1. Analysis of hydrocarbons at the site has demonstrated that the origin is non-petroleum. Therefore, TRPH results do not apply to this site.

2. Well Abandoned

I= The reported value is between the laboratory method detection limit (MDL) and the practical quantitation limit (PQL). J4= Estimated Result

* - No standard.

50 Shaded bold result denotes concentration exceeding a GCTL

100 Shaded bold result denotes concentration exceeding a NAMDSC.

Subject: **UST Closure Assessment Report**
The Coca Cola Company
2651 Orange Ave, Apopka
Orange County, Florida
Wood Project No.: 6121-17-0478.06

Dear Ms. Rauenzahn,

Introduction

Wood Environment & Infrastructure Solutions, Inc. (Wood) was authorized by Coca-Cola Company, to implement underground storage tank (UST) closure activities at the above referenced facility. This report documents the field activities and analytical results for soil and groundwater samples collected between the dates of March 26th and April 11th, 2019. The fieldwork completed was conducted under the guidelines of Chapters 62-761 and 62-780, of the Florida Administrative Code (FAC).

A site map is included as **Figure 1**, The area of concern (AOC) is included as **Figure 2**.

The following tasks were performed and completed under this authorization by Wood:

- A limited environmental closure was performed, including soil and groundwater sampling along with the cleaning of one (1) single-wall steel 550-gallon abandoned underground storage tank (UST), which was encountered and excavated during new site construction by The Coca Cola Company contractor. Based on visual observance of residual liquid in the tank, the tank was used for waste oil storage.

Historical Background

While conducting onsite clearing and grading activities for construction purposes, an onsite contractor (O'Neal Construction) encountered an abandoned 550-gallon UST that was pulled from the work area with an excavator. The encountered UST was immediately staged to the side of the pit it was pulled from and was covered to prevent contamination of soils from the contents in the tank. The contractor continued to excavate soil from the pit and staged it to the side where it could be classified for future use. Approximately 67 gallons of oily water and 43 gallons of sludge was identified in the bottom of the UST and would need to be removed prior to the transportation and proper disposal of the UST carcass.

The Coca-Cola Company Submitted an Incident Notification Form on March 22, 2019. A copy of the form is included in **Appendix H**.

Closure Activities

Prior to performing field work, a Health and Safety Plan was prepared by Wood, copy attached as **Appendix A**.

Closure Assessment Soil Screening

Wood mobilized to the site on March 26, 2019 to conduct initial UST closure activities. Upon removal of the UST, visual observation of surface staining was observed. The onsite contractor staged the removed surface material (with slight odor) to the side of the pit for further classification and usage recommendations.

With the observance of surface staining, closure sampling was conducted. Soil screening samples were collected from all four sides of the excavations (north, south, east, west) and the bottom, along with the soil stockpile, using a hand auger. Locations are as shown on **Figure 3**.

Prior to analyzing the soil headspace samples, using a photo-ionization detector (PID), the instrument was calibrated in the field with isobutylene gas.

Of the 19 samples collected (**Table 1**), only one of the samples had PID readings exceeding 10 parts per million (ppm). The sample with the highest PID reading was from North (Wall) location, Sample 2 at 8-ft bls, at 13.8 ppm. Soil staining was observed below the initial surface material and was removed and staged outside of the pit.

Closure Assessment Confirmatory Soil Sampling and Analysis

Six soil samples were collected; one for the classification of the soil stockpile outside of the pit and five samples from the tank pit.

The samples were sealed, labeled, placed in an ice filled cooler under chain of custody and hand delivered Xenco Laboratories in Tampa, Florida for analysis by United States Environmental Protection Agency (USEPA) Method 8260 volatiles, Method 8270 polycyclic aromatic hydrocarbons, Method 8081 organochlorine pesticides, Method A8082 polychlorinated biphenyls, Method 6010 arsenic, cadmium, chromium, and lead, and total recoverable petroleum hydrocarbons by FL-PRO.

The results as tabulated on **Table 2**, indicated low level detectable method analytes in all six samples, however, one (North Wall) of which had an exceedances of soil cleanup target levels (SCTLs) for residential direct exposure for Benzo(a)pyrene (0.100 mg/kg) at a concentration of 0.638 I mg/kg, where "I" is considered an estimate and indicates that the reported value was between the laboratory method detection limit (MDL) and the laboratory practical quantification limit (PQL). Four samples, Bottom, North (Base), Stockpile, and West (8'), had exceedances of the SCTLs for Leachability based on groundwater criteria for Dieldrin (0.00200 mg/kg) of 0.00444I mg/kg, 0.00651I mg/kg, 0.00303I mg/kg, and 0.00904 mg/kg, respectively. Additionally, two samples, North (Base) and Stockpile, had exceedances of the SCTLs for leachability and residential direct exposure for FLPRO (340 mg/kg and 460 mg/kg) of 1410 mg/kg and 547 mg/kg, respectively. The highest detectable concentrations were reported in the samples collected from the base of the north side of the pit and from the stockpile of surface stained soils.

Due to the exceedance of Benzo(a)pyrene, Wood requested Xenco to perform additional analyses by USEPA Method 8270D-SIM PAH on the North (Base) sample to confirm the detections for the Benzo(a)pyrene equivalents compounds from the previous Method 8270D analysis. The Method 8270D-SIM PAH analysis results can provide much lower PQLs and MDLs. The more conservative analysis indicated the detections for Benzo(a)pyrene equivalents compounds remained above the PQL for the confirmation analysis, at a concentration of 0.0216 mg/kg, but were below the threshold for the direct exposure residential limit. The confirmatory sample indicated that none of the collected samples had exceedances of SCTLs for residential direct exposure, except for FLPRO. All the confirmation samples were below the commercial/industrial direct exposure cleanup target levels. Laboratory analytical report is included in **Appendix E**. Due to the exceedance in Residential Direct Exposure and Soil Cleanup Leachability Target Levels from the initial laboratory analysis results, groundwater sampling was warranted. Upon completion of the environmental

assessment (EA), the excavation was backfilled to grade with excavated soils and compacted prior to the installation of a temporary monitoring well.

Groundwater Sampling

Due to the exceedances above the FDEP Residential Direct Exposure Soil Cleanup Target Levels for Benzo(a)pyrene in the North (Base) sample, FL-PRO in the North (Base) and Stockpile samples, and exceedances above the FDEP Soil Cleanup Leachability Based on Groundwater Target Levels for Dieldrin in the Bottom, North (Base), Stockpile, and West (8') samples, a groundwater sample was collected and analyzed.

On April 11, 2019, Wood personnel, along with Environmental Drilling Services Inc. (EDS) mobilized to the site to perform temporary monitoring well installation activities using a Geoprobe 6620DT auger rig. EDS drilled down from the center of the tank pit, **Figure 4**, to an approximate depth of 22 feet below ground surface (ft bgs), staging the soil cuttings on a liner directly south of the tank pit. A Temporary Monitoring Well (TMW-1) was installed in the soil boring. The well was assembled using an approximate length of 15 feet with 2-inch diameter Schedule 40 PVC casing and an appropriate length of 10 feet with 0.606-in slot screen. Then, a 30/65 filter pack was added from 22 ft to 11 ft bgs. Following the installation of TMW-1, the water level in the well was gauged to an approximate depth of 13.90 feet and was developed for 10 minutes using a submersible pump in an attempt to clear the water column. The Wood Well Construction & Development Form is included in **Appendix F**.

A groundwater sample was collected using a peristaltic pump with 0.170-inch diameter tubing and flow through cell to collect field parameters (pH, specific conductance, temperature, dissolved oxygen, oxidation/reduction potential, and turbidity) and color/odor descriptions. Form FD9000-8 Calibration Logs are included in **Appendix F**. A total of approximately 2.16 gallons of water was purged from TMW-1 prior to the collection of a groundwater sample. The groundwater sample was collected in 9 sample containers and the containers were sealed, labeled, placed in an ice filled cooler under chain of custody and hand delivered Xenco Laboratories in Tampa, Florida for analysis by United States Environmental Protection Agency (USEPA) Method 8260 volatiles, Method 8270 polycyclic aromatic hydrocarbons and semi-volatiles, Method 8081 organochlorine pesticides, Method A8082 polychlorinated biphenyls, Method 6010 RCRA metals arsenic, cadmium, chromium, and lead and dissolved metals, and total recoverable petroleum hydrocarbons by FL-PRO.

The results as tabulated on **Table 3**, indicated low level detectable method analytes in the TMW-1 sample for Trichlorofluoromethane at 4.71 micrograms per liter (µg/L), however, the sample did not exceed the groundwater cleanup target levels (GCTLs) of 2100 µg/L. None of the other analytes were detected above the method detection limits. Laboratory analytical report is included in **Appendix B**.

UST Cleaning and Disposal

Wood contracted Handex Consulting and Remediation, LLC (Handex) to remove the tank from the site. Handex subcontracted Petrotech Southeast (Petrotech) to perform the tank cleaning and proper disposal of the tank wash water. Handex and Petrotech mobilized to the site on April 9, 2019 to conduct tank cleaning and removal activities in general accordance with Florida Department of Environmental Protection (FDEP) Chapters 62-762 and 62-780.

Upon arrival on April 9, 2019, approximately 67 gallons of oily water and 43 gallons of sludge was measured in the tank. Petrotech cleaned the interior of the tank and had a vacuum truck remove the 120 gallons of oily water and sludge, a copy of the waste manifest is included as **Appendix C**.

The UST tank was previously removed from the tank pit and was staged and covered with an impermeable

tarp to prevent contamination of the surface soils. The pit was excavated to an approximate depth of 14 feet with approximate lengths and widths of ten feet by eight feet. The soils at the bottom of the excavation were noted as moist.

The tank was visually observed and photographed, and except for some damage observed during removal the outer shell of the tank was intact. The tank was transported off-site, by Handex, and was disposed of at the TRC America Demolition Services LLC Scrap Metal Recycling facility in Apopka, Florida. The photographic log of the site area is included as **Appendix D**.

Conclusions and Recommendations

0ne (1) 550-gallon abandoned tank encountered during new construction activities and was cleaned and properly disposed. A visual inspection of the tank post-excavation indicated no anomalies or breaches to the exterior shell. During the removal a puncture in the tank was made by the onsite contractor's excavator. The tank was properly cleaned and disposed. Confirmation samples were collected from the soil and groundwater of the tank pit under the guidelines of Chapters 62-761 and 62-780, of the Florida Administrative Code (FAC). Photographs of the sampling locations are included in **Appendix D.**

The laboratory results of the soil sampling indicated that exceedances in SCTLs for leachability based on groundwater criteria for Dieldrin and exceedances of the SCTLs for leachability and residential direct exposure for FLPRO yielded additional groundwater confirmation sampling. However, all the confirmation samples were below the SCTLs for commercial/industrial direct exposure. The laboratory results for the groundwater samples indicated that the TMW-1 sample was below the GCTLs for all of the analytes.

Based on the over-all field observations and analytical data obtained during these closure activities, Wood recommends that a letter of No Further Action be granted.

If you have any questions or comments regarding this letter report or any information contained herein please feel free to contact either of us.

Sincerely,

Wood Environment & Infrastructure Solutions, Inc.

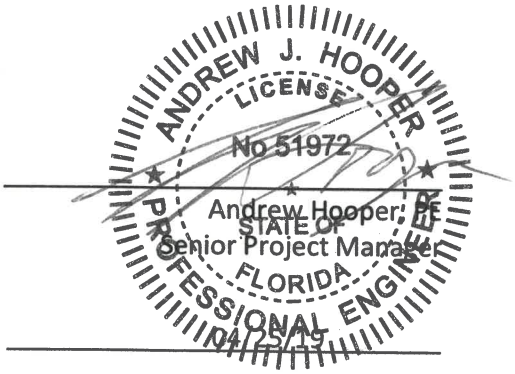
PROFESSIONAL CERTIFICATION

The technical contents of this Underground Storage Tank (UST) Closure Report dated April 25, 2019 for the Coca Cola Apopka site; represents our professional interpretations arrived at in accordance with generally accepted practices. The findings and results of this report are for the sole use and benefit of the Florida Department of Environmental Protection. Use of this report by other parties is at their risk and Wood Environment & Infrastructure Solutions, Inc. is not liable for consequences or damages extending there from. No warranties are implied or intended. I certify this report has been produced by me and Wood staff under my supervision.



Andrew Hooper, PE
Senior Project Manager

Concentrations in **Bold** indicate the value is above laboratory minimum detection limit
FDEP: Florida Department of Environmental Protection
Value is above the FDEP Soil Cleanup Leachability based on Groundwater Soil Cleanup Target Level*
Value is above FDEP Residential Direct Exposure Soil Cleanup Target Level*
Value is above FDEP Commercial/ Industrial Direct Exposure Soil Cleanup Target Level*
*Based on FDEP Comparison of Chapter 62-777, F.A.C. - May 26,1999 Value vs. April 15,2005 Values

0.1
10
100

All analytical results were measured in milligrams per killigram (mg/kg)
ppm = parts per million
PID: Photo Ionization Detector
[1]Analysis performed under United States Environmental Protection Agency (USEPA) Method 8270D polycyclic aromatic hydrocarbons (PAHs)
[2] Analysis performed under USEPA Method 8270S-SIM PAHs
Note: "U" Indicates that the compound was analyzed for but not detected at the method detection limit (MDL)
"I" The reported value is between the laboratory method detection limit (MDL) and the practical quantitation limit (PQL)
"E" Exceeds calibration range
"J" Estimated Value
N/A Not Available

APPENDIX A

FDEP Forms; Storage Tank System Installation and Removal, Incident Notification Form, Storage Tank Registration Form, Discharge Reporting Form

Department of Environmental Protection

2600 Blair Stone Road ♦ Tallahassee, Florida 32399-2400

DEP Form: 62-761.900(5)
Form Title: Certified Contractors Form
Effective Date: *Draft Date Pending*
Incorporated in Rule 62-761.400, F.A.C.

Underground Storage System Installation and Removal Form for Certified Contractors

Pollutant Storage Systems Contractor as defined in Section 489.105, Florida Statutes [Certified Contractor as defined in Rule 62-761.200, Florida Administrative Code (F.A.C.)] shall use this form to certify that the installation, replacement or removal of the underground storage tank system(s) located at the address listed below was performed in accordance with the Reference Guidelines in 62-761.210, F.A.C. This includes system components in contact with soil, such as dispenser sumps, piping sumps, and spill containment systems.

General Facility Information

Facility Name: The Coca Cola Company
DEP Facility ID Number: 48/8622618
Street Address (physical location): 2651 Orange Avenue Apopka, Fl
County: Orange
Facility Telephone:
Owner Name:
Owner Telephone:
Owner Address:

Storage Tank System Information

Number of Tanks Installed: None
Number of Tanks Removed: 1
Date Work Initiated: 04-09-2019
Date Work Completed: 04-09-2019
Tank(s) Manufactured by: Unknown
Description of Work Completed

During new building construction, an abandoned 550-gallon single-walled steel tank was discovered. The tank was visual assessed along with the contents believed to be waste oil. The tank was properly excavated, cleaned, transported off site for disposal.

Certification

I hereby certify and attest that I am familiar with the facility that is registered with the Florida Department of Environmental Protection; that to the best of my knowledge and belief, the storage tank system installation, replacement or removal at this facility was conducted in accordance with Chapter 489, Florida Statutes, Section 376.303, Florida Statutes, and Chapter 62-761, F.A.C., and its adopted reference requirements and documents for underground storage tank systems.

(Type or Print)

Peter F. Yanczak	PCC1256839
Certified Pollutant Storage System Contractor Name	PSSC Number (Pollutant Storage System Contractor License #)
Certified Pollutant Storage System Contractor Signature	04/09/2019 Date
Andrew Hooper, PE	04/09/2019
Field Supervisor's Name	Date

The owner or operator of the facility must register a new storage tank system with the Department and submit to tankregistration@floridadep.gov, prior to installation, see Rule 62-761.400, F.A.C. The installer must submit this form to the County* no more than 21 days after the completion of installation, replacement, or 21 days after removal of a storage tank system and system components in accordance with Rule 62-761.400, F.A.C.

**County means a locally administered governmental program under contract with the Department to perform compliance verification activities at facilities with storage tank systems.*

Department of Environmental Protection

2600 Blair Stone Road ♦ Tallahassee, Florida 32399-2400

DEP Form 62-761.900(6)
Form Title: Incident Notification Form
Effective Date: January 2017
Incorporated in Rule 62-761.405, F.A.C.

Incident Notification Form

Complete all applicable blanks

Facility ID Number (if registered): unknown
Date of Form Completion: 03/22/2019
Facility Name: The Coca-Cola Co, Apopka R&D
Date of Discovery of Incident: 03/21/2019
Telephone Number: 407-565-2450
County: Orange
Facility Owner or Operator: The Coca-Cola Co
Mailing Address: 2651 Orange Ave, Apopka, FL 32703
Location of Incident (facility street address): 2651 Orange Ave, Apopka, FL 32703

Monitoring method or activity that indicates an incident: (Check all that apply)

- [●] Visual Observation
- [ ] Primary integrity test
- [ ] Interstitial integrity test
- [ ] Containment integrity test
- [ ] Electronic sensors, probes or cables
- [ ] Interstitial monitoring
- [ ] Closure integrity evaluation
- [ ] Tracer or helium testing
- [ ] Closure
- [ ] Line leak detectors
- [ ] Automatic tank gauging
- [ ] Other (specify): _____

Type of regulated substance stored in the storage system: (Check all that apply)

- [ ] Gasoline
- [ ] Diesel
- [ ] Heating oil
- [ ] Kerosene
- [ ] Aviation gas
- [ ] Jet fuel
- [ ] Used/waste oil
- [ ] New motor/lube oil
- [ ] Pesticide
- [ ] Grades 5 & 6 residual oils
- [ ] Mineral acid (ASTs)
- [ ] Ammonia compound [ ] Chlorine compound
- [ ] Biofuel blends
- [●] Unknown
- [ ] Other (specify): _____
- [ ] Hazardous substance (USTs) – write name or Chemical Abstract Service (CAS) #: _____

Incident involves or originated from: (Check all that apply)

A positive response of release detection device:

- [ ] 1. Visual observation
- [ ] 2. Alarm
- [ ] 3. Vacuum or pressure change
- [ ] 4. MLLD restricting flow
- [ ] 5. ELLD/other device shutting power off to pump
- [ ] 6. Liquid>1 inch in out-of-service tank (UST only)

A failed integrity test:

- [ ] 1. Double-walled tank
- [ ] 2. Double-walled piping
- [ ] 3. Containment sump
- [ ] 4. Spill containment system
- [ ] 5. Double bottom AST

Or:

- [ ] 1. Odors in the vicinity
- [ ] 2. Loss > 100 gallons on impervious surface
- [ ] 3. Loss > 500 gallons in AST dike field
- [ ] 4. Unusual operating conditions
- [●] Other (specify): unearthed UST

Cause of the incident, if known: (Check all that apply)

- [ ] Improper installation
- [ ] Material failure (crack, split, etc.)
- [ ] Material incompatibility
- [ ] Faulty probe or sensor
- [ ] Spill/Overfill >100 gallons on impervious surface
- [ ] Spill/Overfill >500 gallons in AST dike field
- [ ] Corrosion
- [ ] Weather
- [ ] Human error
- [ ] Vandalism or theft
- [ ] Unknown
- [●] Other (specify): UST was under foundation

Actions taken in response to the incident:

Work was stopped, the tank covered with a tarp and the area cordoned off. We have commenced investigation to determine if a discharge has occurred.

Comments:

While demolishing an existing building, a previously unknown UST was found under the building's foundation. Less than one inch of liquid is in the bottom of the tank.

Agencies notified (as applicable):

- [ ] Fire Department
- [✓] County Program Orange County
- [ ] District Office _____
- [ ] State Watch Office 800-320-0519
- [ ] National Response Center 800-424-8802

To the best of my knowledge and belief all information submitted on this form is true, accurate, and complete.

- [ ] Visual observation of free product
- [■] Results or receipt of results of analytical tests
- [ ] Spill or vehicle overfill > 25 gallons to a pervious surface
- [ ] Stained soils
- [ ] Other (explain in comments)

Method of discovery and confirmation of discharge: (Check all that apply, see rule language explanation on instructions for this form)

- [ ] Visual observation
- [ ] Groundwater analytical results
- [■] Closure/Closure sampling assessment
- [ ] Soil analytical results
- [ ] Surface water analytical results
- [ ] Other (specify) _____

Type of regulated substance discharged: (Check all that apply)

- [ ] Gasoline
- [ ] Diesel
- [ ] Heating oil
- [ ] Kerosene
- [ ] Aviation gas
- [ ] Jet fuel
- [ ] Used/waste oil
- [ ] New motor/lube oil
- [ ] Pesticide
- [ ] Grade 5 & 6 residual oils
- [ ] Mineral acids (ASTs)
- [ ] Ammonia compound
- [ ] Chlorine compound
- [ ] Biofuel blends
- [■] Unknown
- [ ] Other (specify) _____
- [ ] Hazardous substance (USTs) – write name or Chemical Abstract Service (CAS) #: _____

Discharge originated from a: (Check all that apply)

- [ ] Tank
- [ ] Piping
- [ ] Spill bucket
- [ ] Dispenser
- [ ] Piping sump
- [ ] Dispenser sump
- [ ] Other secondary containment
- [ ] Fitting or pipe connection
- [ ] Valve
- [ ] Tank truck
- [ ] Vehicle or customer vehicle
- [ ] Aircraft
- [ ] Railroad tankcar
- [ ] Barge, tanker ship or other vessel
- [ ] Pipeline
- [ ] Drum
- [ ] Unknown
- [■] Other (specify) Tank Present but origin unknown

Cause of the discharge: (Check all that apply)

- [ ] Spill
- [ ] Overfill
- [ ] Corrosion
- [ ] Puncture
- [ ] Material failure (crack, split, etc.)
- [ ] Material incompatibility
- [ ] Improper installation
- [ ] Loose connection
- [ ] Collision
- [ ] Vehicle accident
- [ ] Fire/explosion
- [ ] Vandalism
- [ ] Weather
- [ ] Human error
- [■] Unknown
- [ ] Other (specify) _____

Actions taken in response to the discharge:

N/A - No physical discharge was observed only low level analytical results.

