13' 56" E, an arc distance of 191.70'; thence leaving said right of way run N75 degrees 44' 09" W, 278.00'; thence S57 degrees 12' 05" W, 100.86'; thence S10 degrees 59' 06" W, 134.01'; thence S79 degrees 38' 16" E, 300.05 to the Point of Beginning.

FILE NUMBER: L190473/ak

The South one-half (S 1/2) of the East one-half (E 1/2) of the Southwest one-quarter (SW 1/4) of the Northwest one-quarter (NW 1/4), (LESS the East twenty-five feet (E 25') of the South three hundred and forty feet (S 340')) of Section 17, Township 21 South, Range 28 East, Orange County, Florida, Less the South 30 feet thereof for Boy Scout Road.

Also less the land contained in Warranty Deed recorded in Official Records Book 1652, page 737, Public Records of Orange County, Florida, to wit:

Begin at the southwest corner of the South 1/2 of the East 1/2 of the Southwest 1/4 of the Northwest 1/4, Section 17, Township 21 South, Range 28 East; run North 0° 19' 30" West 668.54 feet; run thence East, North 87° 27' 40" East 15 feet; thence South 0° 19' 30" East 10 feet; thence West, South 87° 27' 40" West 3 feet; thence South 0° 19' 30" East to the south line of the South 1/2 of the East 1/2 of the Southwest 1/4 of the Northwest 1/4, Section 17, Township 21 South, Range 28 East; thence West to the Point of Beginning, less the South 30 feet in Boy Scout Road.

FILE NUMBER: L190355

PARCEL 1

The East half of the Southeast quarter of the Southeast quarter of Section 18, Township 21 South, Range 28 East, in Orange County, Florida;

and

The Southwest quarter of the Southwest quarter of Section 17, Township 21 South, Range 28 East, in Orange County, Florida;

and

The West 400 feet of: Begin 144 feet West of the Southeast corner of the Southwest quarter and run West to the Southwest corner of the Southeast quarter of the Southwest quarter of Section 17, Township 21 South, Range 28 East, thence run North 996.6 feet, South 75° East, a distance of 1,419 feet to a point 15 feet west of road, thence Southwesterly to the Point of Beginning, in Orange County, Florida.

PARCEL 2

The North one half (1/2) of the East one half (1/2) of the Southwest quarter (1/4) of the Northwest quarter (1/4) of Section 17, Township 21 South, Range 28 East, all in Orange County, Florida.

PARCEL 3A

The West 1/2 of the Southwest 1/4 of the Northwest 1/4 of Section 17, Township 21 South, Range 28 East, Orange County, Florida, less the West 433 feet of the South 220 feet;

PARCEL 3B

Begin at the southwest corner of the South 1/2 of the East 1/2 of the Southwest 1/4 of the Northwest 1/4, Section 17, Township 21 South, Range 28 East; run North 0° 19' 30" West 668.54 feet; run thence East, North 87° 27' 40" East 15 feet; thence South 0° 19' 30" East 10 feet; thence West, South 87° 27' 40" West 3 feet; thence South 0° 19' 30" East to the south line of the South 1/2 of the East 1/2 of the Southwest 1/4 of the Northwest 1/4, Section 17, Township 21 South, Range 28 East; thence West to the Point of Beginning, less the South 30 feet in Boy Scout Road.

PARCEL 4

That part of the Southeast 1/4 of the Northwest 1/4, the Northeast 1/4 of the Southwest 1/4 and the West 1/2 of the Southeast 1/4 of Section 17, Township 21 South, Range 28 East, Orange County, Florida, lying northwesterly of the northwesterly right of way line of Ocoee-Apopka Road, northeasterly of the northeasterly right of way of Boy Scout Road, and easterly of the east right of way line of Galway Blvd. (Tracts P and S) according to the plat of Breckenridge Phase 1 recorded in Plat Book 64, page 74, public records of Orange County, Florida.

PARCEL 5

Beginning at the southeast corner of the East 1/2 of the Southwest 1/4 of the Northwest 1/4 of Section 17, Township 21 South, Range 28 East; run thence West 25 feet, thence North 340 feet, thence East 25 feet, thence South 340 feet to the Point of Beginning;

and

The Southeast 1/4 of the Northwest 1/4 and that part of the Northeast 1/4 of the Southwest 1/4 of Section 17, Township 21 South, Range 28 East lying northerly and northeasterly of the right of way of Boy Scout Road and lying northerly and westerly of the north and west right of way lines of Galway Blvd. (Tracts O and S) according to the plat of Breckenridge Phase 1 recorded in Plat Book 64, page 74, public records of Orange County, Florida.

PARCEL 6

That part of the West 1/2 of the Southeast 1/4, the North 1/2 of the Southwest 1/4 and the Southeast 1/4 of the Southwest 1/4 of Section 17, Township 21 South, Range 28 East, Orange County, Florida, lying westerly of the westerly right of way line of Ocoee-Apopka Road, and southerly and southwesterly of the southern and southwestern right of way line of Boy Scout Road, less and except the following parcels A, B and C:

A. Beginning 144 feet west of the quarter section post on the south boundary of Section line, 15 feet west of center of public road, run west 17 chains and 82 links, North 15 chains and 10 links, thence South 75° 30' East 21 chains and 55 links to a point 15 feet west of center of public road, southerly along said road to beginning.

B. Beginning at the intersection of the south line of the right of way of Boy Scout Road with a line 42.50 feet east of the east line of the Northwest 1/4 of the Southwest 1/4 of Section 17, Township 21 South, Range 28 East, Orange County, Florida, and run South 89° 43' 32" West, along said south right of way line, for a distance of 294.30 feet; thence run South 00° 22' 48" West, parallel with the east line of said Northwest 1/4 of the Southwest 1/4, for a distance of 722.00 feet; thence run South 83° 13' 27" East for a distance of 296.12 feet; thence run North 00° 22' 48" East parallel with the east line of said Northwest 1/4 of the Southwest 1/4 for a distance of 758.35 feet to the Point of Beginning.

C. A portion of Section 17, Township 21 South, Range 28 East, Orange County, Florida, more particularly described as follows:

Commence at the south quarter corner of said Section 17; thence North 07° 19' 56" East to a point on the westerly right of way of Ocoee Apopka Road, the arc of a curve concave to the east and the Point of Beginning; thence run along said right of way line and curve having a radius of 948.00 feet, a delta of 11° 35' 09", along a chord bearing of North 26° 13' 56" East, an arc distance of 191.70 feet; thence leaving said right of way run North 75° 44' 09" West, 278.00 feet; thence South 57° 12' 05" West, 100.86 feet; thence South 10° 59' 06" West, 134.01 feet; thence South 79° 38' 16" East, 300.05 feet to the Point of Beginning.

PARCEL 7

The Northeast 1/4 of the Southeast 1/4 of Section 18, Township 21 South, Range 28 East, and beginning 110 yards north of the southwest corner of the Northwest 1/4 of the Southeast 1/4, run North 110 yards, East 440 yards to the 40 line, South 110 yards, West 440 yards to beginning, Section 18, Township 21 South, Range 28 East, Orange County, Florida; less and except that portion conveyed to the State of Florida for State Road 437 by the Quit Claim Deed recorded in Deed Book 770, page 209, and less that part vested in the Orlando/Orange County Expressway Authority by the Stipulated Order of Taking recorded in Official Records Book 9046, page 4349 and Official Records Book 9398 page 1729 of the public records of Orange County, Florida.

PARCEL 8

The South 1/2 of the North 1/2 of the Southwest 1/4 of the Southeast 1/4 and the West 1/2 of the Southeast 1/4 of the Southeast 1/4 of Section 18, Township 21 South, Range 28 East, Orange County, Florida, less and except that portion conveyed to the State of Florida by the Quit Claim Deed recorded in Deed Book 769, page 164 and less and except those portions vested in the Orlando/Orange County Expressway Authority by the Stipulated Order of Taking recorded in Official Records Book 9046, page 4349 and Official Records Book 9893, page 1729 of the public records of Orange County, Florida.

PARCEL 9

The North 1/2 of the Northwest 1/4 of the Southeast 1/4 of Section 18, Township 21 south, Range 28 East, Orange County, Florida, less and except the North 33 feet thereof for road right of way and less road right of way on west.

SHIRLEY PARCEL

The Northwest 1/4 of the Northwest 1/4 of Section 17, Township 21 South, Range 28 East, Orange County, Florida.

Together with an Easement for ingress and egress over the East 30 feet of the following described property:

The West 1/2 of the SW 1/4 of the NW 1/4 of Section 17, Township 21 South, Range 28 East, Orange County, Florida, Less the West 433 feet of the South 220 feet, also subject to road right-of-way on South 30 feet.

TRIANGLE PARCEL

THAT PORTION OF THE NORTH 1/4 OF THE SOUTHWEST 1/4 OF THE SOUTHEAST 1/4 OF SECTION 18, TOWNSHIP 21 SOUTH, RANGE 28 EAST, ORANGE COUNTY, FLORIDA LYING EAST OF THE EAST RIGHT-OF-WAY LINE OF BINION ROAD, FORMERLY KNOWN AS STATE ROAD 437, LESS AND EXCEPT THAT PORTION VESTED IN THE ORLANDO/ORANGE EXPRESSWAY AUTHORITY BY THE STIPULATED ORDER OF TAKING RECORDED IN OFFICIAL RECORDS BOOK 9046, PAGE 4374 AND OFFICIAL RECORDS BOOK 9398, PAGE 1753 OF THE PUBLIC RECORDS OF ORANGE COUNTY, FLORIDA.

FURTHER DESCRIBED AS FOLLOWS:

COMMENCE AT THE SOUTH QUARTER CORNER OF SAID SECTION 18 FOR A POINT OF REFERENCE; THENCE RUN NORTH 01°08'24" EAST, ALONG THE WEST LINE OF THE SOUTHEAST QUARTER OF SAID SECTION 18, A DISTANCE OF 996.68 FEET TO THE NORTH LINE OF THE SOUTH HALF OF THE NORTH HALF OF THE SOUTHWEST QUARTER OF THE SOUTHEAST QUARTER OF SAID SECTION 18; THENCE RUN NORTH 89°57'09" EAST, ALONG SAID NORTH LINE, 14.41 FEET TO THE EAST RIGHT-OF-WAY LINE OF BINION ROAD, ACCORDING TO DEED BOOK 769, PAGE 164 OF THE PUBLIC RECORDS OF ORANGE COUNTY, FLORIDA AND THE POINT OF BEGINNING; THENCE RUN NORTH 00°14'15" EAST, ALONG SAID EAST RIGHT-OF-WAY LINE, 229.79 FEET TO THE INTERSECTION OF SAID EAST RIGHT-OF-WAY LINE WITH THE WESTERLY LIMITED ACCESS RIGHT-OF-WAY LINE OF STATE ROAD 429, ACCORDING TO OFFICIAL RECORDS BOOK 9046, PAGE 4349, OFFICIAL RECORDS BOOK 9398, PAGE 1729 AND DEED BOOK 770, PAGE 209 OF SAID PUBLIC RECORDS; THENCE RUN SOUTH 46°26'33" EAST, ALONG SAID WESTERLY LIMITED ACCESS RIGHT-OF-WAY LINE, 218.04 FEET; THENCE RUN SOUTH 43°22'33" EAST, ALONG SAID WESTERLY LIMITED ACCESS RIGHT-OF-WAY LINE, 109.16 FEET TO A POINT ON SAID NORTH LINE OF THE SOUTH HALF OF THE NORTH HALF OF THE SOUTHWEST QUARTER OF THE SOUTHEAST QUARTER OF SAID SECTION 18; THENCE RUN SOUTH 89°57'09" WEST, ALONG SAID NORTH LINE, 233.93 FEET TO THE POINT OF BEGINNING.

THE ABOVE DESCRIBED TRACT OF LAND LIES IN ORANGE COUNTY, FLORIDA AND CONTAINS 0.63 ACRES MORE OR LESS.

STRIP PARCEL:

A STRIP OF LAND LYING IN SECTION 18, TOWNSHIP 21 SOUTH, RANGE 28 EAST, BOUNDED ON THE NORTH BY THE SOUTH RIGHT-OF-WAY LINE OF BOY SCOUT ROAD, ACCORDING TO OFFICIAL RECORDS BOOK 1076, PAGE 548, OF THE PUBLIC RECORDS OF ORANGE COUNTY, FLORIDA, BOUNDED ON THE EAST BY THE WEST LINE OF THE SOUTHEAST QUARTER OF SAID SECTION 18 AND BOUNDED ON THE WEST BY THE EAST RIGHT-OF-WAY LINE OF BINION ROAD,

ACCORDING TO DEED BOOK 769, PAGE 164 OF SAID PUBLIC RECORDS, DESCRIBED AS FOLLOWS:

COMMENCE AT THE NORTHWEST CORNER OF THE SOUTHEAST QUARTER OF SAID SECTION 18 FOR A POINT OF REFERENCE; THENCE RUN SOUTH 01°08'24" WEST, ALONG SAID WEST LINE OF THE SOUTHEAST QUARTER OF SECTION 18, A DISTANCE OF 33.01 FEET TO SAID SOUTH RIGHT-OF-WAY LINE OF BOY SCOUT ROAD AND THE POINT OF BEGINNING; THENCE RUN SOUTH 01°08'24" WEST, ALONG SAID WEST LINE, 713.76 FEET TO THE INTERSECTION OF SAID WEST LINE WITH SAID EAST RIGHT-OF-WAY LINE OF BINION ROAD; THENCE RUN NORTH 00°14'15" EAST, ALONG SAID EAST RIGHT-OF-WAY LINE, 563.23 FEET TO THE POINT OF CURVATURE OF A CURVE CONCAVE EASTERLY; THENCE RUN NORTHERLY ALONG SAID EAST RIGHT-OF-WAY LINE AND ALONG SAID CURVE HAVING A RADIUS OF 5689.65 FEET, A CENTRAL ANGLE OF 01°30'53", AN ARC LENGTH OF 150.42 FEET, A CHORD LENGTH OF 150.42 FEET AND A CHORD BEARING OF NORTH 00°59'41" EAST TO SAID SOUTH RIGHT-OF-WAY LINE OF BOY SCOUT ROAD; THENCE RUN SOUTH 89°58'43" EAST, ALONG SAID SOUTH RIGHT-OF-WAY LINE, 9.26 FEET TO THE POINT OF BEGINNING.

THE ABOVE DESCRIBED STRIP OF LAND LIES IN ORANGE COUNTY, FLORIDA AND CONTAINS 3,912 SQUARE FEET MORE OR LESS.

Containing: 407.86 acres, more or less

Exhibit "B"

Permitted Uses

Permitted uses shall be those listed as Permitted under the RSF-1A, RSF-1B, C-C, I-L and MU-ES-GT zoning districts in Table 4.2.2.C: Principal Use Table in the City of Apopka's Land Development Code. The following uses are permitted based on the specific location in the development as listed,

- Heavy equipment sales, rental, repair, servicing or storage permitted on Parcel 5 only and shall be enclosed and setback a minimum of 50 feet from the right-of-way line
- Machine shop – permitted on Parcel 5 only and shall be enclosed
- Automobile service station permitted on Parcel 1 and Parcel 3 must be setback from Ocoee Apopka Rd frontage; Parcel 6 and Parcel 7 setback from S. Binion Road
- Car wash – must be enclosed; permitted on Parcel 1, Parcel 3, Parcel 6 and Parcel 7
- Cell towers permitted on Parcel 7 only
- Consolidated storage (self-service storage) – permitted on Parcel 5; additional architectural building features required; must have office like facade
- Outdoor storage (as ancillary use) – permitted on Parcel 5; materials stored may not exceed 10 feet in height; 6-8 feet tall perimeter wall is required; Type D Landscape Buffer is required; located at least 50 feet from Spine Road
- Restaurant, fast-food – permitted on Parcel 1, Parcel 3 and Parcel 6 only; menu order board, drive-through and pick-up windows must not face any right-of-way; stacking must comply with requirements of Table 5.1.10.A.1.
- Solar energy collection facility – permitted on Parcel 5 only
- Cigar shop only on Parcel 3 and Parcel 6
- Building, heating/air conditioning, plumbing, or electrical contractor's storage yard materials stored may not exceed 10 feet in height; 6-8 feet tall screen wall is required; permitted on Parcel 5 only; must be screened and/or enclosed
- Park and ride facility – permitted on Parcel 1, Parcel 3, Parcel 6 and Parcel 7 only; vehicle charging stations must be included
- Vehicle or trailer storage (permitted on Parcel 5 only; no frontage along internal Spine Road must be located behind a 6-8 foot tall screen wall
- Flex office/warehouse use on Parcel 6; all loading areas shall not front Boy Scout Road and/or S. Binion Road; no automotive uses or car rental operations shall be permitted

Re: Phase I Environmental Site Assessment Report

Dear Mr. Bryan:

Per your request and authorization, Bio-Tech Consulting, Inc. (BTC) has completed a Phase I Environmental Site Assessment (ESA) of the above referenced site located in Apopka, Orange County, Florida. The work was performed in general accordance with the ASTM International's Standard Practice E 1527-13 for Phase I ESAs and was targeted toward identifying Recognized Environmental Conditions (RECs) in connection with the property. The attached report summarizes our research, findings, and conclusions regarding the subject property.

As stated in Section 7.0 (Findings, Opinions, Data Gaps and Conclusions) of the report, this assessment revealed no RECs, no Controlled Recognized Environmental Conditions (CRECs) and no Historical Recognized Environmental Conditions (HRECs) in connection with the subject property.

SECTION 1.0
SUMMARY

In October of 2019, Bio-Tech Consulting, Inc. (BTC) conducted a Phase I Environmental Site Assessment (ESA) of the 15 parcels, identified by Orange County as #17-21-28-0000-00-015, #17-21-28-0000-00-030, #18-21-28-0000-00-014, #18-21-28-0000-00-013, #17-21-28-0000-00-007, #17-21-28-0000-00-028, #18-21-28-0000-00-073, #18-21-28-0000-00-032, #17-21-28-0000-00-008, #17-21-28-0000-00-017, #17-21-28-0000-00-018, #17-21-28-0000-00-023, #17-21-28-0000-00-012, #17-21-28-0000-00-006 and #17-21-28-0000-00-010, which comprise the approximately 372.5-acre Bronson Apopka Site. These parcels, current owners including Binion Partners, LLC, John and Donna Marie Robertson Kirkland, Troy S. Bronson Family LP, Ruth Ina Bronson Trust ½ Interest and Troy S Bronson Trust ½ Interest, the Emma G. Kazaros Trust and the Daryl M. Carter Trust, are located in the City of Apopka, at the physical addresses of 1920, 1901, 1879 and 1516 Boy Scout Road, 1209, 1251 and 1403 South Binion Road, 1400 and 1280 Ocoee-Apopka Road and 1900 Emery Road; within Sections 17 and 18, Township 21 South, Range 28 East, Orange County, Florida (Figure 1). At the time of the site investigation the subject property appeared as active agricultural lands in use for citrus and timber production, along with active rural, residential uses. The subject property consisted of four (4) plots of land separated by area rights-of-way (Boy Scout Road, Galway Boulevard and the Western Beltway). The lands consisted of a large, centrally located parcel, two (2) smaller parcels to the north and northeast, and a small parcel to the southwest. The majority of the site was in use for citrus production at the time of the assessment. Lands used for timber production were observed within the largest parcel (southern portion) and the northern parcel, along with a small area of pasturelands (southeast portion) and open/forested lands with no identifiable use (western, southwestern and southern portions). Wetlands/surface waters existed within the northwestern, northeastern, central and southern portions of the site. Two active (2) residential homesites were noted within the northern and eastern portions of the largest parcel. In addition, an abandoned homesite was observed within the southern portion of the largest parcel. The largest parcel also included a maintenance area at its eastern extent, and a barn and recreational area on its central and southern portions. Structures identified within the subject property included three (3) single-family residences, one (1) grove maintenance garage, one (1) equipment storage barn, one (1) equine stable, one (1) kitchen/dining structure, one (1) detached garage and five (5) ancillary structures. Other improvements noted on the site at the time of the assessment included reclaimed water irrigation infrastructure, grove irrigation equipment, six (6) water wells (agricultural and residential use), three (3) septic systems, a dock, fencing, landscaping, electrical power line transmission poles and concrete, gravel and primitive trails/access roads.

This Phase I ESA was performed in general conformance with the scope and limitations of ASTM International's Standard Practice E 1527-13 for Phase I ESAs (hereafter referred to as ASTM E 1527-13). Any exceptions to, or deletions from, this practice are described in Section 2.8 of this report.

This assessment revealed no Recognized Environmental Conditions (RECs), no Controlled Recognized Environmental Conditions (CRECs) and no Historical Recognized Environmental Conditions (HRECs) in connection with the subject site or adjoining properties that would warrant further investigation at this time. While this is the case, the user of this assessment should be aware of the following non-REC items (Business Environmental Risks, defined in ASTM E1527-13) prior to completing a commercial real estate transaction involving the property:

- Historical Agricultural Use–Current and past use of the subject property for agricultural purposes for citrus crop production over multiple decades

Through the review of historical record sources, particularly aerials dating in the period 1947 through 2019, portions of the uplands associated with the site were planted in citrus. This current and past use is being noted due to the assumed ubiquitous use of controlled substances (pesticides, herbicides and fertilizers) commonly used in this type of operation, as well as the long time use of the lands for this purpose. It is important to note that the legal application (i.e., in accordance with manufacturer's specifications and customary practices) of such substances, in the course of standard operational practices does not constitute a "release to the environment" by definition. Structures were identified within the central portion of the site and wells/irrigation equipment were identified within the northern, central, southern and western portions the subject property through historic aerials and the on-site investigation that could represent potential agricultural chemical mixing/storage areas or areas where petroleum products may have been stored/handled. However, no reasonably ascertainable information was obtained during the course of our assessment, including historical records review, site reconnaissance observations, and regulatory record reviews, indicating that a past release had occurred on the site. Therefore, the mere presence of this current and historical land use does not meet the definition of a REC.

- Portion of subject property located within one of several Florida Department of Environmental Protection (FDEP) delineated Groundwater Contamination Area Zones in Orange County, based on a potential for ethylene dibromide (EDB) contamination

Based on the location of the subject property and a noted past use of the site for citrus production, BTC reviewed the FDEP's Groundwater Contamination Areas database to assess the potential for EDB to have affected the groundwater in the area. The reviewed information identified the subject property as being partially located (northeastern portion of the subject property) within one of several zones associated with a known area of DEDB groundwater contamination, an associated 1000-foot DEDB contamination setback area or a known historical DEDB application area where data is limited, pursuant to Chapter 62-524, F.A.C., New Potable Water Well Permitting in Delineated Areas. This area EDB site is identified by the FDEP as Zone #48263145. Such locations are subject to restrictions against any additional development of groundwater wells for the purposes of providing potable water. No direct evidence was encountered during the course of this investigation that EDB impacts to groundwater have been identified within the site boundaries or on immediately adjoining properties, and therefore no

REC is identified. However, the user should be aware of the position of the site within an apparent EDB "setback area" area when considering property development activities.

SECTION 2.0
INTRODUCTION

2.1 Site Location and Legal Description

The 15 parcels, identified by Orange County as #17-21-28-0000-00-015, #17-21-28-0000-00-030, #18-21-28-0000-00-014, #18-21-28-0000-00-013, #17-21-28-0000-00-007, #17-21-28-0000-00-028, #18-21-28-0000-00-073, #18-21-28-0000-00-032, #17-21-28-0000-00-008, #17-21-28-0000-00-017, #17-21-28-0000-00-018, #17-21-28-0000-00-023, #17-21-28-0000-00-012, #17-21-28-0000-00-006 and #17-21-28-0000-00-010, which comprise the approximately 372.5-acre Bronson Apopka Site, are located in the City of Apopka, at the physical addresses of 1920, 1901, 1879 and 1516 Boy Scout Road, 1209, 1251 and 1403 South Binion Road, 1400 and 1280 Ocoee-Apopka Road and 1900 Emery Road; within Sections 17 and 18, Township 21 South, Range 28 East, Orange County, Florida. The following are the legal descriptions for the parcels as provided by the Orange County Property Appraiser's Office:

2.2 Site and Vicinity General Characteristics

2.2.1 Current Uses of the Subject Site and Adjoining Properties

In general, the subject site is situated in a former agricultural use area, including rural homesites, which is currently in transition for larger scale residential development. Historically the area appears to have been comprised mostly of lands associated with agricultural use for citrus crop production, undeveloped naturally vegetated uplands and wetlands, and rural residential homesites from prior to 1947 through the 1970s. Subsequent to the 1970s, it appears that some lands dedicated to citrus crop production were converted for timber production and pastureland uses. Additional residential uses appeared in the area during this time as well. In the early 2000s, State Road 451 was constructed in the area to the east, followed by larger scale residential developments to the north and southeast. In the early 2010s, State Road 429 (Western Beltway) was constructed to the west and south, followed by commercial development to the east. At the time of the site investigation the subject property appeared as active agricultural lands in use for citrus and timber production, along with active rural, residential uses. The subject property consisted of four (4) plots of land separated by area rights-of-way

(Boy Scout Road, Galway Boulevard and the Western Beltway). The lands consisted of a large, centrally located parcel, two (2) smaller parcels to the north and northeast and a small parcel to the southwest. The majority of the site was in use for citrus production at the time of the assessment. Lands used for timber production were observed within largest parcel (southern portion) and the northern parcel, along with a small area of pasturelands (southeast portion) and open/forested lands with no identifiable use (western, southwestern and southern portions). Wetlands/surface waters existed within the northwestern, northeastern, central and southern portions of the site. Two active (2) residential homesites were noted within the northern and eastern portions of the largest parcel. In addition, an abandoned homesite was observed within the southern portion of the largest parcel. The largest parcel also included a maintenance area at its eastern extent, and a barn and recreational area on its central and southern portions. Structures identified within the subject property included three (3) single-family residences, one (1) grove maintenance garage, one (1) equipment storage barn, one (1) equine stable, one (1) kitchen/dining structure, one (1) detached garage and five (5) ancillary structures. Other improvements noted on the site at the time of the assessment included reclaimed water irrigation infrastructure, grove irrigation equipment, six (6) water wells (agricultural and residential use), three (3) septic systems, a dock, fencing, landscaping, electrical power line transmission poles and concrete, gravel and primitive trails/access roads. Currently adjoining the subject property are lands associated with a residential subdivision (Breckenridge - northeast), lands associated with occupied and vacant single-family homesites (north and northwest), commercial lands associated with occupied and vacant warehouse distribution facilities (Northwest Distribution Center and Quality Custom Distribution - east and southeast), lands associated with a hospital campus/facility (Adventist Health System/Sunbelt, Inc. - south beyond right-of-way), agricultural lands associated with a container plant nursery operation (Hooper's Landscape Nursery, Inc. - southwest), former agricultural lands last used for citrus production (west), open/forested lands with no identifiable use evident (south, southeast and northwest) and the Boy Scout Road (between parcels), Galway Boulevard (between parcels), South Binion Road (west), Ocoee Apopka Road (east), State Road 429 (southwest) and State Road 414 (south) rights-of-way and associated interchanges and stormwater management ponds.

2.2.2 Soils

According to the SSURGO Soils Map of Orange County, Florida, prepared by the U.S. Department of Agriculture (USDA) Natural Resources Conservation Service (NRCS), 11 soil types occur within the subject property boundaries (Figure 2). The following presents a brief description of these soil types mapped for the property:

Basinger fine sand, frequently ponded, 0 to 1 percent slopes (#3) is a nearly level, very poorly drained soil found in shallow depressions and sloughs and along edges of freshwater marshes and swamps. The surface layer of this soil type generally consists of black fine sand about 7 inches thick. The water table for this soil type is above the surface for 6 to 9 months or more each year and is within 12 inches of the surface for the rest of the year. Permeability of this soil type is rapid throughout.

Candler fine sand, 0 to 5 percent slopes (#4) is a nearly level to gently sloping, excessively drained soil found on the uplands. The surface layer of this soil type generally consists of very dark grayish brown fine sand about 5 inches thick. The seasonal high-water table for this soil type is at a depth of more than 80 inches. Permeability of this soil type is rapid in the surface and subsurface layers and is rapid to moderately rapid in the subsoil.

Candler fine sand, 5 to 12 percent slopes (#5) is a sloping to strongly sloping, excessively drained soil found on the uplands. The surface layer of this soil type generally consists of dark grayish brown fine sand about 4 inches thick. The seasonal high-water table for this soil type is at a depth of more than 80 inches. Permeability of this soil type is rapid in the surface and subsurface layers and is rapid to moderately rapid in the subsoil.

Candler-Apopka fine sands, 5 to 12 percent slopes (#6) are sloping and strongly sloping, excessively drained and well drained soils found on the uplands. The surface layer of Candler soil consists of very dark grayish brown fine sand about 6 inches thick. The surface layer of Apopka soil consists of dark grayish brown fine sand about 5 inches thick. The seasonal high-water table is at a depth of more than 72 inches in Apopka soil and at a depth of more than 80 inches in Candler soil. The permeability of Candler soil is rapid in the surface and subsurface layers and rapid to moderately rapid in the subsoil. The permeability of Apopka soil is rapid in the surface and subsurface layers and moderate in the subsoil.

Floridana mucky fine sand, depressional (#17) is a nearly level and very poorly drained soil found in depressions and poorly defined drainageways. Undrained areas are ponded for 6 to 9 months or more each year. The upper part of the surface layer of this soil is typically black mucky fine sand about 10 inches thick. The lower part, to a depth of about 20 inches, is very dark gray fine sand. In most years, a seasonal high-water table is within 10 inches of the surface for more than 9 months. The permeability is rapid in the surface and subsurface layers, and it is slow in the subsoil and substratum.

Florahome fine sand, 0 to 5 percent slopes (#28) is a nearly level to gently sloping and moderately well drained soil found on uplands. Typically, the upper

part of the surface layer of this soil is very dark gray fine sand about 10 inches thick. In most years, a seasonal high-water table is at a depth of 48 to 72 inches for 4 to 6 months and recedes to a depth of 72 inches or more during extended dry periods. The permeability is rapid throughout.

Pits (#33) consists of excavated areas of unconsolidated or heterogeneous soil and geologic materials which have been removed primarily for use in road construction or as fill material for low areas and building foundations. These areas consist of a pit or depressed area, which is surrounded by sidewalls of variable steepness.

Sanibel muck (#42) is a nearly level, very poorly drained soil found in depressions, freshwater swamps and marshes and in poorly defined drainageways. Typically, the surface layer of this soil type consists of black muck about 11 inches thick. In most years undrained areas mapped with this soil type are ponded for 6 to 9 months or more except during extended dry periods. Permeability of this soil type is rapid throughout.

Tavares fine sand, 0 to 5 percent slopes (#46) is a nearly level to gently sloping, moderately well drained soil found on low ridges and knolls on the uplands. The surface layer of this soil type generally consists of very dark gray fine sand about 6 inches thick. The seasonal high-water table for this soil type is at a depth of 40 to 80 inches for more than 6 months, and recedes to a depth of more than 80 inches during extended dry periods. Permeability of this soil type is very rapid throughout.

Tavares - Millhopper fine sands, 0 to 5 percent slopes (#47) are nearly level to gently sloping, moderately well drained soils found on low ridges and knolls on the uplands and on the flatwoods. Typically, the surface layer of Tavares and Millhopper soils is dark grayish brown fine sand about 6 inches thick. The seasonal high-water table for Tavares soil is at a depth of 40 to 72 inches for more than 6 months, and recedes to a depth of more than 80 inches during extended dry periods. The seasonal high-water table for Millhopper soil is at a depth of 40 to 60 inches for 1 to 4 months, and recedes to a depth of 60 to 72 inches for 2 to 4 months. Permeability of Tavares soil is very rapid. Permeability of Millhopper soil is rapid in the surface and subsurface layers and is moderately rapid or moderate in the subsoil.

Zolfo fine sand, 0 to 2 percent slopes (#54) is a nearly level, somewhat poorly drained soil found on broad, slightly higher positions adjacent to the flatwoods. The surface layer of this soil type generally consists of dark grayish brown fine sand about 5 inches thick. The seasonal high-water table for this soil type is at a depth of 24 to 40 inches for 2 to 6 months. It is at a depth of 10 to 24 inches during periods of heavy rain. It recedes to a depth of about 60 inches during

extended dry periods. Permeability of this soil type is rapid in the surface and subsurface layers and is moderate in the subsoil.

The Florida Association of Environmental Soil Scientists (FAESS) considers the main component in the Basinger fine sand, frequently ponded, 0 to 1 percent slopes (#3), Floridana mucky fine sand, depressional (#17), Pits (#33) and Sanibel muck (#42) soil types associated with the subject property to be hydric. The FAESS also considers inclusions present in the Basinger fine sand, frequently ponded, 0 to 1 percent slopes (#3), Floridana mucky fine sand, depressional (#17) and Sanibel muck (#42) soil types associated with the subject property to be hydric.

2.2.3 Topography

Based upon a review of the USGS Topographic Map presented in Figure 3 (Apopka, Florida Quadrangle – 1960/Photorevised 1980), the northern, eastern and western portion of the site appear to be associated with hilltop areas and/or higher positions on the site. Elevations associated with these higher position areas appear to be near +120 feet above the National Geodetic Vertical Datum of 1929 (NGVD) at the southwestern portion of the parcel, and near +105 feet NGVD on the northern, eastern and western portions of the site. The lowest lying areas within the site boundaries occur below +70 feet NGVD. These areas, associated with Lake Fuller and Lake Semmes, occur on the northern, northeastern, southern and central portions of the property. In general, it would appear that the subject parcel slopes from higher areas in the southwest, north, east and west to the north, northeast, south, in the direction of the northern, northeastern and central portions of the property, towards areas associated with Lake Fuller and Lake Semmes.

2.3 Purpose

The purpose of this Phase I ESA was to identify RECs associated with the subject site. A REC, as defined by the ASTM International Standard Practice E 1527-13 for Phase I ESAs, refers to the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: (1) due to any release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment. *De minimis* conditions are not RECs. For the purposes of this assessment, a "release" is identified as any spilling, leaking, pumping, pouring, emitting, emptying, discharging, injecting, escaping, leaching, dumping, or disposing into the environment (including the abandonment or discharging of barrels, containers, and other closed receptacles containing any hazardous substances or pollutant or contaminant). The term "environment" includes (A) the navigable waters, the waters of contiguous zone, and the ocean waters and (B) any other surface water, groundwater, drinking water supply, land surface or subsurface strata.

An HREC is a past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted residential use criteria established by a regulatory authority, without subjecting the property to any required controls (e.g., property use restrictions, activity and use limitations [AULs], institutional controls, or engineering controls). A CREC is a REC resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority (e.g., as evidenced by the issuance of a No Further Action [NFA] letter or equivalent, or meeting risk-based criteria established by regulatory), with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls (e.g., property use restrictions, AULs, institutional controls, or engineering controls). *De minimis* conditions generally would not present material risk of harm to public health or the environment and generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies. *De minimis* conditions are not RECs.

This Phase I ESA was performed in general accordance with ASTM International Standard Practice E 1527-13 for Phase I ESAs utilizing methods and procedures consistent with good commercial or customary practice. The independent conclusions represent our best professional judgment based on information and data available to us during the course of this assessment and on the conditions that existed and information available at the time of the assessment.

2.4 Scope of Services

The Phase I ESA was performed as part of the user's due diligence process associated with a potential commercial real estate transaction (land purchase for future development). It is assumed it will be utilized to assess the environmental condition of the property for reasons of qualifying for one of the *Landowner Liability Protections* (LLPs) offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001 (the "*Brownfields Amendments*"). As the Phase I ESA was conducted in general compliance with the scope and instructions of ASTM E 1527-13, it should constitute "All Appropriate Inquiry" into the previous ownership and uses of the property consistent with good commercial or customary practice.

To achieve the stated purpose, the following services were performed by BTC for this assessment:

- Physical characteristics and uses of the subject property and adjoining lands were reviewed.

- Standard environmental record sources maintained by federal, state, local and tribal agencies to identify sites that could have the potential to impact the environmental quality of the subject property were reviewed. Governmental agency information is collected and compiled by a contracted data research company. The data research company report is based on a radius search which focuses both on the subject property and neighboring lands which may have impacted the site.

- The site history was reviewed in an attempt to identify possible property ownership and/or uses that would suggest an impact to the environmental integrity of the property. This is performed through review of reasonably ascertainable land title records and standard historical sources.

- A site reconnaissance was performed to visually and physically inspect the subject property. This includes a visual inspection of the portions of adjoining properties visible from the subject site and public thoroughfares.

- Interviews were conducted, when possible, with individuals and local government representatives considered likely to know useful information regarding the subject property and adjoining properties.

- A report was prepared, which included the results of our investigation, our findings, opinions, and conclusions, and a discussion of any data gaps encountered.

2.5 Significant Assumptions

The following notable assumptions were made through the course of this assessment:

- Information provided to BTC by the user of this assessment, owners of the site and caretaker of the property has been assumed to be correct and complete.

- It is assumed the site was in use for a first-time agricultural use for citrus production, along with possible rural, residential uses, on the 1947 historical aerial photograph reviewed by BTC as part of this assessment. Prior to the agricultural and possible residential uses, the site is assumed to have been undeveloped and vacant.

2.6 Limitations and Exceptions of Assessment

This Phase I ESA was conducted in a manner consistent with that level of care and skill exercised by members of the profession currently practicing under similar conditions, and was based upon the information made available to BTC at the time of this assessment. This Phase I ESA is strictly limited to the scope of services listed in Section 2.4. The Environmental Professional did not evaluate the site for conditions relating to asbestos containing building materials, biological agents, cultural and historical resources,

ecological resources, endangered species, health and safety, indoor air quality/vapor intrusion (unrelated to releases of hazardous substances or petroleum products into the environment), industrial hygiene, lead-based paint, lead in drinking water, mold, radon, regulatory compliance and wetlands.

As stated in ASTM E 1527-13, the user or environmental professional is not obligated to identify, obtain, or review every possible record that might exist with respect to a property; it is only necessary to review record information that is reasonably ascertainable from standard sources. Such information is publicly available, obtainable within reasonable time and cost constraints, and practically reviewable.

A Phase I ESA is intended to reduce, but not eliminate, uncertainty regarding the potential for RECs in connection with a property. As noted by the legal analysis in ASTM E 1527-13, there may be environmental issues or conditions at a property that parties may wish to assess in connection with commercial real estate that are outside the scope of this practice. Also, some substances may be present on a property in quantities and under conditions that may lead to contamination of the property or of nearby properties but are not included in Comprehensive Environmental Response, Compensation, and Liability Act's (CERCLA) definition of hazardous substances. It is therefore recognized that the possibility exists that some hazardous substances or wastes may not be detected because it is beyond the level of inquiry for this type of study.

At the time of the site investigation the subject property appeared as active agricultural lands in use for citrus and timber production, along with active rural, residential uses. The subject property consisted of four (4) plots of land separated by area rights-of-way (Boy Scout Road, Galway Boulevard and the Western Beltway). The lands consisted of a large, centrally located parcel, two (2) smaller parcels to the north and northeast and a small parcel to the southwest. The majority of the site was in use for citrus production at the time of the assessment. Lands used for timber production were observed within largest parcel (southern portion) and the northern parcel, along with a small area of pasturelands (southeast portion) and open/forested lands with no identifiable use (western, southwestern and southern portions). Wetlands/surface waters existed within the northwestern, northeastern, central and southern portions of the site. Two active (2) residential homesites were noted within the northern and eastern portions of the largest parcel. In addition, an abandoned homesite was observed within the southern portion of the largest parcel. The largest parcel also included a maintenance area at its eastern extent, and a barn and recreational area on its central and southern portions. Structures identified within the subject property included three (3) single-family residences, one (1) grove maintenance garage, one (1) equipment storage barn, one (1) equine stable, one (1) kitchen/dining structure, one (1) detached garage and five (5) ancillary structures. Except for the interiors of the two (2) occupied residences, the noted detached garage and three (3) of the five (5) on-site ancillary structures, all areas located within the subject property boundaries were accessible allowing a full and complete investigation of the site as described herein.

2.7 Special Terms and Conditions

This report, and the information contained herein, shall be the sole property of BTC until payment of any unpaid balance is made in full. Centerline Capital Advisors, hereinafter referred to as the User of this Phase I ESA report, agrees that until payment is made in full, the User shall not have proprietary interest in this report or the information contained herein. BTC shall have absolute right to request the return of any and all copies of this report submitted to other parties, public or private, on behalf of the User in the event of nonpayment of outstanding fees by the User.

2.8 Deviations

This Phase I ESA did not delete or deviate from ASTM E 1527-13.

2.9 User Reliance

This Phase I ESA was completed for use by the following entities:

- Centerline Capital Advisors and related assigns

No other parties are authorized to rely on this report without express written permission from BTC.

SECTION 3.0
USER PROVIDED INFORMATION

In order to qualify for one of the Landowner Liability Protections (LLPs) to CERCLA liability, the user of a Phase I ESA must provide specific information (if available) to the environmental professional (EP) conducting the assessment. This task is intended to help identify the possibility of RECs in connection with the subject property. Failure of the user to provide this information could result in a determination the "All Appropriate Inquiry" is not complete. In order to help comply with this requirement, BTC provided the user of the report, Centerline Capital Advisors, a User Questionnaire (Appendix A). This questionnaire was provided to Mr. Chip Bryan, Senior Vice President for Centerline Capital Advisors. The following provides a summary of the user provided responses to the questionnaire:

3.1 Environmental Liens or Activity and Use Limitations

An environmental lien is defined as a charge, security or encumbrance upon title to a property to secure the payment of a cost, damage, debt, obligation or duty arising out of response actions, cleanup, or other remediation of hazardous substances or petroleum products upon a property. Activity and Use Limitations (AULs) collectively are institutional (legal) restrictions and engineering (physical) controls, put in place to prevent adverse impacts to individuals and populations resulting from exposure to hazardous substances and petroleum products.

It is the user's responsibility to check, or engage a title company or title professional to check ascertainable, recorded land title records for environmental liens and AULs, if any, that are currently recorded against the property. Any environmental liens or AULs so identified shall be reported.

Based on responses by Mr. Bryan of Centerline Capital Advisors to the User Questionnaire, the user of the Phase I ESA is unaware of any environmental liens or AULs associated with the subject property.

3.2 Specialized Knowledge

Based on Mr. Bryan's response to the User Questionnaire, the user of the Phase I ESA has no specialized knowledge regarding the past or present uses of the subject property or immediately adjoining lands that is material to RECs in connection with this assessment.

3.3 Valuation Reduction for Environmental Issues

Based on Mr. Bryan's response to the User Questionnaire, the user of the Phase I ESA has no specialized knowledge regarding the past or present uses of the subject property or immediately adjoining lands that is material to RECs in connection with this assessment.

3.4 Commonly Known or Reasonably Ascertainable Information

Based on Mr. Bryan's responses to the User Questionnaire, the user of the Phase I ESA is aware of a past use of the property for citrus production. The user is unaware of any past or present chemical use or storage on the site, any spills or chemical releases that have occurred on the parcel or any environmental cleanups that have taken place at the property. As such, it appears the user is unaware of any commonly known or reasonably ascertainable information within the local community about the site that is material to RECs in connection with this assessment.

3.5 Obvious Indicators of Releases

Based on Mr. Bryan's responses to the User Questionnaire, the user of this assessment did not know of any obvious indicators that point to the presence or likely presence of contamination at the subject property. Mr. Bryan did note the known past use of the site for agricultural purposes, suggesting that he is aware that there is a potential for contamination issues associated with this type of activity.

3.6 Reason for Performing Phase I ESA

Based on Mr. Bryan's response to the User Questionnaire, this Phase I ESA was requested as part of the user's due diligence process associated with a potential commercial real estate transaction (land purchase for future development). It is assumed it will be utilized to assess the environmental condition of the subject property for reasons of qualifying for the innocent landowner defense to CERCLA liability.

3.7 Title Records

No historical ownership (chain-of-title) information for the subject property was provided to BTC by the user of this assessment. Based on a review of available historical aerial photographs (dating from 1947 through 2019), as well as information gathered via interviews and during our site visit, it appears that past/present owners of the subject lands, to at least the mid-1940s, have used the property for agricultural purposes for citrus and timber production and pasture, rural residential purposes and as a borrow site/pit for area roadway construction. Based on this information, it appears that no past owners of the subject lands represented entities of heavy industrial, chemical production, or waste disposal repositories.

Please note that properties occurring in areas with a historic use focused on cattle ranching during the period 1906 to 1961 may include, or be in close proximity, to a historic cattle dip vat. Failure to provide chain of title information limits the environmental professional's ability to cross-reference past ownership of the subject property with the State's list of historic cattle dip vat locations.

SECTION 4.0
RECORDS REVIEW

As a component part of our Phase I ESA investigations, reasonably ascertainable standard Federal, State and Tribal environmental records are reviewed. In addition, historical record sources such as aerial photographs, ascertainable Sanborn Fire Insurance Maps, City Directories and topographic maps are reviewed. The purpose of the records review is to obtain and review records that will help identify potential RECs in connection with the subject site. The following sections detail these activities.

4.1 Standard Federal and State Environmental Records

BTC reviewed standard environmental record sources, consisting of Federal, State and Tribal environmental databases compiled by Environmental Data Resources, Inc. (EDR) of Shelton Connecticut. The complete regulatory database report provided by EDR (Report #5830573.2s) is included with this report as Appendix B. Each database has a corresponding search radius as specified by ASTM E 1527-13. Facilities identified to be within this search radius are listed within this subsection. BTC also reviewed unmappable sites, which cannot be precisely located, generally due to inaccurate or missing location information in the record provided by the agency. Any unmappable site identified to be located within its applicable search radius of the site is discussed in the relevant section below.

The following table summarizes the databases reviewed, their ASTM search radii and the number of facilities identified in the environmental database review. Supporting information for each database is provided in the sections referenced. Additionally, database descriptions are included in the attached database report.

ENVIRONMENTAL RECORD SOURCES	ASTM Search Distance (miles)	Listings within Search Distance	Reference Section
Standard Federal Sources			
Federal NPL Site List	1.0	0	4.1.1
Federal Delisted NPL Site List	0.5	0	4.1.1
Federal CERCLIS List/Superfund Enterprise Management System (SEMS)	0.5	0	4.1.2
Federal CERCLIS-NFRAP Site List	0.5	0	4.1.3
Federal RCRA-CORRACTS Facilities List	1.0	0	4.1.4
Federal RCRA-Non CORRACTS TSD Facilities List	0.5	0	4.1.5
Federal RCRA-Generators List	Target and Adjoining Properties	0 0 (Non-Gen)	4.1.6

Federal Institutional Controls/Engineering Controls Registries	Property Only	0	4.1.7
Federal ERNS List	Property Only	0	4.1.8
Standard State and Tribal Sources			
State and Tribal Hazardous Waste Sites (SHWS) – *CERCLIS equivalent*	0.5	0	4.1.9
State and Tribal Solid Waste/Landfill Facilities (SWF/LF)	0.5	1	4.1.10
State and Tribal Leaking Underground Storage Tank Sites (LUST)	0.5	1	4.1.11
State Registered Underground Storage Tank and Aboveground Storage Tank Lists (AST and UST)	Target and Adjoining Properties	1	4.1.12
State and Tribal Institutional Control/ Engineering Control Registries	Property Only	0	4.1.13
State and Tribal Voluntary Cleanup Sites (VCP)	0.5	0	4.1.14
State and Tribal Brownfields Areas/Sites	0.5	0	4.1.15
Additional Environmental Records			
State Dry-cleaning Facilities (DRYCLEANERS)	0.25	0	4.1.16
State Dry-cleaning Priority Ranking List (PRIORITYCLEANERS)	0.5	0	4.1.17
State Delineated Areas - Ethylene Dibromide (DEDB) Database	0.5	0	4.1.18
Florida Cattle Dip Vat Sites	0.25	0	4.1.19
Unmappable Sites		0	4.1.20

4.1.1 Federal National Priorities List (NPL) and Delisted NPL

The NPL itemizes facilities and/or locations with confirmed environmental contamination. The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. The Delisted NPL identifies sites where no further response has been deemed appropriate.

There were no NPL sites identified within one mile of the subject site and no Delisted NPL sites identified within one-half mile of the subject property.

4.1.2 Federal CERCLIS List/Superfund Enterprise Management System (SEMS)

The U.S. Environmental Protection Agency (USEPA) renamed the CERCLIS list to Superfund Enterprise Management System (SEMS) in 2015. The SEMS contains data on potential hazardous waste sites that have been reported to the

USEPA by states, municipalities, private companies and private persons pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). The SEMS contains sites which are either proposed for inclusion on the National Priorities List (NPL) or are in the screening and assessment phase for possible inclusion on the NPL. A listing in the SEMS does not always indicate the presence of contamination, only that the site is being investigated.

There were no CERCLIS/SEMS sites identified within one-half mile of the subject property.

4.1.3 Federal CERCLIS No Further Remedial Action Planned (NFRAP)

The CERCLIS NFRAP is an identification of those facilities and/or locations which have been removed from the EPA inventory of potential and confirmed hazardous waste sites (CERCLIS sites). This database was created in an effort to help cities, states, private investors and affected citizens promote economic redevelopment.

There were no CERCLIS NFRAP sites identified within one-half mile of the subject property.

4.1.4 Federal Resource Conservation and Recovery Act Information System (RCRA) – CORRACTS Facilities List

The RCRA-CORRACTS list identifies hazardous waste handlers with RCRA corrective action activity.

There were no CORRACTS (corrective action) sites identified within one mile of the subject property.

4.1.5 Federal RCRA – Non-CORRACTS TSD Sites

The RCRA-TSD list identifies facilities and/or locations that are associated with the treating, storing or disposal of hazardous substances or waste. The facilities listed in the TSD list are potential sources of contamination although no release has necessarily been reported at these sites.

There were no Non-CORRACTS TSD (treatment, storage & disposal) sites identified within one-half mile of the subject property.

4.1.6 Federal RCRA – Generator Sites

The RCRA-Generators list identifies facilities and/or locations associated with the handling, storing or transporting hazardous substances or waste. The facilities listed in the RCRA-Generators list are potential sources of contamination although no release has necessarily been reported at these sites.

Neither the subject property nor immediately adjoining properties are identified as RCRA Generator sites in the available radius information.

4.1.7 Federal Institutional Control/Engineering Control Registries

The Institutional Control and Engineering Control Registries are listings of sites with institutional or engineering controls in place. Institutional controls include administrative measures and post remediation care requirements intended to prevent exposure to contaminants remaining on a site. Engineering controls include various forms of caps, building foundations, liners, and treatment methods to create pathway elimination for regulated substances to enter environmental media or effect human health.

The subject property is not identified in association with any Federal institutional and/or engineering controls.

4.1.8 Federal Emergency Response Notification System (ERNS)

The ERNS lists information on releases of petroleum products and hazardous waste. The ERNS list identifies those facilities and/or locations that have been reported to the USEPA under the Emergency Response Notification System because of the release of potentially hazardous material.

The subject property is not identified as an ERNS site.

4.1.9 State Hazardous Waste Sites (SHWS)

The State Hazardous Waste Sites List (SHWS) is the State equivalent to the CERCLIS list. These sites may or may not already be listed on the Federal CERCLIS list.

There were no SHWS sites identified within one-half mile of the subject property.

4.1.10 State Solid Waste/Landfill Facilities (SWF/LF)

The SWF/LF list includes facilities and/or locations identified with the handling or land filling of solid waste. Inclusion of a site on the SWF list does not indicate that contamination has been reported, but rather that there is the potential.

There was one (1) SWF/LF site identified within one-half mile of the subject property. This area (adjoining) SWF/LF listing is reported as follows:

- **Itner Trash Site (aka Apopka Site)**
  2 miles west on SR 437A
  Apopka, Florida 32703
  Adjoining N (down-gradient)
  Facility ID #22044
  Facility Classification: Yard Trash Disposal Facility
  Facility Status: NFA, No Further Action

The Itner Trash Site (aka Apopka Site) listing is reported as yard trash facility that has been closed and given a status of NFA, No Further Action. There is little information available on this facility. The site is not identified in association with any compliance/enforcement or permitting/cleanup documents in public file information gathered from the FDEP Division of Waste Management OCULUS System. Based on the above information, this adjoining SWF/LF listing does not appear significant to the subject site and this assessment at this time.

4.1.11 State Leaking Underground Storage Tanks (LUST)

The State Leaking Underground Storage Tank (LUST) list was screened via the FDEP's Division of Waste Management OCULUS System. The LUST list includes specifically those sites that have reported incidences of leaks or discharges associated with underground storage tanks (USTs).

There was one (1) LUST site identified within one-half mile of the subject property. This area LUST listing is reported as follows:

- **John's, Inc.**
  800 West John's Road
  Apopka, Florida 32703
  Approximately 1,500-feet NE (up-gradient)
  Facility ID #8521649
  Facility Status: Open Fuel User/Non-Retail
  Discharge Cleanup Status: NREQ – Cleanup Not Required 05/29/2001

Based on a review of public file information gathered from the FDEP's Division of Waste Management OCULUS System, the John's, Inc. listing does not appear significant to the subject property and this assessment at this time (potential for discharges associated with this reported listing to have impacted the subject property is low). This determination is based on cleanup status achieved/rendered (NREQ – Cleanup Not Required as of 05/29/2001), the topographic character in the area and agency correspondence reviewed by BTC as part of this assessment.

4.1.12 State and Tribal Registered Storage Tank Lists (AST/UST)

The State and Tribal Registered Storage Tank lists include all facilities and/or locations that are required by Florida Administrative Code (F.A.C.) to register aboveground storage tanks (ASTs) and underground storage tanks (USTs). Inclusion on these lists does not indicate that a release of petroleum product has occurred, but rather that there is the potential for a release. The AST and UST registries were screened via the FDEP's OCULUS System.

The subject property is not identified as an AST/UST site; however, one (1) adjoining property is identified as an AST/UST site. This adjoining property AST/UST listing is reported as follows:

- **Quality Custom Distribution**
  1501 Ocoee Apopka Road
  Apopka, Florida 32703
  Adjoining Property SE (up-gradient)
  Facility ID #9816027
  Facility Status: Open Fuel User/Non-Retail

Based on public file information reviewed by BTC as part of this assessment, the Quality Custom Distribution listing is identified as an open fuel user/non-retail site presently associated with one (1) aboveground storage tank (2,800-gallon unit utilized for emergency generator diesel). Based on available information the aboveground unit was installed in January of 2018. Based on additional public file information reviewed, there appeared to be no issues identified by the operator or the FDEP with regards to this unit since this time. Based on the above information, as well as the lack of any documentation in readily accessible public file records indicating any significant releases associated with this unit, this adjoining AST listing does not appear significant to the subject property and this assessment at this time.

4.1.13 State Institutional Control/Engineering Control Registries

The Institutional Control and Engineering Control Registries are listings of contaminated sites in the State which are subject to institutional or engineering

controls. Institutional controls include administrative measures and post remediation care requirements intended to prevent exposure to contaminants remaining on a site. Engineering controls encompass a variety of engineered remedies to contain and/or reduce contamination, and/or physical barriers intended to limit access to a property.

The subject property is not identified in association with any State institutional and/or engineering controls.

4.1.14 State Voluntary Cleanup Sites (VCP)

The VCP database lists facilities and/or locations that are associated with voluntary cleanup activities.

There were no VCP sites identified within one-half mile of the subject property.

4.1.15 State Brownfields Areas/Sites

Brownfields are defined by the FDEP as abandoned, idled, or underused industrial and commercial facilities where expansion or redevelopment is complicated by real or perceived environmental contamination. The primary goals of Florida's Brownfields Redevelopment Act (Ch. 97-277, Laws of Florida, codified at ss. 376.77-.85, F.S.) are to reduce health and environmental hazards on existing commercial and industrial sites that are abandoned or underused due to these hazards and create financial and regulatory incentives to encourage redevelopment and voluntary cleanup of contaminated properties. A "brownfield area" means a contiguous area of one or more brownfield sites, some of which may not be contaminated, that has been designated as such by a local government resolution. Such areas may include all or portions of community redevelopment areas, enterprise zones, empowerment zones, other such designated economically deprived communities and areas, and USEPA designated brownfield pilot projects.

There were no State Brownfield Areas/Sites identified within one-half mile of the subject property.

4.1.16 State Dry-cleaning Facilities (DRYCLEANERS)

The DRYCLEANERS database includes information about permitted dry cleaner facilities. A listing on the DRYCLEANERS database does not indicate that a release has occurred, but rather that there is the potential for a release.

There were no DRYCLEANERS sites identified within one-quarter mile of the subject property.

4.1.17 State Dry-cleaner Priority Ranking List (PRIORITYCLEANERS)

The PRIORITYCLEANERS database is a listing of all facilities that have applied for a state funded program which aids in the cleanup of properties that are contaminated as a result of the operations of a dry-cleaning facility or wholesale supply facility. A listing on PRIORITYCLEANERS indicates that a release has occurred, although the quantity released may not pose a threat to either the releasing facility or to surrounding properties.

There were no PRIORITYCLEANERS sites identified within one-half mile of the subject property.

4.1.18 State Delineated Areas - Ethylene Dibromide (DEDB) Database

Ethylene Dibromide (EDB) is a carcinogenic compound determined by the USEPA to have the potential to produce adverse health effects from prolonged consumption. EDB was used as a soil fumigant between 1962 and 1983 to control nematodes on citrus groves, golf courses and some other crops such as peanuts and soybean. It also was an additive to leaded gasoline from the 1920s until leaded gasoline was phased out in the 1980s. Subsequently, EDB was identified as a carcinogen and as a groundwater contaminant associated with older leaking underground storage tank sites (LUSTs), as well as with certain historical agricultural lands.

The FDEP now delineates areas of EDB contamination, which are codified under Chapter 62-524, F.A.C. Although EDB sites have been confirmed in twenty-two (22) Florida counties, most of the sites are located in five (5) counties: Highlands, Jackson, Lake, Orange and Polk. The Delineated Areas-Ethylene Dibromide database (DEDB) identifies those locations where the FDEP has delineated a 1000-foot setback zone from a confirmed EDB-contaminated groundwater well or in areas where EDB was historically applied, but for which groundwater quality data is limited. While a review of this database is not required specifically by the ASTM standard, an investigation of this information is considered good commercial and customary practice in Florida, particularly in historic citrus growing areas [or the five (5) aforementioned counties], out to a radius of one-half mile from a subject property.

There were no DEDB test sites identified within one-half mile of the subject property in the available radius information. In order to further assess the potential for EDB to have affected the subject property, a review of FDEP Groundwater Contamination Areas data was conducted. This review identified the subject property as being partially located (northeastern portion of subject property) within a known historical EDB application area, pursuant to Chapter 62-524, F.A.C., New Potable Water Well Permitting in Delineated Areas. This

DEDB site is identified by the FDEP as a Ground Water Contamination Area, Zone #48263145. Responsible parties and property owners are not required to assess or cleanup within established EDB zones. Instead, the Florida Legislature requested the FDEP establish that new potable water wells located within EDB zones are subject to provisions of Chapter 62-524, Florida Administrative Code, which includes specific construction and/or treatment requirements.

4.1.19 Florida Cattle Dip Vat Sites

The State Cattle Dip Vat database lists the known locations of historic cattle dip vats. According to the Florida Department of Health, approximately 3,400 cattle-dipping vats were constructed on private properties throughout Florida from 1906 through 1962. These vats were used in an effort to eradicate cattle fever ticks, and State law required that all cattle, horses, mules, goats, and other susceptible animals be dipped every fourteen (14) days. The vats contained insecticide solutions that were mixed on site and therefore, most were located near a water source. The sites consisted of a concrete trough, typically measuring 30-feet long, 3-feet wide and up to 7-feet deep, with a drip pad at the exit and a drip pen beyond the pad.

It is now known that the solutions used in these cattle-dipping vats are harmful to humans and areas with the vats may have contaminated soils and groundwater in their vicinity. The most significant contaminant of concern at cattle dip vat locations is arsenic, although other potential contaminants include BHC, DDT, DDE and toxaphene. The original State records typically identified vat locations descriptively or by property owner and did not include an address or map location.

Consequently, while eighty-five (85) cattle dip vats are listed as having been constructed in Orange County, only one (1) of them has been mapped in recent years. Hence, properties located in areas with an historic land use of cattle ranching may have or be in close proximity to an historic cattle dip vat.

There were no cattle dip vat sites identified within one-quarter mile of the subject property in the available radius report.

4.1.20 Unmappable Sites

BTC reviewed the EDR Orphan Summary (unmapped sites included in databases) as part of this assessment. Unmappable sites are those for which inadequate location information exists (i.e. no definitive street address, zip code or latitude/longitude data) for a practical review.

Based on the information reviewed, there were no orphan sites listed within close proximity to the subject property.

4.2 Additional Environmental Records Sources

All of the record sources reviewed as part of this assessment were described above. No additional sources were considered in this study.

4.3 Historical Use Information - Subject and Adjoining Properties

4.3.1 Historical Aerial Photographs

The land use history of the subject site and adjoining lands was determined, in part, through analysis of historical aerial photographs dating from 1947 through 2019 (see Appendix C). The aerials were obtained from the Florida Department of Transportation (FDOT) and the University of Florida (Publication of Archival, Library & Museum Materials - PALMM). The purpose of this review was to identify evidence of structures, objects, or disturbances at the site and surrounding areas which may indicate the presence of RECs at the time the aerial photographs were taken. Our observations are summarized below:

1947 Historical Aerial Photograph

The majority of the subject property appears as agricultural lands in use for citrus production at the time of the 1947 historical aerial photograph. Some areas appears undeveloped and covered by natural vegetation or as surface waters at this time. A possible rural, residence is also depicted on the 1947 aerial photograph. There appear to be structures within the eastern and central portions of the largest parcel on the subject site at this time. Adjoining lands appear similar to the subject site (agricultural lands in use for citrus production or undeveloped lands covered by natural vegetation or surface waters) or as rural residential homesites on the 1947 aerial photograph. Located on adjoining lands at this time are roadways within the current Boy Scout Road, South Binion Road and Ocoee Apopka Road rights-of-way.

1954 Historical Aerial Photograph

Except for the conversion of additional areas of the subject site and area lands for citrus production, no significant changes appear on the subject or immediately adjoining properties.

1969 Historical Aerial Photograph

Except for the conversion of additional areas of the subject site and area lands for citrus production, the appearance of a structure within the northwestern portion of the largest parcel, the appearance of a nursery operation on adjoining lands to the north and the appearance of rural homesites on adjoining lands to the north, no significant changes appear on the subject or immediately adjoining properties. There appear to be at least six (6) structures visible within the subject site boundaries at this time, all within the largest parcel.

1974 Historical Aerial Photograph

Except for the appearance of two (2) additional structures within the northwestern portion of the largest parcel, the apparent removal of two (2) structures within the eastern portion of the largest parcel, the expansion of a nursery operation/facility to the north and the appearance of additional rural homesites on adjoining lands to the north, no significant changes appear on the subject or immediately adjoining properties. There appear to be at least six (6) structures visible within the subject site boundaries at this time, all within the largest parcel.

1978 Historical Aerial Photograph

Except for the appearance of three (3) structures within the eastern portion of the site, the apparent removal of one (1) structure within the northwestern portion of the largest parcel, the appearance of a nursery operation/facility on adjoining lands to the west, the continued expansion of a nursery operations to the north and the appearance of additional rural homesites on adjoining lands to the north, no significant changes appear on the subject or immediately adjoining properties. There appear to be at least eight (8) structures visible within the site at this time, all within the largest parcel.

1984 Historical Aerial Photograph

Except for the apparent decline of citrus production on the subject and adjoining properties, the appearance of a structure within the eastern portion of the largest parcel, the appearance of a barn structure on adjoining lands to the south and the appearance of additional rural homesites on adjoining lands to the north, no significant changes appear on the subject or immediately adjoining properties.

1990 Historical Aerial Photograph

Except for the replanting of citrus groves on the subject property and adjoining lands, the expansion of the grove maintenance facility structure within the eastern portion of the site, the appearance of a structure within the central portion of the largest parcel and the conversion of adjoining lands for timber production, no significant changes appear on the subject or immediately adjoining properties. There appear to be at least eight (8) structures visible within the site at this time, all within the largest parcel.

1997 Historical Aerial Photograph

Except for the construction of a residence and another structure within the northern portion of the site, and the removal of a structure within the western portion of the largest parcel, no significant changes appear on the subject or immediately adjoining properties. There appear to be at least nine (9) structures visible within the site at this time, all within the largest parcel.

2002 Historical Aerial Photograph

Except for the excavation of pits within the central and southern portions of the largest parcel, the construction of a dock on the central surface water, the construction of the detached garage and driveway within the northern portion of the site, the construction of a structure within the southern portion and the removal of four (4) structures within the central, northern, eastern and western portions of the largest parcel, no significant changes appear on the subject lands. The excavation noted on the site appears to be associated with borrow operations related to nearby roadway construction. There appear to be at least seven (7) structures visible within the site at this time, all within the largest parcel. Changes noted on adjoining lands by this time include the appearance of a nursery operation on adjoining lands to the southwest and the construction of the toll road right-of-way on lands to the east (State Road 451).

2006 Historical Aerial Photograph

Except for the clearing of lands and commencement of construction for a residential development on adjoining lands to the northeast, and the clearing of adjoining lands to the east for future development, no significant changes appear on the subject or immediately adjoining properties.

2010 Historical Aerial Photograph

Except for the planting of pine trees within the above noted southern excavated area and a portion of the northern parcel, no significant changes appear on the subject property. Changes noted on adjoining lands by this time include the continuation of construction for the residential development on adjoining lands to the northeast, the construction of warehouses on adjoining lands to the east and the construction of stormwater management ponds on adjoining lands to the south and west.

2014 Historical Aerial Photograph

Except for the construction of the equipment storage barn, equine stables and kitchen/dining structure within the southeastern portion of the largest parcel, no significant changes appear on the subject property. There appear to be at least ten (10) structures visible within the site at this time, all within the largest parcel. Changes noted on adjoining lands by this time include the continuation of construction of the residential development on adjoining lands to the northeast and the construction of the State Road 414 and State Road 429 rights-of-way on adjoining lands to the south and west.

2017 Historical Aerial Photograph

Except for the completion of construction of the residential development on adjoining lands to the northeast, the construction of additional warehouses on adjoining lands to the east and the commencement of construction of a hospital campus/facility on adjoining lands to the south, no significant changes appear on the subject or immediately adjoining properties.

2019 Historical Aerial Photograph

Except for the completion of construction of the hospital campus/facility on adjoining lands to the south, no significant changes appear on the subject or immediately adjoining properties.

4.3.2 Historical Sanborn Maps

Sanborn Fire Insurance Maps were produced for the fire insurance industry from 1876 through 1961, with photo revisions continuing until 1975. These maps show buildings and their associated land uses down to parcel and lot within many U.S. towns and cities (mostly concentrated to urbanized areas). Therefore, these fire maps can be very useful in identifying potential environmental concerns associated with past land uses during periods prior to and overlapping with, the advent of aerial photography.

A search for Sanborn Fire Insurance Maps for the location in which the subject property is situated was not conducted, as it is known by BTC that this is an unmapped area.

4.3.3 Historical City Directory Information

Based on the positive identification of past uses of the subject property identified through interviews and review of historical aerial photographs (agricultural uses for citrus production, timber production and pasturelands, residential uses and for borrow pit operation), a search of available city directories was not conducted as part of this assessment.

4.3.4 Historical Topographic Maps

Based on historical topographic maps reviewed, it appears that five (5) landmark structures existed on the subject site at the time of the publication for 1960 and eight (8) landmark structures existed on the subject site at the time of the publication for 1980. Multiple roadways/trails and groves (citrus) are also depicted in association with the majority of the lands on these publications.

4.4 Physical Setting Characteristics

Based upon a review of the USGS Topographic Map presented in Figure 3 (Apopka, Florida Quadrangle – 1960/Photorevised 1980), the northern, eastern and western portion of the site appear to be associated with hilltop areas and/or higher positions on the site. Elevations associated with these higher position areas appear to be near +120 feet above the National Geodetic Vertical Datum of 1929 (NGVD) at the southwestern portion of the parcel, and near +105 feet NGVD on the northern, eastern and western portions of the site. The lowest lying areas within the site boundaries occur below +70 feet NGVD. These areas, associated with Lake Fuller and Lake Semmes, occur on the northern, northeastern, southern and central portions of the property. In general, it would appear that the subject parcel slopes from higher areas in the southwest, north, east and west to the north, northeast, south, in the direction of the northern, northeastern and central portions of the property, towards areas associated with Lake Fuller and Lake Semmes.

4.4.1 Stormwater Drainage

It appears that run-off from the subject property drains from higher elevations existing on the property, occurring on the northern, southeastern and southwestern portions of the property, in the direction of on- and off-site wetland/surface water systems know as Lake Fuller and Lake Semmes. Due to the relief which exists in the vicinity of the subject property, as well as physical and stormwater management features present in the area, off-site run-off likely enters the site from the immediate southeast and south.

4.4.2 Groundwater

The groundwater hydrology of Central Florida can be described in terms of the nature and relationship of three basic aquifers – the surficial-, the intermediate-, and the Floridan aquifers.

The surficial aquifer is highly permeable and includes the local water table. In general, the sands of the surficial aquifer extend to depths of 40 to 70 feet. The surficial aquifer sits atop the much less permeable intermediate aquifer, consisting of the Hawthorn Group and various confining beds. The Hawthorn Group is characterized by low permeability clays and ranges in thickness from nearly absent in some locations to greater than 100 feet. Beneath this intermediate aquifer is the Floridan Aquifer, consisting of a limestone formation, which may be several thousand feet thick at various locations. The limestone formation, which is the primary source of drinking water in Central Florida, is highly permeable due to the presence of large interconnected channels and cavities throughout the rock. The amount of groundwater flow between the surficial and Floridan aquifers is dependent on the thickness and consistency of the Hawthorn clay confining beds, which as previously stated varies widely throughout Central Florida.

Although no test borings were performed by BTC during the assessment of the property, the following presents a general description of the expected hydrogeology in the vicinity of the subject property:

Groundwater in the immediate vicinity of the subject property is assumed to follow, more-or-less, ground surface topography. Based solely on the topographic information presented in Figure 3, it is inferred that the majority of the shallow groundwater in the vicinity of the subject property flows in the direction of area lake systems occurring within the site boundaries, as well as just north and east of the property (Lake Fuller and Lake Semmes). A smaller amount of the shallow groundwater would appear to flow to the southwest. Due to the relief which exists in the vicinity of the subject property, it appears off-site

groundwater could likely enter the site from immediately adjoining areas to the southeast and south.

Based on the above assumptions, and information provided by EDR and the FDEP, there appears to be one (1) item of note regarding potential contamination in the area. As noted in Section 4.1.18, a review of FDEP Groundwater Contamination Areas data identified the subject property as being partially located within a known historical EDB application area, pursuant to Chapter 62-524, F.A.C., New Potable Water Well Permitting in Delineated Areas.

SECTION 5.0
SITE RECONNAISSANCE

Inspection of the subject and adjoining properties was performed on October 30, 2019. The objective of this site visit was to visually/physically identify RECs in connection with the subject property. Photographs documenting conditions found at the subject and adjoining properties on this date are included as Appendix D. Our observations and findings resulting from the reconnaissance are provided below.

5.1 Methodology and Limiting Conditions

The site visit included a vehicular and pedestrian inspection of the subject property and visual observations of adjacent properties. The properties were investigated for any evidence of the following items as part of the assessment:

- **Hazardous Substance in Connection with Identified Uses**
- **Hazardous and Unidentified Substance Containers**
- **Storage Tanks**
- **Indication of PCBs**
- **Indication of Solid Waste Disposal**
- **Stained Soils or Pavement**
- **Stressed Vegetation**
- **Odors**
- **Pools of Liquid**
- **Domestic/Sanitary Waste Handling**
- **Ponds, Lagoons or Pits**
- **Wells**

Except for the interiors of two (2) occupied residences, a detached garage and three (3) ancillary structures, all areas located within the subject property boundaries were accessible allowing a full and complete investigation of the site as described herein.

5.2 General Site Setting

5.2.1 General Exterior Observations

The site investigation began with an inspection of the subject property and boundaries and continued with a pedestrian survey of the adjoining properties. A vehicle survey was conducted of facilities of interest from the EDR Radius Map Report. Access to the site was gained via Boy Scout Road, which exists between the subject property boundaries.

At the time of the site investigation the subject property appeared as active agricultural lands in use for citrus and timber production, along with active rural, residential uses. The subject property consisted of four (4) plots of land separated by area rights-of-way (Boy Scout Road, Galway Boulevard and the Western Beltway). The lands consisted of a large, centrally located parcel, two (2) smaller parcels to the north and northeast and a small parcel to the southwest. The majority of the site was in use for citrus production at the time of the assessment (Photos #1 through #4). Lands used for timber production were observed within largest parcel (southern portion) and the northern parcel, along with a small area of pasturelands (southeast portion) and open/forested lands with no identifiable use (western, southwestern and southern portions) (Photos #5 through #8). Wetlands/surface waters existed within the northwestern, northeastern, central and southern portions of the site (Photos #9 and #10). Two active (2) residential homesites were noted within the northern and eastern portions of the largest parcel. In addition, an abandoned homesite was observed within the southern portion of the largest parcel. The largest parcel also included a maintenance area at its eastern extent, and a barn and recreational area on its central and southern portions. Structures identified within the subject property included three (3) single-family residences, one (1) grove maintenance garage, one (1) equipment storage barn, one (1) equine stable, one (1) kitchen/dining structure, one (1) detached garage and five (5) ancillary structures (Photos #11 through #39). Other improvements noted on the site at the time of the assessment included reclaimed water irrigation infrastructure, grove irrigation equipment, six (6) water wells (agricultural and residential use), three (3) septic systems, a dock, fencing, landscaping, electrical power line transmission poles and concrete, gravel and primitive trails/access roads. There were no observations of past releases, ongoing discharges and/or significant threats of releases to the environment identified in association with the current uses of the exterior portions of the subject property during the investigation conducted.

5.2.2 General Interior Observations

Structures identified on the subject property during the investigation conducted included three (3) single-family residences, one (1) grove maintenance garage, one (1) equipment storage barn, one (1) equine stables, one (1) kitchen/dining structure, one (1) detached garage and five (5) ancillary structures (Photos #11 through #39). Of the structures noted on the site, the interiors of one (1) single-family residence, the grove maintenance garage, the equipment storage barn, the equine stable, the kitchen/dining structure and two (2) of the ancillary structures were observed (see Photos #17, #18, #20, #21, #22, #24, #25, #26, #28, #30, #31, #32, #35 and #39). With regards to the interiors of the structures noted, except for the interior of the grove maintenance garage, there were no items of note or issues of concern to this assessment identified. With regards to the interior of the grove

maintenance garage, a chemical storage area was observed (see Section 5.8 below for more information). With regards to the interiors of the structures not observed, it is assumed that these interiors would be typical for occupied single-family residences, a detached residential use garage and residential ancillary use structures and there should be no issues of concern to this assessment.

5.3 Hazardous Substance in Connection with Identified Uses

Hazardous and potentially hazardous substances (agrochemicals and petroleum containing materials) that appeared to be in use for grove operations and equipment maintenance were observed within the grove maintenance garage and equipment storage barn on the site (eastern and central portions of central parcel), as well as within a boneyard area for old equipment that exists on the northeastern portion of central parcel (Photos #40 through #45). Hazard substances observed included new and used petroleum containing materials (motor oils, hydraulic fluids, lubricants, etc.), herbicides, insecticides, fungicides and fertilizers. With regards to the hazardous and potentially hazardous substances noted, they appeared to be properly stored/managed in an orderly manner with no significant visual signs of mishandling or significant releases in their vicinities during the investigation conducted.

5.4 Hazardous and Unidentified Substance Containers

Potentially hazardous and unidentified substance containers were identified in areas of the site associated with grove and vehicle maintenance activities. These included the on-site grove maintenance garage, equipment storage barn and the above noted boneyard area for old equipment (as noted above in Section 5.3 - see Photos #40 through #45). Hazardous substances containers observed included full, partially full and empty containers of new and used petroleum containing products (motor oils, hydraulic fluids, lubricants, etc.), herbicides, insecticides, fungicides and fertilizers. As noted above, the hazardous and potentially hazardous substances noted appeared to be properly stored/managed in an orderly manner with no significant visual signs of mishandling or significant releases in their vicinities during the investigation conducted.

5.5 Storage Tanks

Except for a portable AST used for diesel fuel that was observed within the on-site grove maintenance/operations area (Photo #46), a few tractor-towed citrus oil spreaders observed within the equipment storage barn (Photo #47), pressure tanks and filter systems associated with the residential wells (Photo #48) and abandoned portable ASTs situated within the boneyard area of retired equipment (Photos #49 and #50), there were no aboveground storage tanks or evidence of underground storage tanks identified on the subject site during the investigation conducted. With regards to the ASTs noted, there were no issues of concern to this assessment identified.

5.6 Indication of PCBs

Polychlorinated biphenyls have been used in power transformers and capacitors due to their excellent heat exchange and dielectric properties. However, this group of compounds was determined to be carcinogenic and their production was banned in the US in 1979. Consequently, distribution of transformers containing PCBs was phased out in the 1980s. Other potential sources of PCBs include older hydraulic machinery (such as are associated with elevators and lift equipment). Although PCB-type transformers and hydraulic components have been replaced in the time since, an unknown number have been allowed to stay in service for the duration of their life-cycles.

Eight (8) utility-pole-mounted electrical transformers (Photos #51 through #54) were observed within the subject property. Four (4) transformers appeared newer (i.e. no discoloration or rust) and were stamped "NON PCB" on the units, while the other four (4) appeared older. None of the units observed appeared to be leaking or compromised in any way. No other potential sources of PCBs were identified on the subject property during the investigation conducted.

5.7 Indication of Solid Waste Disposal

Other than minor amounts of household debris located within the vicinity of the abandoned residence on the property (Photos #55 and #56), there were no indications of solid waste disposal observed on the subject site during the investigation conducted. With regards to the debris noted, there were no issues of concern to this assessment identified.

5.8 Stained Soils or Pavement

There were no indications of stained soils; however, there were areas of stained concrete/pavement identified within the grove maintenance garage on the subject property during the investigation conducted (Photos #57 and #58). Petroleum stained concrete was identified within multiple areas inside the garage. While this is the case, the concrete pavement within this structure appeared intact, suggesting a low potential for materials to have released to the area soils. With regards to the staining noted, this is a general house-keeping issue and would be considered *di minimis* with regards to this assessment at this time.

5.9 Stressed Vegetation

There were no indications of stressed vegetation identified on the subject site during the investigation.

5.10 Odors

There were no unusual odors identified on the subject site during the investigation.

5.11 Pools of Liquid

There were no pools of liquid observed on the subject site during the investigation.

5.12 Domestic/Sanitary Waste Handling

Based on interviews and observations during the site visit, it appeared that domestic/sanitary wastes were being generated by the two (2) occupied residences on the subject property. Based on further observations and information provided by the owners, these wastes appeared to be handled via residential septic systems. A third septic system was also discovered in association with the abandoned residence on the property (Photo #59). Based on the assumed residential only uses of the septic systems, there were no issues of concern to this assessment identified.

5.13 Ponds, Lagoons and Pits

Other than natural wetlands/surface waters located within the northwestern, northeastern, central and southern portions of the subject property (see Photos #9 and #10), there were no ponds, lagoons or pits identified on the subject site during the investigation conducted. With regards to the wetlands/surface waters noted, there were no issues of concern to this assessment identified.

5.14 Wells

There were six (6) wells in total, four (4) agricultural wells and two (2) residential wells, identified on the subject property during the investigation conducted (see Photos #48 and #60 through #65). The two (2) agricultural wells located within the citrus groves were electrically powered, had never had tanks associated with them according to the owners and had not been used since reclaimed water was brought to the site sometime in the 1980s. The third agricultural well (located within the pine planation) was discovered during fill dirt excavation of the area, and after digging out all the dirt, the exposed well casing was cut just above grade with a cover welded on. The two (2) residential wells are associated with the active residences and are currently in use. There may be an additional residential wells associated with the abandoned residence, but none were not located at the time of the on-site assessment. With regards to the wells noted, there were no issues of concern to this assessment identified.

5.15 Adjoining Property Observations

In general, the subject site is situated in a former agricultural use area, including rural homesites, which is currently in transition for larger scale residential development. Historically the area appears to have been comprised mostly of lands associated with agricultural use for citrus crop production, undeveloped naturally vegetated uplands and wetlands, and rural residential homesites from prior to 1947 through the 1970s. Subsequent to the 1970s, it appears that some lands dedicated to citrus crop production were converted for timber production and pastureland uses. Additional residential uses appeared in the area during this time as well. In the early 2000s, State Road 451 was constructed in the area to the east, followed by larger scale residential developments to the north and southeast. In the early 2010s, State Road 429 (Western Beltway) was constructed to the west and south, followed by commercial development to the east.

Currently adjoining the subject property are lands associated with a residential subdivision (Breckenridge - northeast), lands associated with occupied and vacant single-family homesites (north and northwest – Photos #66 and #67), commercial lands associated with occupied and vacant warehouse distribution facilities (Northwest Distribution Center and Quality Custom Distribution - east and southeast – Photos #68 and #69), lands associated with a hospital campus/facility (Adventist Health System/Sunbelt, Inc. - south beyond right-of-way – Photo #70), agricultural lands associated with a container plant nursery (Hooper's Landscape Nursery, Inc. - southwest – Photo #71), former agricultural lands last used for citrus production (west), open/forested lands with no identifiable use evident (south, southeast and northwest) and the Boy Scout Road (between parcels – Photo #72), Galway Boulevard (between parcels – Photo #73), South Binion Road (west – Photo #74), Ocoee Apopka Road (east – Photo #75), State Road 429 (southwest – Photo #76) and State Road 414 (south) rights-of-way and associated interchanges and stormwater management ponds. No significant issues of concern to this assessment were observed in association with any of the adjoining properties during the site visit conducted as part of this site assessment.

SECTION 6.0
INTERVIEWS

The objective of interviews conducted in order to comply with ASTM E 1527-13 is to obtain information indicating RECs in connection with the subject site. In addition to the user of the Phase I ESA and present owner of the site, BTC makes reasonable attempts to conduct interviews with parties it believes could provide useful information regarding potential RECs. Parties to be interviewed are determined based on the past/present uses identified and their availability for interview within reasonable timeframes. Parties such as occupants, site managers, local government officials and past owners are interviewed, when possible, based on their potential to provide relevant information. Documentation of any such interviews conducted by BTC is included in Appendix A. A summary of this information is presented below.

6.1 Interview with Owners

At the present time, the owners of the subject lands include Binion Partners, LLC, John and Donna Marie Robertson Kirkland, Troy S. Bronson Family LP, Ruth Ina Bronson Trust ½ Interest and Troy S Bronson Trust ½ Interest, Emma G. Kazaros Trust and Daryl M. Carter Trust. BTC made contact with representatives for all the owners as part of this Phase I ESA. Based on information obtained via owner questionnaires (see Appendix A), as well as public records and historical aerials reviewed, it appears that the current owners have been associated with the property for approximately 17 years, 22 years, 43 years, 43 years, 58 years and 20 years, respectively and have used the property for agricultural purposes for citrus production, timber production and pasture, rural, residential uses and borrow operations (sand mining) during this time. According to the owner representatives, the only known past uses of the site were for citrus production. Based on our review of historical aerial photographs dating back to 1947, this appears to be the case.

Based on additional responses to the owner questionnaires, the current owners have no knowledge of any past or present storage tanks on the parcel (except for one aboveground tank [portable] located at the barn – see Section 5.5), any past or present chemical use or storage on the site, or any cattle dip vats that existed on the property. While this is the case, it should be noted that BTC observed a stocked chemical shed within the on-site maintenance barn at the time of the assessment (see Sections 5.3 and 5.4). The owners stated having no knowledge of any spills or chemical releases that have taken place at the site or any environmental cleanups that have occurred on the property. In addition, the owners have no knowledge of any environmental liens and/or AULs associated with the site. Further, the current owners have never been informed by any nearby property owners or the FDEP about groundwater contamination that may be migrating onto the property from off-site sources based on the completed questionnaire.

Along with the owner questionnaire, an onsite interview was conducted on October 30, 2019 with Mr. John Kirkland (grove employee since 1979 and owner of a portion of the subject property for 22 years). Mr. Kirkland noted the location of the maintenance area, barn, equipment storage areas, wells and residences. He explained that the central surface water and the pine plantation to the south were both excavation areas for fill dirt utilized in the construction of the State Road 429 right-of-way. He noted that the two (2) grove wells were electric and had never had tanks associated with them and that they had not been used since reclaimed water was brought to the groves in the 1980s. A third agricultural well (located within the pine planation) was discovered during fill dirt excavation and that after digging out all the dirt, the exposed well casing was cut just above grade and a cover welded on. He noted that there had never been any underground tanks on the site and that the only aboveground tanks were used for chemical sprayers, clean water or diesel fuel, and all were portable. Also mentioned during the interview/site overview was that the main agent sprayed on the citrus trees was a light oil and water mixture that was used to treat various mites.

6.2 Interviews with Past Owners

Interviews with past owners were not conducted as part of this assessment. Based on the past uses of the site identified through the course of this investigation (agricultural uses for citrus production, timber production and pasturelands, residential uses and for borrow pit operation) and the length of time associated with the current ownerships, interviews with past owners were not considered necessary as part of this investigation. The absence of past owner provided information does not appear to significantly affect the ability of BTC to identify RECs in connection with the site due to the availability of relevant information from other sources.

6.3 Interviews with Local Governmental Officials

Interviews with local governmental officials were not conducted as part of this assessment. Based on the past uses of the site identified through the course of this investigation (agricultural uses for citrus production, timber production and pasturelands, residential uses and for borrow pit operation), interviews with local governmental officials were not considered necessary as part of this investigation. The absence of local governmental officials provided information does not appear to significantly affect the ability of BTC to identify RECs in connection with the site due to the availability of relevant information from other sources.

6.4 Interviews with Others

Based on information obtained and assumed by BTC through the course of this investigation, additional interviews were not performed or considered necessary for this assessment.

SECTION 7.0
FINDINGS, OPINIONS, DATA GAPS AND CONCLUSIONS

The following summarizes the findings, opinions and conclusions representing BTC's best professional judgment based on information and data available to us during the course of this assessment. Included in this section are a list of data gaps encountered, as well as a summary of both our findings and of potential RECs, whether historical (HREC), controlled (CREC) or recognized (REC), and *de minimis* conditions.

7.1 Findings

The following summarizes the findings representing BTC's best professional judgment based on information and data available to us during the course of this assessment.

In general, the subject site is situated in a former agricultural use area, including rural homesites, which is currently in transition for larger scale residential development. Historically the area appears to have been comprised mostly of lands associated with agricultural use for citrus crop production, undeveloped naturally vegetated uplands and wetlands, and rural residential homesites from prior to 1947 through the 1970s. Subsequent to the 1970s, it appears that some lands dedicated to citrus crop production were converted for timber production and pastureland uses. Additional residential uses appeared in the area during this time as well. In the early 2000s, State Road 451 was constructed in the area to the east, followed by larger scale residential developments to the north and southeast. In the early 2010s, State Road 429 (Western Beltway) was constructed to the west and south, followed by commercial development to the east. At the time of the site investigation the subject property appeared as active agricultural lands in use for citrus and timber production, along with active rural, residential uses. The subject property consisted of four (4) plots of land separated by area rights-of-way (Boy Scout Road, Galway Boulevard and the Western Beltway). The lands consisted of a large, centrally located parcel, two (2) smaller parcels to the north and northeast and a small parcel to the southwest. The majority of the site was in use for citrus production at the time of the assessment. Lands used for timber production were observed within largest parcel (southern portion) and the northern parcel, along with a small area of pasturelands (southeast portion) and open/forested lands with no identifiable use (western, southwestern and southern portions). Wetlands/surface waters existed within the northwestern, northeastern, central and southern portions of the site. Two active (2) residential homesites were noted within the northern and eastern portions of the largest parcel. In addition, an abandoned homesite was observed within the southern portion of the largest parcel. The largest parcel also included a maintenance area at its eastern extent, and a barn and recreational area on its central and southern portions. Structures identified within the subject property included three (3) single-family residences, one (1) grove maintenance garage, one (1) equipment storage barn, one (1) equine stable, one (1) kitchen/dining structure, one (1) detached garage and five (5) ancillary structures. Other

improvements noted on the site at the time of the assessment included reclaimed water irrigation infrastructure, grove irrigation equipment, six (6) water wells (agricultural and residential use), three (3) septic systems, a dock, fencing, landscaping, electrical power line transmission poles and concrete, gravel and primitive trails/access roads. Currently adjoining the subject property are lands associated with a residential subdivision (Breckenridge - northeast), lands associated with occupied and vacant single-family homesites (north and northwest), commercial lands associated with occupied and vacant warehouse distribution facilities (Northwest Distribution Center and Quality Custom Distribution - east and southeast), lands associated with a hospital campus/facility (Adventist Health System/Sunbelt, Inc. - south beyond right-of-way), agricultural lands associated with a container plant nursery operation (Hooper's Landscape Nursery, Inc. - southwest), former agricultural lands last used for citrus production (west), open/forested lands with no identifiable use evident (south, southeast and northwest) and the Boy Scout Road (between parcels), Galway Boulevard (between parcels), South Binion Road (west), Ocoee Apopka Road (east), State Road 429 (southwest) and State Road 414 (south) rights-of-way and associated interchanges and stormwater management ponds. There were no notable visual observations of releases or other significant issues of concern to this assessment identified in association with the current uses of the subject property or immediately adjoining lands during the investigation conducted.

Based on interviews conducted, as well as a review of historical aerial photographs dating back to 1947, it appears that uses of the site have been limited to agricultural for citrus production, timber production and pasturelands, residential and industrial for borrow operations. Historical aerial review dating back to 1947 indicates that adjoining lands were, for the most part, associated with agricultural use for citrus crop production, undeveloped naturally vegetated uplands and wetlands, and rural residential homesites from prior to 1947 through the 1970s. Subsequent to the 1970s, it appears that some lands dedicated to citrus crop production were converted for timber production and pastureland uses. Additional residential uses appeared in the area during this time as well. In the early 2000s, State Road 451 was constructed in the area to the east, followed by larger scale residential developments to the north and southeast. In the early 2010s, State Road 429 (Western Beltway) was constructed to the west and south, followed by commercial development to the east. At the present time, the general area is a mixture of rural, residential and larger-scale residential development uses, commercial uses, agricultural uses for citrus production, pastureland, plant nurseries and pine plantations and area roadways. No heavy industrial uses on the properties immediately adjoining the subject site were identified on the available aerial photographs reviewed. In addition, there were no items of note or issues of concern to this assessment identified in association with the past uses of the subject property or immediately adjoining lands during the investigation.

A review of standard and additional Federal and State environmental records revealed one (1) adjoining SWF/LF listing (Itner Trash Site [aka Apopka Site]), one (1) area LUST listing (John's, Inc.) and one (1) area AST listing (Quality Custom Distribution) within radii of the subject site that were deemed appropriate for the area conditions.

7.2 Opinions

The following presents BTC opinion(s) of the data gaps encountered, as well as the impact on the subject property of conditions identified in Section 7.1 (Findings). This section details BTC's logic and reasoning in evaluating information collected during the course of investigation. Frequently, items initially considered to be a REC are subsequently determined, upon further evaluation, to not be considered a REC.

A review of standard and additional Federal and State environmental records revealed one (1) adjoining SWF/LF listing (Itner Trash Site [aka Apopka Site]), one (1) area LUST listing (John's, Inc.) and one (1) area AST listing (Quality Custom Distribution) within radii of the subject site that were deemed appropriate for the area conditions; however, these listings do not appear significant to the subject site and this assessment at this time based on public file information reviewed. While this is the case, it should be noted by the user that a moderate amount of hazardous and potentially hazardous substances (agrochemicals and petroleum containing materials) appeared to be in use at the site in association with for grove operations and equipment maintenance during the on-site assessment. These materials were observed within the grove maintenance garage and equipment storage barn on the site, as well as within a boneyard area for old equipment that exists on the property. Potentially hazard substances observed included new and used petroleum containing materials (motor oils, hydraulic fluids, lubricants, etc.), herbicides, insecticides, fungicides and fertilizers. With regards to the materials noted, they appeared to be properly stored/managed in an orderly manner with no significant visual signs of mishandling or significant releases in their vicinities during the investigation conducted.

Based on the above findings and opinions, this assessment revealed no RECs, no CRECs and no HRECs in connection with the subject property or adjoining properties that would warrant further investigation at this time. While this is the case, the user of this assessment should be aware of the following non-REC items (Business Environmental Risks, defined in ASTM E1527-13) prior to completing a commercial real estate transaction involving the property:

- Historical Agricultural Use–Current and past use of the subject property for agricultural purposes for citrus crop production over multiple decades

Through the review of historical record sources, particularly aerials dating in the period 1947 through 2019, portions of the uplands associated with the site were planted in citrus.

This current and past use is being noted due to the assumed ubiquitous use of controlled substances (pesticides, herbicides and fertilizers) commonly used in this type of operation, as well as the long time use of the lands for this purpose. It is important to note that the legal application (i.e., in accordance with manufacturer's specifications and customary practices) of such substances, in the course of standard operational practices does not constitute a "release to the environment" by definition. Structures were identified within the central portion of the site and wells/irrigation equipment were identified within the northern, central, southern and western portions the subject property through historic aerials and the on-site investigation that could represent potential agricultural chemical mixing/storage areas or areas where petroleum products may have been stored/handled. However, no reasonably ascertainable information was obtained during the course of our assessment, including historical records review, site reconnaissance observations, and regulatory record reviews, indicating that a past release had occurred on the site. Therefore, the mere presence of this current and historical land use does not meet the definition of a REC.

- Portion of subject property located within one of several FDEP delineated Groundwater Contamination Area Zones in Orange County, based on a potential for EDB contamination

Based on the location of the subject property and a noted past use of the site for citrus production, BTC reviewed the FDEP's Groundwater Contamination Areas database to assess the potential for EDB to have affected the groundwater in the area. The reviewed information identified the subject property as being partially located (northeastern portion of the subject property) within one of several zones associated with a known area of DEDB groundwater contamination, an associated 1000-foot DEDB contamination setback area or a known historical DEDB application area where data is limited, pursuant to Chapter 62-524, F.A.C., New Potable Water Well Permitting in Delineated Areas. This area EDB site is identified by the FDEP as Zone #48263145. Such locations are subject to restrictions against any additional development of groundwater wells for the purposes of providing potable water. No direct evidence was encountered during the course of this investigation that EDB impacts to groundwater have been identified within the site boundaries or on immediately adjoining properties, and therefore no REC is identified. However, the user should be aware of the position of the site within an apparent EDB "setback area" area when considering property development activities.

7.3 Data Gaps

The following data gaps were encountered by BTC during the course of the Phase I ESA:

- Historical ownership (chain-of-title) information was not provided to BTC by the user of this assessment. The absence of historic ownership information does not appear to significantly affect the ability of BTC to identify RECs in connection with the subject property due to the availability of relevant information from other sources. Based on

a review of available historical aerial photographs (dating from 1947 through 2019), as well as information gathered via interviews and during our site visit, it appears that past/present owners of the subject lands, to at least the mid-1940s, have used the property for agricultural purposes for citrus and timber production and pasture, rural residential purposes and as a borrow site/pit for area roadway construction. Based on this information, it appears that no past owners of the subject lands represented entities of heavy industrial, chemical production, or waste disposal repositories.

- Interviews with past owners were not conducted as part of this assessment. Based on the past uses of the site identified through the course of this investigation (agricultural uses for citrus production, timber production and pasturelands, residential uses and for borrow pit operation) and the length of time associated with the some of the current owners, interviews with past owners were not considered necessary as part of this investigation. The absence of past owner provided information does not appear to significantly affect the ability of BTC to identify RECs in connection with the site due to the availability of relevant information from other sources.

- As required by ASTM E 1527-13 (8.3.2), a definitive identification of obvious uses of the subject property from the present back to the property's first developed use, or back to 1940, whichever is earlier, was not achievable during the course of this assessment. This was due to the availability of reasonably ascertainable standard historical sources for the area (historical aerial photographs, historical topographic maps, Sanborn Fire Insurance Maps, property tax files, land title records, local street directories, etc...). Our review of available historical resources only identified information for the site and immediate area dating back to 1947, at which time the subject property appeared in use for citrus production and possible rural, residential uses. It was assumed by the environmental professional that the noted uses of the site for citrus production and rural, residential purposes were the first "developed" uses based on limited local knowledge. Based on this, and in the opinion of the environmental professional, this data gap does not constitute a data failure with regards to this assessment.

7.4 Conclusions

BTC has performed a Phase I ESA, in general conformance with the scope and limitations of ASTM Practice E 1527-13, of the 15 parcels, identified by Orange County as #17-21-28-0000-00-015, #17-21-28-0000-00-030, #18-21-28-0000-00-014, #18-21-28-0000-00-013, #17-21-28-0000-00-007, #17-21-28-0000-00-028, #18-21-28-0000-00-073, #18-21-28-0000-00-032, #17-21-28-0000-00-008, #17-21-28-0000-00-017, #17-21-28-0000-00-018, #17-21-28-0000-00-023, #17-21-28-0000-00-012, #17-21-28-0000-00-006 and #17-21-28-0000-00-010, which comprise the approximately 372.5-acre Bronson Apopka Site, the subject property. Any exceptions to, or deletions from, this practice are described in Section 2.8 of this report. This assessment has revealed no RECs, no CRECs and no HRECs in association with the subject property.

SECTION 8.0
QUALIFICATIONS OF ENVIRONMENTAL PROFESSIONALS

I declare that, to the best of my professional knowledge and belief, I meet the definition of Environmental Professional as defined in §312.10 of 40 CFR §312 (see Appendix E).

and

I have specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject site. I have developed and performed the all appropriate inquiries in general conformance with the standards and practices set forth in 40 CFR Part 312.

Bill Keenan
Project Manager
INSTEP-LEP #381

Joseph Galletti
Vice President
INSTEP-LEP #123/NREP-REPA #5898

SECTION 9.0
ADDITIONAL SERVICES

No additional services, outside the scope of ASTM International's Standard Practice E 1527-13, were requested by the user of this assessment.

PHASE I ESA USER QUESTIONNAIRE
Bronson Apopka Site
Apopka, Orange County, Florida
Parcel IDs #17-21-28-0000-00-015, #17-21-28-0000-00-030, #18-21-28-0000-00-014, #18-21-28-0000-00-013, #17-21-28-0000-00-007, #17-21-28-0000-00-028, #18-21-28-0000-00-073, #18-21-28-0000-00-032, #17-21-28-0000-00-008, #20-21-28-0000-00-006, #20-21-28-0000-00-005, #17-21-28-0000-00-017, #17-21-28-0000-00-018, #17-21-28-0000-00-023 and #17-21-28-0000-00-012
1920, 1901 and 1516 Boy Scout Road, 1209, 1251 and 1403 South Binion Road, 1400 Ocoee-Apopka Road, 1900 Emery Road and 1819 Harmon Road
Apopka, Florida 32703
October 2019

In order to qualify for one of *the Landowner Liability Protections* (LLPs) offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001 (the "*Brownfields Amendments*"), the user must conduct the following inquiries required by 40 CFR 312.25, 312.26, 312.28, 312.29, 312.30, and 312.31. These inquires must also be conducted by EPA Brownfield Assessment and Characterization grantees. The *user* should provide the following information to the *environmental professional*. Failure to conduct these inquiries could result in a determination that "*all appropriate inquiries*" is not complete.

User of Phase I ESA: **Centerline Capital Advisors**

(1.) Environmental cleanup liens that are filed or recorded against the property (40 CFR 312.25).
Are you aware of any environmental cleanup liens against the property that are filed or recorded under federal, tribal, state or local law? If so, please provide any available documentation.

NONE

(2.) Activity and land use limitations that are in place on the site or that have been filed or recorded in a registry (40 CFR 312.26).
Are you aware of any AULs, such as engineering controls, land use restrictions or institutional controls that are in place at the site and/or have been filed or recorded in a registry under federal, tribal, state or local law? If so, please provide any available documentation.

NONE

(3.) Specialized knowledge or experience of the entity seeking to qualify for the LLP (40 CFR 312.28).
As the user of this ESA, do you have any specialized knowledge or experience related to the property or of nearby properties? For example, are you involved in the same line of business as the current or former occupants of the property or an adjoining property so that you would have specialized knowledge of any chemicals and/or processes used with this type of property?

NO

(4.) Relationship of the purchase price to the fair market value of the property if it were not contaminated (40 CFR 312.29).
Does the purchase price being paid for the property reasonably reflect the fair market value of the property? If you conclude that there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present at the property?

YES

(5.) Commonly known or reasonably ascertainable information about the property (40 CFR 312.30).
Are you aware of commonly known or reasonably ascertainable information about the property that would help identify conditions indicative of releases or threatened releases? For example,

(a) Do you know the past uses of the property?

YES
CITRUS AGRICULTURE

(b) Do you know of specific chemicals that are present or once were present at the property?

NO

(c) Do you know of any spills or other chemical releases that have taken place at the property?

NO

(d) Do you know of any environmental cleanups that have taken place at the property?

NO

(6.) The degree of obviousness of the presence or likely presence of contamination at the property, and the ability to detect the contamination by appropriate investigation (40 CFR 312.31).

As the user of this ESA, based on your knowledge and experience related to the property are there any obvious indicators that point to the presence or likely presence of releases at the property?

AG USE

ADDITIONAL REQUESTED INFORMATION

(A.) Reason for performing Phase I ESA. Please include the type of transaction (sale, purchase, exchange, etc...).

PRE-PURCHASE INSPECTION

(B.) Please identify all parties that will rely on the completed Phase I ESA.

CENTERLINE CAPITAL ADVISORS

(C.) Please identify the property owner(s) and any known occupants and/or key site managers.

JOHN KIRKLAND - ON SITE MGR.
TROY "STUART" BRONSON - OWNER

(D.) Please provide any other knowledge or experience with the property that may be pertinent (for example, copies of any available prior environmental site assessment report, documents, chain-of-title reports, correspondence etc., concerning the property and its environmental condition).

EXECUTIVE SUMMARY

TARGET PROPERTY SEARCH RESULTS

The target property was not listed in any of the databases searched by EDR.

DATABASES WITH NO MAPPED SITES

No mapped sites were found in EDR's search of available ("reasonably ascertainable ") government records either on the target property or within the search radius around the target property for the following databases:

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.
Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

State and tribal landfill and/or solid waste disposal site lists

SWF/LF: The Solid Waste Facilities/Landfill Sites records typically contain an inventory of solid waste disposal facilities or landfills in a particular state. The data come from the Department of Environmental Protection's Facility Directory (Solid Waste Facilities).

A review of the SWF/LF list, as provided by EDR, has revealed that there is 1 SWF/LF site within

approximately 0.5 miles of the target property.

Lower Elevation	Address	Direction / Distance	Map ID	Page
ITNER TRASH SITE (AK	2MI W ON SR437A	WNW 0 - 1/8 (0.101 mi.)	2	8
Database: SWF/LF, Date of Government Version: 07/16/2019				
Facility-Site Id: 22044				
Class Status: NFA,NO FURTHER ACTION (F)				

State and tribal leaking storage tank lists

LUST: The Leaking Underground Storage Tank Incident Reports contain an inventory of reported leaking underground storage tank incidents. The data come from the Department of Environmental Protection's PCTO1--Petroleum Contamination Detail Report.

A review of the LUST list, as provided by EDR, and dated 07/30/2019 has revealed that there are 2 LUST sites within approximately 0.5 miles of the target property.

Equal/Higher Elevation	Address	Direction / Distance	Map ID	Page
EATONVILLE TOWN	***KENNEDY BLVD***	***NE 1/4 - 1/2 (0.377 mi.)***	***A4***	***10***
JOHNS INC	***800 JOHNS RD***	***NE 1/4 - 1/2 (0.424 mi.)***	***A5***	***14***

State and tribal registered storage tank lists

AST: Shortly after the Sept 11 event, the DEP was instructed to remove the detail about some of the storage tank facilities in the state from their reports. Federal-owned facilities and bulk storage facilities are included in that set.

A review of the AST list, as provided by EDR, has revealed that there is 1 AST site within approximately 0.25 miles of the target property.

Equal/Higher Elevation	Address	Direction / Distance	Map ID	Page
QUALITY CUSTOM DISTR	1501 OCOEE APOPKA RD	SSE 0 - 1/8 (0.116 mi.)	3	9
Database: AST, Date of Government Version: 05/17/2019				
Facility Status: OPEN				
Facility-Site Id: 9816027				
Facility Status: OPEN				

ADDITIONAL ENVIRONMENTAL RECORDS

Other Ascertainable Records

FINDS: The Facility Index System contains both facility information and "pointers" to other sources of information that contain more detail. These include: RCRIS; Permit Compliance System (PCS); Aerometric Information Retrieval System (AIRS); FATES (FIFRA [Federal Insecticide Fungicide Rodenticide Act] and TSCA Enforcement System, FTTS [FIFRA/TSCA Tracking System]; CERCLIS; DOCKET (Enforcement Docket used to

manage and track information on civil judicial enforcement cases for all environmental statutes); Federal Underground Injection Control (FURS); Federal Reporting Data System (FRDS); Surface Impoundments (SIA); TSCA Chemicals in Commerce Information System (CICS); PADS; RCRA-J (medical waste transporters/disposers); TRIS; and TSCA. The source of this database is the U.S. EPA/NTIS.

A review of the FINDS list, as provided by EDR, and dated 05/03/2019 has revealed that there is 1 FINDS site within approximately 0.001 miles of the target property.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 07/19/2019

Data Release Frequency: Quarterly

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Date of Government Version: 10/15/1991
Date Data Arrived at EDR: 02/02/1994

Federal Delisted NPL site list

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Date of Government Version: 07/19/2019

Federal CERCLIS list

FEDERAL FACILITY: Federal Facility Site Information listing

A listing of National Priority List (NPL) and Base Realignment and Closure (BRAC) sites found in the Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) Database where EPA Federal Facilities Restoration and Reuse Office is involved in cleanup activities.

Date of Government Version: 04/03/2019

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Federal RCRA generators list

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

RCRA-VSQG: RCRA - Very Small Quantity Generators (Formerly Conditionally Exempt Small Quantity Generators)

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

State- and tribal - equivalent CERCLIS

SHWS: Florida's State-Funded Action Sites

State Hazardous Waste Sites. State hazardous waste site records are the states' equivalent to CERCLIS. These sites may or may not already be listed on the federal CERCLIS list. Priority sites planned for cleanup using state funds (state equivalent of Superfund) are identified along with sites where cleanup will be paid for by potentially responsible parties. Available information varies by state.

State and tribal institutional control / engineering control registries

ENG CONTROLS: Institutional Controls Registry

The registry is a database of all contaminated sites in the state of Florida which are subject to engineering controls. Engineering Controls encompass a variety of engineered remedies to contain and/or reduce contamination, and/or physical barriers intended to limit access to property. ECs include fences, signs, guards, landfill caps, provision of potable water, slurry walls, sheet pile (vertical caps), pumping and treatment of groundwater, monitoring wells, and vapor extraction systems.

State and tribal Brownfields sites

BROWNFIELDS AREAS: Brownfields Areas Database
A "brownfield area" means a contiguous area of one or more brownfield sites, some of which may not be contaminated, that has been designated as such by a local government resolution. Such areas may include all or portions of community redevelopment areas, enterprise zones, empowerment zones, other such designated economically deprived communities and areas, and Environmental Protection Agency (EPA) designated brownfield pilot projects. This layer provides a polygon representation of the boundaries of these designated Brownfield Areas in Florida.

BSRA: Brownfield Site Rehabilitation Agreements Listing
The BSRA provides DEP and the public assurance that site rehabilitation will be conducted in accordance with Florida Statutes and DEP's Contaminated Site Cleanup Criteria rule. In addition, the BSRA provides limited liability protection for the voluntary responsible party. The BSRA contains various commitments by the voluntary responsible party, including milestones for completion of site rehabilitation tasks and submittal of technical reports and plans.
It also contains a commitment by DEP to review technical reports according to an agreed upon schedule. Only those brownfield sites with an executed BSRA are eligible to apply for a voluntary cleanup tax credit incentive pursuant to Section 376.30781, Florida Statutes.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

Local Land Records

LIENS 2: CERCLA Lien Information

A Federal CERCLA ('Superfund') lien can exist by operation of law at any site or property at which EPA has spent Superfund monies. These monies are spent to investigate and address releases and threatened releases of contamination. CERCLIS provides information as to the identity of these sites and properties.

RCRA NonGen / NLR: RCRA - Non Generators / No Longer Regulated

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

FL Cattle Dip. Vats: Cattle Dipping Vats
From the 1910's through the 1950's, these vats were filled with an arsenic solution for the control and eradication of the cattle fever tick. Other pesticides, such as DDT, were also widely used. By State law, all cattle, horses, mules, goats, and other susceptible animals were required to be dipped every 14 days. Under certain circumstances, the arsenic and other pesticides remaining at the site may present an environmental or public health hazard.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants
The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations
EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

DADE MRE: Maimi River Enforcement
The Miami River Enforcement database files were created for facilities and in some instances vessels that were inspected by a workgroup within the Department that was identified as the Miami River Enforcement Group. The files do not all necessarily reflect enforcement cases and some were created for locations that were permitted by other Sections within the Department.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:
Source: American Hospital Association, Inc.
Telephone: 312-280-5991
The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing
Source: Centers for Medicare & Medicaid Services
Telephone: 410-786-3000
A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

Nursing Homes
Source: National Institutes of Health
Telephone: 301-594-6248
Information on Medicare and Medicaid certified nursing homes in the United States.

Public Schools
Source: National Center for Education Statistics
Telephone: 202-502-7300
The National Center for Education Statistics' primary database on elementary and secondary public education in the United States. It is a comprehensive, annual, national statistical database of all public elementary and secondary schools and school districts, which contains data that are comparable across all states.

Private Schools

Qualifications of Environmental Professionals

Bill Keenan
Project Manager

Bill is a project manager with Bio-Tech Consulting and has been with the company since 2006. His primary duties include Phase I environmental assessments, mitigation design and environmental permitting, regulatory compliance monitoring and reporting, wildlife assessments, species-specific surveys, prescribed burn planning and implementation, and erosion and sediment control monitoring and reporting.

Experience

Bill has more than 15 years of experience as a biologist working in the private and public sectors. Prior to joining Bio-Tech Consulting, Bill served as a field biologist with the Florida Department of Environmental Protection (FDEP) at Wekiwa Springs State Park where his responsibilities included exotic species control, landscape restoration management, and prescribed burn planning and implementation. He also served as a park and district trainer and mentor in the uses and safety of herbicides and prescribed fire.

Bill's biology experience also includes working as a graduate teaching assistant in the biology department at the University of Central Florida and working at The Nature Conservancy as a member of a wildland fire and prescribed burn crew.

Responsibilities

Bill's current role with Bio-Tech Consulting is as a project manager. His duties and responsibilities include Phase I environmental assessments, mitigation design and environmental permitting with appropriate local, state and federal agencies, regulatory compliance monitoring and reporting (vegetative and water quality), wetland, lakeshore and upland restoration and enhancement, mitigation area maintenance, herbicide application, T&E wildlife assessments, species specific surveys and monitoring, wildlife relocation, prescribed burn planning and implementation, and erosion and sediment control monitoring and reporting.

Experience:
16 Years

Years with Bio-Tech Consulting:
11 Years

Education:
Bachelor of Arts, Business Administration
University of Central Florida

Training and Certifications:
- Best Practices Management – Florida Green Industries (GV3740-1)
- Pesticide Commercial Applicator License (CM19779)
- Qualified Stormwater Management Inspector (13286)
- Certified Prescribed Burn Manager (2004-3488)
- S-215 Fire Operations in Wildlands/Urban Interface
- Southern Area Engine Academy
- S-211 Portable Pumps
- Inter-agency Basic Prescribed Fire Course
- S-212 Wildfire Power Saws
- S-130, S-190, I-100 and Standards for Survival
- Florida Certificate of Boating Education
- ATV Safety Course

Memberships:
- Florida Association of Environmental Professionals
- International Society of Technical & Environmental Professionals (INSTEP) Licensed Environmental Professional (LEP) #381

Education

Bill earned his bachelor of arts in Business Administration from the University of Central Florida and has more than two years of study toward his Master's Degree in biology.

Joe Galletti
Vice President

Joe has more than 24 years of professional experience in project management and environmental permitting. His areas of specialization include water quality monitoring, data management, wetland delineations, dredge/fill and environmental resource permitting and Phase I and Phase II Environmental Site Assessments.

Experience

Joe has more than 24 years of professional experience in project management and environmental permitting. He entered the environmental consulting and development community at the beginning of Central Florida's land development boom in the early 1990s.

Along with his extensive experience in resolving wetland, wildlife and other permitting issues, Joe is a Certified Florida Environmental Assessor and leads Bio-Tech Consulting's Phase I Environmental Site Assessment and water quality monitoring teams.

Responsibilities

Joe's primary responsibilities include Phase I Environmental Site Assessments, title searches, water quality monitoring and sampling, regulatory agency database research, historical aerial photograph research, project coordination, marketing, client interaction, proposal writing and technical writing.

As Vice President of Bio-Tech Consulting, Joe oversees federal, state, water management district, and local government permitting processes for a variety of clients. He also specializes in threatened and endangered species identification and permitting, wetland delineation, dredge/fill applications and environmental resource permitting.

Education

Joe graduated from the University of Central Florida with a Bachelor of Science in Biological Sciences.

Experience:
24 Years

Years with Bio-Tech Consulting:
14 Years

Education:
Bachelor of Science, Biological Sciences, University of Central Florida

Certifications:
- Registered Environmental Property Assessor #5898
- International Society of Technical & Environmental Professionals (INSTEP) Licensed Environmental Professional (LEP) #123
- FDEP Qualified Stormwater Management Inspector

Professional Associations:
- Central Florida Association of Environmental Professionals
- Greater Orlando Builders Association
- National Registry of Environmental Professionals
- Florida Lake Management Society (FLMS)

INTRODUCTION

Purpose

This study has been revised to incorporate the City's comments. A copy of the comments and the responses is included in **Appendix A**.

This study was conducted in order to assess the traffic impact of The Ridge PD development in southwest Apopka. The property is oriented with frontage on the north and south of Boy Scout Road. The proposed mixed-use development will consist of 1,500,000 square feet of industrial use, 643 single family dwelling units, 678 multi-family dwelling units, 24,000 square feet of office space and 300,000 square feet of retail space. The mixed-use site will be developed within a property of approximately ±352 acres, which is currently vacant except for a single-family home and some farm buildings. Build-out is expected to occur by the end of 2027. **Figure 1** depicts the development location and the adjacent roadway network. **Figure 2** presents the conceptual site plan with the proposed land use development configuration and potential access locations.

Study Methodology

Before conducting this study, the assumptions and procedures used in the traffic impact analysis were submitted to the Apopka Engineering staff. A copy of the study final, approved methodology and related City correspondence are included in **Appendix B**.

The analysis includes a daily and P.M. peak hour roadway segment analysis using standards and procedures from the City of Apopka's concurrency management system (CMS) network within a one-half mile radius of the access connections. A.M. and P.M. peak hour analysis was also conducted at the following intersections:

- Ocoee Apopka Road (CR 437A) and Bradshaw Road
- Ocoee Apopka Road (CR 437A) and Marden Road
- Ocoee Apopka Road (CR 437A) and Boy Scout Road
- Ocoee Apopka Road (CR 437A) and Harmon Road
- Ocoee Apopka Road (CR 437A) and Keene Road
- Binion Road (CR 437) and Boy Scout Road
- Binion Road (CR 437) and Harmon Road
- US 441 and Orange Avenue (CR 437)
- Boy Scout Road and Galway Boulevard
- Project Entrances

Daily and P.M. peak hour roadway link volumes, including encumbered traffic volumes, were used in the roadway analysis. These were obtained from the City's CMS 2020 Update. Copies of the appropriate CMS pages are included in **Appendix C**.

EXISTING ROADWAYS AND TRAFFIC CONDITIONS

The characteristics of the existing roadway segments within the one-half mile impact area of The Ridge PD were surveyed. The roadway segment characteristics information included physical, volume, and traffic control characteristics for these facilities. Existing traffic volume data at the study intersections was based on turning movement counts collected during March 2020 and November 2020. Due to the Covid-19 pandemic effect on travel patterns, the collected peak hour traffic volume data were compared the 2020 Apopka CMS Covid-19 updated traffic volumes from similar roadways. Where appropriate, a factor was applied to normalize each turning movement. Each P.M. peak hour turning movement (see **Appendix D** for the existing intersections turning movement summaries with the Covid-19 adjustment factor). Each count was checked for reasonableness.

Study Roadways

Table 1 provides a list of the roadway parameters utilized in the analysis, taken from the City's 2020 CMS data and updated with the recently approved developments. Included in this table are: number of lanes, functional classification, adopted Level of Service (LOS) standards, roadway service volumes, daily and P.M. peak hour traffic volumes and available capacity. Based upon this analysis, all of the study roadway segments currently operate at acceptable levels of service with available daily and P.M. peak hour capacity.

Luke Transportation Engineering Consultants, Inc., 2021

Study Intersections

The study intersections were analyzed under existing conditions using the procedures of the ***Highway Capacity Manual, 6th Edition*** for signalized and unsignalized intersections. This analysis used existing traffic volumes and existing geometric conditions.

Figure 3 shows the existing A.M. and P.M. peak hour intersection turning movement traffic volumes, the existing lane configuration and traffic control at each of the study intersections. **Table 2** includes the summary results of the intersection analysis. Analysis sheets are included in **Appendix E**. All but two (2) of the study intersections currently operate with satisfactory levels of service for the minor street movements. The two (2) intersections with minor street approaches operating with adverse conditions are Ocoee Apopka Road (CR 437A) and Marden Road and Ocoee Apopka Road (CR 437A) and Keene Road.

Roadway Improvements

No roadway widening improvements are currently programmed within the City's Capital Improvements Plan (CIP). The City has been developing plans to implement a traffic signal for the intersection of Ocoee Apopka Road (CR 437A) and Harmon Road when Harmon Road is extended east from Ocoee Apopka Road (CR 437A) to Marden Road. A traffic signal is also planned for the intersection of Ocoee Apopka Road (CR 437A) and Keene Road.

PROPOSED DEVELOPMENT

As indicated earlier, the proposed The Ridge PD will consist of 1,500,000 square feet of industrial use, 643 single family dwelling units, 678 multi-family dwelling units, 24,000 square feet of office space and 300,000 square feet of retail space. Build-out is expected to occur by the end of 2027. Per the approved study methodology, to determine the impact of this development, an analysis of its traffic characteristics was made. This included the determination of the traffic generated by proposed development and the distribution/assignment of this traffic to the study roadways and study intersections.

Trip Generation

The trip generation for The Ridge PD was estimated using the 10*th Edition ITE Trip Generation Report, 2017* data as summarized in **Table 3** (a copy of the Traffic Allocation Form is contained in **Appendix F)**. Utilizing the ITE trip generation rates, the proposed mixed-use land use plan will generate a total of 35,197 daily vehicle trip ends, 2,395 A.M. peak hour vehicle trip ends and 3,983 P.M. peak hour vehicle trip ends. These total trips consist of internal trips and pass-by trips that will be discussed below.

Internal Capture

Internal trips are defined as trips that occur between compatible land uses (i.e., trips occurring between residential, retail and office land uses within the proposed development site). The internal trips will have no impact on the adjacent roadway network. Utilizing the procedures contained in the *ITE Trip Generation Handbook*, 3rd Edition, section on "Trip Generation for Multi-Use Development," an internal capture calculation was performed. A copy of the internal capture worksheet is included in **Appendix G**. **Table 3** includes the internal trip ends adjustment calculations at build-out based on the development

Pass-by Trips

For the retail component of the development program, a pass-by traffic proportion was calculated. This was also based on the *ITE Trip Generation Handbook*. The pass-by traffic volumes were checked to ensure it did not exceed 10% of the existing (2020) P.M. peak hour weekday traffic on the adjacent roadway segments of Ocoee Apopka Road, Binion Road and Boy Scout Road (see footnote 5 in **Table 3**). This calculation represents the maximum limit of the pass-by traffic, relative to the P.M. peak hour projected traffic volumes on the adjacent roadways.

Adjusting for internal and pass-by trips results in a total of 28,880 Net New (Primary) daily vehicle trip ends, 2,345 Net New (Primary) A.M. peak hour vehicle trip ends and 3,177 Net New (Primary) P.M. peak hour vehicle trip ends.

(1) Trip generation calculations from 9th Edition of ITE Trip Generation Report.

(2) ITE Land Use Code Number / E = Fitted Curve Equation, R= Average Trip Rate

(3) Internal Percentage from ITE "Trip Generation Handbook," August 2014.
Individual land use percentage adjusted to match internal trip calculation.

(4) Total Traffic Volumes minus Internal Capture Trips = External Trips.

(5) Pass-by Percentage is based on 3rd Edition of ITE Trip Generation Handbook
Table F.9- ITE Code 820: Shopping Center Average Pass-by percent set to equal 10% of Binion Road, Ocoee Apopka Road and Boy Scout Road traffic volumes.
10% pass-by check: Use P.M. traffic (0.10 x (669 + 1,179 + 270) = 211.8, use 210)

(6) Primary Trips - Pass-by Trips = Net New Traffic Volumes

Luke Transportation Engineering Consultants, Inc., 2021

Trip Distribution

Project distribution and assignment of The Ridge PD development traffic to the study roadways and study intersections was based upon an OUATS Model 2030 assignment, a review of the existing traffic patterns and discussion with City staff. The model network included all planned and programmed roadways and improvements within the impact area. The model roadway network was updated to include the proposed internal roadway and based on input from City staff, the socioeconomic data was updated to reflect the proposed development in two separate traffic zones. Subsequently, a selected zone assignment was performed to determine distribution of site trips in the impact area to the area roadways. **Figure 4** shows the resultant Project trip distribution on the study roadway segments utilized in the analysis. A copy of the 2030 model Project trips distribution plot is contained in **Appendix H**.

THE RIDGE PD
TRAFFIC IMPACT ANALYSIS
PROJECT TRIP DISTRIBUTION

Figure 4

The trips generated by The Ridge PD were combined with background (encumbered/reserved) traffic and assigned to the study roadways and intersections. Background traffic consist of the City's 2020 traffic volumes projected to 2027 via a 1% annual growth rate plus the encumbered traffic volumes (see **Appendix I** for the Encumbered trips worksheets). Off-peak direction encumbered traffic volumes were estimated based on the 2020 P.M. peak hour existing traffic off-peak D factor. **Table 4** presents both the 2020 CMS daily and P.M. peak hour background traffic volumes for each study roadway segment as well as the projected 2027 background traffic volumes.

Background traffic projections at the study intersections were determined by increasing the existing traffic volumes based on the calculated 2027 traffic percentage growth over the existing P.M. peak hour traffic volumes. The study intersections projected background traffic volumes were checked for reasonableness. **Figure 5** presents the projected A.M. peak hour and **Figure 6** presents the projected P.M. peak hour intersection traffic volumes (background traffic plus Project traffic equals total traffic). Each figure also shows the Project trip distribution at each study intersection.

Traffic Impact Roadway Analysis

An analysis of both the daily and P.M. peak traffic conditions was conducted to determine if adequate capacity was available on each study roadway segment. Each impacted roadway segment was analyzed by comparing its total daily and P.M. peak hour volume to the available capacity of the segment as shown in **Table 5**. The results of this analysis indicate that all but five of the study roadway segments will continue to have adequate capacity at Build-out in 2027. The roadway segments which exceed the available roadway capacity for both the daily and P.M. peak hour are as follows:

- Ocoee Apopka Road (CR 437A) between Keene Road and Harmon Road,
- Ocoee Apopka Road (CR 437A) between Harmon Road and Internal Road,
- Ocoee Apopka Road (CR 437A) between Internal Road and Boy Scout Road,
- Ocoee Apopka Road (CR 437A) between Boy Scout Road and Marden Road, and
- Ocoee Apopka Road (CR 437A) between Marden Road and Bradshaw Road.

Intersection Analysis

To determine the projected Level of Service provided by the intersections to be impacted by the proposed development, a capacity analysis was conducted utilizing the procedures of the *Highway Capacity Manual, 6th Edition* for the signalized and unsignalized study intersections. This analysis used existing/proposed geometric conditions and Build-out (2027) projected traffic volumes (see **Figure 5** and **Figure 6**). The projected intersection delay and level of service, for each study intersection for background and total traffic, are shown in **Table 6**.

Luke Transportation Engineering Consultants, Inc., 2021

As part of the development plan for the Project, the following existing and proposed study intersections will be signalized:

- Ocoee Apopka Road and Boy Scout Road (Intersection #3),
- Ocoee Apopka Road and Internal Road (Intersection #10), and
- Binion Road and Boy Scout Road (Intersection #7).

Printouts of the intersection analyses may be found in **Appendix J**. Warranted auxiliary turn lanes are highlighted in red in **Table 6**.

Based on the projected Background traffic analysis, the two existing adverse intersections (Ocoee Apopka Road (CR 437A) and Marden Road and Ocoee Apopka Road (CR 437A) and Keene Road) will continue to operate at a deficient LOS for the minor street approach. Both intersections have minor street volume to capacity ratios over 1.0 which indicates the delay is due to the operational capacity of the intersection. Installation of auxiliary turn lanes on all approaches and installation of a traffic signal at each of these intersections will result in an acceptable level of service.

Based on the projected total traffic volumes two (2) of the existing study intersections are projected to operate with deficient levels of service for the minor street movements. The impacted existing study intersections are as follows:

- Ocoee Apopka Road (CR 437A) and Bradshaw Road (Intersection #1), and
- Binion Road and Harmon Road/Verde View Drive (Intersection #6).

The intersection of Ocoee Apopka Road (CR 437A) and Bradshaw Road is projected to operate at a deficient LOS for the minor street approach. The minor street volume to capacity ratio is over 1.0 which indicates the delay is due to the operational capacity of the intersection. Adding warranted auxiliary turn lanes and installation of a traffic signal (when warranted) at this intersection will result in an acceptable level of service.

The intersection of Binion Road and Harmon Road/Verde View Drive is projected to operate at a deficient LOS for the minor street approach. The minor street volume to capacity ratio is over 1.0 which indicates the delay is due to the operational capacity of the intersection. Installation of a traffic signal (when warranted) at this intersection will result in an acceptable level of service.

Based on the projected total traffic volumes three (3) of the future Project access intersections are projected to operate with deficient levels of service for the minor street movements. The impacted Project intersections are as follows:

- Boy Scout Road and Galway Boulevard/Parcel 3-A Entrance (Intersection #9),
- Boy Scout Road and Parcel 1 Entrance/Parcel 3-B Entrance (Intersection #14), and

- Boy Scout Road and Parcel 2-B Entrance/Parcel 4-C Entrance (Intersection #15).

The Boy Scout Road and Galway Boulevard/Parcel 3-B Entrance intersection is projected to operate at a deficient level of service for the minor street movement. However, the volume to capacity ratio for the deficient approaches is less than 1.0, which indicates a delay issue due to the main street traffic volumes and is not a capacity issue.

The two Boy Scout Road and Project parcels intersections (14 and 15) are projected to have deficient levels of service for some of the minor street movements. However, all have volume to capacity ratios for the deficient approaches which are less than 1.0, which indicates a delay issue due to the main street traffic volumes and is not a capacity issue.

Auxiliary Turn Lanes

An evaluation was conducted to determine if projected traffic volumes at the deficiently operating study intersections would meet the minimum requirements for auxiliary turn lanes. Procedures documented in the *NCHRP Report 457: Evaluating Intersection Improvements, 2001* were used to evaluate the need for an auxiliary turn lane at the study intersections.

The results utilizing the *NCHRP Report 457* analysis procedures indicate that based on the projected peak hour traffic volumes, auxiliary turn lanes are warranted at the following locations (these turn lanes are highlighted in **Figure 5** and **Figure 6** as dashed red arrows). See **Appendix K** for the auxiliary turn lane warrants.

- Ocoee Apopka Road (CR 437A) and Bradshaw Road – Eastbound Left-Turn Lane
- Ocoee Apopka Road (CR 437A) and Bradshaw Road – Southbound Right-Turn Lane
- Ocoee Apopka Road (CR 437A) and Marden Road – Westbound Left-Turn Lane
- Ocoee Apopka Road (CR 437A) and Marden Road – Eastbound Right-Turn Lane
- Ocoee Apopka Road (CR 437A) and Marden Road – Northbound Left-Turn Lane
- Ocoee Apopka Road (CR 437A) and Boy Scout Road – Eastbound Left-Turn Lane
- Ocoee Apopka Road (CR 437A) and Boy Scout Road – Southbound Right-Turn Lane
- Ocoee Apopka Road (CR 437A) and Internal Road – Northbound Left-Turn Lane
- Ocoee Apopka Road (CR 437A) and Internal Road – Southbound Right-Turn Lane
- Ocoee Apopka Road (CR 437A) and Internal Road – Eastbound Left-Turn Lane
- Ocoee Apopka Road (CR 437A) and Keene Road – Westbound Left-Turn Lane
- Ocoee Apopka Road (CR 437A) and Keene Road – Northbound Right-Turn Lane
- Ocoee Apopka Road (CR 437A) and Keene Road – Southbound Left-Turn Lane
- Binion Road and Boy Scout Road – Westbound Left-Turn Lane
- Binion Road and Boy Scout Road – Northbound Right-Turn Lane
- Binion Road and Boy Scout Road – Southbound Left-Turn Lane
- Boy Scout Road and Galway Boulevard/Parcel 3-A – Westbound Left Turn Lane

Transit

Typically, the average walking distance to a transit stop is a quarter-mile to a half-mile. The closest transit route is Route 404 (Apopka Circulator) with a stop on 13th Street at South Hawthorne Avenue approximately 0.94 miles from the Ocoee Apopka Road (CR 437A) and Boy Scout Road intersection. Current weekday headway for transit route 404 is 60-minutes. Per the City Code, Policy 9.7, the proposed development may participate in developing a bus turnout lane and covered seating areas within the proposed development.

Bicycle Paths/Trails

The closest trail to The Ridge PD site is the Lake Apopka Loop Trail which is located approximately 3.17 miles west via Binion Road north to Lust Road to the trail at the Historic Pump House. A copy of the trail map is included in **Appendix L**. Provisions to accommodate bicycle access should be incorporated into the site plan.

Pedestrian

No sidewalks currently exist along Binion Road, Boy Scout Road or Ocoee Apopka Road (CR 437A). The future on-site sidewalk system should be constructed to serve any pedestrians of this development and should be designed to connect to any future external Binion Road, Boy Scout Road or Ocoee Apopka Road (CR 437A) sidewalk systems to facilitate and encourage alternative modes of transportation. The intent is to create a pedestrian-friendly project with ample sidewalks and crosswalks within the Project with connections to any future external sidewalk systems adjacent to the proposed development.

STUDY CONCLUSIONS

This study was undertaken to evaluate existing and future traffic conditions in the vicinity of the proposed The Ridge PD in southwest Apopka, Florida. The study involved an analysis of the City's CMS roadways served by The Ridge PD trips. The external trips to be generated by The Ridge PD were estimated to be 28,887 net new daily vehicle trip ends, 2,345 net new A.M. peak hour vehicle trip ends and 3,177 net new P.M. peak hour vehicle trip ends.

The Project's trip ends were distributed and assigned to the adjacent roadways and study intersections. The results of the study as are summarized below:

- The proposed The Ridge PD development consist of 1,500,000 square feet of industrial use, 643 single family dwelling units, 678 multi-family dwelling units, 24,000 square feet of office space and 300,000 square feet of retail space.
- Based on the projected total traffic volumes at Build-out, all but one of the study roadways to be impacted by the proposed The Ridge PD development have available capacity. The roadway projected to be over capacity is Ocoee Apopka Road (CR 437A). The deficient roadway segments are as follows:
    - Ocoee Apopka Road (CR 437A) between Keene Road and Harmon Road,
    - Ocoee Apopka Road (CR 437A) between Harmon Road and Internal Road,
    - Ocoee Apopka Road (CR 437A) between Internal Road and Boy Scout Road,
    - Ocoee Apopka Road (CR 437A) between Boy Scout Road and Marden Road, and
    - Ocoee Apopka Road (CR 437A) between Marden Road and Bradshaw Road.
- Two (2) of the unsignalized study intersections currently operate with deficient level of services for the minor street movements. They are Ocoee Apopka Road (CR 437A) an Marder Road and Ocoee Apopka Road (CR 437A) and Keene Road. Both intersections have minor street volume to capacity ratios over 1.0 which indicates the delay is due to the operational capacity of the intersection. Installation of auxiliary turn lanes and a traffic signal at each of these intersections will result in an acceptable level of service.
- Based on the projected total traffic volumes (Background plus Project) two (2) of the existing study intersections are projected to operate with deficient levels of service for the minor street movements. The impacted existing study intersections are as follows:
    - Ocoee Apopka Road (CR 437A) and Bradshaw Road, and
    - Binion Road and Harmon Road/Verde View Drive.
- The intersection of Ocoee Apopka Road (CR 437A) and Bradshaw Road is projected to operate at a deficient LOS for the minor street approach. The minor street volume to capacity ratio is over 1.0 which indicates the delay is due to the

operational capacity of the intersection. Adding warranted auxiliary turn lanes and installation of a traffic signal (when warranted) at this intersection will result in an acceptable level of service.

- The intersection of Binion Road and Harmon Road/Verde View Drive is projected to operate at a deficient LOS for the minor street approach. The minor street volume to capacity ratio is over 1.0 which indicates the delay is due to the operational capacity of the intersection. Installation of a traffic signal (when warranted) at this intersection will result in an acceptable level of service.
- Based on the projected total traffic volumes three (3) of the Project access intersections are projected to operate with deficient levels of service for the minor street movements. The impacted Project access intersections are as follows:
  - Boy Scout Road and Galway Boulevard/Parcel 3-A Entrance,
  - Boy Scout Road and Parcel 1 Entrance/Parcel 3-B Entrance, and
  - Boy Scout Road and Parcel 2-B Entrance /Parcel 4-C Entrance.
- The Boy Scout Road and Galway Boulevard/Parcel 3-A Entrance intersection is projected to operate at a deficient level of service for the minor street movement. The volume to capacity ratio for the deficient approach is less than 1.0, which indicates a delay issue due to the main street traffic volumes and is not a capacity issue.
- The Project access intersections on Boy Scout Road which are projected to operate with deficient levels of service for the minor street movement all have volume to capacity ratio for the deficient approaches which are less than 1.0, which indicates a delay issue due to the main street traffic volumes and is not a capacity issue.
- All the remaining study intersections are projected to operate at acceptable levels of service, similar to existing conditions.
- The following study intersections warrant auxiliary turn lanes:
  - Ocoee Apopka Road (CR 437A) and Bradshaw Road – Eastbound Left-Turn Lane
  - Ocoee Apopka Road (CR 437A) and Bradshaw Road – Southbound Right-Turn Lane
  - Ocoee Apopka Road (CR 437A) and Marden Road – Westbound Left-Turn Lane
  - Ocoee Apopka Road (CR 437A) and Marden Road – Eastbound Right-Turn Lane
  - Ocoee Apopka Road (CR 437A) and Marden Road – Northbound Left-Turn Lane
  - Ocoee Apopka Road (CR 437A) and Keene Road – Westbound Left-Turn Lane
  - Ocoee Apopka Road (CR 437A) and Keene Road – Northbound Right-Turn Lane
  - Ocoee Apopka Road (CR 437A) and Keene Road – Southbound Left-Turn Lane
- The following Project access intersections and access driveway connections warrant the following auxiliary turn lanes:
  - Ocoee Apopka Road (CR 437A) and Boy Scout Road – Eastbound Left-Turn Lane
  - Ocoee Apopka Road (CR 437A) and Boy Scout Road – Southbound Right-Turn Lane

  - Ocoee Apopka Road (CR 437A) and Internal Road – Northbound Left-Turn Lane
  - Ocoee Apopka Road (CR 437A) and Internal Road – Southbound Right-Turn Lane
  - Binion Road and Boy Scout Road – Westbound Left-Turn Lane
  - Binion Road and Boy Scout Road – Northbound Right-Turn Lane
  - Binion Road and Boy Scout Road – Southbound Left-Turn Lane
  - Boy Scout Road and Galway Boulevard/Parcel 3-A – Westbound Left Turn Lane
- The proposed access driveways should be designed to City of Apopka and FDOT design standards.

Appendix A – City Comments

This Page Intentionally Left Blank

The following is the response to the February 19, 2021 review comments request for additional information. The **review comments** will be listed followed by our response.

1. **<u>Page 5: Turning Movement Counts:</u> The methodology describes procedures to adjust existing turning movement counts due to the traffic impacts of COVID-19, but there is no mention of adjustments in the report. Were adjustments performed?**

Response:

Adjustments were performed and the adjustment factor for each turning movement are presented one each intersection turning movement summary count sheet. In addition, the updated 2020 Apopka CMS traffic counts were also utilized. Copies of these counts are included in **Appendix C**.

2. **<u>Page 1: Study Area:</u> Please analyze the following intersections:**
   a. **Marden Road & SR 414 EB Ramp / Harmon Road**
   b. **Marden Road & SR 414 WB Ramp**

Response:

Per our discussion with the City, these intersections were not analyzed.

3. **<u>Page 5: Harmon Road Extension:</u> While the volumes seem reasonable, please describe the process used to forecast volumes along the Harmon Road extension and at the intersection of Ocoee Apopka Road and Harmon Road.**

Response:

The Harmon Road Extension traffic counts were based on traffic volumes developed for the May 2016 Ocoee Apopka Road and Harmon Road Roundabout Design Traffic Study and the model assignment for The Ridge PD.

4. **<u>Page 6: Table 1:</u> Please forecast Year 2019 volumes from the City's CMS data to Year 2021 using appropriate growth rates.**

Response:

As documented in **Table 4**, the existing 2020 CMS traffic volumes were projected to 2027 via a 1% annual growth rate and then the encumbered traffic was added. This process ensured that all background traffic had a minimum 2% annual growth rate.

5. **<u>Page 12: Internal Capture:</u> The retail parcel west of SR 429 will not likely have internal capture with the rest of the site. Please remove this parcel from Internal Capture calculations.**

Response:

As documented in **Table 3**, no internal capture was applied to Parcel 7.

6. **<u>Page 12: Internal Capture</u>: The numbers provided in Appendix E don't match the internal capture percentages or volumes shown in Table 3. Please update the table.**

Response:

The incorrect internal capture tables were included in the original Appendix E. The correct internal capture tables are now included in **Appendix G**.

7. **<u>Page 14: Distribution/Assignment:</u> Please provide separate figures (one for each peak-hour) showing the proposed project distribution and assignment to all study area intersections, including project driveways.**

Response:

The requested information is now included on both **Figure 5** (A.M. Peak Hour Traffic Volumes) and **Figure 6** (P.M. Peak Hour Traffic Volumes).

8. **<u>Page 15: Roadway Background Growth:</u> Please provide a side-by-side comparison of encumbered trips vs. ambient growth using the historical growth rates. Please document which growth rates were used. Note that Appendix G does not provide the growth rate percentages.**

Response:

The requested information is included with the Traffic Count Data in **Appendix D**.

9. **<u>Page 15: Intersection Volume Development:</u> Please provide detailed intersection volume development worksheets in the Appendix. These should include:**

   a. **Raw turning movement counts**
   b. **The seasonal factor applied**
   c. **Any COVID-19 factor applied**
   d. **Growth from encumbered trips or historic trends**
   e. **Project distribution percentages and assignment**
   f. **Total projected buildout trips**

Response:

The requested information is included with the Traffic Count Data in **Appendix D**.

10. <u>Page 17: Access Management:</u> The City will likely support the following configuration of project driveways on Ocoee Apopka Road:

- **Driveway 11 (now 10) – Internal Road: full unsignalized median opening to align with the existing driveway on the opposite side of Ocoee Apopka Road. This location is too close to Boy Scout Road to consider an additional traffic signal.**
- **Driveway 14 – Right turn in / right turn out only. Left turns across the existing turn lane are not to be allowed.**
- **Driveway 3 (Boy Scout Road) – Traffic signal, all movements allowed.**
- **Driveway 13 – Right turn in / right turn out only. Left turns across the existing turn lane are not to be allowed.**

Please modify the analysis to reflect the allowed movements and revise the trip assignment accordingly. Alternatively, if the applicant provides roadway concept plans and analyses that sufficiently demonstrate that an alternative configuration works, then the City will consider the alternative configuration.

Response:

The comments are noted. Both intersection 13 and 14 are now right-in/right-out only. Ocoee Apopka Road and Boy Scout Road will be a full access connection with a traffic signal.

The spacing for the Ocoee Apopka Road and Internal Road intersection is approximately 1,100 feet from the Ocoee Apopka Road and Boy Scout Road. As noted in the November 2019 FDOT Access Class Guidelines, "Traffic signals, proposed at intervals closer than the access management standard for the designated access class, will only be approved where the need for such signals(s) is clearly demonstrated for the safety and operation of the roadway through the signal warrant process." Based on the proposed development density and Project trip distribution, a traffic signal would be warranted at this intersection.

11. <u>Page 19: Table 5:</u> What is recommended to improve the level of service along deficient segments of Ocoee Apopka Road?

Response:

Suggested intersection improvements (added auxiliary turn lanes and signalization when warranted) for intersections with deficient levels of service are included in the text.

12. <u>Page 19: Weighted Project Trips Worksheet:</u> What were the weighted project trips used for?

Response:

The Weighted Project Trips Worksheet calculates the weighted average number of Project trips on the Boy Scout Road roadway segment between Binion Road and Ocoee Apopka Road. As shown in the weighted trips worksheet in **Table 5**, Project trips from the proposed development plan six driveways are assigned onto the Boy Scout Road segments between each driveway. The resulting weighted Project trips are then input into the upper portion of Table 5.

A similar process is followed for the segment of Ocoee Apopka Road between Boy scout Road the Internal Road.

13. <u>Page 24: Recommended Signalization:</u> Please confirm that the intersection of Ocoee Apopka Road and Marden Road will operate sufficiently with the installation of a traffic signal upon full buildout of the development. Please document if turn lanes are needed.

Response:

Copies of the Synchro projected intersection analysis worksheets and auxiliary turn lane worksheets are in the Appendix.

14. <u>Page 24: Signal Timings:</u> Please provide output reports that show proposed signal timings.

Response:

Copies of the requested Synchro worksheets are included in **Appendix J**.

15. <u>Page 25: Turn Lane Analysis:</u>

a. Please perform a turn lane analysis for all existing and future turn lanes significantly impacted by project trips. The analysis table should include the following: existing length of the turn lane (if applicable), required deceleration length, anticipated 95th percentile queue from the analysis outputs, total turn lane length required (deceleration + queue), and any deficiencies.

b. For project driveways along Binion Road, Boy Scout Road, and Ocoee Apopka Road, please analyze the need for exclusive turn lanes using Section 5.16.5 of the City's Land Development Code (LDC).

Response:

The requested auxiliary turn lane information is included in **Table 3** and **Table 6**. Copies of the NCHRP Report 457 auxiliary turn lane evaluation worksheets are included in **Appendix K**. Where auxiliary turn lanes are needed, they are highlighted in red dashed lines in **Figure 5** and **Figure 6** and are also highlighted in red in **Table 6**.

16. **<u>General Comment 1: Truck Traffic:</u> Truck traffic is important to analyze considering that the industrial parcel yields approximately 45 percent (45%) of the total net new peak-hour trips. Has any data been provided by the end-user to estimate the amount of truck trips anticipated? If no data is provided, please use ITE's *Trip Generation Manual, 10th Edition Supplement* to estimate what percentage of trips from the industrial parcel (ITE LUC 110) is anticipated to be truck trips. This information should be applied to a separate distribution and assignment for trucks as applicable.**

Response:

A review of the attached ITE LUC 110 trip generation data indicates that the number of daily trucks generated by the proposed industrial parcel will be 375. This represents approximately 5% of the industrial parcel total daily trips and only 1.3% of the total number of external trips generated by the proposed development. When the P.M. peak hour is calculated, the industrial parcel truck generation is only 15 vehicles. This represents approximately 1% of the total P.M. peak hour of the industrial parcel and only 0.5% of the total number of external trips generated by the proposed development. In addition, the trip generation table included in the analysis includes all the vehicles generated by each land use. Thus the abo e trucks are already included in the analysis and a separate distribution and assignment is not needed.

17. **<u>General Comment 2: Site Plan:</u> Driveway configurations will be reviewed after a more detailed site plan is provided.**

Response:

Comment noted.

18. **<u>General Comment 3: V/C Ratios:</u> Please address all volume-to-capacity deficiencies upon full buildout and describe the proposed mitigation strategy.**

Response:

Comment noted.

19. **<u>Boy Scout Road Approach Slope:</u> The relatively sudden rise in elevation approaching Ocoee Apopka Road must be reconstructed with a more gradual slope. Otherwise, the intersection will not efficiently accommodate the proposed traffic.**

Response:

Comment noted.

20. **<u>Appendix Comment:</u> Please include the City's most recent CMS data in the Appendix.**

Response:

Appendix C and **Appendix J** include the City's CMS data.

This concludes the response to the February 19, 2021 review comments.

MEMORANDUM

TO: Pam Richmond, AICP Via email:
FROM: J. Antony Luke, P.E.
DATE: October 2, 2020 (Revised October 28, 2020)
RE: Centerline Capital – Bronson Property: Traffic Impact Analysis Methodology, Apopka, Florida (LTEC № 19-4202)

The following is an outline of the traffic impact analysis methodology for the proposed Centerline Capital – Bronson Property. The development site is located on Boy Scout Road. The project site location and the surround area are shown in **Figure 1**.

1. Proposed Development

The proposed Centerline Capital – Bronson Property project will consist of a mixed-use development with 943 single family dwelling units, 378 Multi-Family dwelling units, 75,000 square feet of office space, 300,000 square feet of retail space and 1,500,000 square feet of industrial space on ±366.6 acres. For purposes of the traffic study, the Project will be constructed by the end of 2027.

2. Site Access

Access will be via driveways onto Boy Scout Road, Ocoee-Apopka Road and Binion Road. **Figure 2** shows a conceptual site plan.

3. Trip Generation

The 10th Edition of the ITE ***Trip Generation Report*** will be used for the trip generation calculation of the proposed development. See **Table 1** for an estimation of the daily, A.M. and P.M. peak hour traffic volumes. Adjusting for internal capture and pass-by capture (discussed below) will result in a total of 28,880 daily Net New (Primary) vehicle trip ends, 2,345 A.M. peak hour Net New (Primary) vehicle trip ends and 3,177 P.M. peak hour Net New (Primary) trip ends.

The total driveway trips generated by the mixed-use land use will comprise internal trips, "pass-by" trips and "new (primary)." Internal trips are defined as trips that occur between compatible land uses (i.e., trips occurring between residential, office and commercial land uses within the proposed development Mixed-Use parcel). Pass-by trips are defined as those trips from the passing roadway stream

[mailing address] po box 941556 maitland florida 32794-1556 • 29 east pine street orlando florida 32801 [phone] 407 423 8055 [fax] 407 423 8022

Luke Transportation Engineering Consultants

that would already be on the road. Therefore, internal traffic and pass-by traffic does not create additional impact on the surrounding roadways.

Utilizing the procedures contained in the ***ITE Trip Generation Handbook, 3rd Edition***, section on "*Trip Generation for Multi-Use Development*," an internal capture calculation was performed. Copies of the internal capture worksheets are included in **Appendix A**. **Table 1** includes the internal trip ends adjustment calculations at build-out based on the development scenario.

For the retail components of the development program, a pass-by traffic proportion was calculated. This was also based on the ***ITE Trip Generation Handbook, 3rd Edition***. The pass-by traffic volumes were checked to ensure it did not exceed 10% of the existing (2019) plus encumbered P.M. peak hour weekday traffic on the adjacent roadway segments of Binion Road, Boy Scout Road, and Ocoee-Apopka Road. This calculation represents the maximum limit of the pass-by traffic, relative to the P.M. peak hour traffic volumes on the adjacent roadways. **Table 1** includes the pass-by trip ends adjustment calculations at build-out based on the development scenarios.

4. Trip Distribution/Assignment

Project trip distribution and assignment of project trips will be based upon an OUATS Model 2030 assignment and a review of existing travel patterns. See **Figure 3** for the Project Trip Distribution plot and proposed Project trip distribution adjustments.

5. Study Roadways and Study Intersections

Based upon the City's transportation study methodology the impact area will consist of collector and arterial roadways within a one-mile diameter study area. **Table 2** lists the roads adjacent to the study site and within the potential impact area. This table also lists the functional classification, number of lanes, the adopted LOS standard, and adopted service volume.

The list of proposed study intersections is as follows:

- All Project access driveways on Boy Scout Road
- Project access driveways on Ocoee-Apopka Road
- Project access driveways on Binion Road
- Boy Scout Road and Galway Boulevard
- Ocoee-Apopka Road and Bradshaw Road
- Ocoee-Apopka Road and Boy Scout Road
- Binion Road and Boy Scout Road
- Ocoee-Apopka Road and Marden Road
- Ocoee-Apopka Road and Harmon Road
- Ocoee-Apopka Road and Keene Road
- Binion Road and Harmon Road
- US 441 and Orange Avenue

The study intersections will be analyzed for both the A.M. and P.M. peak hours.

In order to address current lower traffic count volumes associated with the Covid-19 pandemic, the following procedure will be followed:

[mailing address] po box 941556 maitland florida 32794-1556 • 29 east pine street orlando florida 32801 [phone] 407 423 8055 [fax] 407 423 8022

Luke Transportation Engineering Consultants

1. If existing intersection turning movement traffic counts from 2017, 2018 and 2019 are available they will be utilized. If none are available, turning movement counts will be collected for each of the above study intersections.

2. A 24-hour volume segment count will be collected at locations that align with selected adjacent current City of Apopka Annual count locations within or adjacent to the proposed study area. These segment counts would be compared to the segment volumes from the 2019 City of Apopka Annual count locations, providing adjustment factors that would be applied to the collected 2020 TMC's. The TMC's would then be normalized to 2019 conditions using these adjustment factors.

6. Trip Distribution/Assignment

- Perform a single phase (2027) assessment for the Project.
- Background traffic based on the City of Apopka's Concurrency Management System (CMS) 2019 update.
- Combine project traffic with background traffic to obtain total traffic flows.
- Project traffic assignment on the adjacent roadway segments for daily and the P.M. peak hour.
- Project traffic assignment at the study intersections will be provided for the A.M. and P.M. peak hours.
- Perform traffic analysis utilizing City service volumes (or capacities) for roadways and 6th Edition HCM operational analysis procedures for the study intersections.
- Intersection analysis to be performed for the A.M. and P.M. peak hours.

7. Traffic Report

Prepare traffic report summarizing study procedures, analyses and recommendations per the City of Apopka traffic impact analysis procedures. Two signed and sealed copies of the completed traffic study will be submitted to the City.

	Total		***35,197***		***3,983***	***596***	***210***	***3,177***	***1,117***	***2,060***

5. Draw a representative sketch on the following page showing the site and all the access driveways leading onto the adjacent roadway segments.
   See Figure 2 for the conceptual site plan

6. Based on the total ADT from the table above (step #4), circle the appropriate ADT category:
   A. De-minimus or < 20 ADT B. < 400 ADT C. > 400 ADT (D. > 1,000 ADT)

7. If A or B was circled, STOP HERE. Otherwise, use the enclosed roadway map to display the development's P.M. Peak Hour allocated trips on all impacted CMS roadway segments.

This Page Intentionally Left Blank

Appendix K – Auxiliary Turn Lane Worksheets

This Page Intentionally Left Blank

Ocoee Apopka Road (CR 437A) and Parcel 1 (13) – Southbound Right-Turn Lane

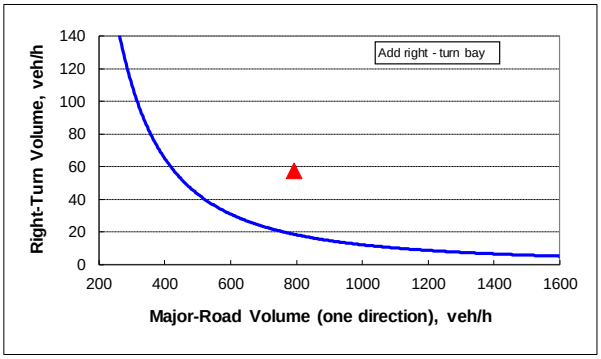
Figure 2 - 6. Guideline for determining the need for a major-road right-turn bay at a two-way stop-controlled intersection.

INPUT

Roadway geometry:	2-lane roadway
Variable	Value
Major-road speed, mph:	45
Major-road volume (one direction), veh/h:	793
Right-turn volume, veh/h:	57

OUTPUT

Variable	Value
Limiting right-turn volume, veh/h:	19
Guidance for determining the need for a major-road right-turn bay for a 2-lane roadway:	
Add right-turn bay.	



Ocoee Apopka Road (CR 437A) and Parcel 3 (14) – Southbound Right-Turn Lane

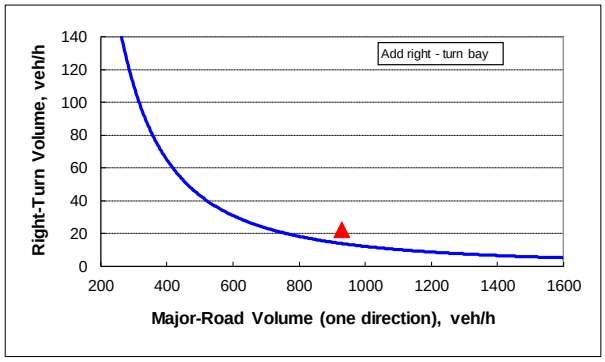
Figure 2 - 6. Guideline for determining the need for a major-road right-turn bay at a two-way stop-controlled intersection.

INPUT

Roadway geometry:	2-lane roadway
Variable	Value
Major-road speed, mph:	45
Major-road volume (one direction), veh/h:	931
Right-turn volume, veh/h:	22

OUTPUT

Variable	Value
Limiting right-turn volume, veh/h:	14
Guidance for determining the need for a major-road right-turn bay for a 2-lane roadway:	
Add right-turn bay.	



Ocoee Apopka Road (CR 437A) and Boy Scout Road (3) – Southbound Right-Turn Lane

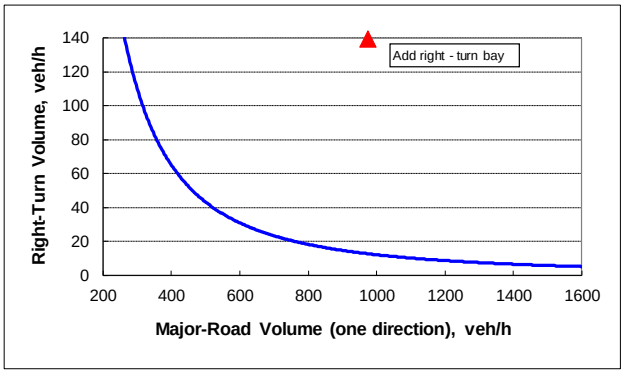
Figure 2 - 6. Guideline for determining the need for a major-road right-turn bay at a two-way stop-controlled intersection.

INPUT

Roadway geometry:	2-lane roadway
Variable	Value
Major-road speed, mph:	45
Major-road volume (one direction), veh/h:	975
Right-turn volume, veh/h:	139

OUTPUT

Variable	Value
Limiting right-turn volume, veh/h:	13
Guidance for determining the need for a major-road right-turn bay for a 2-lane roadway:	
Add right-turn bay.	



Ocoee Apopka Road (CR 437A) and Boy Scout Road (3) – Eastbound Left-Turn Lane

Figure 2 - 4. Guideline for determining minor-road approach geometry at two-way stop-controlled intersections.

INPUT

Variable	Value
Major-road volume (total of both directions), veh/h:	1974
Percentage of right-turns on minor road, %:	38%
Minor-road volume (one direction), veh/h:	500

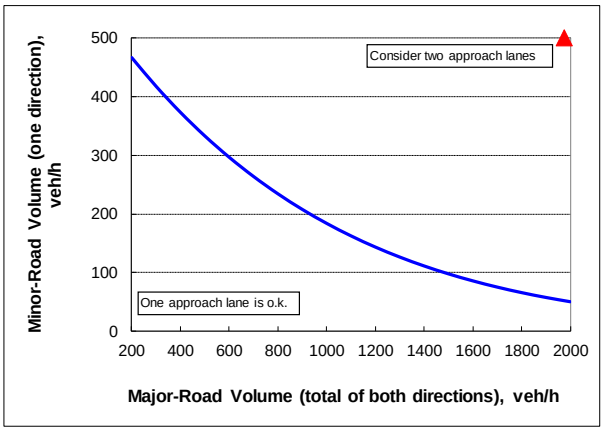
OUTPUT

Variable	Value
Limiting minor-road volume (one direction), veh/h:	52
Guidance for determining minor-road approach geometry:	
Consider TWO approach lanes	

CALIBRATION CONSTANTS

Minor Road	Critical gap, s:	Follow-up gap, s:
Right-turn capacity, veh/h:	6.2	3.3
Left-turn and through capacity, veh/h:	6.5	4.0

* according to Table 17 - 5 of the HCM



Ocoee Apopka Road (CR 437A) and Internal Road (10) – Eastbound Left-Turn Lane

Figure 2 - 4. Guideline for determining minor-road approach geometry at two-way stop-controlled intersections.

INPUT

Variable	Value
Major-road volume (total of both directions), veh/h:	1802
Percentage of right-turns on minor road, %:	46%
Minor-road volume (one direction), veh/h:	499

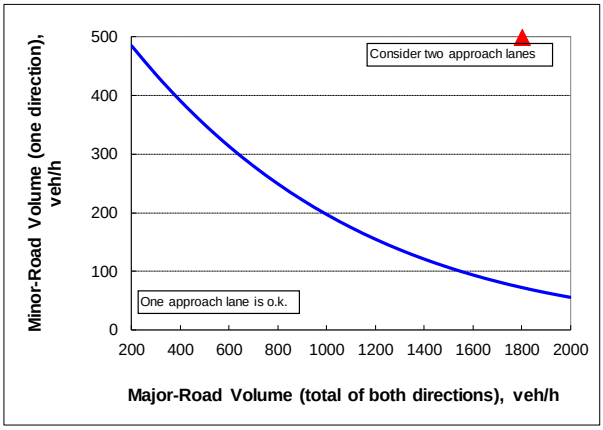
OUTPUT

Variable	Value
Limiting minor-road volume (one direction), veh/h:	72
Guidance for determining minor-road approach geometry:	
Consider TWO approach lanes	

CALIBRATION CONSTANTS

Minor Road	Critical gap, s:	Follow-up gap, s:
Right-turn capacity, veh/h:	6.2	3.3
Left-turn and through capacity, veh/h:	6.5	4.0

* according to Table 17 - 5 of the HCM



Ocoee Apopka Road (CR 437A) and Internal Road – Northbound Left-Turn Lane

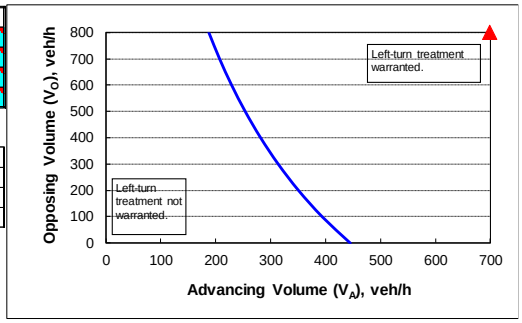
2-lane roadway (English)

INPUT

Variable	Value
85th percentile speed, mph:	45
Percent of left-turns in advancing volume (V_A), %:	16%
Advancing volume (V_A), veh/h:	699
Opposing volume (V_O), veh/h:	799

OUTPUT

Variable	Value
Limiting advancing volume (V_A), veh/h:	188
Guidance for determining the need for a major-road left-turn bay:	
Left-turn treatment warranted.	



CALIBRATION CONSTANTS

Variable	Value
Average time for making left-turn, s:	3.0
Critical headway, s:	5.0
Average time for left-turn vehicle to clear the advancing lane, s:	1.9

Ocoee Apopka Road (CR 437A) and Internal Road – Southbound Right-Turn Lane

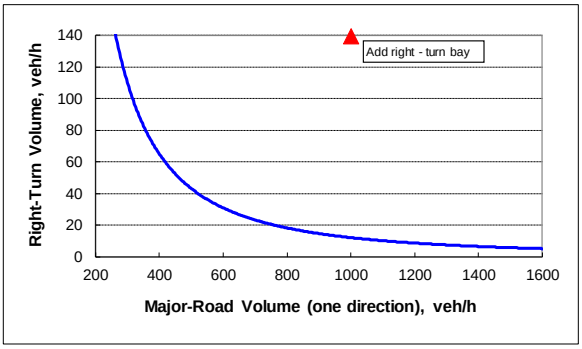
Figure 2 - 6. Guideline for determining the need for a major-road right-turn bay at a two-way stop-controlled intersection.

INPUT

Roadway geometry:	2-lane roadway
Variable	Value
Major-road speed, mph:	45
Major-road volume (one direction), veh/h:	1003
Right-turn volume, veh/h:	139

OUTPUT

Variable	Value
Limiting right-turn volume, veh/h:	12
Guidance for determining the need for a major-road right-turn bay for a 2-lane roadway:	
Add right-turn bay.	



Binion Road and Boy Scout Road – Westbound Left-Turn Lane

Figure 2 - 4. Guideline for determining minor-road approach geometry at two-way stop-controlled intersections.

INPUT

Variable	Value
Major-road volume (total of both directions), veh/h:	1091
Percentage of right-turns on minor road, %:	71%
Minor-road volume (one direction), veh/h:	394

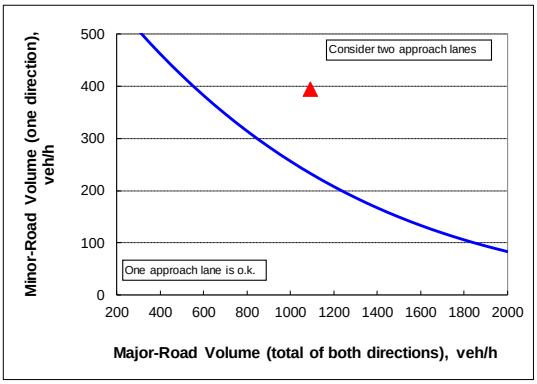
OUTPUT

Variable	Value
Limiting minor-road volume (one direction), veh/h:	233
Guidance for determining minor-road approach geometry:	
Consider TWO approach lanes	

CALIBRATION CONSTANTS

Minor Road	Critical gap, s:	Follow-up gap, s:
Right-turn capacity, veh/h:	6.2	3.3
Left-turn and through capacity, veh/h:	6.5	4.0

* according to Table 17 - 5 of the HCM



Binion Road and Boy Scout Road – Northbound Right-Turn Lane

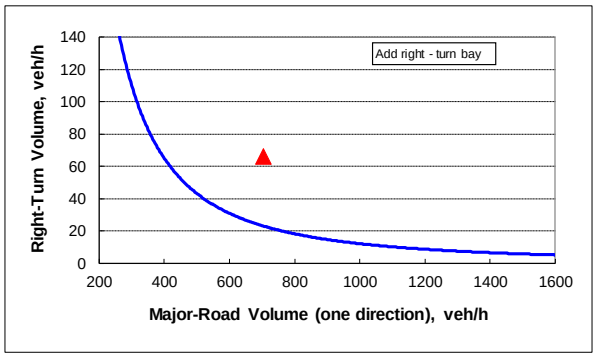
Figure 2 - 6. Guideline for determining the need for a major-road right-turn bay at a two-way stop-controlled intersection.

INPUT

Roadway geometry:	2-lane roadway
Variable	Value
Major-road speed, mph:	45
Major-road volume (one direction), veh/h:	706
Right-turn volume, veh/h:	66

OUTPUT

Variable	Value
Limiting right-turn volume, veh/h:	23
Guidance for determining the need for a major-road right-turn bay for a 2-lane roadway:	
Add right-turn bay.	



Binion Road and Boy Scout Road – Southbound Left-Turn Lane

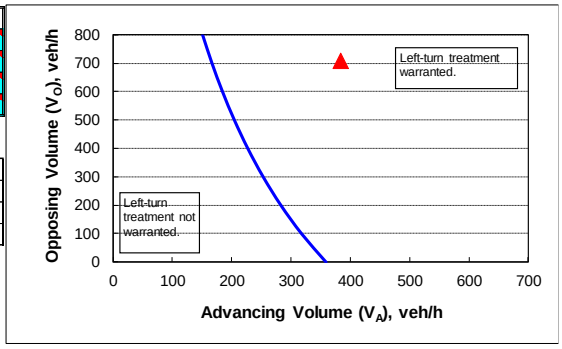
2-lane roadway (English)

INPUT

Variable	Value
85th percentile speed, mph:	45
Percent of left-turns in advancing volume (V_A), %:	29%
Advancing volume (V_A), veh/h:	385
Opposing volume (V_O), veh/h:	706

OUTPUT

Variable	Value
Limiting advancing volume (V_A), veh/h:	166
Guidance for determining the need for a major-road left-turn bay:	
Left-turn treatment warranted.	



CALIBRATION CONSTANTS

Variable	Value
Average time for making left-turn, s:	3.0
Critical headway, s:	5.0
Average time for left-turn vehicle to clear the advancing lane, s:	1.9

Boy Scout Road and Galway Boulevard/Parcel 3-A – Westbound Left Turn Lane

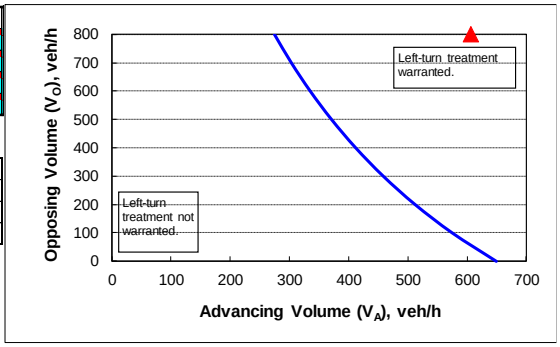
2-lane roadway (English)

INPUT

Variable	Value
85th percentile speed, mph:	45
Percent of left-turns in advancing volume (V_A), %:	7%
Advancing volume (V_A), veh/h:	607
Opposing volume (V_O), veh/h:	799

OUTPUT

Variable	Value
Limiting advancing volume (V_A), veh/h:	274
Guidance for determining the need for a major-road left-turn bay:	
Left-turn treatment warranted.	



CALIBRATION CONSTANTS

Variable	Value
Average time for making left-turn, s:	3.0
Critical headway, s:	5.0
Average time for left-turn vehicle to clear the advancing lane, s:	1.9

EXECUTIVE SUMMARY

Project Information

Limits:	Boy Scout Road from Binion Road to Ocoee Apopka Road
Jurisdiction:	City of Apopka, Florida
Description:	Speed Zone Study

Findings

Posted Speed Limit:	45 mph between Binion Road to Ocoee Apoka Road
Observed Speed:	50th percentile speed: 28 mph to 35 mph 85th percentile speed: 33 mph to 38 mph
Clear Zone:	Objects located within 5 feet to 25+ feet of travel lane Clear Zone requirements @ 45 mph – 24 feet Clear Zone requirements @ 35 mph – 14 feet
Existing Area Context:	C3R Suburban Class
Crash History:	Several incidents involving vehicles leaving the travel lane and left turn crash events. These crashes indicate an undesirable speed profile for the corridor.
Target Speed:	High growth area with urbanizing character, multiple approved residential and non-residential developments. A desirable and consistent speed limit throughout the corridor enhances safety, accessibility, and predictability for all users.

Recommendation

Reduce the posted speed limit on Boy Scout Road from Binion Road to Ocoee Apopka Road to 35 mph.

PROFESSIONAL ENGINEERING CERTIFICATION

I hereby certify that I am a Professional Engineer properly registered in the State of Florida practicing with Traffic & Mobility Consultants LLC, a corporation authorized to operate as an engineering business, CA-30024, by the State of Florida Department of Professional Regulation, Board of Professional Engineers, and that I have prepared or approved the evaluations, findings, opinions, conclusions, or technical advice attached hereto for:

PROJECT: Boy Scout Road Speed Zone Study

LOCATION: City of Apopka, Florida

CLIENT: Newkirk Engineering, Inc.

I hereby acknowledge that the procedures and references used to develop the results contained in these computations are standard to the professional practice of Transportation Engineering as applied through professional judgment and experience.

1.0 INTRODUCTION

This Speed Zone Study was performed to evaluate the speed limit on Boy Scout Road from Binion Road to Ocoee Apopka Road, located in City of Apopka based on existing and projected conditions of the corridor as it evolves from a rural area to an urbanizing area. The study was conducted in accordance with the guidelines and procedures outlined in the Florida Department of Transportation (FDOT) *Speed Zoning for Highways Manual, FDOT Context Classification Guide, Manual of Uniform Traffic Control Devices (MUTCD)* and standard engineering practice.

Ideally the design speed, target speed, and posted speed limit of a roadway segment are consistent and provide the motoring public with matching cues that result in drivers naturally traveling at the desired speed that is safe for the corridor. However, due to changing and evolving conditions, these speeds may be different from each other, resulting in inconsistent driver expectation about the preferred operating speed. In situations where the current design speed and target speed do not match, design, operational, and/or regulatory changes may be considered to bring the operating speed and posted speed into alignment with the target or desired speed ensuring the communicates its intended function more clearly to users.

The following analysis and review evaluate the existing and projected conditions on the Boy Scout Road corridor to provide a recommendation for the desired speed profile and regulatory speed limit for the study corridor.

2.0 CORRIDOR CHARACTERISTICS

2.1 Roadway Geometry

The Boy Scout Road study corridor is approximately 1.2-mile long and generally travels in the east-west direction. The annual average daily traffic along the corridor is approximately 2,500 vehicles according to the site counts collected for speed analysis. It is a 2-lane undivided roadway, with travel lanes between 10 to 12 feet wide, grass shoulders only on the south side of the roadway, and open swales for stormwater management. The roadway lanes are partially marked with outside lane pavement edge lines and double yellow centerline markings along the roadway. The roadway characteristics are consistent with typical non-urban roadways in the City of Apopka.

The roadway alignment has two (2) significant horizontal curves along the corridor. The first is located 600 feet east of Dawnridge Boulevard and is characterized by one (1) horizontal curve that turns the road south. The second is located at Galway Boulevard and is characterized by one (1) horizontal curve that turns the road east approximately 400 feet south of Galway Boulevard.

The vertical alignment of the roadway is rolling in the west with vertical curve, approximately 0.43 miles east of Binion Road. While specific sight distance limitations were not evaluated, the horizonal and vertical curves on the corridor generally have a restrictive effect on sight distance for vehicles entering and exiting the roadway.

The roadway's right-of-way varies throughout the corridor, ranging from approximately 55 feet to 65 feet, depending on location. **Figure 1** illustrates the corridor and existing characteristics.

2.2 Existing Speed Limit

The posted speed limit is 45 miles per hour (mph) on the corridor. There is an advisory 25 mph speed limit sign approaching the horizontal curve at the intersection of Stake Out Way. **Figure 1** illustrates the study corridor and the posted speed limits and advisory speeds along Boy Scout Road, as well as the speed counts site collection locations.

2.3 Planned and Programmed Improvements

The *City of Apopka Capital Improvements Plan,* the *Central Florida Expressway Five-Year Work Plan,* the *Orange County Long-Range Transportation Plan (LRTP)*, the *Orange County 10 Year Roadway Transportation Plan*, and the *FDOT Five Year Work Program* were reviewed to determine if there are any planned and funded improvements along the study corridor. Central Florida Expressway has programmed a new half interchange at SR 429 and Binion Road that will include the re-alignment of the western end of Boy Scout Road to Binion Road where a roundabout will be installed to accommodate the new half interchange ramps.

2.4 Land Use Context

The ±1.2-mile corridor currently serves a mixture of land uses including individual large lot residential properties, residential subdivisions, mid-rise high-density apartments, and a few remaining commercial uses. The corridor's land uses are typical of a transitioning corridor that is undergoing redevelopment, becoming an urbanized area as the City of Apopka and Orange County continue to experience growth as evidenced by the summary information provided by the City of Apopka in **Appendix A**.

Currently, there is significant development construction that is ongoing along the study corridor. The most notable projects are listed in **Table 1** and shown in **Figure 2**. The corridor will soon have one (1) new roundabout at the west end at the Binion Road intersection, realigned to the south to accommodate the new half interchange with SR 429.

2.5 Clear Zone

An analysis of the South Binion Road corridor highlights significant variability in the available clear zone, ranging from as little as 5 feet to over 25+ feet in different sections. The clear zone, which is the unobstructed area beyond the edge of the travel lane, is essential for allowing drivers to regain control of their vehicles in the event of a roadway departure. Its effectiveness is closely tied to the posted speed limit and roadway design, as higher speeds demand larger clear zones to mitigate crash severity. The Clear Zone Analysis of the corridor is as follows:

- **Binion Road to Stake Out Way**:
  Power lines are located between 5 and 25+ feet from the edge of the travel lanes in the eastbound direction. Additionally, sporadic obstacles such as trees and fences are present within 5 to 20 feet of the travel lanes on the westbound direction, potentially impacting driver safety.
- **Stake Out Way to Galway Boulevard:**
  Power lines are positioned between 12 and 25 feet from the edge of the travel lanes, and fences are present within 5 to 15 feet of the travel lanes on the eastbound direction. Additionally, pedestrian sidewalk presents within 7 to 15 feet of the travel lanes on the westbound direction. This segment shows no observed obstacles closer than 18 feet from the travel lanes, providing relatively better compliance with clear zone requirements.
- **Galway Boulevard to Ocoee Apopka Road**:
  Several obstacles, including trees and power poles, are situated as close as 4 feet from the travel lane. These obstructions pose a particularly high risk to road users.

According to *Table 215.2.1 in Section 215 of the Florida Design Manual (FDM)*, the required clear zone for a roadway with a design speed of 45 mph is 24 feet. By lowering the posted speed to align with the physical constraints of the roadway, the likelihood and severity of crashes involving roadside obstacles can be significantly mitigated. A lower speed profile also ensures a more predictable driving environment and reduces risks in areas where obstacles cannot be relocated. Incorporating clear zone evaluations into speed studies provides valuable insight for determining safe and appropriate speed limits. Aligning the posted speed with the available clear zone enhances roadway safety and ensures a consistent operating environment for all users. Further details regarding clear zone requirements, deficiencies, and measurements are provided in *Table 215.2.1*, included in **Appendix B**. This integrated approach supports safer roadway conditions while accommodating the evolving land use and traffic patterns along the corridor.

2.6 Historical Crash Data

Crash data was obtained from January 1, 2020, to December 10, 2024, from *Signal Four Analytics (S4A)* for the study corridor. The crash data and the crash heat map are included in **Appendix C.**

The historical crashes on Boy Scout Road reveal that a total of 19 crashes were reported during the five (5) year study period. The crashes were analyzed to determine the most prevalent crash types reported on the corridor. Based on the summary presented in **Table 2**, nearly 66% of the crashes on the corridor were either left turn or off road crashes.

Table 2
Crash Type Summary

Crash Type	2020	2021	2022	2023	2024*	Total	Percent
Angle	1	0	0	0	0	1	**5%**
Head On	1	0	0	0	0	1	**5%**
Left Turn	1	1	1	3	2	8	**42%**
Off Road	3	0	0	1	1	5	**26%**
Other	0	1	0	0	1	2	**11%**
Sideswipe	0	0	0	0	1	1	**5%**
Unknown	0	0	1	0	0	1	**5%**
Total	**6**	**2**	**2**	**4**	**5**	**19**	**100%**

** Data includes recorded crash reports through 12/10/2024*

Further review of the data indicates that six (6) of those crashes involved vehicles running into obstacles on the side of the road, further underscoring the correlation between the speed profile and the proximity of obstructions located within the clear zone.

Analysis of crash severity shows that 4 of the 19 crashes, or 21%, involved one or more injuries, as summarized in **Table 3**. A total of 43 suspected or reported injuries of varying severity occurred on the corridor during the study period.

Table 3
Crash Severity Summary

Crash Severity	2020	2021	2022	2023	2024*	Total	Percent
Fatal - K	0	0	0	0	0	0	0%
Incapacitating Injury - A	0	0	0	0	0	0	0%
Non-Incapacitating Injury - B	0	0	0	0	1	1	5%
Possible Injury - C	0	1	0	2	0	3	16%
Property Damage Only - O	6	1	2	2	4	15	79%
Total	**6**	**2**	**2**	**4**	**5**	**19**	**100%**

** Data includes recorded crash reports through 12/10/2024*

While excessive speed is not always directly cited as the cause of the crash, these crash types indicate a persistent issue with speeding that is causing vehicles to depart from the travel lanes or lose control and become involved in an accident in the corridor, which could be improved by reducing the speed profile on Boy Scout Road.