Comments:

There is no evidence, other than low level analytical results, that a discharge occured.

Agencies notified (as applicable):

- [ ] Fire Department
- [✓] County Program _____
- [ ] District Office _____
- [ ] State Watch Office 800-320-0519
- [ ] National Response Center 800-424-8802

To the best of my knowledge and belief, all information submitted on this form is true, accurate and complete.

APPENDIX B
Site Specific Health and Safety Plan

Wood Short Form HASP

Site: Coca Cola; Apopka, Florida Job/Task Number:
Street Address: 2651 Orange Avenue
Proposed Date(s) of Investigation: March 26, 2019
Prepared by: Siera Jann Date: March 25, 2019
*Approved by: Date:
Site Description: **(attach map)** Excavated area on the facility property. Primarily sandy sediment.
Comments: An old UST was pulled from the site during demolition activities. The material in the UST is known. Field activities include soil sampling from excavation, well installation, and groundwater sampling from a temporary well.

*Approval also serves as certification of a Hazard Assessment as required by 29 CFR 1910.132

Tasks:

Wood	Other contractor	Task Description
☒	☐	Soil and Groundwater Sampling
☐	☐	
☐	☐	
☐	☐	

Dates of Required Training and Medical Surveillance (add additional training topics, as required**):**

Name					
Job duties:	**Field Team Lead**	**Field Representative**			
Names:		**Siera Jann**			
	Dates	**Dates**	**Dates**	**Dates**	**Dates**
Medical Surveillance		December 2018			
40-Hour Initial		February 2017			
8-Hour Supervisor [3]					
8-Hour Refresher		March 2019			
First Aid		2018			
CPR		2018			
Hazard Communication					

[2] At least one worker must be trained in First Aid/CPR and should received Bloodborne Pathogen Training
[3] Required for Field Lead and Site Health and Safety Officer

Known or Suspected Contaminants (include PELs/TLVs):

Contaminants of Concern (COC) (Attach Fact Sheets*)	**Maximum Concentrations**		**PEL/TLV**
	Soil (mg/kg)	**Water/Groundwater (µg/l)**	
Volatiles	Suspected	Suspected	
Semi-volatile	Suspected	Suspected	
RCRA Metals	Suspected	Suspected	

*Workers must be made aware of the signs, symptoms, and first aid for each COC. Information is located on the COC fact sheets.

Air Monitoring Action Levels:

PID/FID Reading[1]	Detector Tube[1]	Dust Meter[1]	LEL[2]/O_2[1]	Action
			>10% LEL	Stop work. Evacuate area. Consider return with ventilation system and spark proof/intrinsically safe equipment.
			<19.5% O_2	Stop work and evacuate area.

[1] Sustained readings measured in the breathing zone

[2] Readings at measured at the source (borehole, well, etc.)

AHAs: Check and attach all that apply (add applicable AHAs not already listed):

Activity Specific AHAs:

☒	Mobilization/Demobilization and Site Preparation
☒	Field Work - General
☐	Field Work - Oversight
☐	Decontamination
☐	Utility Clearance Activities
☒	Groundwater Sampling
☒	Soil Sampling
☐	Drilling Operation
☐	Geoprobe
☐	Excavations and Backfilling
☐	Stream/Wetlands Work

Hazard Specific AHAs:

☒	Insect Stings and Bites
☒	Gasoline/Used Oil
☐	Working with Preservatives (Acids)
☒	Well Installation
☐	
☐	
☐	
☐

HAZARD IDENTIFICATION SUMMARY

Complete the checklist for summarizing the hazards identified in the JHAs

Standard Hazards						
☐ Falling Objects	☒ Slips and trips	☒ Pinch points	☐ Rotating equipment			
☒ Falls	☐ Power equipment/tools	☐ Elevated work surfaces	☐ _____			
Eye Hazards						
☐ Particulates	☐ Liquid splashes	☐ Welding Arc	☐ _____			
Hearing Hazards						
☒ None	☐ Impact noise	☐ High frequency noise	☐ High ambient noise			
Respiratory Hazards						
☒ None	☐ Dust/aerosols/particulates	☐ Organic Vapors	☐ Acid Gases	☐ O_2 deficient	☐ Metals	☐ Asbestos
Chemical Hazards						
☐ None	☐ Organic solvents	☒ Reactive metals	☐ PCBs			
☐ Acids / bases	☐ Oxidizers	☒ Volatiles/Semi-volatiles	☒ Diesel/Gasoline			
Environmental Hazards						
☐ None	☐ Cold Stress	☒ Heat Stress	☐ Wet location	☒ Bio hazards (snakes, insects, spiders, poisonous plants, etc.)		
☐ Explosive vapors	☐ Confined space	☐ Engulfment Hazard	☐ _____			

Electrical Hazards				
☒ None	☐ Energized equipment or circuits	☐ Overhead utilities	☐ Underground utilities	☐ Wet location

Fire Hazards			
☒ None	☐ Cutting, welding, or grinding generated sparks or heat sources	☐ Flammable materials present	☐ Oxygen enriched location

Ergonomic Hazards					
☒ Lifting	☒ Bending	☒ Twisting	☐ Pulling/tugging	☒ Repetitive motion	☐ Carrying
Computer Use in the: ☒ Office ☐ Field			☐ _____	☐ _____	

Radiological Hazards						
☒ None	☐ Alpha	☐ Beta	☐ Gamma/X-rays	☐ Neutron	☐ Radon	☐ Non-Ionizing

Other Hazards
☐

PPE and Monitoring Instruments

Initial Level of PPE *			
☒ Level D	☐ Modified Level D	☐ Level C	* Cannot use Short Form HASP for Level B or A work

Standard PPE					
☒ Hard Hat	☒ Safety boots	☒ Safety glasses	☐ Chem. Resistant Boots	☒ High visibility vest	☐ Other:____

Eye and Face Protection			
☐ Face shield	☐ Vented goggles	☐ Unvented goggles	☐ Indirect vented goggles

Hearing Protection			
☐ Ear plugs	☐ Ear Muffs	☐ Ear plugs and muffs	☐ Other _____

Respiratory Protection					
☒ None	☐ Dust mask	☐ Full Face APR	☐ Half Face APR	Cartridge Type: _____	Change Cartridges: _____

Protective Clothing			
☐ Work uniform	☐ White uncoated Tyvek®	☐ Poly-coated Tyvek®	☐ Saranex®
☐ Boot covers	☐ Reflective vest	☐ Chaps or Snake Legs	☐ Other ___

Hand Protection					
☐ None	☐ Cotton gloves	☐ Leather gloves	☐ Glove liners	☐ Cut-resistant gloves	☒ Other: Nitrile Gloves
☐ Outer Gloves: List Type_____			☐ Inner Gloves: List Type_____		

Monitoring Instruments Required*

Periodic monitoring shall be conducted when the possibility of an IDLH condition or flammable atmosphere has developed or when there is indication that exposures may have risen over permissible exposure limits or published exposure levels since prior monitoring. Situations where it shall be considered whether the possibility that exposures have risen are as follows:

- When work begins on a different portion of the site.
- When contaminants other than those previously identified are being handled.
- When a different type of operation is initiated (e.g., drum opening as opposed to exploratory well drilling.)
- When employees are handling leaking drums or containers or working in areas with obvious liquid contamination (e.g., a spill or lagoon.)

☐ LEL/O2 Meter	☐ PID: ☐ 10.0-10.6 eV Lamp ☐ 11.7 eV Lamp	☒ FID	☐ Hydrogen Sulfide/Carbon Monoxide
☐ Dräger Pump (or equivalent) List Tubes_____	☐ Dust Meter: ☐ Respirable dust ☐ Total dust		☐ Other _____

*Monitoring instruments will be calibrated daily in accordance with manufacturer's instructions. Results will be recorded in the field logbook.

Chemicals Brought to the Site:

List all chemicals brought to the site (e.g., preservatives, decon solutions, calibration gases, gasoline, etc.).

Chemicals (Note: Name listed must match name on label and MSDS)	**MSDS Attached?**
CALIBRATION STDS	☐
	☐
	☐
	☐
	☐

Chemicals will be kept in their original containers. If transferred to another container, aside from days use by one individual, the new container will be labeled with the name of the chemical and the hazard warnings.

Work Zones:

The work zones will be defined relative to the location of the work activity. The Exclusion Zone is considered the area within a 10-foot diameter of the sampling location. The Contamination Reduction Zone is considered to be the area with in a 20-foot diameter of the sampling location. The decontamination zone is to be located upwind of the work area. Work zones will be maintained through the use of:

☒ Warning Tape
☐ Cones and Barriers
☒ Visual Observations

Decontamination Procedures and Equipment:

Note: See Decontamination JHA for further information

Level D Decontamination Procedures

Decontamination Solution:	Detergent and Water
Station 1: Equipment Drop	Deposit equipment used on-site (tools, sampling devices and containers, monitoring instruments, radios, etc. on plastic drop cloths. Segregation at the drop reduces the probability of cross contamination. During hot weather operations, a cool-down station may be set up within this area.
Station 2: Outer Boots, and Gloves Wash and Rinse (if worn)	Scrub outer boots, and outer gloves decon solution or detergent water. Rinse off using copious amounts of water.
Station 3: Outer Boot and Glove Removal (if worn)	Remove outer boots and gloves. Deposit in plastic bag.
Station 4: Inner glove removal	Remove inner gloves and place in plastic bag.
Station 5: Field Wash	Hands and face are thoroughly washed. Shower as soon as possible.

Modified Level D and Level C PPE Decontamination Procedures

Decontamination Solution:	Detergent and Water
Station 1: Equipment Drop	Deposit equipment used on-site (tools, sampling devices and containers, monitoring instruments, radios, etc. on plastic drop cloths. Segregation at the drop reduces the probability of cross contamination. During hot weather operations, a cool-down station may be set up within this area.
Station 2: Outer Garment, Boots, and Gloves Wash and Rinse	Scrub outer boots, outer gloves, and splash suit with decon solution or detergent water. Rinse off using copious amounts of water.
Station 3: Outer Boot and Glove Removal	Remove outer boots and gloves. Deposit in container with plastic liner.
Station 4: Canister or Mask (Level C only) Change	If worker leaves exclusion zone to change canister (or mask), this is the last step in the decontamination procedure. Worker's canister is exchanged, new outer gloves and boot covers are donned, joints are taped, and worker returns to duty.
Station 5: Boot, Gloves and Outer Garment Removal	Boots, chemical resistant splash suit, and inner gloves are removed and deposited in separate containers lined with plastic.
Station 6: Face Piece Removal (Level C only)	Facepiece is removed. Avoid touching face with fingers. Facepiece is deposited on plastic sheet.
Station 7: Field Wash	Hands and face are thoroughly washed. Shower as soon as possible.

Site Communication:

- ☒ Verbal
- ☐ Two-way radio
- ☒ Cellular telephone
- ☐ Hand signals

- Hand gripping throat ---------- Out of air, can't breathe
- Grip partner's wrist or both hands around waist ---------- Leave area immediately
- Hands on top of head ---------- Need assistance
- Thumbs up ---------- OK, I am all right, I understand
- Thumbs down ---------- No, negative

☐ Horn
☐ Siren
☐ Other:

EMERGENCY CONTACTS

NAME	TELEPHONE NUMBERS		DATE OF PRE-EMERGENCY NOTIFICATION (if applicable)
Fire Department:	911		
Hospital:	407-296-1000		
WorkCare (Early case management)	1-888-449-7787		
Police Department:	911		
	Office	**Cell**	
Site Health And Safety Officer: Siera Jann	813-636-1508	843-298-6449	
Client Contact: Joe Gonzalez		404-731-2859	
Project Manager: Dustin Heizer	404-817-0156	678-576-8795	
*Central Group HSE Manager: Kirby Lancaster		863-272-4775	
Corporate VP of HSE – Vlad Ivensky	610-877-6144	484-919-5175 (Cell) 215-947-0393 (Home)	
EPA/DEP (if applicable):			

OTHER: Ambulance	911		

*See Incident Flow Chart for additional Group HSE Manager's Contact Information

Emergency Equipment:
The following emergency response equipment is required for this project and shall be readily available:

- ☒ Field First Aid Kit (including bloodborne pathogen kit/supplies)
- ☒ Fire Extinguisher (ABC type)
- ☐ Eyewash (Note: 15 minutes of free-flowing fresh water)
- ☐ Other: _____

EMERGENCY PROCEDURES

- The HSO (or alternate) should be immediately notified via the on-site communication system. The HSO assumes control of the emergency response.
- The HSO notifies the Project Manager and client contact of the emergency.
- If the emergency involves an injury to an Wood employee, the HSE Coordinator or Field Lead are to implement the Wood Early Injury Case Management program. See procedures and Flow Diagram below:
- If applicable, the HSO shall notify off-site emergency responders (e.g. fire department, hospital, police department, etc.) and shall inform the response team as to the nature and location of the emergency on-site.
- If applicable, the HSO evacuates the site. Site workers should move to the predetermined evacuation point (See Site Map).
- For small fires, flames should be extinguished using the fire extinguisher. Large fires should be handled by the local fire department.
- In an unknown situation or if responding to toxic gas emergencies, appropriate PPE, including SCBAs (if available), should be donned. If appropriate PPE is unavailable, site workers should evacuate and call in emergency personnel.
- For chemical spills, follow the job specific JHA for spill containment
- If chemicals are accidentally spilled or splashed into eyes or on skin, use eyewash and wash affected area. Site worker should shower as soon as possible after incident.
- If the emergency involves toxic gases, workers will back off and reassess. Prior to re-entering the work zone, the area must be determined to be safe. Entry will be using Level B PPE and utilize appropriate monitoring equipment to verify that the site is safe.
- An injured worker shall be decontaminated appropriately.

- Within 24 hours after any emergency response, the Incident Analysis Report (and Vehicle Incident Report if vehicle incident) shall be completed and returned to the Group HSE Manager. Injuries requiring medical treatment beyond first aid (as well as work-related vehicle incidents) will require the employee to submit a post incident drug test.

Wood Early Injury Case Management Program

<table>
<tr><th>NON-EMERGENCY INCIDENT</th><th>EMERGENCY INCIDENT</th></tr>
<tr><td>Steps 1 & 2 must be completed before seeking medical attention other than local first aid.
1. Provide first-aid as necessary. Report the situation to your immediate supervisor AND HSE coordinator (all incidents with the apparent starting event should be reported within 1 hour of occurrence).
2. Injured employee:</td><td>1. Provide emergency first aid. Supervisor on duty must immediately call 911 or local emergency number; no employee may respond to outside queries without prior authorization. Any outside media calls concerning this incident must be referred immediately to Lauren Gallagher at 602-757-3211.
2. Once medical attention is sought and provided, the supervisor must:</td></tr>
<tr><td colspan="2">Call WorkCare 24/7 Hotline*
(888) II-XPRTS or (888) 449-7787</td></tr>
<tr><td>WorkCare will assess the situation and determine whether the incident requires further medical attention. During this process, WorkCare will perform the following:
• Explain the process to the caller.
• Determine the nature of the concern.
• Provide appropriate medical advice to the caller.
• Determine appropriate path forward with the caller.
• Maintain appropriate medical confidentiality.
• Help caller to execute path forward, including referral to the appropriate local medical facility.
• Send an email notification to the Corporate HSE Department.</td><td>WorkCare will be responsible for performing the following:
• Contact the treating physician.
• Request copies of all medical records from clinic.
• Send an email update to the Corporate HSE Department.</td></tr>
<tr><td colspan="2">3. IMMEDIATELY after contacting WorkCare send a brief email notification AND inform verbally (direct contact is required) ONE of HSE corporate representatives See Figure 11.3.
4. Make all other local notifications and client notifications.
5. Local Supervisor, HSE Coordinator, SSHO and any applicable safety committees to complete preliminary investigation, along with the initial Incident Report within 24 hours.
6. Corporate Loss Prevention Manager to complete Worker's Compensation Insurance notifications as needed.
7. Corporate HSE to conduct further incident notifications, investigation, include in statistics, classify, and develop lessons learned materials.
* - NOTE: Step 2 is only applicable to the North-American operations and to incidents involving Wood personnel. High potential near misses, subcontractors' incidents, regulatory inspections, spills and property damages above $1,000 should be reported immediately, following directions from Step 3.</td></tr>
</table>

Site Specific Procedures are as follows:

CLINIC (for non-emergency medical treatment)

Go to the Zurich CARE Directory to find a local clinic: https://secure.zurichna.com/zus/zna.nsf/carecheck.html. The password is: zurichna – click "no" when ask about loading secure info only.

Facility Name: Community Health Centers

Address: 225 E 7th St, Apopka, FL 32703

Telephone Number: 407-905-8827

DIRECTIONS TO CLINIC (attach map):

PPE Selection Guidelines

When selecting the appropriate PPE for the job, consider the following:

- **Safety glasses** – general eye protection – source of hazard, typically coming from straight on, required at most sites
- **Tinted Safety Glasses** – same as above, but when working in direct sunlight. May need two both tinted and untinted if working in both sunlight and shade/overcast skys.
- **Safety goggles** – needed for splash hazard, more severe eye exposures coming from all directions. Non-vented or indirect venting for chemical splash, non-vented for hazardous gases or very fine dust, vented for larger particulates coming from all directions.
- **Face shield** – needed to protect face from cuts, burns, chemicals (corrosives or chemicals with skin notation), etc.
- **Safety boots** – needed if danger of items being dropped on foot that could injure foot
- **Hard hat** – danger from items falling on head – any overhead work, tools, equipment, etc that is above the head and could fall on head of item fails, or falls off work platform. Typically required at most sites as a general PPE
- **Thin, chemical protective inner gloves** (e.g., thin Nitrile, PVC – do not use latex – many people are allergic to latex) – needed to protect hands from incidental contact with low risk contamination at very low concentrations (ppb or low ppm concentrations in groundwater or soil) or used in combination with outer gloves as a last defense against contamination. Need to specify type
- **Outer gloves** – thicker gloves (e.g., Nitrile, Butyl, Viton, etc.) – used when potential for high concentrations of contaminants (e.g., floating product, percent ranges of contaminant, opening drums, handling pure undiluted chemicals, etc.). Need to specify type.
- **Leather gloves, leather palm, cotton** – good in protecting hands against cuts – no protection from chemicals. May be used in combination with chemical protective gloves.
- **Boot Covers –** when there is contamination in surface soils or waking surface in general. When safety boots need protection from contact with contaminants.
- **White (uncoated) Tyveks** – protect clothing from getting dirty, good for protection against solid, non-volatile chemicals (e.g., asbestos, metals) – no chemical protection.
- **Polycoated Tyveks** – least protective of chemical protective clothing. Used when some risk of contamination getting on skin or clothing. Usually, lower ppm ranges of contaminants.
- **Saranex** – Greater protection against contamination than Polycoated Tyveks. Used to protect against PCBs or higher concentrations of contaminants in the soil or groundwater.
- **Other Chemical protective clothing** – if significant risk of dermal exposure, contact H&S to determine best kind.
- **Long sleeved shirts, long pants** – if working in areas with poison ivy/oak/sumac, poisonous insects, etc. and no chemicals exposure. May want to use uncoated Tyveks for work in areas where poisonous plants are know to be to protect clothing.
- **Cartridge Respirator (Level C PPE)** – Need to calculate change schedule (contact Division EH&S Manager for this) to determine length of use. To be able to use cartridge respirators, need to know contaminants, estimate levels to be encountered in the breathing zone, need to ensure that cartridge will be effective against COCs, and need to be able to monitor for COCs using PID, FID, Dräger tubes, etc.. If can't do any of these, then Level B PPE is probably going to be needed.
- **High Visibility Vest** – needed for any road work (with in 15 feet of a road) or when working on a site with vehicular traffic or working around heavy equipment. Needed if work tasks would take employee concentration away from movement of vehicles and workers would have to rely on the other driver's ability to see the employee in order not to hit them. This includes heavy equipment as well as cars and trucks, on public roads or the jobsite. Not needed if wearing Polycoated Tyveks – as they are already high visibility.
- **Reflective Vest** – see above, but for use at night.
- **Hearing Protection** – needed if working at noise levels above 85 dBA on a time weighted average. If noise measurements are not available, use around noisy equipment, or in general, if you have to raise your voice to be heard when talking to someone standing two feet away.
- **Protective Chaps –** required when using a machete or chain saw or any other cut hazard to legs.