3.0 SPEED LIMIT EVALUATION

3.1 85th Percentile Speed

Vehicle speed data was collected on January 29, 2025, for a duration of 24 hours on Boy Scout Road between Binion Road and Ocoee-Apopka Road. The speed was measured at two (2) locations along the corridor to evaluate the effect of the various geometric conditions, including the vertical and horizontal curves on vehicle speed profiles. The volume, average speed, 85th percentile speed, 50th percentile, and 10-mile pace were evaluated for each count location. The 24-hour vehicle speed data at the two (2) observation stations is included in **Appendix D.**

The 85th percentile speed method takes the calculated 85th percentile speed, 10-mile pace, and speed limit reductions into consideration to determine the recommended posted speed limit, as outlined in the FDOT's *Speed Zoning Manual*. The recommended posted speed limit is determined by the lowest identified speed from the rounded 85th percentile speed and rounded upper limit of the 10-mile pace. The resulting speed recommendation may be reduced by up to 8 mph to account for roadway characteristics or desired target speeds based on land use context.

Therefore, for purposes of this review, adjustments of up to 8 mph were applied to reflect:

- Restricted clear zone.
- The roadway's horizontal and vertical alignment.
- The urbanizing land use context of the corridor.
- The anticipated access friction from new developments.

The final recommended speed was rounded to the nearest 5 mph increment to align with the prevailing speed profile and adjustments. The results of the speed data collection are provided in **Table 4**.

Table 4
Speed Study Summary

Station	Location	Direction	Volume	Speed 50th %ile	Speed 85th %ile	10-mph Pace	Speed Limt Observed	Adjustment	Adjusted
1	2,000 ft E. of Binion Rd	EB	969	28	33	26-35	33	3	30
		WB	903	35	38	31-40	38	3	35
2	600 ft W. of Ocoee Apopka Rd	EB	1,220	30	36	26-35	35	0	35
		WB	1,238	31	36	31-40	36	1	35

Based on the prevailing speed/85th percentile speed method, the recommended posted speed limit would be 35 mph. The prevailing speed data is also illustrated in **Figure 3**.

3.2 Target Speed

Target speed is the highest speed at which vehicles should operate on a thoroughfare in a specific context. The target speed is influenced by elements of roadway design that are governed by design speed, as well as the form and function of the adjacent uses beyond the right-of-way. While the target speed is typically established with the design or redesign of a roadway facility, it is appropriate to also consider target speed for an evolving corridor in order to ensure that design elements and speed control measures are deployed in such a manner that is consistent with attaining the desired target speed on the corridor over time, as the facility and its surroundings undergo their evolution and change.

The target speed limit is based on the land use context classification provided in the *FDOT Design Manual (FDM) Table 200.4.1* and the allowable speed range is based on the *FDOT Context Classification Guide*, which is included in **Appendix E**. Based on the growth pattern outlined in previous sections, the Boy Scout Road corridor and the surrounding area have transitioned consistent with the characteristics of the C3R – Suburban Residential context classification. Per *Table 201.5.1* of the *FDOT Context Classification Guide*, the allowable design speed range is 35 mph to 55 mph.

Boy Scout Road is currently posted at a speed limit of 45 mph throughout the study corridor. Therefore, based on the information obtained from the evaluation of the conditions on the study corridor, it is appropriate to target a posted speed of 35 mph, which falls within the allowable range for the C3 context classification.

4.0 FINDINGS AND RECOMMENDATIONS

This Speed Study was conducted to determine the recommended target, design, and posted speed limit on Boy Scout Road from Binion Road to Ocoee Apopka Road. The key findings of the analysis are summarized below.

- **Roadway Characteristics:** The study corridor is a two-lane undivided facility with 11 to 12 feet wide lanes, partially paved and grass shoulders, and vertical and horizontal curves.
- **Posted Speed Limits**: The 1.2-mile study segment has a posted speed limit of 45 mph.
- **Clear Zone Deficiencies**: The corridor has power poles, fire hydrants, property fences, trees and other clear zone obstructions on the east and west sides of the roadway. The available clear zone ranges from 5 feet to over 25 feet and is less than the required 24 feet in several areas.
- **Crash History**: The historical crash profile on the corridor shows that 66% of the 19 reported crashes involve vehicles leaving the roadway or left turn crashes.
- **Development and Traffic Growth:** The area is experiencing significant growth, including approved and planned residential units and commercial development.
- **Prevailing Speeds**: Observations of prevailing speeds on the corridor indicate that currently the 85th percentile speeds range from 33 mph to 38 mph. Determining the appropriate speed limit using the prevailing speed and allowable adjustments indicates that the speed limit should be set 35 mph.
- **Land Use Context**: The appropriate land use context classification for the corridor as it transforms is C3R – Suburban Residential classification with a recommended speed limit range of 35 mph and 55 mph. Based on the geometric, traffic, safety, and land use profiles, a target speed limit of 35 mph is appropriate.

Recommendation:

Based on this review and in recognition of the evolving nature of the corridor and its surrounding areas, it is recommended that the posted speed limit on Boy Scout Road from Binion Road to Ocoee Apopka Road be reduced to 35 mph. This adjustment would better align with the context of the roadway, enhancing safety for all road users. Below are some key considerations:

Traffic Calming and Predictability: Reducing the posted speed to 35 mph will help create a consistent and predictable operating environment for drivers. This change will prevent abrupt speed variations, align with desired operating speeds, and reduce the likelihood of crashes caused by inconsistent speed profiles.

Future Growth and Proactive Measures: With increasing residential units and commercial developments approved or under construction, traffic volumes will continue to increase on the corridor. This proactive speed reduction will address operational and safety issues before they escalate due to heightened development pressure.

Enforcement and Monitoring: To ensure compliance with the new speed limit, the implementation of speed-monitoring technologies, such as dynamic speed feedback signs, and coordination with law enforcement agencies is recommended.

Appendix B
Clear Zone Requirements

Figure 215.2.3 Adjusted Clear Zone Concept

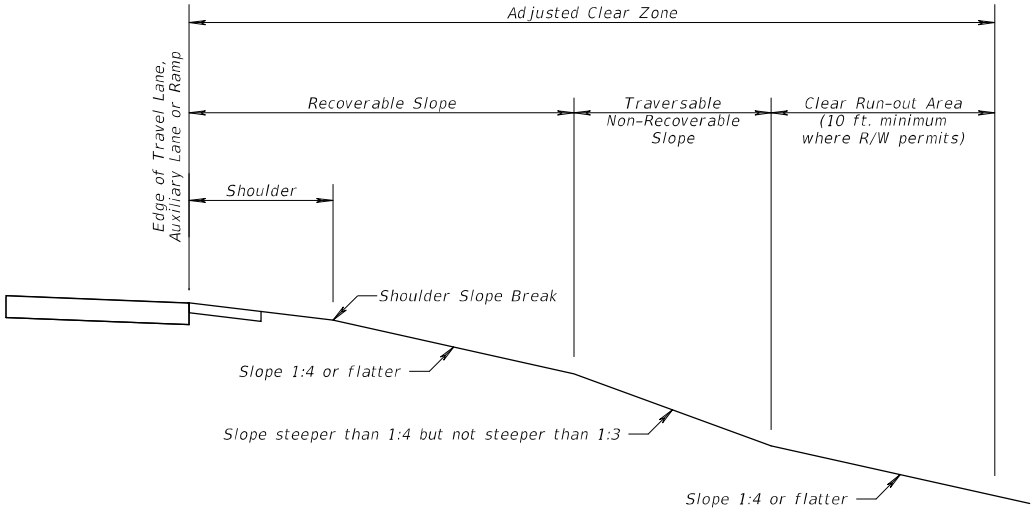

Table 215.2.1 Clear Zone Width Requirements

	Design Speed (mph)						
	≤ 30	35	40	45	50	55	≥ 60
Clear Zone Width for New Construction							
Travel Lanes & Multilane Ramps	12 feet	14 feet	18 feet	24 feet	24 feet	30 feet	36 feet
Auxiliary Lanes & Single Lane Ramps	10 feet	10 feet	10 feet	14 feet	14 feet	18 feet	24 feet
Clear Zone Width for RRR Projects							
Travel Lanes & Multilane Ramps	6 feet	6 feet	6 feet	14 feet	18 feet	18 feet	18 feet
Auxiliary Lanes & Single Lane Ramps	6 feet	6 feet	6 feet	8 feet	8 feet	8 feet	8 feet

Clear zone widths for work zones are provided in ***Standard Plans*, *Index 102-600***.

Table 215.2.2 Minimum Lateral Offset Criteria

Design Element		Curbed Roadways				High Speed Curbed and Flush Shoulder Roadway
		New Construction		RRR		
		Design Speed				
		25-35 mph	40-45 mph	25-35 mph	40-45 mph	
Light Poles	**Conventional**	Do not locate in Medians, except in conjunction with barriers that are justified for other reasons. See ***FDM 215.2.9***.				
		1.5 feet	4.0 feet	1.5 feet	1.5 feet	20 feet from Travel Lane, 14 feet from Auxiliary Lane, or Clear Zone width, whichever is less
	High Mast	Outside Clear Zone				
Signal Poles and Controller Cabinets		Do not locate in Medians. See ***FDM 215.2.9***.				
		1.5 feet	4.0 feet	1.5 feet	1.5 feet	Outside Clear Zone
Traffic Infraction Detectors		For placement and installation specifications, refer to the State Traffic Engineering and Operations Office web page: http://www.fdot.gov/traffic/				
ITS Poles and Related Items	**Pole & Other Aboveground Fixed Objects**	Do not locate in Medians, except in conjunction with barriers that are justified for other reasons. See ***FDM 215.2.9***.				
		1.5 feet	4.0 feet	1.5 feet	4.0 feet	Outside Clear Zone
	Equipment Shelters and Towers	Do not locate within the limited-access right of way, except as allowed by ***Policy No. 000-625-025***, ***Telecommunications Facilities on Limited Access Rights of Way***.				
	Breakaway Objects	1.5 feet	4.0 feet	1.5 feet	4.0 feet	As Close to R/W As Possible
Traffic Control Signs	**Single and Multi-Column**	Locate in accordance with Standard Plans.				
	Overhead Sign Structures	Outside Clear Zone				
Trees	**Where the diameter is or is expected to be > 4 inches measured 6 inches above the ground**	1.5 feet	4.0 feet	1.5 feet	1.5 feet	Outside Clear Zone
		RRR Projects: (1) Meet New Construction criteria for new plantings.

C3 Suburban	35-55	50
C4 Urban General	25-45	45
C5 Urban Center	25-35	35
C6 Urban Core	25-30	30

Notes:

(1) SIS Minimum Design Speed may be reduced to 35 mph for C2T Context Classification when appropriate design elements are included to support the 35-mph speed, such as on-street parking.

(2) SIS Minimum Design Speed may be reduced to 45 mph for curbed roadways within C3 Context Classification.

(3) For SIS facilities on the State Highway System, a selected Design Speed less than the SIS Minimum Design Speed requires a Design Variation as outlined in ***SIS Procedure (Topic No. 525-030-260)***.

(4) For SIS facilities not on the State Highway System, a selected Design Speed less than the SIS Minimum Design Speed may be approved by the District Design Engineer following a review by the District Planning (Intermodal Systems Development) Manager.

INDEPENDENT AUDITOR'S REPORT

To the Board of Supervisors
Ridge at Apopka Community Development District
City of Apopka, Florida

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities and each major fund of Ridge at Apopka Community Development District, City of Apopka, Florida ("District") as of and for the fiscal year ended September 30, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District as of September 30, 2025, and the respective changes in financial position thereof for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

The District's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information Included in the Financial Report

Management is responsible for the other information included in the financial report. The other information comprises the information for compliance with FL Statute 218.39 (3) (c) but does not include the financial statements and our auditor's report thereon. Our opinions on the financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated March 3, 2026, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Grau & Associates

MANAGEMENT'S DISCUSSION AND ANALYSIS

Our discussion and analysis of Ridge at Apopka Community Development District, City of Apopka, Florida ("District") provides a narrative overview of the District's financial activities for the fiscal year ended September 30, 2025. Please read it in conjunction with the District's Independent Auditor's Report, basic financial statements, accompanying notes and supplementary information to the basic financial statements.

FINANCIAL HIGHLIGHTS

- The assets of the District exceeded its liabilities at the close of the most recent fiscal year resulting in a net position balance of $296,416.

- The change in the District's total net position in comparison with the prior fiscal year was $371,845, an increase. The key components of the District's net position and change in net position are reflected in the table in the government-wide financial analysis section

- At September 30, 2025, the District's governmental funds reported combined ending fund balances of $1,755,307, an increase of $86,223 in comparison with the prior fiscal year. The total fund balance is nonspendable for prepaid items, restricted for debt service and capital projects, and the remainder is unassigned fund balance which is available for spending at the District's discretion.

OVERVIEW OF FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as the introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the residual amount being reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The government-wide financial statements include all governmental activities that are principally supported by assessments. The District does not have any business-type activities. The governmental activities of the District include the general government (administrative) and maintenance functions.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The District has one fund category: governmental funds.

OVERVIEW OF FINANCIAL STATEMENTS (Continued)

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains three governmental funds for external reporting. Information is presented separately in the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, debt service fund and capital projects fund, all of which are considered major funds.

The District adopts an annual appropriated budget for its general fund. A budgetary comparison schedule has been provided for the general fund to demonstrate compliance with the budget.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of an entity's financial position. In the case of the District, assets exceeded liabilities at the close of the most recent fiscal year.

Key components of the District's net position are reflected in the following table:

NET POSITION
SEPTEMBER 30,

	2025	2024
Current and other assets	$ 1,783,936	$ 1,693,406
Capital assets, net of depreciation	14,769,313	14,769,313
Total assets	16,553,249	16,462,719
Current liabilities	378,337	379,652
Long-term liabilities	15,878,496	16,158,496
Total liabilities	16,256,833	16,538,148
Net position		
Net investment in capital assets	(1,106,655)	(1,386,757)
Restricted	1,282,819	1,199,546
Unrestricted	120,252	111,782
Total net position	$ 296,416	$ (75,429)

The District's net position reflects its investment in capital assets (e.g. land, land improvements, and infrastructure); less any related debt used to acquire those assets that is still outstanding. These assets are used to provide services to residents; consequently, these assets are not available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

GOVERNMENT-WIDE FINANCIAL ANALYSIS (Continued)

The restricted portion of the District's net position represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position may be used to meet the District's other obligations.

The District's net position increased during the most recent fiscal year. The majority of the increase represents the extent to which ongoing program revenues exceeded the cost of operations.

Key elements of the change in net position are reflected in the following table:

CHANGES IN NET POSITION
FOR THE FISCAL YEAR ENDED SEPTEMBER 30,

	2025	2024
Revenues:		
Program revenues		
Charges for services	$ 1,369,080	$ 1,356,676
Operating grants and contributions	58,226	63,397
Capital grants and contributions	102	63,081
General revenues		
Miscellaneous	-	2,764
Total revenues	1,427,408	1,485,918
Expenses:		
General government	85,344	77,081
Maintenance and operations	123,047	56,750
Interest	847,172	850,077
Cost of Issuance	-	5,925
Total expenses	1,055,563	989,833
Change in net position	371,845	496,085
Net position - beginning	(75,429)	(571,514)
Net position - ending	$ 296,416	$ (75,429)

As noted above and in the statement of activities, the cost of all governmental activities during the fiscal year ended September 30, 2025 was $1,055,563. The costs of the District's activities were funded by program revenues. Program revenues of the District are comprised primarily of assessments for the current fiscal year. In total, expenses increased from the prior fiscal year. The majority of the increase was the result of an increase in professional services including the maintenance and operations.

GENERAL BUDGETING HIGHLIGHTS

An operating budget was adopted and maintained by the governing board for the District pursuant to the requirements of Florida Statutes. The budget is adopted using the same basis of accounting that is used in preparation of the fund financial statements. The legal level of budgetary control, the level at which expenditures may not exceed budget, is in the aggregate. Any budget amendments that increase the aggregate budgeted appropriations must be approved by the Board of Supervisors. Actual general fund expenditures did not exceed appropriations for the fiscal year ended September 30, 2025.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At September 30, 2025, the District had $14,769,313 invested in capital assets for its governmental activities. No depreciation has been taken in the current fiscal year as the District's infrastructure and other capital assets are under construction. More detailed information about the District's capital assets is presented in the notes of the financial statements.

Capital Debt

At September 30, 2025, the District had $15,485,000 in Bonds outstanding for its governmental activities. At September 30, 2025, the District also reported a Developer advance of $393,496 for its governmental activities. More detailed information about the District's capital debt is presented in the notes of the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND OTHER EVENTS

For the subsequent fiscal year, the District anticipates that the cost of general operations will increase as the District is built out.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, land owners, customers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the financial resources it manages and the stewardship of the facilities it maintains. If you have questions about this report or need additional financial information, contact the Ridge at Apopka Community Development District's Finance Department at 219 E. Livingston St., Orlando Florida, 32801.

RIDGE AT APOPKA COMMUNITY DEVELOPMENT DISTRICT
CITY OF APOPKA, FLORIDA
NOTES TO FINANCIAL STATEMENTS

NOTE 1 – NATURE OF ORGANIZATION AND REPORTING ENTITY

Ridge at Apopka Community Development District ("District") was created by Ordinance 2859 by the City Council of the City of Apopka, Florida enacted on September 8, 2021 and established pursuant to the Uniform Community Development District Act of 1980, otherwise known as Chapter 190, Florida Statutes. The Act provides among other things, the power to manage basic services for community development, power to borrow money and issue Bonds, and to levy and assess non-ad valorem assessments for the financing and delivery of capital infrastructure.

The District was established for the purposes of financing and managing the acquisition, construction, maintenance and operation of a portion of the infrastructure necessary for community development within the District.

The District is governed by the Board of Supervisors ("Board"), which is composed of five members. The Supervisors are elected on an at large basis by the owners of the property within the District. Ownership of land within the District entitles the owner to one vote per acre. The Board exercises all powers granted to the District pursuant to Chapter 190, Florida Statutes. All of the Board members are affiliated with Apopka Centerline Development LLC, the (“Developer”).

The Board has the responsibility for:
1. Assessing and levying assessments.
2. Approving budgets.
3. Exercising control over facilities and properties.
4. Controlling the use of funds generated by the District.
5. Approving the hiring and firing of key personnel.
6. Financing improvements.

The financial statements were prepared in accordance with Governmental Accounting Standards Board (“GASB”) Statements. Under the provisions of those standards, the financial reporting entity consists of the primary government, organizations for which the District Board of Supervisors is considered to be financially accountable, and other organizations for which the nature and significance of their relationship with the District are such that, if excluded, the financial statements of the District would be considered incomplete or misleading. There are no entities considered to be component units of the District; therefore, the financial statements include only the operations of the District.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Government-Wide and Fund Financial Statements
The basic financial statements include both government-wide and fund financial statements.

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment. Operating-type special assessments for maintenance and debt service are treated as charges for services; and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Other items not included among program revenues are reported instead as *general revenues*.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement* focus and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Assessments are recognized as revenues in the year for which they are levied. Grants and similar items are to be recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures are recorded only when payment is due.

Assessments

Assessments are non-ad valorem assessments on certain land and all platted lots within the District. Assessments are levied each November 1 on property of record as of the previous January. The fiscal year for which annual assessments are levied begins on October 1 with discounts available for payments through February 28 and become delinquent on April 1. For debt service assessments, amounts collected as advance payments are used to prepay a portion of the Bonds outstanding. Otherwise, assessments are collected annually to provide funds for the debt service on the portion of the Bonds which are not paid with prepaid assessments.

Assessments and interest associated with the current fiscal period are considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. The portion of assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period.

The District reports the following major governmental funds:

General Fund

The general fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

Debt Service Fund

The debt service fund is used to account for the accumulation of resources for the annual payment of principal and interest on long-term debt.

Capital Projects Fund

This fund accounts for the financial resources to be used for the acquisition or construction of major infrastructure within the District.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first for qualifying expenditures, then unrestricted resources as they are needed.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Assets, Liabilities and Net Position or Equity

Restricted Assets
These assets represent cash and investments set aside pursuant to Bond covenants or other contractual restrictions.

Deposits and Investments
The District's cash and cash equivalents are considered to be cash on hand and demand deposits (interest and non-interest bearing).

The District has elected to proceed under the Alternative Investment Guidelines as set forth in Section 218.415 (17) Florida Statutes. The District may invest any surplus public funds in the following:

a) The Local Government Surplus Trust Funds, or any intergovernmental investment pool authorized pursuant to the Florida Inter-local Cooperation Act;
b) Securities and Exchange Commission registered money market funds with the highest credit quality rating from a nationally recognized rating agency;
c) Interest bearing time deposits or savings accounts in qualified public depositories;
d) Direct obligations of the U.S. Treasury.

Securities listed in paragraph c and d shall be invested to provide sufficient liquidity to pay obligations as they come due. In addition, unspent Bond proceeds are required to be held in investments as specified in the Bond Indentures.

The District records all interest revenue related to investment activities in the respective funds. Investments are measured at amortized cost or reported at fair value as required by generally accepted accounting principles.

Prepaid Items
Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

Capital Assets
Capital assets which include property, plant and equipment, and infrastructure assets (e.g., roads, sidewalks and similar items) are reported in the government activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than $5,000 (amount not rounded) and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Unearned Revenue
Governmental funds report unearned revenue in connection with resources that have been received, but not yet earned.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Assets, Liabilities and Net Position or Equity (Continued)

Long-Term Obligations
In the government-wide financial statements long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Bond premiums and discounts are deferred and amortized over the life of the Bonds. Bonds payable are reported net of applicable premiums or discounts. Bond issuance costs are reported as an expense in the year incurred.

In the fund financial statements, governmental fund types recognize premiums and discounts, as well as issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Deferred Outflows/Inflows of Resources
In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

Fund Equity/Net Position
In the fund financial statements, governmental funds report non spendable and restricted fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Assignments of fund balance represent tentative management plans that are subject to change.

The District can establish limitations on the use of fund balance as follows:

Committed fund balance – Amounts that can be used only for the specific purposes determined by a formal action (resolution) of the Board of Supervisors. Commitments may be changed or lifted only by the Board of Supervisors taking the same formal action (resolution) that imposed the constraint originally. Resources accumulated pursuant to stabilization arrangements sometimes are reported in this category.

Assigned fund balance – Includes spendable fund balance amounts established by the Board of Supervisors that are intended to be used for specific purposes that are neither considered restricted nor committed. The Board may also assign fund balance as it does when appropriating fund balance to cover differences in estimated revenue and appropriations in the subsequent year's appropriated budget. Assignments are generally temporary and normally the same formal action need not be taken to remove the assignment.

The District first uses committed fund balance, followed by assigned fund balance and then unassigned fund balance when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Net position is the difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources. Net position in the government-wide financial statements are categorized as net investment in capital assets, restricted or unrestricted. Net investment in capital assets represents net position related to infrastructure and property, plant and equipment. Restricted net position represents the assets restricted by the District's Bond covenants or other contractual restrictions. Unrestricted net position consists of the net position not meeting the definition of either of the other two components.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Other Disclosures

Use of Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

NOTE 3 – BUDGETARY INFORMATION

The District is required to establish a budgetary system and an approved Annual Budget. Annual Budgets are adopted on a basis consistent with generally accepted accounting principles for the general fund. All annual appropriations lapse at fiscal year-end.

The District follows these procedures in establishing the budgetary data reflected in the financial statements.

a) Each year the District Manager submits to the District Board a proposed operating budget for the fiscal year commencing the following October 1.
b) Public hearings are conducted to obtain public comments.
c) Prior to October 1, the budget is legally adopted by the District Board.
d) All budget changes must be approved by the District Board.
e) The budgets are adopted on a basis consistent with generally accepted accounting principles.
f) Unused appropriation for annually budgeted funds lapse at the end of the year.

NOTE 4 – DEPOSITS AND INVESTMENTS

Deposits
The District's cash balances were entirely covered by federal depository insurance or by a collateral pool pledged to the State Treasurer. Florida Statutes Chapter 280, "Florida Security for Public Deposits Act", requires all qualified depositories to deposit with the Treasurer or another banking institution eligible collateral equal to various percentages of the average daily balance for each month of all public deposits in excess of any applicable deposit insurance held. The percentage of eligible collateral (generally, U.S. Governmental and agency securities, state or local government debt, or corporate bonds) to public deposits is dependent upon the depository's financial history and its compliance with Chapter 280. In the event of a failure of a qualified public depository, the remaining public depositories would be responsible for covering any resulting losses.

Investments
The District's investments were held as follows at September 30, 2025:

	Amortized Cost	Credit Risk	Maturities
First American Government Obligations Fund - Class Y	$ 1,640,063	S&P AAAm	Weighted average of the fund portfolio: 45 days

Custodial credit risk – For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of the investments or collateral securities that are in the possession of an outside party. The District has no formal policy for custodial risk.

NOTE 4 – DEPOSITS AND INVESTMENTS (Continued)

Investments (Continued)

Credit risk – For investments, credit risk is generally the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Investment ratings by investment type are included in the preceding summary of investments.

Concentration risk – The District places no limit on the amount the District may invest in any one issuer.

Interest rate risk – The District does not have a formal policy that limits investment maturities as a means of managing exposure to fair value losses arising from increasing interest rates.

However, the Bond Indentures limit the type of investments held using unspent proceeds.

Fair Value Measurement – When applicable, the District measures and records its investments using fair value measurement guidelines established in accordance with GASB Statements. The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques.

These guidelines recognize a three-tiered fair value hierarchy, in order of highest priority, as follows:

- *Level 1:* Investments whose values are based on unadjusted quoted prices for identical investments in active markets that the District has the ability to access;
- *Level 2:* Investments whose inputs - other than quoted market prices - are observable either directly or indirectly; and,
- *Level 3:* Investments whose inputs are unobservable.

The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the entire fair value measurement. Valuation techniques used should maximize the use of observable inputs and minimize the use of unobservable inputs.

Money market investments that have a maturity at the time of purchase of one year or less and are held by governments other than external investment pools should be measured at amortized cost. Accordingly, the District's remaining investments have been reported at amortized costs above.

NOTE 5 – CAPITAL ASSETS

Capital asset activity for the fiscal year ended September 30, 2025 was as follows:

	Beginning Balance	Additions	Reductions	Ending Balance
Governmental activities				
Capital assets, not being depreciated				
Infrastructure under construction	$ 14,769,313	$ -	$ -	$ 14,769,313
Total capital assets, not being depreciated	14,769,313	-	-	14,769,313
Governmental activities capital assets, net	$ 14,769,313	$ -	$ -	$ 14,769,313

The infrastructure intended to serve the District has been estimated at a total cost of approximately $36,300,000. The infrastructure will include roadways, potable water and wastewater systems, stormwater improvements, and other infrastructure improvements. A portion of the project costs was expected to be financed with the proceeds from the issuance of Bonds with the remainder to be funded by the Developer and conveyed to the District. Upon completion, certain improvements are to be conveyed to others for ownership and maintenance responsibilities.

NOTE 6 – LONG-TERM LIABILITIES

Series 2022

On May 6, 2022, the District issued $12,935,000 of Special Assessment Revenue Bonds, Series 2022 consisting of $1,025,000 Term Bonds Series 2022 due on May 1, 2027 with a fixed interest rate of 4.75% and $1,300,000 Term Bonds Series 2022 due on May 1, 2032 with a fixed interest rate of 5.0% and $3,895,000 Term Bonds Series 2022 due on May 1, 2042 with a fixed interest rate of 5.375% and $6,715,000 Term Bonds Series 2022 due on May 1, 2052 with a fixed interest rate of 5.50%. Bonds were issued to finance the acquisition and construction of certain improvements for the benefit of the District. Interest is to be paid semiannually on each May 1 and November 1, commencing November 1, 2022. Principal on the Bonds is to be paid serially commencing May 1, 2023 through May 1, 2052.

The Series 2022 Bonds are subject to redemption at the option of the District prior to their maturity. The Series 2022 Bonds are subject to extraordinary mandatory redemption prior to their selected maturity in the manner determined by the Bond Registrar if certain events occurred as outlined in the Bond Indenture. This occurred during the current fiscal year as the District collected assessments from lot closings and prepaid $30,000 of the Series 2022 Bonds.

The Bond Indenture established a debt service reserve requirement as well as other restrictions and requirements relating principally to the use of proceeds to pay for the infrastructure improvements and the procedures to be followed by the District on assessments to property owners. The District agrees to levy special assessments in annual amounts adequate to provide payment of debt service and to meet the reserve requirements. Upon satisfaction of certain conditions, a portion of the original reserve requirements will be transferred to the acquisition and construction trust account to pay for project costs in accordance with the bond indenture; this did not occur during the current fiscal year. The District was in compliance with the requirements at September 30, 2025.

Series 2023

On August 23, 2023, the District issued $3,255,000 of Special Assessment Bonds, Series 2023 consisting of Term Bonds with due dates of May 1, 2030 to May 1 2053 and fixed interest rate ranging from 4.75% to 5.75%. The Bonds were issued to finance the acquisition and construction of certain improvements for the benefit of the District. Interest is to be paid semiannually on each May 1 and November 1, commencing November 1, 2023. Principal on the Bonds is to be paid serially commencing May 1, 2024 through May 1, 2053.

The Series 2023 Bonds are subject to redemption at the option of the District prior to their maturity. The Series 2023 Bonds are subject to extraordinary mandatory redemption prior to their selected maturity in the manner determined by the Bond Registrar if certain events occurred as outlined in the Bond Indenture.

The Bond Indenture established a debt service reserve requirement as well as other restrictions and requirements relating principally to the use of proceeds to pay for the infrastructure improvements and the procedures to be followed by the District on assessments to property owners. The District agrees to levy special assessments in annual amounts adequate to provide payment of debt service and to meet the reserve requirements. Upon satisfaction of certain conditions, a portion of the original reserve requirements will be transferred to the acquisition and construction trust account to pay for project costs in accordance with the bond indenture; this did not occur during the current fiscal year. The District was in compliance with the requirements at September 30, 2025.

Developer Advance

During the prior fiscal year, the Developer has advanced the District a total of $393,496 to fund the construction and acquisition of infrastructure improvements associated with the project. The amount is recorded as a long-term liability as of September 30, 2025. The District intends to repay the Developer advance through the release of its Series 2022 Debt Service reserve in subsequent periods.

NOTE 6 – LONG-TERM LIABILITIES (Continued)

Long-term Debt Activity

Changes in long-term liability activity for the fiscal year ended September 30, 2025 were as follows:

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Governmental activities					
Bonds payable:					
Series 2022	$ 12,555,000	$ -	$ 235,000	$ 12,320,000	$ 215,000
Series 2023	3,210,000	-	45,000	3,165,000	50,000
Direct borrowings:					
Developer advances	393,496	-	-	393,496	-
Total	$ 16,158,496	$ -	$ 280,000	$ 15,878,496	$ 265,000

At September 30, 2025, the scheduled debt service requirements on the long-term debt were as follows:

Year ending	Governmental Activities		
September 30:	Principal	Interest	Total
2026	$ 265,000	$ 839,301	$ 1,104,301
2027	275,000	826,713	1,101,713
2028	290,000	813,651	1,103,651
2029	300,000	799,288	1,099,288
2030	320,000	784,426	1,104,426
2031-2035	1,865,000	3,659,826	5,524,826
2036-2040	2,455,000	3,098,782	5,553,782
2041-2045	3,210,000	2,357,082	5,567,082
2046-2050	4,240,000	1,362,788	5,602,788
2051-2053	2,265,000	209,688	2,474,688
Total	$ 15,485,000	$ 14,751,545	$ 30,236,545

NOTE 7 – DEVELOPER TRANSACTIONS

The Developer owns a portion of land within the District; therefore, assessment revenues in the general and debt service funds include the assessments levied on those lots owned by the Developer.

NOTE 8 – CONCENTRATION

The District's activity is dependent upon the continued involvement of the Developer, the loss of which could have a material adverse effect on the District's operations.

NOTE 9 – MANAGEMENT AGREEMENTS

The District has contracted with a management company to perform management advisory services, which include financial and accounting advisory services. Certain employees of the management company also serve as officers of the District. Under the agreement, the District compensates the management company for management, accounting, financial reporting, computer and other administrative costs.

NOTE 10 – RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The District has obtained commercial insurance from independent third parties to mitigate the costs of these risks; coverage may not extend to all situations. There were no settled claims during the past three years.

RIDGE AT APOPKA COMMUNITY DEVELOPMENT DISTRICT
CITY OF APOPKA, FLORIDA
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

The District is required to establish a budgetary system and an approved Annual Budget for the general fund. The District's budgeting process is based on estimates of cash receipts and cash expenditures which are approved by the Board. The budget approximates a basis consistent with accounting principles generally accepted in the United States of America (generally accepted accounting principles).

The legal level of budgetary control, the level at which expenditures may not exceed budget, is in the aggregate. Any budget amendments that increase the aggregate budgeted appropriations must be approved by the Board of Supervisors. Actual general fund expenditures did not exceed appropriations for the fiscal year ended September 30, 2025.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Supervisors
Ridge at Apopka Community Development District
City of Apopka, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of Ridge at Apopka Community Development District, City of Apopka, Florida ("District") as of and for the fiscal year ended September 30, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our opinion thereon dated March 3, 2026.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH THE REQUIREMENTS OF SECTION 218.415, FLORIDA STATUTES, REQUIRED BY RULE 10.556(10) OF THE AUDITOR GENERAL OF THE STATE OF FLORIDA

To the Board of Supervisors
Ridge at Apopka Community Development District
City of Apopka, Florida

We have examined Ridge at Apopka Community Development District, City of Apopka, Florida's ("District") compliance with the requirements of Section 218.415, Florida Statutes, in accordance with Rule 10.556(10) of the Auditor General of the State of Florida during the fiscal year ended September 30, 2025. Management is responsible for District's compliance with those requirements. Our responsibility is to express an opinion on District's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the District complied, in all material respects, with the specified requirements referenced in Section 218.415, Florida Statutes. An examination involves performing procedures to obtain evidence about whether the District complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion. Our examination does not provide a legal determination on the District's compliance with specified requirements.

We are required to be independent and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to the examination engagement.

In our opinion, the District complied, in all material respects, with the aforementioned requirements for the fiscal year ended September 30, 2025.

This report is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, management, and the Board of Supervisors of Ridge at Apopka Community Development District, City of Apopka, Florida and is not intended to be and should not be used by anyone other than these specified parties.

City of Apopka, Florida

Report on the Financial Statements

We have audited the accompanying basic financial statements of Ridge at Apopka Community Development District, City of Apopka, Florida ("District") as of and for the fiscal year ended September 30, 2025 and have issued our report thereon dated March 3, 2026.

Auditor's Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in G*overnment Auditing Standards,* issued by the Comptroller General of the United States; and Chapter 10.550, Rules of the Auditor General.

Other Reporting Requirements

We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards;* and Independent Auditor's Report on an examination conducted in accordance with *AICPA Professional Standards*, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General. Disclosures in those reports, which are dated March 3, 2026, should be considered in conjunction with this management letter.

Purpose of this Letter

The purpose of this letter is to comment on those matters required by Chapter 10.550 of the Rules of the Auditor General of the state of Florida. Accordingly, in connection with our audit of the financial statements of the District, as described in the first paragraph, we report the following:

I. Current year findings and recommendations.
II. Status of prior year findings and recommendations.
III. Compliance with the Provisions of the Auditor General of the State of Florida.

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, as applicable, management, and the Board of Supervisors of Ridge at Apopka Community Development District, City of Apopka, Florida and is not intended to be and should not be used by anyone other than these specified parties.

We wish to thank Ridge at Apopka Community Development District, City of Apopka, Florida and the personnel associated with it, for the opportunity to be of service to them in this endeavor as well as future engagements, and the courtesies extended to us.

Grau & Associates

March 3, 2026

REPORT TO MANAGEMENT

I. CURRENT YEAR FINDINGS AND RECOMMENDATIONS

None

II. PRIOR YEAR FINDINGS AND RECOMMENDATIONS

None

III. COMPLIANCE WITH THE PROVISIONS OF THE AUDITOR GENERAL OF THE STATE OF FLORIDA

Unless otherwise required to be reported in the auditor's report on compliance and internal controls, the management letter shall include, but not be limited to the following:

1. A statement as to whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report.

2. There were no significant findings and recommendations made in the preceding annual financial audit report for the fiscal year ended September 30, 2024.

3. Any recommendations to improve the local governmental entity's financial management.

   There were no such matters discovered by, or that came to the attention of, the auditor, to be reported for the fiscal year ended September 30, 2025.

4. Noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance.

   There were no such matters discovered by, or that came to the attention of, the auditor, to be reported, for the fiscal year ended September 30, 2025.

5. The name or official title and legal authority of the District are disclosed in the notes to the financial statements.

6. The District has not met one or more of the financial emergency conditions described in Section 218.503(1), Florida Statutes.

7. We applied financial condition assessment procedures and no deteriorating financial conditions were noted as of September 30, 2025. It is management's responsibility to monitor financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same.

8. Management has provided the specific information required by Section 218.39(3)(c) in the Other Information section of the financial statements on page 23.

City of Apopka
CITY COMMISSION STAFF REPORT

Section: BUSINESS (Action Item)
Item #: 4.
Meeting Date: August 5, 2026
Department: Community Development

SUBJECT:
Quasi-Judicial - Cold Link Apopka - Revised Major Development Plan

ACTION ITEM INFORMATION:
Owner(s): MG88 Central Florida Cold Storage II LLC
Applicant(s): Joshua Enot
Location: 2560 W. Orange Blossom Trail
Project: New 168,180 SF Building
Density: 0.6 Maximum FAR
Project Manager: Amer Hamza

REQUEST:
Approve the Cold Link Apopka - Major Development Plan.

SUMMARY:
Owner(s): MG88 Central Florida Cold Storage II LLC
Applicant(s): Joshua Enot
Parcel Identification Number(s): 06-21-28-7172-02-011
Location: 2560 W. Orange Blossom Trail
Tract: 27.63 +/- acre(s)
Project: New 168,600 SF Building
Density/Intensity: 0.6 Maximum FAR
Project Manager: Amer Hamza

Direction	Future Land Use	Zoning	Present Use
North	Commercial, County Commercial	I-L (Light Industrial District), County C-3 (Wholesale Commercial District)	Car Dealership, Vacant Land
East	Industrial	I-L (Light Industrial District)	Warehouse
South	Industrial	I-L (Light Industrial District)	Warehouse
West	Industrial	I-L (Light Industrial District)	Warehouse

PROJECT SUMMARY:
The subject property has a total area of approximately 27.63 acres, and has a Future Land Use of Industrial which allows a maximum of 0.6 FAR and has a zoning of I-L (Light Industrial District). The Cold Link Apopka - Major Development Plan details a plan for a new warehouse building onto an existing warehouse facility. This project was previously approved by the Planning Commission on February 10, 2026 and City Commission on March 4, 2026. The project is being revised due to a scrivener's error by the applicant as the original plan had a total square footage of 147,624 square feet. The revised plan details the total square footage of the new building at a total of 168,600 square feet. The I-L (Light Industrial) zoning district requires an open space area of 5%, equivalent to 0.59 acres. The applicant proposes 1.87 acres of open space which includes site landscaping. The I-L (Light Industrial District) allows up to a maximum height of 45’ but the proposed building will have a total height of 56’ 9” which is

permitted through a height variance that was approved by the Planning Commission on June 10, 2025. Access to the site is proposed from Mayflower Avenue to the south of the site. The Mayflower Avenue right-of-way will be improved to city standards. In regard to parking and loading areas, the applicant proposes the following in comparison to the minimum requirement:

Parking Type	Parking Required	Parking Proposed
Regular Spaces	60.2	61
ADA Accessible Spaces	3	3
Total Parking	63.2	64
Loading Berth	14	21
Semi Truck Spaces	0	31

The landscape plan shows a variety of trees being proposed in the project area such as Crape Myrtle, Japanese Privet, and Southern Live Oak trees. There will also be foundation plantings alongside the primary façade and plantings alongside the parking lot as required by LDC Section 5.2.5.A and LDC Section 5.2.5.B.1.C. The revised plan was approved by the development review committee on June 24, 2026.

The Development Review Committee finds that the applicant demonstrates there is competent substantial evidence in the record that all of the following standards are met:
a. The proposed development and use(s) in the development plan comply with Article 3: Zoning Districts, and Article 4: Use Regulations;
b. The development proposed in the development plan and its general layout and design comply with all the standards in Article 5: Development Standards, and Article 6: Environmental Standards;
c. The development proposed in the development plan complies with all conditions of approval in any development approval or permit to which the plan is subject;
d. The development proposed in the development plan complies with all other applicable standards in this LDC and all other City regulations.

Approval of a Major Development Plan does not authorize development on the subject property. Construction Site Plan approval from the Development Review Committee will be required to be obtained prior to site and building construction.

ORANGE COUNTY NOTIFICATION:
Orange County was notified at the time of the site plan submittal for this property through the DRC agenda distribution.

PUBLIC HEARING SCHEDULE:
July 14, 2026 – Planning Commission (5:30 P.M.)
August 5, 2026 – City Council (1:30 P.M.)

FUNDING SOURCE:
N/A

RECOMMENDED MOTION:
Development Review Committee:
On June 24, 2026, the DRC found the proposed Cold Link Apopka – Major Development Plan consistent with the Comprehensive Plan and Land Development Code, and recommends approval of the Major Development Plan, based on the findings and facts presented in the staff report and exhibits.

Planning Commission:
On July 14, 2026, the Planning Commission found the proposed Cold Link Apopka – Major Development Plan consistent with the Comprehensive Plan and Land Development Code, and recommends approval of the Major Development Plan, based on the findings and facts presented in the staff report and exhibits.

Recommended Motion - City Commission:
Approve the Revised Cold Link Apopka - Major Development Plan.

Note: This item is considered quasi-judicial. The staff report and its findings are to be incorporated into and made a part of the minutes of this meeting.

GENERAL

1. THE CONTRACTOR SHALL BE RESPONSIBLE FOR LOCATING AND VERIFYING (HORIZONTALLY AND VERTICALLY) ALL EXISTING UTILITIES PRIOR TO START OF CONSTRUCTION AND FOR NOTIFYING THE VARIOUS UTILITY COMPANIES TO MAKE THE NECESSARY ARRANGEMENTS FOR ANY RELOCATION, TEMPORARY DISTRIBUTION SERVICE, OR CLARIFICATION OF ACTIVITY REGARDING SAID UTILITY. THE CONTRACTOR SHALL EXERCISE CAUTION WHEN CROSSING AN UNDERGROUND UTILITY, WHETHER SHOWN ON THESE PLANS OR FIELD LOCATED. ALL OTHER UTILITIES WHICH INTERFERE WITH THE PROPOSED CONSTRUCTION SHALL BE RELOCATED BY THE RESPECTIVE UTILITY COMPANIES AND THE CONTRACTOR SHALL COOPERATE WITH THEM DURING RELOCATION OPERATIONS. ANY DELAY OR INCONVENIENCE OF THE VARIOUS UTILITIES SHALL BE INCIDENTAL TO THE CONTRACT AND NO EXTRA COMPENSATION WILL BE ALLOWED. CONTRACTOR SHALL CALL "SUNSHINE ONE" AT 811 TO HAVE EXISTING UTILITIES LOCATED AT LEAST 48 HOURS PRIOR TO CONSTRUCTION.
2. THE LOCATIONS OF ALL EXISTING UTILITIES, STORM DRAINAGE SYSTEMS, AND TOPOGRAPHIC FEATURES SHOWN ON THE PLANS HAVE BEEN DETERMINED FROM THE BEST AVAILABLE INFORMATION AND ARE PROVIDED FOR THE CONVENIENCE OF THE CONTRACTOR. THE ENGINEER ASSUMES NO RESPONSIBILITY FOR THEIR ACCURACY. SHOULD A DISCREPANCY ARISE BETWEEN THESE PLANS AND ACTUAL FIELD CONDITIONS, WHICH WOULD APPRECIABLY AFFECT THE EXECUTION OF THESE PLANS, THE CONTRACTOR SHALL HALT CONSTRUCTION AND NOTIFY THE ENGINEER IMMEDIATELY.
3. PRIOR TO THE INITIATION OF SITE CONSTRUCTION, THE CONTRACTOR SHALL VERIFY ANY EXISTING UTILITIES INCLUDING GAS, WATER, ELECTRIC, CABLE TV, COMMUNICATIONS, SANITARY SEWERS AND STORM DRAINAGE SYSTEMS, ON AND / OR ADJACENT TO THE SITE. REMOVE OR CAP AS NECESSARY.
4. THE CONTRACTOR SHALL EXERCISE CAUTION IN AREAS OF BURIED UTILITIES AND SHALL CALL "SUNSHINE 811" AT 811 OR 1-800-432-4770 AT LEAST 48 HOURS PRIOR TO CONSTRUCTION TO ARRANGE FOR FIELD LOCATIONS OF BURIED UTILITIES.
5. THE CONTRACTOR IS RESPONSIBLE FOR REPAIRING ANY DAMAGE TO EXISTING FACILITIES, ABOVE OR BELOW GROUND, THAT MAY OCCUR AS A RESULT OF THE WORK PERFORMED, BY THE CONTRACTOR OR SUB-CONTRACTORS, AS CALLED FOR IN THESE CONTRACT DOCUMENTS.
6. IT IS THE CONTRACTOR'S RESPONSIBILITY TO BECOME FAMILIAR WITH THE PERMIT AND INSPECTION REQUIREMENTS SPECIFIED BY THE VARIOUS GOVERNMENTAL AGENCIES AND THE ENGINEER. THE CONTRACTOR SHALL OBTAIN ALL NECESSARY PERMITS, SUCH AS RIGHT OF WAY PERMIT(S), EXCAVATION/FILL PERMIT(S), FIRE PROTECTION PERMIT(S), OR UNDERGROUND UTILITY PERMIT(S), PRIOR TO START OF CONSTRUCTION. THE CONTRACTOR SHALL BE RESPONSIBLE FOR MEETING ALL INSPECTION CRITERIA OF APPLICABLE AGENCIES, SCHEDULING OF INSPECTIONS, AND OBTAINING REQUIRED INSPECTIONS FROM AGENCY.
7. THE CONTRACTOR SHALL SUBMIT SHOP DRAWINGS, ON ALL PRECAST AND MANUFACTURED ITEMS, TO THE OWNER'S ENGINEER FOR REVIEW. FAILURE TO OBTAIN APPROVAL BEFORE INSTALLATION MAY RESULT IN REMOVAL AND REPLACEMENT AT THE CONTRACTOR'S EXPENSE.
8. ALL UTILITY SERVICE STUB-OUTS (WATER, SANITARY SEWER, etc.) ARE TO BE INSTALLED WITHIN 5' OF BUILDING(S), UNLESS OTHERWISE NOTED ON PLANS.
9. CONTRACTOR TO COORDINATE WITH THE APPLICABLE ELECTRIC UTILITY SUPPLIER REGARDING ANY NECESSARY RELOCATION(S) OF UNDERGROUND AND/OR OVERHEAD ELECTRIC FACILITIES, AND FOR THE LOCATION AND INSTALLATION OF TRANSFORMER PAD(S) AND ASSOCIATED ELECTRIC FACILITIES.
10. IT SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR TO OBTAIN AN R-O-W UTILIZATION PERMIT (IF REQUIRED) FOR CONSTRUCTION OF THE PROPOSED UTILITIES. THIS PERMIT MUST BE OBTAINED BY A DULY LICENSED PLUMBING CONTRACTOR (OR CLASS A GENERAL CONTRACTOR) PRIOR TO THE START OF CONSTRUCTION. THESE PLANS AND ANY SUBSEQUENT REVISIONS TO THESE PLANS, THAT ARE ISSUED BY THE ENGINEER, WILL BE SUBJECT TO THE APPROVAL CONDITIONS OF THIS PERMIT.
11. THE GRAPHIC INFORMATION DEPICTED ON THESE PLANS HAS BEEN COMPILED TO PROPORTION BY SCALE AS ACCURATELY AS POSSIBLE. HOWEVER, DUE TO REPRODUCTIVE DISTORTION, REDUCTION, AND/OR REVISIONS, INFORMATION CONTAINED HEREIN IS NOT INTENDED TO BE SCALED FOR CONSTRUCTION PURPOSES.
12. ALL SPECIFICATIONS AND DOCUMENTS REFERENCED HEREIN SHALL BE OF THE LATEST REVISION.
13. ALL UNDERGROUND UTILITIES MUST BE IN-PLACE, TESTED AND INSPECTED PRIOR TO BASE AND SURFACE CONSTRUCTION.
14. WORK PERFORMED UNDER THIS CONTRACT SHALL INTERFACE SMOOTHLY WITH ANY OTHER WORK BEING PERFORMED ON SITE BY OTHER CONTRACTORS/SUBCONTRACTORS AND UTILITY COMPANIES. IT WILL BE NECESSARY FOR THE GENERAL CONTRACTOR TO COORDINATE AND SCHEDULE HIS/HER ACTIVITIES ACCORDINGLY.
15. ALL DIMENSIONS ARE TO FACE OF CURB, UNLESS OTHERWISE NOTED.
16. ALL SIGNAGE MUST COMPLY WITH THE LAND DEVELOPMENT CODE OF THE CITY OF APOPKA, FLORIDA.
17. CONTRACTOR IS RESPONSIBLE FOR ALL DEWATERING ACTIVITIES NECESSARY TO PERFORM THE WORK WITHIN THESE PLANS.
18. THE CONTRACTOR SHALL RESTORE OFF-SITE CONSTRUCTION AREAS TO EQUAL AND/OR BETTER CONDITION THAN EXISTING PRIOR TO START OF CONSTRUCTION.
19. THE CONTRACTOR SHALL COMPLY WITH THE LEGAL LOAD RESTRICTIONS IN HAULING OF MATERIALS IN PUBLIC ROADS BEYOND THE LIMITS OF WORK. A SPECIAL PERMIT WILL NOT RELIEVE THE CONTRACTOR OF LIABILITY FOR THE DAMAGE WHICH MAY RESULT FROM THE MOVING OF MATERIAL AND EQUIPMENT.
20. SURVEY MONUMENTS OR BENCHMARKS, WHICH HAVE TO BE DISTURBED BY THIS WORK, SHALL BE REPLACED UPON COMPLETION OF WORK BY A A LICENSED LAND SURVEYOR CURRENTLY REGISTERED IN THE STATE OF FLORIDA.
21. CONTRACTOR IS TO ADJUST ANY UTILITY ELEMENT MEANT TO BE FLUSH WITH GRADE (CLEAN OUT MANHOLES, CATCH BASINS, INLETS, ETC.) THAT IS AFFECTED BY SITE WORK OR GRADE CHANGES, WHETHER SPECIFICALLY NOTED ON PLANS OR NOT.
22. ALL WORK PERFORMED WITHIN THE FDOT RIGHT-OF-WAY SHALL BE IN ACCORDANCE WITH THE 2023-24 EDITIONS OF FDOT STANDARD PLANS, SPECIFICATIONS FOR ROAD AND BRIDGE CONSTRUCTION, AND THE 2017 UTILITY ACCOMMODATION MANUAL.

TREES AND VEGETATION

1. THE CONTRACTOR IS TO MINIMIZE THE REMOVAL OF VEGETATION TO THE GREATEST EXTENT PRACTICAL. SEE DEMOLITION PLAN FOR TREES TO BE REMOVED. TREES IN CLOSE PROXIMITY TO CONSTRUCTION SHALL BE PROTECTED BY WOOD FENCING PER DETAIL ON SHEET C2.1.
2. THE CONTRACTOR SHALL BE RESPONSIBLE FOR THE MAINTENANCE OF ALL LANDSCAPE BUFFERS AND RETENTION AND DETENTION FACILITIES UNTIL THE WORK HAS BEEN ACCEPTED BY THE OWNER. ALL DISTURBED AREAS SHALL BE RETURNED TO THEIR ORIGINAL CONDITION.

DEMOLITION

1. CONTRACTOR SHALL SUBMIT DEMOLITION SCHEDULE TO OWNER PRIOR TO PROCEEDING WITH DEMOLITION ACTIVITIES.
2. EXTENT OF SITE CLEARING IS SHOWN ON DRAWINGS.
3. CONTRACTOR SHALL CONDUCT SITE DEMOLITION OPERATIONS TO ENSURE MINIMUM INTERFERENCE WITH ROADS, STREETS, WALKS, AND OTHER ADJACENT OCCUPIED OR USED FACILITIES. DO NOT CLOSE OR OBSTRUCT STREETS, WALKS OR OTHER OCCUPIED OR USED FACILITIES WITHOUT PERMISSION FROM AUTHORITIES HAVING JURISDICTION.
4. CONTRACTOR SHALL PROVIDE PROTECTION NECESSARY TO PREVENT DAMAGE TO EXISTING IMPROVEMENTS INDICATED ON PLAN "EXISTING TO REMAIN".
5. CONTRACTOR SHALL RESTORE DAMAGED IMPROVEMENTS TO THEIR ORIGINAL CONDITION, AS ACCEPTABLE TO PARTIES HAVING JURISDICTION.
6. CONTRACTOR SHALL REMOVE WASTE MATERIALS AND UNSUITABLE AND EXCESS TOPSOIL FROM PROPERTY AND DISPOSE OF OFF-SITE IN A LEGAL MANNER.
7. CONTRACTOR SHALL DEMOLISH AND COMPLETELY REMOVE FROM SITE MATERIAL INDICATED ON PLAN OR NOTES "TO BE REMOVED".
8. CONTRACTOR SHALL PROTECT STRUCTURES, UTILITIES, SIDEWALKS, PAVEMENTS, AND OTHER FACILITIES FROM DAMAGE CAUSED BY SETTLEMENT, LATERAL MOVEMENT, UNDERMINING, WASHOUT AND OTHER HAZARDS CREATED BY THE DEMOLITION OPERATION.

STORM DRAINAGE SYSTEM

1. STANDARD INDEXES REFER TO THE LATEST EDITION OF F.D.O.T. "ROADWAY AND TRAFFIC DESIGN STANDARDS."
2. THE LATEST EDITION OF F.D.O.T. "DESIGN STANDARDS FOR DESIGN, CONSTRUCTION, MAINTENANCE, AND UTILITY OPERATIONS ON THE STATE HIGHWAY SYSTEM" IS REFERRED TO FOR THE STRUCTURAL DESIGN OF DRAINAGE STRUCTURES SPECIFIED IN THESE PLANS, AS REFERENCED BY STANDARD INDEX. ALL SPECIALTY DRAINAGE STRUCTURES REQUIRE SEPARATE STRUCTURAL DESIGN, WHICH IS NOT INCLUDED IN THESE PLANS. STATION OFFSETS ARE TO THE CENTERLINE OF THE STRUCTURE TOP (I.E. DITCH BOTTOM INLET OR CURB INLET TOP), AS OPPOSED TO THE STRUCTURE BASE.
3. ALL STORM SEWER PIPE SHALL BE REINFORCED CONCRETE CLASS III (ASTM C-76) UNLESS OTHERWISE NOTED ON PLANS. ALL DRAINAGE STRUCTURES SHALL BE IN ACCORDANCE WITH F.D.O.T. ROADWAY AND TRAFFIC DESIGN STANDARDS UNLESS OTHERWISE NOTED ON PLANS.
4. PIPE LENGTHS SHOWN ARE APPROXIMATE AND TO CENTER OF DRAINAGE STRUCTURES, WITH THE EXCEPTION OF MITERED END AND FLARED END SECTIONS. LENGTHS OF PIPE SHOWN WHICH TERMINATE WITH MITERED END OR FLARED END SECTIONS ARE MEASURED TO THE DOWNSTREAM INVERT OF THE MITERED END OR FLARED END SECTION.
5. ALL DRAINAGE STRUCTURE GRATES AND COVERS, EITHER EXISTING OR PROPOSED SHALL BE TRAFFIC RATED FOR H-20 LOADINGS. THE CONTRACTOR SHALL BE RESPONSIBLE FOR ANY NECESSARY UPGRADES TO EXISTING DRAINAGE STRUCTURES.
6. CONSTRUCTION OF THE STORMWATER MANAGEMENT SYSTEM MUST BE COMPLETE AND ALL DISTURBED AREAS STABILIZED IN ACCORDANCE WITH THE PERMITTED PLANS AND CONDITIONS PRIOR TO ANY OF THE FOLLOWING: ISSUANCE OF THE FIRST CERTIFICATE OF OCCUPANCY; INITIATION OF INTENDED USE OF THE INFRASTRUCTURE; OR TRANSFER OF RESPONSIBILITY FOR MAINTENANCE OF THE SYSTEM TO A LOCAL GOVERNMENT OR OTHER RESPONSIBLE ENTITY.
7. STORM WATER PIPES, STRUCTURES, MINIMUM COVER, AND INSTALLATION PROCEDURES TO BE IN ACCORDANCE WITH THE LAND DEVELOPMENT CODE OF THE CITY OF APOPKA, FLORIDA.
8. DURING CONSTRUCTION, NO DIRECT DISCHARGE OF WATER TO DOWNSTREAM RECEIVING WATERS WILL BE ALLOWED. THE CONTRACTOR IS RESPONSIBLE FOR MAINTAINING WATER QUALITY AND SHALL ROUTE DISCHARGE WATER IN SUCH A MANNER AS TO ADEQUATELY REMOVE SILT PRIOR TO RUNOFF FROM THE SITE.

DRAINAGE SYSTEM TESTING AND INSPECTION

1. THE STORM DRAINAGE PIPING SYSTEM SHALL BE SUBJECT TO A VISUAL INSPECTION BY THE OWNER'S ENGINEER PRIOR TO THE PLACEMENT OF BACKFILL. CONTRACTOR TO NOTIFY THE ENGINEER 48 HOURS IN ADVANCE TO SCHEDULE INSPECTION.
2. THE CONTRACTOR SHALL MAINTAIN AND PROTECT FROM MUD, DIRT, DEBRIS, ETC. THE STORM DRAINAGE SYSTEM UNTIL FINAL ACCEPTANCE OF THE PROJECT. THE STORM SYSTEM WILL BE REINSPECTED BY THE OWNER'S ENGINEER PRIOR TO APPROVAL FOR CERTIFICATE OF OCCUPANCY PURPOSES. THE CONTRACTOR MAY BE REQUIRED TO RECLEAN PIPES AND INLETS AT THE CONTRACTORS EXPENSE AND PRIOR TO FINAL ACCEPTANCE.

SAFETY

1. ALL SUBSURFACE CONSTRUCTION SHALL COMPLY WITH THE "TRENCH SAFETY ACT". THE CONTRACTOR SHALL INSURE THAT THE METHOD OF TRENCH PROTECTION AND CONSTRUCTION IS IN COMPLIANCE WITH THE OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION (OSHA) REGULATIONS. IT SHALL BE THE SOLE RESPONSIBILITY OF THE CONTRACTOR TO COMPLY AND ENFORCE ALL APPLICABLE SAFETY REGULATIONS. THE ABOVE INFORMATION HAS BEEN PROVIDED FOR THE CONTRACTOR'S INFORMATION ONLY AND DOES NOT IMPLY THAT THE OWNER OR ENGINEER WILL INSPECT AND/OR ENFORCE SAFETY REGULATIONS.
2. DURING THE CONSTRUCTION AND/OR MAINTENANCE OF THIS PROJECT, ALL SAFETY REGULATIONS ARE TO BE ENFORCED. THE CONTRACTOR OR HIS REPRESENTATIVE SHALL BE RESPONSIBLE FOR THE CONTROL AND SAFETY OF THE TRAVELING PUBLIC AND THE SAFETY OF HIS/HER PERSONNEL. LABOR SAFETY REGULATIONS SHALL CONFORM TO THE PROVISIONS SET FORTH BY OSHA IN THE FEDERAL REGISTER OF THE DEPARTMENT OF TRANSPORTATION. THE MINIMUM STANDARDS AS SET FORTH IN THE CURRENT EDITION OF "THE STATE OF FLORIDA, MANUAL ON TRAFFIC CONTROL AND SAFE PRACTICES FOR STREET AND HIGHWAY CONSTRUCTION, MAINTENANCE AND UTILITY OPERATIONS" SHALL BE FOLLOWED IN THE DESIGN, APPLICATION, INSTALLATION, MAINTENANCE AND REMOVAL OF ALL TRAFFIC CONTROL DEVICES, WARNING DEVICES AND BARRIERS NECESSARY TO PROTECT THE PUBLIC AND CONSTRUCTION PERSONNEL FROM HAZARDS WITHIN THE PROJECT LIMITS. CONTRACTOR SHALL PROVIDE FOR THE SAFETY AND CONTROL OF LOCAL TRAFFIC DURING CONSTRUCTION. ADDITIONAL INFORMATION MAY BE REQUIRED IF LANE CLOSURE DURATIONS ARE LONGER THAN DAYTIME OPERATIONS.

EARTHWORK / GRADING / DEMUCKING PROCEDURES

1. A GEOTECHNICAL ENGINEERING INVESTIGATION REPORT HAS BEEN PREPARED BY TERRACON FOR PURPOSES OF STORM WATER DESIGN, OF WHICH COPIES ARE AVAILABLE THROUGH THE OWNER OR THEIR SOIL TESTING COMPANY. A GEOTECHNICAL ENGINEER SHALL BE RETAINED BY THE CONTRACTOR TO PROVIDE ON-SITE INSPECTIONS DURING EXCAVATION/FILL OPERATIONS AND TESTING OF THE COMPACTED FILL SO THAT PROPER DOCUMENTATION OF THE REQUIRED COMPACTING CRITERIA CAN BE PROVIDED.
2. ALL EXISTING DEBRIS (ABOVE OR BELOW GROUND), CONSTRUCTION DEBRIS AND OTHER WASTE MATERIAL SHALL BE DISPOSED OF OFF-SITE BY THE CONTRACTOR, IN ACCORDANCE WITH APPLICABLE REGULATORY AGENCY REQUIREMENTS IN A LEGAL MANNER.
3. UNLESS OTHERWISE NOTED, GRADE TO MEET EXISTING ELEVATION AT PROPERTY LINES. FINAL GRADES SHOWN INCLUDE SOD HEIGHT. PROPOSED SPOT ELEVATIONS REPRESENT FINISHED PAVEMENT OR GROUND SURFACE GRADES, UNLESS OTHERWISE NOTED. IT MAY BE NECESSARY TO FIELD ADJUST PAVEMENT ELEVATIONS TO PRESERVE THE ROOT SYSTEMS OF TREES SHOWN TO BE SAVED. CONTRACTOR TO COORDINATE WITH OWNER'S ENGINEER PRIOR TO ANY ELEVATION CHANGES. ALL AREAS SHALL BE GRADED TO DRAIN AWAY FROM THE BUILDINGS.
4. ALL DELETERIOUS SUBSURFACE MATERIAL (I.E. MUCK, PEAT, BURIED DEBRIS) IS TO BE EXCAVATED AND REPLACED WITH SUITABLE/COMPACTED SOILS, AS DIRECTED BY THE OWNER OR THEIR SOILS TESTING COMPANY. DELETERIOUS MATERIAL IS TO BE STOCKPILED OR REMOVED FROM THE SITE AS DIRECTED BY THE OWNER. EXCAVATED AREAS ARE TO BE BACKFILLED WITH APPROVED MATERIALS AND COMPACTED AS SHOWN ON THESE PLANS. CONTRACTOR IS RESPONSIBLE FOR ACQUIRING ANY PERMITS THAT ARE NECESSARY FOR REMOVING DELETERIOUS MATERIAL FROM THE SITE.
5. THE CONTRACTOR SHALL BE RESPONSIBLE FOR PROTECTING EXCAVATIONS AGAINST COLLAPSE AND WILL PROVIDE BRACING, SHEETING OR SHORING AS NECESSARY. DEWATERING METHODS SHALL BE USED AS REQUIRED TO KEEP TRENCHES DRY WHILE PIPE AND APPURTENANCES ARE BEING PLACED.
6. ALL NECESSARY FILL AND EMBANKMENT THAT IS PLACED DURING CONSTRUCTION SHALL CONSIST OF MATERIAL SPECIFIED BY THE OWNER'S SOILS TESTING COMPANY OR ENGINEER AND BE PLACED AND COMPACTED ACCORDING TO THESE PLANS.
7. THE CONTRACTOR SHALL INSURE THAT PROPER SOIL DENSITIES ARE ACHIEVED FOR PLACEMENT OF ALL HEADWALL/ENDWALL FOOTINGS, RETAINING WALL FOOTINGS, AND IN GENERAL, ANY FOOTING SUPPORT DESCRIBED ON THESE PLANS. IT WILL ALSO BE THE RESPONSIBILITY OF THE CONTRACTOR TO INSURE THAT SUFFICIENT SOILS TESTING HAS BEEN PERFORMED PRIOR TO FINAL INSTALLATION OF IMPROVEMENTS.
8. ANY UNSUITABLE ORGANIC SOIL SHALL BE EXCAVATED TO A MINIMUM MARGIN OF 6 FEET BEYOND ITS PERIPHERY EXCAVATED TO EXPOSE THE UNDERLYING NON-ORGANIC FINE SAND.
9. IF DETERMINED NECESSARY, DEWATERING DURING EXCAVATING/BACKFILLING OPERATIONS MAY BE ACCOMPLISHED BY DITCHING AND THE USE OF SUMP PUMPS AND/OR OTHER METHODS (WELL POINTS), AS NECESSARY. CONTRACTOR TO OBTAIN ALL REQUIRED PERMITS FOR DEWATERING ACTIVITIES THAT MAY BE REQUIRED.
10. UPON APPROVAL OF THE GEOTECHNICAL ENGINEER, THE EXCAVATED AREAS MAY BE BACKFILLED WITH CLEAN FINE SAND FREE OF UNSUITABLE OR DELETERIOUS MATERIAL. HOWEVER, THE FILL SHOULD NOT BE PLACED IN MORE THAN 6 INCHES OF STANDING WATER. ONCE THE FILL IS AT LEAST 2 FEET ABOVE THE DEWATERED LEVEL, BACKFILLING MAY PROCEED AS DIRECTED BY THE GEOTECHNICAL ENGINEER.

PAVING, GRADING AND DRAINAGE

1. ALL PAVING SHALL BE PERFORMED IN ACCORDANCE WITH THE FLORIDA DEPARTMENT OF TRANSPORTATION STANDARD SPECIFICATIONS FOR ROAD AND BRIDGE CONSTRUCTION.
2. PROPOSED SPOT ELEVATIONS REPRESENT FINISHED PAVEMENT OR GROUND SURFACE GRADES, UNLESS OTHERWISE NOTED.
3. CONTRACTOR SHALL TRIM, TACK AND MATCH EXISTING PAVEMENT AT LOCATIONS WHERE NEW PAVEMENT MEETS EXISTING PAVEMENT.
4. CURBING SHALL BE PLACED AT THE EDGES OF ALL PAVEMENT, UNLESS OTHERWISE NOTED. REFER TO THE LATEST EDITION OF F.D.O.T. "DESIGN STANDARDS" FOR DETAILS AND SPECIFICATIONS OF ALL F.D.O.T. TYPE CURB AND GUTTERS CALLED FOR IN THESE PLANS.
5. PRIOR TO CONSTRUCTING CONCRETE PAVEMENT, THE CONTRACTOR IS TO SUBMIT A PROPOSED JOINTING PATTERN TO THE SOILS ENGINEER FOR APPROVAL.
6. CONTRACTOR TO PROVIDE A 1/2" TO 1" BITUMINOUS EXPANSION JOINT MATERIAL WITH SEALER AT ABUTMENT OF CONCRETE AND OTHER MATERIALS (STRUCTURES, OTHER POURED)
7. ALL PAVEMENT MARKINGS SHALL BE MADE IN ACCORDANCE WITH F.D.O.T. DESIGN STANDARDS.
8. THE CONTRACTOR WILL STABILIZE BY SEED AND MULCH, SOD, OR OTHER APPROVED MATERIALS ANY DISTURBED AREAS WITHIN ONE WEEK FOLLOWING CONSTRUCTION OF THE UTILITY SYSTEMS AND PAVEMENT AREAS. CONTRACTOR SHALL MAINTAIN SUCH AREAS UNTIL FINAL ACCEPTANCE BY OWNER. CONTRACTOR TO COORDINATE WITH OWNER REGARDING TYPE OF MATERIAL, LANDSCAPING AND IRRIGATION REQUIREMENTS.
9. THE CONTRACTOR SHALL RESTORE OFF-SITE CONSTRUCTION AREAS TO EQUAL AND/OR BETTER CONDITION THAN EXISTING PRIOR TO START OF CONSTRUCTION.
10. UNLESS OTHERWISE NOTED, GRADE TO MEET EXISTING ELEVATION AT PROPERTY LINES.
11. SURVEY MONUMENTS OR BENCHMARKS, WHICH HAVE TO BE DISTURBED BY THIS WORK, SHALL BE REPLACED UPON COMPLETION OF WORK BY A REGISTERED LAND SURVEYOR AT CONTRACTORS EXPENSE.
12. FINAL GRADES SHOWN INCLUDE SOD HEIGHT. ALL AREAS SHALL BE GRADED TO DRAIN AWAY FROM THE BUILDINGS.
13. ALL WORK TO BE PERFORMED IN ACCORDANCE WITH ALL LOCAL, STATE AND JURISDICTIONAL PERMITTING AGENCIES.
14. ALL WORK SHALL COMPLY WITH THE GEOTECHNICAL REPORT BY TERRACON.
15. CONTRACTOR SHALL SOD ALL DISTURBED AREAS WITH BAHIA UNLESS OTHERWISE NOTED.

PAVING/GRADING TESTING AND INSPECTION

1. THE CONTRACTOR IS RESPONSIBLE FOR COORDINATING APPLICABLE TESTING WITH THE SOILS ENGINEER. TESTS WILL BE REQUIRED PURSUANT WITH THE SOILS REPORT. UPON COMPLETION OF WORK THE SOILS ENGINEER WILL SUBMIT CERTIFICATIONS TO THE OWNER AND OWNER'S ENGINEER STATING THAT ALL REQUIREMENTS HAVE BEEN MET.
2. A QUALIFIED TESTING LABORATORY SHALL PERFORM ALL TESTING NECESSARY TO ASSURE COMPLIANCE OF THE IN-PLACE MATERIALS AS REQUIRED BY THESE PLANS AND GEOTECHNICAL REPORT, THE VARIOUS AGENCIES AND PERMIT CONDITIONS. SHOULD ANY RETESTING BE REQUIRED DUE TO THE FAILURE OF ANY TESTS TO MEET THESE REQUIREMENTS, THE CONTRACTOR WILL BEAR ALL COSTS OF SAID RETESTING.

PAVEMENT MARKING AND SIGNAGE

1. THE INSTALLATION, SHAPE, AND SIZE OF ALL SIGNS AND THEIR LETTERING SHALL COMPLY WITH THE LATEST EDITIONS OF THE U.S. DEPARTMENT OF TRANSPORTATION "MANUAL ON UNIFORM TRAFFIC CONTROL DEVICES" (MUTCD) AND THE F.D.O.T. "STANDARD SPECIFICATIONS FOR ROAD AND BRIDGE CONSTRUCTION" AND THE F.D.O.T. "DESIGN STANDARDS FOR DESIGN, CONSTRUCTION, MAINTENANCE, AND UTILITY OPERATIONS ON THE STATE HIGHWAY SYSTEM". WHERE CONFLICTS EXIST BETWEEN THE PLANS AND THE ABOVE MENTIONED SPECIFICATIONS, THE MORE STRINGENT CRITERIA SHALL PREVAIL.

TEST, INSPECTION AND CLOSEOUT REQUIREMENTS

1. ALL GRAVITY SEWER PIPING SHALL BE SUBJECT TO A VISUAL INSPECTION BY THE OWNER'S ENGINEER AND APPLICABLE MUNICIPALITY/AGENCY. THE CONTRACTOR SHALL NOTIFY THE ENGINEER 48 HOURS IN ADVANCE TO SCHEDULE INSPECTION(S). THE CONTRACTOR SHALL BE RESPONSIBLE FOR COSTS ASSOCIATED WITH A TELEVISED INSPECTION (TV) OF THE PROPOSED GRAVITY SEWER LINE CONSTRUCTION. TV INSPECTION SHALL BE IN ACCORDANCE TO THE CITY OF APOPKA UTILITIES DESIGN AND CONSTRUCTION STANDARDS MANUAL. THE CONTRACTOR SHALL PROVIDE COPIES OF THE TV INSPECTION TAPE TO THE ENGINEER, THE OWNER AND THE APPLICABLE MUNICIPALITY/AGENCY.
2. THE CONTRACTOR SHALL PERFORM LEAKAGE TESTS ON ALL GRAVITY SEWERS PER THE CITY OF APOPKA UTILITIES DESIGN AND CONSTRUCTION STANDARDS MANUAL.
3. AN AS-BUILT SURVEY SHALL BE PREPARED IN ACCORDANCE WITH CHAPTER 5J-17, FLORIDA ADMINISTRATIVE CODE (F.A.C.), PURSAUNT TO CHAPTER 472, FLORIDA STATUTES (F.S.) SHALL BE REQUIRED.
4. THE CONTRACTOR SHALL PROVIDE UTILITY AS-BUILT AND GRADING/DRAINAGE AS-BUILT RECORD DRAWINGS BASED ON THE CIVIL DESIGN PLAN SHEETS. ALL AS-BUILTS SHALL BE OVERLAID ON THE CIVIL DESIGN PLANS WITH THE DESIGN SHADED BACK AND THE AS-BUILT BOLD. THE AS-BUILTS SHALL BE SIGNED AND SEALED BY A REGISTERED LAND SURVEYOR.
5. THE UTILITY AS-BUILT SHALL INCLUDE ALL SANITARY SEWERS AND FORCE MAIN SYSTEMS, POTABLE AND RECLAIMED WATER MAIN SYSTEMS, METERS, VALVES, FORCE MAINS, GAS MAINS, AND IRRIGATION LINES (2-INCH AND LARGER). CONTRACTOR TO PROVIDE ALL UTILITY CROSSING INFORMATION ON THE AS-BUILT. THE UTILITY AS-BUILTS SHALL IDENTIFY ALL WATER MAIN CROSSINGS WITH STORM AND SANITARY LINES INDICATING TOP OF PIPE AND INVERTS OF THE ABOVE CROSSING PIPE ALONG WITH CLEARANCE DIMENSIONS. THIS SHALL ALSO BE DONE FOR SANITARY/STORM CROSSINGS. ALL TEMPORARY SAMPLE POINT NUMBER (TSP#) LOCATIONS SHALL ALSO BE NOTED ON THE AS-BUILT. CONTRACTOR TO ALSO PROVIDE AN AS-BUILT ASSET TABLE IDENTIFYING SIZE OF PIPE OR FITTING AS WELL AS DEPTH TO TOP OF PIPE AND NORTHING AND EASTING OF EACH FITTING/VALVE, ETC. AS-BUILT DRAWINGS SHALL PROVIDE GPS COORDINATES FOR SANITARY STRUCTURES.
6. THE GRADING/DRAINAGE AS-BUILT SHALL INCLUDE ALL CONSTRUCTED IMPROVEMENTS THAT HAVE LOCATION AND/OR ELEVATION INFORMATION CALLED-OUT ON THE PLANS. THE AS-BUILT SHALL CLEARLY PROVIDE THE SAME INFORMATION IDENTIFIED ON THE DESIGN DOCUMENTS AND ALSO THE CONSTRUCTED LOCATIONS AND ELEVATIONS AS-BUILT INFORMATION.
7. THE CONTRACTOR SHALL PROVIDE A SIGNED AND SEALED LETTER FROM THE INDEPENDENT TESTING AGENCY THAT STATES CONFORMANCE WITH THE CONTRACT DOCUMENT REQUIREMENTS FOR COMPACTION TESTING. THE CONTRACTOR IS TO PROMPTLY NOTIFY THE OWNER AND ENGINEER OF RECORD WHEN ANY TESTING OR INSPECTIONS ARE DEFICIENT OR IRREGULAR.

GENERAL NOTES

APOPKA COLD STORAGE
APOPKA FLORIDA

SHEET NUMBER C1.0

STORMWATER POLLUTION PREVENTION PLAN

SITE DESCRIPTION

PROJECT NAME AND LOCATION

APOPKA COLD STORAGE
*SEE COVER SHEET FOR LOCATION MAP

DEVELOPER NAME AND ADDRESS

OWNER:
COLD LINK LOGISTICS, LLC

PROJECT DESCRIPTION

THE PROJECT CONSISTS OF A PROPOSED COLD STORAGE FACILITY EXPANSION LOCATED IN THE SOUTHEAST CORNER OF ORANGE BLOSSOM TRAIL AND LAKE VIEW DRIVE WITHIN THE CITY OF APOPKA. THE PROJECT CONTAINS 3 PARCELS WITH PARCEL NUMBER 06-21-28-7172-02-011, 06-21-28-7180-09-070, AND 06-21-28-7180-09-050. THE PROJECT IS APPROXIMATELY +/- 27.69 ACRES AND CURRENTLY HAS ROUGHLY FOUR EXISTING BUILDINGS INDUSTRIAL BUILDING WITH LOADING DOCKS AND PARKING STALLS. THE SITE ALSO HAS TWO EXISTING HOUSES BETWEEN THE EXISTING INDUSTRIAL BUILDING AND EXISTING TRUCK PARKING LOT AREA AND WILL PROPOSE THOSE TWO PARCELS TO BE REZONED ONCE ANNEXED INTO CITY OF APOPKA. ONCE REZONED, THE DEVELOPMENT CONSISTS OF THE RENOVATION OF ONE OF THE EXISTING BUILDINGS, A PROPOSED PUMP BUILDING, AN ADDITIONAL COLD STORAGE FACILITY WITH A LOADING DOCK DOOR AND AN ASSOCIATED PARKING LOT AND STRIPING.

PROJECT AREA: 27.69 ACRES

CONTRIBUTING DRAINAGE AREA: 25.90 ACRES

TOTAL CONSTRUCTION AREA: 25.90 ACRES

LONGITUDE : -81.552853 LATITUDE: 28.690683

ULTIMATE RECEIVING WATERS: xxxx

ACTIVITIES THAT REQUIRE EROSION CONTROL

SITE CLEARING AND GRUBBING; PROVIDING A STABILIZED CONSTRUCTION ENTRANCE, PERIMETER, AND OTHER EROSION AND SEDIMENT CONTROLS; EXCAVATION FOR THE RETENTION POND; SITE GRADING; INSTALLATION OF STORM WATER, SANITARY SEWER, AND WATER STRUCTURES; CURB, ROADWAYS, AND PARKING FACILITIES.

*SEE PLANS FOR THE LOCATION OF TEMPORARY SEDIMENT BARRIERS AND OTHER EROSION CONTROL METHODS.

SOIL PARAMETERS

SOIL TYPES:

NO.	SERIES NAME	HYDROLOGIC GROUP
6	CANDLER–APOPKA FINE SAND, 5 TO 12% SLOPES	A
47	TAVARES–MILLHOPPER FINE SANDS, 0 TO 5% SLOPES	A

DEWATERING

DISCHARGE OF GROUNDWATER FROM DEWATERING OPERATIONS REQUIRES APPROVAL FROM FDEP AND THE APPLICABLE WATER MANAGEMENT DISTRICT. DISCHARGES DIRECTED TO THE COUNTY'S MS4 REQUIRES A RIGHT-OF-WAY UTILIZATION PERMIT FOR DEWATERING PRIOR TO THE START OF DISCHARGES. TO OBTAIN RIGHT-OF-WAY APPROVAL, COPIES OF THE FDEP PERMIT NOI, DOCUMENTATION SHOWING DEWATERING AT THE SITE IS NOT WITHIN 500 FT OF KNOWN CONTAMINATION, AND A DEWATERING PLAN SHALL BE SUBMITTED TO ALEXIS CLARK, ORANGE COUNTY ENVIRONMENTAL PROTECTION DIVISION (407-836-1433) AND ORANGE COUNTY PUBLIC WORKS DEVELOPMENT ENGINEERING PERMITTING SECTION. ANALYTICAL SAMPLING OF GROUNDWATER MAY BE REQUESTED BY ORANGE COUNTY ON A CASE-BY-CASE BASIS TO CONFIRM SITE CONTAMINATION STATUS.

SEQUENCE OF MAJOR ACTIVITIES

THE ORDER OF CONSTRUCTION IS AS FOLLOWS:

1. PROVIDE STABILIZED CONSTRUCTION ENTRANCE
2. INSTALL SILT FENCES AND OTHER EROSION CONTROL METHODS
3. CLEAR AND GRUB FOR SEDIMENT BASIN AND EARTH DIKE
4. CONSTRUCT EARTH DIKE AND SEDIMENT BASIN
5. FINISH CLEARING AND GRUBBING
6. REMOVE AND STORE TOPSOIL
7. PROVIDE INITIAL GRADING AS REQUIRED
8. STABILIZE ALL DISTURBED AREAS AS SOON AS POSSIBLE
9. INSTALL UTILITIES, STORM SEWER, CURB AND GUTTER
10. INSTALL BASE TO ROAD AND PARKING AREA
11. FINISH GRADING ENTIRE SITE
12. CONSTRUCT FINAL PAVING
13. REMOVE ACCUMULATED SEDIMENT
14. REMOVE ANY ITEMS THAT ARE NOT REQUIRED

TIMING OF CONTROL MEASURES

THE INSTALLATION OF SILT FENCE (AND OTHER EROSION CONTROL MEASURES), A STABILIZED ENTRANCE AND SEDIMENT BASIN SHALL OCCUR PRIOR TO CLEARING AND GRUBBING ACTIVITY. AFTER CONSTRUCTION IS COMPLETE, THE ACCUMULATED SEDIMENT SHALL BE REMOVED AND THE AREAS SHALL BE REGRADED AND PERMANENTLY STABILIZED AS SHOWN ON THE PLANS.

EROSION AND SEDIMENT CONTROLS

BEST MANAGEMENT PRACTICES SHALL BE USED FOR THIS PROJECT TO CONTROL EROSION AND TURBIDITY CAUSED BY STORM WATER RUN-OFF. THE LOCATION AND DETAILS OF EROSION CONTROL METHODS ARE SHOWN ON THE PLANS. THE CONTRACTOR IS RESPONSIBLE FOR PLACING AND MAINTAINING THESE CONTROL METHODS AS SHOWN ON THE PLANS OR AS REQUIRED. HE/SHE SHALL ALSO PROVIDE THE REQUIRED EROSION PROTECTION AS REQUIRED BY LOCAL, STATE AND FEDERAL LAW.

STORM WATER MANAGEMENT

STORMWATER WILL BE COLLECTED BY THE CATCH-BASINS ON SITE AND WILL BE DIRECTED TO THE DRY POND. THE DRY POND SYSTEM WILL TREAT AND ATTENUATE RUNOFF IN ACCORDANCE WITH SJRWMD SPECIFICATIONS AND THE CITY OF APOPKA LAND DEVELOPMENT CODE.

STABILIZATION PRACTICES:

TEMPORARY STABILIZATION - TOPSOIL STOCK PILES AND DISTURBED PORTIONS OF THE SITE WHERE CONSTRUCTION ACTIVITY TEMPORARILY OR PERMANENTLY CEASE, SHALL BE STABILIZED WITH TEMPORARY SEED AND MULCH WITHIN 7 DAYS OF THE LAST CONSTRUCTION ACTIVITY IN THAT AREA. THE TEMPORARY SEED REQUIRED CAN BE FOUND IN TABLE 1.65 A OF THE FLORIDA DEVELOPMENT MANUAL. PRIOR TO SEEDING, WHERE SOILS ARE ACIDIC 2 TONS OF PULVERIZED AGRICULTURAL LIMESTONE SHOULD BE ADDED PER ACRE AND 450 POUNDS OF 10-20-20 FERTILIZER SHALL BE APPLIED TO EACH ACRE. AFTER SEEDING, EACH AREA SHALL BE IMMEDIATELY MULCHED WITH STRAW OR EQUIVALENT EQUAL. AREAS OF THE SITE WHICH ARE TO BE PAVED SHALL BE TEMPORARILY STABILIZED BY APPLYING GEOTEXTILE AND STONE SUB-BASE UNTIL BITUMINOUS PAVEMENT CAN BE APPLIED.

PERMANENT STABILIZATION - DISTURBED PORTIONS OF THE SITE WHERE CONSTRUCTION ACTIVITIES PERMANENTLY CEASE SHALL BE STABILIZED WITH PERMANENT SEED NO LATER THAN 7 DAYS AFTER THE LAST CONSTRUCTION ACTIVITY. THE APPROPRIATE PERMANENT SEED MIX CAN BE FOUND IN TABLES 1.66A, 1.66B AND 1.66C OF THE FLORIDA DEVELOPMENT MANUAL. PRIOR TO SEEDING, 2 TONS/ACRE OF FINELY GROUND AGRICULTURAL LIMESTONE AND THE PROPER FERTILIZER BASED ON THE TYPE OF SEEDING SHALL BE APPLIED TO EACH ACRE TO PROVIDE PLANT NUTRIENTS. AFTER SEEDING, EACH AREA SHALL BE MULCHED IMMEDIATELY.

STRUCTURAL PRACTICES:

EARTH DIKE - IF REQUIRED, AN EARTH DIKE SHALL BE CONSTRUCTED ALONG THE SITE PERIMETER. A PORTION OF THE DIKE SHALL DIVERT RUN-ON AROUND THE CONSTRUCTION SITE. THE REMAINING PORTION OF THE DIKE SHALL COLLECT RUNOFF FROM THE DISTURBED AREA AND DIRECT THE RUNOFF TO THE SEDIMENT BASIN.

SEDIMENT BASIN - A SEDIMENT BASIN SHALL BE CONSTRUCTED IN THE COMMON DRAINAGE AREA FOR THE SITE. ALL SEDIMENT COLLECTED IN THE BASIN MUST BE REMOVED FROM THE BASIN UPON COMPLETION OF CONSTRUCTION. SEDIMENT FROM THE BASIN MAY BE USED AS FILL ON THE SITE IF IT IS SUITABLE SOIL.

WASTE DISPOSAL

WASTE MATERIALS - ALL WASTE MATERIALS SHALL BE COLLECTED AND STORED IN A METAL DUMPSTER WITH A SECURE LID IN ACCORDANCE WITH ALL LOCAL AND STATE LAWS. ALL TRASH AND CONSTRUCTION DEBRIS FROM THE SITE SHALL BE DEPOSITED IN THE DUMPSTER. THE SUPERINTENDENT SHALL COORDINATE WITH THE LOCAL UTILITIES TO HAVE THE DUMPSTER EMPTIED AT LEAST TWICE A WEEK AND THE WASTE TAKEN TO AN APPROPRIATE LANDFILL. NO CONSTRUCTION WASTE MATERIALS SHALL BE BURIED ON SITE. THE SUPERINTENDENT SHALL ORGANIZE TRAINING FOR THE EMPLOYEES IN THE PROPER PRACTICES WHEN DEALING WITH WASTE MATERIALS. THE SUPERINTENDENT SHALL BE RESPONSIBLE FOR POSTING AND ENFORCING WASTE MATERIAL PROCEDURES.

HAZARDOUS WASTE - HAZARDOUS WASTE MATERIALS SHALL BE DISPOSED OF IN ACCORDANCE WITH ALL LOCAL AND STATE LAWS OR AS DIRECTED BY THE MANUFACTURER. THE SUPERINTENDENT SHALL ORGANIZE THE PROPER TRAINING FOR EMPLOYEES IN THE PROPER PRACTICES WHEN DEALING WITH HAZARDOUS WASTE MATERIALS. THESE PROCEDURES SHALL BE POSTED ON THE SITE. THE PERSON WHO MANAGES THE SITE SHALL BE RESPONSIBLE FOR ENFORCING THE PROCEDURES.

SANITARY WASTE - SANITARY WASTE SHALL BE COLLECTED AND DISPOSED OF IN ACCORDANCE WITH ALL LOCAL AND STATE LAWS. THE SUPERINTENDENT SHALL COORDINATE WITH THE LOCAL UTILITY FOR COLLECTION OF THE SANITARY WASTE AT LEAST THREE TIMES A WEEK TO PREVENT SPILLAGE ONTO THE SITE.

OFF-SITE TRACKING

A STABILIZED CONSTRUCTION ENTRANCE SHALL BE PROVIDED TO REDUCE SEDIMENT TRACKING OFFSITE. THE MAJOR ROAD CONNECTED TO THE PROJECT SHALL BE CLEANED ONCE A DAY TO REMOVE ANY EXCESS MUD, DIRT OR ROCK RESULTING FROM CONSTRUCTION TRAFFIC. ALL TRUCKS HAULING MATERIALS OFFSITE SHALL BE COVERED WITH A TARPAULIN.