Reference: XENCO Report No(s): **618975**
TCCC-APOPKA
Project Address:

Andy Hooper:

We are reporting to you the results of the analyses performed on the samples received under the project name referenced above and identified with the XENCO Report Number(s) 618975. All results being reported under this Report Number apply to the samples analyzed and properly identified with a Laboratory ID number. Subcontracted analyses are identified in this report with either the NELAC certification number of the subcontract lab in the analyst ID field, or the complete subcontracted report attached to this report.

Unless otherwise noted in a Case Narrative, all data reported in this Analytical Report are in compliance with NELAC standards. The uncertainty of measurement associated with the results of analysis reported is available upon request. Should insufficient sample be provided to the laboratory to meet the method and NELAC Matrix Duplicate and Matrix Spike requirements, then the data will be analyzed, evaluated and reported using all other available quality control measures.

The validity and integrity of this report will remain intact as long as it is accompanied by this letter and reproduced in full, unless written approval is granted by XENCO Laboratories. This report will be filed for at least 5 years in our archives after which time it will be destroyed without further notice, unless otherwise arranged with you. The samples received, and described as recorded in Report No. 618975 will be filed for 45 days, and after that time they will be properly disposed without further notice, unless otherwise arranged with you. We reserve the right to return to you any unused samples, extracts or solutions related to them if we consider so necessary (e.g., samples identified as hazardous waste, sample sizes exceeding analytical standard practices, controlled substances under regulated protocols, etc).

We thank you for selecting XENCO Laboratories to serve your analytical needs. If you have any questions concerning this report, please feel free to contact us at any time.

Respectfully,

Chad Bechtold

STOCKPILE	S	03-26-19 12:20		618975-006

CASE NARRATIVE

Client Name: Wood Environment & Infrastructure Solutions
Project Name: TCCC-APOPKA

Project ID: *6121-17-0478*
Work Order Number(s): *618975*

Report Date: *02-APR-19*
Date Received: *03/26/2019*

Sample receipt non conformances and comments:

Report Revision: Per client request the laboratory performed Method 8270D - SIM PAH analysis on the sample NORTH (Base) to confirm the detections for the B(a)P equivalents compounds from the Method 8270D analysis. The B(a)P equivalents detections from the initial Method 8270D analysis were between the Practical Quantitation Limit (PQL) and Method Detection Limit (MDL). Results between the PQL and MDL should be considered estimated. The Method 8270D - SIM PAH analysis results provided much lower PQLs and MDLs. The detections for the B(a)P equivalents compounds were above the PQL for this confirmation analysis, but the results were below the Residential limit.

Sample receipt non conformances and comments per sample:

None

Analytical non conformances and comments:

Batch: LBA-3083532 VOCs PP List by SW-846 8260BPP
Acrylonitrile RPD was outside laboratory control limits.
Samples in the analytical batch are: 618975-001, -002, -003, -004, -005, -006

Batch: LBA-3083714 FL-PRO
Surrogate o-Terphenyl recovered below QC limits. Matrix interferences is suspected.
Samples affected are: 618975-001.
Surrogate Nonatriacontane (C39) recovered below QC limits. Matrix interferences is visible.
Samples affected are: 618975-005.

Sample 618975-001, -005 final extracts were dark orange/brown.

Batch: LBA-3083716 Pesticides by SW-846 8081B
Delta-BHC recovered below QC limits in the Blank Spike and Duplicate. The number of failed analytes were within the marginal exceedances per TNI rule. No additional action is required. Samples in the analytical batch are: 618975-001, -002, -003, -004, -005, -006.

Batch: LBA-3083738 PCBs by SW-846 8082A
WO# 618975 SW8082 PCB AR1262 is present.

Batch: LBA-3083746 PAHs by 8270D SIM
Surrogate Nitrobenzene-d5, Surrogate Terphenyl-D14 recovered above QC limits. Matrix interferences is suspected; data confirmed by re-analysis.
Samples affected are: 618975-004.

CASE NARRATIVE

Client Name: Wood Environment & Infrastructure Solutions
Project Name: TCCC-APOPKA

Project ID: *6121-17-0478*
Work Order Number(s): *618975*

Report Date: *02-APR-19*
Date Received: *03/26/2019*

Batch: LBA-3083755 SVOCs PP List by SW8270D
Surrogate 2-Fluorobiphenyl, Surrogate 2-Fluorophenol, Surrogate Phenol-d6 recovered below QC limits.
Matrix interferences is suspected; data confirmed by re-analysis.
Samples affected are: 618975-006.

Sample analyzed at a dilution due to physical characteristics and high levels of non-target compounds.

Hits Summary 618975

Wood Environment & Infrastructure Solutions, Tampa, FL

TCCC-APOPKA

Below is a summary of the analytes which were found to be present in the samples associated with this work order. This should only be used in conjunction with the included analytical results.

Sample ID: EAST (2') **Sample ID: 618975-001** **Date/Time Sampled: 03/26/2019 11:39** **Matrix: Solid**

F = These samples were analyzed outside the recommended holding time.

FLORIDA flagging criteria

Data were reviewed by the
Department Supervisor and QA Director

A Value reported is the mean (average) of two or more determinations.

B Results based upon colony counts outside the acceptable range.

J Estimated value; value not accurate. All results with a "J" qualifier require comment.

- J1: Surrogate Recoveries exceed established QA/QC Limits
- J2: No known QA/QC exists.
- J3: Reported value failed to meet established QA/QC limits or the sample matrix interfered with the ability to make an accurate determination
- J4: The data is questionable due to improper laboratory or field protocols

Q Sample held beyond the accepted holding time

T Value reported is less than the laboratory method detection limit. The value is reported for informational purposes, only and shall not be used in statistical analysis.

U Compound was analyzed for but not detected at the MDL Level.

V Analyte was detected in both the sample and the associated method blank.

Y Laboratory analysis was from an unpreserved or improperly preserved sample. The data may not be accurate.

I The reported value is between the laboratory MDL and the laboratory PQL.

R Significant rain in the past 48 hours.

+ NELAC certification not offered for this compound.

***** (Next to analyte name or method description) = Outside XENCO's scope of NELAC accreditation

L Off-scale high. Actual value is known to be greater than value given. To be used when the concentration of the analyte is above the acceptable level for quantitation (exceeds the linear range or highest calibration standard) and the calibration curve is known to exhibit a negative deflection.

Notice: Signature of this document and relinquishment of samples constitutes a valid purchase order from client company to Xenco, its affiliates and subcontractors. It assigns standard terms and conditions of service. Xenco will be liable only for the cost of samples and shall not assume any responsibility for any losses or expenses incurred by the client if such losses are due to circumstances beyond the control of Xenco. A minimum charge of $75.00 will be applied to each project and a charge of $5 for each sample submitted to Xenco, but not analyzed. These terms will be enforced unless previously negotiated.

Reference: XENCO Report No(s): **620860**
Apopka Tank
Project Address:

Andy Hooper:

We are reporting to you the results of the analyses performed on the samples received under the project name referenced above and identified with the XENCO Report Number(s) 620860. All results being reported under this Report Number apply to the samples analyzed and properly identified with a Laboratory ID number. Subcontracted analyses are identified in this report with either the NELAC certification number of the subcontract lab in the analyst ID field, or the complete subcontracted report attached to this report.

Unless otherwise noted in a Case Narrative, all data reported in this Analytical Report are in compliance with NELAC standards. The uncertainty of measurement associated with the results of analysis reported is available upon request. Should insufficient sample be provided to the laboratory to meet the method and NELAC Matrix Duplicate and Matrix Spike requirements, then the data will be analyzed, evaluated and reported using all other available quality control measures.

The validity and integrity of this report will remain intact as long as it is accompanied by this letter and reproduced in full, unless written approval is granted by XENCO Laboratories. This report will be filed for at least 5 years in our archives after which time it will be destroyed without further notice, unless otherwise arranged with you. The samples received, and described as recorded in Report No. 620860 will be filed for 45 days, and after that time they will be properly disposed without further notice, unless otherwise arranged with you. We reserve the right to return to you any unused samples, extracts or solutions related to them if we consider so necessary (e.g., samples identified as hazardous waste, sample sizes exceeding analytical standard practices, controlled substances under regulated protocols, etc).

We thank you for selecting XENCO Laboratories to serve your analytical needs. If you have any questions concerning this report, please feel free to contact us at any time.

Respectfully,

Chad Bechtold
Project Manager

CASE NARRATIVE

Client Name: Wood Environment & Infrastructure Solutions
Project Name: Apopka Tank

Project ID:
Work Order Number(s): *620860*

Report Date: *16-APR-19*
Date Received: *04/11/2019*

Sample receipt non conformances and comments:

None

Sample receipt non conformances and comments per sample:

None

Analytical non conformances and comments:

Batch: LBA-3085639 PAHs by SW846 8270D SIM
Surrogate Nitrobenzene-d5 recovered below QC limits. Matrix interferences is suspected.
Samples affected are: 620581-001 S.

Batch: LBA-3085668 VOCs PP List by SW-846 8260BPP
Chloroethane recovered below QC limits in the Blank Spike and Duplicate. Analyte was not detected in any of the associated samples and therefore the data was accepted. Samples in the analytical batch are: 620860-001.

Batch: LBA-3085765 FL-PRO
Surrogate o-Terphenyl recovered below QC limits Data confirmed by re-analysis. Samples affected are: 7675618-1-BLK,7675618-1-BSD,620860-001.

Batch: LBA-3085787 SVOCs PP List by SW8270D
Benzidine RPD was outside laboratory control limits.
Samples in the analytical batch are: 620860-001

Benzidine recovered below QC limits in the laboratory control sample. The number of failed analytes were within the marginal exceedances per TNI rule. No additional action is required. Samples in the analytical batch are: 620860-001.

Surrogate 2-Fluorophenol, Surrogate Phenol-d6 recovered below QC limits. Matrix interferences is suspected; data confirmed by re-analysis.
Samples affected are: 620860-001.

Hits Summary 620860

Wood Environment & Infrastructure Solutions, Tampa, FL

Apopka Tank

Below is a summary of the analytes which were found to be present in the samples associated with this work order. This should only be used in conjunction with the included analytical results.

F = These samples were analyzed outside the recommended holding time.

FLORIDA flagging criteria

Data were reviewed by the
Department Supervisor and QA Director

A Value reported is the mean (average) of two or more determinations.

B Results based upon colony counts outside the acceptable range.

J Estimated value; value not accurate. All results with a "J" qualifier require comment.

- J1: Surrogate Recoveries exceed established QA/QC Limits
- J2: No known QA/QC exists.
- J3: Reported value failed to meet established QA/QC limits or the sample matrix interfered with the ability to make an accurate determination
- J4: The data is questionable due to improper laboratory or field protocols

Q Sample held beyond the accepted holding time

T Value reported is less than the laboratory method detection limit. The value is reported for informational purposes, only and shall not be used in statistical analysis.

U Compound was analyzed for but not detected at the MDL Level.

V Analyte was detected in both the sample and the associated method blank.

Y Laboratory analysis was from an unpreserved or improperly preserved sample. The data may not be accurate.

I The reported value is between the laboratory MDL and the laboratory PQL.

R Significant rain in the past 48 hours.

+ NELAC certification not offered for this compound.

***** (Next to analyte name or method description) = Outside XENCO's scope of NELAC accreditation

L Off-scale high. Actual value is known to be greater than value given. To be used when the concentration of the analyte is above the acceptable level for quantitation (exceeds the linear range or highest calibration standard) and the calibration curve is known to exhibit a negative deflection.

Notice: Signature of this document and relinquishment of samples constitutes a valid purchase order from client company to Xenco, its affiliates and subcontractors. It assigns standard terms and conditions of service. Xenco will be liable only for the cost of samples and shall not assume any responsibility for any losses or expenses incurred by the client if such losses are due to circumstances beyond the control of Xenco. A minimum charge of $75.00 will be applied to each project and a charge of $5 for each sample submitted to Xenco, but not analyzed. These terms will be enforced unless previously negotiated.

Subject: Site Rehabilitation Completion Order
Orange County - Waste Cleanup
The Coca Cola Company
Special Products Department AST
2501 West Orange Avenue
Apopka, Florida 32703
WCU SITE ID: ERIC_12758
Discharge Date: March 8, 2008 (AST 306)

Dear Ms. Brown:

The Department has reviewed the "Semi-Annual Groundwater Sampling Report Relative to Tank No. 306" that was created March 6, 2024 (Report). The Report was submitted on March 14, 2024 by Ardaman and Associates, Inc. (Ardaman) for the Special Products Department AST Site located at 2501 West Orange Avenue in Apopka, Orange County, Florida. All the documents submitted to date are adequate to meet the site assessment requirements of Rule 62-780.600, Florida Administrative Code (F.A.C.).

In addition, the person responsible for site rehabilitation has requested to address the contamination pursuant to subsection 376.30701(1)(b), Florida Statutes (F.S.) under the global risk-based corrective action (RBCA) program (not petroleum RBCA). Documentation submitted with the Report confirms that the only remaining contaminants (benzene, p-isopropyltoluene, isopropylbenzene and Total Petroleum Hydrocarbons (TPH)) exceed nuisance, organoleptic or aesthetic consideration criteria set forth in paragraphs 376.30701(2)(g)3.a-f, F.S. and Subsection 62-780.680(1)(c)1.a.(I)-(IV), F.A.C. In an October 3, 2013 letter, the Department agreed that the TPH analysis was not relevant to this site because hydrocarbon "fingerprinting" proved the TPH source to be trace amounts of terpanes and not petroleum. Please refer to the attached map[s] of the source property and analytical summary tables, Exhibits A and B respectively and hereby incorporated by reference. Due to the generic permit dewatering requirements found in Rule 62-621.300, F.A.C., information about the above facility will be maintained on the Department's Institutional Controls Registry website at: http://ca.dep.state.fl.us/mapdirect/?focus=icr. The

Report is hereby incorporated by reference in this Site Rehabilitation Completion Order (Order). Therefore, you are released from any further obligation to conduct site rehabilitation at the facility for contamination associated with the discharge referenced above, except as set forth below.

(1) In the event concentrations of petroleum products' contaminants of concern increase above the levels approved in this Order, or if a subsequent discharge of petroleum or petroleum product occurs at the facility, the Florida Department of Environmental Protection (Department) may require site rehabilitation to reduce concentrations of petroleum products' contaminants of concern to the levels approved in the Report or otherwise allowed by Chapter 62-780, F.A.C.

(2) Additionally, you are required to properly plug and abandon all monitoring wells, injection wells, extraction wells, and sparge wells within 60 days of receipt of this Order unless these wells are otherwise required for compliance with a local ordinance or another cleanup. The wells must be plugged and abandoned in accordance with the requirements of Subsection 62-532.500(5), F.A.C. A Well Plugging Report shall be submitted within 30 days of well plugging. Other State, county or city requirements for well abandonment may also apply.

NOTICE OF RIGHTS

This action is final and effective on the date filed with the Clerk of the Department unless a petition for an administrative hearing is timely filed under Sections 120.569 and 120.57, F.S., before the deadline for filing a petition. On the filing of a timely and sufficient petition, this action will not be final and effective until a subsequent order of the Department. Because the administrative hearing process is designed to formulate final agency action, the subsequent order may modify or take a different position than this action.

Petition for Administrative Hearing

A person whose substantial interests are affected by the Department's action may petition for an administrative proceeding (hearing) under Sections 120.569 and 120.57, F.S. Pursuant to Rules 28-106.201 and 28-106.301, F.A.C., a petition for an administrative hearing must contain the following information:

(a) The name and address of each agency affected and each agency's file or identification number, if known;
(b) The name, address, any e-mail address, any facsimile number, and telephone number of the petitioner, if the petitioner is not represented by an attorney or a qualified representative; the name, address, and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests will be affected by the agency determination;
(c) A statement of when and how the petitioner received notice of the agency decision;

(d) A statement of all disputed issues of material fact. If there are none, the petition must so indicate;
(e) A concise statement of the ultimate facts alleged, including the specific facts that the petitioner contends warrant reversal or modification of the agency's proposed action;
(f) A statement of the specific rules or statutes that the petitioner contends require reversal or modification of the agency's proposed action, including an explanation of how the alleged facts relate to the specific rules or statutes; and
(g) A statement of the relief sought by the petitioner, stating precisely the action that the petitioner wishes the agency to take with respect to the agency's proposed action.

The petition must be filed (received by the Clerk) in the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida 32399-3000, or via electronic correspondence at Agency_Clerk@FloridaDEP.gov. Also, a copy of the petition shall be mailed to the addressee for this order at the address indicated above at the time of filing.

Time Period for Filing a Petition

In accordance with Rule 62-110.106(3), F.A.C., petitions for an administrative hearing by the addressee for this order must be filed within **21** days of receipt of this written notice. Petitions filed by any persons other than the addressee for this order must be filed within **21** days of publication of the notice or within **21** days of receipt of the written notice, whichever occurs first. You cannot justifiably rely on the finality of this decision unless notice of this decision and the right of substantially affected persons to challenge this decision has been duly published or otherwise provided to all persons substantially affected by the decision. While you are not required to publish notice of this action, you may elect to do so pursuant Rule 62-110.106(10)(a).

The failure to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57, F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention (in a proceeding initiated by another party) will be only at the discretion of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205, F.A.C. If you do not publish notice of this action, this waiver may not apply to persons who have not received a clear point of entry.

Extension of Time

Under Rule 62-110.106(4), F.A.C., a person whose substantial interests are affected by the Department's action may also request an extension of time to file a petition for an administrative hearing. The Department may, for good cause shown, grant the request for an extension of time. Requests for extension of time must be filed with the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida 32399-3000, or via electronic correspondence at Agency_Clerk@FloridaDEP.gov, before the deadline

for filing a petition for an administrative hearing. A timely request for extension of time shall toll the running of the time period for filing a petition until the request is acted upon.

Mediation

Mediation is not available in this proceeding.

Judicial Review

Once this decision becomes final, any party to this action has the right to seek judicial review pursuant to Section 120.68, F.S., by filing a Notice of Appeal pursuant to Florida Rules of Appellate Procedure 9.110 and 9.190 with the Clerk of the Department in the Office of General Counsel (Station #35, 3900 Commonwealth Boulevard, Tallahassee, Florida 32399-3000) and by filing a copy of the Notice of Appeal accompanied by the applicable filing fees with the appropriate district court of appeal. The notice must be filed within 30 days from the date this action is filed with the Clerk of the Department.

Questions

Any questions regarding the review of the Report should be directed to Johanna Leonard at (407) 897-4130. Questions regarding legal issues should be referred to the Department's Office of General Counsel at (850) 245-2242. Contact with any of the above does not constitute a petition for an administrative hearing or a request for an extension of time to file a petition for an administrative hearing.

The FDEP Facility Number for this facility is ERIC_12758. Please use this identification on all future correspondence with the Department.

1. Analysis of hydrocarbons at the site has demonstrated that the origin is non-petroleum. Therefore, TRPH results do not apply to this site.
2. Well Abandoned

I= The reported value is between the laboratory method detection limit (MDL) and the practical quantitation limit (PQL). J4= Estimated Result

* - No standard.

50 Shaded bold result denotes concentration exceeding a GCTL

100 Shaded bold result denotes concentration exceeding a NAMDSC.

1. Analysis of hydrocarbons at the site has demonstrated that the origin is non-petroleum. Therefore, TRPH results do not apply to this site.

2. Well Abandoned

I= The reported value is between the laboratory method detection limit (MDL) and the practical quantitation limit (PQL). J4= Estimated Result

* - No standard.

50 Shaded bold result denotes concentration exceeding a GCTL

100 Shaded bold result denotes concentration exceeding a NAMDSC.

Apopka, FL 32703-3346

The Florida Department of Environmental Protection has reviewed your submittal for a hazardous waste DEP/EPA Identification Number or status/information change.

Based on the information received, you have been issued the following number or reports for **Coca-Cola North America** located at **2659 Orange Ave, Apopka, FL 32703-3346**

DEP/EPA Identification Number: **FLD053393039**

Your facility status is the following: **Large Quantity Generator (LQG).**

Florida Administrative Code 62-730 requires all persons who generate, transport, recycle, store, or dispose of hazardous waste to notify the department of their hazardous waste activities. You are required to renotify on form 8700-12FL when there are changes in your operations which would affect your status, activity or contact information. Additional hazardous waste information including the 8700-12FL form can be found at:
https://floridadep.gov/waste/permitting-compliance-assistance/content/hazardous-waste-management-main-page.

Please note that pending program registrations, certifications, or permits will be sent to you separately. **To review the details of your status**, visit:
https://fldeploc.dep.state.fl.us/www_RCRA/Reports/handler_results.asp?epaid=FLD053393039.

For further assistance, please contact me at (850) 245-8707 or email me at Jeff.Gregg@dep.state.fl.us.

Sincerely,

Jeff Gregg
Environmental Manager
Waste Compliance Assistance Program

ME ID: 60284, Email Address: malasalle@coca-cola.com

EPA ID: FLD053393039

Please use the instructions document to complete this form
* mandatory fields

1. Reason for Submittal: (all submitters must complete pages 1 and 2 and sign page 7. Pages 3 through 6 - complete as applicable)

Mark 'X' in the correct box*: (must choose one if a notification)

- ☐ To obtain a new EPA ID number (for hazardous waste, universal waste, used oil activities, or PCW activities).
- ☒ To provide updated information for an EPA ID number (to update status and facility identification information).
- ☐ To provide the final information for an EPA ID number (closing). (see instructions—must complete pages 1, 2, 3, 7)
- ☐ To obtain new or updating an EPA ID number for conducting Electronic Manifest Broker activities.
- ☐ Submitting new or revised notification for Part A for permitted facilities.

FL Registration(s) ☐ UW Mercury (see page 4) ☐ HW Transporter (see page 5) ☐ Used Oil (see page 6)

2. Facility or Business Name:*

Coca-Cola North America

3. Facility Physical Location Information: (No P.O. Boxes)

Physical Street Address*: 2659 West Orange Avenue ☐ Vessel

City or Town:	State:	Zip Code:
Apopka	FL	32703

County*:	Country (if not USA)*:
Orange	

4. Facility or Business Mailing Address:

7. Real Property (FL Land) Owner of the Facility's Physical Location (List additional owners in the comments section.)

Name of Owner*: Coca-Cola North America		Date became Owner*: 06 / 19 / 07 ☐ New Owner mm dd yy	
Street or P.O. Box (or same address box is checked)*: 2659 West Orange Avenue		Phone Number*: 407-417-7704	
City or Town*: Apopka	State*: FL	Zip Code*: 32703	Country (if not USA):
E-Mail*: malasalle@coca-cola.com			
Owner Type*: ☒ Private ☐ Federal ☐ Municipal ☐ State ☐ County ☐ Other_____			
Comments:			

8. Facility Operator (List additional Operators in the comments section). Same address as #_3_ above or:

Name of Operator*: Coca-Cola North America		Date became Operator*: ___/___/___ ☐ New Operator mm dd yy	
Street or P.O. Box (or same address box is checked)*:		Phone Number*: 407-417-7704	
City or Town*:	State*:	Zip Code*:	Country (if not USA):
E-Mail*: malasalle@coca-cola.com			
Operator Type*: ☒ Private ☐ Federal ☐ Municipal ☐ State ☐ County ☐ Other_____			
Comments:			

9. RCRA Hazardous Waste Activities at this Facility: (Mark 'X' in all that apply):

(1) Generator of Hazardous Waste

☒ Yes ☐ No (This does not include Universal Waste or Used Oil)

If YES, Choose only one of the following three categories.

☒ **a. Large Quantity Generator (LQG):**
- Generates in any calendar month (includes quantities imported by importer site) 1,000 kilograms or greater per month (kg/mo) (2,200 lbs/mo.) of non-acute hazardous waste; or
- Generates in any calendar month, or accumulates at any time, more than 1 kg/mo (2.2 lbs/mo) of acute hazardous waste; or
- Generates in any calendar month, or accumulates at any time, more than 100 kg/mo (220 lb/mo) of acute hazardous spill cleanup material.

☐ **b. Small Quantity Generator (SQG):**
- Generates in any calendar month greater than 100kg/mo but less than 1,000 kg/mo (>220 to <2,200 lbs.) of non-acute hazardous waste and/or 1 kg (2.2 lbs) or less of acute hazardous waste and/or no more than 100 kg (220 lbs) of any acute hazardous spill cleanup material.

☐ **c. Very Small Quantity Generator (VSQG):**
- Generates in any calendar month 100 kg/mo or less (220 lbs.) of non-acute hazardous waste and/or 1 kg (2.2 lbs) or less of acute hazardous waste.

In addition, indicate other generator activities that apply.

☐ d. Short-Term Generator (one-time, not on-going)
☐ e. Mixed Waste (hazardous and radioactive) Generator
☐ f. United States Importer of hazardous waste
☐ g. LQG notifying of VSQG Hazardous Waste Under Control of the Same Person pursuant to 40 CFR 262.17(f). **(Addendum A Required)**
☐ h. Episodic: Not lasting more than 60 days: ☐ SQG ○ LQG **(Addendum B Required)**
☐ i. Electronic Manifest Broker, as defined in 40 CFR 260.10, electing to use EPA electronic manifest system to obtain, complete, and transmit an electronic manifest under a contractual relationship with a hazardous waste generator.

9. RCRA Hazardous Waste Activities at this Facility continued: (Mark 'X' in all that apply):

For Items 3 through 9, mark 'X' in all that apply.

(2) **Treater, Storer, or Disposer of Hazardous Waste** (at your facility—Choose Only One) Note: A hazardous waste permit may be required for this activity.

- ☐ a. Operating Commercial TSD
- ☐ b. Operating Non-Commercial TSD
- ☐ c. Non-Operating: Postclosure or Corrective Action Permit or Order (HSWA, etc.)

(3) ☐ **Recycler of Hazardous Waste** (at your facility)

Specify: ☐ Commercial ☐ Non-Commercial

Specify: ☐ Stores prior to recycling ☐ Does not store prior to recycling.
Note: A permit maybe required for storage prior to recycling.

(4) ☐ **Exempt Boiler and/or Industrial Furnace**

- ☐ a. Small Quantity On-site Burner Exemption
- ☐ b. Smelting, Melting, and Refining Furnace Exemption

(5) ☐ **Person Authorized to Manage Very Small Quantity Waste Generated at Other Facilities**
Choose this management activity ONLY if you attach
EITHER a copy of your application for such authorization OR the authorization you received from FDEP.

(6) ☐ **Receives Hazardous Waste from Off-Site**

(7) ☐ **Underground Injection Control**

(8) ☐ **Recognized Trader**— Mark all that apply

- ☐ a. Importer
- ☐ b. Exporter

(9) ☐ **Importer/ Exporter of Spent Lead-Acid Batteries (SLABs) under 40 CFR subpart G**— Mark all that apply

- ☐ a. Importer
- ☐ b. Exporter

10. Waste Codes for Federally Regulated Hazardous Wastes*: List the waste codes of the Federal hazardous wastes handled at your facility. List them in the order they are presented in the regulations (e.g., D001, D003, F007, K019, P012, U112).

Hazardous waste transporters must list codes routinely or usually transported. Use comments or an additional page if more spaces are needed.

1	2	3	4	5	6	7
D001	D009	D035	F005			
8	9	10	11	12	13	14
15	16	17	18	19	20	21

11. Other Status Changes (If no longer handling waste or closed, items 9 and 10 should be left blank and items 12-16 skipped):

(A) Central Accumulation Area (CAA) or Facility Closed:

- ☐ Central Accumulation Area (CAA)
- ☐ Facility Closed (Complete this section only if all business activities at this facility have ceased.)

(B) Closure Dates:

- ☐ (1) Expected closure date _____ (date in mm/dd/yyyy)
- ☐ (2) Requesting new closure date _____ (date in mm/dd/yyyy)
- ☐ (3) Date of closure: _____ (date in mm/dd/yyyy)
  - ☐ a. In compliance with the closure performance standards in 40 CFR 262.17(a)(8)
  - ☐ b. Not in compliance with the closure performance standards in 40 CFR 262.17(a)(8)

(C) Property Tax Default ☐ **(D) Petition for Bankruptcy Protection** ☐

Universal Waste Notification and Mercury Transporter/Handler Registration	EPA ID No.* FLD053393039

12. Universal Waste (UW) Activities (Mark 'X' and complete all that apply) :

A. Federal Notification

☐ **Federally Defined Large Quantity Handler (LQH) = Generate/Accumulate: 5,000 kg (11,000 lb) or more of any combination of UW accumulated (at any one time)**

Accumulates: ☐ **a. UW Batteries** ☐ **b. Pesticides** ☐ **c. Pharmaceuticals**

☐ **d. Mercury Containing Devices** ☐ **e. Mercury Containing Lamps**

☐ **Destination Facility for UW** Note: For this activity, a facility must treat, dispose, or recycle a UW. A permit is required for storage prior to recycling.

B. Florida Universal Pharmaceutical Waste (UPW): one-time notification

☐ Pharmaceuticals **LQH** = 5,000 kg or more of Universal Pharmaceutical Waste (UPW) accumulated (at any one time)

☐ Pharmaceuticals **Acute LQH** = more than 1 kg (2.2 lb) of acutely hazardous ("P-listed") pharmaceutical waste (UPW) accumulated (at any one time)

☐ **Reverse Distributor** of Universal Pharmaceutical Waste (UPW) (must be permitted with the Florida Department of Business and Professional Regulation [DBPR])

☐ Florida Universal Pharmaceutical Waste (**UPW**) Transporter

C. Florida Annual Mercury Handler Registration:

For-hire transporters, transfer facilities, handlers, reclamation and recovery facilities of Mercury-Containing Lamps and Devices operating in the State of Florida are required to register annually with the Department using this section of the form [Chapter 62-737, F.A.C.]. A one-time fee of $1,000 is required for first time registration as a Large Quantity for-hire Handler of Mercury-Containing Lamps and Devices as detailed in 62-737.400(3)(a)3.,F.A.C. (please contact FDEP first).

If you only generate lamps and/or devices or manage pharmaceuticals, do not register or complete the information below.

(1) This form is being submitted as a Florida Registration of Universal Waste Mercury Transporter/Handler for-hire Activities

☐ 1st Annual Registration ☐ Annual Renewal ☐ One-time $1,000 fee for Mercury for-hire first time LQH registration is attached

☐ For-hire **Transporter** of Universal Waste Mercury-Containing Lamps or Devices ☐ For-hire **Transfer Facility** of Universal Waste Mercury-Containing Lamps or Devices ☐ Mercury-Containing Devices (thermostats, etc.) **SQH** = less than 100 kg accumulated by for-hire handler ☐ Mercury-Containing Lamps **SQH** = less than 2,000 kg (8,000 lamps) accumulated by for-hire handler	Annual Registration Required
☐ Mercury-Containing Devices **LQH** = 100 kg (220 lb) or more accumulated at any one time by for-hire handler ☐ Mercury-Containing Lamps **LQH** = 2,000 kg (4400 lbs/8,000 lamps) or more accumulated by for-hire handler	Annual Registration + one- time $1,000 fee+ More Requirements (contact FDEP)
(2) Mercury Recovery and/or Reclamation Facility (A hazardous waste permit is required for this activity) ☐ 1st Annual Registration ☐ Annual Renewal	Annual Registration Required

Briefly Describe your Universal Waste Activities: ☐ We use Drum Top Bulb Crusher(s).

13. Other State Regulated Waste Activities: **Petroleum Contact Water (PCW)** ☐ **Recovery** ☐ **Transport** [62-740 F.A.C.]

Note: A water facility permit may be required for this activity. An annual report is required for a recovery facility pursuant to Rule [62-740.300(5)] F.A.C.

Hazardous Waste Transporter and Academic Laboratories	EPA ID No.* FLD053393039

14. HW Transporter Activities: (Mark 'X' and complete all that apply if you need to register your HW Transporter activities)

Transporters of and Transfer Facilities for Hazardous Waste in the State of Florida are required to register and annually renew their registration. Evidence of casualty/liability insurance pursuant to 62-730.170(2)(a) is required as part of this registration. Transporters and transfer facilities may only begin operations after receiving approval from the Department.

Generators who transport waste only within the boundaries of their facility should NOT register in box 14.A below.

A. HW Transporter Registration Information (must be completed annually and when this information changes)

This form is: ☐ **Initial Registration** ☐ **Renewal** ☐ **Notification of changes** ☐ **Cancel Registration**

☐ 1. For own waste only

☐ 2. For commercial purposes

☐ 3. Both commercial and own waste

4. **Transportation Mode** ☐ Air ☐ Rail ☐ Highway ☐ Water ☐ Other - specify _____

B. HW Transfer Facility Registration Information (must be completed annually and when this information changes)

☐ **This facility is a Hazardous Waste Transfer Facility:** (as listed in Item 3) Storage Volume _____

This form is: ☐ **Initial Registration** ☐ **Renewal** ☐ **Notification of changes** ☐ **Cancel Registration**

Note: Hazardous Waste transfer facilities must comply with the requirements of Rule 62-730.171, F.A.C., and Rule 62-730.182, F.A.C.

The Transfer Facility records required under the provisions of Rule 62-730.171(6) , F.A.C., are kept at (check one):
☐ Our mailing (business) address ☐ The site (facility) address

Please enter the EPA ID Number of the HW Transporter who carries the insurance for this Transfer Facility:

Please see 14.C for additional items to be submitted for registration of a Hazardous Waste Transfer Facility [Rule 62-730.171(3), Florida Administrative Code (F.A.C.)]:

C. The following items are required to be submitted with the initial notification for a **transfer facility** and any changed items must be submitted with any subsequent submission [Rule 62-730.171(3), Florida Administrative Code (F.A.C.)] :

__Certification by a responsible corporate officer of the transporter facility that the proposed location satisfies the criteria of Section 403.7211(2), Florida Statutes (F.S.) [Rule 62-730.171(3)(a)1., F.A.C.]

__Evidence of the transporter facility's financial responsibility [Rule 62-730.171(3)(a)3., F.A.C.]

__A brief general description of the transfer facility operations [Rule 62-730.171(3)(a)4., F.A.C.]

__A copy of the facility closure plan [Rule 62-730.171(3)(a)5., F.A.C.]

__A copy of the contingency and emergency plan [Rule 62-730.171(3)(a)6., F.A.C.]

__A map or maps of the transfer facility [Rule 62-730.171(3)(a)7., F.A.C.]

15. Eligible Academic Entities with Laboratories—Notification for opting into or withdrawing from managing laboratory hazardous wastes pursuant to 40 CFR Part 262 Subpart K

☐ **1. Opting into or currently operating under 40 CFR Part 262 Subpart K for the management of hazardous wastes in laboratories**

See the item-by-item instructions for definitions of types of eligible academic entities. Mark all that apply:

☐ a. College or University
☐ b. Teaching Hospital that is owned by or has a formal written affiliation agreement with a college or university
☐ c. Non-profit Institute that is owned by or has a formal written affiliation agreement with a college or university

☐ **2. Withdrawing from 40 CFR Part 262 Subpart K for the management of hazardous wastes in laboratories**

Used Oil and Hazardous Secondary Material	EPA ID No.* FLD053393039

16. Used Oil and Used Oil Filter Activities: (Mark 'X' and complete all that apply)

Transporters (exemptions in 40 CFR 279.40(a)(1-4)), transfer facilities, processors, off-specification burners, and/or marketers must annually register with the Department using this form. An annual $100 registration fee is required for all, except used oil (UO) Processors and collection centers.

This form is: ☐ **Initial Registration** ☐ **Renewal** ☐ **Notification of changes** ☐ **Cancel Registration**

☐ If applicable, a check or money order, in the amount of $100, payable to Florida Department of Environmental Protection is enclosed. UO Collection Centers must check 16.(2) of this form (not as a registration).

(1) Used Oil Transporter - mark 'X' in all that apply: (occurring in Florida)

☐ a. Transporter (off-site) and noncontiguous locations

☐ b. Transfer Facility

(2) ☐ Collection Center (From businesses, no more than 55 gal per shipment)

(3) ☐ Used Oil Processor **(A permit is required.)**

(4) ☐ Used Oil Re-refiner **(A permit is required.)**

(5) ☐ Off-Specification Used Oil Burner
☐ Utility Boiler ☐ Industrial Boiler ☐ Industrial Furnace

(6) Used Oil Fuel Marketer ☐ On-Spec ☐ Off-Spec

(7) Used Oil Filter Management (must annually register)

☐ a. Transporter
☐ b. Transfer Facility
☐ c. Processor (Annual Report Required)
☐ d. End User (see instructions for definition)

(8) The records required under the provisions of Rule 62-710.510, FAC, are kept at (check one):

☐ Our mailing (business) address (as listed in Item 4)
☐ The site (facility) address (as listed in Item 3)

(9) Used Oil Transporters: (Exemptions in 40 CFR 279.40(a)(1-4))

- ALL registered UO transporters must submit an annual report except generators transporting UO from noncontiguous operations within their own company.
- UO transporters transporting off-site over public highways only within their own company must submit proof of insurance.
- UO transporters transporting more than 500 gallons/year must submit proof of insurance annually, and must sign and certify this submission as a certified used oil transporter in section 19 (except those exempted by Rule 62-710.600(1), F.A.C.).

☐ The used oil annual report is attached ☐ Evidence of Liability Insurance pursuant to 62-710.600(2)(e)., F.A.C. is attached.

17. Notification of Hazardous Secondary Material (HSM) Activity

(1) ☐ Notifying under 40 CFR 260.42 that you will begin managing, are managing, or will stop managing hazardous secondary material under 40 CFR 260.30, 40 CFR 261.4(a)(23), (24), or (27). **(Addendum C Required)**

(2) ☐ Notifying under 40 CFR 260.43(a)(4)(iii) that the product of your recycling process has levels of hazardous constituents that are not comparable to or unable to be compared to a legitimate product or intermediate but that the recycling is still legitimate. **(Addendum C Required)**

Required signature page	EPA ID No.* FLD053393039

18. Comments (attach a page if more space is needed):

19. Certification: I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. The information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for known violations.

☐ **I certify as a Used Oil Transporter** that I am familiar with the applicable Florida and Federal laws and rules governing used oil transportation and have an annual and new employee training program in place covering the applicable used oil rules. Evidence of financial responsibility is demonstrated by the Used Oil Transporter Certificate of Liability Insurance, DEP form 62-730.900(5)(a), F.A.C..

Waste 3

G. Waste Description	H. Estimated Quantity (in pounds)

I. Federal Hazardous Waste Codes

Addendum C: Notification of Hazardous Secondary Material Activity	EPA ID No.* FLD053393039

Only fill out this form if:

- You are or will be managing excluded hazardous secondary material (HSM) in compliance with 40 CFR 260.30, 261.4(a)(23), (24), or (27) or have stopped managing excluded HSM in compliance with the exclusion(s) for at least one year. Do not include any information regarding your hazardous waste activities in this section. Note: if your facility was granted a solid waste variance under 40 CFR 260.3 prior to July 13, 2015, your management of HSM under 40 CFR 260.30 is grandfathered under the previous regulation and you are not required to notify for the HSM management activity excluded under 40 CFR 260.30.

You must submit a completed 8700-12FL, including this Addendum, prior to operating under the exclusion(s) and by every **March 1 of each even-numbered year** to the department pursuant to 40 CFR 260.42. If you stop managing hazardous secondary material in accordance with the exclusions(s) and do not expect to manage any amount of hazardous secondary material under the exclusions(s) for at least one year, you must again submit a completed 8700-12FL, including this Addendum, within thirty (30) days pursuant to 40 CFR 260.42.

1. Indicate reason for notification. Include dates where requested.

☐ Notifying that the facility will manage hazardous secondary material as of (mm/dd/yyyy) _____.

☐ Re-notifying that the facility is still managing hazardous secondary material.

☐ Notifying that the facility has stopped managing hazardous secondary material as of (mm/dd/yyyy) _____.

2. Description of hazardous secondary material (HSM) activity. Please list the appropriate codes and quantities in **short tons** to describe your hazardous secondary material activity ONLY (do not include any information regarding your other hazardous wastes in this section). Use additional pages if more space is needed.

a. **Facility Code** (answer using codes listed in the Code List section of the instructions)	b. **Waste code(s) for hazardous secondary material (HSM)**	c. **Estimated short tons of HSM to be managed annually**	d. **Actual short tons of HSM that was managed during the most recent odd-numbered year**	e. **Land-based unit code** (answer using codes listed in the Code List section of the instructions)

3. Facility has financial assurance pursuant to 40 CFR 261 Subpart H. (Financial assurance is required for reclaimers and intermediate facilities managing hazardous secondary material under 40 CFR 261.4(a)(24) and (25))

Y☐ N☐ Does this facility have financial assurance pursuant to 40 CFR 261 Subpart H?

4. Notifying under 40 CFR 260.43(a)(4)(iii) that the product of your recycling process has levels of hazardous waste constituents.

Y☐ N☐ Does the product of your recycling process has levels of hazardous waste constituents. **(Comment Required)**

Mark Lasalle, Sr Mgr Eng
Coca-Cola North America
2659 Orange Ave
Apopka, FL 32703-3346

The Florida Department of Environmental Protection has reviewed your submittal for a hazardous waste DEP/EPA Identification Number or status/information change.

Based on the information received, you have been issued the following number for reports for Coca-Cola North America located at **2659 W Orange Ave, Apopka, FL 32703-3346**

DEP/EPA Identification Number: **FLD053393039**

Your facility status is the following: **Very Small Quantity Generator (VSQG)**.

Florida Administrative Code 62-730 requires all persons who generate, transport, recycle, store, or dispose of hazardous waste to notify the department of their hazardous waste activities. You are required to renotify on form 8700-12FL when there are changes in your operations which would affect your status, activity or contact information. Additional hazardous waste information including the 8700-12FL form can be found at: https://floridadep.gov/waste/permitting-compliance-assistance/content/hazardous-waste-management-main-page .

Please note that pending program registrations, certifications, or permits will be sent to you separately.**To review the details of your status**, visit: https://fldeploc.dep.state.fl.us/www_RCRA/Reports/handler_results.asp?epaid=FLD053393039 .