DUST & DEBRIS CONTROL

THE CONTRACTOR SHALL BE RESPONSIBLE FOR DUST CONTROL WITHIN THE CONSTRUCTION LIMITS AS WELL AS ALONG HAUL ROUTES AND ROADWAYS USED BY THE EQUIPMENT AND VEHICLES. THE CONTRACTOR SHALL ENSURE THAT EXCESSIVE DUST IS NOT TRANSPORTED BEYOND THE LIMITS OF CONSTRUCTION IN POPULATED AREAS. THE CONTRACTOR MAY CONTROL DUST FOR EMBANKMENTS OR OTHER CLEARED OR UNSURFACED AREAS BY APPLYING WATER. INSTALL MULCH, SEED, SOD, OR TEMPORARY PAVING AS EARLY AS PRACTICAL. CONTROL DUST DURING STORAGE AND HANDLING OF DUSTY MATERIALS BY WETTING, COVERING, OR OTHER MEANS AS APPROVED BY THE ENGINEER. CONTRACTOR SHALL ENFORCE REDUCED VEHICLE SPEEDS ON UNPAVED ROADS AND IF NECESSARY PROHIBIT CONSTRUCTION GRADING WHEN WIND GUSTS EXCEED 25 MPH, OR OTHERWISE DIRECTED BY E.O.R. OR COUNTY INSPECTOR.

DEBRIS AND TRASH SHALL NOT BE ALLOWED TO ACCUMULATE ON THE PROJECT SITE. CONTRACTOR SHALL COLLECT LOOSE DEBRIS & TRASH DAILY, AND DISPOSE OF IT INTO APPROPRIATE CONSTRUCTION TRASH RECEPTACLES OR CONTAINERS.

ITEMS REQUIRING POLLUTION PREVENTION

THE FOLLOWING ITEMS ARE EXPECTED TO BE PRESENT ON THE PROJECT SITE:

-ASPHALT
-CONCRETE
-FERTILIZERS
-METAL PIECES
-PETROLEUM BASED PRODUCTS
-TAR
-CLEANING SUPPLIES
-DETERGENTS
-MASONARY BLOCK/BRICKS
-PAINT
-WOOD

THE FOLLOWING ARE NON-STORM WATER SOURCES THAT WILL BE ENCOUNTERED AT THE SITE AND SHOULD BE DIRECTED TO THE SEDIMENT BASIN PRIOR TO DISCHARGE:

-UNCONTAMINATED GROUNDWATER EXPOSED DURING EXCAVATION
-WATER FROM WATER LINE FLUSHING
-PAVEMENT WASH WATERS (WHERE NO SPILLS OR LEAKS OF TOXIC OR HAZARDOUS MATERIALS HAVE OCCURRED).

SPILL PREVENTION AND CONTROL

THE FOLLOWING ARE THE MATERIAL MANAGEMENT PRACTICES THAT WILL BE USED TO REDUCE THE RISK OF SPILLS OR OTHER ACCIDENTAL EXPOSURE OF MATERIALS AND SUBSTANCES TO STORM WATER RUNOFF.

GOOD HOUSEKEEPING

-SUPERINTENDENT SHALL INSPECT PROJECT AREA DAILY FOR PROPER STORAGE, USE, AND DISPOSAL OF CONSTRUCTION MATERIALS.

-STORE ONLY ENOUGH MATERIAL ON SITE FOR PROJECT COMPLETION.

-ALL SUBSTANCES SHOULD BE USED BEFORE DISPOSAL OF CONTAINER.

-ALL CONSTRUCTION MATERIALS STORED SHALL BE ORGANIZED AND IN THE PROPER CONTAINER AND IF POSSIBLE, STORED UNDER A ROOF OR PROTECTIVE COVER.

-PRODUCTS SHALL NOT BE MIXED UNLESS DIRECTED BY THE MANUFACTURER.

-ALL PRODUCTS SHALL BE USED AND DISPOSED OF ACCORDING TO THE MANUFACTURER'S RECOMMENDATIONS.

HAZARDOUS PRODUCTS

-MATERIALS SHOULD BE KEPT IN ORIGINAL CONTAINER WITH LABELS UNLESS THE ORIGINAL CONTAINERS CANNOT BE RESEALED. IF ORIGINAL CONTAINERS CANNOT BE USED, LABELS AND PRODUCT INFORMATION SHALL BE SAVED.

-PROPER DISPOSAL PRACTICES SHALL ALWAYS BE FOLLOWED IN ACCORDANCE WITH MANUFACTURER AND LOCAL/STATE REGULATIONS.

PRODUCT SPECIFIC PRACTICES

-PETROLEUM PRODUCTS MUST BE STORED IN PROPER CONTAINERS AND CLEARLY LABELED. VEHICLES CONTAINING PETROLEUM PRODUCTS SHALL BE PERIODICALLY INSPECTED FOR LEAKS. PRECAUTIONS SHALL BE TAKEN TO AVOID LEAKAGE OF PETROLEUM PRODUCTS ON SITE.

-THE MINIMUM AMOUNT OF FERTILIZER SHALL BE USED AND MIXED INTO THE SOIL IN ORDER TO LIMIT EXPOSURE TO STORM WATER. FERTILIZERS SHALL BE STORED IN A COVERED SHED. THE CONTENTS OF ANY PARTIALLY USED BAGS OF FERTILIZER SHALL BE TRANSFERRED TO A SEALABLE PLASTIC BIN TO AVOID SPILLS.

-PAINT CONTAINERS SHALL BE SEALED AND STORED WHEN NOT IN USE. EXCESS PAINT MUST BE DISPOSED OF IN AN APPROVED MANNER.

-CONCRETE TRUCKS SHALL NOT BE ALLOWED TO WASH OUT OR DISCHARGE SURPLUS CONCRETE OR DRUM WASH WATER ON THE SITE.

SPILL CONTROL PRACTICES

IN ADDITION TO THE GOOD HOUSEKEEPING AND MATERIAL MANAGEMENT PRACTICES DISCUSSED IN THE PREVIOUS SECTIONS OF THIS PLAN, THE FOLLOWING PRACTICES SHALL BE FOLLOWED FOR SPILL PREVENTION AND CLEANUP:

-SPILL CLEANUP INFORMATION SHALL BE POSTED ON SITE TO INFORM EMPLOYEES ABOUT CLEANUP PROCEDURES AND RESOURCES.

-THE FOLLOWING CLEAN-UP EQUIPMENT MUST BE KEPT ON-SITE NEAR THE MATERIAL STORAGE AREA: GLOVES, MOPS, RAGS, BROOMS, DUST PANS, SAND, SAWDUST, LIQUID ABSORBER, GOGGLES, AND TRASH CONTAINERS.

-ALL SPILLS SHALL BE CLEANED UP AS SOON AS POSSIBLE.

-WHEN CLEANING A SPILL, THE AREA SHOULD BE WELL VENTILATED AND THE EMPLOYEE SHALL WEAR PROPER PROTECTIVE COVERING TO PREVENT INJURY.

-TOXIC SPILLS MUST BE REPORTED TO THE PROPER AUTHORITY REGARDLESS OF THE SIZE OF THE SPILL.

-AFTER A SPILL, THE PREVENTION PLAN SHALL BE REVIEWED AND CHANGED TO PREVENT FURTHER SIMILAR SPILLS FROM OCCURRING. THE CAUSE OF THE SPILL, MEASURES TO PREVENT IT, AND HOW TO CLEAN THE SPILL UP SHALL BE RECORDED.

-THE SUPERINTENDENT SHALL BE THE SPILL PREVENTION AND CLEANUP COORDINATOR AND IS RESPONSIBLE FOR THE DAY TO DAY SITE OPERATIONS. THE SUPERINTENDENT ALSO OVERSEES THE SPILL PREVENTION PLAN AND SHALL BE RESPONSIBLE FOR EDUCATING THE EMPLOYEES ABOUT SPILL PREVENTION AND CLEANUP PROCEDURES.

MAINTENANCE AND INSPECTION PRACTICES

THE FOLLOWING ARE MAINTENANCE AND INSPECTION PRACTICES THAT SHALL BE COMPLETED BY THE CONTRACTOR:

-ALL SEDIMENT AND EROSION CONTROL METHODS SHALL BE CHECKED AT A MINIMUM OF EVERY 7 DAYS AND WITHIN 24 HOURS OF EACH 0.5 INCH OR GREATER RAINFALL BY THE SUPERINTENDENT OR SOMEONE UNDER HIS/HER DIRECT SUPERVISION.

-ALL SEDIMENT AND EROSION CONTROL METHODS SHALL BE KEPT IN GOOD CONDITION. REPAIRS MUST BE MADE WITHIN 24 HOURS OF REPORT.

-THE SILT FENCE SHALL BE INSPECTED AT A MINIMUM OF EVERY 7 DAYS AND WITHIN 24 HOURS OF A 0.5" OR GREATER RAIN EVENT FOR HEIGHT OF SEDIMENT AND CONDITION OF FENCE.

-THE SILT FENCE SHALL BE CLEARED OF SEDIMENT WHEN SEDIMENT MEASURES ONE-THIRD THE HEIGHT OF THE FENCE.

-THE SEDIMENT BASINS/DITCHES SHALL BE CHECKED AT A MINIMUM OF EVERY 7 DAYS AND WITHIN 24 HOURS OF A 0.5" OR GREATER RAIN EVENT FOR DEPTH OF SEDIMENT. THEY SHALL BE CLEANED WHEN SEDIMENT REACHES 10% OF TOTAL CAPACITY AND AFTER CONSTRUCTION IS COMPLETE.

-DIVERSION DIKES SHALL BE INSPECTED AT A MINIMUM OF EVERY 7 DAYS AND WITHIN 24 HOURS OF A 0.5" OR GREATER RAIN EVENT. ANY BREACHES SHALL BE PROMPTLY REPAIRED.

-ALL SEEDING SHALL BE CHECKED FOR PROPER GROWTH AND UNIFORMITY. UNSTABALIZED AREAS SHALL BE RE-SODDED.

-A MAINTENANCE REPORT SHALL BE COMPLETED DAILY AFTER EACH INSPECTION OF THE SEDIMENT AND EROSION CONTROL METHODS. THE REPORTS SHALL BE FILED IN AN ORGANIZED MANNER AND RETAINED ON-SITE DURING CONSTRUCTION. AFTER CONSTRUCTION IS COMPLETED, THE REPORTS SHALL BE SAVED FOR AT LEAST THREE YEARS. THE REPORTS SHALL BE AVAILABLE FOR ANY AGENCY THAT HAS JURISDICTION OVER EROSION CONTROL.

-THE SUPERINTENDENT SHALL ORGANIZE THE TRAINING FOR INSPECTION PROCEDURES AND PROPER EROSION CONTROL METHODS FOR EMPLOYEES THAT COMPLETE INSPECTIONS AND REPORTS.

POLLUTION PREVENTION PLAN CERTIFICATION

I CERTIFY UNDER PENALTY OF LAW THAT THIS DOCUMENT AND ALL ATTACHMENTS WERE PREPARED UNDER MY DIRECTION OR SUPERVISION IN ACCORDANCE WITH A SYSTEM DESIGNED TO ASSURE THAT QUALIFIED PERSONNEL PROPERLY GATHERED AND EVALUATED THE INFORMATION SUBMITTED. BASED ON MY INQUIRY OF THE PERSON OR PERSONS WHO MANAGE THE SYSTEM, OR THOSE PERSONS DIRECTLY RESPONSIBLE FOR GATHERING THE INFORMATION, THE INFORMATION SUBMITTED IS, TO THE BEST OF MY KNOWLEDGE AND BELIEF, TRUE, ACCURATE, AND COMPLETE. I AM AWARE THAT THERE ARE SIGNIFICANT PENALTIES FOR SUBMITTING FALSE INFORMATION, INCLUDING THE POSSIBILITY OF FINE AND IMPRISONMENT FOR KNOWING VIOLATIONS.

SIGNED: _____ DATE:_____

JOSHUA M. ENOT, P.E.
FLORIDA REGISTRATION NUMBER: 93160
PROFESSIONAL ENGINEER

CONTRACTOR'S CERTIFICATION

I CERTIFY UNDER PENALTY OF LAW THAT I UNDERSTAND, SHALL COMPLY WITH, THE TERMS AND CONDITIONS OF THE STATE OF FLORIDA GENERIC PERMIT FOR STORMWATER DISCHARGE FORM LARGE AND SMALL CONSTRUCTION ACTIVITIES AND THIS STORMWATER POLLUTION PREVENTION PLAN PREPARED THEREUNDER.

NOTES:

1. THE ENTRANCE SHALL BE MAINTAINED IN A CONDITION THAT WILL PREVENT TRACKING OR FLOWING OF SEDIMENT ONTO PUBLIC RIGHTS–OF–WAY. THIS MAY REQUIRE TOP DRESSING, REPAIR AND/OR CLEANOUT OF ANY MEASURES USED TO TRAP SEDIMENT.

2. WHEN NECESSARY, WHEELS SHALL BE CLEANED PRIOR TO ENTRANCE ONTO PUBLIC RIGHT–OF–WAY.

3. WHEN WASHING IS REQUIRED, IT SHALL BE DONE ON AN AREA STABILIZED WITH CRUSHED STONE THAT DRAINS INTO AN APPROVED SEDIMENT TRAP OR SEDIMENT BASIN.

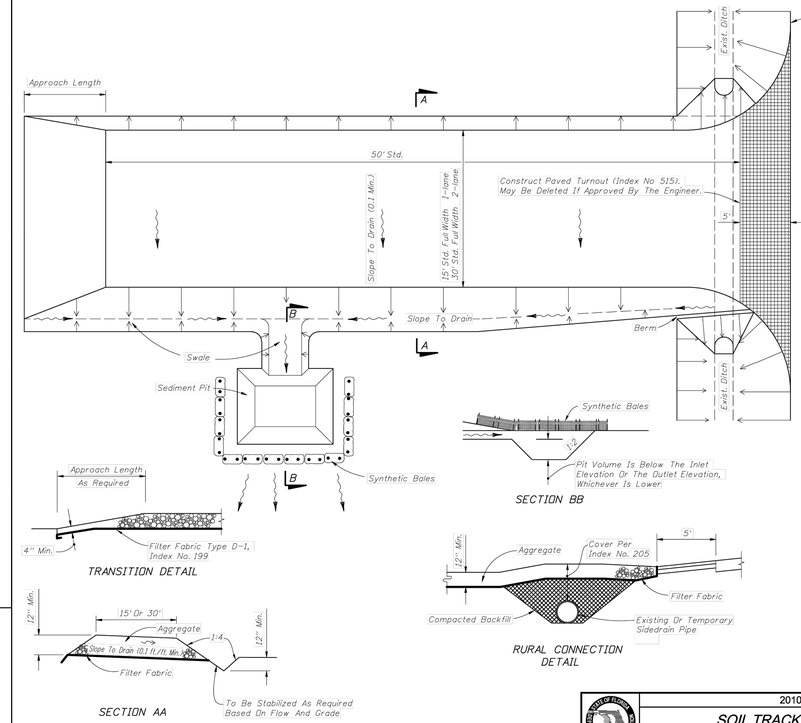
N.T.S



GENERAL NOTES

1. A Soil Tracking Prevention Device (STPD) shall be constructed at locations designated by the engineer for points of egress from unstabilized areas of the project to public roads where off–site tracking of mud could occur. Traffic from unstabilized areas of the construction project shall be directed thru a STPD. Barriers, flagging, or other positive means shall be used as required to limit and direct vehicular egress across the STPD.
2. The Contractor may propose an alternative technique to minimize off–site tracking of sediment. The alternative must be reviewed and approved by the Engineer prior to its use.
3. All materials spilled, dropped, or tracked onto public roads (including the STPD aggregate and construction mud) shall be removed daily, or more frequently if so directed by the Engineer.
4. Aggregates shall be as described in Section 901 excluding 901–2.3. Aggregates shall be FDOT size #1. If this size is not available, the next available smaller size aggregate may be substituted with the approval of the Engineer. Sizes containing excessive small aggregate will track off the project and are unsuitable.
5. The sediment pit should provide a retention volume of 3600 cubic feet/acre of surface area draining to the pit. When the STPD is isolated from other drainage areas, the following pit volumes will satisfy this requirement:
   15'x 50'=100 ft.³ 30' x 50'=200 ft.³
   As an option to the sediment pit, the width of the swale bottom can be increased to obtain the volume. When the sediment pit or swale volume has been reduced to one half, it shall be cleaned. When a swale is used, synthetic bales or silt fence shall be placed along the entire length.
6. The swale ditch draining the STPD shall have a 0.02% minimum and a 1.0% maximum grade along the STPD and to the sediment pit.
7. Mitered end sections are not required when the sidedrain pipe satisfies the clear zone requirements.
8. The STPD shall be maintained in a condition that will allow it to perform its function. To prevent off–site tracking, the STPD shall be rinsed (daily when in use) to move accumulated mud downward thru the stone. Additional stabilization of the vehicular route leading to the STPD may be required to limit the mud tracked.
9. A STPD shall be paid for under the contract unit price for Soil Tracking Prevention Device, EA. The unit price shall constitute full compensation for construction, maintenance, replacement of materials, removal, and restoration of the area utilized for the STPD; including but not limited to excavation, grading, temporary pipe (including MES when required), filter fabric, aggregate, paved turnout (including asphalt and base construction), ditch stabilization, approach route stabilization, sediment removal and disposal, water, rinsing and cleaning of the STPD and cleaning of public roads, grassing and sod. Synthetic Bale or Bale Type Barrier shall be paid for under the contract unit price for Synthetic Bales, LF. Silt fence shall be paid for under the contract unit price for Staked Silt Fence, LF.
10. The nominal size of a standard STPD is 15'x 50' unless otherwise shown in the plans. If the volume of entering and existing vehicles warrant, a 30' width STPD may be used if approved by the Engineer. When a double width (30') STPD is used, the pay quantity shall be 2 for each location.

NOTES

1. CONTRACTOR TO COORDINATE WITH UTILITY COMPANY FOR DEMOLITION REQUIREMENTS OF ELECTRICAL SYSTEMS.
2. CONTRACTOR SHALL UTILIZE BEST MANAGEMENT PRACTICES AS NEEDED TO PREVENT SYSTEM POLLUTION, EROSION, AND MANAGEMENT OF OFF-SITE DRAINAGE DURING TIME OF CONSTRUCTION.
3. REFER TO SWPPP SHEET C2.0 FOR ADDITIONAL NOTES AND DETAILS.
4. INSTALL AND MAINTAIN SILT FENCE AT LIMITS OF CONSTRUCTION. WIRE MESH REINFORCED SILT FENCE SHALL BE USED AT ALL POINTS ALONG PROPERTY BOUNDARY WITH OFF-SITE STORMWATER FLOWS. SEE DETAIL SHEET C3.0. IN THE EVENT THAT ADDITIONAL STRENGTH IS NEEDED, FILTER FABRIC MATERIAL CAN BE ATTACHED TO A 6-INCH (MAX) MESH WIRE SCREEN WHICH HAS BEEN FASTENED TO THE POSTS.
5. PROVIDE SOIL TRACKING PREVENTION DEVICE AT ALL CONSTRUCTION ACCESS POINTS. SEE DETAIL SHEET C3.0.
6. UTILIZE PERFORATED SOCK DRAIN (OR EQUIVALENT) IN FRONT OF EXISTING/PROPOSED CURB INLETS ADJACENT TO CONSTRUCTION ACTIVITIES. SEE DETAIL SHEET C3.0.
7. INSTALL AND MAINTAIN FILTER FABRIC UNDER GRATES OF EXISTING/PROPOSED INLETS, SEE SHEET C3.0.
8. CONTRACTOR TO ENSURE ADEQUATE COVER REMAINS OVER ALL EXISTING UTILITIES.
9. CONTRACTOR TO VERIFY EXISTING COVER OVER ALL UTILITIES BEFORE START OF CONSTRUCTION AND TO COORDINATE WITH THE ENGINEER OF RECORD PRIOR TO START OF CONSTRUCTION IF DESIGN DOES NOT PROVIDE 36" COVER.
10. ANY EXISTING WELLS (I.E. ARTESIAN, IRRIGATION, DRINKING, MONITORING, ETC.) DISCOVERED ON-SITE MUST BE PLUGGED BY A LICENSED WELL DRILLING CONTRACTOR IN A MANNER APPROVED BY ALL APPLICABLE JURISDICTIONAL AGENCIES. CONTRACTOR SHALL BE RESPONSIBLE FOR OBTAINING ANY WELL ABANDONMENT PERMITS REQUIRED. ANY WELL DISCOVERED DURING EARTHWORK OR EXCAVATION SHALL BE REPORTED TO THE APPROPRIATE JURISDICTIONAL AGENCIES, OWNER, AND OWNER'S ENGINEER WITHIN 24 HOURS AFTER DISCOVERY IS MADE.
11. THERE MAY BE ON-SITE UNDERGROUND UTILITIES (INCLUDING BUT NOT LIMITED TO IRRIGATION, SANITARY SEWER, POTABLE WATER LINES, NATURAL GAS LINES, ELECTRIC, TELEPHONE AND CABLE LINES) THAT WERE NOT LOCATED OR IDENTIFIED BY THE PROJECT SURVEYOR. PRIOR TO CONSTRUCTION START, CONTRACTOR SHALL FIELD VERIFY ALL EXISTING ON-SITE UTILITIES AND RIGHT-OF-WAY UTILITIES.
12. IF ANY SEPTIC TANKS OR DRAIN FIELDS ARE FOUND, CONTRACTOR SHALL FOLLOW ALL LOCAL, STATE, AND FEDERAL CODE REQUIREMENTS FOR REMOVAL.
13. IF EXISTING UTILITIES ARE DISCOVERED THAT ARE NOT IDENTIFIED BY THE CONSTRUCTION DOCUMENTS, AND WILL BE IMPACTED BY CONSTRUCTION ACTIVITIES, THE CONTRACTOR SHALL NOTIFY THE ENGINEER IMMEDIATELY PRIOR TO PROCEEDING WITH CONSTRUCTION.
14. CONTRACTOR TO MAINTAIN EXISTING OFF-SITE AND ONSITE DRAINAGE PATTERNS THROUGHOUT CONSTRUCTION
15. LOCATIONS, ELEVATIONS, AND DIMENSIONS OF EXISTING UTILITIES, STRUCTURES AND OTHER FEATURES ARE SHOWN ACCORDING TO THE BEST INFORMATION AVAILABLE AT THE TIME OF PREPARATION OF THESE PLANS. THE EXISTING UTILITY INFORMATION SHOWN IS BASED ON THE TOPOGRAPHIC SURVEY PROVIDED BY LEADING EDGE LAND SERVICES, INC. THE CONTRACTOR SHALL VERIFY THE LOCATIONS, ELEVATIONS, AND DIMENSIONS OF ALL EXISTING UTILITIES, STRUCTURES AND OTHER FEATURES AFFECTING THIS AREA PRIOR TO CONSTRUCTION WORK.
16. ELEVATIONS SHOWN ON THIS PLAN ARE RELATIVE TO THE NORTH AMERICAN VERTICAL DATUM 88 (NAVD 88)
17. THERE MAY BE AN ON-SITE SEPTIC SYSTEM. CONTRACTOR IS TO FOLLOW ALL LOCAL, STATE, AND FEDERAL REGULATIONS FOR THE ABANDONMENT AND REMOVAL OF THE SEPTIC SYSTEM.
18. CONTRACTOR TO FOLLOW ALL LOCAL, STATE, AND FEDERAL CODE REQUIREMENTS FOR THE REMOVAL OF ANY SEPTIC TANKS AND/OR DRAIN FIELDS IF THEY ARE FOUND ON SITE AT THE TIME OF CONSTRUCTION.

MATCHLINE SHEET C4.1

EXISTING BRICK PAVEMENT TO BE REMOVED

EXISTING ONE-STORY BUILDING TO BE DEMOLISHED INCLUDING IT'S FOOTINGS, FOUNDATION, CANOPIES, PLANTERS, SIDEWALKS AND CONNECTED UTILITIES.

EXISTING AIR CONDITIONING UNIT TO BE REMOVED

REMOVE EXISTING SIGN

50' VACATED SCHOOL STREET

EXISTING ±95 LF WALL WITH HANDRAIL TO BE REMOVED

EXISTING ±89 LF WALL WITH HANDRAIL TO BE REMOVED

EXISTING ±95 LF TRENCH DRAIN TO BE REMOVED

EXISTING WAREHOUSE BUILDING ± 155,948 SF

EXISTING BOLLARDS TO BE REMOVED (6 TOTAL)

EXISTING ±25 LF PIPE TO BE REMOVED

EXISTING ±62 LF PIPE TO BE REMOVED

EXISTING INLET TO REMAIN

EXISTING INLET TO BE REMOVED

INSTALL INLET PROTECTION. REFER TO DETAIL 3, SHEET C3.0 FOR DETAILS.

EXISTING LOADING DOCK AREA (±12,107 SF OF CONCRETE) AND ASSOCIATED APPARATUS TO BE REMOVED

EXISTING MECHANICAL ROOM TO REMAIN

EXISTING FIRE SPRINKLER SYSTEM TO REMAIN

EXISTING WAREHOUSE BUILDING ±329,972

STOCKPILE AREA

8" DUCTILE IRON PIPE POSSIBLE GAS VALVE PAINTED YELLOW

SEABOARD AIR LINE RAILROAD

EXISTING DRAINAGE INLET TO REMAIN

EXISTING ±1,675 SF CONCRETE PAVEMENT TO BE REMOVED

CONCRETE BOLLARD TO BE REMOVED (8 TOTAL)

SAWCUT AND REMOVE EXISTING ±337 SIDEWALK/CONCRETE PAVEMENT

EXISTING OVERHEAD LINE TO BE RE-ROUTED ALONG WITH EXISTING LIGHT POLE

EXISTING METAL SHED TO BE REMOVED

EXISTING WOOD SHED TO BE REMOVED

EXISTING DUMPSTER ENCLOSURE AND STORAGE BUILDING TO BE DEMOLISHED INCLUDING IT'S FOOTINGS, BOLLARDS, GATES AND CONNECTED UTILITIES.

60' VACATED ALBRECHT AVENUE

EXISTING POWER POLE TO BE REMOVED

SAWCUT AND REMOVE ±176,194 SF EXISTING ASPHALT PAVEMENT

REMOVE ±2,757 LF OF EXISTING GATE/FENCE (TYP.)

EXISTING SIDEWALK TO REMAIN

INSTALL SEDIMENT FENCE PER STANDARD DRAWING REFER TO DETAILS 7-8, SHEET C3.0 FOR DETAILS.

EXISTING DRAINAGE INLET TO REMAIN

INSTALL INLET PROTECTION. REFER TO DETAIL 3, SHEET C3.0 FOR DETAILS.

REMOVE EXISTING GATE/FENCE (TYP.)

EXISTING POWER POLE TO BE REMOVED

EXISTING ELECTRIC SERVICE FIXTURE TO BE RE-ROUTED IF NEEDED

SITE BENCHMARK SET 5/8" IRON ROD "SSMC TRAV. PT." ELEVATION=121.84

EXISTING UTILITY APPURTENANCES TO REMAIN

3"Ø WOOD POST WITH 3/4" PVC SPRINT TELEPHONE RISER

LIGHT POLE TO BE REMOVED

ELECTRIC METER TO BE REMOVED

NSTALL STABILIZED CONSTRUCTION ENTRANCE/EXIT; PER STANDARD DRAWING REFER TO DETAIL 5, SHEET C3.0 FOR DETAILS. INSTALL TIRE WASH (DRIVE-THROUGH) PER STANDARD DRAWING. REFER TO DETAIL 6, SHEET C3.0 FOR DETAILS

EXISTING ONE-STORY BUILDING TO BE DEMOLISHED INCLUDING IT'S FOOTINGS, FOUNDATION, CANOPIES, PLANTERS, SIDEWALKS AND CONNECTED UTILITIES.

SANITARY AREA, TRASH STORAGE, HAZARDOUS MATERIAL, CONCRETE MANAGEMENT, VEHICLE MAINTENANCE AND EQUIPMENT STORAGE AREA

SITE BENCHMARK SET NAIL & DISK "SSMC TRAV. PT." ELEVATION=120.46

SITE BENCHMARK SET NAIL & DISK "SSMC TRAV. PT." ELEVATION=120.03

SIGN TO BE REMOVED (TYP.)

RELOCATE EXISTING UTILITY; CONTRACTOR TO CONFIRM TYPE/LOCATION WITH OWNER & UTILITY PROVIDER BEFORE START OF WORK

CONCRETE BOLLARD TO BE REMOVED (2 TOTAL)

SAWCUT AND REMOVE ±15,010 SF EXISTING ASPHALT PAVEMENT

INSTALL CONCRETE WASHOUT PER STANDARD DRAWING. REFER TO DETAIL 5, SHEET C3.0 FOR DETAILS.

BURIED UNKNOWN LINE IN BAD CONDITION ONLY TOP EXPOSED

REMOVE EXISTING BOLLARDS (2 TOTAL)

INSTALL SILT FENCE. SHEET C3.0 FOR DETAILS.

SIGN TO BE REMOVED (TYP.)

SIGN TO REMAIN (TYP.)

GENERAL NOTES:

1: ALL EXISTING STRUCTURES, UNLESS OTHERWISE NOTED TO REMAIN, FENCING, TREES, ETC WITHIN CONSTRUCTION AREA SHALL BE REMOVED AND DISPOSED OFF SITE. ANY BURNING ON SITE SHALL BE SUBJECT TO LOCAL ORDINANCES. SEE SPECIFICATIONS.
2: ALL DRAINAGE STRUCTURES SHALL BE PRE-CAST.
3: ALL DRAINAGE STRUCTURES AND STORM SEWER PIPES SHALL MEET HEAVY DUTY TRAFFIC (H20) LOADING AND BE INSTALLED ACCORDINGLY.
4: GENERAL CONTRACTOR SHALL NOTIFY ALL UTILITY COMPANIES HAVING UNDERGROUND UTILITIES ON SITE OR IN RIGHT-OF-WAY PRIOR TO EXCAVATION. CONTRACTOR SHALL CONTACT UTILITY LOCATING COMPANY AND LOCATE ALL UTILITIES PRIOR TO GRADING START.
5: SITE GRADING SHALL NOT PROCEED UNTIL EROSION CONTROL MEASURES HAVE BEEN INSTALLED, INSPECTED AND APPROVED BY LOCAL AUTHORITIES.
6: ALL CUT OR FILL SLOPES SHALL BE 3:1 OR FLATTER UNLESS OTHERWISE NOTED OR PER JURISDICTIONAL REQUIREMENTS.
7: EXISTING DRAINAGE STRUCTURES TO BE INSPECTED AND REPAIRED AS NEEDED, AND EXISTING PIPES ARE TO BE CLEANED OUT TO REMOVE ALL SILT AND DEBRIS.
8: IF ANY EXISTING STRUCTURES TO REMAIN ARE DAMAGED DURING CONSTRUCTION, IT SHALL BE THE CONTRACTORS RESPONSIBILITY TO REPAIR OR REPLACE THE EXISTING STRUCTURE AS NECESSARY.
9: ALL STORM PIPE ENTERING STRUCTURES SHALL BE GROUTED TO ASSURE CONNECTION AND STRUCTURE IS WATER TIGHT.
10: ALL ROOF DRAINS SHALL BE CONNECTED TO THE STORM SYSTEM. IN AREAS NOT SUBJECT TO FREEZING, ROOF DRAINS CAN SPASH ON GRADE AND BE COLLECTED IN INLETS OR TREATED AS SURFACE RUNOFF.
11: CONTRACTOR IS TO ADJUST AND/OR CUT EXISTING PAVEMENT AS NECESSARY TO ASSURE A SMOOTH FIT AND CONTINUOUS GRADE.
12: CONTRACTOR SHALL ASSURE POSITIVE DRAINAGE AWAY FROM BUILDINGS AND STRUCTURES FOR ALL GRASSED AND PAVED AREAS.
13: TOPOGRAPHIC INFORMATION TAKEN FROM: LEADING EDGE LAND SERVICES, INC. ON JANUARY 31, 2023.
14: CONSTRUCTION SHALL COMPLY WITH ALL APPLICABLE GOVERNING CODES AND BE CONSTRUCTED TO THE SAME.
15: CONTRACTOR IS RESPONSIBLE FOR TEMPORARY ACCESS ROADS, MAINTAIN POSITIVE DRAINAGE THROUGHOUT CONSTRUCTION AND AVOID PONDING OR RUTTING.
16: DETENTION POND OUTFLOW DEVICES SHALL BE DESIGNATED TO LIMIT FLOWS TO CAPACITY LEVELS OF DOWNSTREAM DRAINAGE STRUCTURES.
17: DEVIATIONS FROM RECOMMENDED PARKING LOT SLOPES SHALL BE APPROVED BY FLOOR & DECOR CONSTRUCTION AND DESIGN.
18: CONTRACTOR TO PROVIDE FLOOR & DECOR CONSTRUCTION AND DESIGN, AND LOCAL AUTHORITY WITH AS-BUILT DRAWINGS. SEE REQUIREMENTS IN THIS SHEET.
19: CONTRACTOR TO VERIFY T.A.S./A.D.A. COMPLIANCE PRIOR TO POURING CONCRETE. FOR ANY QUESTIONS, CONTACT CIVIL ENGINEER IMMEDIATELY.
20: GRADES IN ALL ACCESSIBLE ROUTES, INCLUDING DRIVEWAY CROSSINGS, SHALL CONFORM TO ALL APPLICABLE A.D.A. AND T.A.S. STANDARDS: MAXIMUM RUNNING SLOPE FOR ALL PATHS IS 5%, MAX CROSS SLOPE FOR ALL PATHS IS 2%, FOR THE FIRST FIVE FEET FROM THE DOOR, A 2% SLOPE IN ALL DIRECTIONS (MAX) MUST BE MAINTAINED.
21: IN GENERAL, THE MAXIMUM RUNNING SLOPE SHALL NOT EXCEED 5%, THE MINIMUM SLOPE SHALL NOT BE INFERIOR THAN 1.5% AND THE PREFERRED SLOPE SHALL BE 2.5%.
22: REFER TO LANDSCAPE ARCHITECT PLANS FOR LANDSCAPE/HARDSCAPE DETAILS.
23: CONTRACTOR TO VERIFY ENGINEERING PLANS MATCH ARCHITECTURAL/STRUCTURAL PLANS PRIOR TO CONSTRUCTION STAKING.
24: LANDSCAPE AREAS ADJACENT TO BUILDING TO DRAIN AWAY FROM BUILDING AT A MINIMUM OF 2% SLOPE.
25: AFTER PLACEMENT OF SUBGRADE AND PRIOR TO PLACEMENT OF PAVEMENT, CONTRACTOR SHALL TEST AND OBSERVE PAVEMENT AREAS FOR EVIDENCE OF PONDING, ALL AREAS SHALL ADEQUIATELY DRAIN TOWARDS THE INTENDED STRUCTURE TO CONVEY STORM RUNOFF, CONTRACTOR SHALL IMMEDIATELY NOTIFY OWNER AND ENGINEER IF ANY DISCREPANCIES ARE DISCOVERED.
26: CONCRETE VALLEY GUTTER SHALL BE CONSTRUCTED IF ASPHALT PAVEMENT IS USED. REFER TO CONSTRUCTION DETAILS
27: FOR STORM SEWER PIPE PROFILES REFER TO DETAIL ON SHEET C7.0 FOR MORE INFORMATION.
28: SEE PIPE PROFILES SHEET FOR INVERT ELEVATIONS (TYPICAL).
29: SEE SHEET C3.0 FOR APPROXIMATE LOCATION OF EXISTING UTILITIES.
30: ALL THE ELEVATIONS SHOWN ARE FINISHED GRADE ELEVATIONS. CONTRACTOR TO SUBTRACT PAVEMENT THICKNESS AND FLOOR SLAB THICKNESS FOR SUBGRADE ELEVATIONS.
31: CONTRACTOR SHALL REFER TO ARCHITECTURAL AND PLUMBING PLANS FOR EXACT LOCATIONS AND DIMENSIONS OF ALL VESTIBULES/ENTRIES, SIDEWALKS, EXIT PORCHES, RAMPS, TRUCK DOCKS, PRECISE BUILDING DIMENSIONS AND EXACT UTILITY ENTRANCE LOCATIONS.
32: TERMITE SPRAY IF NEEDED IS TO BE PROVIDED FOR FOUNDATION BY FOUNDATION CONTRACTOR.
33: SITE PREPARATION TO BE PROVIDED BY CONTRACTOR TO INCLUDE:
A. PROTECTING EXISTING VEGETATION TO REMAIN.
B. REMOVING EXISTING VEGETATION.
C. CLEARING AND GRUBBING.
D. STRIPPING AND STOCKPILING TOPSOIL
E. REMOVING ABOVE-AND BELOW-GRADE SITE IMPROVEMENTS.
F. DISCONNECTING, CAPPING OR SEALING SITE UTILITIES.
G. TEMPORARY EROSION AND SEDIMENTATION CONTROL,

NOTES:

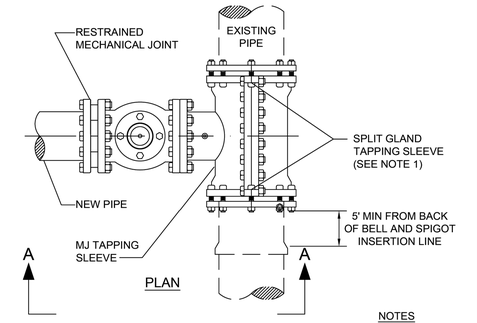
1. FIRE HYDRANT SHALL BE SUPPLIED WITHOUT A WEEP HOLE, OR WITH A PERMANENTLY PLUGGED WEEP HOLE.
2. THE SHEAR PAD SHALL BE RECESSED SIX (6) INCHES BELOW THE FINISHED GRADE AND THE RECESSED SECTION SODDED.
3. CLEARANCE BETWEEN BOTTOM OF BOLTS AND TOP OF SHEAR PAD SHALL BE A TWELVE (12) INCH MINIMUM.
4. FIRE HYDRANTS SHALL BE IDENTIFIED IN ACCORDANCE WITH THE CITY OF APOPKA UTILITIES DESIGN CONSTRUCTION STANDARDS MANUAL.

FIRE HYDRANT ASSEMBLY DETAIL

CITY OF APOPKA DESIGN ENGINEERING DIVISION	JANUARY 2014	FIG. 402

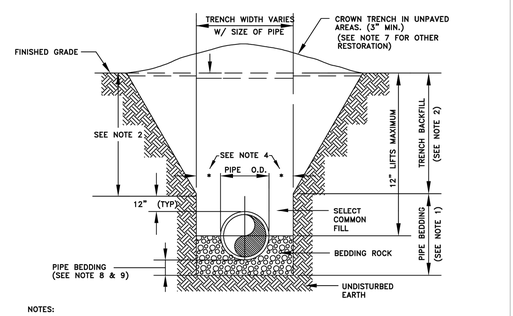


NOTES

1. SIZE ON SIZE WET TAPS WILL CALL FOR FULL ENCIRCLEMENT STAINLESS STEEL MJ TAPPING SLEEVE; MUELLER H-304, OR EQUAL.
2. ALL NEWLY INSTALLED TAPPING SLEEVES & TAPPING VALVES SHALL BE PNEUMATICALLY TESTED AT A TEST PRESSURE OF 150PSI FOR A PERIOD OF THIRTY MINUTES.

WATER AND RECLAIMED WATER MAINS WET TAP TIE-IN DETAIL

CITY OF APOPKA DESIGN ENGINEERING DIVISION	JANUARY 2014	FIG. 406

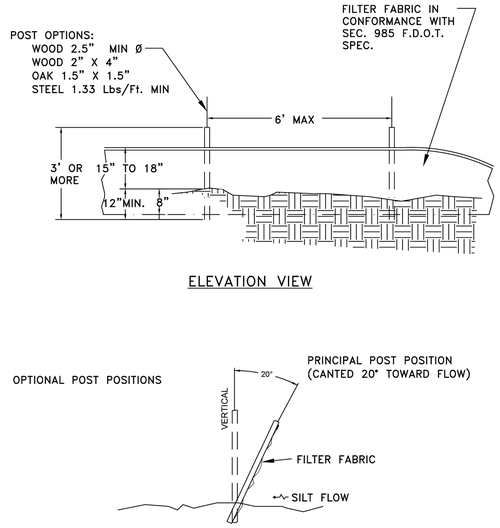


NOTES:

1. PIPE BEDDING: SELECT COMMON FILL COMPACTED TO 98% UNDER PAVEMENT OF THE MAXIMUM DENSITY AS PER AASHTO T-180.
2. TRENCH BACKFILL: COMMON FILL COMPACTED TO 98% UNDER PAVEMENT OF THE MAXIMUM DENSITY AS PER AASHTO T-180.
3. USE OF TYPE A BEDDING TO BE DETERMINED IN THE FIELD AS DIRECTED BY THE CITY.
4. (*): 15" MAX. FOR PIPE DIAMETER LESS THAN 24", AND 24" MAX. FOR PIPE DIAMETER 24" AND LARGER.
5. WATER SHALL NOT BE PERMITTED IN THE TRENCH DURING CONSTRUCTION.
6. ALL PIPE TO BE INSTALLED WITH BELL FACING UPSTREAM TO THE DIRECTION OF THE FLOW.
7. GRAVITY SEWERS SHALL UTILIZE TYPE A BEDDING IF REQUIRED BY THE CITY. BEDDING DEPTH SHALL BE 4" MINIMUM FOR PIPE DIAMETER LESS THAN 15" AND 6" MINIMUM FOR PIPE DIAMETER 16" AND LARGER.
8. DEPTH FOR REMOVAL OF UNSUITABLE MATERIAL SHALL GOVERN DEPTH OF BEDDING ROCK BELOW THE PIPE. THE CITY SHALL DETERMINE IN THE FIELD IF REMOVAL OF UNSUITABLE MATERIAL IS REQUIRED TO REACH A SUITABLE FOUNDATION.
9. ALL UNPAVED DISTURBED AREAS SHALL BE SODDED TO MATCH ADJACENT DOMINATE GRASS SPECIES.
10. FINAL RESTORATION IN IMPROVED AREAS SHALL BE IN COMPLIANCE WITH ALL APPLICABLE REGULATIONS OF THE GOVERNING AGENCIES. SURFACE RESTORATION WITHIN CITY RIGHT-OF-WAY, SHALL COMPLY WITH REQUIREMENTS OF RIGHT-OF-WAY UTILIZATION REGULATIONS.

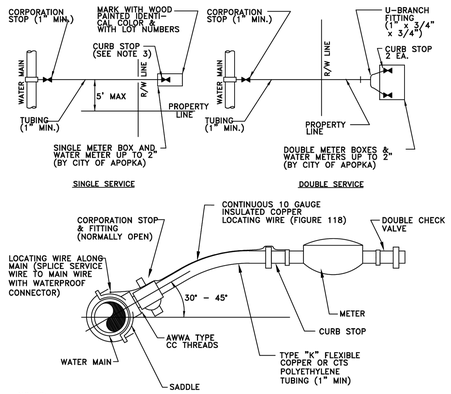
TYPE "A" BEDDING AND OPEN-CUT DETAIL

CITY OF APOPKA DESIGN ENGINEERING DIVISION	JANUARY 2014	FIG. 101



SILT FENCE INSTALLATION

CITY OF APOPKA DESIGN ENGINEERING DIVISION	JANUARY 2014	FIG. 602

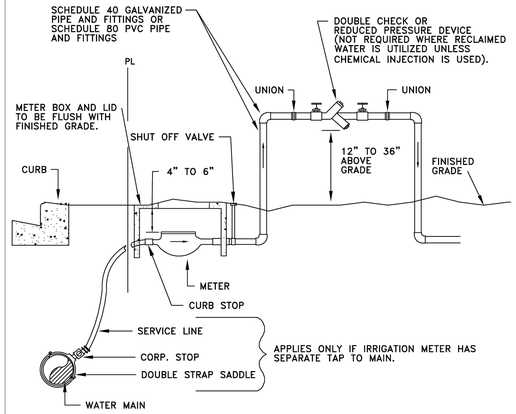


NOTES:

1. ALL FITTINGS SHALL BE BRASS WITH COMPRESSION/PACK JOINT TYPE CONNECTIONS.
2. NO SERVICE LINE SHALL TERMINATE UNDER A DRIVEWAY.
3. EACH SERVICE SHALL TERMINATE AT A CURB STOP(S) WHICH SHALL BE BURIED APPROXIMATELY 3" BELOW FINAL GRADE AND SHALL BE CLEARLY MARKED WITH A 2" x 2" x 18" STAKE WITH THE TOP PAINTED BLUE FOR POTABLE WATER AND PURPLE FOR RECLAIMED WATER, AND MARKED WITH THE NUMBER OF THE LOT(S) TO BE SERVED.
4. RECLAIMED WATER SERVICES SHALL USE PURPLE COLORED CTS POLYETHYLENE TUBING.
5. POTABLE WATER SERVICES SHALL USE BLUE COLORED CTS POLYETHYLENE TUBING.
6. ALL SERVICE UNDER EXISTING OR PROPOSED PAVEMENT SHALL BE INSTALLED IN A MINIMUM 2" PVC SLEEVE.

WATER SERVICE CONNECTION DETAIL

CITY OF APOPKA DESIGN ENGINEERING DIVISION	JANUARY 2014	FIG. 405



NOTES:

1. A POSITIVE DIELECTRIC CONNECTION SHALL BE MADE BETWEEN ALL GALVANIZED AND BRASS COMPONENTS.
2. METER SHALL BE INSTALLED JUST INSIDE THE ROW LINE OR PROPERTY LINE AND IN NO CASE SHALL IT BE INSTALLED IN THE SIDEWALK OR OTHER PAVED AREAS.
3. DOUBLE CHECK VALVES MAY BE USED AS LONG AS THEIR ARE NO CHEMICALS OR A WELL ON SITE.
4. A PVB DEVICE SHALL BE 12-INCHES MINIMUM ABOVE HIGHEST OUTLET OR SPRAYHEAD
5. ALL BACKFLOW PREVENTION DEVICES ARE TO BE AWWA APPROVED.

IRRIGATION METER AND DOUBLE CHECK VALVE OR REDUCED PRESSURE BACKFLOW PREVENTER

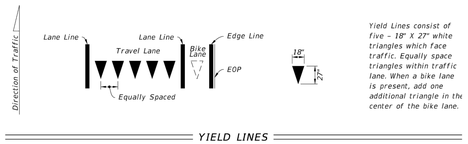
PAVEMENT MARKING LINES

CONTRAST MARKINGS WITH ALTERNATING SKIP PATTERN

(10'-30' Skip Line Shown, Dotted Lines Similar)

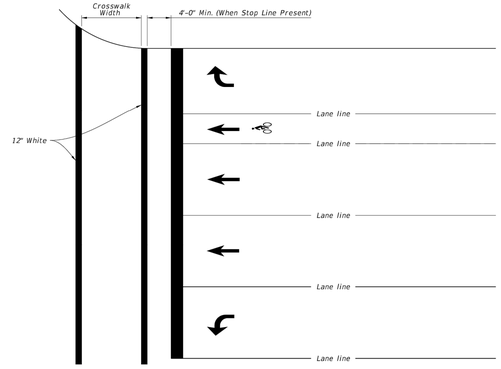


Yield Lines consist of five - 18" X 27" white triangles which face traffic. Equally space triangles within traffic lane. When a bike lane is present, add one additional triangle in the center of the bike lane.

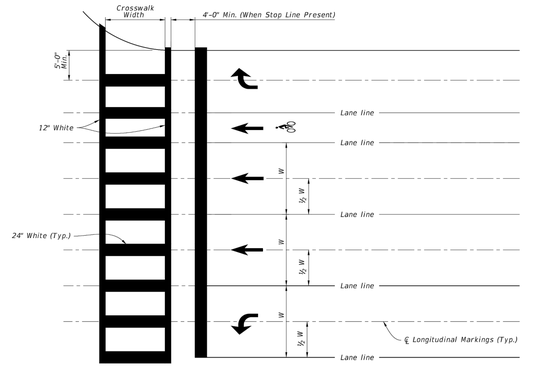
YIELD LINES

LAST REVISION 11/01/18	REVISION	DESCRIPTION:

FDOT FY 2019-20 STANDARD PLANS | PAVEMENT MARKINGS | INDEX 711-001 | SHEET 2 of 13



STANDARD CROSSWALK DETAILS



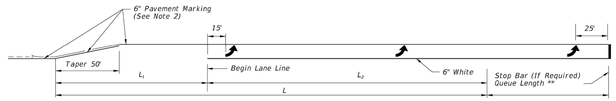
SPECIAL EMPHASIS CROSSWALK DETAILS

NOTES:

1. For crosswalk width, exceed width of the adjacent sidewalk, but do not make width less than 6' for intersection crosswalks and 10' for midblock crosswalks. Measure width from the inside of the transverse crosswalk markings.
2. When the Special Emphasis Crosswalk is not perpendicular to the lane lines, make the longitudinal markings parallel to the lane lines.
3. Refer to Index 522-002 when Curb Ramps are present.

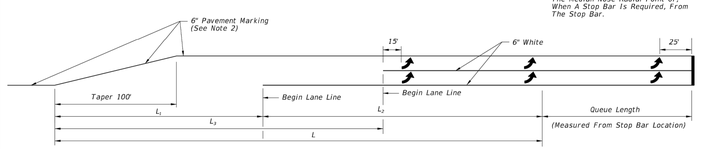
LAST REVISION 11/01/18	REVISION	DESCRIPTION:

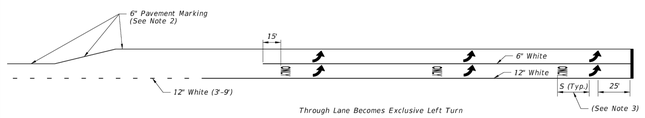
FDOT FY 2019-20 STANDARD PLANS | PAVEMENT MARKINGS | INDEX 711-001 | SHEET 10 of 13



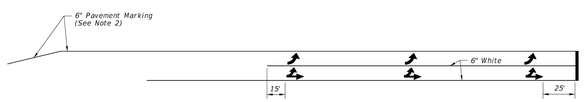
SINGLE LEFT TURNS

** Queue Length Is Measured From The Median Nose Radial Point Or, When A Stop Bar Is Required, From The Stop Bar.





Through Lane Becomes Exclusive Left Turn



Through Lane Becomes Optional Left Turn

DOUBLE LEFT TURNS

Design Speed (mph)	Clearance Distance	URBAN CONDITIONS: Brake To Stop Distance	URBAN CONDITIONS: Total Decel. Distance	Clearance Distance	RURAL CONDITIONS: Brake To Stop Distance	RURAL CONDITIONS: Total Decel. Distance	Clearance Distance
	L_1	L_2	L	L_3	L_2	L	L_3
35	70'	75'	145'	110'	— —	— —	— —
40	80'	75'	155'	120'	— —	— —	— —
45	85'	100'	185'	135'	— —	— —	— —
50	105'	135'	240'	160'	185'	290'	160'
55	125'	— —	— —	— —	225'	350'	195'

Drawing Not To Scale

SLOPE INSTALLATION DETAIL

1. Prepare soil before installing rolled erosion control products (RECPs), including any necessary application of lime, fertilizer, and seed.
2. Begin at the top of the slope by anchoring the RECPs in a 6"(15cm) deep X 6"(15cm) wide trench with approximately 12" (30cm) of RECPs extended beyond the up-slope portion of the trench. Anchor the RECPs with a row of staples/stakes approximately 12" (30cm) apart in the bottom of the trench. Backfill and compact the trench after stapling. Apply seed to the compacted soil and fold the remaining 12"(30cm) portion of RECPs back over the seed and compacted soil. Secure RECPs over compacted soil with a row of staples/stakes spaced approximately 12"(30cm) apart across the width of the RECPs.
3. Roll the RECPs (A) down or (B) horizontally across the slope. RECPs will unroll with appropriate side against the soil surface. All RECPs must be securely fastened to soil surface by placing staples/stakes in appropriate locations as shown in the staple pattern guide.
4. The edges of parallel RECPs must be stapled with approximately 2" - 5" (5-12.5cm) overlap depending on the RECPs type.
5. Consecutive RECPs spliced down the slope must be end over end (Shingle style) with an approximate 3"(7.5cm) overlap. Staple through overlapped area, approximately 12"(30cm) apart across entire RECPs width.

*NOTE:
In loose soil conditions, the use of staple or stake lengths greater than 6"(15cm) may be necessary to properly secure the RECP's.

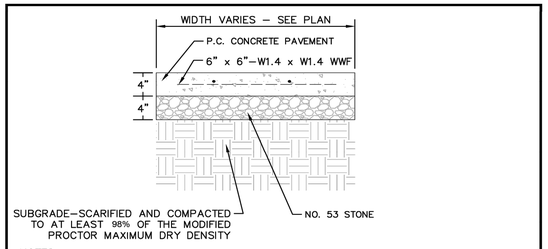
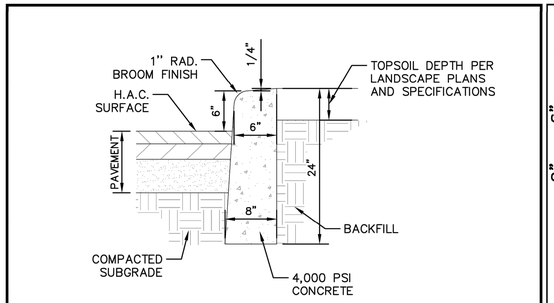
RAT RUN
NOT TO SCALE



NOTES:

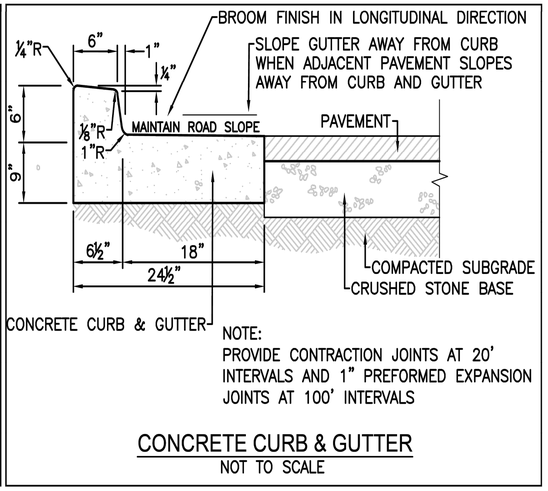
1. ALL SIDEWALK SHALL BE CONSTRUCTED WITH CONCRETE WITH A MINIMUM COMPRESSIVE STRENGTH OF 4,000 PSI AT 14 DAYS.
2. PROVIDE 1/2" EXPANSION JOINTS AT 20', MAXIMUM, SPACING AND FILLED WITH PREMOLDED BITUMINOUS EXPANSION JOINT FILLER MATERIAL OR REDWOOD. EXPANSION JOINTS SHALL HAVE #4 DOWELS, LUBRICATED, 18" LONG, AT 12" CENTERS, 6" FROM EDGE.
3. PROVIDE 3/8" GROOVED CONTROL JOINTS AT 5' CENTERS.
4. PROVIDE 1/2" BITUMINOUS EXPANSION JOINT FILLER MATERIAL WHERE WALK ABUTS EXISTING IMPROVEMENTS AND AT ALL CHANGES IN GRADE
5. USE 2–#4 REINFORCING BARS, 10' LONG OVER ALL UTILITY TRENCHES FOR NEW SIDEWALK AND CONNECTIONS TO EXISTING SIDEWALK.
6. AT DRIVE APPROACHES, SIDEWALK PCC AND BASE THICKNESS SHALL MATCH THAT OF THE DRIVE.

CONCRETE SIDEWALK
N.T.S.



NOTE:
INSTALL JOINTS EVERY 15' AND ALIGN WITH SIDEWALK JOINTS WHERE ADJACENT TO SIDEWALK.

CONCRETE CURB
N.T.S.



NOTE:
PROVIDE CONTRACTION JOINTS AT 20' INTERVALS AND 1" PREFORMED EXPANSION JOINTS AT 100' INTERVALS

CONCRETE CURB & GUTTER

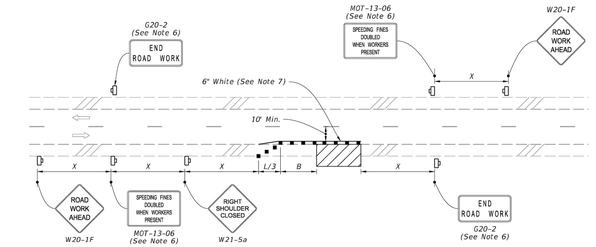
9/10/2024 10:45:37 AM

NOTE:

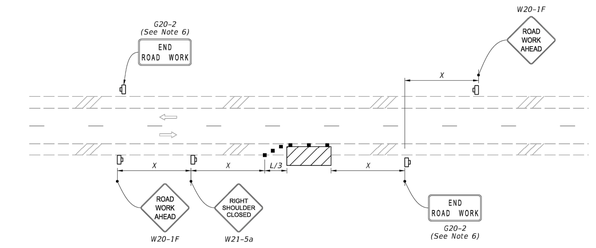
1. This Index applies to Two-Lane, Two-Way and Multilane Roadways, including Medians of divided roadways, with work on the shoulder.
2. L = Taper Length
   X = Work Zone Sign Spacing
   B = Buffer Length
   See Index 102-600 for "L", "X", "B", and channelizing device spacing values.
3. Where work activities are between 2' and 15' from the edge of traveled way, the Engineer may omit signs and channelizing devices for work operations 60 minutes or less.
4. When four or more work vehicles enter the through traffic lanes in a one hour period (excluding establishing and terminating the work area), use a flagger or lane closure to accommodate work vehicle ingress and egress.
5. For work less than 2' from the traveled way and work zone speed is greater than 45 MPH, use a lane closure.
6. The "Speeding Fines Doubled When Workers Present" signs (MOT-13-06) and "End Road Work" Signs (G20-2) along with the associated work zone sign spacing distances may be omitted when the work operation is in place for 24 hours or less.
7. Temporary pavement markings may be omitted when the work operation is in place for 3 days or less.
8. Omit "Shoulder Closed" signs (W21-5a) along with associated work zone sign spacing distances for work on the median.
9. When there is no paved shoulder, the "Worker" sign (W21-1) may be used instead of the "Shoulder Closed" sign (W21-5a).

SYMBOLS:

- Work Area
- ■ Channelizing Device (See Index 102-600)
- Work Zone Sign
- Lane Identification and Direction of Traffic



TWO-LANE ROADWAY
SHOULDER WORK LESS THAN 2' FROM THE TRAVELED WAY
WITH WORK ZONE SPEED OF 45 MPH OR LESS



TWO-LANE ROADWAY
SHOULDER WORK BETWEEN 2' AND 15' FROM THE TRAVELED WAY

LAST REVISION	DESCRIPTION:	FDOT FY 2025-26 STANDARD PLANS	TWO-LANE AND MULTILANE, WORK ON SHOULDER	INDEX	SHEET
11/01/21	REVISION			102-602	1 of 2

9/10/2024 10:46:28 AM

NOTES:

1. This Index applies to Two-Lane, Two-Way Roadways with work within the traveled way.
2. L = Taper Length
   B = Buffer Length
   X = Work Zone Sign Spacing
   See Index 102-600 for "L", "B", "X" and channelizing device spacing values.
3. Optionally, use "Flagger Ahead" sign with symbol (W20-7) instead of "Flagger Ahead" sign with text (W20-7A).
4. Use temporary raised rumble strips when the existing posted speed is 55 mph or greater and the work duration is greater than 60 minutes. If temporary raised rumble strips are not used, omit "Rumble Strips Ahead" signs (MOT-18-10) and associated work zone sign spacing.
5. Additional one-way control may be provided by the following means:
   a. Flag-carrying vehicle
   b. Official vehicle
   c. Pilot vehicles
   d. Traffic signals

   When flaggers are the sole means of one-way control, the flaggers must be in sight of each other or in direct communication at all times.
6. The "Speeding Fines Doubled When Workers Present" signs (MOT-13-06) and "End Road Work" signs (G20-2), along with associated work zone sign spacing, may be omitted when the work operation will be in place for 24 hours or less.
7. Automated Flagger Assistance Devices (AFADs) may be used in accordance with Specification Sections 102, 990 and the APL vendor drawings.
8. Railroad Crossings:
   a. If an active railroad crossing is located closer to the Work Area than the queue length plus 300 feet, extend the Buffer Space as shown on Sheet 2.
   b. If the queuing of vehicles across an active railroad crossing cannot be avoided, provide a uniformed traffic control officer or flagger at the highway-rail grade crossing to prevent vehicles from stopping within the highway-rail grade crossing, even if automatic train warning devices are in place.

SYMBOLS:

- Work Area
- ■ Channelizing Device (See Index 102-600)
- Work Zone Sign
- Flagger
- Lane Identification and Direction of Traffic

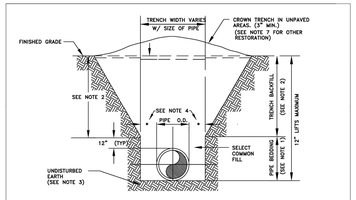
Reuse of and improper reliance on this document without written authorization and adaptation by Kimley-Horn and Associates, Inc. shall be without liability to Kimley-Horn and Associates, Inc.

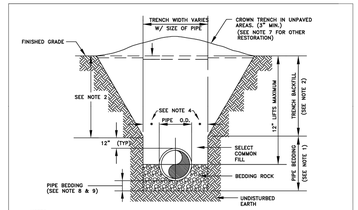


NOTES:

1. PIPE BEDDING: SELECT COMMON FILL COMPACTED TO 98% UNDER PAVEMENT OF THE MAXIMUM DENSITY AS PER AASHTO T-180.
2. TRENCH BACKFILL: COMMON FILL COMPACTED TO 98% UNDER PAVEMENT OF THE MAXIMUM DENSITY AS TO AASHTO T-180.
3. USE OF TYPE A BEDDING TO BE DETERMINED IN THE FIELD AS DIRECTED BY THE CITY.
4. (*): 15" MAX. FOR PIPE DIAMETER LESS THAN 24", AND 24" MAX. FOR PIPE DIAMETER 24" AND LARGER.
5. WATER SHALL NOT BE PERMITTED IN THE TRENCH DURING CONSTRUCTION.
6. ALL PIPE TO BE INSTALLED WITH BELL FACING UPSTREAM TO THE DIRECTION OF THE FLOW.
7. FINAL RESTORATION IN IMPROVED AREAS SHALL BE IN COMPLIANCE WITH ALL APPLICABLE REGULATIONS OF GOVERNING AGENCIES.
8. SURFACE RESTORATION WITHIN CITY RIGHT-OF-WAY, SHALL COMPLY WITH REQUIREMENTS OF RIGHT-OF-WAY UTILIZATION REGULATIONS.
9. ALL UNPAVED DISTURBED AREAS SHALL BE SODDED TO MATCH ADJACENT DOMINATE GRASS SPECIES.

TYPE "B" BEDDING AND OPEN-CUT DETAIL

CITY OF APOPKA DESIGN ENGINEERING DIVISION	JANUARY 2014	FIG. 100

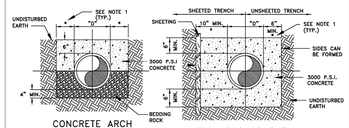


NOTES:

1. PIPE BEDDING: SELECT COMMON FILL COMPACTED TO 98% UNDER PAVEMENT OF THE MAXIMUM DENSITY AS PER AASHTO T-180.
2. TRENCH BACKFILL: COMMON FILL COMPACTED TO 98% UNDER PAVEMENT OF THE MAXIMUM DENSITY AS PER AASHTO T-180.
3. USE OF TYPE A BEDDING TO BE DETERMINED IN THE FIELD AS DIRECTED BY THE CITY.
4. (*): 15" MAX. FOR PIPE DIAMETER LESS THAN 24", AND 24" MAX. FOR PIPE DIAMETER 24" AND LARGER.
5. WATER SHALL NOT BE PERMITTED IN THE TRENCH DURING CONSTRUCTION.
6. ALL PIPE TO BE INSTALLED WITH BELL FACING UPSTREAM TO THE DIRECTION OF THE FLOW.
7. GRAVITY SEWERS SHALL UTILIZE TYPE A BEDDING IF REQUIRED BY THE CITY. BEDDING DEPTH SHALL BE 4" MINIMUM FOR PIPE DIAMETER LESS THAN 15" AND 6" MINIMUM FOR PIPE DIAMETER 16" AND LARGER.
8. DEPTH FOR REMOVAL OF UNSUITABLE MATERIAL SHALL GOVERN DEPTH OF BEDDING ROCK BELOW THE PIPE. THE CITY SHALL DETERMINE IN THE FIELD IF REMOVAL OF UNSUITABLE MATERIAL IS REQUIRED TO REACH A SUITABLE FOUNDATION.
9. ALL UNPAVED DISTURBED AREAS SHALL BE SODDED TO MATCH ADJACENT DOMINATE GRASS SPECIES.
10. FINAL RESTORATION IN IMPROVED AREAS SHALL BE IN COMPLIANCE WITH ALL APPLICABLE REGULATIONS OF THE GOVERNING AGENCIES. SURFACE RESTORATION WITHIN CITY RIGHT-OF-WAY, SHALL COMPLY WITH REQUIREMENTS OF RIGHT-OF-WAY UTILIZATION REGULATIONS.

TYPE "A" BEDDING AND OPEN-CUT DETAIL

CITY OF APOPKA DESIGN ENGINEERING DIVISION	JANUARY 2014	FIG. 101



NOTES:

1. (*): 15" MAX. FOR PIPE DIAMETER LESS THAN 24", AND 24" MAX. FOR PIPE DIAMETER 24" AND OVER. FOR CONCRETE ARCH, THE MIN. WIDTH SHALL BE EQUAL TO OUTSIDE DIAMETER OF PIPE.
2. "D" REFERS TO THE DIAMETER OF THE PIPE.
3. "T" REFERS TO THE THICKNESS OF THE PIPE.
4. THE NEED FOR CONCRETE ARCH/ HALF ENCASEMENT OR FULL ENCASEMENT TO BE DETERMINED IN THE FIELD AS DIRECTED BY THE CITY.
5. ENDS OF ENCASEMENT SHALL BE FORMED, AND LOCATIONS SHALL BE INDICATED ON RECORD DRAWINGS.

CONCRETE ARCH AND ENCASEMENT DETAILS

CITY OF APOPKA DESIGN ENGINEERING DIVISION	JANUARY 2014	FIG. 102

MINIMUM LENGTH (FT) TO BE RESTRAINED ON EACH SIDE OF FITTING(S). *	PIPE SIZE

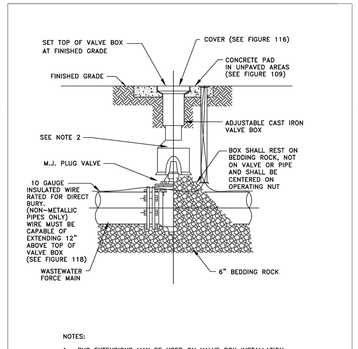
FORCE MAIN WET TAP TIE-IN DETAIL

CITY OF APOPKA DESIGN ENGINEERING DIVISION	JANUARY 2014	FIG. 206

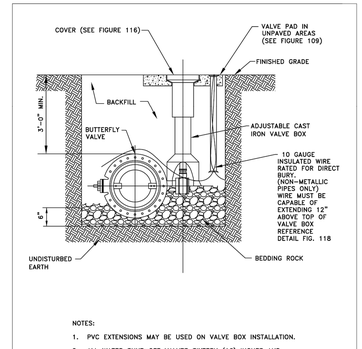


NOTES:

1. PVC EXTENSIONS MAY BE USED ON VALVE BOX INSTALLATION.
2. THE ACTUATING NUT FOR DEEPER VALVES SHALL BE EXTENDED TO WITHIN 3 FEET BELOW FINISHED GRADE.

PLUG VALVE AND BOX DETAIL

CITY OF APOPKA DESIGN ENGINEERING DIVISION	JANUARY 2014	FIG. 400 A

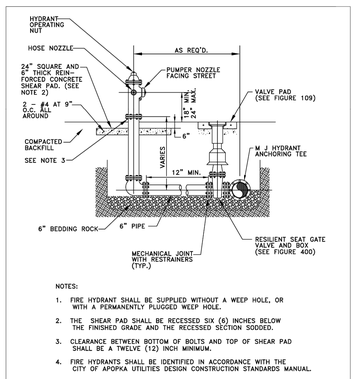


NOTES:

1. PVC EXTENSIONS MAY BE USED ON VALVE BOX INSTALLATION.
2. ALL WATER SHUT-OFF VALVES SIXTEEN (16) INCHES AND LARGER SHALL BE BUTTERFLY VALVES.
3. THE ACTUATING NUT FOR DEEPER VALVES SHALL BE EXTENDED TO WITHIN 3 FEET BELOW FINISHED GRADE.

BUTTERFLY VALVE AND BOX DETAIL

CITY OF APOPKA DESIGN ENGINEERING DIVISION	JANUARY 2014	FIG. 401

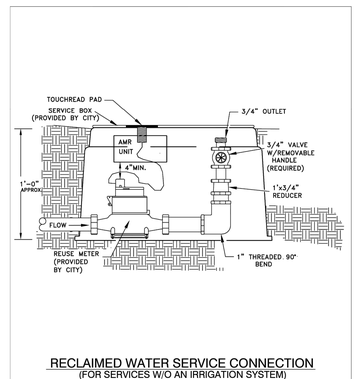


NOTES:

1. FIRE HYDRANT SHALL BE SUPPLIED WITHOUT A WEEP HOLE, OR WITH A PERMANENTLY PLUGGED WEEP HOLE.
2. THE SHEAR PAD SHALL BE RECESSED SIX (6) INCHES BELOW THE FINISHED GRADE AND THE RECESSED SECTION SODDED.
3. CLEARANCE BETWEEN BOTTOM OF BOLTS AND TOP OF SHEAR PAD SHALL BE A TWELVE (12) INCH MINIMUM.
4. FIRE HYDRANTS SHALL BE IDENTIFIED IN ACCORDANCE WITH THE CITY OF APOPKA UTILITIES DESIGN CONSTRUCTION STANDARDS MANUAL.

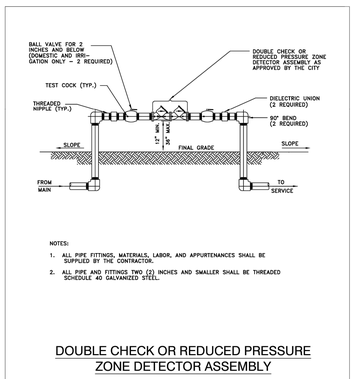
FIRE HYDRANT ASSEMBLY DETAIL

CITY OF APOPKA DESIGN ENGINEERING DIVISION	JANUARY 2014	FIG. 402



RECLAIMED WATER SERVICE CONNECTION
(FOR SERVICES W/O AN IRRIGATION SYSTEM)

CITY OF APOPKA DESIGN ENGINEERING DIVISION	JANUARY 2014	FIG. 506

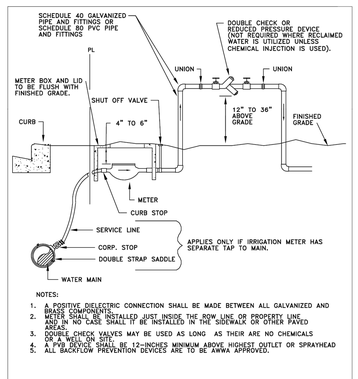


NOTES:

1. ALL PIPE FITTINGS, MATERIALS, LABOR, AND APPURTENANCES SHALL BE SUPPLIED BY THE CONTRACTOR.
2. ALL PIPE AND FITTINGS TWO (2) INCHES AND SMALLER SHALL BE THREADED SCHEDULE 40 GALVANIZED STEEL.

DOUBLE CHECK OR REDUCED PRESSURE ZONE DETECTOR ASSEMBLY
2 INCH AND BELOW ASSEMBLY

CITY OF APOPKA DESIGN ENGINEERING DIVISION	JANUARY 2014	FIG. 500 A

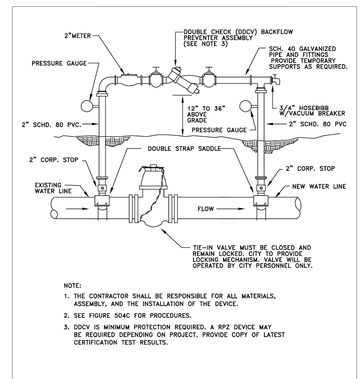


NOTES:

1. A POSITIVE DIELECTRIC CONNECTION SHALL BE MADE BETWEEN ALL GALVANIZED AND BRASS COMPONENTS.
2. METER SHALL BE INSTALLED JUST INSIDE THE ROW LINE OR PROPERTY LINE, AND IN NO CASE SHALL IT BE INSTALLED IN THE SIDEWALK OR OTHER PAVED AREAS.
3. DOUBLE CHECK VALVES MAY BE USED AS LONG AS THEIR ARE NO CHEMICALS OR A WELL ON SITE.
4. A PVB DEVICE SHALL BE 12-INCHES MINIMUM ABOVE HIGHEST OUTLET OR SPRAYHEAD
5. ALL BACKFLOW PREVENTION DEVICES ARE TO BE AWWA APPROVED.

IRRIGATION METER AND DOUBLE CHECK VALVE OR REDUCED PRESSURE BACKFLOW PREVENTER

CITY OF APOPKA DESIGN ENGINEERING DIVISION	JANUARY 2014	FIG. 502

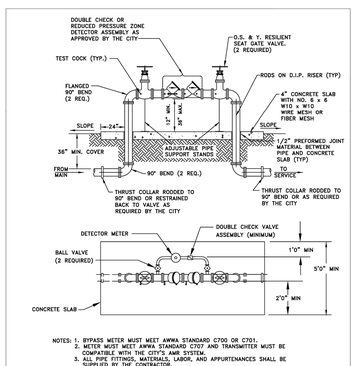


NOTE:

1. THE CONTRACTOR SHALL BE RESPONSIBLE FOR ALL MATERIALS, ASSEMBLY, AND THE INSTALLATION OF THE DEVICE.
2. SEE FIGURE 504C FOR PROCEDURES.
3. DDCV IS MINIMUM PROTECTION REQUIRED. A RPZ DEVICE MAY BE REQUIRED DEPENDING ON PROJECT. PROVIDE COPY OF LATEST CERTIFICATION TEST RESULTS.

TEMPORARY JUMPER CONNECTION

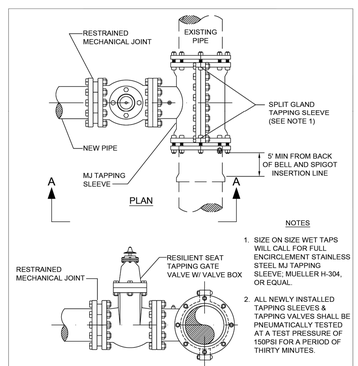
CITY OF APOPKA DESIGN ENGINEERING DIVISION	JANUARY 2014	FIG. 504 A



NOTES: 1. BYPASS METER MUST MEET AWWA STANDARD C700 OR C701.
2. METER MUST MEET AWWA STANDARD C707 AND TRANSMITTER MUST BE COMPATIBLE WITH THE CITY'S AMR SYSTEM.
3. ALL PIPE FITTINGS, MATERIALS, LABOR, AND APPURTENANCES SHALL BE SUPPLIED BY THE CONTRACTOR.
4. ALL PIPE AND FITTINGS TWO (2) INCHES AND SMALLER SHALL BE THREADED SCHEDULE 40 GALVANIZED STEEL, OR BRASS.

ABOVE GROUND DEVICE WITH DETECTOR BY-PASS
2 INCH AND ABOVE ASSEMBLY

CITY OF APOPKA DESIGN ENGINEERING DIVISION	JANUARY 2014	FIG. 500 B

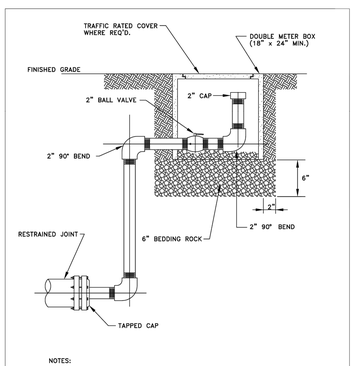


NOTES

1. SIZE ON SIZE WET TAPS WILL CALL FOR FULL ENCIRCLEMENT STAINLESS STEEL MJ TAPPING SLEEVE; MUELLER H-304, OR EQUAL.
2. ALL NEWLY INSTALLED TAPPING SLEEVES & TAPPING VALVES SHALL BE PNEUMATICALLY TESTED AT A TEST PRESSURE OF 150PSI FOR A PERIOD OF THIRTY MINUTES.

WATER AND RECLAIMED WATER MAINS WET TAP TIE-IN DETAIL

CITY OF APOPKA DESIGN ENGINEERING DIVISION	JANUARY 2014	FIG. 406



NOTES:

1. ALL 2 INCH PIPE AND FITTINGS SHALL BE SCHEDULE 40 GALVANIZED STEEL OR BRASS WITH THREADED (NPT) JOINTS. USE TEFLON TAPE ON JOINTS.
2. COLOR SHALL BE APPROPRIATE FOR USE.

BLOWOFF VALVE DETAIL

This document, together with the concepts and designs presented herein, as an instrument of service, is intended only for the specific purpose and client for which it was prepared. Reuse of and improper reliance on this document without written authorization and adaptation by Kimley-Horn and Associates, Inc. shall be without liability to Kimley-Horn and Associates, Inc.

TREE MITIGATION SPECIFICATIONS

A. GENERAL

1. CONTRACTOR SHALL ADHERE TO ALL TREE PROTECTION REQUIREMENTS LISTED IN THESE SPECIFICATIONS AND/OR THOSE LISTED IN THE CITY OR COUNTY ZONING CODE, TREE PROTECTION (LATEST EDITION). WHICHEVER IS MORE STRINGENT SHALL APPLY.
2. CONTRACTOR SHALL COORDINATE ALL CONSTRUCTION PROCEDURES WITH THE PROJECT ARBORIST PRIOR TO BEGINNING WORK.
3. ANY AREAS SUBJECT TO EROSION MUST BE ADEQUATELY STABILIZED WITH VEGETATION MATERIAL THAT WILL, WITHIN A REASONABLE TIME FRAME, DETER SOIL DISTURBANCE.
4. NO SIGNS, BUILDING PERMITS, WIRES OR OTHER ATTACHMENTS OF ANY KIND SHALL BE ATTACHED TO ANY TREE OR PALM. GUY WIRES DESIGNED TO PROTECT TREES ARE EXCLUDED FROM THIS PROHIBITION.
5. EXISTING TREE LOCATIONS AND SIZES ARE ESTIMATES AND ARE BASED ON A SURVEY PROVIDED BY THE OWNER SELECTED SURVEYOR.
6. CONTRACTOR SHALL COORDINATE TREE REMOVAL WITH PERMITTING AGENCY AND PROJECT ARBORIST PRIOR TO CONSTRUCTION. NO PERSON MAY REMOVE OR CAUSE TO BE REMOVED ANY PROTECTED TREE OR PALM WITHOUT FIRST HAVING PROCURED A PERMIT AS PROVIDED BY THE APPROPRIATE PERMITTING AGENCY.
7. FOR PROTECTED TREES OR PALMS BEING REMOVED, THE CONTRACTOR MUST GIVE THE PERMITTING AGENCY REASONABLE OPPORTUNITY TO RELOCATE TREES DESIGNATED FOR REMOVAL TO ANOTHER SITE AT THE PERMITTING AGENCY'S EXPENSE.
8. CONTRACTOR IS RESPONSIBLE FOR POSSESSING ALL REQUIRED APPLICATOR LICENSES, BUSINESS REGISTRATIONS AND INSURANCE, PESTICIDE LABELS, AND MATERIAL DATA SAFETY SHEETS. THE CONTRACTOR IS ALSO RESPONSIBLE FOR HAVING ALL SPILL CONTAINMENT MATERIALS AND REQUIRED PERSONAL PROTECTIVE EQUIPMENT FOR PESTICIDE APPLICATIONS AND ACCIDENTAL SPILLS ON SITE AT ALL TIMES. THE OWNER RESERVES THE RIGHT TO INSPECT EACH APPLICATOR AND HAVE THESE MATERIALS PRESENTED BEFORE AND DURING ANY PESTICIDE TREATMENT.
9. WHERE TRAFFIC AREAS ARE PROPOSED WITHIN THE DRIP LINE OF PROTECTED TREES AND LESS THAN FOUR (4) INCHES OF GRADE CHANGE ARE PROPOSED, PERMEABLE SURFACES THAT ALLOW AIR AND WATER INTO THE SOIL SHOULD BE USED IN LIEU OF ASPHALT OR OTHER SUCH IMPERVIOUS SURFACES.
10. TREE WELLS OF AN APPROVED DESIGN SHALL BE CONSTRUCTED AROUND ALL TREES TO BE PRESERVED WHEN MORE THAN FOUR INCHES OF FILL IS TO BE DEPOSITED WITHIN THE DRIP LINE AREA OF THOSE TREES. COORDINATE WITH PROJECT ARBORIST.
11. THE SEQUENCE OF TREE MITIGATION AND PRESERVATION MEASURES IS IMPERATIVE TO THE HEALTH AND SURVIVABILITY OF THE SUBJECT TREES AND SHALL BE COORDINATED WITH THE OWNER SELECTED PROJECT ARBORIST. THE DESIRED SEQUENCE IS OUTLINED BELOW:
    a. TREE PROTECTION FENCING.
    b. ROOT PRUNING AND ROOT BARRIERS.
    c. CLEARING.
    d. TREE CANOPY PRUNING.
    e. FERTILIZATION.
    f. INSECTICIDE.
    g. IRRIGATION.

B. TREE PROTECTION FENCING

1. PRIOR TO THE ERECTION OF ANY TREE PROTECTION FENCING, ALL FOREIGN SURFACE MATERIAL, TRASH OR DEBRIS SHALL BE REMOVED FROM THE AREA TO BE ENCLOSED BY THE FENCING. AFTER ERECTION OF THE FENCING NO SUCH MATERIAL OR LITTER SHALL BE PERMITTED TO REMAIN WITHIN THE PROTECTED AREA.
2. TREE PROTECTION FENCING SHALL BE PLACED AROUND ALL PROTECTED TREES TO CREATE A PROTECTIVE ROOT ZONE AND SHALL REMAIN IN PLACE UNTIL SITE CLEARING, LAND ALTERATION, AND CONSTRUCTION ACTIVITIES ARE COMPLETE.
3. NATIVE GROUND COVER AND UNDERSTORY VEGETATION EXISTING WITHIN THE PROTECTED AREA SHALL REMAIN THROUGHOUT CONSTRUCTION. OTHER DESIGNATED VEGETATION AND INVASIVE PLANT SPECIES SHALL BE REMOVED ONLY BY MANUAL LABOR UTILIZING HAND TOOLS, OR BY OTHER METHODS APPROVED BY THE PROJECT ARBORIST.
4. TREE PROTECTION FENCING TYPES AND LOCATIONS SHALL BE ERECTED AS SHOWN ON THE TREE MITIGATION PLANS AND DETAILS, OR AS REQUESTED BY LOCAL AGENCY.
5. FINAL LOCATIONS SHALL BE COORDINATED WITH AND APPROVED BY THE PROJECT ARBORIST.
6. NO MATERIALS, EQUIPMENT, SPOIL, WASTE OR WASHOUT WATER MAY BE DEPOSITED, STORED, OR PARKED WITHIN 20 FEET OF THE TREE PROTECTION ZONE.
7. EROSION CONTROL DEVICES SUCH AS SILT FENCING, DEBRIS BASINS, AND WATER DIVERSION STRUCTURES SHALL BE INSTALLED TO PREVENT SILTATION AND/OR EROSION WITHIN THE TREE PROTECTION ZONE.
8. CONSTRUCTION ACTIVITY SHALL NOT DESTROY OR IRREVERSIBLY HARM THE ROOT SYSTEM OF PROTECTED TREES. POST HOLES AND TRENCHES LOCATED CLOSE TO PROTECTED TREES SHALL BE ADJUSTED TO AVOID DAMAGE TO MAJOR ROOTS.
9. DO NOT INSTALL CONDUIT, DRAIN OR IRRIGATION LINES, OR ANY UTILITY LINE WITHIN THE TREE PROTECTION ZONE WITHOUT THE APPROVAL OF THE PROJECT ARBORIST. IF LINES MUST TRAVERSE THE PROTECTION AREA, THEY SHALL BE TUNNELED OR BORED UNDER THE TREE.
10. CONTRACTOR'S ACCESS TO FENCED TREE PROTECTION AREAS WILL BE PERMITTED ONLY WITH APPROVAL OF THE PROJECT ARBORIST.
11. EXCAVATION OR GRADING REQUIRED WITHIN THE PROTECTED AREA SHALL BE LIMITED TO THREE (3) INCHES OF CUT OR FILL. COORDINATE WITH PROJECT ARBORIST.
12. STRUCTURES AND UNDERGROUND FEATURES TO BE REMOVED WITHIN THE TREE PROTECTION ZONE SHALL BE COORDINATED WITH THE PROJECT ARBORIST.
13. TREE PROTECTION FENCING AROUND TREES TO BE RELOCATED SHALL BE ERECTED UNTIL THE TREE IS READY TO BE RELOCATED AND NEW FENCING SHALL BE ERECTED AT THE TREES NEW LOCATION AND WILL REMAIN IN PLACE UNTIL ALL CONSTRUCTION ACTIVITIES ARE COMPLETE.
14. IF ANY DAMAGE TO TREE PROTECTION FENCING SHOULD OCCUR BY ACCIDENT OR NEGLIGENCE, THE CONTRACTOR SHALL BE RESPONSIBLE FOR IMMEDIATE REPAIRS.
15. IF TEMPORARY HAUL OR ACCESS ROADS MUST PASS OVER THE PROTECTED AREA OF TREES TO BE PRESERVED, A ROAD BED OF SIX (6) INCHES OF MULCH OR GRAVEL SHALL BE CREATED TO PROTECT THE SOIL. THE ROAD BED MATERIAL SHALL BE REPLENISHED AS NECESSARY TO MAINTAIN A SIX (6) INCH ROAD BED AT ALL TIMES. CONTRACTOR SHALL REMOVE ALL SUCH MATERIALS FROM THE SITE AS SOON AS TEMPORARY ACCESS IS NO LONGER NECESSARY.
16. CONTRACTOR SHALL COORDINATE WITH THE PROJECT ARBORIST PRIOR TO THE REMOVAL OF ALL TREE PROTECTION FENCING.

C. ROOT PRUNING/TRENCHING

1. TRENCHING LOCATIONS SHALL BE APPROVED IN THE FIELD BY THE PROJECT ARBORIST.
2. TRENCHING EQUIPMENT THAT WILL TURN AT HIGH RPM'S IS PREFERRED, AND SHALL BE APPROVED BY THE PROJECT ARBORIST. APPROVED EQUIPMENT WILL BE USED TO PERFORM ALL ROOT PRUNING OPERATIONS. A MINIMUM DEPTH OF THREE FEET IS REQUIRED.
3. INSTALL ROOT BARRIER WHERE DESIGNATED. SEE TREE MITIGATION PLAN AND DETAIL SHEETS.
4. THE TRENCH SHALL BE BACKFILLED WITH PREVIOUSLY EXCAVATED SOIL AND COMPACTED IMMEDIATELY.
5. TREES TO BE RELOCATED SHALL BE ROOT PRUNED A MINIMUM OF TWELVE (12) WEEKS PRIOR TO TREE RELOCATION.
6. WHEN THE TREE ROOT ZONE WILL BE DISTURBED, AFFECTED ROOTS MUST BE SEVERED BY CLEAN PRUNING CUTS AT THE POINT WHERE CONSTRUCTION IMPACTS THE ROOTS.

D. CLEARING

1. ANY BRUSH CLEARING REQUIRED WITHIN THE TREE PROTECTION ZONE SHALL BE ACCOMPLISHED WITH HAND-OPERATED EQUIPMENT.
2. CONTRACTOR SHALL CLEAR ALL TREE PROTECTION AREAS OF VINES, SHRUBS, GROUND COVERS, WEEDS, SAPLINGS, AND INVASIVES LISTED ON THE LATEST EDITION OF THE FLORIDA EXOTIC PEST PLANT COUNCIL'S LIST OF INVASIVE SPECIES.
3. PROJECT ARBORIST MUST APPROVE METHODS OTHER THAN HAND CLEARING.
4. A TWO (2) INCH LAYER OF MULCH SHALL BE APPLIED OVER THE SURFACE OF EXPOSED ROOTS OF PROTECTED TREES DURING THE SITE CLEARING PHASE.