For further assistance, please contact me at (850) 245-8707 or email me at Jeff.Gregg@dep.state.fl.us

Sincerely,

Jeff Gregg

RCRA SUBTITLE C SITE IDENTIFICATION FORM

1. Reason for Submittal (Select only one.)

☐	Obtaining or updating an EPA ID number for on-going regulated activities (Items 10-17 below) that will continue for a period of time.
☒	Submitting as a component of the Hazardous Waste Report for 2023 (Reporting Year)
	☐ Site was a TSD facility, a reverse distributor, and/or generator of ≥ 1,000 kg of non-acute hazardous waste, > 1 kg of acute hazardous waste, or > 100 kg of acute hazardous waste spill cleanup in **one or more months of the reporting year** (or State equivalent LQG regulations)
☐	Notifying that regulated activity is no longer occurring at this Site
☐	Obtaining or updating an EPA ID number for conducting Electronic Manifest Broker activities
☐	Submitting a new or revised Part A (permit) Form

2. Site EPA ID Number

F	L	D	0	5	3	3	9	3	0	3	9

3. Site Name

Coca-Cola North America

4. Site Location Address

Street Address: 2659 West Orange Avenue		
City, Town, or Village: Apopka		County: Orange
State: Florida	Country: USA	Zip Code: 32703
Latitude: 28°41'25"N	Longitude: 81°33'15"W	☐ Use Lat/Long as Primary Address

5. Site Mailing Address ☒ Same as Location Street Address

Street Address		
City, Town, or Village		
State	Country	Zip Code

6. Site Land Type

☒ Private ☐ County ☐ District ☐ Federal ☐ Tribal ☐ Municipal ☐ State ☐ Other

7. North American Industry Classification System (NAICS) Code(s) for the Site (at least 5-digit codes)

A. (Primary) 311411	C.
B.	D.

8. Site Contact Information

10. Type of Regulated Waste Activity (at your site)

Mark "Yes" or "No" for all current activities (as of the date submitting the form); complete any additional boxes as instructed.

A. Hazardous Waste Activities

[X] Y [ ] N	1. Generator of Hazardous Waste—If "Yes", mark only one of the following—a, b, c	
[ ]	a. LQG	-Generates, in any calendar month, 1,000 kg/mo (2,200 lb/mo) or more of non-acute hazardous waste (includes quantities imported by importer site); or - Generates, in any calendar month, or accumulates at any time, more than 1 kg/mo (2.2 lb/mo) of acute hazardous waste; or - Generates, in any calendar month or accumulates at any time, more than 100 kg/mo (220 lb/mo) of acute hazardous spill cleanup material.
[ ]	b. SQG	100 to 1,000 kg/mo (220-2,200 lb/mo) of non-acute hazardous waste and no more than 1 kg (2.2 lb) of acute hazardous waste and no more than 100 kg (220 lb) of any acute hazardous spill cleanup material.
[X]	c. VSQG	Less than or equal to 100 kg/mo (220 lb/mo) of non-acute hazardous waste.
[ ] Y [ ] N	2. Short-Term Generator (generates from a short-term or one-time event and not from on-going processes). If "Yes", provide an explanation in the Comments section. *Note: If "Yes", you MUST indicate that you are a Generator of Hazardous Waste in Item 10.A.1 above.*	
[ ] Y [ ] N	3. Treater, Storer or Disposer of Hazardous Waste—Note: Part B of a hazardous waste permit is required for these activities.	
[ ] Y [ ] N	4. Receives Hazardous Waste from Off-site	
[ ] Y [ ] N	5 Recycler of Hazardous Waste	
[ ]	a. Recycler who stores prior to recycling	
[ ]	b. Recycler who does not store prior to recycling	
[ ] Y [ ] N	6. Exempt Boiler and/or Industrial Furnace—If "Yes", mark all that apply.	
[ ]	a. Small Quantity On-site Burner Exemption	
[ ]	b. Smelting, Melting, and Refining Furnace Exemption	

B. Waste Codes for Federally Regulated Hazardous Wastes. Please list the waste codes of the Federal hazardous wastes handled at your site. List them in the order they are presented in the regulations (e.g. D001, D003, F007, U112). Use an additional page if more spaces are needed.

D001	D009	D035	F005			

C. Waste Codes for State Regulated (non-Federal) Hazardous Wastes. Please list the waste codes of the State hazardous wastes handled at your site. List them in the order they are presented in the regulations. Use an additional page if more spaces are needed.

11. Additional Regulated Waste Activities (NOTE: Refer to your State regulations to determine if a separate permit is required.)

A. Other Waste Activities

☐ Y ☐ N	1. Transporter of Hazardous Waste—If "Yes", mark all that apply.
☐	a. Transporter
☐	b. Transfer Facility (at your site)
☐ Y ☐ N	2. Underground Injection Control
☐ Y ☐ N	3. United States Importer of Hazardous Waste
☐ Y ☐ N	4. Recognized Trader—If "Yes", mark all that apply.
☐	a. Importer
☐	b. Exporter
☐ Y ☐ N	5. Importer/Exporter of Spent Lead-Acid Batteries (SLABs) under 40 CFR 266 Subpart G—If "Yes", mark all that apply.
☐	a. Importer
☐	b. Exporter

B. Universal Waste Activities

☐ Y ☐ N	1. Large Quantity Handler of Universal Waste (you accumulate 5,000 kg or more) - If "Yes" mark all that apply. Note: Refer to your State regulations to determine what is regulated.
☐	a. Batteries
☐	b. Pesticides
☐	c. Mercury containing equipment
☐	d. Lamps
☐	e. Aerosol Cans
☐	f. Other (specify) _____
☐	g. Other (specify) _____
☐ Y ☐ N	2. Destination Facility for Universal Waste Note: A hazardous waste permit may be required for this activity.

C. Used Oil Activities

☐ Y ☐ N	1. Used Oil Transporter—If "Yes", mark all that apply.
☐	a. Transporter
☐	b. Transfer Facility (at your site)
☐ Y ☐ N	2. Used Oil Processor and/or Re-refiner—If "Yes", mark all that apply.
☐	a. Processor
☐	b. Re-refiner
☐ Y ☐ N	3. Off-Specification Used Oil Burner
☐ Y ☐ N	4. Used Oil Fuel Marketer—If "Yes", mark all that apply.
☐	a. Marketer Who Directs Shipment of Off-Specification Used Oil to Off-Specification Used Oil Burner
☐	b. Marketer Who First Claims the Used Oil Meets the Specifications

D. Pharmaceutical Activities

☐Y ☐N	1. Operating under 40 CFR Part 266, Subpart P for the management of hazardous waste pharmaceuticals—if "Yes", mark only one. Note: See the item-by-item instructions for definitions of healthcare facility and reverse distributor.
☐	a. Healthcare Facility
☐	b. Reverse Distributor
☐Y ☐N	2. Withdrawing from operating under 40 CFR Part 266, Subpart P for the management of hazardous waste pharmaceuticals. Note: You may only withdraw if you are a healthcare facility that is a VSQG for all of your hazardous waste, including hazardous waste pharmaceuticals.

12. Eligible Academic Entities with Laboratories—Notification for opting into or withdrawing from managing laboratory hazardous wastes pursuant to 40 CFR Part 262, Subpart K.

☐Y ☐N	A. Opting into or currently operating under 40 CFR Part 262, Subpart K for the management of hazardous wastes in laboratories— If "Yes", mark all that apply. Note: See the item-by-item instructions for definitions of types of eligible academic entities.
☐	1. College or University
☐	2. Teaching Hospital that is owned by or has a formal written affiliation with a college or university
☐	3. Non-profit Institute that is owned by or has a formal written affiliation with a college or university
☐Y ☐N	B. Withdrawing from 40 CFR Part 262, Subpart K for the management of hazardous wastes in laboratories.

13. Episodic Generation

☐Y ☐N	Are you an SQG or VSQG generating hazardous waste from a planned or unplanned episodic event, lasting no more than 60 days, that moves you to a higher generator category. If "Yes", you must fill out the Addendum for Episodic Generator.

14. LQG Consolidation of VSQG Hazardous Waste

☐Y ☐N	Are you an LQG notifying of consolidating VSQG Hazardous Waste Under the Control of the Same Person pursuant to 40 CFR 262.17(f)? If "Yes", you must fill out the Addendum for LQG Consolidation of VSQG hazardous waste.

15. Notification of LQG Site Closure for a Central Accumulation Area (CAA) (optional) OR Entire Facility (required)

☐Y ☐N	LQG Site Closure of a Central Accumulation Area (CAA) or Entire Facility.
	A. ☐Central Accumulation Area (CAA) or ☐Entire Facility
	B. Expected closure date: _____ mm/dd/yyyy
	C. Requesting new closure date: _____ mm/dd/yyyy
	D. Date closed : _____ mm/dd/yyyy ☐ 1. In compliance with the closure performance standards 40 CFR 262.17(a)(8) ☐ 2. Not in compliance with the closure performance standards 40 CFR 262.17(a)(8)

16. Notification of Hazardous Secondary Material (HSM) Activity

☐ Y ☐ N	Are you notifying under 40 CFR 260.42 that you will begin managing, are managing, or will stop managing hazardous secondary material under 40 CFR 260.30, 40 CFR 261.4(a)(23), (24), (25), or (27)? If "Yes", you must fill out the Addendum to the Site Identification Form for Managing Hazardous Secondary Material.

17. Electronic Manifest Broker

☐ Y ☐ N	Are you notifying as a person, as defined in 40 CFR 260.10, electing to use the EPA electronic manifest system to obtain, complete, and transmit an electronic manifest under a contractual relationship with a hazardous waste generator?

18. Comments (include item number for each comment)

19. Certification I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fines and imprisonment for knowing violations. **Note: For the RCRA Hazardous Waste Part A permit Application, all owners and operators must sign (see 40 CFR 270.10(b) and 270.11).**

FLORIDA DEPARTMENT OF
ENVIRONMENTAL PROTECTION

The BRS Data Entry Program

DIVISION OF WASTE MANA
'24 FEB 15 AM10:19:01

Biennial Report Information

The Resource Conservation and Recovery Act (RCRA) requires the EPA to develop a program for hazardous waste generators to report the nature, quantities, and disposition of hazardous waste generated at least once every two years. In addition, RCRA requires treatment, storage, and disposal facilities (TSDFs) to submit a report on the wastes that they received from off-site. The Biennial Hazardous Waste Report, also known as the "Biennial Report", was implemented in 1985 to comply with these requirements.
The reports are **due by March 1st of every even-numbered year** for the activities that occurred in the previous odd-numbered year. The **2021 Biennial Report cycle has now closed.** Late submissions must be mailed to:
Biennial Report Coordinator
Hazardous Waste Program MS 4560
Florida Department of Environmental Protection
2600 Blair Stone Road
Tallahassee, FL 32399-2400

Who Must File

Each of the following activities requires the filing of a Biennial Report in Florida. Non-Florida facilities will need to contact their appropriate state agency

1. Your facility was a RCRA **Large Quantity Generator** for any one calendar month of the odd-numbered reporting year.
   - Generated in a single month more than 1000kg/2200 pounds of non-acute hazardous waste.
   - Generated in a single month more than 1kg/ 2.2 pounds of acute hazardous waste.
2. You are a **Treatment, Storage, or Disposal Facility** that received RCRA hazardous waste from off-site generators or your facility managed RCRA hazardous was on-site during the reporting year.
3. Your facility is a **Recycler** of RCRA hazardous waste who:
   - Does not store recyclable materials before recycling them.
   - Before recycling, stores recyclable materials for up to 72 hours after arrival at the facility.

INS	S. THOMAS	7/29/2021 3:17:20 PM	8/3/2021	30-JUL-2021 12:12	IC	Per the 2018 (ammonia odor) complaint #18-465266, this facility is regulated by DEP. I, Shana Thomas, called the State Watch Office and spoke with Kassidy/Operator 311 who stated that she will refer this complaint to DEP-Central District. I provided the complainant's name & phone number. A few minutes later I received a call from Sperancia Mercilus/DEP (Sperancia.Mercilus@FloridaDEP.gov)who stated that James Mullin (James.Mullin@FloridaDEP.gov) is on call and will be assigned this complaint for investigation. About an hour later I received a call from Chris Stevens with FL Emergency Mgmt. (850-815-4318) who will be handling the investigation.--S.Thomas Referred to Lauren Rossouw on 07/30/2021.
REF	L. ROSSOUW	7/30/2021	8/6/2021	30-JUL-2021 14:04	IC	DEP and EM are handling. No further action needed by EPD at this time.

7/30/2021	8/2/2021 10:43:00 AM	S. THOMAS	EMAIL FROM JAMES MULLIN/DEP: "Good afternoon Shana, I spoke with the General manger Janette Acosta, and she stated that the facility has not had any ammonia release. They have had a lot of complaints about a foul odor lately because they have been storing a large quantity of dehydrated garlic. Janette stated that the City of Apopka has already investigated/ inspected the facility about a

week ago. I also spoke with the company that regulates the refrigeration system and they stated that no releases have been observed, and no alarms have been triggered. Please let me know if you have any questions. Thank you, James Mullin/DEP"

INS	R. MOORE	1/25/2012 3:31:22 PM	1/17/2012	17-JAN-2012 13:35	IC	On 1/17/12 I met with Gloria Jean Depradine and Carolyn Heaviside from DEP Central District. DEP took the lead in conducting the investigation of McGee Tires and we found no evidence of stock piling and tire processing. The site is a hub used for truck to truck transfers. The owners of the site are Jessie and Buddy McGee. We met with Jessie and advised him that trailers with tires are only allowed on site no more than 7 days. He told us that their turn around time is 36 to 48 hours. No further investigation will be conducted by EPD at this time. See photos. R. Moore.
OTH	R. MOORE	4/27/2012 9:23:00 AM	2/17/2012	17-FEB-2012 11:24	IC	On 2/17/12 I performed a follow up at McGee tires. I spoke to Mike site supervisor, and at this time site operations appear satisfactory. No photos needed. R. Moore.

City of Apopka
CITY COMMISSION STAFF REPORT

Section: BUSINESS (Action Item)
Item #: 5.
Meeting Date: August 5, 2026
Department: Community Development

SUBJECT:
Quasi-Judicial - Floridian Town Center Hotel – Major Development Plan

ACTION ITEM INFORMATION:
Owner(s): Florence Hotel Company LLC 73% INT Apopka Acquisition Company LLC 27% INT
Applicant: Jason W. Searl, Esq.
Parcel Identification Number(s): 06-21-28-7172-16-042
Location: Lot 5, Floridian Town Center PD (Planned Development)
Future Land Use: Commercial
Zoning: PD (Planned Development)
Existing Use(s): Vacant
Proposed Use: 137 room hotel
Tract Size: 2.91 +/- Acres
Project Manager: Bobby Howell

REQUEST:
Approve the Floridian Town Center hotel - Major Development Plan.

SUMMARY:
ZONING REPORT
This chart includes the relationships to adjacent properties.

Direction	Future Land Use	Zoning	Present Use
North	High Density Residential	Planned Development (PD)	Vacant parcel, Floridian Town Center PD
East	Commercial/High Density Residential	Planned Development (PD)	Vacant parcel, Floridian Town Center PD
South	Commercial	Planned Development (PD)	Vacant parcel, Floridian Town Center PD
West	Commercial	Planned Development (PD)	Vacant parcel, Floridian Town Center PD

The Applicant requests approval of a Major Development Plan (MDP) for a proposed 4-story, 137 room Marriott Farifield Inn/Townplace Suites hotel located on Lot 5 of the Floridian Town Center PD (Planned Development), which is located at the north-west corner of the intersection of the SR 429 Connector Road and US 441. The

subject property is approximately 2.91 acres in size. The Major Development Plan for the hotel proposes on-site parking, landscaping, and pedestrian improvements that allows accessibility into the site from the surrounding public rights-of-ways. The hotel will be constructed with an outdoor patio and swimming pool for guests to use. The hotel will not have a restaurant, only a breakfast area for guests. Access to the development is proposed via Southfork Drive and Floridian Town Center Boulevard, both of which are internal roadways within the Floridian Town Center PD. Upon construction of the hotel, this project will be the first development within the Floridian Town Center PD.

The Floridian Town Center PD was approved by the City Commission in 2021 via Ordinance No. 2840, and was amended by Ordinance No. 3060 in 2024 and is entitled for townhome, multifamily, commercial, hotel, and mixed-use development. Infrastructure to service the development including stormwater, utilities, and roads has been constructed by the master developer. Design of the hotel site is consistent with the approved PD Master Plan, Comprehensive Plan and Land Development Code.

LANDSCAPE PLAN: The landscape plan includes shade and understory trees consisting of Willow Oak, Florida Elm, Chinese Pistache, Red Holly, Bald Cypress, Crepe Myrtle, and shrubs and groundcovers consisting of Abelia, Rosemary, Distylium, and Jasmine. Grass is proposed with Bermuda grass. Trees and groundcover are provided in the parking islands, trees, groundcover and shrubs are provided along the Southfork Drive and Floridian Town Center street frontages. Foundational landscaping is provided adjacent to the hotel building, and consists of Bermuda grass, Crepe Myrtle and Holly trees, and Hydrangea. The Major Development Plan proposes a total of 25% open space on the site that includes site landscaping.

ACCESS & PARKING:
Consistent with the approved PD, access points are provided leading into the site from Floridian Town Center Boulevard and Southfork Road. The Major Development Plan provides 142 vehicle parking spaces (7 accessible, 2 EV spaces, 133 standard), and 9 bicycle parking spaces consistent with Land Development Code requirements. A 45-foot by 12-foot unloading zone is proposed adjacent to the northern building entrances. Pedestrian connections are provided from the sidewalks that will be constructed along the Southfork Road and Floridian Town Center street frontages. The Floridian Town Center property owner (Town Center developer) will design and construct Southfork Drive, which is the east/west road within the Floridian Town Center PD, pursuant to the timing requirements under its Master Development Agreement (Floridian Town Center), as amended, with the City. The applicant (Lot 5 hotel developer) has committed to bear the burden of utilizing its best efforts to make the Town Center developer obtain their permit for said road construction prior to the applicant obtaining its permit for the construction of the hotel. This works to ensure the road will be on its way to being constructed prior to applicant's beginning to construct its hotel.

STORMWATER: Consistent with the approved PD, stormwater will be discharged into Tract "H" of the Floridian Town Center which serves as the master stormwater pond.

The Development Review Committee finds that the applicant has demonstrated competent, substantial evidence that:

1. The proposed development and uses in the development plan comply with Article 3: Zoning Districts, and Article 4: Use Regulations;

2. The development proposed in the development plan and its general layout and design comply with all the standards in Article 5: Development Standards, and Article 6: Environmental Standards;

3. The development proposed in the development plan complies with all conditions of approval in any development approval or permit to which the plan is subject; and

4. The development proposed in the development plan complies with all other applicable standards in this LDC and all other City regulations; and

5. If any part of the development plan requires a plat, the plat is approved in accordance with Sec. 2.5.2.B, Plat (Subdivision), and is in substantial conformance with the development plan.

Final technical compliance with engineering, utility, drainage, fire access, and construction details will be addressed through Construction Site Plan review and permitting, that will be required to be approved by the

Development Review Committee (DRC). Approval of the Major Development Plan does not authorize construction.

ORANGE COUNTY NOTIFICATION:
The JPA (Joint Planning Agreement) requires the City to notify the County 30 days before any public hearing or advisory board. The City properly notified Orange County on March 11, 2025.

PUBLIC HEARING SCHEDULE
June 9, 2026 – Planning Commission (5:30 PM)
July 1, 2026 – City Commission (1:30 PM)

RECOMMENDED MOTION:
DEVELOPMENT REVIEW COMMITTEE (DRC):
On April 29, 2026, the Development Review Committee (DRC) recommended approval of the Floridian Town Center hotel — Major Development Plan and found it consistent with the Comprehensive Plan and Land Development Code.

PLANNING COMMISSION:
On June 9, 2026, the Planning Commission unanimously recommended approval of the Floridian Town Center hotel — Major Development Plan and found it consistent with the Comprehensive Plan and Land Development Code based upon the findings and facts presented in the staff report and exhibits.

RECOMMENDED MOTION - CITY COMMISSION:
Approve the Floridian Town Center hotel - Major Development Plan.

GENERAL REQUIREMENTS OF CONTRACTOR

1. CONTRACTOR SHALL MAINTAIN A COMPLETE AND ACCURATE RECORD OF ALL CHANGES OF CONSTRUCTION FROM THAT SHOWN IN THESE PLANS AND SPECIFICATIONS FOR THE PURPOSE OF PROVIDING A BASIS FOR AS-BUILT DRAWINGS. NO CHANGES SHALL BE MADE WITHOUT PRIOR WRITTEN APPROVAL OF THE ENGINEER AND THE AGENCY(S) HAVING JURISDICTION. ALL WORK SHALL BE AS-BUILT BY A FLORIDA LICENSED PROFESSIONAL LAND SURVEYOR INCLUDING ALL FINISH FLOORS, SITE GRADING, WATER SYSTEM, SEWER SYSTEM, DRAINAGE SYSTEM, RECLAIMED WATER SYSTEM AND ALL OTHER FACILITIES ASSOCIATED WITH THE PROJECT.

   UPON COMPLETION OF THE PROJECT, THE LICENSED SURVEYOR SHALL DELIVER SIGNED AND SEALED COPIES OF THIS AS-BUILT RECORD OF THE PROJECT TO THE ENGINEER.

   WARNING: THE ENGINEER PREPARING THESE PLANS WILL NOT BE RESPONSIBLE FOR, OR LIABLE FOR, UNAUTHORIZED CHANGES TO OR USES OF THESE PLANS. ALL CHANGES TO THESE PLANS MUST BE APPROVED IN WRITING BY THE ENGINEER OF RECORD.

2. CONTRACTOR SHALL PROMPTLY NOTIFY, BY TELEPHONE AND IN WRITING, THE ENGINEER AND THE AGENCY HAVING JURISDICTION UPON DISCOVERY OF, AND BEFORE DISTURBING, ANY PHYSICAL CONDITIONS DIFFERING FROM THOSE REPRESENTED BY THE APPROVED PLANS AND SPECIFICATIONS.

3. CONTRACTOR AGREES THAT, IN ACCORDANCE WITH GENERALLY ACCEPTED CONSTRUCTION PRACTICES, CONTRACTOR WILL BE REQUIRED TO ASSUME SOLE AND COMPLETE RESPONSIBILITY FOR JOB SITE CONDITIONS DURING THE COURSE OF CONSTRUCTION OF THIS PROJECT INCLUDING SAFETY OF ALL PERSONS AND PROPERTY, THAT THIS REQUIREMENT SHALL BE MADE TO APPLY CONTINUOUSLY AND NOT BE LIMITED TO NORMAL WORKING HOURS, AND CONTRACTOR FURTHER AGREES TO DEFEND, INDEMNIFY AND HOLD DESIGN PROFESSIONALS HARMLESS FROM ALL LIABILITY AND CLAIMS, REAL OR ALLEGED, IN CONNECTION WITH THE PERFORMANCE OF WORK ON THIS PROJECT, EXCEPTING LIABILITY ARISING FROM THE SOLE NEGLIGENCE OF DESIGN PROFESSIONAL.

4. CONTRACTOR AGREES TO ASSUME SOLE AND COMPLETE RESPONSIBILITY FOR PROTECTION OF PUBLIC AND PRIVATE PROPERTY ON OR IN THE VICINITY OF THE JOB SITE AND FURTHER AGREES TO, AT CONTRACTOR'S EXPENSE, REPAIR OR REPLACE TO ORIGINAL CONDITION ALL EXISTING IMPROVEMENTS WITHIN OR IN THE VICINITY OF THE JOB SITE WHICH ARE NOT DESIGNATED FOR REMOVAL AND WHICH ARE DAMAGED OR REMOVED AS A RESULT OF CONTRACTOR'S OPERATIONS.

5. EXISTING BURIED CONDUITS AND STRUCTURES KNOWN TO THE ENGINEER ARE SHOWN ON THESE PLANS. HOWEVER, ALL CONDUITS AND STRUCTURES MAY NOT BE SHOWN AND THE LOCATIONS OF THOSE SHOWN ARE APPROXIMATE ONLY AND HAVE NOT BEEN INDEPENDENTLY VERIFIED BY THE PREPARER OF THE PLANS.

   CONTRACTOR SHALL INDEPENDENTLY VERIFY THE PRESENCE OF BURIED CONDUITS AND STRUCTURES, BOTH ACTIVE AND ABANDONED-IN-PLACE AND, BEFORE COMMENCING WORK, CONTRACTOR SHALL DETERMINE THE EXACT LOCATION INCLUDING DEPTHS OF ALL EXISTING UNDERGROUND UTILITIES, CONDUITS AND STRUCTURES, INCLUDING SERVICE CONNECTIONS, WHICH MAY AFFECT OR BE AFFECTED BY HIS OPERATIONS. CONTRACTOR AGREES TO BE FULLY RESPONSIBLE FOR ANY AND ALL DAMAGES WHICH MIGHT BE OCCASIONED BY CONTRACTOR'S FAILURE TO EXACTLY LOCATE AND PRESERVE ANY AND ALL UNDERGROUND UTILITIES, CONDUITS AND STRUCTURES.

   UPON ENCOUNTERING EXISTING UTILITIES OR STRUCTURES NOT SHOWN OR LOCATED DIFFERENTLY THAN SHOWN ON THE PLANS, CONTRACTOR SHALL IMMEDIATELY NOTIFY THE ENGINEER AND THE OWNER OF THE CONDUIT OR STRUCTURE BY TELEPHONE AND IN WRITING. IF SUCH CONDUIT OR STRUCTURE AFFECTS OR IS AFFECTED BY THE WORK, CONTRACTOR SHALL OBTAIN WRITTEN PERMISSION AND DIRECTION BEFORE PROCEEDING WITH THE WORK, EXCEPTING THAT IN AN EMERGENCY AFFECTING SAFETY OF LIFE, WORK OR ADJACENT PROPERTY, CONTRACTOR SHALL ACT AT ONCE WITHOUT INSTRUCTIONS TO PREVENT INJURY OR LOSS.

6. CONTRACTOR SHALL CONTACT SUNSHINE 811 A MINIMUM OF 48 HOURS IN ADVANCE OF STARTING ANY CONSTRUCTION TO HAVE KNOWN UNDERGROUND FACILITIES LOCATED. NO EXCAVATION SHALL COMMENCE UNLESS THE CONTRACTOR HAS OBTAINED THE INQUIRY IDENTIFICATION NUMBER AND EACH UTILITY OR OTHER OWNER OF SUBSURFACE FACILITIES HAS LOCATED AND PHYSICALLY MARKED THEIR SUBSURFACE FACILITIES IN THE AREA OF WORK.

7. BEFORE COMMENCING EXCAVATION, CONTRACTOR SHALL CONTACT THE CITY AND EACH UTILITY COMPANY OR OTHER OWNER OF SUBSURFACE FACILITIES WITHIN THE WORK SITE, SHALL VERIFY WHETHER OR NOT A REPRESENTATIVE WILL BE PRESENT BEFORE AND/OR DURING EXCAVATION, AND SHALL DETERMINE SITE-SPECIFIC REQUIREMENTS FOR EXCAVATION.

8. CONTRACTOR SHALL NOTIFY THE ENGINEER OF RECORD BEFORE START OF ANY CONSTRUCTION AND SCHEDULE THE TIME AND LOCATION OF PRE-CONSTRUCTION CONFERENCE. A PRE-CONSTRUCTION CONFERENCE WITH THE CITY IS REQUIRED PRIOR TO START OF WORK.

9. CONTRACTOR IS RESPONSIBLE FOR PRESERVATION AND/OR PERPETUATION OF ALL EXISTING MONUMENTS WHICH CONTROL SUBDIVISIONS, TRACTS, BOUNDARIES, EASEMENTS, STREETS, HIGHWAYS OR OTHER RIGHTS-OF-WAY, OR WHICH PROVIDE SURVEY CONTROL WHICH WILL BE DISTURBED OR REMOVED DUE TO CONTRACTOR'S WORK. PRIOR TO DISTURBANCE OR REMOVAL OF EXISTING MONUMENTS, CONTRACTOR SHALL CONTRACT WITH LICENSED LAND SURVEYOR TO RESET MONUMENTS OR PROVIDE PERMANENT WITNESS MONUMENTS AND FILE THE REQUIRED DOCUMENTATION WITH THE COUNTY SURVEYOR.

10. CONTRACTOR SHALL MAKE HIS OWN DEDUCTIONS AND CONCLUSIONS AS TO HOW EXISTING SURFACE AND SUB-SURFACE CONDITIONS WILL AFFECT OR BE AFFECTED BY HIS CONSTRUCTION OPERATIONS, INCLUDING THE NATURE OF MATERIALS TO BE EXCAVATED, THE DEGREE OF DIFFICULTY ASSOCIATED WITH MAKING AND MAINTAINING THE REQUIRED EXCAVATIONS, AND THE DEGREE OF DIFFICULTY WHICH MAY ARISE FROM SUBSURFACE CONDITIONS INCLUDING GROUNDWATER, AND SHALL ACCEPT FULL RESPONSIBILITY THEREFOR.

11. IT IS CONTRACTOR'S RESPONSIBILITY TO PROTECT THE INTEGRITY OF EXISTING PAVEMENT ALONG AND BEHIND SAWCUT LINES DURING CONSTRUCTION; IF PAVEMENT IS BROKEN-OFF OR OTHERWISE DAMAGED BEFORE NEW PAVEMENT IS PLACED, CONTRACTOR SHALL SAWCUT A NEW CONFORM LINE PARALLEL WITH, FULL LENGTH OF, AND SUFFICIENT DISTANCE (1-FOOT MINIMUM) BEHIND ORIGINAL SAWCUT SO AS TO REMOVE DAMAGED PAVEMENT AND / OR IRREGULARITY ALONG THE CONFORM LINE, OR AS REQUIRED BY THE AGENCY HAVING JURISDICTION.

12. CONTRACTOR IS RESPONSIBLE FOR MAINTAINING TRAFFIC CONTROL AS REQUIRED FOR THE WORK IN PROGRESS TO SAFELY HANDLE VEHICULAR, BICYCLE AND PEDESTRIAN TRAFFIC THROUGHOUT THE PROJECT, AND THAT THIS REQUIREMENT SHALL APPLY 24 HOURS PER DAY AND SEVEN DAYS A WEEK FOR THE DURATION OF WORK ON THE PROJECT. CONTRACTOR SHALL IMPLEMENT MAINTENANCE OF TRAFFIC IN ACCORDANCE WITH THE REQUIREMENTS OF THE FLORIDA STATE DEPARTMENT OF TRANSPORTATION "STANDARD SPECIFICATIONS FOR ROAD AND BRIDGE CONSTRUCTION", SECTION 102 "MAINTENANCE OF TRAFFIC".

13. WORK PERFORMED BY THE CONTRACTOR THAT IS REQUIRED TO BE AS-BUILT SHALL BE SURVEYED BY A SURVEYOR REGISTERED IN THE STATE OF FLORIDA. IMPROVEMENTS SHALL BE SURVEYED WHILE THE WORK IS IN PROGRESS (UNCOVERED) SO THAT THE SURVEYOR CAN VISUALLY OBSERVE THE WORK AND SPECIFIC ELEMENT BEING SURVEYED AND CONFIRM WHAT IS BEING LOCATED, INCLUDING TYPE AND SIZE. IF THE WORK IS BURIED, THE CONTRACTOR IS RESPONSIBLE FOR POTHOLING EACH FITTING AND FEATURE OF THE INSTALLATION SO THE SURVEYORS WORK CAN BE PERFORMED. IT IS NOT ACCEPTABLE TO COVER WORK AND USE PIPE EXTENSIONS FOR THE PURPOSE OF AS-BUILTING INSTALLED WORK.

CONSTRUCTION NOTES (SPECIFICATIONS)

GENERAL NOTES:

1. UNLESS MODIFIED OR OTHERWISE SPECIFIED BY THE CONSTRUCTION NOTES THAT FOLLOW HEREON INCLUDING THOSE UNDER SEPARATE HEADINGS, MATERIALS AND CONSTRUCTION SHALL BE IN ACCORDANCE WITH THE FDOT SPECIFICATIONS, STANDARDS AND STANDARD PLANS, AND THE CITY OF APOPKA DESIGN STANDARDS AND STANDARD DETAILS. WHERE DISCREPANCIES IN THE STANDARDS OCCUR THE EOR AND CITY ENGINEER SHALL MAKE THE FINAL DETERMINATION.

   ALL REFERENCED SPECIFICATIONS, CODES, DRAWINGS, AND DETAILS SHALL BE INCORPORATED INTO THESE PLANS AND MADE A PART HEREOF AS IF SPELLED OUT OR DELINEATED IN THEIR ENTIRETY HEREON.

2. CONTRACTOR SHALL BE RESPONSIBLE FOR COORDINATING WORK AND INTERFACING IMPROVEMENTS WITH WORK BY OTHER CONTRACTORS AT THIS JOB SITE AND WITH IMPROVEMENTS REQUIRED BY PLANS BY OTHERS.

3. ALL WORK SHALL BE DONE IN CONFORMANCE WITH THE RECOMMENDATIONS CONTAINED IN THE GEOTECHNICAL ENGINEERING AND GEOLOGICAL REPORTS FOR THIS PROJECT INCLUDING THOSE LISTED BELOW:

   NO REPORT, THIS SECTION DOES NOT APPLY.

   THESE REPORTS AND ANY ADDENDA SHALL BE INCORPORATED INTO THESE PLANS AND MADE A PART HEREOF AS IF SPELLED OUT IN THEIR ENTIRETY HEREON. IT IS CONTRACTOR'S RESPONSIBILITY TO REVIEW THE APPLICABLE GEOTECHNICAL AND GEOLOGY REPORTS. CONTRACTOR SHALL CONTACT THE GEOTECHNICAL ENGINEER TO OBTAIN OR REVIEW COPIES OF THESE REPORTS AND ADDENDA.

   PRIOR TO BIDDING, CONTRACTOR SHALL CONTACT THE GEOTECHNICAL ENGINEER TO DETERMINE THE LOCATION AND DEPTH OF ALL TEST BORINGS AND EXPLORATORY PITS AND EXCAVATIONS. CONTRACTOR SHALL DETERMINE FROM THE GEOTECHNICAL ENGINEER WHAT REMEDIAL WORK IS RECOMMENDED TO MAKE THESE DISTURBED LOCATIONS SUITABLE FOR THE PROPOSED IMPROVEMENTS. CONTRACTOR SHALL INCLUDE IN HIS BID ALL COSTS FOR THE RECOMMENDED REMEDIAL WORK AND SHALL ADJUST HIS OPERATIONS TO PROPERLY SEQUENCE THE WORK TO ACCOMMODATE REMEDIAL WORK WITH CONSTRUCTION OF PROPOSED IMPROVEMENTS.

4. ALL MATERIALS AND CONSTRUCTION SHALL BE IN ACCORDANCE WITH APPLICABLE HEALTH AND SAFETY LAWS, ORDINANCES, REGULATIONS, RULES, AND STANDARDS INCLUDING ALL FEDERAL AND STATE REQUIREMENTS.

5. CONTRACTOR SHALL BE SOLELY RESPONSIBLE FOR VEHICULAR, BICYCLE, AND PEDESTRIAN TRAFFIC CONTROL AND SAFETY AND SHALL FURNISH, INSTALL, AND MAINTAIN SUCH FENCING, SIGNS, LIGHTS, TRENCH PLATES, BARRICADES, AND/OR OTHER PROTECTION AS IS NECESSARY FOR SAID CONTROL AND SAFETY OR AS REQUIRED BY THE APPLICABLE REGULATORY AGENCY.

6. CONTRACTOR SHALL FURNISH, INSTALL, AND MAINTAIN SUCH SHEETING, SHORING, BRACING, AND/OR OTHER PROTECTION AS IS NECESSARY TO PREVENT FAILURE OF TEMPORARY EXCAVATIONS AND EMBANKMENTS AND TO PREVENT DAMAGE TO EXISTING IMPROVEMENTS, TEMPORARY IMPROVEMENTS, AND PARTIALLY COMPLETED PORTIONS OF THE WORK. CONTRACTOR SHALL BE SOLELY RESPONSIBLE FOR THE SUFFICIENCY OF SUCH SUPPORTS AND/OR OTHER PROTECTION. ALL WORK SHALL BE IN ACCORDANCE WITH OSHA TRENCH AND EXCAVATION SAFETY AND THE FLORIDA TRENCH SAFETY ACT.

7. BEFORE BEGINNING WORK, CONTRACTOR SHALL CONFIRM WITH AGENCIES HAVING JURISDICTION THAT ALL REQUIRED PERMITS AND LICENSES HAVE BEEN OBTAINED AND ALL REQUIRED NOTICES GIVEN.

8. DURING THE COURSE OF WORK, CONTRACTOR SHALL BE RESPONSIBLE FOR CALLING FOR OBSERVATION AND TESTING AS STIPULATED PURSUANT TO ABOVE DETERMINATIONS. ALL TESTING OF MATERIALS AND MATERIALS PLACED SHALL BE BY THE CONTRACTOR, AT HIS SOLE EXPENSE, USING AN INDEPENDENT LABORATORY.

   WORK NOT OBSERVED BY THE EOR AND TESTED WILL BE SUBJECT TO REJECTION.

9. ALL UNSUITABLE CONSTRUCTION MATERIALS AND RUBBISH AND DEBRIS SHALL BE REMOVED FROM THE JOB SITE, BE TRANSPORTED TO A SUITABLE LOCATION, AND BE DISPOSED OF IN A PROPER AND LEGAL MANNER AT THE EXPENSE OF THE CONTRACTOR.

10. CONTRACTOR SHALL SCHEDULE GRAVITY PIPELINE WORK AHEAD OF OTHER UNDERGROUND CONDUIT CONSTRUCTION.

11. STORM DRAIN WORK SHALL BEGIN AT THE LOWEST POINT OF DISCHARGE AND PROCEED UPSTREAM.

12. ALL WORK INVOLVING EXCAVATION, INCLUDING THAT FOR WATER, SEWER, STORM DRAIN AND UTILITY CONDUITS AND ALL SERVICE CONNECTIONS AND METER BOXES (NOT PERMITTED IN DRIVEWAYS) SHALL BE COMPLETED AND OBSERVED AND APPROVED BY THE AGENCY HAVING JURISDICTION AND THE STRUCTURAL BACKFILL OBSERVED AND TESTED FOR COMPACTION BEFORE AGGREGATE BASE, PAVING AND OTHER PERMANENT SURFACE CONSTRUCTION MAY COMMENCE.

13. BEFORE BEGINNING WORK, CONTRACTOR SHALL DETERMINE OR VERIFY THE LOCATION AND INVERT ELEVATION OF ALL EXISTING WATER, SEWER, AND DRAINAGE STRUCTURES AND/OR CONDUITS TO BE JOINED BY NEW CONSTRUCTION.

    BEFORE BEGINNING WORK, CONTRACTOR SHALL DETERMINE OR VERIFY THE LOCATION AND DEPTH OF ALL EXISTING STRUCTURES AND/OR CONDUITS WHICH CROSS OR OTHERWISE MAY CONFLICT WITH NEW CONSTRUCTION. CONTRACTOR SHALL DETERMINE AND INSTALL FITTINGS, CONNECTORS, AND ADAPTERS REQUIRED TO CONNECT AT NO ADDITIONAL COST.

14. GROUNDWATER MAY BE ENCOUNTERED AT OR NEAR THE GROUND SURFACE. CONTRACTOR SHALL INSTALL DEWATERING SYSTEMS AS REQUIRED TO LOWER THE WATER LEVEL TO A MINIMUM OF 3 FEET BELOW THE BOTTOM OF EXCAVATIONS FOR ALL IMPROVEMENTS CONSTRUCTED FOR THIS PROJECT. CONTRACTOR IS RESPONSIBLE FOR ALL SITE DEWATERING. CONTRACTOR IS RESPONSIBLE FOR PROPER PERMITTING AND DISPOSAL OF DEWATERING WATER. ALL COSTS, IMPACTS OR FINES TO THE PROJECT FROM DEWATERING SHALL BE THE CONTRACTOR'S RESPONSIBILITY.

15. ALL CONSTRUCTION DETAILS ARE CONCEPTUAL AND SUBJECT TO REVIEW AND MODIFICATION DURING FINAL DEVELOPMENT PLANS APPROVAL PROCESS.

16. ALL PROPOSED DEVELOPMENT IMPROVEMENTS SHALL CONFORM TO THE CITY OF APOPKA LAND DEVELOPMENT CODE, ST. JOHNS RIVER WATER MANAGEMENT DISTRICT, FLORIDA DEPARTMENT OF TRANSPORTATION AND CENTRAL FLORIDA EXPRESSWAY AUTHORITY (CFX) REQUIREMENTS

17. ONSITE UTILITIES ARE SHOWN AS CONCEPTUAL ONLY, FINAL PLACEMENT WILL BE DETERMINED DURING THE FINAL DEVELOPMENT PLAN PROCESS.

18. ALL FINAL UTILITIES (ELECTRICAL, CABLE TV, GAS, TELEPHONE, ETC) SHALL BE INSTALLED UNDERGROUND. APPURTENANCES TO THESE SYSTEMS THAT ARE REQUIRED TO BE ABOVE GROUND SHALL BE EFFECTIVELY SCREENED.

19. SANITARY WASTE SERVICES WILL BE PROVIDED BY CITY OF APOPKA.

20. THE SITE IS LOCATED IN ZONE X FLOOD HAZARD ZONE, OUTSIDE OF THE 100 YEAR FLOODPLAN PER FEMA/FIRM MAP. ORANGE COUNTY, FLORIDA, COMMUNITY PANEL NUMBER 12095C 0125E, REVISED SEPTEMBER 25, 2009.

21. NO KNOWN EXISTING HISTORICAL STRUCTURES OR OTHER CULTURALLY SIGNIFICANCE ARTIFACTS WERE OBSERVED ONSITE.

22. PROJECT LANDSCAPING WILL MEET STANDARDS SET FORTH IN SECTION 2.09.9(D)(21) OF THE CITY OF APOPKA LAND DEVELOPMENT CODE. LANDSCAPE AND IRRIGATION SHALL BE IN COMPLIANCE WITH "WATER WISE ORDINANCE 2069", UNLESS OTHERWISE APPROVED BY THE CITY.