TREE CANOPY PRUNING

1. TREE PRUNING SPECIFICATIONS SHALL BE DEFINED BASED ON SPECIFIC RECOMMENDATIONS OF THE PROJECT ARBORIST. INFORMATION PRESENTED BELOW SHOULD BE USED AS A GUIDELINE.
2. CONTRACTOR SHALL VISIT THE SITE WITH THE PROJECT ARBORIST TO VERIFY THE EXTENT OF REQUIRED PRUNING.
3. ALL PRUNING SHALL BE PERFORMED IN ACCORDANCE WITH THE RECOMMENDATIONS OF A QUALIFIED INTERNATIONAL SOCIETY OF ARBORICULTURE (ISA) CERTIFIED ARBORIST OR AN AMERICAN SOCIETY OF CONSULTING ARBORISTS (ASCA) REGISTERED CONSULTING ARBORIST (RCA).
4. AT LEAST ONE MEMBER OF THE PRUNING CREW SHALL BE AN ISA CERTIFIED ARBORIST.
5. WHILE IN THE TREE, THE ARBORIST SHALL PERFORM AN AERIAL INSPECTION TO IDENTIFY DEFECTS THAT REQUIRE TREATMENT. ANY ADDITIONAL WORK NEEDED SHALL BE REPORTED TO THE OWNER.
6. PRUNING CUTS SHALL BE DONE IN ACCORDANCE WITH THE LATEST EDITION OF THE ANSI A300 PRUNING STANDARD (AMERICAN NATIONAL STANDARD FOR TREE CARE OPERATIONS) AND WORK SHALL BE PERFORMED IN ACCORDANCE WITH THE LATEST EDITION OF ANSI Z133.1 SAFETY STANDARD. PRUNING SHALL BE IN ACCORDANCE WITH THE LATEST EDITION OF ISA'S "BEST MANAGEMENT PRACTICES: TREE PRUNING".
7. WHERE TEMPORARY CLEARANCE IS NEEDED FOR ACCESS, BRANCHES SHALL BE TIED BACK TO HOLD THEM OUT OF THE CLEARANCE ZONE.
8. NO MORE THAN 20 PERCENT OF LIVE FOLIAGE SHALL BE REMOVED WITHIN ANY TREE.
9. ALL TREES WITHIN THE PROJECT AREA SHALL BE PRUNED AS FOLLOWS:
    a. LIVE BRANCH PRUNING SHOULD BE PERFORMED ONLY WHEN THE DANGER OF INSECT OR DISEASE INFESTATION IS NOT PRESENT.
    b. REMOVE STUBS, CUTTING OUTSIDE THE WOUND WOOD TISSUE THAT HAS FORMED AROUND THE BRANCH.
    c. CLEANING, FOR THE SELECTIVE REMOVAL OF DEAD, DISEASED, BROKEN, OR CROSSING BRANCHES DOWN TO ONE INCH IN DIAMETER OR AS DIRECTED BY THE PROJECT ARBORIST.
    d. PRUNING CUTS LARGER THAN 4 INCHES IN DIAMETER, EXCEPT FOR DEAD WOOD, SHALL BE AVOIDED.
    e. PRUNING CUTS THAT EXPOSE HEARTWOOD SHALL BE AVOIDED WHENEVER POSSIBLE.
    f. ALL TREES WITH CROWNS THAT PROJECT INTO PARKING LOT/ROADWAY AREAS SHALL BE RAISED TO 14 FEET ABOVE FINISHED GRADE.
    g. ALL TREES WITH CROWNS THAT PROJECT INTO SIDEWALK AREAS SHALL BE RAISED TO A HEIGHT OF 8 FEET ABOVE FINISHED GRADE.
9. TREES, WHO'S ROOT SYSTEMS WILL BE IMPACTED SHALL RECEIVE THE FOLLOWING PRUNING TO COMPENSATE FOR ROOT LOSS:
    a. THE LOCATION AND SIZE OF BRANCHES FOR REDUCTION SHALL BE DEFINED BY THE PROJECT ARBORIST.
    b. REDUCTION, OR THE SELECTIVE PRUNING TO REDUCE TREE HEIGHT OR SPREAD.
    c. REDUCE END WEIGHT ON HEAVY, HORIZONTAL BRANCHES BY SELECTIVELY REMOVING SMALL DIAMETER BRANCHES, NO GREATER THAN 2 TO 3 INCHES, NEAR THE ENDS OF SCAFFOLD BRANCHES.
    d. RAISING SHALL CONSIST OF SELECTIVE PRUNING TO PROVIDE VERTICAL CLEARANCE.
10. PROPOSED/REPLACEMENT TREES
    a. PRUNING SHALL BE LIMITED TO CLEANING.
11. BRUSH SHALL BE CHIPPED AND SPREAD (ONLY WHEN DISEASE OR INSECT INFESTATION IS NOT PRESENT) UNDERNEATH TREES WITHIN THE TREE PROTECTION ZONE TO A MAXIMUM DEPTH OF THREE (3) INCHES, LEAVING THE TRUNK CLEAR OF MULCH.
12. CONTRACTOR SHALL BE RESPONSIBLE FOR REMOVING ALL EXCESS DEBRIS ON A DAILY BASIS.

F. FERTILIZATION

1. CONTRACTOR SHALL COORDINATE FERTILIZATION PLAN, FOLLOWING BEST MANAGEMENT PRACTICES WITH THE PROJECT ARBORIST PRIOR TO COMMENCEMENT OF WORK.
2. EVERY EFFORT SHALL BE MADE TO UTILIZE CHEMICALS OF AN ORGANIC OR BIODEGRADABLE NATURE IN ORDER TO OFFER THE LEAST IMPACT TO THE NATURAL ENVIRONMENT. CONTRACTOR IS RESPONSIBLE FOR MIXING, APPLYING, AND DISPOSAL OF ALL CHEMICALS IN ACCORDANCE WITH STRICT ADHERENCE TO MANUFACTURER'S SPECIFICATIONS. COORDINATE WITH PROJECT ARBORIST FOR FURTHER INSTRUCTION.
3. ONLY TREES AFFECTED BY CONSTRUCTION OR AS SHOWN ON THE TREE MITIGATION PLAN AND TREE INVENTORY SCHEDULE SHALL BE TREATED.
4. TREES SPECIFIED TO RECEIVE FERTILIZER SHALL BE TREATED AS FOLLOWS.
    a. MIX FERTILIZER ACCORDING TO MANUFACTURER'S SPECIFICATIONS INTO A TANK WITH AGITATION CAPABILITY.
    b. MIX WETTING AGENT ACCORDING TO MANUFACTURER'S SPECIFICATIONS INTO SAME TANK WITH FERTILIZER. AGITATE MIX.
    c. INJECT THE MIXTURE WITH A HYDRAULIC INJECTION SYSTEM INTO THE UPPER 6-12 INCHES OF SOIL WITH A SOIL PROBE. INJECT AT THE RATE OF ONE THIRD (1/3) GALLON AT EACH INJECTION SITE.
    d. THE CRITICAL ROOT ZONE AREA PLUS 2' BEYOND THE CRITICAL ROOT ZONE SHALL BE INJECTED, BUT NOT BEYOND ROOT PRUNING LOCATIONS.
    e. FERTILIZER SHALL BE INSTALLED PRIOR TO THE INSTALLATION OF ANY AERATION SYSTEMS.
    f. EMPTY PRODUCT CONTAINERS SHALL BE STOCKPILED FOR INSPECTION BY THE PROJECT ARBORIST PRIOR TO DISPOSAL.

G. INSECTICIDE

7. NOTIFY PROJECT ARBORIST IF ANY INFESTATION IS NOTICED.
8. FOLLOW PROJECT ARBORIST'S RECOMMENDED PROCEDURES.
9. FOLLOW ALL MANUFACTURERS' RECOMMENDATIONS CONCERNING APPLICATION. READ ALL WARNING LABELS.
10. ANY PETS, AS WELL AS, THE PETS FOOD AND WATER BOWLS SHOULD BE REMOVED FROM THE AREA AND ANY SWIMMING POOLS SHOULD BE COVERED. COORDINATE WITH PROJECT ARBORIST FOR FURTHER INSTRUCTION.
11. ENSURE COMPLETE COVERAGE AND REAPPLY 2-3 MONTHS AFTER INITIAL APPLICATION UTILIZING SAME PROCEDURE.

H. IRRIGATION

1. EVERY EFFORT SHALL BE MADE TO WATER THE PRESERVED TREES AND TRANSPLANTS. CONTRACTOR SHALL IRRIGATE BY HAND OR BY TEMPORARY IRRIGATION.
2. IRRIGATE AS REQUIRED BY PROJECT ARBORIST UNTIL PERMANENT IRRIGATION IS INSTALLED AND OPERATING.
3. UNDERGROUND IRRIGATION SHALL NOT BE INSTALLED WITHIN THE DRIP LINES OF EXISTING TREES UNLESS ROOT PROTECTION MEASURES ARE PROVIDED AND APPROVED BY PROJECT ARBORIST.

I. TREE REMOVALS

1. PRIOR TO AND DURING LAND CLEARING, INCLUDING GRUBBING, ALL TREES TO BE REMOVED SHALL BE CLEARLY MARKED BY PROJECT ARBORIST WITH RED SURVEY RIBBONS AT 36 INCHES MINIMUM ABOVE GRADE.
2. CONTRACTOR SHALL REMOVE ALL TREES AS SHOWN ON THE TREE MITIGATION PLANS AFTER THE TREE PROTECTION FENCING IS INSTALLED.
3. ALL TREES SHOWN TO BE REMOVED SHALL BE FELLED WITH A CHAIN SAW AND STUMP GROUND 6" BELOW SURFACE. ANY TREE SHOWN TO BE REMOVED THAT IS IN AN AREA WHERE COMPACTION IS CRITICAL SHALL BE FELLED WITH A CHAIN SAW AND STUMP REMOVED BY CONTRACTOR.
4. ALL WOOD AND STUMPS FROM REMOVALS SHALL BE HAULED FROM THE SITE THE SAME DAY, EXCEPT FOR TOPS. ALL TOPS ARE TO BE MULCHED AND STOCKPILED OR HAULED DIRECTLY TO MULCHED AREAS FOR RELOCATED TREES IF SCHEDULING PERMITS. TOPS SHALL BE CHIPPED AND PLACED IN THE TREE PROTECTION ZONE TO A DEPTH OF THREE (3) INCHES. ALL EXCESS WOOD CHIPS SHOULD BE HAULED OFF SITE AFTER TRANSPLANTING IS COMPLETE.
5. ALL BURN PITS IF APPLICABLE MUST BE APPROVED BY THE PROJECT ARBORIST AND OWNER.
6. TREES TO BE REMOVED THAT HAVE BRANCHES EXTENDING INTO THE CANOPY OF TREES TO REMAIN MUST BE REMOVED BY A QUALIFIED ISA CERTIFIED ARBORIST AND NOT BY DEMOLITION OR CONSTRUCTION CONTRACTORS. THE QUALIFIED ARBORIST SHALL REMOVE THE TREE IN A MANNER THAT CAUSES NO DAMAGE TO THE TREES AND UNDERSTORY VEGETATION TO REMAIN.
7. TREES TO BE REMOVED LOCATED WITHIN THE TREE PROTECTION ZONE SHALL BE REMOVED BY A QUALIFIED ISA CERTIFIED ARBORIST. THE TREES SHALL BE CUT NEAR GROUND LEVEL AND THE STUMP GROUND OUT.

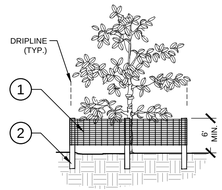
L. TOPSOIL

10. CONTRACTOR SHALL COORDINATE ALL EARTHWORK OPERATIONS WITHIN TREE PROTECTION AREAS WITH THE PROJECT ARBORIST PRIOR TO BEGINNING WORK.
11. ALL TOPSOIL SHALL BE NATURAL, FRIABLE, FERTILE, FINE LOAMY SOIL POSSESSING CHARACTERISTICS OF REPRESENTATIVE TOPSOIL IN THE VICINITY THAT PRODUCES HEAVY GROWTH.
12. TOPSOIL, PH RANGE OF 5.5 TO 7.0, 3-5 PERCENT ORGANIC MATERIAL MINIMUM, FREE FROM SUBSOIL, OBJECTIONABLE WEEDS, LITTER, SODS, STIFF CLAY, STONES LARGER THAN ONE (1) INCH IN DIAMETER, STUMPS, ROOTS, TRASH, TOXIC SUBSTANCES, OR ANY OTHER MATERIAL WHICH MAY BE HARMFUL TO PLANT GROWTH.
13. VERIFY AMOUNT STOCKPILED IF ANY, AND SUPPLY ADDITIONAL AS NEEDED FROM NATURALLY WELL-DRAINED SITES WHERE TOPSOIL OCCURS AT LEAST FOUR (4) INCHES DEEP. DO NOT OBTAIN TOPSOIL FROM BOGS OR MARSHES.
14. PROJECT ARBORIST SHALL APPROVE ALL TOPSOIL PRIOR TO PLACEMENT.

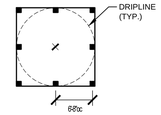
M. REPAIR OF DAMAGED TREES

1. IF DAMAGE TO ANY TREE SHOULD OCCUR BY ACCIDENT OR NEGLIGENCE DURING THE CONSTRUCTION PERIOD, THE PROJECT ARBORIST SHALL APPRAISE THE DAMAGE AND MAKE RECOMMENDATIONS TO THE OWNER FOR REPAIR BY THE CONTRACTOR.
2. IF ANY TREE DESIGNATED TO BE SAVED IS REMOVED FROM THE SITE WITHOUT PERMISSION OF THE OWNER'S REPRESENTATIVE, THE PROJECT ARBORIST SHALL APPRAISE THE TREE AND MAKE RECOMMENDATIONS TO THE OWNER FOR REPLACEMENT BY THE CONTRACTOR. THE CONTRACTOR SHALL BE RESPONSIBLE FOR REPLACEMENT OF THE TREE AND ANY FEES THAT MAY BE ASSESSED TO THE OWNER BY THE GOVERNING AGENCY.

1 L0.54 TYPICAL TREE MITIGATION NOTES



ELEVATION



PLAN

CORNER CONNECTION

CONNECTION

1. 6'H "PERIMETER PLUS" CONSTRUCTION FENCE BY CONWED PLASTICS OR OWNER'S REPRESENTATIVE APPROVED EQUAL. SUBMIT PRODUCT INFORMATION FOR APPROVAL PRIOR TO INSTALLATION.
2. 8' TALL METAL "T" POSTS OR 2" x 2" X 8' PRESSURE TREATED WOOD POSTS WITH 24" BURIAL BELOW GRADE.

INSTALLATION NOTES:

A. POST SELECTION SHOULD BE BASED ON EXPECTED STRENGTH NEEDS AND THE LENGTH OF TIME FENCE WILL BE IN PLACE. FLEXIBLE FIBERGLASS ROD POSTS ARE RECOMMENDED FOR PARKS, ATHLETIC EVENTS AND CROWD CONTROL INSTALLATIONS. METAL "T" POSTS OR TREATED WOOD POSTS ARE TYPICALLY USED FOR CONSTRUCTION AND OTHER APPLICATIONS.

B. POSTS SHOULD BE DRIVEN INTO THE GROUND TO A DEPTH OF 1/3 OF THE HEIGHT OF THE POST. FOR EXAMPLE, A 6' POST SHOULD BE SET AT LEAST 2' INTO THE GROUND.

C. SPACE POSTS EVERY 6' (MIN.) TO 8' (MAX.).

D. SECURE FENCING TO POST WITH NYLON CABLE TIES (AVAILABLE FROM CONWED PLASTICS). WOOD STRIPS MAY BE ALSO BE USED TO PROVIDE ADDITIONAL SUPPORT AND PROTECTION BETWEEN TIES AND POSTS.

NOTE: IF WIRE TIES ARE USED, AVOID DIRECT CONTACT WITH FENCE. WIRE MAY DAMAGE FENCE OVER TIME.

MISC.	QTY	BOTANICAL/COMMON NAME	SPECIFICATIONS
MULCH	TBD	DESIGNER BROWN HARDWOOD MULCH	3" DEPTH MINIMUM, SHREDDED, FREE OF WEEDS/INVASIVE PLANT MATERIAL

LANDSCAPE NOTES:

1. ALL LANDSCAPE MATERIAL TO BE FLORIDA GRADE #1 OR BETTER QUALITY
2. ALL LANDSCAPED AREAS ARE TO RECEIVE A MINIMUM OF 4" OF TOPSOIL.
3. ALL PLANT MATERIAL SHALL BE HEALTHY, VIGOROUS, AND FREE OF PESTS AND DISEASE.
4. ALL MATERIALS ARE SUBJECT TO THE APPROVAL OF THE LANDSCAPE ARCHITECT BEFORE, DURING, AND AFTER INSTALLATION.
5. ALL TREES MUST BE GUYED OR STAKED AS SHOWN IN THE DETAILS.
6. ALL PLANTING AREAS SHALL BE COMPLETELY MULCHED AS SPECIFIED.
7. PRIOR TO CONSTRUCTION, THE CONTRACTOR SHALL BE RESPONSIBLE FOR LOCATING ALL UNDERGROUND UTILITIES AND SHALL AVOID DAMAGE TO ALL UTILITIES DURING THE COURSE OF THE WORK. LOCATIONS OF EXISTING BURIED UTILITY LINES SHOWN ON THE PLANS ARE BASED UPON BEST AVAILABLE INFORMATION AND ARE TO BE CONSIDERED APPROXIMATE. IT SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR 1) TO VERIFY THE LOCATIONS OF UTILITY LINES ADJACENT TO THE WORK AREA 2) TO PROTECT ALL UTILITY LINES DURING THE CONSTRUCTION PERIOD 3) TO REPAIR ANY AND ALL DAMAGE TO UTILITIES, STRUCTURES, SITE APPURTENANCES, ETC. WHICH OCCURS AS A RESULT OF THE CONSTRUCTION.
8. THE CONTRACTOR SHALL BE RESPONSIBLE FOR VERIFYING ALL QUANTITIES SHOWN ON THESE PLANS BEFORE PRICING THE WORK.
9. CONTRACTOR SHALL BE RESPONSIBLE FOR DELIVERY SCHEDULE AND PROTECTION BETWEEN DELIVERY AND PLANTING TO MAINTAIN HEALTHY PLANT CONDITIONS.
10. THE CONTRACTOR SHALL BE RESPONSIBLE FOR FULLY MAINTAINING (INCLUDING BUT NOT LIMITED TO: WATERING, SPRAYING, MULCHING, FERTILIZING, ETC.) ALL OF THE PLANT MATERIALS AND LAWN FOR THE WARRANTY PERIOD.
11. ANY PLANT MATERIAL WHICH IS DISEASED, DISTRESSED, DEAD, OR REJECTED (PRIOR TO SUBSTANTIAL COMPLETION) SHALL BE PROMPTLY REMOVED FROM THE SITE AND REPLACED WITH MATERIAL OF THE SAME SPECIES, QUANTITY, AND SIZE AND MEETING ALL PLANT LIST SPECIFICATIONS.
12. THE CONTRACTOR SHALL COMPLETELY GUARANTEE ALL PLANT MATERIAL FOR WARRANTY PERIOD. THE CONTRACTOR SHALL PROMPTLY MAKE ALL REPLACEMENTS DURING THE NORMAL PLANTING SEASON.
13. STANDARDS SET FORTH IN "AMERICAN STANDARD FOR NURSERY STOCK" REPRESENT GUIDELINE SPECIFICATIONS ONLY AND SHALL CONSTITUTE MINIMUM QUALITY REQUIREMENTS FOR PLANT MATERIAL.
14. ALL LANDSCAPING SHALL BE INSTALLED ACCORDING TO SOUND NURSERY PRACTICES, AND SHALL BE FLORIDA NO. 1 OR BETTER AS GIVEN IN "GRADES AND STANDARDS FOR NURSERY PLANTS, PARTS I AND II," STATE OF FLORIDA, DEPARTMENT OF AGRICULTURE.
15. ALL INVASIVE / EXOTIC SPECIES AND PROHIBITED TREE SPECIES SHALL BE REMOVED FROM SITE, INCLUDING ROOT BALLS TO THE EXTENT POSSIBLE WITH NO DAMAGE TO ADJACENT EXISTING TREES.
16. ALL LANDSCAPE AREAS WILL BE PROVIDED WITH PERMANENT AUTOMATIC IRRIGATION SYSTEM.
17. TREE SUPPORT MATERIALS ARE TO BE REMOVED FROM EACH TREE ONCE IT IS "ESTABLISHED" (AS APPROVED BY THE LANDSCAPE ARCHITECT).
18. ALL PLANT SPECIFICATIONS IN THE PLANT SCHEDULE SHALL BE CONSIDERED THE MINIMUM ALLOWABLE SPECIFICATIONS. CONTRACTOR SHALL PROCURE PLANT MATERIALS AND UPSIZE AS NECESSARY TO MEET THE MOST STRINGENT SPECIFICATION.
19. ALL PLANTED LANDSCAPE AREAS TO HAVE 3" DEEP DESIGNER BROWN HARDWOOD MULCH TO FULLY COVER DRIP IRRIGATION & AMENDED SOILS. REPAIR AS NEEDED DURING CONSTRUCTION. SUBMIT ALTERNATIVE MULCH SPECIFICATION FOR LANDSCAPE ARCHITECT APPROVAL.

1. TRUNK/ROOT BALL TO BE CENTERED AND PLUMB/LEVEL IN PLANTING PIT.
2. 6" DIA. CLEAR OF MULCH AT TRUNK FLARE.
3. 3" MINIMUM MULCH AS SPECIFIED. WHERE TREES ARE PLACED IN SOD, MULCH RING FOR TREES SHALL BE 6' DIAMETER (MIN.) OR AS DIRECTED BY OWNER'S REPRESENTATIVE.
4. 4" HIGH BERM, FIRMLY COMPACTED.
5. TREE FROG ANCHOR SYSTEM INSTALLED PER MANUFACTURER'S RECOMMENDATIONS.
6. FINISHED GRADE. (SEE GRADING PLAN)
7. TOP OF ROOTBALL MIN. 1" ABOVE FINISHED GRADE.
8. PREPARED PLANTING SOIL AS SPECIFIED.
9. TOP OF ROOTBALL SHALL BE 1" ABOVE FINISHED GRADE. ROOTBALLS GREATER THAN 24" DIAMETER SHALL BE PLACED ON MOUND OF UNDISTURBED SOIL TO PREVENT SETTLING. ROOTBALLS SMALLER THAN 24" IN DIAMETER MAY SIT ON COMPACTED EARTH.
10. UNDISTURBED NATIVE SOIL.
11. SCARIFY BOTTOM AND SIDES OF PLANTING PIT.

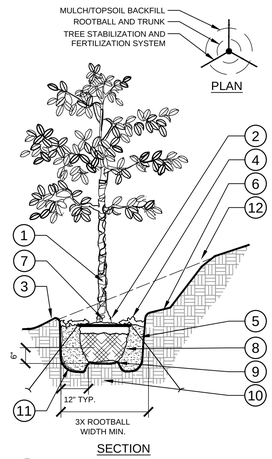
NOTES:

A. FINAL TREE STAKING DETAILS AND PLACEMENT TO BE APPROVED BY OWNER.

B. REMOVE BURLAP, WIRE AND STRAPS (ANYTHING THAT COULD GIRDLE TREE OR RESTRICT ROOT GROWTH) ON UPPER 1/3 OF ROOTBALL.

C. PRUNE ALL TREES IN ACCORDANCE WITH ANSI A-300.

1 L1.50 TREE PLANTING
SECTION / PLAN — NTS



1. TRUNK/ROOT BALL TO BE CENTERED AND PLUMB/LEVEL IN PLANTING PIT.
2. 6" DIA. CLEAR OF MULCH AT TRUNK FLARE.
3. 3. 4" HIGH BERM, FIRMLY COMPACTED.
4. 3" MINIMUM OF HARDWOOD BARK MULCH AS SPECIFIED. WHERE TREES ARE PLACED IN SOD, MULCH RING FOR TREES SHALL BE 6' DIAMETER (MIN.) OR AS DIRECTED BY OWNER'S REPRESENTATIVE.
5. TREE FROG ANCHOR SYSTEM INSTALLED PER MANUFACTURER'S RECOMMENDATIONS.
6. 4" MIN. OF TOPSOIL TO BRING TO FINISHED GRADE. (SEE GRADING PLAN)
7. TOP OF ROOTBALL MIN. 1" ABOVE FINISHED GRADE.
8. PREPARED PLANTING SOIL AS SPECIFIED.
9. ROOTBALLS GREATER THAN 24" DIAMETER SHALL BE PLACED ON MOUND OF UNDISTURBED SOIL TO PREVENT SETTLING. ROOTBALLS SMALLER THAN 24" IN DIAMETER MAY SIT ON COMPACTED EARTH.
10. UNDISTURBED NATIVE SOIL.
11. SCARIFY BOTTOM AND SIDES OF PLANTING PIT.
12. CUT BACK SLOPE TO PROVIDE A FLAT SURFACE FOR PLANTING.

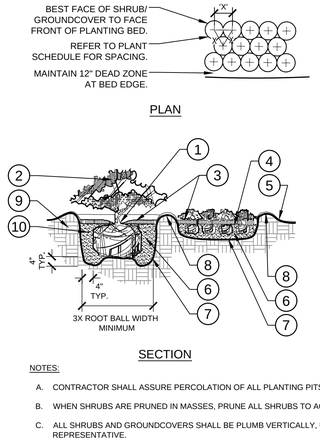
NOTES:

A. FINAL TREE STAKING DETAILS AND PLACEMENT TO BE APPROVED BY OWNER.

B. REMOVE BURLAP, WIRE AND STRAPS (ANYTHING THAT COULD GIRDLE TREE OR RESTRICT ROOT GROWTH) ON UPPER 1/3 OF ROOTBALL.

C. PRUNE ALL TREES IN ACCORDANCE WITH ANSI A-300.

2 L1.50 TREE PLANTING ON A SLOPE
SECTION / PLAN — NTS



1. TOP OF SHRUB ROOTBALLS TO BE PLANTED 1" - 2" HIGH WITH SOIL MOUNDING UP TO THE TOP OF ROOTBALL.
2. PRUNE ALL SHRUBS TO ACHIEVE A UNIFORM MASS/HEIGHT.
3. 3" MULCH LAYER AS SPECIFIED.
4. EXCAVATE ENTIRE BED SPECIFIED FOR GROUNDCOVER BED.
5. FINISHED GRADE (SEE GRADING PLAN).
6. PREPARED PLANTING SOIL AS SPECIFIED. (SEE LANDSCAPE NOTES) NOTE: WHEN GROUND-COVERS AND SHRUBS USED IN MASSES, ENTIRE BED TO BE AMENDED WITH PLANTING SOIL MIX AS SPECIFIED.
7. SCARIFY OF PLANTING PIT SIDES AND BOTTOM.
8. 4" HIGH BERM FIRMLY COMPACTED.
9. UNDISTURBED NATIVE SOIL.
10. FERTILIZER TABLETS (MAX 3" DEEP)

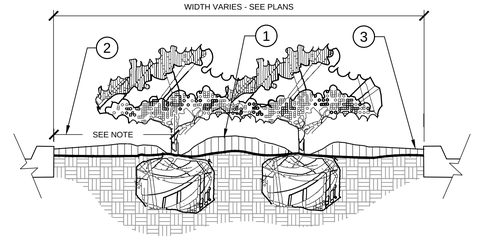
NOTES:

A. CONTRACTOR SHALL ASSURE PERCOLATION OF ALL PLANTING PITS PRIOR TO INSTALLATION.

B. WHEN SHRUBS ARE PRUNED IN MASSES, PRUNE ALL SHRUBS TO ACHIEVE UNIFORM MASS / HEIGHT.

C. ALL SHRUBS AND GROUNDCOVERS SHALL BE PLUMB VERTICALLY, UNLESS OTHERWISE DIRECTED BY OWNERS REPRESENTATIVE.

3 L1.50 SHRUB/GROUNDCOVER PLANTING
SECTION / PLAN — NTS



1. CROWN ISLANDS @ 5:1 SLOPES (OR AS SPECIFIED ON THE LANDSCAPE PLANS).
2. CLEAR ZONE: 36" MIN. FROM BACK OF CURB TO CENTER OF NEAREST SHRUB. CLEAR ZONE SHALL CONTAIN 3" CONTINUOUS MULCH OR TURF, SEE PLANS.
3. 2" MIN VERTICAL CLEARANCE, TOP OF CURB TO TOP OF MULCH.

NOTES:

A. EXCAVATE A CONTINUOUS 24" DEEP PIT (FROM TOP OF CURB) FOR ENTIRE LENGTH AND WIDTH OF ISLAND & BACKFILL WITH APPROVED PLANTING MIX.

B. PROTECT AND RETAIN ALL CURBS AND BASE. COMPACTED SUBGRADE TO REMAIN FOR STRUCTURAL SUPPORT OF CURB SYSTEM (TYP).

C. ALL ISLANDS SHALL UTILIZE POOR DRAINAGE DETAIL WHEN PERCOLATION RATES ARE 2" PER HOUR OR LESS.

4 L1.50 PLANTED PARKING LOT ISLANDS/MEDIANS
SECTION — NTS

1. TOP OF SHRUB ROOTBALLS TO BE PLANTED 1" - 2" HIGH WITH SOIL MOUNDING UP TO THE TOP OF ROOTBALL.
2. PRUNE SHRUBS AS DIRECTED BY OWNER'S REPRESENTATIVE.
3. 3" MINIMUM OF MULCH AS SPECIFIED. WHERE SHRUBS ARE PLACED IN MASSES, MULCH SHALL BE SPREAD IN A CONTINUOUS BED.
4. SOIL BERM TO HOLD WATER. TOP OF PLANTING PIT 'BERM' TO BE LEVEL ACROSS PIT. SLOPE DOWNHILL PORTION OF BERM AS REQUIRED TO MEET EXISTING GRADE. MULCH OVER EXPOSED TOPSOIL.
5. FINISHED GRADE (SEE GRADING PLAN)
6. PREPARED PLANTING SOIL AS SPECIFIED. (SEE LANDSCAPE NOTES).
7. SCARIFY SIDES AND BOTTOM OF PLANTING PIT.
8. FERTILIZER TABLETS (MAX 3" DEEP).
9. UNDISTURBED NATIVE SOIL

NOTES:

A. CONTRACTOR SHALL ASSURE PERCOLATION OF ALL PLANTING PITS PRIOR TO INSTALLATION.

B. WHEN SHRUBS ARE PRUNED IN MASSES, PRUNE ALL SHRUBS TO ACHIEVE UNIFORM MASS / HEIGHT.

C. ALL SHRUBS AND GROUNDCOVERS SHALL BE PLUMB VERTICALLY, UNLESS OTHERWISE DIRECTED BY OWNERS REPRESENTATIVE.

5 L1.50 SHRUB/GROUNDCOVER PLANTING ON A SLOPE
SECTION — NTS

NOTES:

1. CLEAR ZONE: 36" MIN. FROM BUILDING TO CENTER OF NEAREST SHRUB.
2. INSTALL SPECIFIED MULCH: 24" MIN. FROM BUILDING. SPECIFIED MULCH TO BE INSTALLED AT A DEPTH OF 3" (MIN.)

6 L1.50 PLANTINGS ADJACENT TO BUILDINGS
SECTION — NTS

1. INSTALL CONTINUOUS MULCH BED ADJACENT TO PARKING SPACES AS SHOWN. MULCH SHALL BE MIN. 3" DEEP. NO POP-UP IRRIGATION HEADS SHALL BE LOCATED WITHIN 24" OF A PARKING SPACE ON ANY SIDE.
2. CURB / PARKING LOT EDGE.

7 L1.50 PARKING SPACE/CURB PLANTING
SECTION — NTS

1. FIRE HYDRANT.
2. NO PLANT EXCEEDING 12" MATURE HEIGHT MATERIAL SHALL BE PLACED WITHIN SHOWN RADIUS OF ALL PROPOSED OR EXISTING FIRE HYDRANTS. CONTRACTOR SHALL ADJUST PLANT MATERIAL SO THAT NO CONFLICTS WITH FIRE HYDRANTS OCCUR ON SITE.
3. FRONT OF HYDRANT (TOWARD CURB)

8 L1.50 SHRUB PLANTING AT FIRE HYDRANT
SECTION / PLAN — NTS

1. FINISH GRADE (SEE GRADING PLANS).
2. BACKFILL WITH PREPARED PLANTING SOIL MIX AS SPECIFIED.
3. FILTER CLOTH, MIRAFI 500X OR BETTER.
4. SLOPE BOTTOM TO DRAIN.
5. AUGURED HOLE Ø ±18" PENETRATE THROUGH OCCLUDING LAYER TO WATER TABLE OR TO A DEPTH OF 7' TO ASSURE PROPER PERCOLATION.
6. BACKFILL WITH 1/2" - 3/4" GRAVEL TO REQUIRED DEPTH THROUGH OCCLUDING LAYER TO ASSURE PROPER PERCOLATION.
7. WATER TABLE. (DEPTH VARIES)
8. UNDISTURBED NATIVE SOIL.
9. SET ROOTBALL ON UNDISTURBED STABLE SUBSOIL SO THAT TOP OF ROOT BALL IS 1" ABOVE FINISHED GRADE.

NOTES:

A. THIS DETAIL SHALL BE IMPLEMENTED WHERE PERCOLATION RATES ARE 2" PER HOUR OR LESS.

B. CONTRACTOR TO PERFORM PERCOLATION TEST AS REQUIRED. AND NOTIFY OWNER/LANDSCAPE ARCHITECT.

C. SEE TYPICAL TREE PLANTING DETAIL THIS SHEET FOR PLANT STAKING.

9 L1.50 POOR DRAINAGE CONDITION
SECTION / PLAN — NTS

1. 6'H "PERIMETER PLUS" CONSTRUCTION FENCE BY CONWED PLASTICS OR OWNER'S REPRESENTATIVE APPROVED EQUAL. SUBMIT PRODUCT INFORMATION FOR APPROVAL PRIOR TO INSTALLATION.
2. 8' TALL METAL "T" POSTS OR 2" x 2" X 8' PRESSURE TREATED WOOD POSTS WITH 24" BURIAL BELOW GRADE.

INSTALLATION NOTES:

A. POST SELECTION SHOULD BE BASED ON EXPECTED STRENGTH NEEDS AND THE LENGTH OF TIME FENCE WILL BE IN PLACE. FLEXIBLE FIBERGLASS ROD POSTS ARE RECOMMENDED FOR PARKS, ATHLETIC EVENTS AND CROWD CONTROL INSTALLATIONS. METAL "T" POSTS OR TREATED WOOD POSTS ARE TYPICALLY USED FOR CONSTRUCTION AND OTHER APPLICATIONS.

B. POSTS SHOULD BE DRIVEN INTO THE GROUND TO A DEPTH OF 1/3 OF THE HEIGHT OF THE POST. FOR EXAMPLE, A 6' POST SHOULD BE SET AT LEAST 2' INTO THE GROUND.

C. SPACE POSTS EVERY 6' (MIN.) TO 8' (MAX.).

D. SECURE FENCING TO POST WITH NYLON CABLE TIES (AVAILABLE FROM CONWED PLASTICS). WOOD STRIPS MAY BE ALSO BE USED TO PROVIDE ADDITIONAL SUPPORT AND PROTECTION BETWEEN TIES AND POSTS.

NOTE: IF WIRE TIES ARE USED, AVOID DIRECT CONTACT WITH FENCE. WIRE MAY DAMAGE FENCE OVER TIME.

10 L1.50 TREE PROTECTION FENCING
ELEVATION / PLAN — NTS

1. 5 LAYERS OF BURLAP TO PROTECT TRUNK.
2. FIVE 2" X 4" X 18" WOOD BATTENS.
3. SECURE BATTENS WITH 2- 3/4" CARBON STEEL BANDS TO HOLD BATTENS IN PLACE. NO NAILS SHALL BE DRIVEN INTO PALM. HEIGHT OF BATTENS SHALL BE LOCATED IN RELATION TO THE HEIGHT OF THE PALM FOR ADEQUATE BRACING.
4. (3) 2"X4"X8' SUPPORTS. NAIL (DRILL AN NAIL IF NECESSARY) TO BATTENS AND 2" 4" STAKES. STAIN DARK BROWN.
5. 3" SPECIFIED MULCH
6. BERM SOIL TO HOLD WATER.
7. FINISH GRADE
8. 2X4X24" (MIN) P.T. WOOD STAKES (TYP.) NAIL TO SUPPORT POLES.
9. PREPARED PLANTING SOIL AS SPECIFIED. (SEE LANDSCAPE NOTES).

NOTES:

A. FINAL TREE STAKING DETAILS AND PLACEMENT TO BE APPROVED BY OWNER.

B. ALL TREE STAKING IS TO BE WITHIN MULCH BED AREA OUTSIDE TREE PIT.

C. CONTRACTOR SHALL ASSURE PERCOLATION OF ALL PLANTING PITS PRIOR TO INSTALLATION - REFER TO POOR DRAINAGE CONDITION DETAIL.

11 L1.50 PALM PLANTING
SECTION / PLAN — NTS

1. BASE OF TREE SHALL BE PLANTED SLIGHTLY ABOVE (1" MIN.) ADJACENT FINISH GRADE. REMOVE ALL TWINE & STRAPS & CUT BURLAP FROM TOP 1/3 OF ROOT BALL. NO SYNTHETIC BURLAP WILL BE ACCEPTED.
2. 4" SHREDDED HARDWOOD MULCH OR APPROVED EQUAL.
3. DIAMETER OF TREE PIT TO BE TWICE THE DIAMETER OF ROOT BALL-ROUGHEN SIDES OF TREE PIT.
4. 3" HIGH SOIL BERM TO HOLD WATER.
5. TOPSOIL MIX BACKFILL.
6. TREE WRAP.
7. 4" MIN. OF TOPSOIL TO BRING TO FINISHED GRADE (SEE GRADING PLAN).
8. ROOT BALLS GREATER THAN 24" DIAMETER SHALL BE PLACED ON MOUND OF UNDISTURBED SOIL TO PREVENT SETTLING ROOT BALLS SMALLER THAN 24" IN DIA. MAY SIT ON COMPACTED EARTH.
9. UNDISTURBED SUBSOIL.
10. PREPARE PLANTING SOIL AS SPECIFIED.
11. **Tree Frog® RBK40pt** FOR UP TO 4" TREE CALIPER OR **Tree Frog® RBK60pt** FOR GREATER THAN 4" AND UP TO 6" TREE CALIPER. REFER TO SITEWORK SPECIFICATIONS FOR APPROVED MATERIALS AND INSTALLATION REQUIREMENTS.

NOTES:

A. FINAL TREE STAKING DETAILS AND PLACEMENT TO BE APPROVED BY OWNER.

B. SET TREE AT ORIGINAL DEPTH. REMOVE BURLAP, WIRE AND STRAPS (ANYTHING THAT COULD GIRDLE TREE OR RESTRICT ROOT GROWTH) ON UPPER 1/3 OF ROOTBALL.

C. SEE LANDSCAPE NOTES FOR THE TYPE OF MULCH MATERIAL TO USE.

D. PRUNE TREE AS DIRECTED BY LANDSCAPE ARCHITECT

E. ASSURE PERCOLATION OF ALL PLANTING PITS

LANDSCAPE DETAILS

APOPKA COLD STORAGE

FLORIDA
APOPKA

SHEET NUMBER
L1.50

GENERAL LANDSCAPE SPECIFICATIONS AND NOTES

A. SCOPE OF WORK

1. THE WORK CONSISTS OF: FURNISHING ALL LABOR, MATERIALS, EQUIPMENT, TOOLS, TRANSPORTATION, AND ANY OTHER APPURTENANCES NECESSARY FOR THE COMPLETION OF THIS PROJECT AS SHOWN ON THE DRAWINGS, AS INCLUDED IN THE PLANT LIST, AND AS SPECIFIED HEREIN.

2. WORK SHALL INCLUDE MAINTENANCE AND WATERING OF ALL CONTRACT PLANTING AREAS UNTIL CERTIFICATION OF ACCEPTANCE BY THE OWNER.

B. PROTECTION OF EXISTING STRUCTURES

1. ALL EXISTING BUILDINGS, WALKS, WALLS, PAVING, PIPING, OTHER SITE CONSTRUCTION ITEMS, AND PLANTING ALREADY COMPLETED OR ESTABLISHED AND DESIGNATED TO REMAIN SHALL BE PROTECTED FROM DAMAGE BY THE CONTRACTOR UNLESS OTHERWISE SPECIFIED. ALL DAMAGE RESULTING FROM NEGLIGENCE SHALL BE REPAIRED OR REPLACED TO THE SATISFACTION OF THE OWNER, AT NO COST TO THE OWNER.

2. THE CONTRACTOR SHALL BE RESPONSIBLE FOR MAINTAINING ALL NECESSARY BMP DEVICES ACCORDING TO ALL REGULATORY AGENCY'S STANDARDS THROUGH THE DURATION OF ALL CONSTRUCTION ACTIVITIES.

3. THE CONTRACTOR SHALL SUBMIT A DETAILED PROJECT SPECIFIC WORK ZONE TRAFFIC CONTROL PLAN UNLESS THE WORK REQUIRES NOTHING MORE THAN A DIRECT APPLICATION OF FDOT DESIGN STANDARDS, INDEX 600. IF A DIRECT APPLICATION OF INDEX 600 IS PROPOSED, THE CONTRACTOR SHALL SUBMIT IN WRITING A STATEMENT INDICATING THE STANDARD INDEX AND PAGE NUMBER NO LESS THAN 10 BUSINESS DAYS PRIOR TO START OF CONSTRUCTION. WHEN A DIRECT APPLICATION OF FDOT STANDARD INDEX 600 IS NOT ACCEPTABLE A PROJECT SPECIFIC WORK ZONE TRAFFIC CONTROL PLAN SHALL BE PREPARED BY A FLORIDA PROFESSIONAL ENGINEER WHO HAS SUCCESSFULLY COMPLETED ADVANCED TRAINING IN MAINTENANCE OF TRAFFIC, AS DEFINED BY FDOT FOR APPROVAL BY THE COUNTY ENGINEER'S REPRESENTATIVE.

4. THE CONTRACTOR SHALL BE RESPONSIBLE FOR LOCATING ALL UTILITIES, WHETHER PUBLIC OR PRIVATE, PRIOR TO EXCAVATION. THE INFORMATION AND DATA SHOWN WITH RESPECT TO EXISTING UNDERGROUND FACILITIES AT OR CONTIGUOUS TO THE SITE IS APPROXIMATE AND BASED ON INFORMATION FURNISHED BY THE OWNER OF SUCH UNDERGROUND FACILITIES OR ON PHYSICAL APPURTENANCES OBSERVED IN THE FIELD. THE OWNER AND DESIGN PROFESSIONAL SHALL NOT BE RESPONSIBLE FOR THE ACCURACY AND COMPLETENESS OF ANY SUCH INFORMATION OR DATA. THE CONTRACTOR SHALL HAVE FULL RESPONSIBILITY FOR; REVIEWING AND CHECKING ALL SUCH INFORMATION AND DATA; LOCATING ALL UNDERGROUND FACILITIES DURING CONSTRUCTION; THE SAFETY AND PROTECTION THEREOF; REPAIRING ANY DAMAGE THERETO RESULTING FROM THE WORK. THE COST OF ALL WILL BE CONSIDERED AS HAVING BEEN INCLUDED IN THE CONTRACT PRICE. THE CONTRACTOR SHALL NOTIFY ANY AFFECTED UTILITY COMPANIES OR AGENCIES IN WRITING AT LEAST 48 HOURS PRIOR TO BEGINNING CONSTRUCTION.

C. PROTECTION OF EXISTING PLANT MATERIALS

1. THE CONTRACTOR SHALL BE RESPONSIBLE FOR ALL UNAUTHORIZED CUTTING OR DAMAGE TO TREES AND SHRUBS EXISTING OR OTHERWISE, CAUSED BY CARELESS EQUIPMENT OPERATION, MATERIAL STOCKPILING, ETC.. THIS SHALL INCLUDE COMPACTION BY DRIVING OR PARKING INSIDE THE DRIP-LINE AND SPILLING OIL, GASOLINE, OR OTHER DELETERIOUS MATERIALS WITHIN THE DRIP-LINE. NO MATERIALS SHALL BE BURNED ON SITE. EXISTING TREES KILLED OR DAMAGED SO THAT THEY ARE MISSHAPEN AND/OR UNSIGHTLY SHALL BE REPLACED AT THE COST TO THE CONTRACTOR OF THREE HUNDRED DOLLARS ($300) PER CALIPER INCH ON AN ESCALATING SCALE WHICH ADDS AN ADDITIONAL TWENTY (20) PERCENT PER INCH OVER FOUR (4) INCHES CALIPER AS FIXED AND AGREED LIQUIDATED DAMAGES. CALIPER SHALL BE MEASURED SIX (6) INCHES ABOVE GROUND LEVEL FOR TREES UP TO AND INCLUDING FOUR (4) INCHES IN CALIPER AND TWELVE (12) INCHES ABOVE GROUND LEVEL FOR TREES OVER FOUR (4) INCHES IN CALIPER.

2. SEE TREE MITIGATION PLAN AND NOTES, IF APPLICABLE.

D. MATERIALS

1. GENERAL

MATERIAL SAMPLES LISTED BELOW SHALL BE SUBMITTED FOR APPROVAL, ON SITE OR AS DETERMINED BY THE OWNER. UPON APPROVAL, DELIVERY OF MATERIALS MAY COMMENCE.

MATERIAL	SAMPLE SIZE
MULCH	ONE (1) CUBIC FOOT
TOPSOIL MIX	ONE (1) CUBIC FOOT
PLANTS	ONE (1) OF EACH VARIETY (OR TAGGED IN NURSERY)

2. PLANT MATERIALS

a. PLANT SPECIES AND SIZE SHALL CONFORM TO THOSE INDICATED ON THE DRAWINGS. ALL NURSERY STOCK SHALL BE IN ACCORDANCE WITH GRADES AND STANDARDS FOR NURSERY PLANTS, LATEST EDITION, PUBLISHED BY THE FLORIDA DEPARTMENT OF AGRICULTURE AND CONSUMER SERVICES. ALL PLANTS SHALL BE FLORIDA GRADE NO. 1 OR BETTER AS DETERMINED BY THE FLORIDA DIVISION OF PLANT INDUSTRY. ALL PLANTS SHALL BE HEALTHY, VIGOROUS, SOUND, WELL-BRANCHED, AND FREE OF DISEASE AND INSECTS. INSECT EGGS AND LARVAE AND SHALL HAVE ADEQUATE ROOT SYSTEMS. TREES FOR PLANTING IN ROWS SHALL BE UNIFORM IN SIZE AND SHAPE. ALL MATERIALS SHALL BE SUBJECT TO APPROVAL BY THE OWNER. WHERE ANY REQUIREMENTS ARE OMITTED FROM THE PLANT LIST, THE PLANTS FURNISHED SHALL BE NORMAL FOR THE VARIETY. PLANTS SHALL BE PRUNED PRIOR TO DELIVERY ONLY WITH APPROVAL FROM OWNER OR OWNER'S REPRESENTATIVE. NO SUBSTITUTIONS SHALL BE MADE WITHOUT WRITTEN PERMISSION FROM THE OWNER'S REPRESENTATIVE.

b. MEASUREMENTS: THE HEIGHT AND/OR WIDTH OF TREES SHALL BE MEASURED FROM THE GROUND OR ACROSS THE NORMAL SPREAD OF BRANCHES WITH THE PLANTS IN THEIR NORMAL POSITION. THIS MEASUREMENT SHALL NOT INCLUDE THE IMMEDIATE TERMINAL GROWTH. PLANTS LARGER IN SIZE THAN THOSE SPECIFIED IN THE PLANT LIST MAY BE USED IF APPROVED BY THE OWNER. IF THE USE OF LARGER PLANTS IS APPROVED, THE BALL OF EARTH OR SPREAD OF ROOTS SHALL BE INCREASED IN PROPORTION TO THE SIZE OF THE PLANT.

c. INSPECTION: PLANTS SHALL BE SUBJECT TO INSPECTION AND APPROVAL AT THE PLACE OF GROWTH, OR UPON DELIVERY TO THE SITE, AS DETERMINED BY THE OWNER, FOR QUALITY, SIZE, AND VARIETY. SUCH APPROVAL SHALL NOT IMPAIR THE RIGHT OF INSPECTION AND REJECTION AT THE SITE DURING PROGRESS OF THE WORK OR AFTER COMPLETION FOR SIZE AND CONDITION OF ROOT BALLS OR ROOTS, LATENT DEFECTS OR INJURIES. REJECTED PLANTS SHALL BE REMOVED IMMEDIATELY FROM THE SITE. NOTICE REQUESTING INSPECTION SHALL BE SUBMITTED IN WRITING BY THE CONTRACTOR AT LEAST ONE (1) WEEK PRIOR TO ANTICIPATED DATE.

E. SOIL MIXTURE (PLANTING MEDIUM, PLANTING MIX, TOPSOIL MIX)

1. CONTRACTOR SHALL TEST EXISTING SOIL AND AMEND AS NECESSARY IN ACCORDANCE WITH THE GUIDELINES BELOW:

2. SOIL MIXTURE (PLANTING MEDIUM FOR PLANT PITS) SHALL CONSIST OF TWO PARTS OF TOPSOIL AND ONE PART SAND, AS DESCRIBED BELOW. CONTRACTOR TO SUBMIT SAMPLES AND PH TESTING RESULTS OF SOIL MIXTURE FOR OWNER'S REPRESENTATIVE APPROVAL PRIOR TO PLANT INSTALLATION OPERATIONS COMMENCE.

a. TOPSOIL FOR USE IN PREPARING SOIL MIXTURE FOR BACKFILLING PLANT PITS SHALL BE FERTILE, FRIABLE, AND OF A LOAMY CHARACTER; REASONABLY FREE OF SUBSOIL, CLAY LUMPS, BRUSH WEEDS AND OTHER LITTER; FREE OF ROOTS, STUMPS, STONES LARGER THAN 2" IN ANY DIRECTION, AND OTHER EXTRANEOUS OR TOXIC MATTER HARMFUL TO PLANT GROWTH. IT SHALL CONTAIN THREE (3) TO FIVE (5) PERCENT DECOMPOSED ORGANIC MATTER AND HAVE A PH BETWEEN 5.5 AND 7.0.

b. SAND SHALL BE COARSE, CLEAN, WELL-DRAINING, NATIVE SAND.

c. SOIL AMENDMENT (IF NEEDED PER SOIL TESTING) THE CONTRACTOR SHALL FURNISH AND INSTALL A 3" LAYER OF AMENDED PLANTING SOIL IN ALL PLANTING BEDS, EXCLUDING SOD AREAS. THE AMENDED PLANTING SOIL SHALL BE COMPOSED OF 35% FERTICOMP 20% FLORIDA PEAT 45% SANDY LOAM. THE AMENDED PLANTING SOIL SHALL BE MIXED INTO THE BEDS UPON PLANTING.

2. TREES SHALL BE PLANTED IN THE EXISTING NATIVE SOIL ON SITE, UNLESS DETERMINED TO BE UNSUITABLE - AT WHICH POINT THE CONTRACTOR SHALL CONTACT OWNER'S REPRESENTATIVE TO DISCUSS ALTERNATE RECOMMENDATION PRIOR TO PLANTING (SUBMIT SOIL TESTING RESULTS AFTER INCORPORATING AMENDMENTS TO DEMNSTRATE COMPLIANCE WITH SOIL QUALITY REQUIREMENTS .

F. WATER

1. WATER NECESSARY FOR PLANTING AND MAINTENANCE SHALL BE OF SATISFACTORY QUALITY TO SUSTAIN ADEQUATE PLANT GROWTH AND SHALL NOT CONTAIN HARMFUL, NATURAL OR MAN-MADE ELEMENTS DETRIMENTAL TO PLANTS. WATER MEETING THE ABOVE STANDARD SHALL BE OBTAINED ON THE SITE FROM THE OWNER, IF AVAILABLE, AND THE CONTRACTOR SHALL BE RESPONSIBLE TO MAKE ARRANGEMENTS FOR ITS USE BY HIS TANKS, HOSES, SPRINKLERS, ETC.... IF SUCH WATER IS NOT AVAILABLE AT THE SITE, THE CONTRACTOR SHALL PROVIDE SATISFACTORY WATER FROM SOURCES OFF THE SITE AT NO ADDITIONAL COST TO THE OWNER.

* WATERING/IRRIGATION RESTRICTIONS MAY APPLY - REFER TO PROPERTY'S JURISDICTIONAL AUTHORITY.

G. FERTILIZER

CONTRACTOR SHALL PROVIDE FERTILIZER APPLICATION SCHEDULE TO OWNER, AS APPLICABLE TO SOIL TYPE, PLANT INSTALLATION TYPE, AND SITE'S PROPOSED USE. SUGGESTED FERTILIZER TYPES SHALL BE ORGANIC OR OTHERWISE NATURALLY-DERIVED.

* FERTILIZER RESTRICTIONS MAY APPLY - REFER TO PROPERTY'S JURISDICTIONAL AUTHORITY.

H. MULCH

1. MULCH MATERIAL SHALL BE MOISTENED AT THE TIME OF APPLICATION TO PREVENT WIND DISPLACEMENT, AND APPLIED AT A DEPTH OF THREE (3) INCHES. CLEAR MULCH FROM EACH PLANT'S CROWN (BASE). MULCH SHALL BE "FLORIMULCH," EUCALYPTUS MULCH, OR SIMILAR SUSTAINABLY HARVESTED MULCH UNLESS SPECIFIED OTHERWISE.

2. PROVIDE A THREE (3) INCH MINIMUM LAYER OF SPECIFIED MULCH OVER THE ENTIRE AREA OF EACH SHRUB BED, GROUND COVER, VINE BED, AND TREE PIT (6' MINIMUM) PLANTED UNDER THIS CONTRACT.

I. DIGGING AND HANDLING

1. PROTECT ROOTS OR ROOT BALLS OF PLANTS AT ALL TIMES FROM SUN, DRYING WINDS, WATER AND FREEZING, AS NECESSARY UNTIL PLANTING. PLANT MATERIALS SHALL BE ADEQUATELY PACKED TO PREVENT DAMAGE DURING TRANSIT. TREES TRANSPORTED MORE THAN TEN (10) MILES OR WHICH ARE NOT PLANTED WITHIN THREE (3) DAYS OF DELIVERY TO THE SITE SHALL BE SPRAYED WITH AN ANTITRANSPIRANT PRODUCT ("WILTPRUF" OR EQUAL) TO MINIMIZE TRANSPIRATIONAL WATER LOSS.

2. BALLED AND BURLAPPED (B&B), AND FIELD GROWN (FG) PLANTS SHALL BE DUG WITH FIRM, NATURAL BALLS OF SOIL OF SUFFICIENT SIZE TO ENCOMPASS THE FIBROUS AND FEEDING ROOTS OF THE PLANTS. NO PLANTS MOVED WITH A ROOT BALL SHALL BE PLANTED IF THE BALL IS CRACKED OR BROKEN. PLANTS SHALL NOT BE HANDLED BY STEMS.

3. PLANTS MARKED "BR" IN THE PLANT LIST SHALL BE DUG WITH BARE ROOTS. CARE SHALL BE EXERCISED THAT THE ROOTS DO NOT DRY OUT DURING TRANSPORTATION AND PRIOR TO PLANTING.

4. PROTECTION OF PALMS: ONLY A MINIMUM OF FRONDS SHALL BE REMOVED FROM THE CROWN OF THE PALM TREES TO FACILITATE MOVING AND HANDLING. CLEAR TRUNK (CT) SHALL BE AS SPECIFIED AFTER THE MINIMUM OF FRONDS HAVE BEEN REMOVED. ALL PALMS SHALL BE BRACED PER PALM PLANTING DETAIL.

5. EXCAVATION OF TREE PITS SHALL BE PERFORMED USING EXTREME CARE TO AVOID DAMAGE TO SURFACE AND SUBSURFACE ELEMENTS SUCH AS UTILITIES OR HARDSCAPE ELEMENTS, FOOTERS AND PREPARED SUB-BASES.

J. CONTAINER GROWN STOCK

1. ALL CONTAINER GROWN MATERIAL SHALL BE HEALTHY, VIGOROUS, WELL-ROOTED PLANTS ESTABLISHED IN THE CONTAINER IN WHICH THEY ARE SOLD. THE PLANTS SHALL HAVE TOPS WHICH ARE OF GOOD QUALITY AND ARE IN A HEALTHY GROWING CONDITION.

2. AN ESTABLISHED CONTAINER GROWN PLANT SHALL BE TRANSPLANTED INTO A CONTAINER AND GROWN IN THAT CONTAINER SUFFICIENTLY LONG ENOUGH FOR THE NEW FIBROUS ROOTS TO HAVE DEVELOPED SO THAT THE ROOT MASS WILL RETAIN ITS SHAPE AND HOLD TOGETHER WHEN REMOVED FROM THE CONTAINER. CONTAINER GROWN STOCK SHALL NOT BE HANDLED BY THEIR STEMS.

3. ROOT BOUND PLANTS ARE NOT ACCEPTABLE AND WILL BE REJECTED.

4. RPG= "ROOTS PLUS GROWER" CONTAINER PRODUCTS SHALL BE USED WHERE SPECIFIED.

K. COLLECTED STOCK

WHEN THE USE OF COLLECTED STOCK IS PERMITTED AS INDICATED BY THE OWNER OR OWNER'S REPRESENTATIVE, THE MINIMUM SIZES OF ROOTBALLS SHALL BE EQUAL TO THAT SPECIFIED FOR THE NEXT LARGER SIZE OF NURSERY GROWN STOCK OF THE SAME VARIETY.

L. NATIVE STOCK

PLANTS COLLECTED FROM WILD OR NATIVE STANDS SHALL BE CONSIDERED NURSERY GROWN WHEN THEY HAVE BEEN SUCCESSFULLY RE-ESTABLISHED IN A NURSERY ROW AND GROWN UNDER REGULAR NURSERY CULTURAL PRACTICES FOR A MINIMUM OF TWO (2) GROWING SEASONS AND HAVE ATTAINED ADEQUATE ROOT AND TOP GROWTH TO INDICATE FULL RECOVERY FROM TRANSPLANTING INTO THE NURSERY ROW.

M. MATERIALS LIST

QUANTITIES NECESSARY TO COMPLETE THE WORK ON THE DRAWINGS SHALL BE FURNISHED BY THE CONTRACTOR. QUANTITY ESTIMATES HAVE BEEN MADE CAREFULLY, BUT THE LANDSCAPE ARCHITECT OR OWNER ASSUMES NO LIABILITY FOR OMISSIONS OR ERRORS. SHOULD A DISCREPANCY OCCUR BETWEEN THE PLANS AND THE PLANT LIST QUANTITY, THE OWNER'S REPRESENTATIVE SHALL BE NOTIFIED FOR CLARIFICATION PRIOR TO BIDDING OR INSTALLATION. ALL DIMENSIONS AND/OR SIZES SPECIFIED SHALL BE THE MINIMUM ACCEPTABLE SIZE.

N. FINE GRADING

1. FINE GRADING UNDER THIS CONTRACT SHALL CONSIST OF FINAL FINISHED GRADING OF LAWN AND PLANTING AREAS THAT HAVE BEEN ROUGH GRADED BY OTHERS. BERMING AS SHOWN ON THE DRAWINGS SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR, UNLESS OTHERWISE NOTED.

2. THE CONTRACTOR SHALL FINE GRADE THE LAWN AND PLANTING AREAS TO BRING THE ROUGH GRADE UP TO FINAL FINISHED GRADE ALLOWING FOR THICKNESS OF SOD AND/OR MULCH DEPTH. CONTRACTOR SHALL FINE GRADE BY HAND AND/OR WITH ALL EQUIPMENT NECESSARY INCLUDING A GRADING TRACTOR WITH FRONT-END LOADER FOR TRANSPORTING SOIL WITHIN THE SITE.

3. ALL PLANTING AREAS SHALL BE GRADED AND MAINTAINED FOR POSITIVE DRAINAGE TO SURFACE/SUBSURFACE STORM DRAIN SYSTEMS. AREAS ADJACENT TO BUILDINGS SHALL SLOPE AWAY FROM THE BUILDINGS. REFER TO CIVIL ENGINEER'S PLANS FOR FINAL GRADES, IF APPLICABLE.

O. PLANTING PROCEDURES

1. CLEANING UP BEFORE COMMENCING WORK: THE CONTRACTOR SHALL CLEAN WORK AND SURROUNDING AREAS OF ALL RUBBISH OR OBJECTIONABLE MATTER DAILY. ALL MORTAR, CEMENT, AND TOXIC MATERIAL SHALL BE REMOVED FROM THE SURFACE OF ALL PLANT BEDS. THESE MATERIALS SHALL NOT BE MIXED WITH THE SOIL. SHOULD THE CONTRACTOR FIND SUCH SOIL CONDITIONS BENEATH THE SOIL WHICH WILL IN ANY WAY ADVERSELY AFFECT THE PLANT GROWTH, HE SHALL IMMEDIATELY CALL IT TO THE ATTENTION OF THE OWNER'S REPRESENTATIVE. FAILURE TO DO SO BEFORE PLANTING SHALL MAKE THE CORRECTIVE MEASURES THE RESPONSIBILITY OF THE CONTRACTOR.

2. VERIFY LOCATIONS OF ALL UTILITIES, CONDUITS, SUPPLY LINES AND CABLES, INCLUDING BUT NOT LIMITED TO: ELECTRIC, GAS (LINES AND TANKS), WATER, SANITARY SEWER, STORMWATER SYSTEMS, CABLE, AND TELEPHONE. PROPERLY MAINTAIN AND PROTECT EXISTING UTILITIES. CALL SUNSHINE STATE ONE CALL OF FLORIDA, INC. (811) TO LOCATE UTILITIES AT LEAST 48 HOURS PRIOR TO CONSTRUCTION.

3. SUBGRADE EXCAVATION: CONTRACTOR IS RESPONSIBLE TO REMOVE ALL EXISTING AND IMPORTED LIMEROCK AND LIMEROCK SUB-BASE FROM ALL LANDSCAPE PLANTING AREAS TO A MINIMUM DEPTH OF 36" OR TO NATIVE SOIL. CONTRACTOR IS RESPONSIBLE TO BACKFILL THESE PLANTING AREAS TO ROUGH FINISHED GRADE WITH CLEAN TOPSOIL FROM AN ON-SITE SOURCE OR AN IMPORTED SOURCE. IF LIMEROCK OR OTHER ADVERSE CONDITIONS OCCUR IN PLANTED AREAS AFTER 36" DEEP EXCAVATION BY THE CONTRACTOR, AND POSITIVE DRAINAGE CAN NOT BE ACHIEVED, CONTRACTOR SHALL UTILIZE POOR DRAINAGE CONDITION PLANTING DETAIL.

4. FURNISH NURSERY'S CERTIFICATE OF COMPLIANCE WITH ALL REQUIREMENTS AS SPECIFIED HEREIN. INSPECT AND SELECT PLANT MATERIALS BEFORE PLANTS ARE DUG AT NURSERY OR GROWING SITE.

5. COMPLY WITH APPLICABLE FEDERAL, STATE, COUNTY, AND LOCAL REGULATIONS GOVERNING LANDSCAPE MATERIALS AND WORK. CONFORM TO ACCEPTED HORTICULTURAL PRACTICES AS USED IN THE TRADE. UPON ARRIVAL AT THE SITE, PLANTS SHALL BE THOROUGHLY WATERED AND PROPERLY MAINTAINED UNTIL PLANTED. PLANTS STORED ONSITE SHALL NOT REMAIN UNPLANTED OR APPROPRIATELY HEALED IN FOR A PERIOD EXCEEDING TWENTY-FOUR (24) HOURS. AT ALL TIMES WORKMANLIKE METHODS CUSTOMARY IN GOOD HORTICULTURAL PRACTICES SHALL BE EXERCISED.

6. THE WORK SHALL BE COORDINATED WITH OTHER TRADES TO PREVENT CONFLICTS. COORDINATE PLANTING WITH IRRIGATION WORK TO ASSURE AVAILABILITY OF WATER AND PROPER LOCATION OF IRRIGATION APPURTENANCES AND PLANTS.

7. ALL PLANTING PITS SHALL BE EXCAVATED TO SIZE AND DEPTH IN ACCORDANCE WITH THE USA STANDARD FOR NURSERY STOCK 260.1, UNLESS SHOWN OTHERWISE ON THE DRAWINGS, AND BACK FILLED WITH THE PREPARED PLANTING SOIL MIXTURE AS SPECIFIED IN SECTION E. TEST ALL TREE PITS WITH WATER BEFORE PLANTING TO ASSURE PROPER DRAINAGE PERCOLATION IS AVAILABLE. NO ALLOWANCE WILL BE MADE FOR LOST PLANTS DUE TO IMPROPER DRAINAGE. IF POOR DRAINAGE EXISTS, UTILIZE "POOR DRAINAGE CONDITION" PLANTING DETAIL. TREES SHALL BE SET PLUMB AND HELD IN POSITION UNTIL THE PLANTING MIXTURE HAS BEEN FLUSHED INTO PLACE WITH A SLOW, FULL HOSE STREAM. ALL PLANTING SHALL BE PERFORMED BY PERSONNEL FAMILIAR WITH PLANTING PROCEDURES AND UNDER THE SUPERVISION OF A QUALIFIED LANDSCAPE FOREMAN. PROPER "JETTING IN" SHALL BE ASSURED TO ELIMINATE AIR POCKETS AROUND THE ROOTS. "JET STICK" OR EQUAL IS RECOMMENDED.

8. TAKE ALL NECESSARY PRECAUTIONS TO AVOID DAMAGE TO BUILDINGS AND BUILDING STRUCTURES WHILE INSTALLING TREES.

9. SOIL MIXTURE SHALL BE AS SPECIFIED IN SECTION E OF THESE SPECIFICATIONS.

10. TREES AND SHRUBS SHALL BE SET STRAIGHT AT AN ELEVATION THAT, AFTER SETTLEMENT, THE PLANT CROWN WILL STAND ONE (1) TO TWO (2) INCHES ABOVE GRADE. EACH PLANT SHALL BE SET IN THE CENTER OF THE PIT. PLANTING SOIL MIXTURE SHALL BE BACK FILLED, THOROUGHLY TAMPED AROUND THE BALL, AND SETTLED BY WATER (AFTER TAMPING).

11. AMEND PINE AND OAK PLANT PITS WITH ECTOMYCORRHIZAL SOIL APPLICATION PER MANUFACTURER'S RECOMMENDATION. ALL OTHER PLANT PITS SHALL BE AMENDED WITH ENDOMYCORRHIZAL SOIL APPLICATION PER MANUFACTURER'S RECOMMENDATION. PROVIDE PRODUCT INFORMATION SUBMITTAL PRIOR TO INOCULATION.

12. FILL HOLE WITH SOIL MIXTURE, MAKING CERTAIN ALL SOIL IS SATURATED. TO DO THIS, FILL HOLE WITH WATER AND ALLOW TO SOAK MINIMUM TWENTY (20) MINUTES, STIRRING IF NECESSARY TO GET SOIL THOROUGHLY WET. PACK LIGHTLY WITH FEET, ADD MORE WET SOIL MIXTURE. DO NOT COVER TOP OF BALL WITH SOIL MIXTURE. ALL BURLAP, ROPE, WIRES, BASKETS, ETC... SHALL BE REMOVED FROM THE SIDES AND TOPS OF BALLS, BUT NO BURLAP SHALL BE PULLED FROM UNDERNEATH.

13. TREES SHALL BE PRUNED, AT THE DIRECTION OF THE OWNER OR OWNER'S REPRESENTATIVE, TO PRESERVE THE NATURAL CHARACTER OF THE PLANT. ALL SOFT WOOD OR SUCKER GROWTH AND ALL BROKEN OR BADLY DAMAGED BRANCHES SHALL BE REMOVED WITH A CLEAN CUT. ALL PRUNING TO BE PERFORMED BY CERTIFIED ARBORIST, IN ACCORDANCE WITH ANSI A-300.

14. SHRUBS AND GROUND COVER PLANTS SHALL BE EVENLY SPACED IN ACCORDANCE WITH THE DRAWINGS AND AS INDICATED ON THE PLANT LIST. MATERIALS INSTALLED SHALL MEET MINIMUM SPECIMEN REQUIREMENTS OR QUANTITIES SHOW ON PLANS, WHICHEVER IS GREATER. CULTIVATE ALL PLANTING AREAS TO A MINIMUM DEPTH OF 6", REMOVE AND DISPOSE ALL DEBRIS. MIX TOP 4" THE PLANTING SOIL MIXTURE AS SPECIFIED IN SECTION E. THOROUGHLY WATER ALL PLANTS AFTER INSTALLATION.

15. TREE GUYING AND BRACING SHALL BE INSTALLED BY THE CONTRACTOR IN ACCORDANCE WITH THE PLANS TO INSURE STABILITY AND MAINTAIN TREES IN AN UPRIGHT POSITION. IF THE CONTRACTOR AND OWNER DECIDE TO WAIVE THE TREE GUYING AND BRACING, THE OWNER SHALL NOTIFY THE PROJECT LANDSCAPE ARCHITECT IN WRITING AND AGREE TO INDEMNIFY AND HOLD HARMLESS THE PROJECT LANDSCAPE ARCHITECT IN THE EVENT UNSUPPORTED TREES PLANTED UNDER THIS CONTRACT FALL AND DAMAGE PERSON OR PROPERTY.

16. ALL PLANT BEDS SHALL BE KEPT FREE OF NOXIOUS WEEDS UNTIL FINAL ACCEPTANCE OF WORK. IF DIRECTED BY THE OWNER, "ROUND-UP" SHALL BE APPLIED FOR WEED CONTROL BY QUALIFIED PERSONNEL TO ALL PLANTING AREAS IN SPOT APPLICATIONS PER MANUFACTURER'S PRECAUTIONS AND SPECIFICATIONS. PRIOR TO FINAL INSPECTION, TREAT ALL PLANTING BEDS WITH AN APPROVED PRE-EMERGENT HERBICIDE AT AN APPLICATION RATE RECOMMENDED BY THE MANUFACTURER. (AS ALLOWED BY JURISDICTIONAL AUTHORITY)

P. LAWN SODDING

1. THE WORK CONSISTS OF LAWN BED PREPARATION, SOIL PREPARATION, AND SODDING COMPLETE, IN STRICT ACCORDANCE WITH THE SPECIFICATIONS AND THE APPLICABLE DRAWINGS TO PRODUCE A TURF GRASS LAWN ACCEPTABLE TO THE OWNER.

2. ALL AREAS THAT ARE TO BE SODDED SHALL BE CLEARED OF ANY ROUGH GRASS, WEEDS, AND DEBRIS BY MEANS OF A SOD CUTTER TO A DEPTH OF THREE (3) INCHES, AND THE GROUND BROUGHT TO AN EVEN GRADE. THE ENTIRE SURFACE SHALL BE ROLLED WITH A ROLLER WEIGHING NOT MORE THAN ONE-HUNDRED (100) POUNDS PER FOOT OF WIDTH. DURING THE ROLLING, ALL DEPRESSIONS CAUSED BY SETTLEMENT SHALL BE FILLED WITH ADDITIONAL SOIL, AND THE SURFACE SHALL BE REGRADED AND ROLLED UNTIL PRESENTING A SMOOTH AND EVEN FINISH TO THE REQUIRED GRADE.

3. PREPARE LOOSE BED FOUR (4) INCHES DEEP. HAND RAKE UNTIL ALL BUMPS AND DEPRESSIONS ARE REMOVED. WET PREPARED AREA THOROUGHLY.

4. SODDING

a. THE CONTRACTOR SHALL SOD ALL AREAS THAT ARE NOT PAVED OR PLANTED AS DESIGNATED ON THE DRAWINGS WITHIN THE CONTRACT LIMITS, UNLESS SPECIFICALLY NOTED OTHERWISE.

b. THE SOD SHALL BE CERTIFIED TO MEET FLORIDA STATE PLANT BOARD SPECIFICATIONS, ABSOLUTELY TRUE TO VARIETAL TYPE, AND FREE FROM WEEDS, FUNGUS, INSECTS AND DISEASE OF ANY KIND.

c. SOD PANELS SHALL BE LAID TIGHTLY TOGETHER SO AS TO MAKE A SOLID SODDED LAWN AREA. SOD SHALL BE LAID UNIFORMLY AGAINST THE EDGES OF ALL CURBS AND OTHER HARDSCAPE ELEMENTS, PAVED AND PLANTED AREAS. ADJACENT TO BUILDINGS, A 24 INCH STONE MULCH STRIP SHALL BE PROVIDED. IMMEDIATELY FOLLOWING SOD LAYING, THE LAWN AREAS SHALL BE ROLLED WITH A LAWN ROLLER CUSTOMARILY USED FOR SUCH PURPOSES, AND THEN THOROUGHLY IRRIGATED. IF, IN THE OPINION OF THE OWNER, TOP-DRESSING IS NECESSARY AFTER ROLLING TO FILL THE VOIDS BETWEEN THE SOD PANELS AND TO EVEN OUT INCONSISTENCIES IN THE SOD, CLEAN SAND, AS APPROVED BY THE OWNER'S REPRESENTATIVE, SHALL BE UNIFORMLY SPREAD OVER THE ENTIRE SURFACE OF THE SOD AND THOROUGHLY WATERED IN. FERTILIZE INSTALLED SOD AS ALLOWED BY PROPERTY'S JURISDICTIONAL AUTHORITY.

5. DURING DELIVERY, PRIOR TO, AND DURING THE PLANTING OF THE LAWN AREAS, THE SOD PANELS SHALL AT ALL TIMES BE PROTECTED FROM EXCESSIVE DRYING AND UNNECESSARY EXPOSURE OF THE ROOTS TO THE SUN. ALL SOD SHALL BE STACKED SO AS NOT TO BE DAMAGED BY SWEATING OR EXCESSIVE HEAT AND MOISTURE.

6. LAWN MAINTENANCE

a. WITHIN THE CONTRACT LIMITS, THE CONTRACTOR SHALL PRODUCE A DENSE, WELL ESTABLISHED LAWN. THE CONTRACTOR SHALL BE RESPONSIBLE FOR THE REPAIR AND RE-SODDING OF ALL ERODED, SUNKEN OR BARE SPOTS (LARGER THAN 12"X12") UNTIL CERTIFICATION OF ACCEPTANCE BY THE OWNER'S REPRESENTATIVE. REPAIRED SODDING SHALL BE ACCOMPLISHED AS IN THE ORIGINAL WORK (INCLUDING REGRADING IF NECESSARY).

b. CONTRACTOR RESPONSIBLE FOR ESTABLISHING AND MAINTAINING SOD/LAWN UNTIL ACCEPTANCE BY THE OWNER'S REPRESENTATIVE. PRIOR TO AND UPON ACCEPTANCE, CONTRACTOR TO PROVIDE WATERING/IRRIGATION SCHEDULE TO OWNER. OBSERVE ALL APPLICABLE WATERING RESTRICTIONS AS SET FORTH BY THE PROPERTY'S JURISDICTIONAL AUTHORITY.

Q. CLEANUP

UPON COMPLETION OF ALL PLANTING WORK AND BEFORE FINAL ACCEPTANCE, THE CONTRACTOR SHALL REMOVE ALL MATERIAL, EQUIPMENT, AND DEBRIS RESULTING FROM HIS WORK. ALL PAVED AREAS SHALL BE CLEANED AND THE SITE LEFT IN A NEAT AND ACCEPTABLE CONDITION AS APPROVED BY THE OWNER'S REPRESENTATIVE.

R. PLANT MATERIAL MAINTENANCE

ALL PLANTS AND PLANTING INCLUDED UNDER THIS CONTRACT SHALL BE MAINTAINED BY WATERING, CULTIVATING, SPRAYING, AND ALL OTHER OPERATIONS (SUCH AS RE-STAKING OR REPAIRING GUY SUPPORTS) NECESSARY TO INSURE A HEALTHY PLANT CONDITION BY THE CONTRACTOR UNTIL CERTIFICATION OF ACCEPTANCE BY THE OWNER'S REPRESENTATIVE.

S. FINAL INSPECTION AND ACCEPTANCE OF WORK

FINAL INSPECTION AT THE END OF THE WARRANTY PERIOD SHALL BE ON PLANTING, CONSTRUCTION AND ALL OTHER INCIDENTAL WORK PERTAINING TO THIS CONTRACT. ANY REPLACEMENT AT THIS TIME SHALL BE SUBJECT TO THE SAME ONE (1) YEAR WARRANTY (OR AS SPECIFIED BY THE LANDSCAPE ARCHITECT OR OWNER IN WRITING) BEGINNING WITH THE TIME OF REPLACEMENT AND ENDING WITH THE SAME INSPECTION AND ACCEPTANCE HEREIN DESCRIBED.

T. WARRANTY

1. THE LIFE AND SATISFACTORY CONDITION OF ALL PLANT MATERIAL INSTALLED (INCLUDING SOD) BY THE LANDSCAPE CONTRACTOR SHALL BE WARRANTED BY THE CONTRACTOR FOR A MINIMUM OF ONE (1) CALENDAR YEAR COMMENCING AT THE TIME OF CERTIFICATION OF ACCEPTANCE BY THE OWNER'S REPRESENTATIVE.

2. ANY PLANT NOT FOUND IN A HEALTHY GROWING CONDITION AT THE END OF THE WARRANTY PERIOD SHALL BE REMOVED FROM THE SITE AND REPLACED AS SOON AS WEATHER CONDITIONS PERMIT. ALL REPLACEMENTS SHALL BE PLANTS OF THE SAME KIND AND SIZE AS SPECIFIED IN THE PL

IRRIGATION NOTES

1. CONTRACTOR SHALL VERIFY ALL DIMENSIONS, ELEVATIONS, EQUIPMENT QUANTITIES, ETC. PRIOR TO BEGINNING WORK.
2. CONTRACTOR SHALL NOTIFY LANDSCAPE ARCHITECT OF ANY DISCREPANCIES IN PLANS OR SPECIFICATIONS PRIOR TO BEGINNING OR CONTINUING WORK.
3. THE CONTRACTOR SHALL MAKE NO SUBSTITUTIONS, DELETIONS, OR ADDITIONS TO THIS PLAN WITHOUT APPROVAL OF THE LANDSCAPE ARCHITECT.
4. ALL CONSTRUCTION SHALL CONFORM TO CITY, COUNTY, STATE, AND FEDERAL REQUIREMENTS. IT SHALL BE THE RESPONSIBILITY OF THE IRRIGATION CONTRACTOR TO ENSURE THAT ALL IRRIGATION EQUIPMENT MEETS GOVERNMENT REGULATIONS. CONTRACTOR SHALL ALSO BE RESPONSIBLE FOR OBTAINING ANY NECESSARY PERMITS OR APPROVALS.
5. THIS PLAN IS SCHEMATIC AND DUE TO THE NATURE OF CONSTRUCTION SLIGHT FIELD MODIFICATIONS MAY BE NECESSARY TO IMPLEMENT PLAN.
6. CONTRACTOR TO VERIFY ACTUAL AVAILABLE WATER PRESSURE BEFORE BEGINNING INSTALLATION. CONTRACTOR SHALL NOTIFY LANDSCAPE ARCHITECT IF AVAILABLE WATER PRESSURE WILL NOT ALLOW SYSTEM MODIFICATION TO BE POSSIBLE.
7. IRRIGATION SYSTEMS CONNECTED TO POTABLE WATER SUPPLY, SHALL HAVE A BACKFLOW PREVENTER INSTALLED.
8. WHERE APPLICABLE IRRIGATION HEADS ARE TO BE ADJUSTED FOR COMPLETE COVERAGE WITH MINIMUM OVER SPRAY BEYOND LANDSCAPE AREAS.
9. EXISTING TREES TO REMAIN ARE TO BE PROTECTED FROM DAMAGE. DO NOT TRENCH OR EXCAVATE WITHIN THE CRITICAL ROOT ZONE OF ANY TREE.
10. ALL IRRIGATION SLEEVING TO BE THE RESPONSIBILITY OF THE IRRIGATION CONTRACTOR. ELECTRICAL WIRES FOR IRRIGATION VALVES AND IRRIGATION LINES ARE TO BE PLACED IN SEPARATE SLEEVES.
11. IRRIGATION CONTRACTOR SHALL REVIEW WINTERIZATION PROCEDURES FOR IRRIGATION SYSTEM WITH OWNER'S REPRESENTATIVE.
12. ALL PLANT MATERIAL IN TREE HOLDING AREAS SHALL BE MANUALLY WATERED/IRRIGATED TO KEEP MOIST UNTIL PLANTED.
13. CONTRACTOR TO PROVIDE PERMANENT BENCH-MARKS ON ALL CURB LINES AT RELATED SLEEVE LOCATIONS (TYP).
14. THE IRRIGATION SYSTEM SHALL BE DESIGNED AND INSTALLED TO MINIMIZE ROOT DISTURBANCE IN EXISTING TREES.
15. IRRIGATION SPRAYS AND ROTORS ARE NOT COMBINED ON THE SAME CONTROL VALVE CIRCUIT - LANDSCAPE BEDS AND TURF ON SEPARATE CIRCUITS.

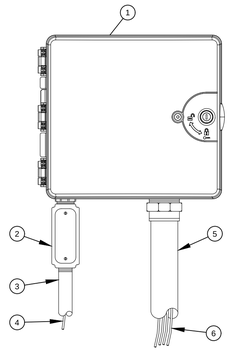
11. PVC SCH 40 TEE OR ELL
12. MAINLINE PIPE
13. 3-INCH MINIMUM DEPTH OF 3/4-INCH WASHED GRAVEL
14. PVC SCH 80 NIPPLE, CLOSE
15. PVC SCH 40 TEE
16. PVC SCH 40 ELL
17. PVC SCH 40 FEMALE ADAPTOR
18. LATERAL PIPE

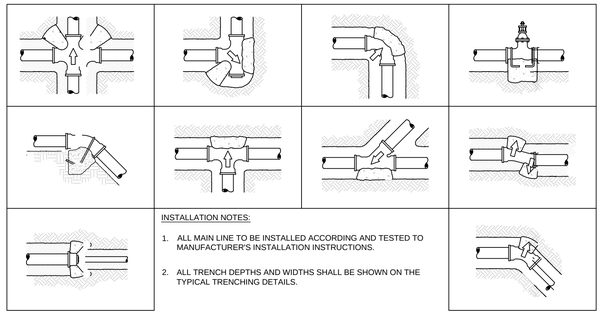
1 COMMERCIAL CONTROL DRIP ZONE VALVE KIT
L2.50 SECTION / PLAN — NTS



1. IRRIGATION CONTROLLER: CONTROLLER (OWNER TO SPECIFY WALL MOUNT OR STAINLESS STEEL PEDESTAL MOUNT). INSTALL PER MANUFACTURER'S RECOMMENDATIONS.
2. JUNCTION BOX
3. 1-INCH CONDUIT AND FITTINGS TO POWER SUPPLY
4. POWER SUPPLY WIRE
5. 2-INCH CONDUIT AND FITTINGS FOR STATION WIRES
6. WIRES TO REMOTE CONTROL VALVES

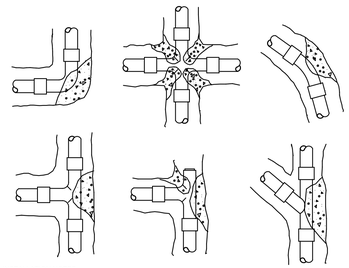
NOTES:
1. FOR EASE OF INSTALLATION INTO A CONTROLLER WITH MORE THAN 24 STATIONS, INSTALL A JUNCTION BOX AT THE BASE OF CONTROLLER AND TRANSITION LARGER VALVE AND COMMON WIRES FROM FIELD TO 18 AWG MULTI CONDUCTOR WIRE TO BE USED IN CONTROLLER.
2. USE STEEL CONDUIT FOR ABOVE GRADE AND SCH 40 PVC CONDUIT FOR BELOW GRADE CONDITIONS.
3. PROVIDE PROPER GROUNDING COMPONENTS TO ACHIEVE GROUND RESISTANCE OF 10 OHMS OR LESS.

2 TYPICAL CONTROLLER
L2.50 ELEVATION — NTS



INSTALLATION NOTES:
1. ALL MAIN LINE TO BE INSTALLED ACCORDING AND TESTED TO MANUFACTURER'S INSTALLATION INSTRUCTIONS.
2. ALL TRENCH DEPTHS AND WIDTHS SHALL BE SHOWN ON THE TYPICAL TRENCHING DETAILS.

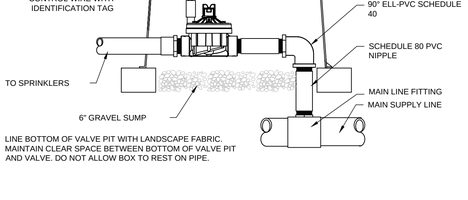
3 TYPICAL THRUST BLOCK
L2.50 SECTION — NTS



INSTALLATION NOTES
1. 3000 PSI CONCRETE OR BETTER IS TO BE USED FOR THRUST BLOCKS.
2. FOR 45°/90° FITTINGS, MINIMUM OF 2 CUBIC FEET OF CONCRETE TO BE USED.
3. FOR 22-1/2° FITTINGS, MINIMUM OF 0.5 CUBIC FEET OF CONCRETE TO BE USED.
4. FOR TEES, MINIMUM OF 2 CUBIC FEET OF CONCRETE TO BE USED. THRUST

BLOCKS REQUIRED FOR IRRIGATION MAINLINE 2 1/2" AND LARGER.

4 THRUST BLOCK REINFORCEMENT
L2.50 SECTION — NTS



LINE BOTTOM OF VALVE PIT WITH LANDSCAPE FABRIC. MAINTAIN CLEAR SPACE BETWEEN BOTTOM OF VALVE PIT AND VALVE. DO NOT ALLOW BOX TO REST ON PIPE.

This document, together with the concepts and designs presented herein, as an instrument of service, is intended only for the specific purpose and client for which it was prepared. Reuse of and improper reliance on this document without written authorization and adaptation by Kimley-Horn and Associates, Inc. shall be without liability to Kimley-Horn and Associates, Inc.

IRRIGATION SYSTEM NOTES:

1. THE IRRIGATION MAINLINE LAYOUT IS DIAGRAMMATIC. ANY CHANGES MADE IN THE IRRIGATION MAINLINE DUE TO FIELD CONDITIONS OR CONTRACTOR'S SUBMITTED DESIGN SHALL BE IN ACCORDANCE WITH THESE STANDARDS.
2. SET SPRAY HEADS 6" AND ROTORS 12" IN FROM BACK OF CURB OR 24" IF PAVEMENT HAS NO CURB.
3. IRRIGATION CONTRACTOR IS RESPONSIBLE FOR PERFORMING ALL NECESSARY MODIFICATIONS REQUIRED TO MEET THE SCHEMATIC INTENT OF THESE PLANS PRIOR TO SUBMITTING PROPOSAL. THESE PLANS OUTLINE THE OVERALL LAYOUT THE SYSTEM AND IT SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR TO ZONE THE SYSTEM ACCORDINGLY BASED ON FLOW AND PRESSURE AVAILABLE. CONTRACTOR SHALL BE RESPONSIBLE FOR VERIFYING THE FOLLOWING BUT NOT LIMITED TO AVAILABLE FLOW, AVAILABLE PRESSURE, CONNECTION ASSEMBLY, CAPACITY OF THE SYSTEM.
4. CONTRACTOR TO PROVIDE NEW AUTOMATIC CONTROLLER FOR PROPOSED SYSTEM (NO BATTERY OPERATED CONTROLLERS ALLOWED). COORDINATE LOCATION WITH OWNER.
5. CONTRACTOR SHALL BE RESPONSIBLE FOR PROVIDING AUTOMATIC RAIN SENSOR. COORDINATE LOCATION W/ OWNER.
6. IRRIGATION SHALL NOT BE COMBINED ON A SINGLE ZONE AND SHALL BE ZONED ACCORDING TO IRRIGATION TYPE, PRECIPITATION RATE, AND THE SYSTEM'S AVAILABLE WATER / PRESSURE. CONTRACTOR TO SUBMIT SHOP DRAWINGS TO OWNER FOR REVIEW PRIOR TO INSTALLATION.
7. VERIFY LOCATIONS OF ALL UNDERGROUND UTILITIES PRIOR TO INSTALLATION OF IRRIGATION SYSTEM. ALL UTILITIES AND STRUCTURES MAY NOT BE SHOWN ON THESE PLANS-CONTRACTOR SHALL FIELD VERIFY.
8. CONTRACTOR TO FIELD VERIFY ALL POINT OF CONNECTION SOURCE INFORMATION INCLUDING PSI AND GPM PRIOR TO CONSTRUCTION.
9. INSTALLATION OF WORK SHALL BE COORDINATED WITH OTHER CONTRACTORS IN SUCH A MANNER AS TO ALLOW FOR A SPEEDY AND ORDERLY COMPLETION OF ALL WORK ON-SITE.
10. CONTRACTOR SHALL COORDINATE WITH THE PLANTING PLAN FOR PLANTER BED AND TREE LOCATIONS TO ENSURE ALL PLANT MATERIAL IS COVERED BY 100% HEAD-TO-HEAD IRRIGATION.
11. CONTRACTOR SHALL PROVIDE "AS-BUILT" DRAWINGS OF THE FINAL INSTALLATION TO OWNER AT SUBSTANTIAL COMPLETION BEFORE RECEIVING FINAL PAYMENT.
12. PRODUCTS SHALL BE AS SPECIFIED OR APPROVED EQUAL.

PRE-APPROVED MANUFACTURERS:
1. TORO
2. HUNTER
3. RAINBIRD

13. IRRIGATION CONTRACTOR SHALL SECURE ANY AND ALL NECESSARY PERMITS FOR THE WORK PRIOR TO COMMENCEMENT OF HIS OPERATIONS ON-SITE. COPIES OF THE PERMITS SHALL BE SENT TO THE OWNER/GENERAL CONTRACTOR. WORK IN THE R.O.W. SHALL CONFORM TO THE STANDARDS AND SPECIFICATIONS OF LOCAL AND/OR STATE JURISDICTION.
14. LOCATE ALL IRRIGATION LINES WITHIN LANDSCAPED AREAS WHENEVER POSSIBLE. ALL LINES UNDER PAVEMENT MUST BE SLEEVED WITHIN SCH. 40 PVC 2x SIZE OF PIPE AND FREE OF STONES/DEBRIS. ALL VALVES SHALL BE LOCATED WITHIN LANDSCAPED AREAS.
15. MAINLINE SHALL NOT BE LOCATED WITHOUT PRIOR APPROVAL OF THE OWNER'S REPRESENTATIVE.
16. THE IRRIGATION CONTRACTOR SHALL BE DIRECTLY RESPONSIBLE FOR SLEEVING AND DIRECTIONAL BORES.
17. ALL SLEEVES UTILIZED BY THE IRRIGATION CONTRACTOR WHETHER INSTALLED BY HIM OR NOT, SHALL BE LOCATED ON THE "AS-BUILT" DRAWINGS. THE DEPTH BELOW FINISH GRADE, TO THE NEAREST FOOT OF EACH END OF THE SLEEVE SHALL BE NOTED AT EACH SLEEVE LOCATION ON THE "AS-BUILT" DRAWINGS. ALL SLEEVES ON PLAN FOR WALL PENETRATIONS AND UNDER SIDEWALKS SHALL BE SIZED TWO PIPE SIZES GREATER THAN THE PIPE IT CARRIES.
18. ALL PRESSURIZED MAINLINES AND LATERALS UNDER PAVEMENT SHALL BE WITHIN SCH. 40 PVC SLEEVES. WHERE ELECTRIC OR HYDRAULIC VALVE CONTROL LINES PASS THROUGH A SLEEVE WITH OTHER MAIN OR LATERAL LINES THEY SHALL BE CONTAINED WITHIN A SEPARATE, SMALLER CONDUIT.
19. NUMBER THE TOP OF ALL VALVE BOX LIDS WITH MINIMUM 1" HEIGHT BLACK LETTERS TO CORRESPOND TO AUTOMATIC AND GATE VALVE DESIGNATIONS. ALL HOSE BIBB VALVE BOXES SHALL BE LABELED IN A SIMILAR MANNER WITH THE DESIGNATION "HB". LETTER OUTSIDE OF TIME CLOCK CABINETS TO CORRESPOND WITH IRRIGATION CLOCK PROGRAM DESIGNATION.
20. THE IRRIGATION CONTRACTOR SHALL INSTALL A COLOR CODED METAL DETECTABLE MARKING TAPE WHICH CLEARLY NOTES: "CAUTION: IRRIGATION LINE BURIED BELOW." THE TAPE SHALL BE INSTALLED THE FULL LENGTH OF THE IRRIGATION MAINLINE.
21. ELECTRIC SERVICE TO THE CONTROLLER SHALL BE PROVIDED BY THE GENERAL CONTRACTOR.
22. ALL 24 VAC WIRING FROM DECODER TO VALVE SHALL BE OF DIRECT BURIAL COPPER WIRE. MAXIMUM LENGTH OF WIRE FROM DECODER TO VALVE SHALL NOT EXCEED 400 FEET. AS FOLLOWS:
    CONTROL WIRES - #14
    COMMON WIRES - #14
23. ALL VALVES, SPLICES WITHIN CONTROL LINES, AND QUICK COUPLERS SHALL BE LOCATED WITHIN NDS VALVE BOXES AS FOLLOWS:
    -RECTANGULAR 12"X17" HEAVY DUTY BOX. (PURPLE COVER FOR REUSE TO BE PROVIDED WHERE APPROPRIATE).
24. ALL IRRIGATION HEADS/DRIP TUBING SHALL BE LOCATED ONE (1) FOOT FROM BACK OF CURB WHEN NEXT TO A ROADWAY. (THIS SHALL NOT INCLUDE PARKING AREAS OR DRIVE AISLES).
25. HEADS, LATERALS, EMITTERS, AND VALVES ARE NOT SHOWN, BUT ARE NECESSARY FOR A FULLY FUNCTIONING IRRIGATION SYSTEM.
26. LOCATE ALL VALVES IN PLANTING BEDS WITH A MINIMUM OF 3'-0" FROM BACK OF CURB OR EDGE OF PAVEMENT, UNLESS OTHERWISE NOTED. PIPE SIZES ON EITHER SIDE OF SECTION VALVES CONNECTING MAINLINE TO SECTION LATERAL SHALL BE ONE (1) PIPE SIZE LARGER THAN VALVE SIZE. WHERE MAINLINES RUN PARALLEL TO PAVEMENT OR CURBING, THE MAINLINE SHALL BE OFFSET 2'-0" FROM THE EDGE OF PAVEMENT OR CURB.
27. IRRIGATION ZONES SHALL BE SEPARATED FOR HIGH AND LOW WATER USE REQUIREMENTS AND OPERATED ON DIFFERENT WATERING CYCLES. BUBBLERS, DRIPLINE, AND SPRAY HEADS SHALL BE SEPARATED ON DIFFERENT VALVES. AT NO TIME SHALL MULTIPLE IRRIGATION HEAD TYPES BE LOCATED ON THE SAME VALVE.
28. ALL DRIP ZONES SHALL BE INSTALLED WITH A FLUSH VALVE AND AIR RELIEF VALVE. IN THE EVENT THAT A DRIP ZONE HAS MORE THAN ONE HIGH OR LOW POINT, MORE THAN ONE AIR RELIEF VALVE OR FLUSH VALVE WILL BE REQUIRED FOR THAT ZONE. DRIPLINE SHALL PROVIDE 0.9 GPH EMITTERS, 12" O.C. WITH 12" LINE SPACING AT A MINIMUM.
29. ALL WIRING FOR CONNECTION OF THE VALVES TO THE CONTROLLER SHALL FOLLOW MANUFACTURERS SPECIFICATIONS. IF REQUIRED, ALL WIRING FOR A TWO WIRE PATH SHALL BE WITH RED/BLUE TWISTED PAIR 14 AWG. ELECTRIC CONTROL LINES FROM THE DECODER TO THE SOLENOID VALVES SHALL BE TWISTED PAIR 18 AWG. ALL DECODERS SHALL BE GROUNDED EVERY 1,000 L.F. OR EVERY 10 DEVICES. ALL WIRE SHALL BE FURNISHED IN MINIMUM 2,500' REELS AND SPLICING SHALL BE MINIMIZED. BURY SPLICE KIT. ALL 24 VOLT WIRING SHALL BE DONE IN ACCORDANCE WITH EXISTING CODES. SPLICING SHALL BE IN VALVE BOXES OR CONTROLLERS ONLY. IRRIGATION SYSTEM CONTROL SHALL BE TWO WIRE PATH. CONTRACTOR SHALL FOLLOW ALL MANUFACTURER'S REQUIREMENTS FOR THIS INSTALLATION. TWO WIRE SYSTEM SHALL HAVE 2-WAY COMMUNICATIONS FIELD PROGRAMMABILITY, STATION SPECIFICATIONS AND INTEGRATED SURGE PROTECTION.
30. ALL CONTROL WIRE SHALL BE INSTALLED IN A 1 $\frac{1}{2}$" ELECTRICAL CONDUIT.
31. SMALLEST DIAMETER LATERAL PIPE SHALL BE 3/4".
32. IRRIGATION SYSTEM SHALL BE CAPABLE OF SUPPLYING AN AVERAGE OF 1.05" OF WATER PER WEEK WITHIN WATERING RESTRICTIONS AS APPLICABLE.
33. IRRIGATION SYSTEM SHALL NOT BE INSTALLED THROUGH EXISTING, OR PRESERVED PLANT COMMUNITIES. DO NOT TRENCH THROUGH EXISTING ROOT SYSTEMS OF ANY VEGETATION INTENDED TO BE PRESERVED.
34. CONTRACTOR TO MINIMIZE IRRIGATION OVERTHROW TO IMPERVIOUS AND NATURAL AREAS THROUGH FIELD ADJUSTMENTS TO INDIVIDUAL HEADS.
35. ALL AREAS DISTURBED DURING CONSTRUCTION SHALL BE RESTORED BY THE CONTRACTOR TO THE CONDITION DENOTED ON THE LANDSCAPE PLAN.
36. IRRIGATION PIPING INSTALLED UNDER ROADS AND SIDEWALKS SHALL BE IN SCHEDULE 40 PVC SLEEVING AT 2X THE PIPE SIZE. ALL SLEEVING SHALL BE FREE OF STONES AND DEBRIS.
37. IRRIGATION SOURCE TO BE EITHER WELL, POTABLE, OR NON-POTABLE WATER. IRRIGATION CONTRACTOR TO VERIFY SOURCE PRIOR TO DESIGN.
38. POINT OF CONNECTION TO BE DETERMINED BY OWNER. IRRIGATION SYSTEM CONNECTIONS TO THE LOCAL JURISDICTION SERVICE SHALL COMPLY WITH ALL APPLICABLE CODES.
39. IRRIGATION CONNECTION MAY REQUIRE BACKFLOW PREVENTION, VERIFY WITH LOCAL JURISDICTION.
40. IRRIGATION SYSTEM SHALL COMPLY WITH THE LOCAL JURISDICTION LAND DEVELOPMENT CODE.

City of Apopka
CITY COUNCIL STAFF REPORT

Section: BUSINESS (Action Item)
Item #: 3.
Meeting Date: March 4, 2026
Department: Community Development

SUBJECT:
Cold Link Apopka - Major Development Plan

ACTION ITEM INFORMATION:
Owner(s): MG88 Central Florida Cold Storage II LLC
Applicant(s): Joshua Enot
Location: 2560 W. Orange Blossom Trail
Project: New 147,624 SF Building
Density: 0.6 Maximum FAR
Project Manager: Amer Hamza

REQUEST:
Approve the Cold Link Apopka - Major Development Plan.

SUMMARY:
Owner(s): MG88 Central Florida Cold Storage II LLC
Applicant(s): Joshua Enot
Parcel Identification Number(s): 06-21-28-7172-02-011
Location: 2560 W. Orange Blossom Trail
Tract: 27.63 +/- acre(s)
Project: New 147,624 SF Building
Density/Intensity: 0.6 Maximum FAR
Project Manager: Amer Hamza

Direction	Future Land Use	Zoning	Present Use
North	Commercial, County Commercial	I-L (Light Industrial District), County C-3 (Wholesale Commercial District)	Car Dealership, Vacant Land
East	Industrial	I-L (Light Industrial District)	Warehouse
South	Industrial	I-L (Light Industrial District)	Warehouse
West	Industrial	I-L (Light Industrial District)	Warehouse

PROJECT SUMMARY:
The subject property has a total area of around 27.63 acres. It has a Future Land Use of Industrial which allows a maximum of 0.6 FAR and has a zoning of I-L (Light Industrial District). The Cold Link Apopka - Major Development Plan details a plan for a new warehouse building onto an existing warehouse facility. The plan details the total square footage of the new building at a total of 147,624 SF. The I-L (Light Industrial) zoning district requires an open space area of 5%, equivalent to 0.59 acres. The applicant proposes 1.87 acres of open space which includes a landscape area. The I-L (Light Industrial District) allows up to a maximum height of 45’ but the proposed building will have a total height of 56’ 9” which is permitted through a height variance that was approved by the Planning Commission on June 10, 2025. Access to the site is proposed to from Mayflower Avenue to the south of the site. The Mayflower Avenue right-of-way will be improved to city standards. In regards to parking and loading areas, the

applicant proposes the following in comparison to the minimum requirement:

Parking Type	Parking Required	Parking Proposed
Regular Spaces	51	53
ADA Accessible Spaces	3	3
Total Parking	54	56
Loading Berth	14	21
Semi Truck Spaces	0	31

The landscape plan shows a variety of trees being proposed in the project area such as Crape Myrtle, Japanese Privet, and Southern Live Oak trees. There will also be foundation plantings alongside the primary façade and plantings alongside the parking lot as required by LDC Section 5.2.5.A and LDC Section 5.2.5.B.1.C.

The Development Review Committee finds that the applicant demonstrates there is competent substantial evidence in the record that all of the following standards are met:
a. The proposed development and use(s) in the development plan comply with Article 3: Zoning Districts, and Article 4: Use Regulations;
b. The development proposed in the development plan and its general layout and design comply with all the standards in Article 5: Development Standards, and Article 6: Environmental Standards;
c. The development proposed in the development plan complies with all conditions of approval in any development approval or permit to which the plan is subject;
d. The development proposed in the development plan complies with all other applicable standards in this LDC and all other City regulations.

ORANGE COUNTY NOTIFICATION:
Orange County was notified at the time of the site plan submittal for this property through the DRC agenda distribution.

PUBLIC HEARING SCHEDULE:
February 10, 2026 – Planning Commission (5:30 P.M.)
March 4, 2026 – City Council (1:30 P.M.)

FUNDING SOURCE:
N/A

RECOMMENDED MOTION:
Development Review Committee:
Finds the proposed Cold Link Apopka – Major Development Plan consistent with the Comprehensive Plan and Land Development Code, and recommends approval of the Major Development Plan, based on the findings and facts presented in the staff report and exhibits.

Planning Commission:
At the February 10, 2026 meeting, the Planning Commission unanimously recommended approval of the Cold Link Apopka - Major Development Plan.

Recommended Motion - City Council:
Approve the Cold Link Apopka - Major Development Plan.

ATTACHMENTS:
1. Cold Link Apopka MDP
2. Map Series

N.T.S.

LEGAL DESCRIPTION:

A PORTION OF SECTION 06, TOWNSHIP 21 SOUTH, RANGE 28 EAST, ORANGE COUNTY, FLORIDA.
LOTS 4 AND 6 OF BLOCK "I", OF PLYMOUTH DELLS, ACCORDING TO PLAT THEREOF AS RECORDED IN PLAT BOOK "O", PAGE 102, PUBLIC RECORDS OF ORANGE COUNTY FLORIDA. ALSO: THAT PART OF LOT 37, ADJACENT TO AND LYING DIRECTLY SOUTH OF SAID LOTS 5 AND 6 AND BEING A TRACT OF APPROXIMATELY 50 FEET SQUARE, MORE OR LESS, ACCORDING TO THE PLAT THEREOF AS RECORDED IN PLAT BOOK "O", PAGE 102, PUBLIC RECORDS OF ORANGE COUNTY, FLORIDA.
LOTS 7, 8, AND 9, THE EAST 25 FEET OF LOT 17, AND THE WEST 50 FEET OF LOT 37, BLOCK 1, PLYMOUTH DELLS, ACCORDING TO THE PLAT THEREOF AS RECORDED IN PLAT BOOK "O", PAGES 102 AND 103 OF THE PUBLIC RECORDS OF ORANGE COUNTY, FLORIDA, LESS ROAD RIGHT OF WAY.

SHEET NUMBER
C0.0

This document, together with the concepts and designs presented herein, as an instrument of service, is intended only for the specific purpose and client for which it was prepared. Reuse of and improper reliance on this document without written authorization and adaptation by Kimley-Horn and Associates, Inc. shall be without liability to Kimley-Horn and Associates, Inc.

GENERAL

1. THE CONTRACTOR SHALL BE RESPONSIBLE FOR LOCATING AND VERIFYING (HORIZONTALLY AND VERTICALLY) ALL EXISTING UTILITIES PRIOR TO START OF CONSTRUCTION AND FOR NOTIFYING THE VARIOUS UTILITY COMPANIES TO MAKE THE NECESSARY ARRANGEMENTS FOR ANY RELOCATION, TEMPORARY DISTRIBUTION SERVICE, OR CLARIFICATION OF ACTIVITY REGARDING SAID UTILITY. THE CONTRACTOR SHALL EXERCISE CAUTION WHEN CROSSING AN UNDERGROUND UTILITY, WHETHER SHOWN ON THESE PLANS OR FIELD LOCATED. ALL OTHER UTILITIES WHICH INTERFERE WITH THE PROPOSED CONSTRUCTION SHALL BE RELOCATED BY THE RESPECTIVE UTILITY COMPANIES AND THE CONTRACTOR SHALL COOPERATE WITH THEM DURING RELOCATION OPERATIONS. ANY DELAY OR INCONVENIENCE OF THE VARIOUS UTILITIES SHALL BE INCIDENTAL TO THE CONTRACT AND NO EXTRA COMPENSATION WILL BE ALLOWED. CONTRACTOR SHALL CALL "SUNSHINE ONE" AT 811 TO HAVE EXISTING UTILITIES LOCATED AT LEAST 48 HOURS PRIOR TO CONSTRUCTION.
2. THE LOCATIONS OF ALL EXISTING UTILITIES, STORM DRAINAGE SYSTEMS, AND TOPOGRAPHIC FEATURES SHOWN ON THE PLANS HAVE BEEN DETERMINED FROM THE BEST AVAILABLE INFORMATION AND ARE PROVIDED FOR THE CONVENIENCE OF THE CONTRACTOR. THE ENGINEER ASSUMES NO RESPONSIBILITY FOR THEIR ACCURACY. SHOULD A DISCREPANCY ARISE BETWEEN THESE PLANS AND ACTUAL FIELD CONDITIONS, WHICH WOULD APPRECIABLY AFFECT THE EXECUTION OF THESE PLANS, THE CONTRACTOR SHALL HALT CONSTRUCTION AND NOTIFY THE ENGINEER IMMEDIATELY.
3. PRIOR TO THE INITIATION OF SITE CONSTRUCTION, THE CONTRACTOR SHALL VERIFY ANY EXISTING UTILITIES INCLUDING GAS, WATER, ELECTRIC, CABLE TV, COMMUNICATIONS, SANITARY SEWERS AND STORM DRAINAGE SYSTEMS, ON AND / OR ADJACENT TO THE SITE. REMOVE OR CAP AS NECESSARY.
4. THE CONTRACTOR SHALL EXERCISE CAUTION IN AREAS OF BURIED UTILITIES AND SHALL CALL "SUNSHINE 811" AT 811 OR 1-800-432-4770 AT LEAST 48 HOURS PRIOR TO CONSTRUCTION TO ARRANGE FOR FIELD LOCATIONS OF BURIED UTILITIES.
5. THE CONTRACTOR IS RESPONSIBLE FOR REPAIRING ANY DAMAGE TO EXISTING FACILITIES, ABOVE OR BELOW GROUND, THAT MAY OCCUR AS A RESULT OF THE WORK PERFORMED, BY THE CONTRACTOR OR SUB-CONTRACTORS, AS CALLED FOR IN THESE CONTRACT DOCUMENTS.
6. IT IS THE CONTRACTOR'S RESPONSIBILITY TO BECOME FAMILIAR WITH THE PERMIT AND INSPECTION REQUIREMENTS SPECIFIED BY THE VARIOUS GOVERNMENTAL AGENCIES AND THE ENGINEER. THE CONTRACTOR SHALL OBTAIN ALL NECESSARY PERMITS, SUCH AS RIGHT OF WAY PERMIT(S), EXCAVATION/FILL PERMIT(S), FIRE PROTECTION PERMIT(S), OR UNDERGROUND UTILITY PERMIT(S), PRIOR TO START OF CONSTRUCTION. THE CONTRACTOR SHALL BE RESPONSIBLE FOR MEETING ALL INSPECTION CRITERIA OF APPLICABLE AGENCIES, SCHEDULING OF INSPECTIONS, AND OBTAINING REQUIRED INSPECTIONS FROM AGENCY.
7. THE CONTRACTOR SHALL SUBMIT SHOP DRAWINGS, ON ALL PRECAST AND MANUFACTURED ITEMS, TO THE OWNER'S ENGINEER FOR REVIEW. FAILURE TO OBTAIN APPROVAL BEFORE INSTALLATION MAY RESULT IN REMOVAL AND REPLACEMENT AT THE CONTRACTOR'S EXPENSE.
8. ALL UTILITY SERVICE STUB-OUTS (WATER, SANITARY SEWER, etc.) ARE TO BE INSTALLED WITHIN 5' OF BUILDING(S), UNLESS OTHERWISE NOTED ON PLANS.
9. CONTRACTOR TO COORDINATE WITH THE APPLICABLE ELECTRIC UTILITY SUPPLIER REGARDING ANY NECESSARY RELOCATION(S) OF UNDERGROUND AND/OR OVERHEAD ELECTRIC FACILITIES, AND FOR THE LOCATION AND INSTALLATION OF TRANSFORMER PAD(S) AND ASSOCIATED ELECTRIC FACILITIES.
10. IT SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR TO OBTAIN AN R-O-W UTILIZATION PERMIT (IF REQUIRED) FOR CONSTRUCTION OF THE PROPOSED UTILITIES. THIS PERMIT MUST BE OBTAINED BY A DULY LICENSED PLUMBING CONTRACTOR (OR CLASS A GENERAL CONTRACTOR) PRIOR TO THE START OF CONSTRUCTION. THESE PLANS AND ANY SUBSEQUENT REVISIONS TO THESE PLANS, THAT ARE ISSUED BY THE ENGINEER, WILL BE SUBJECT TO THE APPROVAL CONDITIONS OF THIS PERMIT.
11. THE GRAPHIC INFORMATION DEPICTED ON THESE PLANS HAS BEEN COMPILED TO PROPORTION BY SCALE AS ACCURATELY AS POSSIBLE. HOWEVER, DUE TO REPRODUCTIVE DISTORTION, REDUCTION, AND/OR REVISIONS, INFORMATION CONTAINED HEREIN IS NOT INTENDED TO BE SCALED FOR CONSTRUCTION PURPOSES.
12. ALL SPECIFICATIONS AND DOCUMENTS REFERENCED HEREIN SHALL BE OF THE LATEST REVISION.
13. ALL UNDERGROUND UTILITIES MUST BE IN-PLACE, TESTED AND INSPECTED PRIOR TO BASE AND SURFACE CONSTRUCTION.
14. WORK PERFORMED UNDER THIS CONTRACT SHALL INTERFACE SMOOTHLY WITH ANY OTHER WORK BEING PERFORMED ON SITE BY OTHER CONTRACTORS/SUBCONTRACTORS AND UTILITY COMPANIES. IT WILL BE NECESSARY FOR THE GENERAL CONTRACTOR TO COORDINATE AND SCHEDULE HIS/HER ACTIVITIES ACCORDINGLY.
15. ALL DIMENSIONS ARE TO FACE OF CURB, UNLESS OTHERWISE NOTED.
16. ALL SIGNAGE MUST COMPLY WITH THE LAND DEVELOPMENT CODE OF THE CITY OF APOPKA, FLORIDA.
17. CONTRACTOR IS RESPONSIBLE FOR ALL DEWATERING ACTIVITIES NECESSARY TO PERFORM THE WORK WITHIN THESE PLANS.
18. THE CONTRACTOR SHALL RESTORE OFF-SITE CONSTRUCTION AREAS TO EQUAL AND/OR BETTER CONDITION THAN EXISTING PRIOR TO START OF CONSTRUCTION.
19. THE CONTRACTOR SHALL COMPLY WITH THE LEGAL LOAD RESTRICTIONS IN HAULING OF MATERIALS IN PUBLIC ROADS BEYOND THE LIMITS OF WORK. A SPECIAL PERMIT WILL NOT RELIEVE THE CONTRACTOR OF LIABILITY FOR THE DAMAGE WHICH MAY RESULT FROM THE MOVING OF MATERIAL AND EQUIPMENT.
20. SURVEY MONUMENTS OR BENCHMARKS, WHICH HAVE TO BE DISTURBED BY THIS WORK, SHALL BE REPLACED UPON COMPLETION OF WORK BY A A LICENSED LAND SURVEYOR CURRENTLY REGISTERED IN THE STATE OF FLORIDA.
21. CONTRACTOR IS TO ADJUST ANY UTILITY ELEMENT MEANT TO BE FLUSH WITH GRADE (CLEAN OUT MANHOLES, CATCH BASINS, INLETS, ETC.) THAT IS AFFECTED BY SITE WORK OR GRADE CHANGES, WHETHER SPECIFICALLY NOTED ON PLANS OR NOT.
22. ALL WORK PERFORMED WITHIN THE FDOT RIGHT-OF-WAY SHALL BE IN ACCORDANCE WITH THE 2023-24 EDITIONS OF FDOT STANDARD PLANS, SPECIFICATIONS FOR ROAD AND BRIDGE CONSTRUCTION, AND THE 2017 UTILITY ACCOMMODATION MANUAL.

TREES AND VEGETATION

1. THE CONTRACTOR IS TO MINIMIZE THE REMOVAL OF VEGETATION TO THE GREATEST EXTENT PRACTICAL. SEE DEMOLITION PLAN FOR TREES TO BE REMOVED. TREES IN CLOSE PROXIMITY TO CONSTRUCTION SHALL BE PROTECTED BY WOOD FENCING PER DETAIL ON SHEET C2.1.
2. THE CONTRACTOR SHALL BE RESPONSIBLE FOR THE MAINTENANCE OF ALL LANDSCAPE BUFFERS AND RETENTION AND DETENTION FACILITIES UNTIL THE WORK HAS BEEN ACCEPTED BY THE OWNER. ALL DISTURBED AREAS SHALL BE RETURNED TO THEIR ORIGINAL CONDITION.

DEMOLITION

1. CONTRACTOR SHALL SUBMIT DEMOLITION SCHEDULE TO OWNER PRIOR TO PROCEEDING WITH DEMOLITION ACTIVITIES.
2. EXTENT OF SITE CLEARING IS SHOWN ON DRAWINGS.
3. CONTRACTOR SHALL CONDUCT SITE DEMOLITION OPERATIONS TO ENSURE MINIMUM INTERFERENCE WITH ROADS, STREETS, WALKS, AND OTHER ADJACENT OCCUPIED OR USED FACILITIES. DO NOT CLOSE OR OBSTRUCT STREETS, WALKS OR OTHER OCCUPIED OR USED FACILITIES WITHOUT PERMISSION FROM AUTHORITIES HAVING JURISDICTION.
4. CONTRACTOR SHALL PROVIDE PROTECTION NECESSARY TO PREVENT DAMAGE TO EXISTING IMPROVEMENTS INDICATED ON PLAN "EXISTING TO REMAIN".
5. CONTRACTOR SHALL RESTORE DAMAGED IMPROVEMENTS TO THEIR ORIGINAL CONDITION, AS ACCEPTABLE TO PARTIES HAVING JURISDICTION.
6. CONTRACTOR SHALL REMOVE WASTE MATERIALS AND UNSUITABLE AND EXCESS TOPSOIL FROM PROPERTY AND DISPOSE OF OFF-SITE IN A LEGAL MANNER.
7. CONTRACTOR SHALL DEMOLISH AND COMPLETELY REMOVE FROM SITE MATERIAL INDICATED ON PLAN OR NOTES "TO BE REMOVED".
8. CONTRACTOR SHALL PROTECT STRUCTURES, UTILITIES, SIDEWALKS, PAVEMENTS, AND OTHER FACILITIES FROM DAMAGE CAUSED BY SETTLEMENT, LATERAL MOVEMENT, UNDERMINING, WASHOUT AND OTHER HAZARDS CREATED BY THE DEMOLITION OPERATION.

STORM DRAINAGE SYSTEM

1. STANDARD INDEXES REFER TO THE LATEST EDITION OF F.D.O.T. "ROADWAY AND TRAFFIC DESIGN STANDARDS."
2. THE LATEST EDITION OF F.D.O.T. "DESIGN STANDARDS FOR DESIGN, CONSTRUCTION, MAINTENANCE, AND UTILITY OPERATIONS ON THE STATE HIGHWAY SYSTEM" IS REFERRED TO FOR THE STRUCTURAL DESIGN OF DRAINAGE STRUCTURES SPECIFIED IN THESE PLANS, AS REFERENCED BY STANDARD INDEX. ALL SPECIALTY DRAINAGE STRUCTURES REQUIRE SEPARATE STRUCTURAL DESIGN, WHICH IS NOT INCLUDED IN THESE PLANS. STATION OFFSETS ARE TO THE CENTERLINE OF THE STRUCTURE TOP (I.E. DITCH BOTTOM INLET OR CURB INLET TOP), AS OPPOSED TO THE STRUCTURE BASE.
3. ALL STORM SEWER PIPE SHALL BE REINFORCED CONCRETE CLASS III (ASTM C-76) UNLESS OTHERWISE NOTED ON PLANS. ALL DRAINAGE STRUCTURES SHALL BE IN ACCORDANCE WITH F.D.O.T. ROADWAY AND TRAFFIC DESIGN STANDARDS UNLESS OTHERWISE NOTED ON PLANS.
4. PIPE LENGTHS SHOWN ARE APPROXIMATE AND TO CENTER OF DRAINAGE STRUCTURES, WITH THE EXCEPTION OF MITERED END AND FLARED END SECTIONS. LENGTHS OF PIPE SHOWN WHICH TERMINATE WITH MITERED END OR FLARED END SECTIONS ARE MEASURED TO THE DOWNSTREAM INVERT OF THE MITERED END OR FLARED END SECTION.
5. ALL DRAINAGE STRUCTURE GRATES AND COVERS, EITHER EXISTING OR PROPOSED SHALL BE TRAFFIC RATED FOR H-20 LOADINGS. THE CONTRACTOR SHALL BE RESPONSIBLE FOR ANY NECESSARY UPGRADES TO EXISTING DRAINAGE STRUCTURES.
6. CONSTRUCTION OF THE STORMWATER MANAGEMENT SYSTEM MUST BE COMPLETE AND ALL DISTURBED AREAS STABILIZED IN ACCORDANCE WITH THE PERMITTED PLANS AND CONDITIONS PRIOR TO ANY OF THE FOLLOWING: ISSUANCE OF THE FIRST CERTIFICATE OF OCCUPANCY; INITIATION OF INTENDED USE OF THE INFRASTRUCTURE; OR TRANSFER OF RESPONSIBILITY FOR MAINTENANCE OF THE SYSTEM TO A LOCAL GOVERNMENT OR OTHER RESPONSIBLE ENTITY.
7. STORM WATER PIPES, STRUCTURES, MINIMUM COVER, AND INSTALLATION PROCEDURES TO BE IN ACCORDANCE WITH THE LAND DEVELOPMENT CODE OF THE CITY OF APOPKA, FLORIDA.
8. DURING CONSTRUCTION, NO DIRECT DISCHARGE OF WATER TO DOWNSTREAM RECEIVING WATERS WILL BE ALLOWED. THE CONTRACTOR IS RESPONSIBLE FOR MAINTAINING WATER QUALITY AND SHALL ROUTE DISCHARGE WATER IN SUCH A MANNER AS TO ADEQUATELY REMOVE SILT PRIOR TO RUNOFF FROM THE SITE.

DRAINAGE SYSTEM TESTING AND INSPECTION

1. THE STORM DRAINAGE PIPING SYSTEM SHALL BE SUBJECT TO A VISUAL INSPECTION BY THE OWNER'S ENGINEER PRIOR TO THE PLACEMENT OF BACKFILL. CONTRACTOR TO NOTIFY THE ENGINEER 48 HOURS IN ADVANCE TO SCHEDULE INSPECTION.
2. THE CONTRACTOR SHALL MAINTAIN AND PROTECT FROM MUD, DIRT, DEBRIS, ETC. THE STORM DRAINAGE SYSTEM UNTIL FINAL ACCEPTANCE OF THE PROJECT. THE STORM SYSTEM WILL BE REINSPECTED BY THE OWNER'S ENGINEER PRIOR TO APPROVAL FOR CERTIFICATE OF OCCUPANCY PURPOSES. THE CONTRACTOR MAY BE REQUIRED TO RECLEAN PIPES AND INLETS AT THE CONTRACTORS EXPENSE AND PRIOR TO FINAL ACCEPTANCE.

SAFETY

1. ALL SUBSURFACE CONSTRUCTION SHALL COMPLY WITH THE "TRENCH SAFETY ACT". THE CONTRACTOR SHALL INSURE THAT THE METHOD OF TRENCH PROTECTION AND CONSTRUCTION IS IN COMPLIANCE WITH THE OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION (OSHA) REGULATIONS. IT SHALL BE THE SOLE RESPONSIBILITY OF THE CONTRACTOR TO COMPLY AND ENFORCE ALL APPLICABLE SAFETY REGULATIONS. THE ABOVE INFORMATION HAS BEEN PROVIDED FOR THE CONTRACTOR'S INFORMATION ONLY AND DOES NOT IMPLY THAT THE OWNER OR ENGINEER WILL INSPECT AND/OR ENFORCE SAFETY REGULATIONS.
2. DURING THE CONSTRUCTION AND/OR MAINTENANCE OF THIS PROJECT, ALL SAFETY REGULATIONS ARE TO BE ENFORCED. THE CONTRACTOR OR HIS REPRESENTATIVE SHALL BE RESPONSIBLE FOR THE CONTROL AND SAFETY OF THE TRAVELING PUBLIC AND THE SAFETY OF HIS/HER PERSONNEL. LABOR SAFETY REGULATIONS SHALL CONFORM TO THE PROVISIONS SET FORTH BY OSHA IN THE FEDERAL REGISTER OF THE DEPARTMENT OF TRANSPORTATION. THE MINIMUM STANDARDS AS SET FORTH IN THE CURRENT EDITION OF "THE STATE OF FLORIDA, MANUAL ON TRAFFIC CONTROL AND SAFE PRACTICES FOR STREET AND HIGHWAY CONSTRUCTION, MAINTENANCE AND UTILITY OPERATIONS" SHALL BE FOLLOWED IN THE DESIGN, APPLICATION, INSTALLATION, MAINTENANCE AND REMOVAL OF ALL TRAFFIC CONTROL DEVICES, WARNING DEVICES AND BARRIERS NECESSARY TO PROTECT THE PUBLIC AND CONSTRUCTION PERSONNEL FROM HAZARDS WITHIN THE PROJECT LIMITS. CONTRACTOR SHALL PROVIDE FOR THE SAFETY AND CONTROL OF LOCAL TRAFFIC DURING CONSTRUCTION. ADDITIONAL INFORMATION MAY BE REQUIRED IF LANE CLOSURE DURATIONS ARE LONGER THAN DAYTIME OPERATIONS.

EARTHWORK / GRADING / DEMUCKING PROCEDURES

1. A GEOTECHNICAL ENGINEERING INVESTIGATION REPORT HAS BEEN PREPARED BY TERRACON FOR PURPOSES OF STORM WATER DESIGN, OF WHICH COPIES ARE AVAILABLE THROUGH THE OWNER OR THEIR SOIL TESTING COMPANY. A GEOTECHNICAL ENGINEER SHALL BE RETAINED BY THE CONTRACTOR TO PROVIDE ON-SITE INSPECTIONS DURING EXCAVATION/FILL OPERATIONS AND TESTING OF THE COMPACTED FILL SO THAT PROPER DOCUMENTATION OF THE REQUIRED COMPACTING CRITERIA CAN BE PROVIDED.
2. ALL EXISTING DEBRIS (ABOVE OR BELOW GROUND), CONSTRUCTION DEBRIS AND OTHER WASTE MATERIAL SHALL BE DISPOSED OF OFF-SITE BY THE CONTRACTOR, IN ACCORDANCE WITH APPLICABLE REGULATORY AGENCY REQUIREMENTS IN A LEGAL MANNER.
3. UNLESS OTHERWISE NOTED, GRADE TO MEET EXISTING ELEVATION AT PROPERTY LINES. FINAL GRADES SHOWN INCLUDE SOD HEIGHT. PROPOSED SPOT ELEVATIONS REPRESENT FINISHED PAVEMENT OR GROUND SURFACE GRADES, UNLESS OTHERWISE NOTED. IT MAY BE NECESSARY TO FIELD ADJUST PAVEMENT ELEVATIONS TO PRESERVE THE ROOT SYSTEMS OF TREES SHOWN TO BE SAVED. CONTRACTOR TO COORDINATE WITH OWNER'S ENGINEER PRIOR TO ANY ELEVATION CHANGES. ALL AREAS SHALL BE GRADED TO DRAIN AWAY FROM THE BUILDINGS.
4. ALL DELETERIOUS SUBSURFACE MATERIAL (I.E. MUCK, PEAT, BURIED DEBRIS) IS TO BE EXCAVATED AND REPLACED WITH SUITABLE/COMPACTED SOILS, AS DIRECTED BY THE OWNER OR THEIR SOILS TESTING COMPANY. DELETERIOUS MATERIAL IS TO BE STOCKPILED OR REMOVED FROM THE SITE AS DIRECTED BY THE OWNER. EXCAVATED AREAS ARE TO BE BACKFILLED WITH APPROVED MATERIALS AND COMPACTED AS SHOWN ON THESE PLANS. CONTRACTOR IS RESPONSIBLE FOR ACQUIRING ANY PERMITS THAT ARE NECESSARY FOR REMOVING DELETERIOUS MATERIAL FROM THE SITE.
5. THE CONTRACTOR SHALL BE RESPONSIBLE FOR PROTECTING EXCAVATIONS AGAINST COLLAPSE AND WILL PROVIDE BRACING, SHEETING OR SHORING AS NECESSARY. DEWATERING METHODS SHALL BE USED AS REQUIRED TO KEEP TRENCHES DRY WHILE PIPE AND APPURTENANCES ARE BEING PLACED.
6. ALL NECESSARY FILL AND EMBANKMENT THAT IS PLACED DURING CONSTRUCTION SHALL CONSIST OF MATERIAL SPECIFIED BY THE OWNER'S SOILS TESTING COMPANY OR ENGINEER AND BE PLACED AND COMPACTED ACCORDING TO THESE PLANS.
7. THE CONTRACTOR SHALL INSURE THAT PROPER SOIL DENSITIES ARE ACHIEVED FOR PLACEMENT OF ALL HEADWALL/ENDWALL FOOTINGS, RETAINING WALL FOOTINGS, AND IN GENERAL, ANY FOOTING SUPPORT DESCRIBED ON THESE PLANS. IT WILL ALSO BE THE RESPONSIBILITY OF THE CONTRACTOR TO INSURE THAT SUFFICIENT SOILS TESTING HAS BEEN PERFORMED PRIOR TO FINAL INSTALLATION OF IMPROVEMENTS.
8. ANY UNSUITABLE ORGANIC SOIL SHALL BE EXCAVATED TO A MINIMUM MARGIN OF 6 FEET BEYOND ITS PERIPHERY EXCAVATED TO EXPOSE THE UNDERLYING NON-ORGANIC FINE SAND.
9. IF DETERMINED NECESSARY, DEWATERING DURING EXCAVATING/BACKFILLING OPERATIONS MAY BE ACCOMPLISHED BY DITCHING AND THE USE OF SUMP PUMPS AND/OR OTHER METHODS (WELL POINTS), AS NECESSARY. CONTRACTOR TO OBTAIN ALL REQUIRED PERMITS FOR DEWATERING ACTIVITIES THAT MAY BE REQUIRED.
10. UPON APPROVAL OF THE GEOTECHNICAL ENGINEER, THE EXCAVATED AREAS MAY BE BACKFILLED WITH CLEAN FINE SAND FREE OF UNSUITABLE OR DELETERIOUS MATERIAL. HOWEVER, THE FILL SHOULD NOT BE PLACED IN MORE THAN 6 INCHES OF STANDING WATER. ONCE THE FILL IS AT LEAST 2 FEET ABOVE THE DEWATERED LEVEL, BACKFILLING MAY PROCEED AS DIRECTED BY THE GEOTECHNICAL ENGINEER.

PAVING, GRADING AND DRAINAGE

1. ALL PAVING SHALL BE PERFORMED IN ACCORDANCE WITH THE FLORIDA DEPARTMENT OF TRANSPORTATION STANDARD SPECIFICATIONS FOR ROAD AND BRIDGE CONSTRUCTION.
2. PROPOSED SPOT ELEVATIONS REPRESENT FINISHED PAVEMENT OR GROUND SURFACE GRADES, UNLESS OTHERWISE NOTED.
3. CONTRACTOR SHALL TRIM, TACK AND MATCH EXISTING PAVEMENT AT LOCATIONS WHERE NEW PAVEMENT MEETS EXISTING PAVEMENT.
4. CURBING SHALL BE PLACED AT THE EDGES OF ALL PAVEMENT, UNLESS OTHERWISE NOTED. REFER TO THE LATEST EDITION OF F.D.O.T. "DESIGN STANDARDS" FOR DETAILS AND SPECIFICATIONS OF ALL F.D.O.T. TYPE CURB AND GUTTERS CALLED FOR IN THESE PLANS.
5. PRIOR TO CONSTRUCTING CONCRETE PAVEMENT, THE CONTRACTOR IS TO SUBMIT A PROPOSED JOINTING PATTERN TO THE SOILS ENGINEER FOR APPROVAL.
6. CONTRACTOR TO PROVIDE A 1/2" TO 1" BITUMINOUS EXPANSION JOINT MATERIAL WITH SEALER AT ABUTMENT OF CONCRETE AND OTHER MATERIALS (STRUCTURES, OTHER POURED)
7. ALL PAVEMENT MARKINGS SHALL BE MADE IN ACCORDANCE WITH F.D.O.T. DESIGN STANDARDS.
8. THE CONTRACTOR WILL STABILIZE BY SEED AND MULCH, SOD, OR OTHER APPROVED MATERIALS ANY DISTURBED AREAS WITHIN ONE WEEK FOLLOWING CONSTRUCTION OF THE UTILITY SYSTEMS AND PAVEMENT AREAS. CONTRACTOR SHALL MAINTAIN SUCH AREAS UNTIL FINAL ACCEPTANCE BY OWNER. CONTRACTOR TO COORDINATE WITH OWNER REGARDING TYPE OF MATERIAL, LANDSCAPING AND IRRIGATION REQUIREMENTS.
9. THE CONTRACTOR SHALL RESTORE OFF-SITE CONSTRUCTION AREAS TO EQUAL AND/OR BETTER CONDITION THAN EXISTING PRIOR TO START OF CONSTRUCTION.
10. UNLESS OTHERWISE NOTED, GRADE TO MEET EXISTING ELEVATION AT PROPERTY LINES.
11. SURVEY MONUMENTS OR BENCHMARKS, WHICH HAVE TO BE DISTURBED BY THIS WORK, SHALL BE REPLACED UPON COMPLETION OF WORK BY A REGISTERED LAND SURVEYOR AT CONTRACTORS EXPENSE.
12. FINAL GRADES SHOWN INCLUDE SOD HEIGHT. ALL AREAS SHALL BE GRADED TO DRAIN AWAY FROM THE BUILDINGS.
13. ALL WORK TO BE PERFORMED IN ACCORDANCE WITH ALL LOCAL, STATE AND JURISDICTIONAL PERMITTING AGENCIES.
14. ALL WORK SHALL COMPLY WITH THE GEOTECHNICAL REPORT BY TERRACON.
15. CONTRACTOR SHALL SOD ALL DISTURBED AREAS WITH BAHIA UNLESS OTHERWISE NOTED.

PAVING/GRADING TESTING AND INSPECTION

1. THE CONTRACTOR IS RESPONSIBLE FOR COORDINATING APPLICABLE TESTING WITH THE SOILS ENGINEER. TESTS WILL BE REQUIRED PURSUANT WITH THE SOILS REPORT. UPON COMPLETION OF WORK THE SOILS ENGINEER WILL SUBMIT CERTIFICATIONS TO THE OWNER AND OWNER'S ENGINEER STATING THAT ALL REQUIREMENTS HAVE BEEN MET.
2. A QUALIFIED TESTING LABORATORY SHALL PERFORM ALL TESTING NECESSARY TO ASSURE COMPLIANCE OF THE IN-PLACE MATERIALS AS REQUIRED BY THESE PLANS AND GEOTECHNICAL REPORT, THE VARIOUS AGENCIES AND PERMIT CONDITIONS. SHOULD ANY RETESTING BE REQUIRED DUE TO THE FAILURE OF ANY TESTS TO MEET THESE REQUIREMENTS, THE CONTRACTOR WILL BEAR ALL COSTS OF SAID RETESTING.

PAVEMENT MARKING AND SIGNAGE

1. THE INSTALLATION, SHAPE, AND SIZE OF ALL SIGNS AND THEIR LETTERING SHALL COMPLY WITH THE LATEST EDITIONS OF THE U.S. DEPARTMENT OF TRANSPORTATION "MANUAL ON UNIFORM TRAFFIC CONTROL DEVICES" (MUTCD) AND THE F.D.O.T. "STANDARD SPECIFICATIONS FOR ROAD AND BRIDGE CONSTRUCTION" AND THE F.D.O.T. "DESIGN STANDARDS FOR DESIGN, CONSTRUCTION, MAINTENANCE, AND UTILITY OPERATIONS ON THE STATE HIGHWAY SYSTEM". WHERE CONFLICTS EXIST BETWEEN THE PLANS AND THE ABOVE MENTIONED SPECIFICATIONS, THE MORE STRINGENT CRITERIA SHALL PREVAIL.

TEST, INSPECTION AND CLOSEOUT REQUIREMENTS

1. ALL GRAVITY SEWER PIPING SHALL BE SUBJECT TO A VISUAL INSPECTION BY THE OWNER'S ENGINEER AND APPLICABLE MUNICIPALITY/AGENCY. THE CONTRACTOR SHALL NOTIFY THE ENGINEER 48 HOURS IN ADVANCE TO SCHEDULE INSPECTION(S). THE CONTRACTOR SHALL BE RESPONSIBLE FOR COSTS ASSOCIATED WITH A TELEVISED INSPECTION (TV) OF THE PROPOSED GRAVITY SEWER LINE CONSTRUCTION. TV INSPECTION SHALL BE IN ACCORDANCE TO THE CITY OF APOPKA UTILITIES DESIGN AND CONSTRUCTION STANDARDS MANUAL. THE CONTRACTOR SHALL PROVIDE COPIES OF THE TV INSPECTION TAPE TO THE ENGINEER, THE OWNER AND THE APPLICABLE MUNICIPALITY/AGENCY.
2. THE CONTRACTOR SHALL PERFORM LEAKAGE TESTS ON ALL GRAVITY SEWERS PER THE CITY OF APOPKA UTILITIES DESIGN AND CONSTRUCTION STANDARDS MANUAL.
3. AN AS-BUILT SURVEY SHALL BE PREPARED IN ACCORDANCE WITH CHAPTER 5J-17, FLORIDA ADMINISTRATIVE CODE (F.A.C.), PURSAUNT TO CHAPTER 472, FLORIDA STATUTES (F.S.) SHALL BE REQUIRED.
4. THE CONTRACTOR SHALL PROVIDE UTILITY AS-BUILT AND GRADING/DRAINAGE AS-BUILT RECORD DRAWINGS BASED ON THE CIVIL DESIGN PLAN SHEETS. ALL AS-BUILTS SHALL BE OVERLAID ON THE CIVIL DESIGN PLANS WITH THE DESIGN SHADED BACK AND THE AS-BUILT BOLD. THE AS-BUILTS SHALL BE SIGNED AND SEALED BY A REGISTERED LAND SURVEYOR.
5. THE UTILITY AS-BUILT SHALL INCLUDE ALL SANITARY SEWERS AND FORCE MAIN SYSTEMS, POTABLE AND RECLAIMED WATER MAIN SYSTEMS, METERS, VALVES, FORCE MAINS, GAS MAINS, AND IRRIGATION LINES (2-INCH AND LARGER). CONTRACTOR TO PROVIDE ALL UTILITY CROSSING INFORMATION ON THE AS-BUILT. THE UTILITY AS-BUILTS SHALL IDENTIFY ALL WATER MAIN CROSSINGS WITH STORM AND SANITARY LINES INDICATING TOP OF PIPE AND INVERTS OF THE ABOVE CROSSING PIPE ALONG WITH CLEARANCE DIMENSIONS. THIS SHALL ALSO BE DONE FOR SANITARY/STORM CROSSINGS. ALL TEMPORARY SAMPLE POINT NUMBER (TSP#) LOCATIONS SHALL ALSO BE NOTED ON THE AS-BUILT. CONTRACTOR TO ALSO PROVIDE AN AS-BUILT ASSET TABLE IDENTIFYING SIZE OF PIPE OR FITTING AS WELL AS DEPTH TO TOP OF PIPE AND NORTHING AND EASTING OF EACH FITTING/VALVE, ETC. AS-BUILT DRAWINGS SHALL PROVIDE GPS COORDINATES FOR SANITARY STRUCTURES.
6. THE GRADING/DRAINAGE AS-BUILT SHALL INCLUDE ALL CONSTRUCTED IMPROVEMENTS THAT HAVE LOCATION AND/OR ELEVATION INFORMATION CALLED-OUT ON THE PLANS. THE AS-BUILT SHALL CLEARLY PROVIDE THE SAME INFORMATION IDENTIFIED ON THE DESIGN DOCUMENTS AND ALSO THE CONSTRUCTED LOCATIONS AND ELEVATIONS AS-BUILT INFORMATION.
7. THE CONTRACTOR SHALL PROVIDE A SIGNED AND SEALED LETTER FROM THE INDEPENDENT TESTING AGENCY THAT STATES CONFORMANCE WITH THE CONTRACT DOCUMENT REQUIREMENTS FOR COMPACTION TESTING. THE CONTRACTOR IS TO PROMPTLY NOTIFY THE OWNER AND ENGINEER OF RECORD WHEN ANY TESTING OR INSPECTIONS ARE DEFICIENT OR IRREGULAR.

STORMWATER POLLUTION PREVENTION PLAN

SITE DESCRIPTION

PROJECT NAME AND LOCATION

APOPKA COLD STORAGE
*SEE COVER SHEET FOR LOCATION MAP

DEVELOPER NAME AND ADDRESS

OWNER:
COLD LINK LOGISTICS, LLC

PROJECT DESCRIPTION

THE PROJECT CONSISTS OF A PROPOSED COLD STORAGE FACILITY EXPANSION LOCATED IN THE SOUTHEAST CORNER OF ORANGE BLOSSOM TRAIL AND LAKE VIEW DRIVE WITHIN THE CITY OF APOPKA. THE PROJECT CONTAINS 3 PARCELS WITH PARCEL NUMBER 06-21-28-7172-02-011, 06-21-28-7180-09-070, AND 06-21-28-7180-09-050. THE PROJECT IS APPROXIMATELY +/- 27.69 ACRES AND CURRENTLY HAS ROUGHLY FOUR EXISTING BUILDINGS INDUSTRIAL BUILDING WITH LOADING DOCKS AND PARKING STALLS. THE SITE ALSO HAS TWO EXISTING HOUSES BETWEEN THE EXISTING INDUSTRIAL BUILDING AND EXISTING TRUCK PARKING LOT AREA AND WILL PROPOSE THOSE TWO PARCELS TO BE REZONED ONCE ANNEXED INTO CITY OF APOPKA. ONCE REZONED, THE DEVELOPMENT CONSISTS OF THE RENOVATION OF ONE OF THE EXISTING BUILDINGS, A PROPOSED PUMP BUILDING, AN ADDITIONAL COLD STORAGE FACILITY WITH A LOADING DOCK DOOR AND AN ASSOCIATED PARKING LOT AND STRIPING.

PROJECT AREA: 27.69 ACRES

CONTRIBUTING DRAINAGE AREA: 25.90 ACRES

TOTAL CONSTRUCTION AREA: 25.90 ACRES

LONGITUDE : -81.552853 LATITUDE: 28.690683

ULTIMATE RECEIVING WATERS: xxxx

ACTIVITIES THAT REQUIRE EROSION CONTROL

SITE CLEARING AND GRUBBING; PROVIDING A STABILIZED CONSTRUCTION ENTRANCE, PERIMETER, AND OTHER EROSION AND SEDIMENT CONTROLS; EXCAVATION FOR THE RETENTION POND; SITE GRADING; INSTALLATION OF STORM WATER, SANITARY SEWER, AND WATER STRUCTURES; CURB, ROADWAYS, AND PARKING FACILITIES.

*SEE PLANS FOR THE LOCATION OF TEMPORARY SEDIMENT BARRIERS AND OTHER EROSION CONTROL METHODS.

SOIL PARAMETERS

SOIL TYPES:

NO.	SERIES NAME	HYDROLOGIC GROUP
6	CANDLER–APOPKA FINE SAND, 5 TO 12% SLOPES	A
47	TAVARES–MILLHOPPER FINE SANDS, 0 TO 5% SLOPES	A

DEWATERING

DISCHARGE OF GROUNDWATER FROM DEWATERING OPERATIONS REQUIRES APPROVAL FROM FDEP AND THE APPLICABLE WATER MANAGEMENT DISTRICT. DISCHARGES DIRECTED TO THE COUNTY'S MS4 REQUIRES A RIGHT-OF-WAY UTILIZATION PERMIT FOR DEWATERING PRIOR TO THE START OF DISCHARGES. TO OBTAIN RIGHT-OF-WAY APPROVAL, COPIES OF THE FDEP PERMIT NOI, DOCUMENTATION SHOWING DEWATERING AT THE SITE IS NOT WITHIN 500 FT OF KNOWN CONTAMINATION, AND A DEWATERING PLAN SHALL BE SUBMITTED TO ALEXIS CLARK, ORANGE COUNTY ENVIRONMENTAL PROTECTION DIVISION (407-836-1433) AND ORANGE COUNTY PUBLIC WORKS DEVELOPMENT ENGINEERING PERMITTING SECTION. ANALYTICAL SAMPLING OF GROUNDWATER MAY BE REQUESTED BY ORANGE COUNTY ON A CASE-BY-CASE BASIS TO CONFIRM SITE CONTAMINATION STATUS.

SEQUENCE OF MAJOR ACTIVITIES

THE ORDER OF CONSTRUCTION IS AS FOLLOWS:

1. PROVIDE STABILIZED CONSTRUCTION ENTRANCE
2. INSTALL SILT FENCES AND OTHER EROSION CONTROL METHODS
3. CLEAR AND GRUB FOR SEDIMENT BASIN AND EARTH DIKE
4. CONSTRUCT EARTH DIKE AND SEDIMENT BASIN
5. FINISH CLEARING AND GRUBBING
6. REMOVE AND STORE TOPSOIL
7. PROVIDE INITIAL GRADING AS REQUIRED
8. STABILIZE ALL DISTURBED AREAS AS SOON AS POSSIBLE
9. INSTALL UTILITIES, STORM SEWER, CURB AND GUTTER
10. INSTALL BASE TO ROAD AND PARKING AREA
11. FINISH GRADING ENTIRE SITE
12. CONSTRUCT FINAL PAVING
13. REMOVE ACCUMULATED SEDIMENT
14. REMOVE ANY ITEMS THAT ARE NOT REQUIRED

TIMING OF CONTROL MEASURES

THE INSTALLATION OF SILT FENCE (AND OTHER EROSION CONTROL MEASURES), A STABILIZED ENTRANCE AND SEDIMENT BASIN SHALL OCCUR PRIOR TO CLEARING AND GRUBBING ACTIVITY. AFTER CONSTRUCTION IS COMPLETE, THE ACCUMULATED SEDIMENT SHALL BE REMOVED AND THE AREAS SHALL BE REGRADED AND PERMANENTLY STABILIZED AS SHOWN ON THE PLANS.

EROSION AND SEDIMENT CONTROLS

BEST MANAGEMENT PRACTICES SHALL BE USED FOR THIS PROJECT TO CONTROL EROSION AND TURBIDITY CAUSED BY STORM WATER RUN-OFF. THE LOCATION AND DETAILS OF EROSION CONTROL METHODS ARE SHOWN ON THE PLANS. THE CONTRACTOR IS RESPONSIBLE FOR PLACING AND MAINTAINING THESE CONTROL METHODS AS SHOWN ON THE PLANS OR AS REQUIRED. HE/SHE SHALL ALSO PROVIDE THE REQUIRED EROSION PROTECTION AS REQUIRED BY LOCAL, STATE AND FEDERAL LAW.

STORM WATER MANAGEMENT

STORMWATER WILL BE COLLECTED BY THE CATCH-BASINS ON SITE AND WILL BE DIRECTED TO THE DRY POND. THE DRY POND SYSTEM WILL TREAT AND ATTENUATE RUNOFF IN ACCORDANCE WITH SJRWMD SPECIFICATIONS AND THE CITY OF APOPKA LAND DEVELOPMENT CODE.

STABILIZATION PRACTICES:

TEMPORARY STABILIZATION - TOPSOIL STOCK PILES AND DISTURBED PORTIONS OF THE SITE WHERE CONSTRUCTION ACTIVITY TEMPORARILY OR PERMANENTLY CEASE, SHALL BE STABILIZED WITH TEMPORARY SEED AND MULCH WITHIN 7 DAYS OF THE LAST CONSTRUCTION ACTIVITY IN THAT AREA. THE TEMPORARY SEED REQUIRED CAN BE FOUND IN TABLE 1.65 A OF THE FLORIDA DEVELOPMENT MANUAL. PRIOR TO SEEDING, WHERE SOILS ARE ACIDIC 2 TONS OF PULVERIZED AGRICULTURAL LIMESTONE SHOULD BE ADDED PER ACRE AND 450 POUNDS OF 10-20-20 FERTILIZER SHALL BE APPLIED TO EACH ACRE. AFTER SEEDING, EACH AREA SHALL BE IMMEDIATELY MULCHED WITH STRAW OR EQUIVALENT EQUAL. AREAS OF THE SITE WHICH ARE TO BE PAVED SHALL BE TEMPORARILY STABILIZED BY APPLYING GEOTEXTILE AND STONE SUB-BASE UNTIL BITUMINOUS PAVEMENT CAN BE APPLIED.

PERMANENT STABILIZATION - DISTURBED PORTIONS OF THE SITE WHERE CONSTRUCTION ACTIVITIES PERMANENTLY CEASE SHALL BE STABILIZED WITH PERMANENT SEED NO LATER THAN 7 DAYS AFTER THE LAST CONSTRUCTION ACTIVITY. THE APPROPRIATE PERMANENT SEED MIX CAN BE FOUND IN TABLES 1.66A, 1.66B AND 1.66C OF THE FLORIDA DEVELOPMENT MANUAL. PRIOR TO SEEDING, 2 TONS/ACRE OF FINELY GROUND AGRICULTURAL LIMESTONE AND THE PROPER FERTILIZER BASED ON THE TYPE OF SEEDING SHALL BE APPLIED TO EACH ACRE TO PROVIDE PLANT NUTRIENTS. AFTER SEEDING, EACH AREA SHALL BE MULCHED IMMEDIATELY.

STRUCTURAL PRACTICES:

EARTH DIKE - IF REQUIRED, AN EARTH DIKE SHALL BE CONSTRUCTED ALONG THE SITE PERIMETER. A PORTION OF THE DIKE SHALL DIVERT RUN-ON AROUND THE CONSTRUCTION SITE. THE REMAINING PORTION OF THE DIKE SHALL COLLECT RUNOFF FROM THE DISTURBED AREA AND DIRECT THE RUNOFF TO THE SEDIMENT BASIN.

SEDIMENT BASIN - A SEDIMENT BASIN SHALL BE CONSTRUCTED IN THE COMMON DRAINAGE AREA FOR THE SITE. ALL SEDIMENT COLLECTED IN THE BASIN MUST BE REMOVED FROM THE BASIN UPON COMPLETION OF CONSTRUCTION. SEDIMENT FROM THE BASIN MAY BE USED AS FILL ON THE SITE IF IT IS SUITABLE SOIL.

WASTE DISPOSAL

WASTE MATERIALS - ALL WASTE MATERIALS SHALL BE COLLECTED AND STORED IN A METAL DUMPSTER WITH A SECURE LID IN ACCORDANCE WITH ALL LOCAL AND STATE LAWS. ALL TRASH AND CONSTRUCTION DEBRIS FROM THE SITE SHALL BE DEPOSITED IN THE DUMPSTER. THE SUPERINTENDENT SHALL COORDINATE WITH THE LOCAL UTILITIES TO HAVE THE DUMPSTER EMPTIED AT LEAST TWICE A WEEK AND THE WASTE TAKEN TO AN APPROPRIATE LANDFILL. NO CONSTRUCTION WASTE MATERIALS SHALL BE BURIED ON SITE. THE SUPERINTENDENT SHALL ORGANIZE TRAINING FOR THE EMPLOYEES IN THE PROPER PRACTICES WHEN DEALING WITH WASTE MATERIALS. THE SUPERINTENDENT SHALL BE RESPONSIBLE FOR POSTING AND ENFORCING WASTE MATERIAL PROCEDURES.

HAZARDOUS WASTE - HAZARDOUS WASTE MATERIALS SHALL BE DISPOSED OF IN ACCORDANCE WITH ALL LOCAL AND STATE LAWS OR AS DIRECTED BY THE MANUFACTURER. THE SUPERINTENDENT SHALL ORGANIZE THE PROPER TRAINING FOR EMPLOYEES IN THE PROPER PRACTICES WHEN DEALING WITH HAZARDOUS WASTE MATERIALS. THESE PROCEDURES SHALL BE POSTED ON THE SITE. THE PERSON WHO MANAGES THE SITE SHALL BE RESPONSIBLE FOR ENFORCING THE PROCEDURES.

SANITARY WASTE - SANITARY WASTE SHALL BE COLLECTED AND DISPOSED OF IN ACCORDANCE WITH ALL LOCAL AND STATE LAWS. THE SUPERINTENDENT SHALL COORDINATE WITH THE LOCAL UTILITY FOR COLLECTION OF THE SANITARY WASTE AT LEAST THREE TIMES A WEEK TO PREVENT SPILLAGE ONTO THE SITE.

OFF-SITE TRACKING

A STABILIZED CONSTRUCTION ENTRANCE SHALL BE PROVIDED TO REDUCE SEDIMENT TRACKING OFFSITE. THE MAJOR ROAD CONNECTED TO THE PROJECT SHALL BE CLEANED ONCE A DAY TO REMOVE ANY EXCESS MUD, DIRT OR ROCK RESULTING FROM CONSTRUCTION TRAFFIC. ALL TRUCKS HAULING MATERIALS OFFSITE SHALL BE COVERED WITH A TARPAULIN.

DUST & DEBRIS CONTROL

THE CONTRACTOR SHALL BE RESPONSIBLE FOR DUST CONTROL WITHIN THE CONSTRUCTION LIMITS AS WELL AS ALONG HAUL ROUTES AND ROADWAYS USED BY THE EQUIPMENT AND VEHICLES. THE CONTRACTOR SHALL ENSURE THAT EXCESSIVE DUST IS NOT TRANSPORTED BEYOND THE LIMITS OF CONSTRUCTION IN POPULATED AREAS. THE CONTRACTOR MAY CONTROL DUST FOR EMBANKMENTS OR OTHER CLEARED OR UNSURFACED AREAS BY APPLYING WATER. INSTALL MULCH, SEED, SOD, OR TEMPORARY PAVING AS EARLY AS PRACTICAL. CONTROL DUST DURING STORAGE AND HANDLING OF DUSTY MATERIALS BY WETTING, COVERING, OR OTHER MEANS AS APPROVED BY THE ENGINEER. CONTRACTOR SHALL ENFORCE REDUCED VEHICLE SPEEDS ON UNPAVED ROADS AND IF NECESSARY PROHIBIT CONSTRUCTION GRADING WHEN WIND GUSTS EXCEED 25 MPH, OR OTHERWISE DIRECTED BY E.O.R. OR COUNTY INSPECTOR.

DEBRIS AND TRASH SHALL NOT BE ALLOWED TO ACCUMULATE ON THE PROJECT SITE. CONTRACTOR SHALL COLLECT LOOSE DEBRIS & TRASH DAILY, AND DISPOSE OF IT INTO APPROPRIATE CONSTRUCTION TRASH RECEPTACLES OR CONTAINERS.

ITEMS REQUIRING POLLUTION PREVENTION

THE FOLLOWING ITEMS ARE EXPECTED TO BE PRESENT ON THE PROJECT SITE:

-ASPHALT
-CONCRETE
-FERTILIZERS
-METAL PIECES
-PETROLEUM BASED PRODUCTS
-TAR
-CLEANING SUPPLIES
-DETERGENTS
-MASONARY BLOCK/BRICKS
-PAINT
-WOOD

THE FOLLOWING ARE NON-STORM WATER SOURCES THAT WILL BE ENCOUNTERED AT THE SITE AND SHOULD BE DIRECTED TO THE SEDIMENT BASIN PRIOR TO DISCHARGE:

-UNCONTAMINATED GROUNDWATER EXPOSED DURING EXCAVATION
-WATER FROM WATER LINE FLUSHING
-PAVEMENT WASH WATERS (WHERE NO SPILLS OR LEAKS OF TOXIC OR HAZARDOUS MATERIALS HAVE OCCURRED).

SPILL PREVENTION AND CONTROL

THE FOLLOWING ARE THE MATERIAL MANAGEMENT PRACTICES THAT WILL BE USED TO REDUCE THE RISK OF SPILLS OR OTHER ACCIDENTAL EXPOSURE OF MATERIALS AND SUBSTANCES TO STORM WATER RUNOFF.

GOOD HOUSEKEEPING

-SUPERINTENDENT SHALL INSPECT PROJECT AREA DAILY FOR PROPER STORAGE, USE, AND DISPOSAL OF CONSTRUCTION MATERIALS.

-STORE ONLY ENOUGH MATERIAL ON SITE FOR PROJECT COMPLETION.

-ALL SUBSTANCES SHOULD BE USED BEFORE DISPOSAL OF CONTAINER.

-ALL CONSTRUCTION MATERIALS STORED SHALL BE ORGANIZED AND IN THE PROPER CONTAINER AND IF POSSIBLE, STORED UNDER A ROOF OR PROTECTIVE COVER.

-PRODUCTS SHALL NOT BE MIXED UNLESS DIRECTED BY THE MANUFACTURER.

-ALL PRODUCTS SHALL BE USED AND DISPOSED OF ACCORDING TO THE MANUFACTURER'S RECOMMENDATIONS.

HAZARDOUS PRODUCTS

-MATERIALS SHOULD BE KEPT IN ORIGINAL CONTAINER WITH LABELS UNLESS THE ORIGINAL CONTAINERS CANNOT BE RESEALED. IF ORIGINAL CONTAINERS CANNOT BE USED, LABELS AND PRODUCT INFORMATION SHALL BE SAVED.

-PROPER DISPOSAL PRACTICES SHALL ALWAYS BE FOLLOWED IN ACCORDANCE WITH MANUFACTURER AND LOCAL/STATE REGULATIONS.

PRODUCT SPECIFIC PRACTICES

-PETROLEUM PRODUCTS MUST BE STORED IN PROPER CONTAINERS AND CLEARLY LABELED. VEHICLES CONTAINING PETROLEUM PRODUCTS SHALL BE PERIODICALLY INSPECTED FOR LEAKS. PRECAUTIONS SHALL BE TAKEN TO AVOID LEAKAGE OF PETROLEUM PRODUCTS ON SITE.

-THE MINIMUM AMOUNT OF FERTILIZER SHALL BE USED AND MIXED INTO THE SOIL IN ORDER TO LIMIT EXPOSURE TO STORM WATER. FERTILIZERS SHALL BE STORED IN A COVERED SHED. THE CONTENTS OF ANY PARTIALLY USED BAGS OF FERTILIZER SHALL BE TRANSFERRED TO A SEALABLE PLASTIC BIN TO AVOID SPILLS.

-PAINT CONTAINERS SHALL BE SEALED AND STORED WHEN NOT IN USE. EXCESS PAINT MUST BE DISPOSED OF IN AN APPROVED MANNER.

-CONCRETE TRUCKS SHALL NOT BE ALLOWED TO WASH OUT OR DISCHARGE SURPLUS CONCRETE OR DRUM WASH WATER ON THE SITE.

SPILL CONTROL PRACTICES

IN ADDITION TO THE GOOD HOUSEKEEPING AND MATERIAL MANAGEMENT PRACTICES DISCUSSED IN THE PREVIOUS SECTIONS OF THIS PLAN, THE FOLLOWING PRACTICES SHALL BE FOLLOWED FOR SPILL PREVENTION AND CLEANUP:

-SPILL CLEANUP INFORMATION SHALL BE POSTED ON SITE TO INFORM EMPLOYEES ABOUT CLEANUP PROCEDURES AND RESOURCES.

-THE FOLLOWING CLEAN-UP EQUIPMENT MUST BE KEPT ON-SITE NEAR THE MATERIAL STORAGE AREA: GLOVES, MOPS, RAGS, BROOMS, DUST PANS, SAND, SAWDUST, LIQUID ABSORBER, GOGGLES, AND TRASH CONTAINERS.

-ALL SPILLS SHALL BE CLEANED UP AS SOON AS POSSIBLE.

-WHEN CLEANING A SPILL, THE AREA SHOULD BE WELL VENTILATED AND THE EMPLOYEE SHALL WEAR PROPER PROTECTIVE COVERING TO PREVENT INJURY.

-TOXIC SPILLS MUST BE REPORTED TO THE PROPER AUTHORITY REGARDLESS OF THE SIZE OF THE SPILL.

-AFTER A SPILL, THE PREVENTION PLAN SHALL BE REVIEWED AND CHANGED TO PREVENT FURTHER SIMILAR SPILLS FROM OCCURRING. THE CAUSE OF THE SPILL, MEASURES TO PREVENT IT, AND HOW TO CLEAN THE SPILL UP SHALL BE RECORDED.

-THE SUPERINTENDENT SHALL BE THE SPILL PREVENTION AND CLEANUP COORDINATOR AND IS RESPONSIBLE FOR THE DAY TO DAY SITE OPERATIONS. THE SUPERINTENDENT ALSO OVERSEES THE SPILL PREVENTION PLAN AND SHALL BE RESPONSIBLE FOR EDUCATING THE EMPLOYEES ABOUT SPILL PREVENTION AND CLEANUP PROCEDURES.

MAINTENANCE AND INSPECTION PRACTICES

THE FOLLOWING ARE MAINTENANCE AND INSPECTION PRACTICES THAT SHALL BE COMPLETED BY THE CONTRACTOR:

-ALL SEDIMENT AND EROSION CONTROL METHODS SHALL BE CHECKED AT A MINIMUM OF EVERY 7 DAYS AND WITHIN 24 HOURS OF EACH 0.5 INCH OR GREATER RAINFALL BY THE SUPERINTENDENT OR SOMEONE UNDER HIS/HER DIRECT SUPERVISION.

-ALL SEDIMENT AND EROSION CONTROL METHODS SHALL BE KEPT IN GOOD CONDITION. REPAIRS MUST BE MADE WITHIN 24 HOURS OF REPORT.

-THE SILT FENCE SHALL BE INSPECTED AT A MINIMUM OF EVERY 7 DAYS AND WITHIN 24 HOURS OF A 0.5" OR GREATER RAIN EVENT FOR HEIGHT OF SEDIMENT AND CONDITION OF FENCE.

-THE SILT FENCE SHALL BE CLEARED OF SEDIMENT WHEN SEDIMENT MEASURES ONE-THIRD THE HEIGHT OF THE FENCE.

-THE SEDIMENT BASINS/DITCHES SHALL BE CHECKED AT A MINIMUM OF EVERY 7 DAYS AND WITHIN 24 HOURS OF A 0.5" OR GREATER RAIN EVENT FOR DEPTH OF SEDIMENT. THEY SHALL BE CLEANED WHEN SEDIMENT REACHES 10% OF TOTAL CAPACITY AND AFTER CONSTRUCTION IS COMPLETE.

-DIVERSION DIKES SHALL BE INSPECTED AT A MINIMUM OF EVERY 7 DAYS AND WITHIN 24 HOURS OF A 0.5" OR GREATER RAIN EVENT. ANY BREACHES SHALL BE PROMPTLY REPAIRED.

-ALL SEEDING SHALL BE CHECKED FOR PROPER GROWTH AND UNIFORMITY. UNSTABALIZED AREAS SHALL BE RE-SODDED.

-A MAINTENANCE REPORT SHALL BE COMPLETED DAILY AFTER EACH INSPECTION OF THE SEDIMENT AND EROSION CONTROL METHODS. THE REPORTS SHALL BE FILED IN AN ORGANIZED MANNER AND RETAINED ON-SITE DURING CONSTRUCTION. AFTER CONSTRUCTION IS COMPLETED, THE REPORTS SHALL BE SAVED FOR AT LEAST THREE YEARS. THE REPORTS SHALL BE AVAILABLE FOR ANY AGENCY THAT HAS JURISDICTION OVER EROSION CONTROL.

-THE SUPERINTENDENT SHALL ORGANIZE THE TRAINING FOR INSPECTION PROCEDURES AND PROPER EROSION CONTROL METHODS FOR EMPLOYEES THAT COMPLETE INSPECTIONS AND REPORTS.

POLLUTION PREVENTION PLAN CERTIFICATION

I CERTIFY UNDER PENALTY OF LAW THAT THIS DOCUMENT AND ALL ATTACHMENTS WERE PREPARED UNDER MY DIRECTION OR SUPERVISION IN ACCORDANCE WITH A SYSTEM DESIGNED TO ASSURE THAT QUALIFIED PERSONNEL PROPERLY GATHERED AND EVALUATED THE INFORMATION SUBMITTED. BASED ON MY INQUIRY OF THE PERSON OR PERSONS WHO MANAGE THE SYSTEM, OR THOSE PERSONS DIRECTLY RESPONSIBLE FOR GATHERING THE INFORMATION, THE INFORMATION SUBMITTED IS, TO THE BEST OF MY KNOWLEDGE AND BELIEF, TRUE, ACCURATE, AND COMPLETE. I AM AWARE THAT THERE ARE SIGNIFICANT PENALTIES FOR SUBMITTING FALSE INFORMATION, INCLUDING THE POSSIBILITY OF FINE AND IMPRISONMENT FOR KNOWING VIOLATIONS.

SIGNED: _____ DATE:_____

JOSHUA M. ENOT, P.E.
FLORIDA REGISTRATION NUMBER: 93160
PROFESSIONAL ENGINEER

CONTRACTOR'S CERTIFICATION

I CERTIFY UNDER PENALTY OF LAW THAT I UNDERSTAND, SHALL COMPLY WITH, THE TERMS AND CONDITIONS OF THE STATE OF FLORIDA GENERIC PERMIT FOR STORMWATER DISCHARGE FORM LARGE AND SMALL CONSTRUCTION ACTIVITIES AND THIS STORMWATER POLLUTION PREVENTION PLAN PREPARED THEREUNDER.

NOTES:

1. THE ENTRANCE SHALL BE MAINTAINED IN A CONDITION THAT WILL PREVENT TRACKING OR FLOWING OF SEDIMENT ONTO PUBLIC RIGHTS–OF–WAY. THIS MAY REQUIRE TOP DRESSING, REPAIR AND/OR CLEANOUT OF ANY MEASURES USED TO TRAP SEDIMENT.

2. WHEN NECESSARY, WHEELS SHALL BE CLEANED PRIOR TO ENTRANCE ONTO PUBLIC RIGHT–OF–WAY.

3. WHEN WASHING IS REQUIRED, IT SHALL BE DONE ON AN AREA STABILIZED WITH CRUSHED STONE THAT DRAINS INTO AN APPROVED SEDIMENT TRAP OR SEDIMENT BASIN.

NOTE:

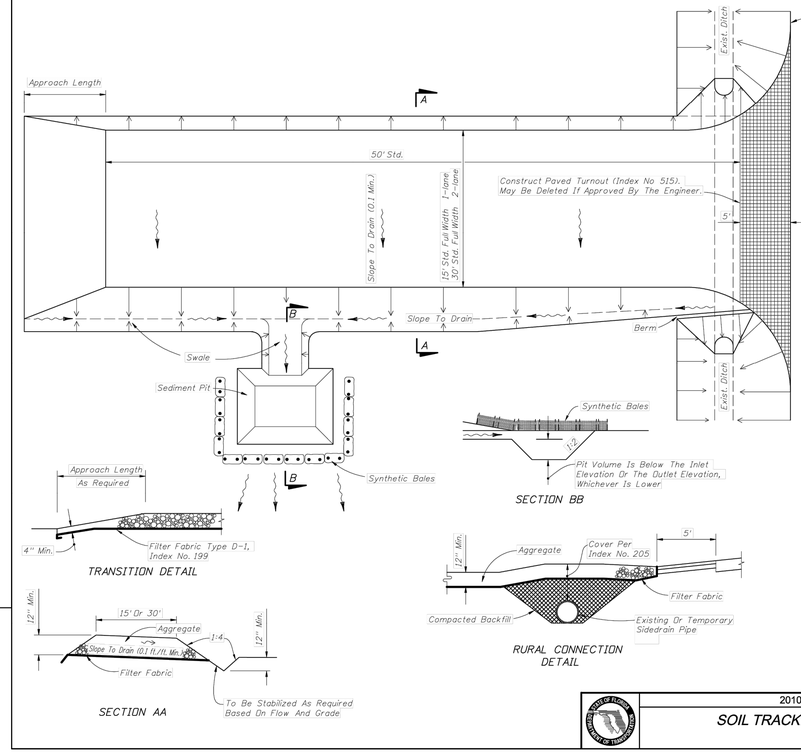
1. WASHOUT AREA TO CONTAIN A MINIMUM OF 3 CY (IE 9' BY 9' BY 1' DEEP).

2. REMOVE AND LEGALLY DISPOSE OF WASTE MATERIAL WHEN IT ACCUMULATES TO 2/3 OF WET STORAGE CAPACITY.

3. CONCRETE WASHOUT AREA TO BE REPAIRED AND/OR ENLARGED AS NECESSARY TO MAINTAIN CAPACITY.

4. UPON COMPLETION OF CONSTRUCTION ACTIVITIES REQUIRING CONCRETE WASHOUT, REMOVE WASHOUT AND RESTORE THE AREA TO FINISH GRADE.

CONCRETE TRUCK WASHOUT 5
N.T.S



GENERAL NOTES

1. A Soil Tracking Prevention Device (STPD) shall be constructed at locations designated by the engineer for points of egress from unstabilized areas of the project to public roads where off–site tracking of mud could occur. Traffic from unstabilized areas of the construction project shall be directed thru a STPD. Barriers, flagging, or other positive means shall be used as required to limit and direct vehicular egress across the STPD.
2. The Contractor may propose an alternative technique to minimize off–site tracking of sediment. The alternative must be reviewed and approved by the Engineer prior to its use.
3. All materials spilled, dropped, or tracked onto public roads (including the STPD aggregate and construction mud) shall be removed daily, or more frequently if so directed by the Engineer.
4. Aggregates shall be as described in Section 901 excluding 901–2.3. Aggregates shall be FDOT size #1. If this size is not available, the next available smaller size aggregate may be substituted with the approval of the Engineer. Sizes containing excessive small aggregate will track off the project and are unsuitable.
5. The sediment pit should provide a retention volume of 3600 cubic feet/acre of surface area draining to the pit. When the STPD is isolated from other drainage areas, the following pit volumes will satisfy this requirement:
   15'x 50'=100 ft.³ 30' x 50'=200 ft.³
   As an option to the sediment pit, the width of the swale bottom can be increased to obtain the volume. When the sediment pit or swale volume has been reduced to one half, it shall be cleaned. When a swale is used, synthetic bales or silt fence shall be placed along the entire length.
6. The swale ditch draining the STPD shall have a 0.02% minimum and a 1.0% maximum grade along the STPD and to the sediment pit.
7. Mitered end sections are not required when the sidedrain pipe satisfies the clear zone requirements.
8. The STPD shall be maintained in a condition that will allow it to perform its function. To prevent off–site tracking, the STPD shall be rinsed (daily when in use) to move accumulated mud downward thru the stone. Additional stabilization of the vehicular route leading to the STPD may be required to limit the mud tracked.
9. A STPD shall be paid for under the contract unit price for Soil Tracking Prevention Device, EA. The unit price shall constitute full compensation for construction, maintenance, replacement of materials, removal, and restoration of the area utilized for the STPD; including but not limited to excavation, grading, temporary pipe (including MES when required), filter fabric, aggregate, paved turnout (including asphalt and base construction), ditch stabilization, approach route stabilization, sediment removal and disposal, water, rinsing and cleaning of the STPD and cleaning of public roads, grassing and sod. Synthetic Bale or Bale Type Barrier shall be paid for under the contract unit price for Synthetic Bales, LF. Silt fence shall be paid for under the contract unit price for Staked Silt Fence, LF.
10. The nominal size of a standard STPD is 15'x 50' unless otherwise shown in the plans. If the volume of entering and existing vehicles warrant, a 30' width STPD may be used if approved by the Engineer. When a double width (30') STPD is used, the pay quantity shall be 2 for each location.

NOTES

1. CONTRACTOR TO COORDINATE WITH UTILITY COMPANY FOR DEMOLITION REQUIREMENTS OF ELECTRICAL SYSTEMS.
2. CONTRACTOR SHALL UTILIZE BEST MANAGEMENT PRACTICES AS NEEDED TO PREVENT SYSTEM POLLUTION, EROSION, AND MANAGEMENT OF OFF-SITE DRAINAGE DURING TIME OF CONSTRUCTION.
3. REFER TO SWPPP SHEET C2.0 FOR ADDITIONAL NOTES AND DETAILS.
4. INSTALL AND MAINTAIN SILT FENCE AT LIMITS OF CONSTRUCTION. WIRE MESH REINFORCED SILT FENCE SHALL BE USED AT ALL POINTS ALONG PROPERTY BOUNDARY WITH OFF-SITE STORMWATER FLOWS. SEE DETAIL SHEET C3.0. IN THE EVENT THAT ADDITIONAL STRENGTH IS NEEDED, FILTER FABRIC MATERIAL CAN BE ATTACHED TO A 6-INCH (MAX) MESH WIRE SCREEN WHICH HAS BEEN FASTENED TO THE POSTS.
5. PROVIDE SOIL TRACKING PREVENTION DEVICE AT ALL CONSTRUCTION ACCESS POINTS. SEE DETAIL SHEET C3.0.
6. UTILIZE PERFORATED SOCK DRAIN (OR EQUIVALENT) IN FRONT OF EXISTING/PROPOSED CURB INLETS ADJACENT TO CONSTRUCTION ACTIVITIES. SEE DETAIL SHEET C3.0.
7. INSTALL AND MAINTAIN FILTER FABRIC UNDER GRATES OF EXISTING/PROPOSED INLETS, SEE SHEET C3.0.
8. CONTRACTOR TO ENSURE ADEQUATE COVER REMAINS OVER ALL EXISTING UTILITIES.
9. CONTRACTOR TO VERIFY EXISTING COVER OVER ALL UTILITIES BEFORE START OF CONSTRUCTION AND TO COORDINATE WITH THE ENGINEER OF RECORD PRIOR TO START OF CONSTRUCTION IF DESIGN DOES NOT PROVIDE 36" COVER.
10. ANY EXISTING WELLS (I.E. ARTESIAN, IRRIGATION, DRINKING, MONITORING, ETC.) DISCOVERED ON-SITE MUST BE PLUGGED BY A LICENSED WELL DRILLING CONTRACTOR IN A MANNER APPROVED BY ALL APPLICABLE JURISDICTIONAL AGENCIES. CONTRACTOR SHALL BE RESPONSIBLE FOR OBTAINING ANY WELL ABANDONMENT PERMITS REQUIRED. ANY WELL DISCOVERED DURING EARTHWORK OR EXCAVATION SHALL BE REPORTED TO THE APPROPRIATE JURISDICTIONAL AGENCIES, OWNER, AND OWNER'S ENGINEER WITHIN 24 HOURS AFTER DISCOVERY IS MADE.
11. THERE MAY BE ON-SITE UNDERGROUND UTILITIES (INCLUDING BUT NOT LIMITED TO IRRIGATION, SANITARY SEWER, POTABLE WATER LINES, NATURAL GAS LINES, ELECTRIC, TELEPHONE AND CABLE LINES) THAT WERE NOT LOCATED OR IDENTIFIED BY THE PROJECT SURVEYOR. PRIOR TO CONSTRUCTION START, CONTRACTOR SHALL FIELD VERIFY ALL EXISTING ON-SITE UTILITIES AND RIGHT-OF-WAY UTILITIES.
12. IF ANY SEPTIC TANKS OR DRAIN FIELDS ARE FOUND, CONTRACTOR SHALL FOLLOW ALL LOCAL, STATE, AND FEDERAL CODE REQUIREMENTS FOR REMOVAL.
13. IF EXISTING UTILITIES ARE DISCOVERED THAT ARE NOT IDENTIFIED BY THE CONSTRUCTION DOCUMENTS, AND WILL BE IMPACTED BY CONSTRUCTION ACTIVITIES, THE CONTRACTOR SHALL NOTIFY THE ENGINEER IMMEDIATELY PRIOR TO PROCEEDING WITH CONSTRUCTION.
14. CONTRACTOR TO MAINTAIN EXISTING OFF-SITE AND ONSITE DRAINAGE PATTERNS THROUGHOUT CONSTRUCTION
15. LOCATIONS, ELEVATIONS, AND DIMENSIONS OF EXISTING UTILITIES, STRUCTURES AND OTHER FEATURES ARE SHOWN ACCORDING TO THE BEST INFORMATION AVAILABLE AT THE TIME OF PREPARATION OF THESE PLANS. THE EXISTING UTILITY INFORMATION SHOWN IS BASED ON THE TOPOGRAPHIC SURVEY PROVIDED BY LEADING EDGE LAND SERVICES, INC. THE CONTRACTOR SHALL VERIFY THE LOCATIONS, ELEVATIONS, AND DIMENSIONS OF ALL EXISTING UTILITIES, STRUCTURES AND OTHER FEATURES AFFECTING THIS AREA PRIOR TO CONSTRUCTION WORK.
16. ELEVATIONS SHOWN ON THIS PLAN ARE RELATIVE TO THE NORTH AMERICAN VERTICAL DATUM 88 (NAVD 88)
17. THERE MAY BE AN ON-SITE SEPTIC SYSTEM. CONTRACTOR IS TO FOLLOW ALL LOCAL, STATE, AND FEDERAL REGULATIONS FOR THE ABANDONMENT AND REMOVAL OF THE SEPTIC SYSTEM.
18. CONTRACTOR TO FOLLOW ALL LOCAL, STATE, AND FEDERAL CODE REQUIREMENTS FOR THE REMOVAL OF ANY SEPTIC TANKS AND/OR DRAIN FIELDS IF THEY ARE FOUND ON SITE AT THE TIME OF CONSTRUCTION.

Reuse of and improper reliance on this document without written authorization and adaptation by Kimley-Horn and Associates, Inc. shall be without liability to Kimley-Horn and Associates, Inc.