23. PROJECT LIGHTNING WILL MEET STANDARDS SET FORTH IN THE CITY OF APOPKA LAND DEVELOPMENT CODE (LDC) AND THE CITY'S DEVELOPMENT DESIGN GUIDELINES, UNLESS OTHERWISE APPROVED BY THE CITY. ALL LIGHT POLES (PARKING AND PEDESTRIAN) SHALL BE DECORATIVE IN THE STYLE WITH BASE FLUSH WITH GROUND (NO BOLLARD MOUNTED LIGHTS). PEDESTRIAN SCALED LIGHTING SHALL BE PROVIDED ALONG ALL SIDEWALK LEADING TO THE BUILDING AND ALONG THE CONCRETE SHARED PATHS.

24. PROJECT SIGNAGE SHALL BE PROVIDED IN ACCORDANCE WITH THE MASTER SIGN PLAN APPROVED BY THE CITY OF APOPKA WITH THE PUD APPROVAL.

25. FIRE RESCUE WILL BE PROVIDED BY THE CITY OF APOPKA FIRE DEPARTMENT. THE FIRE DEPARTMENT STATION 4 IS APPROXIMATELY 1.3 MILES FROM THE DEVELOPMENT. AT 2750 W. ORANGE AVE, APOPKA FL. ONSITE FIRE PROTECTION WILL BE PROVIDED WITH A LOOPED WATER DISTRIBUTION SYSTEM WITH FIRE HYDRANTS. ADDITIONALLY THE BUILDING WILL BE PROTECTED WITH AN APPROVED AUTOMATIC FIRE SPRINKLE SYSTEM, FDC's AND REMOTE MONITORING ALARM SYSTEM. FIRE PROTECTION SERVICES WILL BE IN COMPLIANCE WITH THE ADOPTED CITY OF APOPKA FIRE DEPARTMENT STANDARDS AND REQUIREMENTS.

26. NO OUTSIDE STORAGE OF PARTS, SUPPLIES, MATERIALS, GOOD OR EQUIPMENT SHALL BE ALLOWED, UNLESS SCREENED FROM VIEW.

27. ALL ROOF TOP EQUIPMENT SHALL BE COMPLETELY SCREENED FROM ADJACENT PROPERTY AND PUBLIC RIGHT-OF-WAYS.

28. IF FINAL DEVELOPMENT PLAN ASSOCIATED WITH THIS MAJOR DEVELOPMENT PLAN HAS NOT BEEN APPROVED BY THE CITY WITHIN THREE (3) YEARS AFTER APPROVAL, THEN THE APPROVAL OF THIS MAJOR DEVELOPMENT PLAN WILL EXPIRE.

29. SCHOOL:
    WITHIN THE MULTI-FAMILY PORTION (APARTMENT) (312 UNITS x 0.281 STUDENTS/ UNIT)= 88 STUDENTS.

    WITHIN THE COMMERCIAL DEVELOPMENT NO RESIDENTIAL USES ARE PROPOSED. PUBLIC SCHOOL CAPACITY.

30. FOLLOWING LIST OF PERMITS, BUT NOT LIMITED TO, ARE REQUIRED PRIOR TO COMMENCEMENT OF CONSTRUCTION:
    - CITY OP APOPKA FINAL DEVELOPMENT PLAN APPROVAL
    - FLORIDA DEPARTMENT OF TRANSPIRATION RIGHT-OF-WAY UTILITY PERMIT
    - CENTRAL FLORIDA EXPRESSWAY AUTHORITY (CFX) DRAINAGE CONNECTION PERMIT
    - FDEP POTABLE WATER SYSTEM DISTRIBUTION PERMIT
    - FDEP WASTEWATER COLLECTION SYSTEM PERMIT
    - ST. JOHNS RIVER WATER MANAGEMENT ERP.
    - NPDES PERMITTING (INCLUDING NOI AND NOT)

31. PRIOR TO COMMENCING CLEARING AND GRADING ACTIVITIES, A PERMIT/LETTER FROM THE FLORIDA FISH AND WILDLIFE CONSERVATION COMMISSION MUST B RECEIVED, WITH A COPY FORWARDED TO THE CITY OF APOPKA, FOR APPROVAL OF GOPHER TORTOISE SURVEY AND ANY REQUIRED REMEDIAL ACTIVITY.

32. A BI-DIRECTIONAL AMPLIFIER (BDA/DAS) SYSTEM SURVEY WILL BE REQUIRED DURING CONSTRUCTION ACCORDANCE WITH THE CITY OF APOPKA FORE DEPARTMENT REQUIREMENTS.

GRADING NOTES:

1. ALL GRADING SHALL BE IN CONFORMANCE WITH THESE PLANS, CITY OF APOPKA CONSTRUCTION STANDARDS, THERETO AND WITH THE RECOMMENDATIONS AND REFERENCED STANDARD GRADING SPECIFICATIONS CONTAINED IN THE GEOTECHNICAL REPORT(S) REFERENCED IN THE GENERAL NOTES ON THESE PLANS.

2. CONTRACTOR SHALL EMPLOY ALL LABOR, EQUIPMENT AND METHODS REQUIRED TO PREVENT HIS OPERATIONS FROM PRODUCING DUST IN AMOUNTS DAMAGING TO PROPERTY, CULTIVATED VEGETATION AND DOMESTIC ANIMALS OR CAUSING A HAZARD TO VEHICULAR TRAFFIC OR CAUSING A NUISANCE TO PERSONS OCCUPYING BUILDINGS, IN THE VICINITY OF THE JOB SITE. CONTRACTOR SHALL BE RESPONSIBLE FOR ANY DAMAGE CAUSED BY DUST RESULTING FROM HIS OPERATIONS. DUST ABATEMENT MEASURES SHALL BE CONTINUED UNTIL RELIEF IS GRANTED BY THE INSPECTOR.

3. AREAS TO BE GRADED IN ACCORDANCE WITH THE GRADING AND CLEARING PLANS, THE GRADING, PAVING, AND DRAINAGE PLAN, SITE SHALL BE CLEARED OF ALL VEGETATION (EXCEPT TREES INDICATED TO REMAIN), INCLUDING ROOTS AND ROOT STRUCTURES, OTHER ORGANIC MATERIAL, DEBRIS, NON-COMPLYING FILL, AND OTHER MATERIAL UNSUITABLE FOR SUPPORT OF FILL AND/OR PROPOSED IMPROVEMENTS.

4. BEFORE BEGINNING WORK REQUIRING EXPORTING OR IMPORTING OF MATERIALS, THE CONTRACTOR SHALL OBTAIN APPROVAL FROM THE CITY AND EOR FOR HAUL ROUTES USED AND METHODS PROVIDED TO MINIMIZE THE DEPOSIT OF SOILS ON PUBLIC ROADS. THE CITY SHALL MONITOR THIS REQUIREMENT WITH THE CONTRACTOR. CONTRACTOR SHALL IMMEDIATELY CLEAN UP ALL SPILLS AND TRACKING.

5. UNSUITABLE SOILS ENCOUNTERED DURING GRADING SHALL BE EXCAVATED AND REPLACED.

   OVERWET AND/OR PUMPING AREAS ENCOUNTERED DURING GRADING SHALL BE REVIEWED FOR CORRECTIVE MEASURES BY THE CITY AND EOR. CONTRACTOR IS RESPONSIBLE FOR DRYING OR WETTING SOIL AS REQUIRED TO OBTAIN OPTIMUM WATER CONTENT FOR COMPACTION. ALL COST FOR MOISTURE CONDITIONING SOIL SHALL BE AT THE SOLE EXPENSE OF THE CONTRACTOR.

6. FILL MATERIAL SHALL BE SPREAD IN LIFTS NOT EXCEEDING 12-INCHES IN LOOSE THICKNESS, BE MOISTENED OR DRIED AS REQUIRED AND BE COMPACTED TO THE MINIMUM RELATIVE COMPACTION. THINNER LIFTS MAY BE NECESSARY TO ACHIEVE THE REQUIRED MINIMUM COMPACTION.

7. FILL AND BACKFILL MATERIAL SHALL BE COMPACTED AT LEAST TO THE SPECIFIED RELATIVE COMPACTION BUT IN NO CASE TO LESS THAN 95% OF MAXIMUM DENSITY, DETERMINED IN CONFORMANCE WITH AASHTO T180 AND T 99, LATEST REVISION. SOME AREAS REQUIRE COMPACTION TO GREATER DENSITY AS CALLED FOR ON THESE PLANS OR THE AGENCY HAVING JURISDICTION.

8. FINISH CUT SLOPES, FILL SLOPES AND COMBINATION CUT AND FILL SLOPES SHALL NOT EXCEED A GRADE OF 4 HORIZONTAL TO 1 VERTICAL UNLESS SPECIFICALLY CALLED FOR ON THESE PLANS. LOWER POND SLOPES AND DRAINAGE DITCHES CAN BE EXCAVATED TO 2 HORIZONTALS TO 1 VERTICAL, WHERE CALLED FOR ON THE PLANS OR APPROVED IN WRITING IN ADVANCE OF CONSTRUCTION.

9. ALL GRADED AREAS SHALL BE PLANTED IN CONFORMANCE WITH THE APPROVED LANDSCAPING PLAN, IF APPLICABLE AND SHALL OTHERWISE BE PLANTED WITH SOD OR PLANTINGS AS APPROVED BY THE CITY AND EOR AND SHALL BE DENSE AND GROWING PRIOR TO FINAL INSPECTION.

10. IF NOT DIMENSIONED, LOCATION OF FINISH GRADE ELEVATIONS AND FEATURES SUCH AS SWALES, RIDGE LINES, ETC. SHALL BE DETERMINED BY SCALE FROM KNOWN POINTS SHOWN ON THE PLANS. UNIFORM GRADIENTS OR VERTICAL CURVES, AS APPROPRIATE, SHALL BE ASSUMED BETWEEN CONTROL ELEVATIONS SHOWN ON THE PLANS.

11. PLAN ELEVATIONS SHOWN ON SOIL AND LANDSCAPED AREAS ARE FINISH GRADE (FINISH SURFACE) ELEVATIONS INTENDED TO ESTABLISH FINAL SURFACE DRAINAGE CONTROL FOR THESE AREAS. DURING GRADING OPERATIONS, THICKNESSES SPECIFIED BY LANDSCAPE ARCHITECT FOR TURF, WOOD CHIPS, MULCH, ETC. SHALL BE SUBTRACTED FROM THESE ELEVATIONS TO ESTABLISH FINISH SOIL GRADE.

12. PLAN ELEVATIONS SHOWN ON WALKWAYS, RAMPS, STEPS AND OTHER HARDSCAPE ARE INTENDED TO ESTABLISH GRADING AND SURFACE DRAINAGE CONTROL FOR THESE IMPROVEMENTS. IT SHALL BE CONTRACTOR'S RESPONSIBILITY TO PERFORM DETAILED LAYOUT FOR AND TO CONSTRUCT WALKWAYS, RAMPS, STEPS, AND OTHER HARDSCAPE IN CONFORMANCE WITH ALL BUILDING CODE AND ACCESSIBILITY REQUIREMENTS INCLUDING THOSE FOR DIMENSIONING, SLOPE, CROSS-SLOPE, SURFACE TEXTURE, WARNING CURBS, AND HAND-RAILS.

13. SITE FINISH GRADING SHALL BE COMPLETED AND CONFIRMED BY SURVEY TO CONFORM TO APPROVED PLANS AND SPECIFICATIONS BEFORE LANDSCAPING AND IRRIGATION CONSTRUCTION CAN BEGIN.

    LANDSCAPE CONTRACTOR SHALL REMOVE FROM THE SITE AND PROPERLY DISPOSE OF ALL EARTH SPOIL FROM PLANT HOLES AND PIPE TRENCHES. EXCESS SOIL AND/OR MULCH SHALL NOT BE PLACED OR SPREAD AT THE SITE, BUT REMOVED AND PROPERLY DISPOSED.

14. PAVEMENT STRUCTURAL SECTIONS SHALL BE AS SHOWN ON THESE PLANS.

15. THE UPPER 12 INCHES OF FILL OR NATIVE SOIL BELOW THE BOTTOM OF BASE OR SUBBASE COURSE (BELOW SUBGRADE) IN PAVEMENT AREAS, AND THE UPPER 6 INCHES OF FILL OR NATIVE SOIL BELOW THE CONCRETE IN WALKWAY AREAS SHALL BE COMPACTED TO A MINIMUM OF 98% OF MAXIMUM DENSITY.

16. BEFORE PLACEMENT OF BASE OR SUBBASE MATERIAL IN PAVEMENT AREAS, THE SUBGRADE SOIL SHALL BE DENSITY TESTED BY THE CONTRACTOR AND REVIEWED BY THE EOR.

17. SURFACE SOILS CONTAINING ORGANIC MATERIAL MAY BE STOCKPILED FOR FUTURE USE BY THE LANDSCAPE CONTRACTOR; HOWEVER, THIS OPERATION SHALL BE COORDINATED SO THAT UPON COMPLETION OF THE PROJECT, ALL EXCESS MATERIAL IS REMOVED FROM THE JOB SITE AND FINISH GRADES ARE AS CALLED FOR ON THE PLANS.

18. QUALITY REVIEW AND REPORTING REQUIREMENTS

    A. CONTRACTOR SHALL CONDUCT STRINGLINE TESTING OF SUBGRADE, BASE, AND FINAL ASPHALT IN CONSTRUCTION WITH THE EOR.

19. BEST MANAGEMENT PRACTICES FOR CONSTRUCTION ACTIVITIES: ERODED SEDIMENTS AND OTHER POLLUTANTS MUST BE RETAINED ONSITE AND MAY NOT BE TRANSPORTED FROM THE SITE VIA SHEET FLOWS, SWALES, AREA DRAINS, NATURAL DRAINAGE COURSE, OR WIND. STOCKPILES OF EARTH AND OTHER CONSTRUCTION RELATED MATERIALS MUST BE PROTECTED FROM BEING TRANSPORTED FROM THE SITE BY THE FORCES OF WIND OR WATER. FUELS, OILS, SOLVENTS, AND OTHER TOXIC MATERIALS MUST BE STORED IN ACCORDANCE WITH THEIR LISTING AND ARE NOT TO CONTAMINATE THE SOIL AND SURFACE WATERS. ALL APPROVED STORAGE CONTAINERS ARE TO BE PROTECTED FROM THE WEATHER. SPILLS MAY NOT BE WASHED INTO THE DRAINAGE SYSTEM. EXCESS OR WASTE CONCRETE MAY NOT BE WASHED INTO PUBLIC WAY OR ANY OTHER DRAINAGE SYSTEM. PROVISIONS MUST BE MADE TO RETAIN CONCRETE WASTES ONSITE UNTIL THEY CAN BE DISPOSED AS A SOLID WASTE. TRASH AND CONSTRUCTION RELATED SOLID WASTE MUST BE DEPOSITED INTO A COVERED WASTE RECEPTACLE TO PREVENT CONTAMINATION OF RAINWATER AND DISPERSAL BY WIND. SEDIMENTS AND OTHER MATERIAL MAY NOT BE TRACKED FROM THE SITE BY VEHICLE TRAFFIC. THE CONSTRUCTION ENTRANCE ROADWAYS MUST BE STABILIZED SO AS TO INHIBIT SEDIMENTS FROM BEING DEPOSITED INTO THE PUBLIC WAY. ACCIDENTAL DEPOSITION MUST BE SWEPT UP IMMEDIATELY AND MAY NOT BE WASHED DOWN BY RAIN OR OTHER MEANS. ANY SLOPES WITH DISTURBED SOILS OR DENUDED OF VEGETATION MUST BE STABILIZED SO AS TO MINIMIZE EROSION BY WIND AND WATER.

20. CONTRACTOR IS REQUIRED TO REVIEW TOPOGRAPHIC MAPPING AND CONFIRM EXISTING TOPOGRAPHIC MAPPING IS CONSISTENT WITH THE CONDITION OF THE SITE ENCOUNTERED BY THE CONTRACTOR. DISCREPANCIES FOUND WITH THE EXISTING TOPOGRAPHIC MAPPING MUST BE BROUGHT TO THE ATTENTION OF THE ENGINEER PRIOR TO START OF ANY GRADING. ONCE GRADING COMMENCES, THE CONTRACTOR HAS ACCEPTED THE EXISTING TOPOGRAPHIC MAPPING AS ACCURATE AND REPRESENTATIVE OF THE EXISTING CONDITIONS ASSUMED BY THE CONTRACTOR.

STORM DRAIN NOTES:

1. ALL PUBLIC STORM DRAIN MATERI

DEVELOPMENT NOTES

1. ALL CONSTRUCTION DETAILS ARE CONCEPTUAL AND SUBJECT TO REVIEW AND MODIFICATION DURING THE FINAL DEVELOPMENT PLAN APPROVAL PROCESS.
2. ALL PROPOSED DEVELOPMENT IMPROVEMENTS SHALL CONFORM TO THE CITY OF APOPKA LAND DEVELOPMENT CODE AND ST. JOHNS RIVER WATER MANAGEMENT DISTRICT REQUIREMENTS.
3. THE DESIGN AND CONSTRUCTION OF STORMWATER MANAGEMENT SYSTEMS, WATER AND SEWER SYSTEMS, UTILITIES, AND EASEMENTS SHALL BE IN ACCORDANCE WITH THE CITY OF APOPKA CONSTRUCTION DESIGN STANDARDS MANUAL.
4. ONSITE UTILITIES ARE SHOWN AS CONCEPTUAL ONLY. FINAL PLACEMENT WILL BE DETERMINED DURING THE FINAL DEVELOPMENT PLAN PROCESS.
5. ALL PROPOSED UTILITIES (ELECTRICAL, CABLE TV, GAS, TELEPHONE, ETC.) SHALL BE INSTALLED UNDERGROUND. APPURTENANCES TO THESE SYSTEMS THAT ARE REQUIRED TO BE ABOVE GROUND SHALL BE EFFECTIVELY SCREENED.
6. SANITARY WASTE SERVICES WILL BE PROVIDED BY THE CITY OF APOPKA.
7. STORMWATER MANAGEMENT FACILITIES WILL BE PROVIDED FOR ONSITE, AND DESIGN WILL BE DETERMINED WITH THE FINAL DEVELOPMENT PLAN PROCESS.
8. THIS SITE IS LOCATED IN ZONE X (FLOOD HAZARD ZONE), OUTSIDE OF THE 100-YEAR FLOODPLAIN PER FEMA/FIRM MAP, ORANGE COUNTY, FLORIDA, COMMUNITY PANEL NO.12095C0125H, REVISED SEPTEMBER 24, 2021 AND COMMUNITY PANEL NO. 12095C0110H, REVISED SEPTEMBER 24, 2021.
9. PER USDA SOIL CONSERVATION SERVICE CLASSIFICATION SYSTEM, SOIL SURVEY MAPS AND ONSITE SOILS ARE SHOWN ON SHEET S1.0 (AERIAL, SOILS, AND FLUCCS).
10. NO EXISTING JURISDICTIONAL WETLANDS OR OTHER POTENTIAL ENVIRONMENTAL CONDITIONS WERE OBSERVED ONSITE, PER THE ECOLOGICAL ASSESSMENT REPORT PREPARED BY BIO-TECH CONSULTING, INC.
11. NO KNOWN EXISTING HISTORICAL STRUCTURES OR OTHER CULTURALLY SIGNIFICANT ARTIFACTS WERE OBSERVED ONSITE.
12. PROJECT LANDSCAPING WILL MEET STANDARDS SET FORTH IN SECTION 2.09.19(D)(21) OF THE CITY OF APOPKA LAND DEVELOPMENT CODE. LANDSCAPE AND IRRIGATION SHALL BE IN COMPLIANCE WITH "WATER WISE ORDINANCE 2089", UNLESS OTHERWISE APPROVED BY THE CITY.
13. PROJECT LIGHTING WILL MEET STANDARDS SET FORTH IN THE CITY OF APOPKA LAND DEVELOPMENT CODE (LDC) AND THE CITY'S DEVELOPMENT DESIGN GUIDELINES, UNLESS OTHERWISE APPROVED BY THE CITY. ALL LIGHT POLES (PARKING AND PEDESTRIAN) SHALL BE DECORATIVE IN STYLE WITH BASES FLUSH WITH THE GROUND (NO BOLLARD-MOUNTED LIGHTS). PEDESTRIAN-SCALED LIGHTING SHALL BE PROVIDED ALONG ALL SIDEWALKS LEADING TO BUILDINGS AND ALONG THE CONCRETE SHARED PATHS.
14. PROJECT SIGNAGE SHALL BE PROVIDED IN ACCORDANCE WITH THE MASTER SIGN PLAN APPROVED BY THE CITY OF APOPKA WITH THE PUD APPROVAL.
15. FOR PARCEL 5, TRASH COMPACTORS ARE PROVIDED FOR REFUSE COLLECTION. REFUSE WILL BE COLLECTED BY A LOCAL APPROVED FRANCHISE ON A WEEKLY BASIS.
16. FIRE RESCUE WILL BE PROVIDED BY THE CITY OF APOPKA FIRE DEPARTMENT. FIRE STATION 4 IS APPROXIMATELY 1.3 MILES FROM THE DEVELOPMENT AT 2750 W. ORANGE AVE, APOPKA, FL. ONSITE FIRE PROTECTION WILL BE PROVIDED WITH A LOOPED WATER DISTRIBUTION SYSTEM WITH FIRE HYDRANTS. ADDITIONALLY, BUILDINGS WILL BE PROTECTED WITH APPROVED AUTOMATIC FIRE SPRINKLER SYSTEMS, FDC'S, AND REMOTE MONITORING ALARM SYSTEMS. FIRE PROTECTION SERVICES WILL COMPLY WITH THE ADOPTED CITY OF APOPKA FIRE DEPARTMENT STANDARDS AND REQUIREMENTS.
17. NO OUTSIDE STORAGE OF PARTS, SUPPLIES, MATERIALS, GOODS, OR EQUIPMENT SHALL BE ALLOWED UNLESS SCREENED FROM VIEW.
18. ALL ROOFTOP EQUIPMENT SHALL BE COMPLETELY SCREENED FROM ADJACENT PROPERTY AND PUBLIC RIGHTS-OF-WAY.
19. SCHOOLS:
    – WITHIN THE COMMERCIAL DEVELOPMENT, NO RESIDENTIAL USES ARE PROPOSED. PUBLIC SCHOOL CAPACITY IS NOT REQUIRED.
20. THE FOLLOWING LIST OF PERMITS (BUT NOT LIMITED TO) ARE REQUIRED PRIOR TO COMMENCEMENT OF CONSTRUCTION:
    – CITY OF APOPKA FINAL DEVELOPMENT PLAN APPROVAL
    – FDEP POTABLE WATER SYSTEM DISTRIBUTION PERMIT
    – FDEP WASTEWATER COLLECTION SYSTEM PERMIT
    – ST. JOHNS RIVER WATER MANAGEMENT DISTRICT ENVIRONMENTAL RESOURCE PERMIT
    – NPDES PERMITTING (INCLUDING NOI AND NOT)
21. PRIOR TO COMMENCING CLEARING AND GRADING ACTIVITIES, A PERMIT/LETTER FROM THE FLORIDA FISH AND WILDLIFE CONSERVATION COMMISSION MUST BE RECEIVED—WITH A COPY FORWARDED TO THE CITY OF APOPKA—FOR APPROVAL OF A GOPHER TORTOISE SURVEY AND ANY REQUIRED REMEDIAL ACTIVITY.
22. A BI-DIRECTIONAL AMPLIFIER (BDA/DAS) SYSTEM SURVEY WILL BE REQUIRED DURING CONSTRUCTION IN ACCORDANCE WITH CITY OF APOPKA FIRE DEPARTMENT REQUIREMENTS.