LEGEND

- EXISTING ASPHALT TO BE REMOVED
- EXISTING CONCRETE/CURB TO BE REMOVED
- GRAVEL TO BE REMOVED
- AREA TO BE CLEARED AND GRUBBED. EXISTING SITE FEATURES TO BE REMOVED OR DEMOLISHED UNLESS OTHERWISE NOTED. REFER TO THE LANDSCAPE PLAN FOR TREE REMOVAL AND PROTECTION
- PROPERTY LINE
- SAWCUT LINE
- SILT FENCE
- CENTER LINE
- EASEMENT / SETBACK LINE
- LOD — LIMITS OF DISTURBANCE
- INLET PROTECTION
- GEOTECH BORING
- EXISTING TREE TO BE PROTECTED
- EXISTING TREE TO BE REMOVED

NOTES

1. CONTRACTOR TO COORDINATE WITH UTILITY COMPANY FOR DEMOLITION REQUIREMENTS OF ELECTRICAL SYSTEMS.
2. CONTRACTOR SHALL UTILIZE BEST MANAGEMENT PRACTICES AS NEEDED TO PREVENT SYSTEM POLLUTION, EROSION, AND MANAGEMENT OF OFF-SITE DRAINAGE DURING TIME OF CONSTRUCTION.
3. REFER TO SWPPP SHEET C2.0 FOR ADDITIONAL NOTES AND DETAILS.
4. INSTALL AND MAINTAIN SILT FENCE AT LIMITS OF CONSTRUCTION. WIRE MESH REINFORCED SILT FENCE SHALL BE USED AT ALL POINTS ALONG PROPERTY BOUNDARY WITH OFF-SITE STORMWATER FLOWS. SEE DETAIL SHEET C3.0. IN THE EVENT THAT ADDITIONAL STRENGTH IS NEEDED, FILTER FABRIC MATERIAL CAN BE ATTACHED TO A 6-INCH (MAX) MESH WIRE SCREEN WHICH HAS BEEN FASTENED TO THE POSTS.
5. PROVIDE SOIL TRACKING PREVENTION DEVICE AT ALL CONSTRUCTION ACCESS POINTS. SEE DETAIL SHEET C3.0.
6. UTILIZE PERFORATED SOCK DRAIN (OR EQUIVALENT) IN FRONT OF EXISTING/PROPOSED CURB INLETS ADJACENT TO CONSTRUCTION ACTIVITIES. SEE DETAIL SHEET C3.0.
7. INSTALL AND MAINTAIN FILTER FABRIC UNDER GRATES OF EXISTING/PROPOSED INLETS, SEE SHEET C3.0.
8. CONTRACTOR TO ENSURE ADEQUATE COVER REMAINS OVER ALL EXISTING UTILITIES.
9. CONTRACTOR TO VERIFY EXISTING COVER OVER ALL UTILITIES BEFORE START OF CONSTRUCTION AND TO COORDINATE WITH THE ENGINEER OF RECORD PRIOR TO START OF CONSTRUCTION IF DESIGN DOES NOT PROVIDE 36" COVER.
10. ANY EXISTING WELLS (I.E. ARTESIAN, IRRIGATION, DRINKING, MONITORING, ETC.) DISCOVERED ON-SITE MUST BE PLUGGED BY A LICENSED WELL DRILLING CONTRACTOR IN A MANNER APPROVED BY ALL APPLICABLE JURISDICTIONAL AGENCIES. CONTRACTOR SHALL BE RESPONSIBLE FOR OBTAINING ANY WELL ABANDONMENT PERMITS REQUIRED. ANY WELL DISCOVERED DURING EARTHWORK OR EXCAVATION SHALL BE REPORTED TO THE APPROPRIATE JURISDICTIONAL AGENCIES, OWNER, AND OWNER'S ENGINEER WITHIN 24 HOURS AFTER DISCOVERY IS MADE.
11. THERE MAY BE ON-SITE UNDERGROUND UTILITIES (INCLUDING BUT NOT LIMITED TO IRRIGATION, SANITARY SEWER, POTABLE WATER LINES, NATURAL GAS LINES, ELECTRIC, TELEPHONE AND CABLE LINES) THAT WERE NOT LOCATED OR IDENTIFIED BY THE PROJECT SURVEYOR. PRIOR TO CONSTRUCTION START, CONTRACTOR SHALL FIELD VERIFY ALL EXISTING ON-SITE UTILITIES AND RIGHT-OF-WAY UTILITIES.
12. IF ANY SEPTIC TANKS OR DRAIN FIELDS ARE FOUND, CONTRACTOR SHALL FOLLOW ALL LOCAL, STATE, AND FEDERAL CODE REQUIREMENTS FOR REMOVAL.
13. IF EXISTING UTILITIES ARE DISCOVERED THAT ARE NOT IDENTIFIED BY THE CONSTRUCTION DOCUMENTS, AND WILL BE IMPACTED BY CONSTRUCTION ACTIVITIES, THE CONTRACTOR SHALL NOTIFY THE ENGINEER IMMEDIATELY PRIOR TO PROCEEDING WITH CONSTRUCTION.
14. CONTRACTOR TO MAINTAIN EXISTING OFF-SITE AND ONSITE DRAINAGE PATTERNS THROUGHOUT CONSTRUCTION
15. LOCATIONS, ELEVATIONS, AND DIMENSIONS OF EXISTING UTILITIES, STRUCTURES AND OTHER FEATURES ARE SHOWN ACCORDING TO THE BEST INFORMATION AVAILABLE AT THE TIME OF PREPARATION OF THESE PLANS. THE EXISTING UTILITY INFORMATION SHOWN IS BASED ON THE TOPOGRAPHIC SURVEY PROVIDED BY LEADING EDGE LAND SERVICES, INC. THE CONTRACTOR SHALL VERIFY THE LOCATIONS, ELEVATIONS, AND DIMENSIONS OF ALL EXISTING UTILITIES, STRUCTURES AND OTHER FEATURES AFFECTING THIS AREA PRIOR TO CONSTRUCTION WORK.
16. ELEVATIONS SHOWN ON THIS PLAN ARE RELATIVE TO THE NORTH AMERICAN VERTICAL DATUM 88 (NAVD 88)
17. THERE MAY BE AN ON-SITE SEPTIC SYSTEM. CONTRACTOR IS TO FOLLOW ALL LOCAL, STATE, AND FEDERAL REGULATIONS FOR THE ABANDONMENT AND REMOVAL OF THE SEPTIC SYSTEM.
18. CONTRACTOR TO FOLLOW ALL LOCAL, STATE, AND FEDERAL CODE REQUIREMENTS FOR THE REMOVAL OF ANY SEPTIC TANKS AND/OR DRAIN FIELDS IF THEY ARE FOUND ON SITE AT THE TIME OF CONSTRUCTION.

- LANDSCAPE/SOD AREA
- PROPOSED DIRECTION OF STORMWATER RUNOFF

GENERAL NOTES:

1: ALL EXISTING STRUCTURES, UNLESS OTHERWISE NOTED TO REMAIN, FENCING, TREES, ETC WITHIN CONSTRUCTION AREA SHALL BE REMOVED AND DISPOSED OFF SITE. ANY BURNING ON SITE SHALL BE SUBJECT TO LOCAL ORDINANCES. SEE SPECIFICATIONS.
2: ALL DRAINAGE STRUCTURES SHALL BE PRE-CAST.
3: ALL DRAINAGE STRUCTURES AND STORM SEWER PIPES SHALL MEET HEAVY DUTY TRAFFIC (H20) LOADING AND BE INSTALLED ACCORDINGLY.
4: GENERAL CONTRACTOR SHALL NOTIFY ALL UTILITY COMPANIES HAVING UNDERGROUND UTILITIES ON SITE OR IN RIGHT-OF-WAY PRIOR TO EXCAVATION. CONTRACTOR SHALL CONTACT UTILITY LOCATING COMPANY AND LOCATE ALL UTILITIES PRIOR TO GRADING START.
5: SITE GRADING SHALL NOT PROCEED UNTIL EROSION CONTROL MEASURES HAVE BEEN INSTALLED, INSPECTED AND APPROVED BY LOCAL AUTHORITIES.
6: ALL CUT OR FILL SLOPES SHALL BE 3:1 OR FLATTER UNLESS OTHERWISE NOTED OR PER JURISDICTIONAL REQUIREMENTS.
7: EXISTING DRAINAGE STRUCTURES TO BE INSPECTED AND REPAIRED AS NEEDED, AND EXISTING PIPES ARE TO BE CLEANED OUT TO REMOVE ALL SILT AND DEBRIS.
8: IF ANY EXISTING STRUCTURES TO REMAIN ARE DAMAGED DURING CONSTRUCTION, IT SHALL BE THE CONTRACTORS RESPONSIBILITY TO REPAIR OR REPLACE THE EXISTING STRUCTURE AS NECESSARY.
9: ALL STORM PIPE ENTERING STRUCTURES SHALL BE GROUTED TO ASSURE CONNECTION AND STRUCTURE IS WATER TIGHT.
10: ALL ROOF DRAINS SHALL BE CONNECTED TO THE STORM SYSTEM. IN AREAS NOT SUBJECT TO FREEZING, ROOF DRAINS CAN SPASH ON GRADE AND BE COLLECTED IN INLETS OR TREATED AS SURFACE RUNOFF.
11: CONTRACTOR IS TO ADJUST AND/OR CUT EXISTING PAVEMENT AS NECESSARY TO ASSURE A SMOOTH FIT AND CONTINUOUS GRADE.
12: CONTRACTOR SHALL ASSURE POSITIVE DRAINAGE AWAY FROM BUILDINGS AND STRUCTURES FOR ALL GRASSED AND PAVED AREAS.
13: TOPOGRAPHIC INFORMATION TAKEN FROM: LEADING EDGE LAND SERVICES, INC. ON JANUARY 31, 2023.
14: CONSTRUCTION SHALL COMPLY WITH ALL APPLICABLE GOVERNING CODES AND BE CONSTRUCTED TO THE SAME.
15: CONTRACTOR IS RESPONSIBLE FOR TEMPORARY ACCESS ROADS, MAINTAIN POSITIVE DRAINAGE THROUGHOUT CONSTRUCTION AND AVOID PONDING OR RUTTING.
16: DETENTION POND OUTFLOW DEVICES SHALL BE DESIGNATED TO LIMIT FLOWS TO CAPACITY LEVELS OF DOWNSTREAM DRAINAGE STRUCTURES.
17: DEVIATIONS FROM RECOMMENDED PARKING LOT SLOPES SHALL BE APPROVED BY FLOOR & DECOR CONSTRUCTION AND DESIGN.
18: CONTRACTOR TO PROVIDE FLOOR & DECOR CONSTRUCTION AND DESIGN, AND LOCAL AUTHORITY WITH AS-BUILT DRAWINGS. SEE REQUIREMENTS IN THIS SHEET.
19: CONTRACTOR TO VERIFY T.A.S./A.D.A. COMPLIANCE PRIOR TO POURING CONCRETE. FOR ANY QUESTIONS, CONTACT CIVIL ENGINEER IMMEDIATELY.
20: GRADES IN ALL ACCESSIBLE ROUTES, INCLUDING DRIVEWAY CROSSINGS, SHALL CONFORM TO ALL APPLICABLE A.D.A. AND T.A.S. STANDARDS: MAXIMUM RUNNING SLOPE FOR ALL PATHS IS 5%, MAX CROSS SLOPE FOR ALL PATHS IS 2%, FOR THE FIRST FIVE FEET FROM THE DOOR, A 2% SLOPE IN ALL DIRECTIONS (MAX) MUST BE MAINTAINED.
21: IN GENERAL, THE MAXIMUM RUNNING SLOPE SHALL NOT EXCEED 5%, THE MINIMUM SLOPE SHALL NOT BE INFERIOR THAN 1.5% AND THE PREFERRED SLOPE SHALL BE 2.5%.
22: REFER TO LANDSCAPE ARCHITECT PLANS FOR LANDSCAPE/HARDSCAPE DETAILS.
23: CONTRACTOR TO VERIFY ENGINEERING PLANS MATCH ARCHITECTURAL/STRUCTURAL PLANS PRIOR TO CONSTRUCTION STAKING.
24: LANDSCAPE AREAS ADJACENT TO BUILDING TO DRAIN AWAY FROM BUILDING AT A MINIMUM OF 2% SLOPE.
25: AFTER PLACEMENT OF SUBGRADE AND PRIOR TO PLACEMENT OF PAVEMENT, CONTRACTOR SHALL TEST AND OBSERVE PAVEMENT AREAS FOR EVIDENCE OF PONDING, ALL AREAS SHALL ADEQUATELY DRAIN TOWARDS THE INTENDED STRUCTURE TO CONVEY STORM RUNOFF, CONTRACTOR SHALL IMMEDIATELY NOTIFY OWNER AND ENGINEER IF ANY DISCREPANCIES ARE DISCOVERED.
26: CONCRETE VALLEY GUTTER SHALL BE CONSTRUCTED IF ASPHALT PAVEMENT IS USED. REFER TO CONSTRUCTION DETAILS
27: FOR STORM SEWER PIPE PROFILES REFER TO DETAIL ON SHEET C7.0 FOR MORE INFORMATION.
28: SEE PIPE PROFILES SHEET FOR INVERT ELEVATIONS (TYPICAL).
29: SEE SHEET C3.0 FOR APPROXIMATE LOCATION OF EXISTING UTILITIES.
30: ALL THE ELEVATIONS SHOWN ARE FINISHED GRADE ELEVATIONS. CONTRACTOR TO SUBTRACT PAVEMENT THICKNESS AND FLOOR SLAB THICKNESS FOR SUBGRADE ELEVATIONS.
31: CONTRACTOR SHALL REFER TO ARCHITECTURAL AND PLUMBING PLANS FOR EXACT LOCATIONS AND DIMENSIONS OF ALL VESTIBULES/ENTRIES, SIDEWALKS, EXIT PORCHES, RAMPS, TRUCK DOCKS, PRECISE BUILDING DIMENSIONS AND EXACT UTILITY ENTRANCE LOCATIONS.
32: TERMITE SPRAY IF NEEDED IS TO BE PROVIDED FOR FOUNDATION BY FOUNDATION CONTRACTOR.
33: SITE PREPARATION TO BE PROVIDED BY CONTRACTOR TO INCLUDE:
A. PROTECTING EXISTING VEGETATION TO REMAIN.
B. REMOVING EXISTING VEGETATION.
C. CLEARING AND GRUBBING.
D. STRIPPING AND STOCKPILING TOPSOIL
E. REMOVING ABOVE-AND BELOW-GRADE SITE IMPROVEMENTS.
F. DISCONNECTING, CAPPING OR SEALING SITE UTILITIES.
G. TEMPORARY EROSION AND SEDIMENTATION CONTROL,

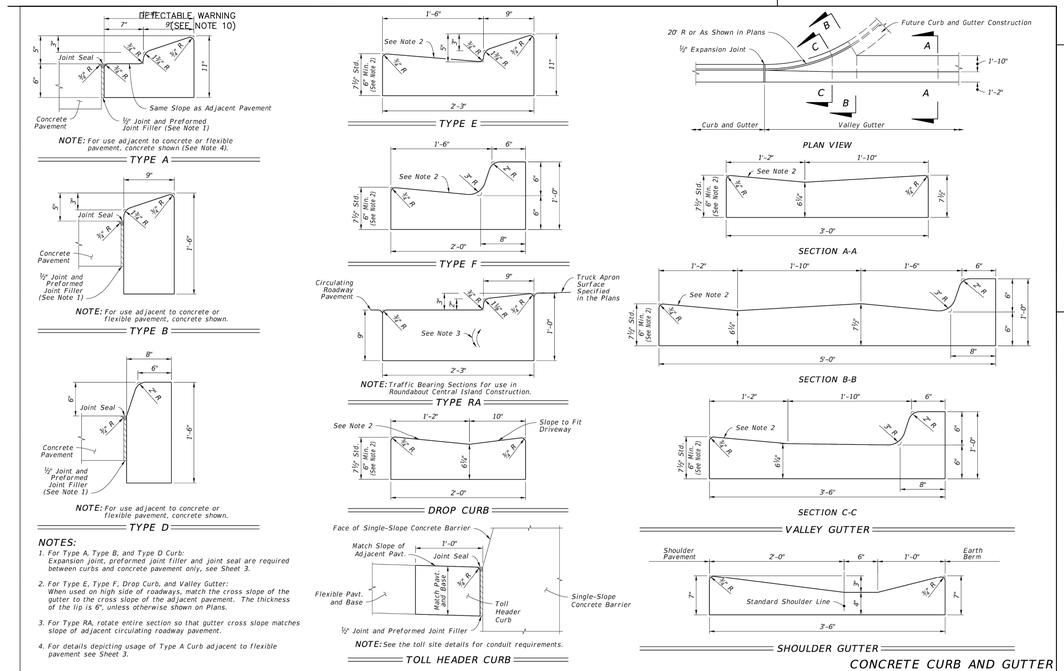
MINIMUM DIMENSION		
RAMP LOCATION	A	B
AT OUTSWING DOOR	44"	60"
AT INSWING/SLIDING DOOR	44"	48"
NO DOORWAY	36"	36"

NOTES:

1. ALL CURB CUT ACCESSIBLE RAMPS AND DETECTABLE WARNING SURFACES SHALL BE INSTALLED BY THE SITE CONTRACTOR.
2. THE STANDARD COLOR FOR THE DETECTABLE WARNING SURFACE SHALL BE YELLOW. ANY TYPE OF ADHESIVE OR GLUE DOWN MATS; STAMPED CONCRETE OR ANY VARIATION OTHER THAN WHAT IS SPECIFIED ABOVE WILL NOT BE ACCEPTED BY ORANGE COUNTY. ORANGE COUNTY WILL CONSIDER ALTERNATIVES THAT ARE EQUAL TO THE PRODUCTS SPECIFIED ABOVE. COUNTY ENGINEER AND THE CHIEF ENGINEER FOR DEVELOPMENT SERVICES WILL HAVE THE SOLE RESPONSIBILITY FOR DETERMING THE PRODUCT ACCEPTABILITY.
3. ALL DETECTABLE WARNING SURFACES FOR SIDEWALKS AT CURB CUT HANDICAP RAMP SHALL BE A COUNTY APPROVED YELLOW COLORED COMPOSITE MATERIAL ANCHORED IN THE CONCRETE SIDEWALK RAMP. ANCHORED COMPOSITE WARNING AREA INSERTS ARE TO BE COLORED "SAFETY YELLOW", ARE TO BE SET INTO THE CONCRETE AND ARE TO BE FLUSH WITH CONCRETE SURFACE ALONG ALL FOUR SIDES. DESIGN DIMENSIONS OF DETECTABLE WARNING AREA SHALL CONFORM TO FDOT STANDARD INDEX 204, CODE OF FEDERAL REGULATIONS PART 36, AND SJC REQUIREMENTS.

ACCESSIBLE RAMPS

N.T.S



NOTES:

1. For Type A, Type B, and Type D Curb: Expansion joint, preformed joint filler and joint seal are required between curbs and concrete pavement only, see Sheet 3.
2. For Type E, Type F, Drop Curb, and Valley Gutter: When used on high side of roadways, match the cross slope of the gutter to the cross slope of the adjacent pavement. The thickness of the lip is 6", unless otherwise shown on Plans.
3. For Type RA, rotate entire section so that gutter cross slope matches slope of adjacent circulating roadway pavement.
4. For details depicting usage of Type A Curb adjacent to flexible pavement see Sheet 3.

NOTE: See the toll site details for conduit requirements.

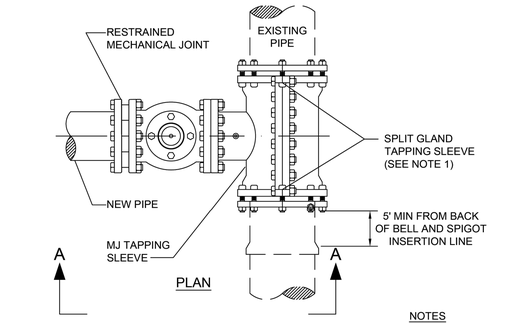
NOTES:

1. FIRE HYDRANT SHALL BE SUPPLIED WITHOUT A WEEP HOLE, OR WITH A PERMANENTLY PLUGGED WEEP HOLE.
2. THE SHEAR PAD SHALL BE RECESSED SIX (6) INCHES BELOW THE FINISHED GRADE AND THE RECESSED SECTION SODDED.
3. CLEARANCE BETWEEN BOTTOM OF BOLTS AND TOP OF SHEAR PAD SHALL BE A TWELVE (12) INCH MINIMUM.
4. FIRE HYDRANTS SHALL BE IDENTIFIED IN ACCORDANCE WITH THE CITY OF APOPKA UTILITIES DESIGN CONSTRUCTION STANDARDS MANUAL.

FIRE HYDRANT ASSEMBLY DETAIL

CITY OF APOPKA DESIGN ENGINEERING DIVISION	JANUARY 2014	FIG. 402

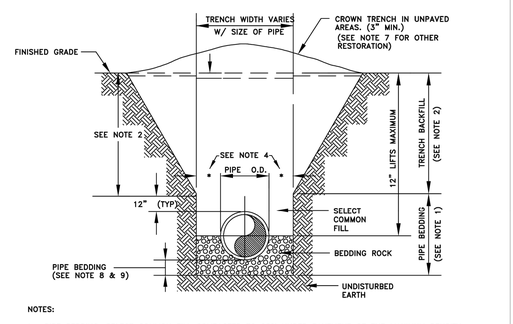


NOTES

1. SIZE ON SIZE WET TAPS WILL CALL FOR FULL ENCIRCLEMENT STAINLESS STEEL MJ TAPPING SLEEVE; MUELLER H-304, OR EQUAL.
2. ALL NEWLY INSTALLED TAPPING SLEEVES & TAPPING VALVES SHALL BE PNEUMATICALLY TESTED AT A TEST PRESSURE OF 150PSI FOR A PERIOD OF THIRTY MINUTES.

WATER AND RECLAIMED WATER MAINS WET TAP TIE-IN DETAIL

CITY OF APOPKA DESIGN ENGINEERING DIVISION	JANUARY 2014	FIG. 406

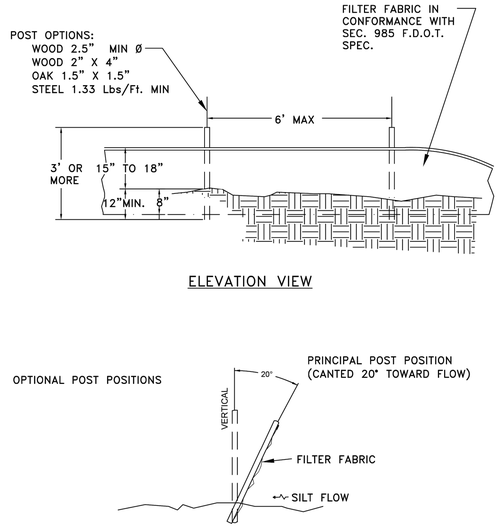


NOTES:

1. PIPE BEDDING: SELECT COMMON FILL COMPACTED TO 98% UNDER PAVEMENT OF THE MAXIMUM DENSITY AS PER AASHTO T-180.
2. TRENCH BACKFILL: COMMON FILL COMPACTED TO 98% UNDER PAVEMENT OF THE MAXIMUM DENSITY AS PER AASHTO T-180.
3. USE OF TYPE A BEDDING TO BE DETERMINED IN THE FIELD AS DIRECTED BY THE CITY.
4. (*): 15" MAX. FOR PIPE DIAMETER LESS THAN 24", AND 24" MAX. FOR PIPE DIAMETER 24" AND LARGER.
5. WATER SHALL NOT BE PERMITTED IN THE TRENCH DURING CONSTRUCTION.
6. ALL PIPE TO BE INSTALLED WITH BELL FACING UPSTREAM TO THE DIRECTION OF THE FLOW.
7. GRAVITY SEWERS SHALL UTILIZE TYPE A BEDDING IF REQUIRED BY THE CITY. BEDDING DEPTH SHALL BE 4" MINIMUM FOR PIPE DIAMETER LESS THAN 15" AND 6" MINIMUM FOR PIPE DIAMETER 16" AND LARGER.
8. DEPTH FOR REMOVAL OF UNSUITABLE MATERIAL SHALL GOVERN DEPTH OF BEDDING ROCK BELOW THE PIPE. THE CITY SHALL DETERMINE IN THE FIELD IF REMOVAL OF UNSUITABLE MATERIAL IS REQUIRED TO REACH A SUITABLE FOUNDATION.
9. ALL UNPAVED DISTURBED AREAS SHALL BE SODDED TO MATCH ADJACENT DOMINATE GRASS SPECIES.
10. FINAL RESTORATION IN IMPROVED AREAS SHALL BE IN COMPLIANCE WITH ALL APPLICABLE REGULATIONS OF THE GOVERNING AGENCIES. SURFACE RESTORATION WITHIN CITY RIGHT-OF-WAY, SHALL COMPLY WITH REQUIREMENTS OF RIGHT-OF-WAY UTILIZATION REGULATIONS.

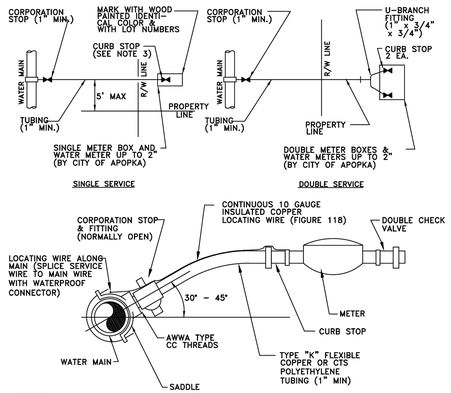
TYPE "A" BEDDING AND OPEN-CUT DETAIL

CITY OF APOPKA DESIGN ENGINEERING DIVISION	JANUARY 2014	FIG. 101



SILT FENCE INSTALLATION

CITY OF APOPKA DESIGN ENGINEERING DIVISION	JANUARY 2014	FIG. 602

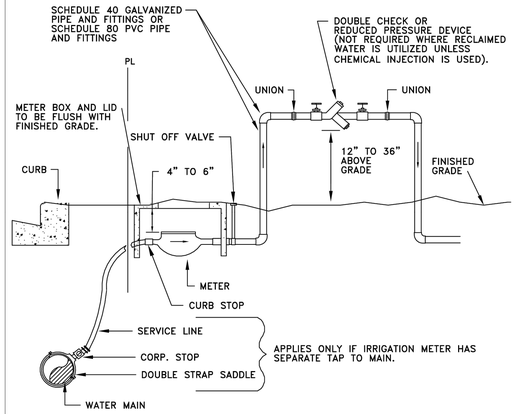


NOTES:

1. ALL FITTINGS SHALL BE BRASS WITH COMPRESSION/PACK JOINT TYPE CONNECTIONS.
2. NO SERVICE LINE SHALL TERMINATE UNDER A DRIVEWAY.
3. EACH SERVICE SHALL TERMINATE AT A CURB STOP(S) WHICH SHALL BE BURIED APPROXIMATELY 3" BELOW FINAL GRADE AND SHALL BE CLEARLY MARKED WITH A 2" x 2" x 18" STAKE WITH THE TOP PAINTED BLUE FOR POTABLE WATER AND PURPLE FOR RECLAIMED WATER, AND MARKED WITH THE NUMBER OF THE LOT(S) TO BE SERVED.
4. RECLAIMED WATER SERVICES SHALL USE PURPLE COLORED CTS POLYETHYLENE TUBING.
5. POTABLE WATER SERVICES SHALL USE BLUE COLORED CTS POLYETHYLENE TUBING.
6. ALL SERVICE UNDER EXISTING OR PROPOSED PAVEMENT SHALL BE INSTALLED IN A MINIMUM 2" PVC SLEEVE.

WATER SERVICE CONNECTION DETAIL

CITY OF APOPKA DESIGN ENGINEERING DIVISION	JANUARY 2014	FIG. 405



NOTES:

1. A POSITIVE DIELECTRIC CONNECTION SHALL BE MADE BETWEEN ALL GALVANIZED AND BRASS COMPONENTS.
2. METER SHALL BE INSTALLED JUST INSIDE THE ROW LINE OR PROPERTY LINE AND IN NO CASE SHALL IT BE INSTALLED IN THE SIDEWALK OR OTHER PAVED AREAS.
3. DOUBLE CHECK VALVES MAY BE USED AS LONG AS THEIR ARE NO CHEMICALS OR A WELL ON SITE.
4. A PVB DEVICE SHALL BE 12-INCHES MINIMUM ABOVE HIGHEST OUTLET OR SPRAYHEAD
5. ALL BACKFLOW PREVENTION DEVICES ARE TO BE AWWA APPROVED.

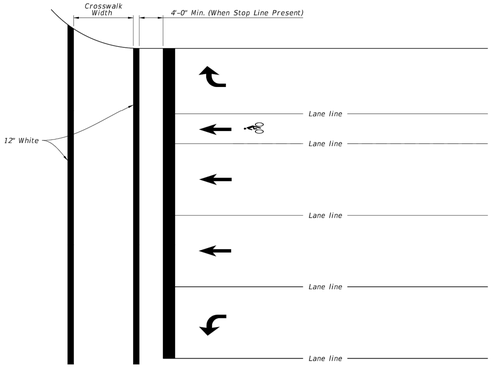
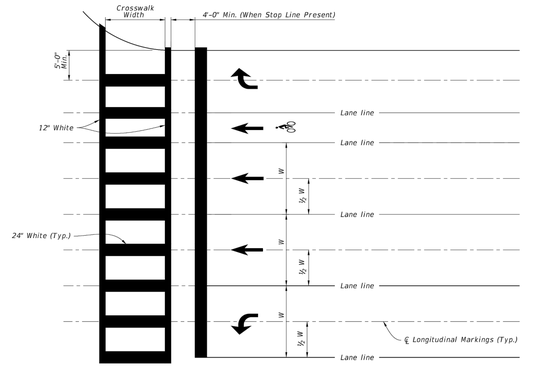
FY 2019-20 STANDARD PLANS

PAVEMENT MARKINGS

INDEX	SHEET
711-001	2 of 13



STANDARD CROSSWALK DETAILS



SPECIAL EMPHASIS CROSSWALK DETAILS

NOTES:

1. For crosswalk width, exceed width of the adjacent sidewalk, but do not make width less than 6' for intersection crosswalks and 10' for midblock crosswalks. Measure width from the inside of the transverse crosswalk markings.
2. When the Special Emphasis Crosswalk is not perpendicular to the lane lines, make the longitudinal markings parallel to the lane lines.
3. Refer to Index 522-002 when Curb Ramps are present.

LAST REVISION	DESCRIPTION:

Drawing Not To Scale

SLOPE INSTALLATION DETAIL

1. Prepare soil before installing rolled erosion control products (RECPs), including any necessary application of lime, fertilizer, and seed.
2. Begin at the top of the slope by anchoring the RECPs in a 6"(15cm) deep X 6"(15cm) wide trench with approximately 12" (30cm) of RECPs extended beyond the up-slope portion of the trench. Anchor the RECPs with a row of staples/stakes approximately 12" (30cm) apart in the bottom of the trench. Backfill and compact the trench after stapling. Apply seed to the compacted soil and fold the remaining 12"(30cm) portion of RECPs back over the seed and compacted soil. Secure RECPs over compacted soil with a row of staples/stakes spaced approximately 12"(30cm) apart across the width of the RECPs.
3. Roll the RECPs (A) down or (B) horizontally across the slope. RECPs will unroll with appropriate side against the soil surface. All RECPs must be securely fastened to soil surface by placing staples/stakes in appropriate locations as shown in the staple pattern guide.
4. The edges of parallel RECPs must be stapled with approximately 2" - 5" (5-12.5cm) overlap depending on the RECPs type.
5. Consecutive RECPs spliced down the slope must be end over end (Shingle style) with an approximate 3"(7.5cm) overlap. Staple through overlapped area, approximately 12"(30cm) apart across entire RECPs width.

*NOTE:
In loose soil conditions, the use of staple or stake lengths greater than 6"(15cm) may be necessary to properly secure the RECP's.

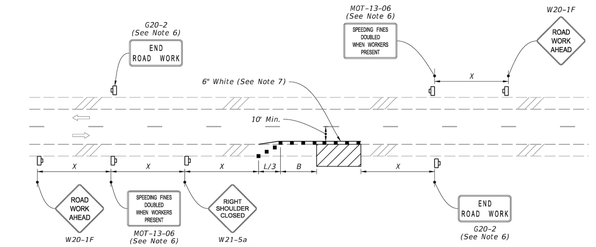
9/10/2024 10:45:37 AM

NOTE:

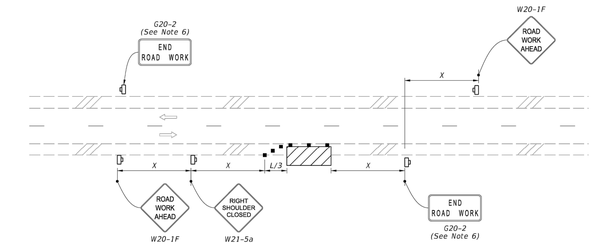
1. This Index applies to Two-Lane, Two-Way and Multilane Roadways, including Medians of divided roadways, with work on the shoulder.
2. L = Taper Length
   X = Work Zone Sign Spacing
   B = Buffer Length
   See Index 102-600 for "L", "X", "B", and channelizing device spacing values.
3. Where work activities are between 2' and 15' from the edge of traveled way, the Engineer may omit signs and channelizing devices for work operations 60 minutes or less.
4. When four or more work vehicles enter the through traffic lanes in a one hour period (excluding establishing and terminating the work area), use a flagger or lane closure to accommodate work vehicle ingress and egress.
5. For work less than 2' from the traveled way and work zone speed is greater than 45 MPH, use a lane closure.
6. The "Speeding Fines Doubled When Workers Present" signs (MOT-13-06) and "End Road Work" Signs (G20-2) along with the associated work zone sign spacing distances may be omitted when the work operation is in place for 24 hours or less.
7. Temporary pavement markings may be omitted when the work operation is in place for 3 days or less.
8. Omit "Shoulder Closed" signs (W21-5a) along with associated work zone sign spacing distances for work on the median.
9. When there is no paved shoulder, the "Worker" sign (W21-1) may be used instead of the "Shoulder Closed" sign (W21-5a).

SYMBOLS:

- Work Area
- Channelizing Device (See Index 102-600)
- Work Zone Sign
- Lane Identification and Direction of Traffic



TWO-LANE ROADWAY
SHOULDER WORK LESS THAN 2' FROM THE TRAVELED WAY
WITH WORK ZONE SPEED OF 45 MPH OR LESS



TWO-LANE ROADWAY
SHOULDER WORK BETWEEN 2' AND 15' FROM THE TRAVELED WAY

LAST REVISION	DESCRIPTION:	FDOT FY 2025-26 STANDARD PLANS	TWO-LANE AND MULTILANE, WORK ON SHOULDER	INDEX	SHEET
11/01/21	REVISION			102-602	1 of 2

9/10/2024 10:46:28 AM

NOTES:

1. This Index applies to Two-Lane, Two-Way Roadways with work within the traveled way.
2. L = Taper Length
   B = Buffer Length
   X = Work Zone Sign Spacing
   See Index 102-600 for "L", "B", "X" and channelizing device spacing values.
3. Optionally, use "Flagger Ahead" sign with symbol (W20-7) instead of "Flagger Ahead" sign with text (W20-7A).
4. Use temporary raised rumble strips when the existing posted speed is 55 mph or greater and the work duration is greater than 60 minutes. If temporary raised rumble strips are not used, omit "Rumble Strips Ahead" signs (MOT-18-10) and associated work zone sign spacing.
5. Additional one-way control may be provided by the following means:
   a. Flag-carrying vehicle
   b. Official vehicle
   c. Pilot vehicles
   d. Traffic signals

   When flaggers are the sole means of one-way control, the flaggers must be in sight of each other or in direct communication at all times.
6. The "Speeding Fines Doubled When Workers Present" signs (MOT-13-06) and "End Road Work" signs (G20-2), along with associated work zone sign spacing, may be omitted when the work operation will be in place for 24 hours or less.
7. Automated Flagger Assistance Devices (AFADs) may be used in accordance with Specification Sections 102, 990 and the APL vendor drawings.
8. Railroad Crossings:
   a. If an active railroad crossing is located closer to the Work Area than the queue length plus 300 feet, extend the Buffer Space as shown on Sheet 2.
   b. If the queuing of vehicles across an active railroad crossing cannot be avoided, provide a uniformed traffic control officer or flagger at the highway-rail grade crossing to prevent vehicles from stopping within the highway-rail grade crossing, even if automatic train warning devices are in place.

   WORKING PRESSURE:_____150_____P.S.I.** ** FM = 100 P.S.I. /
   SOIL DESIGNATION:_SM(SAND& SILT)_____ WM OR RWM = 150 P.S.I.
   LAYING CONDITIONS:_____3_____
6. FOR PIPE ENCASED IN POLYETHYLENE INCREASE THE GIVEN VALUE BY A FACTOR OF 1.5.
7. VALUES NOT LISTED IN THE TABLE TO BE COMPLETED BY THE ENGINEER.

RESTRAINED PIPE TABLE (PVC)

CITY OF APOPKA DESIGN ENGINEERING DIVISION	JANUARY 2014	FIG. 105

MINIMUM LENGTH (FT) TO BE RESTRAINED ON EACH SIDE OF FITTING(S). *											
	PIPE SIZE										
	6"	8"	10"	12"	16"	18"	20"	24"	30"	36"	48"
90° BEND					61	67	73	84	100	114	
45° BEND					26	28	31	35	42	48	
22-1/2° BEND					13	14	15	17	20	23	
11-1/4° BEND					6	7	8	9	10	12	
TEE**					52	62	74	95	124	152	
REDUCER (ONE SIZE SMALLER)					48	25	25	47	66	66	
DEAD END					111	123	135	157	188	218	

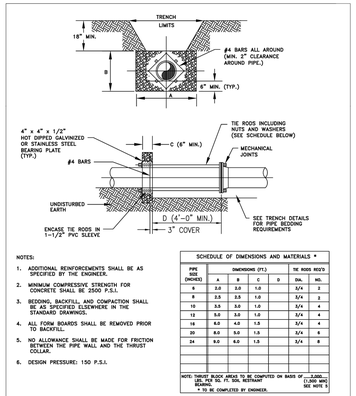
* ONLY RESTRAIN BRANCH PIPE FOR TEES. ONLY RESTRAIN LARGER PIPE FOR REDUCERS
** LENGTH ALONG RUN ASSUMED TO BE 18'

NOTES:

1. FITTINGS SHALL BE RESTRAINED JOINT TYPE. FM FITTINGS TO BE LINED WITH PROTECTO 401.
2. INSTALL FULL LENGTHS OF PIPE WITH TOTAL LENGTH CONTAINING ONLY RESTRAINED JOINTS EQUAL TO OR GREATER THAN LENGTH SHOWN IN TABLE.
3. WHERE TWO OR MORE FITTINGS ARE TOGETHER, USE FITTING WHICH YIELDS GREATEST LENGTH OF RESTRAINED PIPE.
4. IN LINE VALVES AND THROUGH RUN OF TEES OUTSIDE LIMITS OF RESTRAINED JOINTS FROM OTHER FITTINGS NEED NOT BE RESTRAINED UNLESS OTHERWISE INDICATED.
5. LENGTHS SHOWN IN THE TABLE HAVE BEEN CALCULATED IN ACCORDANCE WITH THE PROCEDURE OUTLINED IN "THRUST RESTRAINT DESIGN FOR DUCTILE IRON PIPE" AS PUBLISHED BY DIPRA, WITH THE FOLLOWING ASSUMPTIONS:
   TYPE OF PIPE:_____
   WORKING PRESSURE:_____150_____P.S.I.** ** FM = 100 P.S.I. /
   SOIL DESIGNATION:_____SM(SAND& SILT)_____ WM OR RWM = 150 P.S.I.
   LAYING CONDITIONS:_____3_____
6. VALUES NOT LISTED IN THE TABLE TO BE COMPLETED BY THE ENGINEER.

RESTRAINED PIPE TABLE (DI)

CITY OF APOPKA DESIGN ENGINEERING DIVISION	JAUARY 2014	FIG. 106



NOTES:

1. ADDITIONAL REINFORCEMENTS SHALL BE AS SPECIFIED BY THE ENGINEER.
2. MINIMUM COMPRESSIVE STRENGTH FOR CONCRETE SHALL BE 2500 P.S.I.
3. BEDDING, BACKFILL, AND COMPACTION SHALL BE AS SPECIFIED ELSEWHERE IN THE STANDARD DRAWINGS.
4. ALL FORM BOARDS SHALL BE REMOVED PRIOR TO BACKFILL.
5. NO ALLOWANCE SHALL BE MADE FOR FRICTION BETWEEN THE PIPE WALL AND THE THRUST COLLAR.
6. DESIGN PRESSURE: 150 P.S.I.

SCHEDULE OF DIMENSIONS AND MATERIALS *

PIPE SIZE (INCHES)	DIMENSIONS (FT.)				TIE RODS REQ'D	
	A	B	C	D	DIA.	NO.
6	2.0	2.0	1.0		3/4	2
8	2.5	2.5	1.0		3/4	2
10	3.5	3.0	1.0		3/4	4
12	5.0	3.0	1.0		3/4	4
16	6.0	4.0	1.5		3/4	4
20	8.0	5.0	1.5		3/4	6
24	9.0	6.0	1.5		3/4	8

NOTE: THRUST BLOCK AREAS TO BE COMPUTED ON BASIS OF ____ P.S.I. TEST PRESSURE, 90% SOIL RESTRAINT DESIRED. SEE NOTE 6
* TO BE COMPLETED BY ENGINEER.

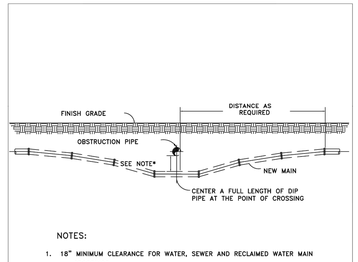
TYPICAL VALVE BOX COVER DETAILS

CITY OF APOPKA DESIGN ENGINEERING DIVISION	JANUARY 2014	FIG. 116



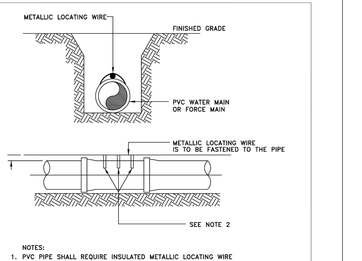
NOTES:

1. 18" MINIMUM CLEARANCE FOR WATER, SEWER AND RECLAIMED WATER MAIN CROSSINGS
2. 12" MINIMUM CLEARANCE REQUIRED FOR OTHER TYPE UTILITY CROSSINGS.
3. SEE ENCASEMENT DETAIL IF MINIMUM CLEARANCE CANNOT BE OBTAINED.

* CONSTRUCT UNIFORM PIPE DEFLECTION NOT TO EXCEED 75% OF MANUFACTURER RECOMMENDED MAXIMUM DEFLECTION PER PIPE JOINT

UTILITY CROSSING PIPE DEFLECTION DETAIL

CITY OF APOPKA DESIGN ENGINEERING DIVISION	JANUARY 2014	FIG. 117



NOTES:

1. PVC PIPE SHALL REQUIRE INSULATED METALLIC LOCATING WIRE (10 AWG-SOLID CCS REINFORCED TRACER WIRE-INSULATED 30 MIL HDPE – 30 VOLT MFG. BY COPPERHEAD INDUSTRIES, LLC OR EQUAL) CAPABLE OF DETECTION BY A CABLE LOCATOR.
2. SHALL BE BURIED DIRECTLY ABOVE THE CENTERLINE OF THE PIPE AND ATTACHED WITH DUCT TAPE OR NYLON STRAPS AT 3 LOCATIONS PER JOINT. LOCATING WIRE SHALL TERMINATE AT THE TEST STATION BOX AS SHOWN IN FIG. 109.
3. BE CAPABLE OF EXTENDING 12" ABOVE TOP OF TEST STATION BOX IN SUCH A MANNER SO AS NOT TO INTERFERE WITH VALVE OPERATION.
4. SPLICES SHOULD BE MADE USING STANDARDS AND PRODUCTS DESIGNED FOR DIRECT BURIAL CONDUCTORS.
5. WIRE INSULATION SHALL BE COLOR CODED FOR THE TYPE OF PIPE BEING INSTALLED.

PVC PIPE LOCATING WIRE DETAIL

TREE MITIGATION CANOPY COVER

APOPKA COLD STORAGE

APOPKA FLORIDA

SHEET NUMBER
L0.53

This document, together with the concepts and designs presented herein, as an instrument of service, is intended only for the specific purpose and client for which it was prepared. Reuse of and improper reliance on this document without written authorization and adaptation by Kimley-Horn and Associates, Inc. shall be without liability to Kimley-Horn and Associates, Inc.

Plotted By:Martinez, Jeremiah Sheet Set:Cold Link CD Layout:L0.53 January 15, 2026 01:20:01pm K:\orl_civil\049607003-cold link apopka\CADD\MDP\plansheet\L0.50 - TREE MITIGATION PLAN.dwg

TREE MITIGATION SPECIFICATIONS

A. GENERAL

1. CONTRACTOR SHALL ADHERE TO ALL TREE PROTECTION REQUIREMENTS LISTED IN THESE SPECIFICATIONS AND/OR THOSE LISTED IN THE CITY OR COUNTY ZONING CODE, TREE PROTECTION (LATEST EDITION). WHICHEVER IS MORE STRINGENT SHALL APPLY.
2. CONTRACTOR SHALL COORDINATE ALL CONSTRUCTION PROCEDURES WITH THE PROJECT ARBORIST PRIOR TO BEGINNING WORK.
3. ANY AREAS SUBJECT TO EROSION MUST BE ADEQUATELY STABILIZED WITH VEGETATION MATERIAL THAT WILL, WITHIN A REASONABLE TIME FRAME, DETER SOIL DISTURBANCE.
4. NO SIGNS, BUILDING PERMITS, WIRES OR OTHER ATTACHMENTS OF ANY KIND SHALL BE ATTACHED TO ANY TREE OR PALM. GUY WIRES DESIGNED TO PROTECT TREES ARE EXCLUDED FROM THIS PROHIBITION.
5. EXISTING TREE LOCATIONS AND SIZES ARE ESTIMATES AND ARE BASED ON A SURVEY PROVIDED BY THE OWNER SELECTED SURVEYOR.
6. CONTRACTOR SHALL COORDINATE TREE REMOVAL WITH PERMITTING AGENCY AND PROJECT ARBORIST PRIOR TO CONSTRUCTION. NO PERSON MAY REMOVE OR CAUSE TO BE REMOVED ANY PROTECTED TREE OR PALM WITHOUT FIRST HAVING PROCURED A PERMIT AS PROVIDED BY THE APPROPRIATE PERMITTING AGENCY.
7. FOR PROTECTED TREES OR PALMS BEING REMOVED, THE CONTRACTOR MUST GIVE THE PERMITTING AGENCY REASONABLE OPPORTUNITY TO RELOCATE TREES DESIGNATED FOR REMOVAL TO ANOTHER SITE AT THE PERMITTING AGENCY'S EXPENSE.
8. CONTRACTOR IS RESPONSIBLE FOR POSSESSING ALL REQUIRED APPLICATOR LICENSES, BUSINESS REGISTRATIONS AND INSURANCE, PESTICIDE LABELS, AND MATERIAL DATA SAFETY SHEETS. THE CONTRACTOR IS ALSO RESPONSIBLE FOR HAVING ALL SPILL CONTAINMENT MATERIALS AND REQUIRED PERSONAL PROTECTIVE EQUIPMENT FOR PESTICIDE APPLICATIONS AND ACCIDENTAL SPILLS ON SITE AT ALL TIMES. THE OWNER RESERVES THE RIGHT TO INSPECT EACH APPLICATOR AND HAVE THESE MATERIALS PRESENTED BEFORE AND DURING ANY PESTICIDE TREATMENT.
9. WHERE TRAFFIC AREAS ARE PROPOSED WITHIN THE DRIP LINE OF PROTECTED TREES AND LESS THAN FOUR (4) INCHES OF GRADE CHANGE ARE PROPOSED, PERMEABLE SURFACES THAT ALLOW AIR AND WATER INTO THE SOIL SHOULD BE USED IN LIEU OF ASPHALT OR OTHER SUCH IMPERVIOUS SURFACES.
10. TREE WELLS OF AN APPROVED DESIGN SHALL BE CONSTRUCTED AROUND ALL TREES TO BE PRESERVED WHEN MORE THAN FOUR INCHES OF FILL IS TO BE DEPOSITED WITHIN THE DRIP LINE AREA OF THOSE TREES. COORDINATE WITH PROJECT ARBORIST.
11. THE SEQUENCE OF TREE MITIGATION AND PRESERVATION MEASURES IS IMPERATIVE TO THE HEALTH AND SURVIVABILITY OF THE SUBJECT TREES AND SHALL BE COORDINATED WITH THE OWNER SELECTED PROJECT ARBORIST. THE DESIRED SEQUENCE IS OUTLINED BELOW:
    a. TREE PROTECTION FENCING.
    b. ROOT PRUNING AND ROOT BARRIERS.
    c. CLEARING.
    d. TREE CANOPY PRUNING.
    e. FERTILIZATION.
    f. INSECTICIDE.
    g. IRRIGATION.

B. TREE PROTECTION FENCING

1. PRIOR TO THE ERECTION OF ANY TREE PROTECTION FENCING, ALL FOREIGN SURFACE MATERIAL, TRASH OR DEBRIS SHALL BE REMOVED FROM THE AREA TO BE ENCLOSED BY THE FENCING. AFTER ERECTION OF THE FENCING NO SUCH MATERIAL OR LITTER SHALL BE PERMITTED TO REMAIN WITHIN THE PROTECTED AREA.
2. TREE PROTECTION FENCING SHALL BE PLACED AROUND ALL PROTECTED TREES TO CREATE A PROTECTIVE ROOT ZONE AND SHALL REMAIN IN PLACE UNTIL SITE CLEARING, LAND ALTERATION, AND CONSTRUCTION ACTIVITIES ARE COMPLETE.
3. NATIVE GROUND COVER AND UNDERSTORY VEGETATION EXISTING WITHIN THE PROTECTED AREA SHALL REMAIN THROUGHOUT CONSTRUCTION. OTHER DESIGNATED VEGETATION AND INVASIVE PLANT SPECIES SHALL BE REMOVED ONLY BY MANUAL LABOR UTILIZING HAND TOOLS, OR BY OTHER METHODS APPROVED BY THE PROJECT ARBORIST.
4. TREE PROTECTION FENCING TYPES AND LOCATIONS SHALL BE ERECTED AS SHOWN ON THE TREE MITIGATION PLANS AND DETAILS, OR AS REQUESTED BY LOCAL AGENCY.
5. FINAL LOCATIONS SHALL BE COORDINATED WITH AND APPROVED BY THE PROJECT ARBORIST.
6. NO MATERIALS, EQUIPMENT, SPOIL, WASTE OR WASHOUT WATER MAY BE DEPOSITED, STORED, OR PARKED WITHIN 20 FEET OF THE TREE PROTECTION ZONE.
7. EROSION CONTROL DEVICES SUCH AS SILT FENCING, DEBRIS BASINS, AND WATER DIVERSION STRUCTURES SHALL BE INSTALLED TO PREVENT SILTATION AND/OR EROSION WITHIN THE TREE PROTECTION ZONE.
8. CONSTRUCTION ACTIVITY SHALL NOT DESTROY OR IRREVERSIBLY HARM THE ROOT SYSTEM OF PROTECTED TREES. POST HOLES AND TRENCHES LOCATED CLOSE TO PROTECTED TREES SHALL BE ADJUSTED TO AVOID DAMAGE TO MAJOR ROOTS.
9. DO NOT INSTALL CONDUIT, DRAIN OR IRRIGATION LINES, OR ANY UTILITY LINE WITHIN THE TREE PROTECTION ZONE WITHOUT THE APPROVAL OF THE PROJECT ARBORIST. IF LINES MUST TRAVERSE THE PROTECTION AREA, THEY SHALL BE TUNNELED OR BORED UNDER THE TREE.
10. CONTRACTOR'S ACCESS TO FENCED TREE PROTECTION AREAS WILL BE PERMITTED ONLY WITH APPROVAL OF THE PROJECT ARBORIST.
11. EXCAVATION OR GRADING REQUIRED WITHIN THE PROTECTED AREA SHALL BE LIMITED TO THREE (3) INCHES OF CUT OR FILL. COORDINATE WITH PROJECT ARBORIST.
12. STRUCTURES AND UNDERGROUND FEATURES TO BE REMOVED WITHIN THE TREE PROTECTION ZONE SHALL BE COORDINATED WITH THE PROJECT ARBORIST.
13. TREE PROTECTION FENCING AROUND TREES TO BE RELOCATED SHALL BE ERECTED UNTIL THE TREE IS READY TO BE RELOCATED AND NEW FENCING SHALL BE ERECTED AT THE TREES NEW LOCATION AND WILL REMAIN IN PLACE UNTIL ALL CONSTRUCTION ACTIVITIES ARE COMPLETE.
14. IF ANY DAMAGE TO TREE PROTECTION FENCING SHOULD OCCUR BY ACCIDENT OR NEGLIGENCE, THE CONTRACTOR SHALL BE RESPONSIBLE FOR IMMEDIATE REPAIRS.
15. IF TEMPORARY HAUL OR ACCESS ROADS MUST PASS OVER THE PROTECTED AREA OF TREES TO BE PRESERVED, A ROAD BED OF SIX (6) INCHES OF MULCH OR GRAVEL SHALL BE CREATED TO PROTECT THE SOIL. THE ROAD BED MATERIAL SHALL BE REPLENISHED AS NECESSARY TO MAINTAIN A SIX (6) INCH ROAD BED AT ALL TIMES. CONTRACTOR SHALL REMOVE ALL SUCH MATERIALS FROM THE SITE AS SOON AS TEMPORARY ACCESS IS NO LONGER NECESSARY.
16. CONTRACTOR SHALL COORDINATE WITH THE PROJECT ARBORIST PRIOR TO THE REMOVAL OF ALL TREE PROTECTION FENCING.

C. ROOT PRUNING/TRENCHING

1. TRENCHING LOCATIONS SHALL BE APPROVED IN THE FIELD BY THE PROJECT ARBORIST.
2. TRENCHING EQUIPMENT THAT WILL TURN AT HIGH RPM'S IS PREFERRED, AND SHALL BE APPROVED BY THE PROJECT ARBORIST. APPROVED EQUIPMENT WILL BE USED TO PERFORM ALL ROOT PRUNING OPERATIONS. A MINIMUM DEPTH OF THREE FEET IS REQUIRED.
3. INSTALL ROOT BARRIER WHERE DESIGNATED. SEE TREE MITIGATION PLAN AND DETAIL SHEETS.
4. THE TRENCH SHALL BE BACKFILLED WITH PREVIOUSLY EXCAVATED SOIL AND COMPACTED IMMEDIATELY.
5. TREES TO BE RELOCATED SHALL BE ROOT PRUNED A MINIMUM OF TWELVE (12) WEEKS PRIOR TO TREE RELOCATION.
6. WHEN THE TREE ROOT ZONE WILL BE DISTURBED, AFFECTED ROOTS MUST BE SEVERED BY CLEAN PRUNING CUTS AT THE POINT WHERE CONSTRUCTION IMPACTS THE ROOTS.

D. CLEARING

1. ANY BRUSH CLEARING REQUIRED WITHIN THE TREE PROTECTION ZONE SHALL BE ACCOMPLISHED WITH HAND-OPERATED EQUIPMENT.
2. CONTRACTOR SHALL CLEAR ALL TREE PROTECTION AREAS OF VINES, SHRUBS, GROUND COVERS, WEEDS, SAPLINGS, AND INVASIVES LISTED ON THE LATEST EDITION OF THE FLORIDA EXOTIC PEST PLANT COUNCIL'S LIST OF INVASIVE SPECIES.
3. PROJECT ARBORIST MUST APPROVE METHODS OTHER THAN HAND CLEARING.
4. A TWO (2) INCH LAYER OF MULCH SHALL BE APPLIED OVER THE SURFACE OF EXPOSED ROOTS OF PROTECTED TREES DURING THE SITE CLEARING PHASE.

E. TREE CANOPY PRUNING

1. TREE PRUNING SPECIFICATIONS SHALL BE DEFINED BASED ON SPECIFIC RECOMMENDATIONS OF THE PROJECT ARBORIST. INFORMATION PRESENTED BELOW SHOULD BE USED AS A GUIDELINE.
2. CONTRACTOR SHALL VISIT THE SITE WITH THE PROJECT ARBORIST TO VERIFY THE EXTENT OF REQUIRED PRUNING.
3. ALL PRUNING SHALL BE PERFORMED IN ACCORDANCE WITH THE RECOMMENDATIONS OF A QUALIFIED INTERNATIONAL SOCIETY OF ARBORICULTURE (ISA) CERTIFIED ARBORIST OR AN AMERICAN SOCIETY OF CONSULTING ARBORISTS (ASCA) REGISTERED CONSULTING ARBORIST (RCA).
4. AT LEAST ONE MEMBER OF THE PRUNING CREW SHALL BE AN ISA CERTIFIED ARBORIST.
5. WHILE IN THE TREE, THE ARBORIST SHALL PERFORM AN AERIAL INSPECTION TO IDENTIFY DEFECTS THAT REQUIRE TREATMENT. ANY ADDITIONAL WORK NEEDED SHALL BE REPORTED TO THE OWNER.
6. PRUNING CUTS SHALL BE DONE IN ACCORDANCE WITH THE LATEST EDITION OF THE ANSI A300 PRUNING STANDARD (AMERICAN NATIONAL STANDARD FOR TREE CARE OPERATIONS) AND WORK SHALL BE PERFORMED IN ACCORDANCE WITH THE LATEST EDITION OF ANSI Z133.1 SAFETY STANDARD. PRUNING SHALL BE IN ACCORDANCE WITH THE LATEST EDITION OF ISA'S "BEST MANAGEMENT PRACTICES: TREE PRUNING".
7. WHERE TEMPORARY CLEARANCE IS NEEDED FOR ACCESS, BRANCHES SHALL BE TIED BACK TO HOLD THEM OUT OF THE CLEARANCE ZONE.
8. NO MORE THAN 20 PERCENT OF LIVE FOLIAGE SHALL BE REMOVED WITHIN ANY TREE.
9. ALL TREES WITHIN THE PROJECT AREA SHALL BE PRUNED AS FOLLOWS:
    a. LIVE BRANCH PRUNING SHOULD BE PERFORMED ONLY WHEN THE DANGER OF INSECT OR DISEASE INFESTATION IS NOT PRESENT.
    b. REMOVE STUBS, CUTTING OUTSIDE THE WOUND WOOD TISSUE THAT HAS FORMED AROUND THE BRANCH.
    c. CLEANING, FOR THE SELECTIVE REMOVAL OF DEAD, DISEASED, BROKEN, OR CROSSING BRANCHES DOWN TO ONE INCH IN DIAMETER OR AS DIRECTED BY THE PROJECT ARBORIST.
    d. PRUNING CUTS LARGER THAN 4 INCHES IN DIAMETER, EXCEPT FOR DEAD WOOD, SHALL BE AVOIDED.
    e. PRUNING CUTS THAT EXPOSE HEARTWOOD SHALL BE AVOIDED WHENEVER POSSIBLE.
    f. ALL TREES WITH CROWNS THAT PROJECT INTO PARKING LOT/ROADWAY AREAS SHALL BE RAISED TO 14 FEET ABOVE FINISHED GRADE.
    g. ALL TREES WITH CROWNS THAT PROJECT INTO SIDEWALK AREAS SHALL BE RAISED TO A HEIGHT OF 8 FEET ABOVE FINISHED GRADE.
9. TREES, WHO'S ROOT SYSTEMS WILL BE IMPACTED SHALL RECEIVE THE FOLLOWING PRUNING TO COMPENSATE FOR ROOT LOSS:
    a. THE LOCATION AND SIZE OF BRANCHES FOR REDUCTION SHALL BE DEFINED BY THE PROJECT ARBORIST.
    b. REDUCTION, OR THE SELECTIVE PRUNING TO REDUCE TREE HEIGHT OR SPREAD.
    c. REDUCE END WEIGHT ON HEAVY, HORIZONTAL BRANCHES BY SELECTIVELY REMOVING SMALL DIAMETER BRANCHES, NO GREATER THAN 2 TO 3 INCHES, NEAR THE ENDS OF SCAFFOLD BRANCHES.
    d. RAISING SHALL CONSIST OF SELECTIVE PRUNING TO PROVIDE VERTICAL CLEARANCE.
10. PROPOSED/REPLACEMENT TREES
    a. PRUNING SHALL BE LIMITED TO CLEANING.
11. BRUSH SHALL BE CHIPPED AND SPREAD (ONLY WHEN DISEASE OR INSECT INFESTATION IS NOT PRESENT) UNDERNEATH TREES WITHIN THE TREE PROTECTION ZONE TO A MAXIMUM DEPTH OF THREE (3) INCHES, LEAVING THE TRUNK CLEAR OF MULCH.
12. CONTRACTOR SHALL BE RESPONSIBLE FOR REMOVING ALL EXCESS DEBRIS ON A DAILY BASIS.

F. FERTILIZATION

1. CONTRACTOR SHALL COORDINATE FERTILIZATION PLAN, FOLLOWING BEST MANAGEMENT PRACTICES WITH THE PROJECT ARBORIST PRIOR TO COMMENCEMENT OF WORK.
2. EVERY EFFORT SHALL BE MADE TO UTILIZE CHEMICALS OF AN ORGANIC OR BIODEGRADABLE NATURE IN ORDER TO OFFER THE LEAST IMPACT TO THE NATURAL ENVIRONMENT. CONTRACTOR IS RESPONSIBLE FOR MIXING, APPLYING, AND DISPOSAL OF ALL CHEMICALS IN ACCORDANCE WITH STRICT ADHERENCE TO MANUFACTURER'S SPECIFICATIONS. COORDINATE WITH PROJECT ARBORIST FOR FURTHER INSTRUCTION.
3. ONLY TREES AFFECTED BY CONSTRUCTION OR AS SHOWN ON THE TREE MITIGATION PLAN AND TREE INVENTORY SCHEDULE SHALL BE TREATED.
4. TREES SPECIFIED TO RECEIVE FERTILIZER SHALL BE TREATED AS FOLLOWS.
    a. MIX FERTILIZER ACCORDING TO MANUFACTURER'S SPECIFICATIONS INTO A TANK WITH AGITATION CAPABILITY.
    b. MIX WETTING AGENT ACCORDING TO MANUFACTURER'S SPECIFICATIONS INTO SAME TANK WITH FERTILIZER. AGITATE MIX.
    c. INJECT THE MIXTURE WITH A HYDRAULIC INJECTION SYSTEM INTO THE UPPER 6-12 INCHES OF SOIL WITH A SOIL PROBE. INJECT AT THE RATE OF ONE THIRD (1/3) GALLON AT EACH INJECTION SITE.
    d. THE CRITICAL ROOT ZONE AREA PLUS 2' BEYOND THE CRITICAL ROOT ZONE SHALL BE INJECTED, BUT NOT BEYOND ROOT PRUNING LOCATIONS.
    e. FERTILIZER SHALL BE INSTALLED PRIOR TO THE INSTALLATION OF ANY AERATION SYSTEMS.
    f. EMPTY PRODUCT CONTAINERS SHALL BE STOCKPILED FOR INSPECTION BY THE PROJECT ARBORIST PRIOR TO DISPOSAL.

G. INSECTICIDE

7. NOTIFY PROJECT ARBORIST IF ANY INFESTATION IS NOTICED.
8. FOLLOW PROJECT ARBORIST'S RECOMMENDED PROCEDURES.
9. FOLLOW ALL MANUFACTURERS' RECOMMENDATIONS CONCERNING APPLICATION. READ ALL WARNING LABELS.
10. ANY PETS, AS WELL AS, THE PETS FOOD AND WATER BOWLS SHOULD BE REMOVED FROM THE AREA AND ANY SWIMMING POOLS SHOULD BE COVERED. COORDINATE WITH PROJECT ARBORIST FOR FURTHER INSTRUCTION.
11. ENSURE COMPLETE COVERAGE AND REAPPLY 2-3 MONTHS AFTER INITIAL APPLICATION UTILIZING SAME PROCEDURE.

H. IRRIGATION

1. EVERY EFFORT SHALL BE MADE TO WATER THE PRESERVED TREES AND TRANSPLANTS. CONTRACTOR SHALL IRRIGATE BY HAND OR BY TEMPORARY IRRIGATION.
2. IRRIGATE AS REQUIRED BY PROJECT ARBORIST UNTIL PERMANENT IRRIGATION IS INSTALLED AND OPERATING.
3. UNDERGROUND IRRIGATION SHALL NOT BE INSTALLED WITHIN THE DRIP LINES OF EXISTING TREES UNLESS ROOT PROTECTION MEASURES ARE PROVIDED AND APPROVED BY PROJECT ARBORIST.

I. TREE REMOVALS

1. PRIOR TO AND DURING LAND CLEARING, INCLUDING GRUBBING, ALL TREES TO BE REMOVED SHALL BE CLEARLY MARKED BY PROJECT ARBORIST WITH RED SURVEY RIBBONS AT 36 INCHES MINIMUM ABOVE GRADE.
2. CONTRACTOR SHALL REMOVE ALL TREES AS SHOWN ON THE TREE MITIGATION PLANS AFTER THE TREE PROTECTION FENCING IS INSTALLED.
3. ALL TREES SHOWN TO BE REMOVED SHALL BE FELLED WITH A CHAIN SAW AND STUMP GROUND 6" BELOW SURFACE. ANY TREE SHOWN TO BE REMOVED THAT IS IN AN AREA WHERE COMPACTION IS CRITICAL SHALL BE FELLED WITH A CHAIN SAW AND STUMP REMOVED BY CONTRACTOR.
4. ALL WOOD AND STUMPS FROM REMOVALS SHALL BE HAULED FROM THE SITE THE SAME DAY, EXCEPT FOR TOPS. ALL TOPS ARE TO BE MULCHED AND STOCKPILED OR HAULED DIRECTLY TO MULCHED AREAS FOR RELOCATED TREES IF SCHEDULING PERMITS. TOPS SHALL BE CHIPPED AND PLACED IN THE TREE PROTECTION ZONE TO A DEPTH OF THREE (3) INCHES. ALL EXCESS WOOD CHIPS SHOULD BE HAULED OFF SITE AFTER TRANSPLANTING IS COMPLETE.
5. ALL BURN PITS IF APPLICABLE MUST BE APPROVED BY THE PROJECT ARBORIST AND OWNER.
6. TREES TO BE REMOVED THAT HAVE BRANCHES EXTENDING INTO THE CANOPY OF TREES TO REMAIN MUST BE REMOVED BY A QUALIFIED ISA CERTIFIED ARBORIST AND NOT BY DEMOLITION OR CONSTRUCTION CONTRACTORS. THE QUALIFIED ARBORIST SHALL REMOVE THE TREE IN A MANNER THAT CAUSES NO DAMAGE TO THE TREES AND UNDERSTORY VEGETATION TO REMAIN.
7. TREES TO BE REMOVED LOCATED WITHIN THE TREE PROTECTION ZONE SHALL BE REMOVED BY A QUALIFIED ISA CERTIFIED ARBORIST. THE TREES SHALL BE CUT NEAR GROUND LEVEL AND THE STUMP GROUND OUT.

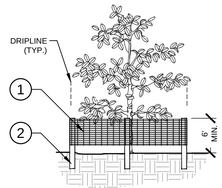
L. TOPSOIL

10. CONTRACTOR SHALL COORDINATE ALL EARTHWORK OPERATIONS WITHIN TREE PROTECTION AREAS WITH THE PROJECT ARBORIST PRIOR TO BEGINNING WORK.
11. ALL TOPSOIL SHALL BE NATURAL, FRIABLE, FERTILE, FINE LOAMY SOIL POSSESSING CHARACTERISTICS OF REPRESENTATIVE TOPSOIL IN THE VICINITY THAT PRODUCES HEAVY GROWTH.
12. TOPSOIL, PH RANGE OF 5.5 TO 7.0, 3-5 PERCENT ORGANIC MATERIAL MINIMUM, FREE FROM SUBSOIL, OBJECTIONABLE WEEDS, LITTER, SODS, STIFF CLAY, STONES LARGER THAN ONE (1) INCH IN DIAMETER, STUMPS, ROOTS, TRASH, TOXIC SUBSTANCES, OR ANY OTHER MATERIAL WHICH MAY BE HARMFUL TO PLANT GROWTH.
13. VERIFY AMOUNT STOCKPILED IF ANY, AND SUPPLY ADDITIONAL AS NEEDED FROM NATURALLY WELL-DRAINED SITES WHERE TOPSOIL OCCURS AT LEAST FOUR (4) INCHES DEEP. DO NOT OBTAIN TOPSOIL FROM BOGS OR MARSHES.
14. PROJECT ARBORIST SHALL APPROVE ALL TOPSOIL PRIOR TO PLACEMENT.

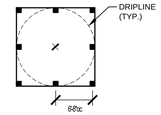
M. REPAIR OF DAMAGED TREES

1. IF DAMAGE TO ANY TREE SHOULD OCCUR BY ACCIDENT OR NEGLIGENCE DURING THE CONSTRUCTION PERIOD, THE PROJECT ARBORIST SHALL APPRAISE THE DAMAGE AND MAKE RECOMMENDATIONS TO THE OWNER FOR REPAIR BY THE CONTRACTOR.
2. IF ANY TREE DESIGNATED TO BE SAVED IS REMOVED FROM THE SITE WITHOUT PERMISSION OF THE OWNER'S REPRESENTATIVE, THE PROJECT ARBORIST SHALL APPRAISE THE TREE AND MAKE RECOMMENDATIONS TO THE OWNER FOR REPLACEMENT BY THE CONTRACTOR. THE CONTRACTOR SHALL BE RESPONSIBLE FOR REPLACEMENT OF THE TREE AND ANY FEES THAT MAY BE ASSESSED TO THE OWNER BY THE GOVERNING AGENCY.

1 / L0.54 — TYPICAL TREE MITIGATION NOTES



ELEVATION



PLAN

CORNER CONNECTION

CONNECTION

1. 6'H "PERIMETER PLUS" CONSTRUCTION FENCE BY CONWED PLASTICS OR OWNER'S REPRESENTATIVE APPROVED EQUAL. SUBMIT PRODUCT INFORMATION FOR APPROVAL PRIOR TO INSTALLATION.
2. 8' TALL METAL "T" POSTS OR 2" x 2" X 8' PRESSURE TREATED WOOD POSTS WITH 24" BURIAL BELOW GRADE.

INSTALLATION NOTES:

A. POST SELECTION SHOULD BE BASED ON EXPECTED STRENGTH NEEDS AND THE LENGTH OF TIME FENCE WILL BE IN PLACE. FLEXIBLE FIBERGLASS ROD POSTS ARE RECOMMENDED FOR PARKS, ATHLETIC EVENTS AND CROWD CONTROL INSTALLATIONS. METAL "T" POSTS OR TREATED WOOD POSTS ARE TYPICALLY USED FOR CONSTRUCTION AND OTHER APPLICATIONS.

B. POSTS SHOULD BE DRIVEN INTO THE GROUND TO A DEPTH OF 1/3 OF THE HEIGHT OF THE POST. FOR EXAMPLE, A 6' POST SHOULD BE SET AT LEAST 2' INTO THE GROUND.

C. SPACE POSTS EVERY 6' (MIN.) TO 8' (MAX.).

D. SECURE FENCING TO POST WITH NYLON CABLE TIES (AVAILABLE FROM CONWED PLASTICS). WOOD STRIPS MAY BE ALSO BE USED TO PROVIDE ADDITIONAL SUPPORT AND PROTECTION BETWEEN TIES AND POSTS.

NOTE: IF WIRE TIES ARE USED, AVOID DIRECT CONTACT WITH FENCE. WIRE MAY DAMAGE FENCE OVER TIME.

MISC.	QTY	BOTANICAL/COMMON NAME	SPECIFICATIONS
MULCH	TBD	DESIGNER BROWN HARDWOOD MULCH	3" DEPTH MINIMUM, SHREDDED, FREE OF WEEDS/INVASIVE PLANT MATERIAL

LANDSCAPE NOTES:

1. ALL LANDSCAPE MATERIAL TO BE FLORIDA GRADE #1 OR BETTER QUALITY
2. ALL LANDSCAPED AREAS ARE TO RECEIVE A MINIMUM OF 4" OF TOPSOIL.
3. ALL PLANT MATERIAL SHALL BE HEALTHY, VIGOROUS, AND FREE OF PESTS AND DISEASE.
4. ALL MATERIALS ARE SUBJECT TO THE APPROVAL OF THE LANDSCAPE ARCHITECT BEFORE, DURING, AND AFTER INSTALLATION.
5. ALL TREES MUST BE GUYED OR STAKED AS SHOWN IN THE DETAILS.
6. ALL PLANTING AREAS SHALL BE COMPLETELY MULCHED AS SPECIFIED.
7. PRIOR TO CONSTRUCTION, THE CONTRACTOR SHALL BE RESPONSIBLE FOR LOCATING ALL UNDERGROUND UTILITIES AND SHALL AVOID DAMAGE TO ALL UTILITIES DURING THE COURSE OF THE WORK. LOCATIONS OF EXISTING BURIED UTILITY LINES SHOWN ON THE PLANS ARE BASED UPON BEST AVAILABLE INFORMATION AND ARE TO BE CONSIDERED APPROXIMATE. IT SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR 1) TO VERIFY THE LOCATIONS OF UTILITY LINES ADJACENT TO THE WORK AREA 2) TO PROTECT ALL UTILITY LINES DURING THE CONSTRUCTION PERIOD 3) TO REPAIR ANY AND ALL DAMAGE TO UTILITIES, STRUCTURES, SITE APPURTENANCES, ETC. WHICH OCCURS AS A RESULT OF THE CONSTRUCTION.
8. THE CONTRACTOR SHALL BE RESPONSIBLE FOR VERIFYING ALL QUANTITIES SHOWN ON THESE PLANS BEFORE PRICING THE WORK.
9. CONTRACTOR SHALL BE RESPONSIBLE FOR DELIVERY SCHEDULE AND PROTECTION BETWEEN DELIVERY AND PLANTING TO MAINTAIN HEALTHY PLANT CONDITIONS.
10. THE CONTRACTOR SHALL BE RESPONSIBLE FOR FULLY MAINTAINING (INCLUDING BUT NOT LIMITED TO: WATERING, SPRAYING, MULCHING, FERTILIZING, ETC.) ALL OF THE PLANT MATERIALS AND LAWN FOR THE WARRANTY PERIOD.
11. ANY PLANT MATERIAL WHICH IS DISEASED, DISTRESSED, DEAD, OR REJECTED (PRIOR TO SUBSTANTIAL COMPLETION) SHALL BE PROMPTLY REMOVED FROM THE SITE AND REPLACED WITH MATERIAL OF THE SAME SPECIES, QUANTITY, AND SIZE AND MEETING ALL PLANT LIST SPECIFICATIONS.
12. THE CONTRACTOR SHALL COMPLETELY GUARANTEE ALL PLANT MATERIAL FOR WARRANTY PERIOD. THE CONTRACTOR SHALL PROMPTLY MAKE ALL REPLACEMENTS DURING THE NORMAL PLANTING SEASON.
13. STANDARDS SET FORTH IN "AMERICAN STANDARD FOR NURSERY STOCK" REPRESENT GUIDELINE SPECIFICATIONS ONLY AND SHALL CONSTITUTE MINIMUM QUALITY REQUIREMENTS FOR PLANT MATERIAL.
14. ALL LANDSCAPING SHALL BE INSTALLED ACCORDING TO SOUND NURSERY PRACTICES, AND SHALL BE FLORIDA NO. 1 OR BETTER AS GIVEN IN "GRADES AND STANDARDS FOR NURSERY PLANTS, PARTS I AND II," STATE OF FLORIDA, DEPARTMENT OF AGRICULTURE.
15. ALL INVASIVE / EXOTIC SPECIES AND PROHIBITED TREE SPECIES SHALL BE REMOVED FROM SITE, INCLUDING ROOT BALLS TO THE EXTENT POSSIBLE WITH NO DAMAGE TO ADJACENT EXISTING TREES.
16. ALL LANDSCAPE AREAS WILL BE PROVIDED WITH PERMANENT AUTOMATIC IRRIGATION SYSTEM.
17. TREE SUPPORT MATERIALS ARE TO BE REMOVED FROM EACH TREE ONCE IT IS "ESTABLISHED" (AS APPROVED BY THE LANDSCAPE ARCHITECT).
18. ALL PLANT SPECIFICATIONS IN THE PLANT SCHEDULE SHALL BE CONSIDERED THE MINIMUM ALLOWABLE SPECIFICATIONS. CONTRACTOR SHALL PROCURE PLANT MATERIALS AND UPSIZE AS NECESSARY TO MEET THE MOST STRINGENT SPECIFICATION.
19. ALL PLANTED LANDSCAPE AREAS TO HAVE 3" DEEP DESIGNER BROWN HARDWOOD MULCH TO FULLY COVER DRIP IRRIGATION & AMENDED SOILS. REPAIR AS NEEDED DURING CONSTRUCTION. SUBMIT ALTERNATIVE MULCH SPECIFICATION FOR LANDSCAPE ARCHITECT APPROVAL.

1. TRUNK/ROOT BALL TO BE CENTERED AND PLUMB/LEVEL IN PLANTING PIT.
2. 6" DIA. CLEAR OF MULCH AT TRUNK FLARE.
3. 3" MINIMUM MULCH AS SPECIFIED. WHERE TREES ARE PLACED IN SOD, MULCH RING FOR TREES SHALL BE 6' DIAMETER (MIN.) OR AS DIRECTED BY OWNER'S REPRESENTATIVE.
4. 4" HIGH BERM, FIRMLY COMPACTED.
5. TREE FROG ANCHOR SYSTEM INSTALLED PER MANUFACTURER'S RECOMMENDATIONS.
6. FINISHED GRADE. (SEE GRADING PLAN)
7. TOP OF ROOTBALL MIN. 1" ABOVE FINISHED GRADE.
8. PREPARED PLANTING SOIL AS SPECIFIED.
9. TOP OF ROOTBALL SHALL BE 1" ABOVE FINISHED GRADE. ROOTBALLS GREATER THAN 24" DIAMETER SHALL BE PLACED ON MOUND OF UNDISTURBED SOIL TO PREVENT SETTLING. ROOTBALLS SMALLER THAN 24" IN DIAMETER MAY SIT ON COMPACTED EARTH.
10. UNDISTURBED NATIVE SOIL.
11. SCARIFY BOTTOM AND SIDES OF PLANTING PIT.

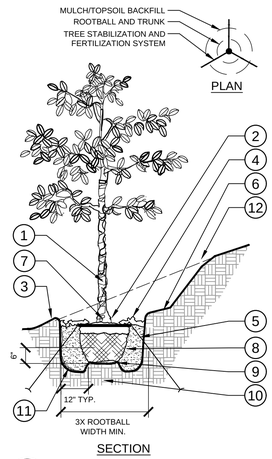
NOTES:

A. FINAL TREE STAKING DETAILS AND PLACEMENT TO BE APPROVED BY OWNER.

B. REMOVE BURLAP, WIRE AND STRAPS (ANYTHING THAT COULD GIRDLE TREE OR RESTRICT ROOT GROWTH) ON UPPER 1/3 OF ROOTBALL.

C. PRUNE ALL TREES IN ACCORDANCE WITH ANSI A-300.

1 L1.50 **TREE PLANTING**
SECTION / PLAN — NTS



1. TRUNK/ROOT BALL TO BE CENTERED AND PLUMB/LEVEL IN PLANTING PIT.
2. 6" DIA. CLEAR OF MULCH AT TRUNK FLARE.
3. 3. 4" HIGH BERM, FIRMLY COMPACTED.
4. 3" MINIMUM OF HARDWOOD BARK MULCH AS SPECIFIED. WHERE TREES ARE PLACED IN SOD, MULCH RING FOR TREES SHALL BE 6' DIAMETER (MIN.) OR AS DIRECTED BY OWNER'S REPRESENTATIVE.
5. TREE FROG ANCHOR SYSTEM INSTALLED PER MANUFACTURER'S RECOMMENDATIONS.
6. 4" MIN. OF TOPSOIL TO BRING TO FINISHED GRADE. (SEE GRADING PLAN)
7. TOP OF ROOTBALL MIN. 1" ABOVE FINISHED GRADE.
8. PREPARED PLANTING SOIL AS SPECIFIED.
9. ROOTBALLS GREATER THAN 24" DIAMETER SHALL BE PLACED ON MOUND OF UNDISTURBED SOIL TO PREVENT SETTLING. ROOTBALLS SMALLER THAN 24" IN DIAMETER MAY SIT ON COMPACTED EARTH.
10. UNDISTURBED NATIVE SOIL.
11. SCARIFY BOTTOM AND SIDES OF PLANTING PIT.
12. CUT BACK SLOPE TO PROVIDE A FLAT SURFACE FOR PLANTING.

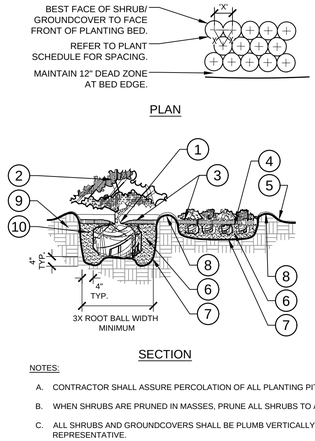
NOTES:

A. FINAL TREE STAKING DETAILS AND PLACEMENT TO BE APPROVED BY OWNER.

B. REMOVE BURLAP, WIRE AND STRAPS (ANYTHING THAT COULD GIRDLE TREE OR RESTRICT ROOT GROWTH) ON UPPER 1/3 OF ROOTBALL.

C. PRUNE ALL TREES IN ACCORDANCE WITH ANSI A-300.

2 L1.50 **TREE PLANTING ON A SLOPE**
SECTION / PLAN — NTS



1. TOP OF SHRUB ROOTBALLS TO BE PLANTED 1" - 2" HIGH WITH SOIL MOUNDING UP TO THE TOP OF ROOTBALL.
2. PRUNE ALL SHRUBS TO ACHIEVE A UNIFORM MASS/HEIGHT.
3. 3" MULCH LAYER AS SPECIFIED.
4. EXCAVATE ENTIRE BED SPECIFIED FOR GROUNDCOVER BED.
5. FINISHED GRADE (SEE GRADING PLAN).
6. PREPARED PLANTING SOIL AS SPECIFIED. (SEE LANDSCAPE NOTES) NOTE: WHEN GROUND-COVERS AND SHRUBS USED IN MASSES, ENTIRE BED TO BE AMENDED WITH PLANTING SOIL MIX AS SPECIFIED.
7. SCARIFY OF PLANTING PIT SIDES AND BOTTOM.
8. 4" HIGH BERM FIRMLY COMPACTED.
9. UNDISTURBED NATIVE SOIL.
10. FERTILIZER TABLETS (MAX 3" DEEP)

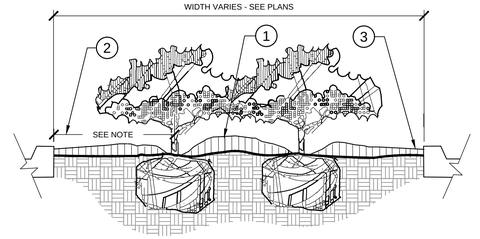
NOTES:

A. CONTRACTOR SHALL ASSURE PERCOLATION OF ALL PLANTING PITS PRIOR TO INSTALLATION.

B. WHEN SHRUBS ARE PRUNED IN MASSES, PRUNE ALL SHRUBS TO ACHIEVE UNIFORM MASS / HEIGHT.

C. ALL SHRUBS AND GROUNDCOVERS SHALL BE PLUMB VERTICALLY, UNLESS OTHERWISE DIRECTED BY OWNERS REPRESENTATIVE.

3 L1.50 **SHRUB/GROUNDCOVER PLANTING**
SECTION / PLAN — NTS



1. CROWN ISLANDS @ 5:1 SLOPES (OR AS SPECIFIED ON THE LANDSCAPE PLANS).
2. CLEAR ZONE: 36" MIN. FROM BACK OF CURB TO CENTER OF NEAREST SHRUB. CLEAR ZONE SHALL CONTAIN 3" CONTINUOUS MULCH OR TURF, SEE PLANS.
3. 2" MIN VERTICAL CLEARANCE, TOP OF CURB TO TOP OF MULCH.

NOTES:

A. EXCAVATE A CONTINUOUS 24" DEEP PIT (FROM TOP OF CURB) FOR ENTIRE LENGTH AND WIDTH OF ISLAND & BACKFILL WITH APPROVED PLANTING MIX.

B. PROTECT AND RETAIN ALL CURBS AND BASE. COMPACTED SUBGRADE TO REMAIN FOR STRUCTURAL SUPPORT OF CURB SYSTEM (TYP).

C. ALL ISLANDS SHALL UTILIZE POOR DRAINAGE DETAIL WHEN PERCOLATION RATES ARE 2" PER HOUR OR LESS.

4 L1.50 **PLANTED PARKING LOT ISLANDS/MEDIANS**
SECTION — NTS

1. TOP OF SHRUB ROOTBALLS TO BE PLANTED 1" - 2" HIGH WITH SOIL MOUNDING UP TO THE TOP OF ROOTBALL.
2. PRUNE SHRUBS AS DIRECTED BY OWNER'S REPRESENTATIVE.
3. 3" MINIMUM OF MULCH AS SPECIFIED. WHERE SHRUBS ARE PLACED IN MASSES, MULCH SHALL BE SPREAD IN A CONTINUOUS BED.
4. SOIL BERM TO HOLD WATER. TOP OF PLANTING PIT 'BERM' TO BE LEVEL ACROSS PIT. SLOPE DOWNHILL PORTION OF BERM AS REQUIRED TO MEET EXISTING GRADE. MULCH OVER EXPOSED TOPSOIL.
5. FINISHED GRADE (SEE GRADING PLAN)
6. PREPARED PLANTING SOIL AS SPECIFIED. (SEE LANDSCAPE NOTES).
7. SCARIFY SIDES AND BOTTOM OF PLANTING PIT.
8. FERTILIZER TABLETS (MAX 3" DEEP).
9. UNDISTURBED NATIVE SOIL

NOTES:

A. CONTRACTOR SHALL ASSURE PERCOLATION OF ALL PLANTING PITS PRIOR TO INSTALLATION.

B. WHEN SHRUBS ARE PRUNED IN MASSES, PRUNE ALL SHRUBS TO ACHIEVE UNIFORM MASS / HEIGHT.

C. ALL SHRUBS AND GROUNDCOVERS SHALL BE PLUMB VERTICALLY, UNLESS OTHERWISE DIRECTED BY OWNERS REPRESENTATIVE.

5 L1.50 **SHRUB/GROUNDCOVER PLANTING ON A SLOPE**
SECTION — NTS

NOTES:

1. CLEAR ZONE: 36" MIN. FROM BUILDING TO CENTER OF NEAREST SHRUB.
2. INSTALL SPECIFIED MULCH: 24" MIN. FROM BUILDING. SPECIFIED MULCH TO BE INSTALLED AT A DEPTH OF 3" (MIN.)

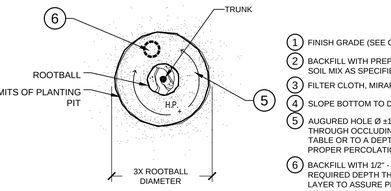
6 L1.50 **PLANTINGS ADJACENT TO BUILDINGS**
SECTION — NTS

1. INSTALL CONTINUOUS MULCH BED ADJACENT TO PARKING SPACES AS SHOWN. MULCH SHALL BE MIN. 3" DEEP. NO POP-UP IRRIGATION HEADS SHALL BE LOCATED WITHIN 24" OF A PARKING SPACE ON ANY SIDE.
2. CURB / PARKING LOT EDGE.

7 L1.50 **PARKING SPACE/CURB PLANTING**
SECTION — NTS

1. FIRE HYDRANT.
2. NO PLANT EXCEEDING 12" MATURE HEIGHT MATERIAL SHALL BE PLACED WITHIN SHOWN RADIUS OF ALL PROPOSED OR EXISTING FIRE HYDRANTS. CONTRACTOR SHALL ADJUST PLANT MATERIAL SO THAT NO CONFLICTS WITH FIRE HYDRANTS OCCUR ON SITE.
3. FRONT OF HYDRANT (TOWARD CURB)

8 L1.50 **SHRUB PLANTING AT FIRE HYDRANT**
SECTION / PLAN — NTS



1. FINISH GRADE (SEE GRADING PLANS).
2. BACKFILL WITH PREPARED PLANTING SOIL MIX AS SPECIFIED.
3. FILTER CLOTH, MIRAFI 500X OR BETTER.
4. SLOPE BOTTOM TO DRAIN.
5. AUGURED HOLE Ø ±18" PENETRATE THROUGH OCCLUDING LAYER TO WATER TABLE OR TO A DEPTH OF 7' TO ASSURE PROPER PERCOLATION.
6. BACKFILL WITH 1/2" - 3/4" GRAVEL TO REQUIRED DEPTH THROUGH OCCLUDING LAYER TO ASSURE PROPER PERCOLATION.
7. WATER TABLE. (DEPTH VARIES)
8. UNDISTURBED NATIVE SOIL.
9. SET ROOTBALL ON UNDISTURBED STABLE SUBSOIL SO THAT TOP OF ROOT BALL IS 1" ABOVE FINISHED GRADE.

NOTES:

A. THIS DETAIL SHALL BE IMPLEMENTED WHERE PERCOLATION RATES ARE 2" PER HOUR OR LESS.

B. CONTRACTOR TO PERFORM PERCOLATION TEST AS REQUIRED. AND NOTIFY OWNER/LANDSCAPE ARCHITECT.

C. SEE TYPICAL TREE PLANTING DETAIL THIS SHEET FOR PLANT STAKING.

9 L1.50 **POOR DRAINAGE CONDITION**
SECTION / PLAN — NTS

1. 6'H "PERIMETER PLUS" CONSTRUCTION FENCE BY CONWED PLASTICS OR OWNER'S REPRESENTATIVE APPROVED EQUAL. SUBMIT PRODUCT INFORMATION FOR APPROVAL PRIOR TO INSTALLATION.
2. 8' TALL METAL "T" POSTS OR 2" x 2" X 8' PRESSURE TREATED WOOD POSTS WITH 24" BURIAL BELOW GRADE.

INSTALLATION NOTES:

A. POST SELECTION SHOULD BE BASED ON EXPECTED STRENGTH NEEDS AND THE LENGTH OF TIME FENCE WILL BE IN PLACE. FLEXIBLE FIBERGLASS ROD POSTS ARE RECOMMENDED FOR PARKS, ATHLETIC EVENTS AND CROWD CONTROL INSTALLATIONS. METAL "T" POSTS OR TREATED WOOD POSTS ARE TYPICALLY USED FOR CONSTRUCTION AND OTHER APPLICATIONS.

B. POSTS SHOULD BE DRIVEN INTO THE GROUND TO A DEPTH OF 1/3 OF THE HEIGHT OF THE POST. FOR EXAMPLE, A 6' POST SHOULD BE SET AT LEAST 2' INTO THE GROUND.

C. SPACE POSTS EVERY 6' (MIN.) TO 8' (MAX.).

D. SECURE FENCING TO POST WITH NYLON CABLE TIES (AVAILABLE FROM CONWED PLASTICS). WOOD STRIPS MAY BE ALSO BE USED TO PROVIDE ADDITIONAL SUPPORT AND PROTECTION BETWEEN TIES AND POSTS.

NOTE: IF WIRE TIES ARE USED, AVOID DIRECT CONTACT WITH FENCE. WIRE MAY DAMAGE FENCE OVER TIME.

10 L1.50 **TREE PROTECTION FENCING**
ELEVATION / PLAN — NTS

1. 5 LAYERS OF BURLAP TO PROTECT TRUNK.
2. FIVE 2" X 4" X 18" WOOD BATTENS.
3. SECURE BATTENS WITH 2- 3/4" CARBON STEEL BANDS TO HOLD BATTENS IN PLACE. NO NAILS SHALL BE DRIVEN INTO PALM. HEIGHT OF BATTENS SHALL BE LOCATED IN RELATION TO THE HEIGHT OF THE PALM FOR ADEQUATE BRACING.
4. (3) 2"X4"X8' SUPPORTS. NAIL (DRILL AN NAIL IF NECESSARY) TO BATTENS AND 2" 4" STAKES. STAIN DARK BROWN.
5. 3" SPECIFIED MULCH
6. BERM SOIL TO HOLD WATER.
7. FINISH GRADE
8. 2X4X24" (MIN) P.T. WOOD STAKES (TYP.) NAIL TO SUPPORT POLES.
9. PREPARED PLANTING SOIL AS SPECIFIED. (SEE LANDSCAPE NOTES).

NOTES:

A. FINAL TREE STAKING DETAILS AND PLACEMENT TO BE APPROVED BY OWNER.

B. ALL TREE STAKING IS TO BE WITHIN MULCH BED AREA OUTSIDE TREE PIT.

C. CONTRACTOR SHALL ASSURE PERCOLATION OF ALL PLANTING PITS PRIOR TO INSTALLATION - REFER TO POOR DRAINAGE CONDITION DETAIL.

11 L1.50 **PALM PLANTING**
SECTION / PLAN — NTS

1. BASE OF TREE SHALL BE PLANTED SLIGHTLY ABOVE (1" MIN.) ADJACENT FINISH GRADE. REMOVE ALL TWINE & STRAPS & CUT BURLAP FROM TOP 1/3 OF ROOT BALL. NO SYNTHETIC BURLAP WILL BE ACCEPTED.
2. 4" SHREDDED HARDWOOD MULCH OR APPROVED EQUAL.
3. DIAMETER OF TREE PIT TO BE TWICE THE DIAMETER OF ROOT BALL-ROUGHEN SIDES OF TREE PIT.
4. 3" HIGH SOIL BERM TO HOLD WATER.
5. TOPSOIL MIX BACKFILL.
6. TREE WRAP.
7. 4" MIN. OF TOPSOIL TO BRING TO FINISHED GRADE (SEE GRADING PLAN).
8. ROOT BALLS GREATER THAN 24" DIAMETER SHALL BE PLACED ON MOUND OF UNDISTURBED SOIL TO PREVENT SETTLING ROOT BALLS SMALLER THAN 24" IN DIA. MAY SIT ON COMPACTED EARTH.
9. UNDISTURBED SUBSOIL.
10. PREPARE PLANTING SOIL AS SPECIFIED.
11. **Tree Frog® RBK40pt** FOR UP TO 4" TREE CALIPER OR **Tree Frog® RBK60pt** FOR GREATER THAN 4" AND UP TO 6" TREE CALIPER. REFER TO SITEWORK SPECIFICATIONS FOR APPROVED MATERIALS AND INSTALLATION REQUIREMENTS.

NOTES:

A. FINAL TREE STAKING DETAILS AND PLACEMENT TO BE APPROVED BY OWNER.

B. SET TREE AT ORIGINAL DEPTH. REMOVE BURLAP, WIRE AND STRAPS (ANYTHING THAT COULD GIRDLE TREE OR RESTRICT ROOT GROWTH) ON UPPER 1/3 OF ROOTBALL.

C. SEE LANDSCAPE NOTES FOR THE TYPE OF MULCH MATERIAL TO USE.

D. PRUNE TREE AS DIRECTED BY LANDSCAPE ARCHITECT

E. ASSURE PERCOLATION OF ALL PLANTING PITS

12 L1.50 **MULTI-TRUNK TREE PLANTING**

LANDSCAPE DETAILS

APOPKA COLD STORAGE

APOPKA FLORIDA

SHEET NUMBER
L1.50

GENERAL LANDSCAPE SPECIFICATIONS AND NOTES

A. SCOPE OF WORK

1. THE WORK CONSISTS OF: FURNISHING ALL LABOR, MATERIALS, EQUIPMENT, TOOLS, TRANSPORTATION, AND ANY OTHER APPURTENANCES NECESSARY FOR THE COMPLETION OF THIS PROJECT AS SHOWN ON THE DRAWINGS, AS INCLUDED IN THE PLANT LIST, AND AS SPECIFIED HEREIN.

2. WORK SHALL INCLUDE MAINTENANCE AND WATERING OF ALL CONTRACT PLANTING AREAS UNTIL CERTIFICATION OF ACCEPTANCE BY THE OWNER.

B. PROTECTION OF EXISTING STRUCTURES

1. ALL EXISTING BUILDINGS, WALKS, WALLS, PAVING, PIPING, OTHER SITE CONSTRUCTION ITEMS, AND PLANTING ALREADY COMPLETED OR ESTABLISHED AND DESIGNATED TO REMAIN SHALL BE PROTECTED FROM DAMAGE BY THE CONTRACTOR UNLESS OTHERWISE SPECIFIED. ALL DAMAGE RESULTING FROM NEGLIGENCE SHALL BE REPAIRED OR REPLACED TO THE SATISFACTION OF THE OWNER, AT NO COST TO THE OWNER.

2. THE CONTRACTOR SHALL BE RESPONSIBLE FOR MAINTAINING ALL NECESSARY BMP DEVICES ACCORDING TO ALL REGULATORY AGENCY'S STANDARDS THROUGH THE DURATION OF ALL CONSTRUCTION ACTIVITIES.

3. THE CONTRACTOR SHALL SUBMIT A DETAILED PROJECT SPECIFIC WORK ZONE TRAFFIC CONTROL PLAN UNLESS THE WORK REQUIRES NOTHING MORE THAN A DIRECT APPLICATION OF FDOT DESIGN STANDARDS, INDEX 600. IF A DIRECT APPLICATION OF INDEX 600 IS PROPOSED, THE CONTRACTOR SHALL SUBMIT IN WRITING A STATEMENT INDICATING THE STANDARD INDEX AND PAGE NUMBER NO LESS THAN 10 BUSINESS DAYS PRIOR TO START OF CONSTRUCTION. WHEN A DIRECT APPLICATION OF FDOT STANDARD INDEX 600 IS NOT ACCEPTABLE A PROJECT SPECIFIC WORK ZONE TRAFFIC CONTROL PLAN SHALL BE PREPARED BY A FLORIDA PROFESSIONAL ENGINEER WHO HAS SUCCESSFULLY COMPLETED ADVANCED TRAINING IN MAINTENANCE OF TRAFFIC, AS DEFINED BY FDOT FOR APPROVAL BY THE COUNTY ENGINEER'S REPRESENTATIVE.

4. THE CONTRACTOR SHALL BE RESPONSIBLE FOR LOCATING ALL UTILITIES, WHETHER PUBLIC OR PRIVATE, PRIOR TO EXCAVATION. THE INFORMATION AND DATA SHOWN WITH RESPECT TO EXISTING UNDERGROUND FACILITIES AT OR CONTIGUOUS TO THE SITE IS APPROXIMATE AND BASED ON INFORMATION FURNISHED BY THE OWNER OF SUCH UNDERGROUND FACILITIES OR ON PHYSICAL APPURTENANCES OBSERVED IN THE FIELD. THE OWNER AND DESIGN PROFESSIONAL SHALL NOT BE RESPONSIBLE FOR THE ACCURACY AND COMPLETENESS OF ANY SUCH INFORMATION OR DATA. THE CONTRACTOR SHALL HAVE FULL RESPONSIBILITY FOR; REVIEWING AND CHECKING ALL SUCH INFORMATION AND DATA; LOCATING ALL UNDERGROUND FACILITIES DURING CONSTRUCTION; THE SAFETY AND PROTECTION THEREOF; REPAIRING ANY DAMAGE THERETO RESULTING FROM THE WORK. THE COST OF ALL WILL BE CONSIDERED AS HAVING BEEN INCLUDED IN THE CONTRACT PRICE. THE CONTRACTOR SHALL NOTIFY ANY AFFECTED UTILITY COMPANIES OR AGENCIES IN WRITING AT LEAST 48 HOURS PRIOR TO BEGINNING CONSTRUCTION.

C. PROTECTION OF EXISTING PLANT MATERIALS

1. THE CONTRACTOR SHALL BE RESPONSIBLE FOR ALL UNAUTHORIZED CUTTING OR DAMAGE TO TREES AND SHRUBS EXISTING OR OTHERWISE, CAUSED BY CARELESS EQUIPMENT OPERATION, MATERIAL STOCKPILING, ETC.. THIS SHALL INCLUDE COMPACTION BY DRIVING OR PARKING INSIDE THE DRIP-LINE AND SPILLING OIL, GASOLINE, OR OTHER DELETERIOUS MATERIALS WITHIN THE DRIP-LINE. NO MATERIALS SHALL BE BURNED ON SITE. EXISTING TREES KILLED OR DAMAGED SO THAT THEY ARE MISSHAPEN AND/OR UNSIGHTLY SHALL BE REPLACED AT THE COST TO THE CONTRACTOR OF THREE HUNDRED DOLLARS ($300) PER CALIPER INCH ON AN ESCALATING SCALE WHICH ADDS AN ADDITIONAL TWENTY (20) PERCENT PER INCH OVER FOUR (4) INCHES CALIPER AS FIXED AND AGREED LIQUIDATED DAMAGES. CALIPER SHALL BE MEASURED SIX (6) INCHES ABOVE GROUND LEVEL FOR TREES UP TO AND INCLUDING FOUR (4) INCHES IN CALIPER AND TWELVE (12) INCHES ABOVE GROUND LEVEL FOR TREES OVER FOUR (4) INCHES IN CALIPER.

2. SEE TREE MITIGATION PLAN AND NOTES, IF APPLICABLE.

D. MATERIALS

1. GENERAL

MATERIAL SAMPLES LISTED BELOW SHALL BE SUBMITTED FOR APPROVAL, ON SITE OR AS DETERMINED BY THE OWNER. UPON APPROVAL, DELIVERY OF MATERIALS MAY COMMENCE.

MATERIAL	SAMPLE SIZE
MULCH	ONE (1) CUBIC FOOT
TOPSOIL MIX	ONE (1) CUBIC FOOT
PLANTS	ONE (1) OF EACH VARIETY (OR TAGGED IN NURSERY)

2. PLANT MATERIALS

a. PLANT SPECIES AND SIZE SHALL CONFORM TO THOSE INDICATED ON THE DRAWINGS. ALL NURSERY STOCK SHALL BE IN ACCORDANCE WITH GRADES AND STANDARDS FOR NURSERY PLANTS, LATEST EDITION, PUBLISHED BY THE FLORIDA DEPARTMENT OF AGRICULTURE AND CONSUMER SERVICES. ALL PLANTS SHALL BE FLORIDA GRADE NO. 1 OR BETTER AS DETERMINED BY THE FLORIDA DIVISION OF PLANT INDUSTRY. ALL PLANTS SHALL BE HEALTHY, VIGOROUS, SOUND, WELL-BRANCHED, AND FREE OF DISEASE AND INSECTS. INSECT EGGS AND LARVAE AND SHALL HAVE ADEQUATE ROOT SYSTEMS. TREES FOR PLANTING IN ROWS SHALL BE UNIFORM IN SIZE AND SHAPE. ALL MATERIALS SHALL BE SUBJECT TO APPROVAL BY THE OWNER. WHERE ANY REQUIREMENTS ARE OMITTED FROM THE PLANT LIST, THE PLANTS FURNISHED SHALL BE NORMAL FOR THE VARIETY. PLANTS SHALL BE PRUNED PRIOR TO DELIVERY ONLY WITH APPROVAL FROM OWNER OR OWNER'S REPRESENTATIVE. NO SUBSTITUTIONS SHALL BE MADE WITHOUT WRITTEN PERMISSION FROM THE OWNER'S REPRESENTATIVE.

b. MEASUREMENTS: THE HEIGHT AND/OR WIDTH OF TREES SHALL BE MEASURED FROM THE GROUND OR ACROSS THE NORMAL SPREAD OF BRANCHES WITH THE PLANTS IN THEIR NORMAL POSITION. THIS MEASUREMENT SHALL NOT INCLUDE THE IMMEDIATE TERMINAL GROWTH. PLANTS LARGER IN SIZE THAN THOSE SPECIFIED IN THE PLANT LIST MAY BE USED IF APPROVED BY THE OWNER. IF THE USE OF LARGER PLANTS IS APPROVED, THE BALL OF EARTH OR SPREAD OF ROOTS SHALL BE INCREASED IN PROPORTION TO THE SIZE OF THE PLANT.

c. INSPECTION: PLANTS SHALL BE SUBJECT TO INSPECTION AND APPROVAL AT THE PLACE OF GROWTH, OR UPON DELIVERY TO THE SITE, AS DETERMINED BY THE OWNER, FOR QUALITY, SIZE, AND VARIETY. SUCH APPROVAL SHALL NOT IMPAIR THE RIGHT OF INSPECTION AND REJECTION AT THE SITE DURING PROGRESS OF THE WORK OR AFTER COMPLETION FOR SIZE AND CONDITION OF ROOT BALLS OR ROOTS, LATENT DEFECTS OR INJURIES. REJECTED PLANTS SHALL BE REMOVED IMMEDIATELY FROM THE SITE. NOTICE REQUESTING INSPECTION SHALL BE SUBMITTED IN WRITING BY THE CONTRACTOR AT LEAST ONE (1) WEEK PRIOR TO ANTICIPATED DATE.

E. SOIL MIXTURE (PLANTING MEDIUM, PLANTING MIX, TOPSOIL MIX)

1. CONTRACTOR SHALL TEST EXISTING SOIL AND AMEND AS NECESSARY IN ACCORDANCE WITH THE GUIDELINES BELOW:

2. SOIL MIXTURE (PLANTING MEDIUM FOR PLANT PITS) SHALL CONSIST OF TWO PARTS OF TOPSOIL AND ONE PART SAND, AS DESCRIBED BELOW. CONTRACTOR TO SUBMIT SAMPLES AND PH TESTING RESULTS OF SOIL MIXTURE FOR OWNER'S REPRESENTATIVE APPROVAL PRIOR TO PLANT INSTALLATION OPERATIONS COMMENCE.

a. TOPSOIL FOR USE IN PREPARING SOIL MIXTURE FOR BACKFILLING PLANT PITS SHALL BE FERTILE, FRIABLE, AND OF A LOAMY CHARACTER; REASONABLY FREE OF SUBSOIL, CLAY LUMPS, BRUSH WEEDS AND OTHER LITTER; FREE OF ROOTS, STUMPS, STONES LARGER THAN 2" IN ANY DIRECTION, AND OTHER EXTRANEOUS OR TOXIC MATTER HARMFUL TO PLANT GROWTH. IT SHALL CONTAIN THREE (3) TO FIVE (5) PERCENT DECOMPOSED ORGANIC MATTER AND HAVE A PH BETWEEN 5.5 AND 7.0.

b. SAND SHALL BE COARSE, CLEAN, WELL-DRAINING, NATIVE SAND.

c. SOIL AMENDMENT (IF NEEDED PER SOIL TESTING) THE CONTRACTOR SHALL FURNISH AND INSTALL A 3" LAYER OF AMENDED PLANTING SOIL IN ALL PLANTING BEDS, EXCLUDING SOD AREAS. THE AMENDED PLANTING SOIL SHALL BE COMPOSED OF 35% FERTICOMP 20% FLORIDA PEAT 45% SANDY LOAM. THE AMENDED PLANTING SOIL SHALL BE MIXED INTO THE BEDS UPON PLANTING.

2. TREES SHALL BE PLANTED IN THE EXISTING NATIVE SOIL ON SITE, UNLESS DETERMINED TO BE UNSUITABLE - AT WHICH POINT THE CONTRACTOR SHALL CONTACT OWNER'S REPRESENTATIVE TO DISCUSS ALTERNATE RECOMMENDATION PRIOR TO PLANTING (SUBMIT SOIL TESTING RESULTS AFTER INCORPORATING AMENDMENTS TO DEMNSTRATE COMPLIANCE WITH SOIL QUALITY REQUIREMENTS .

F. WATER

1. WATER NECESSARY FOR PLANTING AND MAINTENANCE SHALL BE OF SATISFACTORY QUALITY TO SUSTAIN ADEQUATE PLANT GROWTH AND SHALL NOT CONTAIN HARMFUL, NATURAL OR MAN-MADE ELEMENTS DETRIMENTAL TO PLANTS. WATER MEETING THE ABOVE STANDARD SHALL BE OBTAINED ON THE SITE FROM THE OWNER, IF AVAILABLE, AND THE CONTRACTOR SHALL BE RESPONSIBLE TO MAKE ARRANGEMENTS FOR ITS USE BY HIS TANKS, HOSES, SPRINKLERS, ETC.... IF SUCH WATER IS NOT AVAILABLE AT THE SITE, THE CONTRACTOR SHALL PROVIDE SATISFACTORY WATER FROM SOURCES OFF THE SITE AT NO ADDITIONAL COST TO THE OWNER.

* WATERING/IRRIGATION RESTRICTIONS MAY APPLY - REFER TO PROPERTY'S JURISDICTIONAL AUTHORITY.

G. FERTILIZER

CONTRACTOR SHALL PROVIDE FERTILIZER APPLICATION SCHEDULE TO OWNER, AS APPLICABLE TO SOIL TYPE, PLANT INSTALLATION TYPE, AND SITE'S PROPOSED USE. SUGGESTED FERTILIZER TYPES SHALL BE ORGANIC OR OTHERWISE NATURALLY-DERIVED.

* FERTILIZER RESTRICTIONS MAY APPLY - REFER TO PROPERTY'S JURISDICTIONAL AUTHORITY.

H. MULCH

1. MULCH MATERIAL SHALL BE MOISTENED AT THE TIME OF APPLICATION TO PREVENT WIND DISPLACEMENT, AND APPLIED AT A DEPTH OF THREE (3) INCHES. CLEAR MULCH FROM EACH PLANT'S CROWN (BASE). MULCH SHALL BE "FLORIMULCH," EUCALYPTUS MULCH, OR SIMILAR SUSTAINABLY HARVESTED MULCH UNLESS SPECIFIED OTHERWISE.

2. PROVIDE A THREE (3) INCH MINIMUM LAYER OF SPECIFIED MULCH OVER THE ENTIRE AREA OF EACH SHRUB BED, GROUND COVER, VINE BED, AND TREE PIT (6' MINIMUM) PLANTED UNDER THIS CONTRACT.

I. DIGGING AND HANDLING

1. PROTECT ROOTS OR ROOT BALLS OF PLANTS AT ALL TIMES FROM SUN, DRYING WINDS, WATER AND FREEZING, AS NECESSARY UNTIL PLANTING. PLANT MATERIALS SHALL BE ADEQUATELY PACKED TO PREVENT DAMAGE DURING TRANSIT. TREES TRANSPORTED MORE THAN TEN (10) MILES OR WHICH ARE NOT PLANTED WITHIN THREE (3) DAYS OF DELIVERY TO THE SITE SHALL BE SPRAYED WITH AN ANTITRANSPIRANT PRODUCT ("WILTPRUF" OR EQUAL) TO MINIMIZE TRANSPIRATIONAL WATER LOSS.

2. BALLED AND BURLAPPED (B&B), AND FIELD GROWN (FG) PLANTS SHALL BE DUG WITH FIRM, NATURAL BALLS OF SOIL OF SUFFICIENT SIZE TO ENCOMPASS THE FIBROUS AND FEEDING ROOTS OF THE PLANTS. NO PLANTS MOVED WITH A ROOT BALL SHALL BE PLANTED IF THE BALL IS CRACKED OR BROKEN. PLANTS SHALL NOT BE HANDLED BY STEMS.

3. PLANTS MARKED "BR" IN THE PLANT LIST SHALL BE DUG WITH BARE ROOTS. CARE SHALL BE EXERCISED THAT THE ROOTS DO NOT DRY OUT DURING TRANSPORTATION AND PRIOR TO PLANTING.

4. PROTECTION OF PALMS: ONLY A MINIMUM OF FRONDS SHALL BE REMOVED FROM THE CROWN OF THE PALM TREES TO FACILITATE MOVING AND HANDLING. CLEAR TRUNK (CT) SHALL BE AS SPECIFIED AFTER THE MINIMUM OF FRONDS HAVE BEEN REMOVED. ALL PALMS SHALL BE BRACED PER PALM PLANTING DETAIL.

5. EXCAVATION OF TREE PITS SHALL BE PERFORMED USING EXTREME CARE TO AVOID DAMAGE TO SURFACE AND SUBSURFACE ELEMENTS SUCH AS UTILITIES OR HARDSCAPE ELEMENTS, FOOTERS AND PREPARED SUB-BASES.

J. CONTAINER GROWN STOCK

1. ALL CONTAINER GROWN MATERIAL SHALL BE HEALTHY, VIGOROUS, WELL-ROOTED PLANTS ESTABLISHED IN THE CONTAINER IN WHICH THEY ARE SOLD. THE PLANTS SHALL HAVE TOPS WHICH ARE OF GOOD QUALITY AND ARE IN A HEALTHY GROWING CONDITION.

2. AN ESTABLISHED CONTAINER GROWN PLANT SHALL BE TRANSPLANTED INTO A CONTAINER AND GROWN IN THAT CONTAINER SUFFICIENTLY LONG ENOUGH FOR THE NEW FIBROUS ROOTS TO HAVE DEVELOPED SO THAT THE ROOT MASS WILL RETAIN ITS SHAPE AND HOLD TOGETHER WHEN REMOVED FROM THE CONTAINER. CONTAINER GROWN STOCK SHALL NOT BE HANDLED BY THEIR STEMS.

3. ROOT BOUND PLANTS ARE NOT ACCEPTABLE AND WILL BE REJECTED.

4. RPG= "ROOTS PLUS GROWER" CONTAINER PRODUCTS SHALL BE USED WHERE SPECIFIED.

K. COLLECTED STOCK

WHEN THE USE OF COLLECTED STOCK IS PERMITTED AS INDICATED BY THE OWNER OR OWNER'S REPRESENTATIVE, THE MINIMUM SIZES OF ROOTBALLS SHALL BE EQUAL TO THAT SPECIFIED FOR THE NEXT LARGER SIZE OF NURSERY GROWN STOCK OF THE SAME VARIETY.

L. NATIVE STOCK

PLANTS COLLECTED FROM WILD OR NATIVE STANDS SHALL BE CONSIDERED NURSERY GROWN WHEN THEY HAVE BEEN SUCCESSFULLY RE-ESTABLISHED IN A NURSERY ROW AND GROWN UNDER REGULAR NURSERY CULTURAL PRACTICES FOR A MINIMUM OF TWO (2) GROWING SEASONS AND HAVE ATTAINED ADEQUATE ROOT AND TOP GROWTH TO INDICATE FULL RECOVERY FROM TRANSPLANTING INTO THE NURSERY ROW.

M. MATERIALS LIST

QUANTITIES NECESSARY TO COMPLETE THE WORK ON THE DRAWINGS SHALL BE FURNISHED BY THE CONTRACTOR. QUANTITY ESTIMATES HAVE BEEN MADE CAREFULLY, BUT THE LANDSCAPE ARCHITECT OR OWNER ASSUMES NO LIABILITY FOR OMISSIONS OR ERRORS. SHOULD A DISCREPANCY OCCUR BETWEEN THE PLANS AND THE PLANT LIST QUANTITY, THE OWNER'S REPRESENTATIVE SHALL BE NOTIFIED FOR CLARIFICATION PRIOR TO BIDDING OR INSTALLATION. ALL DIMENSIONS AND/OR SIZES SPECIFIED SHALL BE THE MINIMUM ACCEPTABLE SIZE.

N. FINE GRADING

1. FINE GRADING UNDER THIS CONTRACT SHALL CONSIST OF FINAL FINISHED GRADING OF LAWN AND PLANTING AREAS THAT HAVE BEEN ROUGH GRADED BY OTHERS. BERMING AS SHOWN ON THE DRAWINGS SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR, UNLESS OTHERWISE NOTED.

2. THE CONTRACTOR SHALL FINE GRADE THE LAWN AND PLANTING AREAS TO BRING THE ROUGH GRADE UP TO FINAL FINISHED GRADE ALLOWING FOR THICKNESS OF SOD AND/OR MULCH DEPTH. CONTRACTOR SHALL FINE GRADE BY HAND AND/OR WITH ALL EQUIPMENT NECESSARY INCLUDING A GRADING TRACTOR WITH FRONT-END LOADER FOR TRANSPORTING SOIL WITHIN THE SITE.

3. ALL PLANTING AREAS SHALL BE GRADED AND MAINTAINED FOR POSITIVE DRAINAGE TO SURFACE/SUBSURFACE STORM DRAIN SYSTEMS. AREAS ADJACENT TO BUILDINGS SHALL SLOPE AWAY FROM THE BUILDINGS. REFER TO CIVIL ENGINEER'S PLANS FOR FINAL GRADES, IF APPLICABLE.

O. PLANTING PROCEDURES

1. CLEANING UP BEFORE COMMENCING WORK: THE CONTRACTOR SHALL CLEAN WORK AND SURROUNDING AREAS OF ALL RUBBISH OR OBJECTIONABLE MATTER DAILY. ALL MORTAR, CEMENT, AND TOXIC MATERIAL SHALL BE REMOVED FROM THE SURFACE OF ALL PLANT BEDS. THESE MATERIALS SHALL NOT BE MIXED WITH THE SOIL. SHOULD THE CONTRACTOR FIND SUCH SOIL CONDITIONS BENEATH THE SOIL WHICH WILL IN ANY WAY ADVERSELY AFFECT THE PLANT GROWTH, HE SHALL IMMEDIATELY CALL IT TO THE ATTENTION OF THE OWNER'S REPRESENTATIVE. FAILURE TO DO SO BEFORE PLANTING SHALL MAKE THE CORRECTIVE MEASURES THE RESPONSIBILITY OF THE CONTRACTOR.

2. VERIFY LOCATIONS OF ALL UTILITIES, CONDUITS, SUPPLY LINES AND CABLES, INCLUDING BUT NOT LIMITED TO: ELECTRIC, GAS (LINES AND TANKS), WATER, SANITARY SEWER, STORMWATER SYSTEMS, CABLE, AND TELEPHONE. PROPERLY MAINTAIN AND PROTECT EXISTING UTILITIES. CALL SUNSHINE STATE ONE CALL OF FLORIDA, INC. (811) TO LOCATE UTILITIES AT LEAST 48 HOURS PRIOR TO CONSTRUCTION.

3. SUBGRADE EXCAVATION: CONTRACTOR IS RESPONSIBLE TO REMOVE ALL EXISTING AND IMPORTED LIMEROCK AND LIMEROCK SUB-BASE FROM ALL LANDSCAPE PLANTING AREAS TO A MINIMUM DEPTH OF 36" OR TO NATIVE SOIL, CONTRACTOR IS RESPONSIBLE TO BACKFILL THESE PLANTING AREAS TO ROUGH FINISHED GRADE WITH CLEAN TOPSOIL FROM AN ON-SITE SOURCE OR AN IMPORTED SOURCE. IF LIMEROCK OR OTHER ADVERSE CONDITIONS OCCUR IN PLANTED AREAS AFTER 36" DEEP EXCAVATION BY THE CONTRACTOR, AND POSITIVE DRAINAGE CAN NOT BE ACHIEVED, CONTRACTOR SHALL UTILIZE POOR DRAINAGE CONDITION PLANTING DETAIL.

4. FURNISH NURSERY'S CERTIFICATE OF COMPLIANCE WITH ALL REQUIREMENTS AS SPECIFIED HEREIN. INSPECT AND SELECT PLANT MATERIALS BEFORE PLANTS ARE DUG AT NURSERY OR GROWING SITE.

5. COMPLY WITH APPLICABLE FEDERAL, STATE, COUNTY, AND LOCAL REGULATIONS GOVERNING LANDSCAPE MATERIALS AND WORK. CONFORM TO ACCEPTED HORTICULTURAL PRACTICES AS USED IN THE TRADE. UPON ARRIVAL AT THE SITE, PLANTS SHALL BE THOROUGHLY WATERED AND PROPERLY MAINTAINED UNTIL PLANTED. PLANTS STORED ONSITE SHALL NOT REMAIN UNPLANTED OR APPROPRIATELY HEALED IN FOR A PERIOD EXCEEDING TWENTY-FOUR (24) HOURS. AT ALL TIMES WORKMANLIKE METHODS CUSTOMARY IN GOOD HORTICULTURAL PRACTICES SHALL BE EXERCISED.

6. THE WORK SHALL BE COORDINATED WITH OTHER TRADES TO PREVENT CONFLICTS. COORDINATE PLANTING WITH IRRIGATION WORK TO ASSURE AVAILABILITY OF WATER AND PROPER LOCATION OF IRRIGATION APPURTENANCES AND PLANTS.

7. ALL PLANTING PITS SHALL BE EXCAVATED TO SIZE AND DEPTH IN ACCORDANCE WITH THE USA STANDARD FOR NURSERY STOCK 260.1, UNLESS SHOWN OTHERWISE ON THE DRAWINGS, AND BACK FILLED WITH THE PREPARED PLANTING SOIL MIXTURE AS SPECIFIED IN SECTION E. TEST ALL TREE PITS WITH WATER BEFORE PLANTING TO ASSURE PROPER DRAINAGE PERCOLATION IS AVAILABLE. NO ALLOWANCE WILL BE MADE FOR LOST PLANTS DUE TO IMPROPER DRAINAGE. IF POOR DRAINAGE EXISTS, UTILIZE "POOR DRAINAGE CONDITION" PLANTING DETAIL. TREES SHALL BE SET PLUMB AND HELD IN POSITION UNTIL THE PLANTING MIXTURE HAS BEEN FLUSHED INTO PLACE WITH A SLOW, FULL HOSE STREAM. ALL PLANTING SHALL BE PERFORMED BY PERSONNEL FAMILIAR WITH PLANTING PROCEDURES AND UNDER THE SUPERVISION OF A QUALIFIED LANDSCAPE FOREMAN. PROPER "JETTING IN" SHALL BE ASSURED TO ELIMINATE AIR POCKETS AROUND THE ROOTS. "JET STICK" OR EQUAL IS RECOMMENDED.

8. TAKE ALL NECESSARY PRECAUTIONS TO AVOID DAMAGE TO BUILDINGS AND BUILDING STRUCTURES WHILE INSTALLING TREES.

9. SOIL MIXTURE SHALL BE AS SPECIFIED IN SECTION E OF THESE SPECIFICATIONS.

10. TREES AND SHRUBS SHALL BE SET STRAIGHT AT AN ELEVATION THAT, AFTER SETTLEMENT, THE PLANT CROWN WILL STAND ONE (1) TO TWO (2) INCHES ABOVE GRADE. EACH PLANT SHALL BE SET IN THE CENTER OF THE PIT. PLANTING SOIL MIXTURE SHALL BE BACK FILLED, THOROUGHLY TAMPED AROUND THE BALL, AND SETTLED BY WATER (AFTER TAMPING).

11. AMEND PINE AND OAK PLANT PITS WITH ECTOMYCORRHIZAL SOIL APPLICATION PER MANUFACTURER'S RECOMMENDATION. ALL OTHER PLANT PITS SHALL BE AMENDED WITH ENDOMYCORRHIZAL SOIL APPLICATION PER MANUFACTURER'S RECOMMENDATION. PROVIDE PRODUCT INFORMATION SUBMITTAL PRIOR TO INOCULATION.

12. FILL HOLE WITH SOIL MIXTURE, MAKING CERTAIN ALL SOIL IS SATURATED. TO DO THIS, FILL HOLE WITH WATER AND ALLOW TO SOAK MINIMUM TWENTY (20) MINUTES, STIRRING IF NECESSARY TO GET SOIL THOROUGHLY WET. PACK LIGHTLY WITH FEET, ADD MORE WET SOIL MIXTURE. DO NOT COVER TOP OF BALL WITH SOIL MIXTURE. ALL BURLAP, ROPE, WIRES, BASKETS, ETC... SHALL BE REMOVED FROM THE SIDES AND TOPS OF BALLS, BUT NO BURLAP SHALL BE PULLED FROM UNDERNEATH.

13. TREES SHALL BE PRUNED, AT THE DIRECTION OF THE OWNER OR OWNER'S REPRESENTATIVE, TO PRESERVE THE NATURAL CHARACTER OF THE PLANT. ALL SOFT WOOD OR SUCKER GROWTH AND ALL BROKEN OR BADLY DAMAGED BRANCHES SHALL BE REMOVED WITH A CLEAN CUT. ALL PRUNING TO BE PERFORMED BY CERTIFIED ARBORIST, IN ACCORDANCE WITH ANSI A-300.

14. SHRUBS AND GROUND COVER PLANTS SHALL BE EVENLY SPACED IN ACCORDANCE WITH THE DRAWINGS AND AS INDICATED ON THE PLANT LIST. MATERIALS INSTALLED SHALL MEET MINIMUM SPECIMEN REQUIREMENTS OR QUANTITIES SHOW ON PLANS, WHICHEVER IS GREATER. CULTIVATE ALL PLANTING AREAS TO A MINIMUM DEPTH OF 6", REMOVE AND DISPOSE ALL DEBRIS. MIX TOP 4" THE PLANTING SOIL MIXTURE AS SPECIFIED IN SECTION E. THOROUGHLY WATER ALL PLANTS AFTER INSTALLATION.

15. TREE GUYING AND BRACING SHALL BE INSTALLED BY THE CONTRACTOR IN ACCORDANCE WITH THE PLANS TO INSURE STABILITY AND MAINTAIN TREES IN AN UPRIGHT POSITION. IF THE CONTRACTOR AND OWNER DECIDE TO WAIVE THE TREE GUYING AND BRACING, THE OWNER SHALL NOTIFY THE PROJECT LANDSCAPE ARCHITECT IN WRITING AND AGREE TO INDEMNIFY AND HOLD HARMLESS THE PROJECT LANDSCAPE ARCHITECT IN THE EVENT UNSUPPORTED TREES PLANTED UNDER THIS CONTRACT FALL AND DAMAGE PERSON OR PROPERTY.

16. ALL PLANT BEDS SHALL BE KEPT FREE OF NOXIOUS WEEDS UNTIL FINAL ACCEPTANCE OF WORK. IF DIRECTED BY THE OWNER, "ROUND-UP" SHALL BE APPLIED FOR WEED CONTROL BY QUALIFIED PERSONNEL TO ALL PLANTING AREAS IN SPOT APPLICATIONS PER MANUFACTURER'S PRECAUTIONS AND SPECIFICATIONS. PRIOR TO FINAL INSPECTION, TREAT ALL PLANTING BEDS WITH AN APPROVED PRE-EMERGENT HERBICIDE AT AN APPLICATION RATE RECOMMENDED BY THE MANUFACTURER. (AS ALLOWED BY JURISDICTIONAL AUTHORITY)

P. LAWN SODDING

1. THE WORK CONSISTS OF LAWN BED PREPARATION, SOIL PREPARATION, AND SODDING COMPLETE, IN STRICT ACCORDANCE WITH THE SPECIFICATIONS AND THE APPLICABLE DRAWINGS TO PRODUCE A TURF GRASS LAWN ACCEPTABLE TO THE OWNER.

2. ALL AREAS THAT ARE TO BE SODDED SHALL BE CLEARED OF ANY ROUGH GRASS, WEEDS, AND DEBRIS BY MEANS OF A SOD CUTTER TO A DEPTH OF THREE (3) INCHES, AND THE GROUND BROUGHT TO AN EVEN GRADE. THE ENTIRE SURFACE SHALL BE ROLLED WITH A ROLLER WEIGHING NOT MORE THAN ONE-HUNDRED (100) POUNDS PER FOOT OF WIDTH. DURING THE ROLLING, ALL DEPRESSIONS CAUSED BY SETTLEMENT SHALL BE FILLED WITH ADDITIONAL SOIL, AND THE SURFACE SHALL BE REGRADED AND ROLLED UNTIL PRESENTING A SMOOTH AND EVEN FINISH TO THE REQUIRED GRADE.

3. PREPARE LOOSE BED FOUR (4) INCHES DEEP. HAND RAKE UNTIL ALL BUMPS AND DEPRESSIONS ARE REMOVED. WET PREPARED AREA THOROUGHLY.

4. SODDING

a. THE CONTRACTOR SHALL SOD ALL AREAS THAT ARE NOT PAVED OR PLANTED AS DESIGNATED ON THE DRAWINGS WITHIN THE CONTRACT LIMITS, UNLESS SPECIFICALLY NOTED OTHERWISE.

b. THE SOD SHALL BE CERTIFIED TO MEET FLORIDA STATE PLANT BOARD SPECIFICATIONS, ABSOLUTELY TRUE TO VARIETAL TYPE, AND FREE FROM WEEDS, FUNGUS, INSECTS AND DISEASE OF ANY KIND.

c. SOD PANELS SHALL BE LAID TIGHTLY TOGETHER SO AS TO MAKE A SOLID SODDED LAWN AREA. SOD SHALL BE LAID UNIFORMLY AGAINST THE EDGES OF ALL CURBS AND OTHER HARDSCAPE ELEMENTS, PAVED AND PLANTED AREAS. ADJACENT TO BUILDINGS, A 24 INCH STONE MULCH STRIP SHALL BE PROVIDED. IMMEDIATELY FOLLOWING SOD LAYING, THE LAWN AREAS SHALL BE ROLLED WITH A LAWN ROLLER CUSTOMARILY USED FOR SUCH PURPOSES, AND THEN THOROUGHLY IRRIGATED. IF, IN THE OPINION OF THE OWNER, TOP-DRESSING IS NECESSARY AFTER ROLLING TO FILL THE VOIDS BETWEEN THE SOD PANELS AND TO EVEN OUT INCONSISTENCIES IN THE SOD, CLEAN SAND, AS APPROVED BY THE OWNER'S REPRESENTATIVE, SHALL BE UNIFORMLY SPREAD OVER THE ENTIRE SURFACE OF THE SOD AND THOROUGHLY WATERED IN. FERTILIZE INSTALLED SOD AS ALLOWED BY PROPERTY'S JURISDICTIONAL AUTHORITY.

5. DURING DELIVERY, PRIOR TO, AND DURING THE PLANTING OF THE LAWN AREAS, THE SOD PANELS SHALL AT ALL TIMES BE PROTECTED FROM EXCESSIVE DRYING AND UNNECESSARY EXPOSURE OF THE ROOTS TO THE SUN. ALL SOD SHALL BE STACKED SO AS NOT TO BE DAMAGED BY SWEATING OR EXCESSIVE HEAT AND MOISTURE.

6. LAWN MAINTENANCE

a. WITHIN THE CONTRACT LIMITS, THE CONTRACTOR SHALL PRODUCE A DENSE, WELL ESTABLISHED LAWN. THE CONTRACTOR SHALL BE RESPONSIBLE FOR THE REPAIR AND RE-SODDING OF ALL ERODED, SUNKEN OR BARE SPOTS (LARGER THAN 12"X12") UNTIL CERTIFICATION OF ACCEPTANCE BY THE OWNER'S REPRESENTATIVE. REPAIRED SODDING SHALL BE ACCOMPLISHED AS IN THE ORIGINAL WORK (INCLUDING REGRADING IF NECESSARY).

b. CONTRACTOR RESPONSIBLE FOR ESTABLISHING AND MAINTAINING SOD/LAWN UNTIL ACCEPTANCE BY THE OWNER'S REPRESENTATIVE. PRIOR TO AND UPON ACCEPTANCE, CONTRACTOR TO PROVIDE WATERING/IRRIGATION SCHEDULE TO OWNER. OBSERVE ALL APPLICABLE WATERING RESTRICTIONS AS SET FORTH BY THE PROPERTY'S JURISDICTIONAL AUTHORITY.

Q. CLEANUP

UPON COMPLETION OF ALL PLANTING WORK AND BEFORE FINAL ACCEPTANCE, THE CONTRACTOR SHALL REMOVE ALL MATERIAL, EQUIPMENT, AND DEBRIS RESULTING FROM HIS WORK. ALL PAVED AREAS SHALL BE CLEANED AND THE SITE LEFT IN A NEAT AND ACCEPTABLE CONDITION AS APPROVED BY THE OWNER'S REPRESENTATIVE.

R. PLANT MATERIAL MAINTENANCE

ALL PLANTS AND PLANTING INCLUDED UNDER THIS CONTRACT SHALL BE MAINTAINED BY WATERING, CULTIVATING, SPRAYING, AND ALL OTHER OPERATIONS (SUCH AS RE-STAKING OR REPAIRING GUY SUPPORTS) NECESSARY TO INSURE A HEALTHY PLANT CONDITION BY THE CONTRACTOR UNTIL CERTIFICATION OF ACCEPTANCE BY THE OWNER'S REPRESENTATIVE.

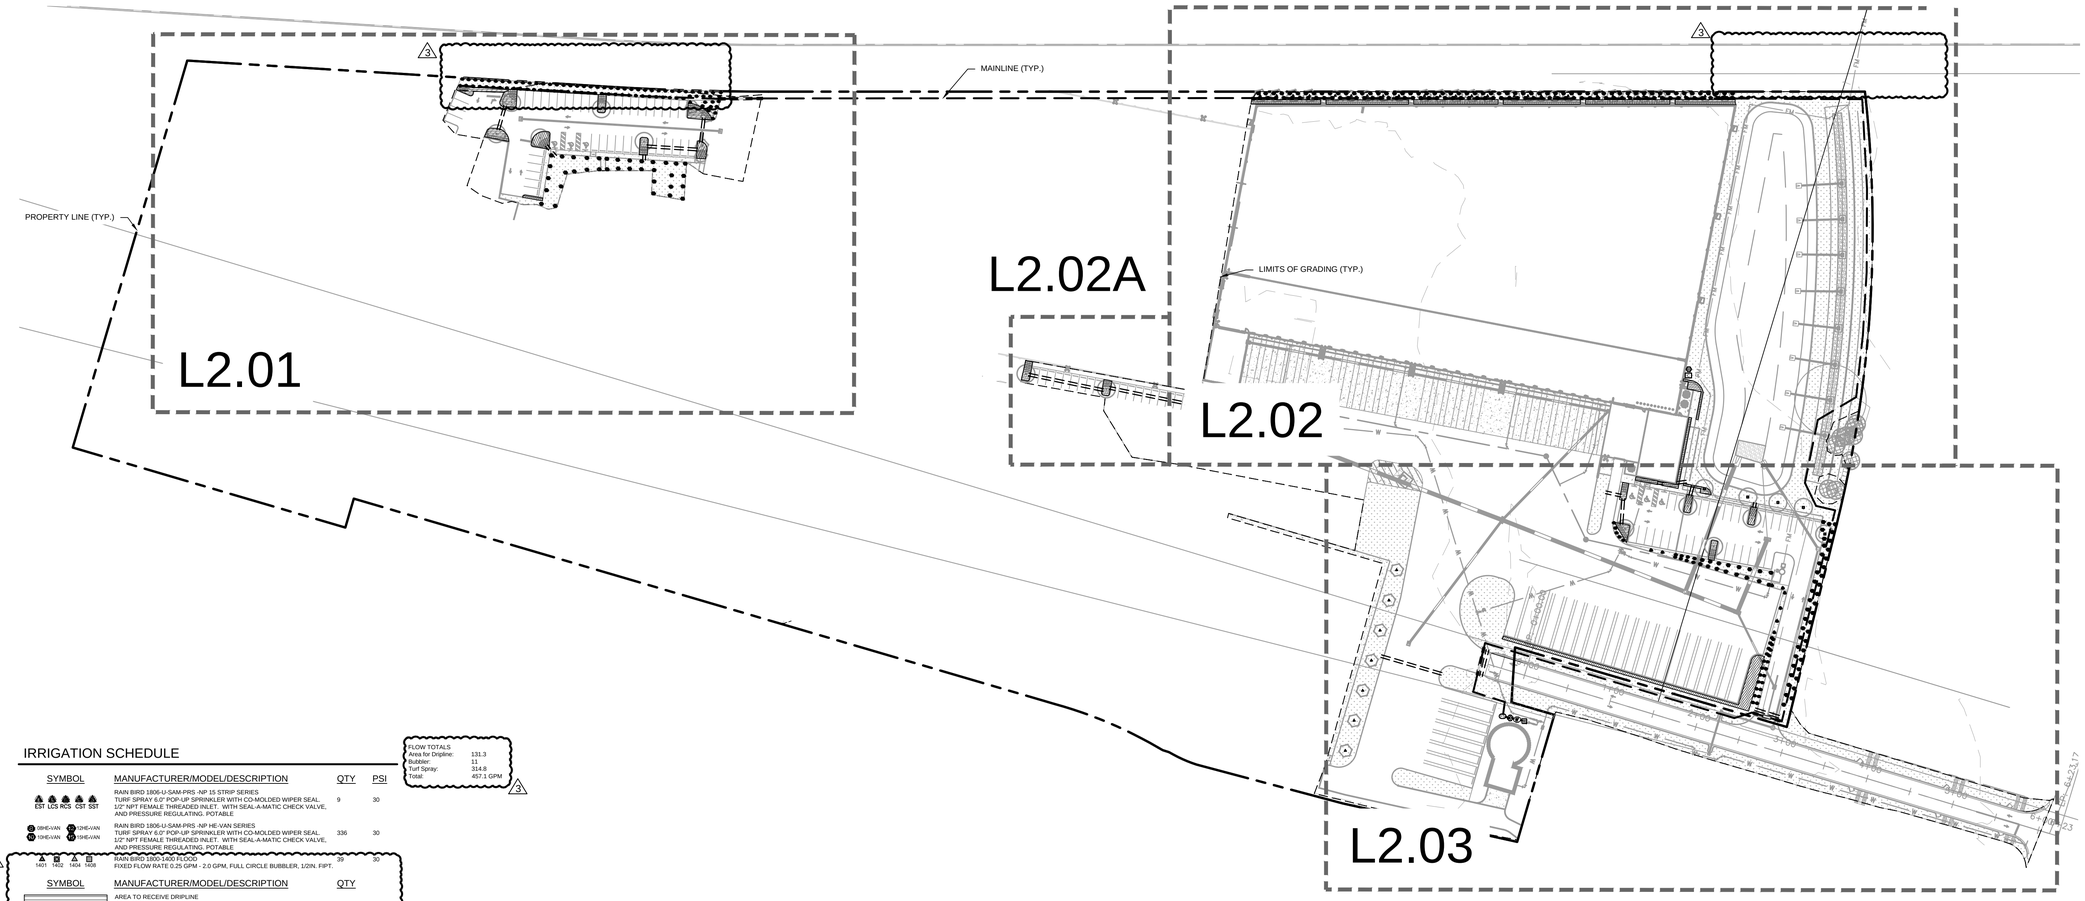
S. FINAL INSPECTION AND ACCEPTANCE OF WORK

FINAL INSPECTION AT THE END OF THE WARRANTY PERIOD SHALL BE ON PLANTING, CONSTRUCTION AND ALL OTHER INCIDENTAL WORK PERTAINING TO THIS CONTRACT. ANY REPLACEMENT AT THIS TIME SHALL BE SUBJECT TO THE SAME ONE (1) YEAR WARRANTY (OR AS SPECIFIED BY THE LANDSCAPE ARCHITECT OR OWNER IN WRITING) BEGINNING WITH THE TIME OF REPLACEMENT AND ENDING WITH THE SAME INSPECTION AND ACCEPTANCE HEREIN DESCRIBED.

T. WARRANTY

1. THE LIFE AND SATISFACTORY CONDITION OF ALL PLANT MATERIAL INSTALLED (INCLUDING SOD) BY THE LANDSCAPE CONTRACTOR SHALL BE WARRANTED BY THE CONTRACTOR FOR A MINIMUM OF ONE (1) CALENDAR YEAR COMMENCING AT THE TIME OF CERTIFICATION OF ACCEPTANCE BY THE OWNER'S REPRESENTATIVE.

2. ANY PLANT NOT FOUND IN A HEALTHY GROWING CONDITION AT THE END OF THE WARRANTY PERIOD SHALL BE REMOVED FROM THE SITE AND REPLACED AS SOON AS WEATHER CONDITIONS PERMIT. ALL REPLACEMENTS SHALL BE PLANTS OF THE SAME KIND AND SIZE AS SPECIFIED IN THE PL



IRRIGATION SCHEDULE

IRRIGATION NOTES

1. CONTRACTOR SHALL VERIFY ALL DIMENSIONS, ELEVATIONS, EQUIPMENT QUANTITIES, ETC. PRIOR TO BEGINNING WORK.
2. CONTRACTOR SHALL NOTIFY LANDSCAPE ARCHITECT OF ANY DISCREPANCIES IN PLANS OR SPECIFICATIONS PRIOR TO BEGINNING OR CONTINUING WORK.
3. THE CONTRACTOR SHALL MAKE NO SUBSTITUTIONS, DELETIONS, OR ADDITIONS TO THIS PLAN WITHOUT APPROVAL OF THE LANDSCAPE ARCHITECT.
4. ALL CONSTRUCTION SHALL CONFORM TO CITY, COUNTY, STATE, AND FEDERAL REQUIREMENTS. IT SHALL BE THE RESPONSIBILITY OF THE IRRIGATION CONTRACTOR TO ENSURE THAT ALL IRRIGATION EQUIPMENT MEETS GOVERNMENT REGULATIONS. CONTRACTOR SHALL ALSO BE RESPONSIBLE FOR OBTAINING ANY NECESSARY PERMITS OR APPROVALS.
5. THIS PLAN IS SCHEMATIC AND DUE TO THE NATURE OF CONSTRUCTION SLIGHT FIELD MODIFICATIONS MAY BE NECESSARY TO IMPLEMENT PLAN.
6. CONTRACTOR TO VERIFY ACTUAL AVAILABLE WATER PRESSURE BEFORE BEGINNING INSTALLATION. CONTRACTOR SHALL NOTIFY LANDSCAPE ARCHITECT IF AVAILABLE WATER PRESSURE WILL NOT ALLOW SYSTEM MODIFICATION TO BE POSSIBLE.
7. IRRIGATION SYSTEMS CONNECTED TO POTABLE WATER SUPPLY, SHALL HAVE A BACKFLOW PREVENTER INSTALLED.
8. WHERE APPLICABLE IRRIGATION HEADS ARE TO BE ADJUSTED FOR COMPLETE COVERAGE WITH MINIMUM OVER SPRAY BEYOND LANDSCAPE AREAS.
9. EXISTING TREES TO REMAIN ARE TO BE PROTECTED FROM DAMAGE. DO NOT TRENCH OR EXCAVATE WITHIN THE CRITICAL ROOT ZONE OF ANY TREE.
10. ALL IRRIGATION SLEEVING TO BE THE RESPONSIBILITY OF THE IRRIGATION CONTRACTOR. ELECTRICAL WIRES FOR IRRIGATION VALVES AND IRRIGATION LINES ARE TO BE PLACED IN SEPARATE SLEEVES.
11. IRRIGATION CONTRACTOR SHALL REVIEW WINTERIZATION PROCEDURES FOR IRRIGATION SYSTEM WITH OWNER'S REPRESENTATIVE.
12. ALL PLANT MATERIAL IN TREE HOLDING AREAS SHALL BE MANUALLY WATERED/IRRIGATED TO KEEP MOIST UNTIL PLANTED.
13. CONTRACTOR TO PROVIDE PERMANENT BENCH-MARKS ON ALL CURB LINES AT RELATED SLEEVE LOCATIONS (TYP).
14. THE IRRIGATION SYSTEM SHALL BE DESIGNED AND INSTALLED TO MINIMIZE ROOT DISTURBANCE IN EXISTING TREES.
15. IRRIGATION SPRAYS AND ROTORS ARE NOT COMBINED ON THE SAME CONTROL VALVE CIRCUIT - LANDSCAPE BEDS AND TURF ON SEPARATE CIRCUITS.

IRRIGATION SYSTEM NOTES:

1. THE IRRIGATION MAINLINE LAYOUT IS DIAGRAMMATIC. ANY CHANGES MADE IN THE IRRIGATION MAINLINE DUE TO FIELD CONDITIONS OR CONTRACTOR'S SUBMITTED DESIGN SHALL BE IN ACCORDANCE WITH THESE STANDARDS.
2. SET SPRAY HEADS 6" AND ROTORS 12" IN FROM BACK OF CURB OR 24" IF PAVEMENT HAS NO CURB.
3. IRRIGATION CONTRACTOR IS RESPONSIBLE FOR PERFORMING ALL NECESSARY MODIFICATIONS REQUIRED TO MEET THE SCHEMATIC INTENT OF THESE PLANS PRIOR TO SUBMITTING PROPOSAL. THESE PLANS OUTLINE THE OVERALL LAYOUT THE SYSTEM AND IT SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR TO ZONE THE SYSTEM ACCORDINGLY BASED ON FLOW AND PRESSURE AVAILABLE. CONTRACTOR SHALL BE RESPONSIBLE FOR VERIFYING THE FOLLOWING BUT NOT LIMITED TO AVAILABLE FLOW, AVAILABLE PRESSURE, CONNECTION ASSEMBLY, CAPACITY OF THE SYSTEM.
4. CONTRACTOR TO PROVIDE NEW AUTOMATIC CONTROLLER FOR PROPOSED SYSTEM (NO BATTERY OPERATED CONTROLLERS ALLOWED). COORDINATE LOCATION WITH OWNER.
5. CONTRACTOR SHALL BE RESPONSIBLE FOR PROVIDING AUTOMATIC RAIN SENSOR. COORDINATE LOCATION W/ OWNER.
6. IRRIGATION SHALL NOT BE COMBINED ON A SINGLE ZONE AND SHALL BE ZONED ACCORDING TO IRRIGATION TYPE, PRECIPITATION RATE, AND THE SYSTEM'S AVAILABLE WATER / PRESSURE. CONTRACTOR TO SUBMIT SHOP DRAWINGS TO OWNER FOR REVIEW PRIOR TO INSTALLATION.
7. VERIFY LOCATIONS OF ALL UNDERGROUND UTILITIES PRIOR TO INSTALLATION OF IRRIGATION SYSTEM. ALL UTILITIES AND STRUCTURES MAY NOT BE SHOWN ON THESE PLANS-CONTRACTOR SHALL FIELD VERIFY.
8. CONTRACTOR TO FIELD VERIFY ALL POINT OF CONNECTION SOURCE INFORMATION INCLUDING PSI AND GPM PRIOR TO CONSTRUCTION.
9. INSTALLATION OF WORK SHALL BE COORDINATED WITH OTHER CONTRACTORS IN SUCH A MANNER AS TO ALLOW FOR A SPEEDY AND ORDERLY COMPLETION OF ALL WORK ON-SITE.
10. CONTRACTOR SHALL COORDINATE WITH THE PLANTING PLAN FOR PLANTER BED AND TREE LOCATIONS TO ENSURE ALL PLANT MATERIAL IS COVERED BY 100% HEAD-TO-HEAD IRRIGATION.
11. CONTRACTOR SHALL PROVIDE "AS-BUILT" DRAWINGS OF THE FINAL INSTALLATION TO OWNER AT SUBSTANTIAL COMPLETION BEFORE RECEIVING FINAL PAYMENT.
12. PRODUCTS SHALL BE AS SPECIFIED OR APPROVED EQUAL.

PRE-APPROVED MANUFACTURERS:
1. TORO
2. HUNTER
3. RAINBIRD

13. IRRIGATION CONTRACTOR SHALL SECURE ANY AND ALL NECESSARY PERMITS FOR THE WORK PRIOR TO COMMENCEMENT OF HIS OPERATIONS ON-SITE. COPIES OF THE PERMITS SHALL BE SENT TO THE OWNER/GENERAL CONTRACTOR. WORK IN THE R.O.W. SHALL CONFORM TO THE STANDARDS AND SPECIFICATIONS OF LOCAL AND/OR STATE JURISDICTION.
14. LOCATE ALL IRRIGATION LINES WITHIN LANDSCAPED AREAS WHENEVER POSSIBLE. ALL LINES UNDER PAVEMENT MUST BE SLEEVED WITHIN SCH. 40 PVC 2x SIZE OF PIPE AND FREE OF STONES/DEBRIS. ALL VALVES SHALL BE LOCATED WITHIN LANDSCAPED AREAS.
15. MAINLINE SHALL NOT BE LOCATED WITHOUT PRIOR APPROVAL OF THE OWNER'S REPRESENTATIVE.
16. THE IRRIGATION CONTRACTOR SHALL BE DIRECTLY RESPONSIBLE FOR SLEEVING AND DIRECTIONAL BORES.
17. ALL SLEEVES UTILIZED BY THE IRRIGATION CONTRACTOR WHETHER INSTALLED BY HIM OR NOT, SHALL BE LOCATED ON THE "AS-BUILT" DRAWINGS. THE DEPTH BELOW FINISH GRADE, TO THE NEAREST FOOT OF EACH END OF THE SLEEVE SHALL BE NOTED AT EACH SLEEVE LOCATION ON THE "AS-BUILT" DRAWINGS. ALL SLEEVES ON PLAN FOR WALL PENETRATIONS AND UNDER SIDEWALKS SHALL BE SIZED TWO PIPE SIZES GREATER THAN THE PIPE IT CARRIES.
18. ALL PRESSURIZED MAINLINES AND LATERALS UNDER PAVEMENT SHALL BE WITHIN SCH. 40 PVC SLEEVES. WHERE ELECTRIC OR HYDRAULIC VALVE CONTROL LINES PASS THROUGH A SLEEVE WITH OTHER MAIN OR LATERAL LINES THEY SHALL BE CONTAINED WITHIN A SEPARATE, SMALLER CONDUIT.
19. NUMBER THE TOP OF ALL VALVE BOX LIDS WITH MINIMUM 1" HEIGHT BLACK LETTERS TO CORRESPOND TO AUTOMATIC AND GATE VALVE DESIGNATIONS. ALL HOSE BIBB VALVE BOXES SHALL BE LABELED IN A SIMILAR MANNER WITH THE DESIGNATION "HB". LETTER OUTSIDE OF TIME CLOCK CABINETS TO CORRESPOND WITH IRRIGATION CLOCK PROGRAM DESIGNATION.
20. THE IRRIGATION CONTRACTOR SHALL INSTALL A COLOR CODED METAL DETECTABLE MARKING TAPE WHICH CLEARLY NOTES: "CAUTION: IRRIGATION LINE BURIED BELOW." THE TAPE SHALL BE INSTALLED THE FULL LENGTH OF THE IRRIGATION MAINLINE.
21. ELECTRIC SERVICE TO THE CONTROLLER SHALL BE PROVIDED BY THE GENERAL CONTRACTOR.
22. ALL 24 VAC WIRING FROM DECODER TO VALVE SHALL BE OF DIRECT BURIAL COPPER WIRE. MAXIMUM LENGTH OF WIRE FROM DECODER TO VALVE SHALL NOT EXCEED 400 FEET. AS FOLLOWS:
    CONTROL WIRES - #14
    COMMON WIRES - #14
23. ALL VALVES, SPLICES WITHIN CONTROL LINES, AND QUICK COUPLERS SHALL BE LOCATED WITHIN NDS VALVE BOXES AS FOLLOWS:
    -RECTANGULAR 12"X17" HEAVY DUTY BOX. (PURPLE COVER FOR REUSE TO BE PROVIDED WHERE APPROPRIATE).
24. ALL IRRIGATION HEADS/DRIP TUBING SHALL BE LOCATED ONE (1) FOOT FROM BACK OF CURB WHEN NEXT TO A ROADWAY. (THIS SHALL NOT INCLUDE PARKING AREAS OR DRIVE AISLES).
25. HEADS, LATERALS, EMITTERS, AND VALVES ARE NOT SHOWN, BUT ARE NECESSARY FOR A FULLY FUNCTIONING IRRIGATION SYSTEM.
26. LOCATE ALL VALVES IN PLANTING BEDS WITH A MINIMUM OF 3'-0" FROM BACK OF CURB OR EDGE OF PAVEMENT, UNLESS OTHERWISE NOTED. PIPE SIZES ON EITHER SIDE OF SECTION VALVES CONNECTING MAINLINE TO SECTION LATERAL SHALL BE ONE (1) PIPE SIZE LARGER THAN VALVE SIZE. WHERE MAINLINES RUN PARALLEL TO PAVEMENT OR CURBING, THE MAINLINE SHALL BE OFFSET 2'-0" FROM THE EDGE OF PAVEMENT OR CURB.
27. IRRIGATION ZONES SHALL BE SEPARATED FOR HIGH AND LOW WATER USE REQUIREMENTS AND OPERATED ON DIFFERENT WATERING CYCLES. BUBBLERS, DRIPLINE, AND SPRAY HEADS SHALL BE SEPARATED ON DIFFERENT VALVES. AT NO TIME SHALL MULTIPLE IRRIGATION HEAD TYPES BE LOCATED ON THE SAME VALVE.
28. ALL DRIP ZONES SHALL BE INSTALLED WITH A FLUSH VALVE AND AIR RELIEF VALVE. IN THE EVENT THAT A DRIP ZONE HAS MORE THAN ONE HIGH OR LOW POINT, MORE THAN ONE AIR RELIEF VALVE OR FLUSH VALVE WILL BE REQUIRED FOR THAT ZONE. DRIPLINE SHALL PROVIDE 0.9 GPH EMITTERS, 12" O.C. WITH 12" LINE SPACING AT A MINIMUM.
29. ALL WIRING FOR CONNECTION OF THE VALVES TO THE CONTROLLER SHALL FOLLOW MANUFACTURERS SPECIFICATIONS. IF REQUIRED, ALL WIRING FOR A TWO WIRE PATH SHALL BE WITH RED/BLUE TWISTED PAIR 14 AWG. ELECTRIC CONTROL LINES FROM THE DECODER TO THE SOLENOID VALVES SHALL BE TWISTED PAIR 18 AWG. ALL DECODERS SHALL BE GROUNDED EVERY 1,000 L.F. OR EVERY 10 DEVICES. ALL WIRE SHALL BE FURNISHED IN MINIMUM 2,500' REELS AND SPLICING SHALL BE MINIMIZED. BURY SPLICE KIT. ALL 24 VOLT WIRING SHALL BE DONE IN ACCORDANCE WITH EXISTING CODES. SPLICING SHALL BE IN VALVE BOXES OR CONTROLLERS ONLY. IRRIGATION SYSTEM CONTROL SHALL BE TWO WIRE PATH. CONTRACTOR SHALL FOLLOW ALL MANUFACTURER'S REQUIREMENTS FOR THIS INSTALLATION. TWO WIRE SYSTEM SHALL HAVE 2-WAY COMMUNICATIONS FIELD PROGRAMMABILITY, STATION SPECIFICATIONS AND INTEGRATED SURGE PROTECTION.
30. ALL CONTROL WIRE SHALL BE INSTALLED IN A 1 $\frac{1}{2}$" ELECTRICAL CONDUIT.
31. SMALLEST DIAMETER LATERAL PIPE SHALL BE 3/4".
32. IRRIGATION SYSTEM SHALL BE CAPABLE OF SUPPLYING AN AVERAGE OF 1.05" OF WATER PER WEEK WITHIN WATERING RESTRICTIONS AS APPLICABLE.
33. IRRIGATION SYSTEM SHALL NOT BE INSTALLED THROUGH EXISTING, OR PRESERVED PLANT COMMUNITIES. DO NOT TRENCH THROUGH EXISTING ROOT SYSTEMS OF ANY VEGETATION INTENDED TO BE PRESERVED.
34. CONTRACTOR TO MINIMIZE IRRIGATION OVERTHROW TO IMPERVIOUS AND NATURAL AREAS THROUGH FIELD ADJUSTMENTS TO INDIVIDUAL HEADS.
35. ALL AREAS DISTURBED DURING CONSTRUCTION SHALL BE RESTORED BY THE CONTRACTOR TO THE CONDITION DENOTED ON THE LANDSCAPE PLAN.
36. IRRIGATION PIPING INSTALLED UNDER ROADS AND SIDEWALKS SHALL BE IN SCHEDULE 40 PVC SLEEVING AT 2X THE PIPE SIZE. ALL SLEEVING SHALL BE FREE OF STONES AND DEBRIS.
37. IRRIGATION SOURCE TO BE EITHER WELL, POTABLE, OR NON-POTABLE WATER. IRRIGATION CONTRACTOR TO VERIFY SOURCE PRIOR TO DESIGN.
38. POINT OF CONNECTION TO BE DETERMINED BY OWNER. IRRIGATION SYSTEM CONNECTIONS TO THE LOCAL JURISDICTION SERVICE SHALL COMPLY WITH ALL APPLICABLE CODES.
39. IRRIGATION CONNECTION MAY REQUIRE BACKFLOW PREVENTION, VERIFY WITH LOCAL JURISDICTION.
40. IRRIGATION SYSTEM SHALL COMPLY WITH THE LOCAL JURISDICTION LAND DEVELOPMENT CODE.

1.0 INTRODUCTION

Kimley-Horn has been retained to analyze and document the traffic operational impact associated with a proposed industrial development generally located south of US 441, east of SR 429, and south of Old Dixie Highway. The site currently has an existing structure as well as vacant land. The development program is comprised of a 168,180 square foot (168.18 KSF) cold storage facility. The project is anticipated to be built out by the year 2026.

Access to the site will be provided via an existing full access driveway along Lake View Drive and a right-in/right-out driveway along US 441. The project driveway is shown in the conceptual site plan provided in **Appendix A.**

1.1 STUDY AREA

A methodology report was submitted to the City of Apopka included in **Appendix B**. In addition to the intersections listed in the methodology, the intersection of US 441 & W Orange Avenue/T.L Smith Road and the intersection of W Orange Avenue/N Binion Road and Lake View Drive/Pickford Circle were included to assess current travel patterns by the project site. The study area is listed below and shown in **Figure 1:**

Study Intersections

1. US 441 & W Orange Avenue/T.L. Smith Road (*signalized*)
2. US 441 & Lake View Drive/Boy Scout Boulevard (*signalized*)
3. Lake View Drive & Mayflower Avenue (*direct connection*)
4. W Orange Avenue/N Binion Road and Lake View Drive/Pickford Circle (*all-way stop*)
5. US 441 & N Project Driveway (*two-way stop*)

Study Roadway Segments

1. US 441 from SR 429 Connector to Plymouth Sorrento Road
2. US 441 from Plymouth Sorrento Road to Boy Scout Boulevard
3. US 441 from Boy Scout Boulevard to Errol Parkway
4. Lake View Drive from US-441 to W Orange Avenue

2.0 EXISTING CONDITIONS ANALYSIS – YEAR 2025

2.1 EXISTING TRAFFIC VOLUMES

Existing year condition is analyzed as 2025. Turning movement counts (TMCs) for the AM peak hour of 7:00 AM-9:00 AM and the PM Peak hour of 4:00 PM-6:00 PM were collected for all the study intersections on Tuesday, March 25, 2025, with the exception of the intersection of US 441 & W Orange Avenue/T.L. Smith Road at which data was collected on Wednesday, July 2, 2025. TMC data for the study intersections are provided in **Appendix C**.

The turning movement counts were adjusted using the seasonal factor from FDOT's Florida Traffic Online (FTO) database. Relevant FDOT FTO data is provided in **Appendix D**. Development of existing turning movement counts is shown in the volume development worksheets provided in **Appendix E**.

2.2 EXISTING INTERSECTION CONDITIONS

An intersection operational analysis was performed for the year 2025 existing conditions during the AM and PM peak hours using procedures outlined in the *Highway Capacity Manual 7th Edition* with *Synchro* (v12) software. Intersection level of service (LOS) and maximum volume to capacity (v/c) ratios for existing conditions are provided in **Table 1**. Signal timings are provided in **Appendix F** and *Synchro* outputs are provided in **Appendix G**.

All study area intersection approaches operate with acceptable LOS and sufficient capacity (v/c < 1.0) during the AM and PM peak hours

Table 1: Existing Intersection Conditions

#	Intersection Name	Movement/ Approach/ Intersection	Existing AM				Existing PM			
			LOS	Delay (sec)	V/C Ratio	Queue (Veh/ln)	LOS	Delay (sec)	V/C Ratio	Queue (Veh/ln)

3.0 DEVELOPMENT TRAFFIC

The proposed project is an industrial development generally located south of US 441, east of SR 429. The site currently has an existing structure as well as vacant land to be developed. The development program is composed of a 168,180 square foot (168.18 KSF) cold storage facility. The project is anticipated to be built out by the year 2026.

The latest industry standards were used to estimate new external trips to be generated by the site by the buildout year. FDOT's districtwide travel demand model was used to assign trips throughout the study area.

3.1 TRIP GENERATION

Trip generation for the proposed development was calculated per procedures published in the Institute of Transportation Engineers' (ITE) *Trip Generation Manual, 11th Edition*. Land Use Code (LUC) 157 for High-Cube Cold Storage Warehouse was referenced for trip generation rates and directional splits. **Appendix H** provides ITE excerpts.

Table 2 provides Daily, AM, and PM peak hour trip generation summaries to be generated by the proposed development at buildout. The project is anticipated to generate a total of 377 new daily trips, 20 new AM peak hour trips (10 inbound and 10 outbound), and 20 new PM peak hour trips (10 inbound and 10 outbound) at the project driveway.

Table 2: Trip Generation Summary

Daily	**Land Use**	**ITE LUC[1]**	**Size**	**Units**	**ITE Trip Rate[1]**	**Daily**				
						Total	**In[1]**		**Out[1]**	
	High-Cube Cold Storage Warehouse	157	**168.18**	KSF	2.24	377	*50%*	189	*50%*	188
						377	**189**		**188**	
AM Peak Hour	**Land Use**	**ITE LUC[1]**	**Size**	**Units**	**ITE Trip Rate[1]**	**AM Peak Hour**				
						Total	**In[2]**		**Out[2]**	
	High-Cube Cold Storage Warehouse	157	**168.18**	KSF	0.12	20	*50%*	10	*50%*	10
						20	**10**		**10**	
PM Peak Hour	**Land Use**	**ITE LUC[1]**	**Size**	**Units**	**ITE Trip Rate1**	**PM Peak Hour**				
						Total	**In[3]**		**Out[3]**	
	High-Cube Cold Storage Warehouse	157	**168.18**	KSF	0.12	20	*50%*	10	*50%*	10
						20	**10**		**10**	

Notes: [1] *Vehicle trip rates and directional splits per ITE Trip Generation Manual, 11th Edition*
[2, 3] *Directional distribution not provided for peak hours*

3.2 TRIP DISTRIBUTION

The projected traffic demand of project trips on study roadways was derived with the use of the latest adopted regional travel demand model. Land use data for the project was entered into a new traffic analysis zone (TAZ) within the Central Florida Regional Planning Model (CFRPM v7) and situated within the existing roadway network. The model was used to assign trips for all trip purposes between allocated origin and destination pairs using project buildout year model data. Trip distribution for the project was extracted from the completed model assignment and reviewed for logic based on engineering judgment. The resulting model plot showing the percent of daily project distribution is provided in **Appendix I**.

Daily model project distribution was referenced to manually assign project distribution at the study area intersections and driveways in general accordance with the model output. **Figure 2** shows the intersection movement project distribution generated by the proposed development within the study area.

3.3 TRIP ASSIGNMENT

Project trips were assigned to study area roadways and intersections based on project trip distribution percentages. **Figure 3** shows project movements at the study area intersections generated by the proposed development during the AM and PM peak hours.

4.0 BACKGROUND CONDITIONS ANALYSIS – YEAR 2026

4.1 BACKGROUND TRAFFIC

Traffic conditions were evaluated for the year 2026 background conditions, which do not include project trips on the roadway network. Background volumes were developed by applying a growth rate calculated from historical Annual Average Daily Traffic (AADT) obtained through City of Apopka CMS Traffic Counts. Growth rates per segment were obtained through the Apopka CMS tables and compared to a weighted average by AADT as shown in **Table 3**.

Table 3: Growth Rate Determination

Station	Road	From	To	Year 2022 ADT	Trend Historical Growth Rate
550	**US 441**	Plymouth Sorrento	Boy Scout Blvd	28,817	2.70%
82.1	**US 441**	Boy Scout Blvd	Errol Parkway	33,617	2.50%
				Normal Average	2.60%
				Weighted Average[1]	**2.59%**

4.2 BACKGROUND INTERSECTION ANALYSIS

An intersection operational analysis was performed for the year 2026 background conditions during the AM and PM peak hours using procedures outlined in the *Highway Capacity Manual, 7th Edition* with *Synchro* (v12) software. Intersection level of service (LOS) and maximum volume to capacity (v/c) ratios for background conditions are provided in **Table 4**. Signal timings are provided in **Appendix F** and *Synchro* outputs are provided in **Appendix G**.

All study area intersection approaches and movements operate similar to existing conditions.

Table 4: Background Intersection Conditions

5.0 BUILDOUT CONDITIONS ANALYSIS – YEAR 2026

5.1 BUILDOUT TRAFFIC

Future traffic conditions were evaluated for the buildout year 2026. Buildout volumes were developed by adding anticipated project trips to background volumes. **Appendix E** provides the adjusted turning movement volume worksheets for all intersections. **Figures 4 and 5** illustrate turning movement volumes for buildout conditions at the study intersections during the AM and PM peak hours, respectively.

5.2 BUILDOUT INTERSECTION ANALYSIS

An intersection operational analysis was performed for the year 2026 buildout conditions during the AM and PM peak hours using procedures outlined in the *Highway Capacity Manual, 7th Edition,* with *Synchro* (v12) software. Intersection level of service (LOS) and maximum volume to capacity (v/c) ratios for buildout conditions are provided in **Table 5**. Signal timings are provided in **Appendix F** and Synchro outputs are provided in **Appendix G**.

All study area intersection movements operate similar to background conditions. No deficiencies are anticipated as a result of project trips.

Table 5: Buildout Intersection Conditions

5.3 TURN LANE ANALYSIS

Per NCHRP Report 457 standards, the need for a major right-turn lane on the major approach is determined by comparing the right-turning volumes with the approach volume. The need for a major left-turn lane on the major approach is determined by comparing the percent of left-turning vehicles with the number of opposing vehicles.

The need for turn lanes at the intersection of Lake View Drive & Project Driveway and the intersection of US 441& North Project Driveway were evaluated based on the thresholds established in the NCHRP Report 457 (output provided in **Appendix J**). The highest peak hour period was analyzed for each intersection. Based on NCHRP standards, right-turn lanes or left-turn lanes are **not warranted**.

In addition to the turn lane requirements at the project driveway, the westbound left turn lane and eastbound left lane at the intersection of US 441 & Lakeview Drive were evaluated to determine if the existing turn lanes can accommodate the anticipated queue and provide the required deceleration length. Per FDOT FDM Exhibit 212-1, the required deceleration length for a road with a design speed limit of 50 MPH and a context classification of C3 is 290 feet (note that the actual speed limit along US 441 is 45 MPH).

Traffic analysis for the westbound left during the PM peak hour indicates a Buildout 95th percentile queue of 400 feet (15.7 vehicles) and a Background 95th percentile queue of 400 feet (15.2 vehicles). The project impact is expected to increase the queue by less than one vehicle. Nevertheless, the existing 300-ft turn lanes will be extended to provide a total of 390 feet which can effectively accommodate 15 vehicles (15 veh x 25 ft = 375 feet).

Traffic analysis for the eastbound left during the PM peak hour indicates a Buildout 95th percentile queue of 25 feet (1 vehicle) and a Background 95th percentile queue of 25 feet (1 vehicle). The existing turn lane is 450 feet long. Therefore, no turn lane extension is required.

6.0 SEGMENT ANALYSIS

A segment analysis was conducted for the following roadway segments for Existing, Background, and Buildout scenarios:

1. US 441 from SR 429 Connector to Plymouth Sorrento Road
2. US 441 from Plymouth Sorrento Road to Boy Scout Boulevard
3. US 441 from Boy Scout Boulevard to Errol Parkway
4. Lake View Drive from US-441 to W Orange Avenue

Year 2025 traffic counts were obtained from City of Apopka CMS tables. Background volumes (Year 2026) were developed by applying the relevant growth rate to existing volumes. Buildout volumes (Year 2026) were calculated by adding project trips to the background scenario. Roadway capacities were provided by Apopka CMS as shown in **Appendix K.**

As shown in **Table 7**, all roadway segments under all scenarios operate within acceptable levels of service with sufficient cap and v/c ratios less than 1.0.

Table 6: Roadway Segment Analysis

Road[1]	Agency	Functional Classification	Roadway Attributes			Existing 2025		Background 2026			Buildout 2026			
											PM Peak Hour Trips = 18			
			No. of Lanes	Adopted LOS	Peak Directional Capacity[1]	2025 PM Peak[1]	V/C Ratio	Encumbered	2026 PM Peak	V/C Ratio	% Assign	Project Trips	2026 PM Peak	V/C Ratio
US 441 from SR 429 Connector to Plymouth Sorrento Road	FDOT	Major Arterial	4	D	2,480	1,857	0.75	7	1,901	0.77	30%	5	1,907	0.77

[1] Taken from the *2025 City of Apopka CMS Tables*

[2] The Generalized Peak Directional capacity was used for this segment given it is not listed in the 2025 City Of Apopka CMS Tables

[3] Peak directional volume taken for TMC collected along Lake View Drive

7.0 CONCLUSION

This traffic impact analysis was performed to assess the traffic impacts associated with a proposed industrial development consisting of a 168,180 square foot (168.18 KSF) cold storage facility to be located in City of Apopka, Florida. The development is situated south of US 441, east of SR 429. The site currently has an existing structure as well as vacant land.

Based on trip rates from the 11th Edition ITE *Trip Generation Manual* for Land Use Code (LUC) 157 – High-Cube Cold Storage Warehouse, a total of 378 new daily trips, 20 new AM peak hour trips (10 inbound and 10 outbound), and 20 new PM peak hour trips (10 inbound and 10 outbound) are expected at the project driveways.

Intersection operational analyses were performed for the study area intersections under existing and future scenarios. No deficiencies were identified as a result of project trips.

The existing westbound left will be extended to accommodate the anticipated 15 vehicle queue for a total of 390 feet.

A segment analysis was conducted as shown in **Table 6**. All roadway segments under all scenarios operate with excess capacity and v/c ratios less than 1.0.

MEMORANDUM

To: Jean Sanchez, Senior Planner
City of Apopka

From: Emanuelle D Rodriguez Muñiz, P.E., IMSA[1]
Kimley-Horn and Associates, Inc.

Date: April 1, 2025

Subject: Traffic Impact Analysis (TIA) Methodology
Apopka Cold Storage – City of Apopka, FL

PURPOSE

The following memorandum is a Traffic Impact Analysis (TIA) methodology for the above-referenced project in City of Apopka, FL. The forthcoming TIA will generally conform to the methodology herein and the guidelines as established by of the City of Apopka.

PROJECT DESCRIPTION

The proposed project is an industrial development generally located north of US 441, east of SR 429, and south of Old Dixie Highway. The site currently has an existing structure as well as vacant land to be developed. The development program is composed of a 147,624 square foot (147.6 KSF) cold storage facility. The project is anticipated to be built out by the year 2026.

Access to the site will be provided via full access along Lake View Drive. The conceptual site plan is provided in **Attachment A.**

EXISTING CONDITIONS (OPERATIONAL ANALYSIS)

Turning movement counts (TMC) will be collected during the AM peak period (7:00AM - 9:00AM) and PM peak period (4:00PM - 6:00PM) at the study area intersections. The data will be adjusted using the respective seasonal factor from FDOT's *Florida Traffic Online* database.

Intersection capacity analyses will be performed for existing AM and PM peak hour conditions using the operational analysis procedures outlined in the *Highway Capacity Manual 7th Edition*. Specifically, Synchro (v12) software will be used to evaluate existing operational conditions at study area intersections and driveways by reporting volume-to-capacity (v/c) ratios, delay, and queue length demands.

Kimley»Horn

TRIP GENERATION

Trip generation for the proposed development was calculated per procedures published in the Institute of Transportation Engineers' (ITE) *Trip Generation Manual, 11th Edition*. Land Use Code (LUC) 157 – High-Cube Cold Storage Warehouse has an R-squared value greater than 0.70 and therefore a fitted curve equation should be applied to calculate trip ends. As the independent variable (KSF) for the project is less than the smallest site surveyed by ITE, the fitted curve equation produces negative trips. To increase the KSF, the existing square footage of cold storage on the site (503.6 KSF) was added to the proposed square footage (147.6 KSF) totaling 651.2 KSF. This number resulted in positive trip generation for each time period as shown in **Table 1**. The associated trip rates were then applied to the proposed 147.6 KSF resulting in 327 daily trips, 18 AM peak hour trips, and 18 PM peak hour trips as shown in **Table 2**.

Table 1: Existing & Proposed Building – Trip Generation

	Land Use	ITE LUC[1]	Size	Units	ITE Trip Rate[1]	Daily				
						Total	In[1]		Out[1]	
Daily	High-Cube Cold Storage Warehouse	157	**651.2**	KSF	2.21	1,439	*50%*	720	*50%*	719
						1,439	**720**		**719**	
	Land Use	**ITE LUC[1]**	**Size**	**Units**	**ITE Trip Rate[1]**	**AM Peak Hour**				
						Total	**In[1]**		**Out[1]**	
AM Peak Hour	High-Cube Cold Storage Warehouse	157	**651.2**	KSF	0.12	78	*50%*	39	*50%*	39
						78	**39**		**39**	
	Land Use	**ITE LUC[1]**	**Size**	**Units**	**ITE Trip Rate[1]**	**PM Peak Hour**				
						Total	**In[1]**		**Out[1]**	
PM Peak Hour	High-Cube Cold Storage Warehouse	157	**651.2**	KSF	0.12	78	*50%*	39	*50%*	39
						78	**39**		**39**	

Notes: [1] *Vehicle trip rates and directional splits per ITE Trip Generation Manual, 11th Edition*

Table 2: Proposed Building – Trip Generation

	Land Use	ITE LUC[1]	Size	Units	ITE Trip Rate[1]	Daily				
						Total	In[1]		Out[1]	
Daily	High-Cube Cold Storage Warehouse	157	**147.6**	KSF	2.21	327	*50%*	164	*50%*	163
						327	**164**		**163**	
	Land Use	**ITE LUC[1]**	**Size**	**Units**	**ITE Trip Rate[1]**	**AM Peak Hour**				
						Total	**In[1]**		**Out[1]**	
AM Peak Hour	High-Cube Cold Storage Warehouse	157	**148**	KSF	0.12	18	*50%*	9	*50%*	9
						18	**9**		**9**	
	Land Use	**ITE LUC[1]**	**Size**	**Units**	**ITE Trip Rate[1]**	**PM Peak Hour**				
						Total	**In[1]**		**Out[1]**

STUDY AREA

Based on City of Apopka Land Development Code, Section 7 – Concurrency Management System, the study area includes roadway segments and intersections within a ½ mile radius as shown in **Figure 1**. However, on account of low trip generation the following will be analyzed in the TIA:

For intersections, the following will be analyzed in the TIA:

1. US 441 & Lake View Drive (*signalized*)
2. Lake View Drive & Mayflower Avenue (*direct connection*)

The following roadway segments are included in the analysis:

1. US 441 from SR 429 Connector to Plymouth Sorrento Road
2. US 441 from Plymouth Sorrento Road to Boy Scout Boulevard
3. US 441 from Boy Scout Boulevard to Errol Parkway

For the roadway segment analysis, forecasted project traffic will be assigned per the project distribution shown in **Attachment B**. Existing and encumbered trip data will be referenced from City of Apopka's 2022 CMS tables.

TRIP DISTRIBUTION AND TRIP ASSIGNMENT

Projected traffic demand of project trips on study roadways was derived with use of the latest adopted regional travel demand model. Land use data for the project was entered into a new traffic analysis zone (TAZ) within the Central Florida Regional Planning Model (CFRPM v7) model set and situated within the existing roadway network to appropriately represent project access. The select zone model distribution for the project was reviewed for logic. The proposed trip distribution, shown in **Figure 2** will be used to assign external project traffic to the study area intersections and driveway. The model output plot is provided in **Attachment B**.

BACKGROUND & BUILDOUT CONDITIONS (OPERATIONAL ANALYSIS)

Intersection capacity analyses will be performed for background (2026) and buildout (2026) AM and PM peak hour conditions using the operational analysis procedures outlined in the *Highway Capacity Manual 7th Edition*. Specifically, Synchro (v12) software will be used to evaluate volume-to-capacity (v/c) ratios, delay, and queue length demands.

A weighted average growth rate of the two road segments on the east and west of the US 441 / Boy Scout/Lake View intersection will be applied to calculate background volumes. **Table 3** shows the proposed growth rate of 2.59%. Buildout traffic volumes will be determined by combining background (2026) volumes with project traffic volumes.

Table 3: Proposed Growth Rate

Station	Road	From	To	Year 2022 ADT	Trend Historical Growth Rate
550	**US 441**	Plymouth Sorrento	Boy Scout Blvd	28,817	2.70%
82.1	**US 441**	Boy Scout Blvd	Errol Parkway	33,617	2.50%
				Normal Average	2.60%
				Weighted Average[1]	**2.59%**

SEGMENT ANALYSIS

A roadway segment analysis will be performed for the PM peak hour. The analysis will include existing, background, and buildout scenarios. Apopka CMS 2022 volumes will be grown by the annual trend provided in the Apopka 2022 CMS tables and shown in **Table 4**. If the trend is negative, then a minimum 2% will be applied. The percent will be applied per year to develop existing Year 2025 volumes and then per year to project Year 2026 background traffic. Buildout traffic volumes will be determined by combining background (2026) volumes with project traffic volumes. Project trips will be assigned to the roadway network in accordance with the project trip distribution.

Table 4: Proposed Growth Rates by Segment

Roadway Characteristics					Trend Historical Growth Rate
Station	Road	From	To	Year 2022 ADT	
940	**US 441**	SR 429	Plymouth Sorrento	24,804	2.00%[1]
550	**US 441**	Plymouth Sorrento	Boy Scout Blvd	28,817	2.70%
82.1	**US 441**	Boy Scout Blvd	Errol Parkway	33,617	2.50%

1. Negative growth rate per CMS table therefore minimum 2% will be applied

TURN LANE ANALYSIS

The need for turn lanes at the proposed driveway along Lake View Drive will be assessed per City Land Development Code and using NCHRP methodology.

Additionally, the City of Apopka has requested Intersection 1 (US 441 & Boy Scout/Lake View) have a turn lane analysis performed. This will be done using NCHRP methodology.

REPORT

All analysis and findings will be documented in a report to be provided to the City of Apopka for review. If necessary, mitigating measures for any operational deficiencies identified due to project traffic impact will be recommended in the TIA.