SITE DATA

THE PROPOSED PROJECT IS A HOTEL COMMERCIAL DEVELOPMENT OF EXISTING ABANDON AGRICULTURAL NURSERIES AND VACANT PROPERTY. IMPROVEMENTS WILL OCCUR IN ONE PHASE CONSISTING OF CONSTRUCTION OF BUILDING, PAVED PARKING AND DRIVE AISLES, SIDEWALKS, ASSOCIATED UTILITIES, AND LANDSCAPING.

CURRENT LOCAL JURISDICTION:	CITY OF APOPKA
CURRENT LAND USE CLASSIFICATION:	COMMERCIAL
CURRENT ZONING CLASSIFICATION:	PLANNED DEVELOPMENT (PD)
PROPOSED ZONING:	PLANNED DEVELOPMENT (PD)
FLOOD ZONE CLASSIFICATION:	ZONE X FIRM PANEL NO. : 12095C0125H & 12095C0110H DATED : 9/24/2024

SURROUDING ZONING:

DIRECTION	PROPERTY USE	LAND USE	ZONING	JURISDICTION
NORTH	RESIDENTIAL	SINGLE FAMILY ESTATE	RSF-1A	CITY OF APOPKA
EAST	SR429	STATE ROAD		FLORIDA DEPARTMENT OF TRANSPORTATION
SOUTH	RESIDENTIAL	MIXED USE-EAST SHORE-GATEWAY	MU-ES-GT	CITY OF APOPKA
WEST	RESIDENTIAL	SINGLE FAMILY	A-1	ORANGE COUNTY

FUTURE LAND USE (FLU) DESIGNATION:	COMMERCIAL
EXISTING LAND USE:	UNDEVELOPED LAND AND ABANDON NURSERY

BUILDING DATA

BUILDING SETBACKS:

DIRECTION	REQUIRED SETBACK	PROVIDED SETBACK
FRONT (SOUTH)	8' FEET	56.1 FEET
SIDE (WEST)	0' FEET	71.5 FEET
SIDE (EAST)	20 FEET	68.0 FEET
REAR (NORTH)	10' FEET	103.7 FEET

BUILDING HEIGHT (FINISHED FLOOR TO ROOF): MAXIMUM BY CODE EXISTING BUILDING	46' 6" 50', 4 STORIES N/A
NO. OF STORIES	4

BUILDING HEIGHTS HAVE BEEN MEASURED PER FLORIDA BUILDING CODE AS MEAN HEIGHT ABOVE FINISH FLOOR.

GENERAL NOTES

1. FIVE FOOT WIDE CONCRETE SIDEWALKS ARE REQUIRED ON ALL STREET FRONTAGES. ANY DAMAGED, CRACKED, OR BROKEN SIDEWALKS OR CURBS SHALL BE REPLACED PRIOR TO FINAL COMPLETION.
2. THE OWNER IS RESPONSIBLE FOR MEETING ALL PROVISIONS OF ADA AND FLORIDA ACCESSIBILITY CODE.
3. FENCING SHALL MEET ALL CITY REQUIREMENTS FOR HEIGHT, TYPE, ETC. CHAIN LINK FENCING SHALL BE VINYL COATED PER CODE.
4. ALL CONSTRUCTION SHALL CONFORM TO CITY OF APOPKA STANDARDS, SPECIFICATIONS, AND ORDINANCES.
5. CITY OF APOPKA WILL INSPECT PRIVATE SITE IMPROVEMENTS ONLY TO THE EXTENT THAT THEY CONNECT TO CITY OWNED/MAINTAINED SYSTEMS (ROADWAYS, DRAINAGE, UTILITIES, ETC.). IT IS THE RESPONSIBILITY OF THE OWNER AND DESIGN ENGINEER TO ENSURE SPECIFICATIONS. THE CITY IS NOT RESPONSIBLE FOR THE OPERATION AND MAINTENANCE OF PRIVATELY OWNED SYSTEMS, TO INCLUDE, BUT NOT LIMITED TO, ROADWAYS, PARKING LOTS, DRAINAGE, STORMWATER PONDS, OR ON-SITE UTILITIES.
6. THE CONTRACTOR IS RESPONSIBLE FOR THE NOTIFICATION, LOCATION, AND PROTECTION OF ALL UTILITIES THAT MAY EXIST WITHIN THE PROJECT LIMITS.

TRANSPORTATION IMPACT TABLE

Hotel Trip Generation

THIS DOCUMENT WITHOUT WRITTEN AUTHORIZATION AND ADAPTATION BY BOWMAN CONSULTING SHALL BE WITHOUT LIABILITY TO BOWMAN CONSULTING. IT WAS PREPARED. RELIANCE ON THIS DOCUMENT BY ANY PARTY FOR ANY USE OTHER THAN THE SPECIFIC PURPOSE FOR WHICH

GENERAL NOTES:

1. INTERPRETATION, ERRORS AND OMISSIONS: SHOULD ANY OMISSION, DISCREPANCY, AMBIGUITY OR ERROR IN THE CONTRACT DOCUMENT DRAWINGS BE DISCOVERED OR SHOULD THERE BE ANY DOUBT AS TO THE MEANING OR INTENT THEREOF, REPORT SUCH FINDINGS TO THE LANDSCAPE ARCHITECT IN WRITING WITHIN A REASONABLE TIME OF RECOVERY.
2. IF DURING THE COURSE OF CONSTRUCTION, CONFLICTS ARE FOUND IN THE DRAWINGS OR EXISTING SITE CONDITIONS, THE LANDSCAPE ARCHITECT WILL INTERPRET THE DRAWING(S) AND / OR EXISTING SITE CONDITIONS SO AS TO SECURE THE MOST SUBSTANTIAL AND COMPLETE PERFORMANCE OF THE WORK.
3. DIMENSIONS ON PLANS ARE TO FINISH FACE OF SURFACES AND FACE OF CONCRETE MASONRY UNIT WALLS UNLESS NOTED OTHERWISE.
4. THE CONTRACTOR SHALL VERIFY ALL EXISTING CONDITIONS AND DIMENSIONS PRIOR TO BEGINNING DEMOLITION AND/OR CONSTRUCTION. ANY DISCREPANCIES BETWEEN ACTUAL CONDITIONS AND THOSE REPRESENTED IN THE CONSTRUCTION DOCUMENTS SHALL BE BROUGHT TO THE LANDSCAPE ARCHITECT'S ATTENTION IMMEDIATELY.
5. THE CONTRACTOR SHALL VERIFY THE LOCATION OF ALL EXISTING UTILITIES PRIOR TO CONSTRUCTION. SHOULD THE ASSISTANCE OF THE OWNER, ARCHITECT, LANDSCAPE ARCHITECT, OR ENGINEER BE REQUIRED THE CONTRACTOR SHALL ALLOW FOR THE REQUIRED NOTIFICATION PERIOD IN THE CONSTRUCTION SCHEDULE.
6. CONTRACTOR SHALL VERIFY AND COORDINATE SPECIFIC REQUIREMENTS FOR OWNER-PROVIDED AND/OR INSTALLED EQUIPMENT. GENERAL CONTRACTOR SHALL BE RESPONSIBLE FOR COORDINATING ALL WORK INCLUDED IN THE CONTRACT DOCUMENTS. ALL CORRESPONDENCE FROM SUBCONTRACTORS SHALL BE ROUTED THROUGH THE GENERAL CONTRACTOR.
7. CONTRACTOR SHALL BE RESPONSIBLE FOR PROTECTING ALL EXISTING STRUCTURES AND UTILITIES FROM DAMAGE AS REQUIRED DURING CONSTRUCTION. ADJACENT WORK, INCLUDED UNDER OTHER CONSTRUCTION CONTRACTS, WHICH IS DAMAGED DURING EXECUTION OF THIS CONTRACT WORK, SHALL BE THE RESPONSIBILITY OF THE GENERAL CONTRACTOR TO REPAIR PRIOR TO FINAL ACCEPTANCE OF THE WORK.
8. GENERAL CONTRACTOR SHALL REPLY WITH ALL REQUIREMENTS OF CURRENT SOILS REPORT.
9. GENERAL CONTRACTOR TO PROVIDE ALL GOVERNMENT-REQUIRED SIGNAGE NECESSARY FOR CERTIFICATE OF OCCUPANCY (FIRE LANE SIGNAGE, "DO NOT BLOCK DOOR", ETC.)
10. THE PROVISIONS OF THE INTERNATIONAL BUILDING CODE ADOPTED BY THE JURISDICTION HAVING AUTHORITY AND ITS REFERENCED STANDARDS APPLY TO THE DESIGN AND CONSTRUCTION OF THESE INSTALLATIONS.
11. CONTRACTOR TO INCLUDE IN BID, ALL MISCELLANEOUS MATERIAL REQUIRED FOR A COMPLETE INSTALLATION PER THE DESIGN INTENT AS DEFINED BY THE CONTRACT DOCUMENTS. MISCELLANEOUS MATERIAL INCLUDES, BUT IS NOT LIMITED TO FASTENERS, HANGERS, FURRING STRIPS, BLOCKING, TRIM AND OTHER MATERIALS NOT SPECIFICALLY INDICATED BUT REQUIRED FOR A COMPLETE INSTALLATION.

SITEWORK NOTES:

1. THE GENERAL CONTRACTOR SHALL BE RESPONSIBLE FOR COORDINATING INSPECTION OF SOIL CONDITIONS AFTER EXCAVATION WITH OWNER'S TESTING SERVICE TO DETERMINE IF BEARING CAPACITY IS SUFFICIENT AND MAINTAINING EXCAVATION IN SUCH AS A WAY THAT THE BEARING CAPACITY IS MAINTAINED UNTIL PLACEMENT OF FOOTING.
2. OVER-EXCAVATION OF FOUNDATIONS SHALL BE FILLED ONLY AS DIRECTED BY THE STRUCTURAL ENGINEER.
3. ALL CIVIL WORK IS DEFINED UNDER SEPARATE CIVIL DOCUMENTATION PROVIDED BY THE CIVIL ENGINEER.
4. UNLESS NOTED OTHERWISE PROVIDE 18" x 24" CONCRETE SPLASH BLOCKS AT ALL DOWNSPOUTS WHERE DOWNSPOUTS SPILL ONTO PAVING
5. ALL SIDEWALKS ARE TO BE LIGHT BROOM FINISHED UNLESS NOTED OTHERWISE. ALL SIDEWALK COLORS ARE TO MATCH COLOR SELECTED BY LANDSCAPE ARCHITECT UNLESS OTHERWISE NOTED. SEE DETAILS FOR PSI AND REINFORCING REQUIREMENTS.
6. THE CONTRACTORS AND SUBCONTRACTORS SHALL COORDINATE THE WORK AND PHASING OF WORK DESCRIBED HEREIN WITH THE CIVIL ENGINEERING AND LANDSCAPE PLANS.

CONCRETE NOTES:

1. DESIGN LOADS ARE AS SPECIFIED BY THE STRUCTURAL DRAWINGS.
2. ALL EXTERIOR SIDEWALK EXPANSION JOINTS TO RECEIVE TRAFFIC BEARING, POURABLE SEALANT. PROVIDE 1/2" JOINT, MINIMUM.
3. ALL CONCRETE DRAWN IS BROOM FINISH UNLESS NOTED OTHERWISE.

LAYOUT NOTES:

1. THE LOCATION OF ALL SURFACE AND UNDERGROUND STRUCTURES AND UTILITIES SHALL BE VERIFIED BY THE CONTRACTOR AT GROUND BREAK. THE CONTRACTOR SHALL BE RESPONSIBLE FOR PROTECTING ALL EXISTING STRUCTURES AND UTILITIES FROM DAMAGE AS REQUIRED DURING CONSTRUCTION AND TO REPAIR ANY DAMAGE WHICH SHOULD OCCUR TO THE SATISFACTION OF THE OWNER/OR DAMAGED PARTY.
2. THE FINISHED GRADES SHALL BE FREELY DRAINING.
3. ALL SITE ELEMENT LOCATIONS SHALL BE APPROVED BY LANDSCAPE ARCHITECT PRIOR TO EXCAVATION/INSTALLATION.
4. THE LOCATION OF ALL FOOTINGS SHALL BE APPROVED BY THE LANDSCAPE ARCHITECT PRIOR TO EXCAVATION. FOOTINGS SHALL BE LOCATED WHERE SHOWN ON THE DRAWINGS OR WHERE FIELD LOCATED BY LANDSCAPE ARCHITECT.
5. THE LOCATION OF ALL PAVED AREAS SHALL BE APPROVED BY THE LANDSCAPE ARCHITECT PRIOR TO EXCAVATION. PAVED AREAS SHALL BE LOCATED WHERE SHOWN ON THE DRAWINGS OR WHERE FIELD LOCATED BY LANDSCAPE ARCHITECT.
6. MINIMIZE ALL ROOT DISTURBANCE WITHIN THE DRIP LINE OF ALL EXISTING TREES.
7. COORDINATE SLEEVE LOCATION/INSTALLATION WITH LANDSCAPE CONTRACTOR. INSTALLATION IS THE RESPONSIBILITY OF GENERAL CONTRACTOR.
8. IRRIGATION SLEEVES ARE TO BE SCHEDULE 40 PVC PIPE, PER SPECIFICATIONS, EXTENDED 18" MINIMUM BEYOND CURB OR PAVEMENT EDGE.
9. IRRIGATION SLEEVES ARE TO BE MARKED (EACH END) WITH A 2" X 4" STAKE FOR EASE OF LOCATION BY THE LANDSCAPE CONTRACTOR. SECURE OR CAP EACH END OF SLEEVE DURING INSTALLATION TO PREVENT CLOGGING.
10. GRADE ALL AREAS FOR APPROVAL BY LANDSCAPE ARCHITECT BEFORE SODDING.
11. CONTRACTOR SHALL BE RESPONSIBLE FOR PROVIDING 3% POSITIVE DRAINAGE IN ALL PLANT AREAS.
12. LANDSCAPE CONTRACTOR SHALL PROVIDE APPROVED TOPSOIL TO PERFORM INCIDENTAL GRADING WORK.
13. TOPSOIL AND BACKFILL MIX SHALL BE APPROVED BY LANDSCAPE ARCHITECT PRIOR TO DELIVERY.
14. UPON AWARD OF CONTRACT; LANDSCAPE ARCHITECT WILL PROVIDE CONTRACTOR WITH DIGITAL LAYOUT FILE.

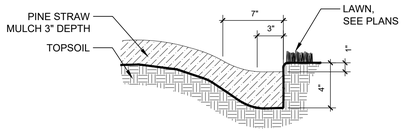
Apopka, FL - Municipal Code Landscape Calculation

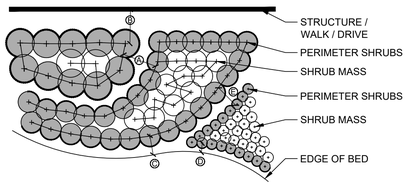
Land Development Code: Article 5 - Section 2 - Apopka, Florida Code of Ordinances

Foundation Planting Standards						
Required	Except for a building built to the lot line, all buildings facing rights-of-way shall contain a foundation landscaping area adjacent to the building that is a minimum of four feet in width and extends the entire length of the building facade. The foundation landscaping area shall contain:					
	(a) Shrubs a minimum of 24 inches in height, planted a minimum of 30 inches on-center, depending on variety and approved by the DRC	**Required:**	✓	Provided:	✓	
	(b) A minimum of one small decorative or ornamental tree that is at least 15 gallons for every 20 feet of length.	Length: **Required:**	320 ft 16 trees	**Provided:**	16 trees	
	In addition, multifamily and nonresidential development shall plant one canopy shade tree and ten shrubs (minimum height 36 inches) per 35 lineal feet, or fraction thereof, of property perimeter both abutting and not abutting a street or parking area.	Total Perimeter: **Required:** **Required:**	1402 ft 40 trees 400 shrubs	**Provided:** **Provided:**	40 trees 433 shrubs	
Off-Street Vehicular Parking Area Planting						
Required	(a) A minimum of one canopy shade tree, plus an additional one canopy shade tree for every ten spaces or any portion thereof, shall be required for an off-street vehicular parking area.	Total: **Required:**	135 parking spaces 15 trees	**Provided:**	15 trees	
	(b) At least 90 percent of the parking spaces shall be within 80 feet of the trunk of a tree. Landscaping around the perimeter, in bufferyards, or other required plantings may be used to meet this requirement.	**Required:**	90%	**Provided:**	100%	
Perimeter Off-Street Vehicular Parking Area Landscaping	A hedge row, consisting of shrubs a minimum height of 36 inches and planted three and one-half feet on center, or other approved screening shall be required where off-street vehicular parking areas are adjacent to a street.	**Required:**	✓	**Provided:**	✓	
Plant Diversity						
Required	When 40 or more trees are required on a site, at least four different species shall be utilized, in roughly equal proportions	**Required:**	4 species	**Provided:**	4 species	

NOTE:
TRENCH EDGE TO BE LOCATED BETWEEN PLANTING BEDS AND ALL LAWN AREAS AND AROUND TREE PITS LOCATED IN LAWN AREAS.

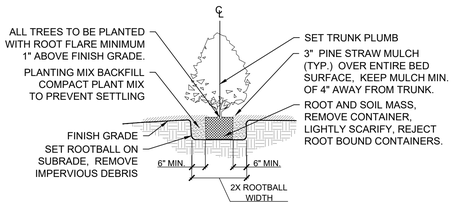


1 TRENCH EDGE FOR ALL PLANT BEDS
NTS



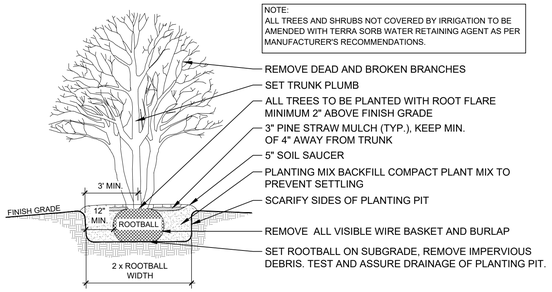
A SHRUB TO SHRUB.....LARGEST SPACING BETWEEN TWO DIFFERENT SPECIES OF ADJACENT SHRUBS + 6" (EXAMPLE: 4' O.C. NEXT TO 3' O.C., SPACING EQUALS 4'-6")
B SHRUB TO STRUCTURE / WALK / DRIVE..... SHRUB SPACING + 6" (EXAMPLE - 4'-6" FOR 4' O.C.) IN NO CASE LESS THAN 4'
C SHRUB TO BED LINE.....1/2 SHRUB SPACING + 1 FOOT (EXAMPLE - 30": FOR 3' O.C.)
D GROUNDCOVER TO BEDLINE.....GROUNDCOVER SPACING (EXAMPLE - 1 FOOT FOR 1' O.C.)
E SHRUB TO GROUNDCOVER.....1/2 SHRUB SPACING + SPACING OF GROUNDCOVER
NOTE:
LAYOUT PERIMETER SHRUBS OF SHRUB MASS FIRST AT DESIGNATED SPACING. INFILL SHRUB MASS AS CLOSE TO GIVEN SPACING AS POSSIBLE, ADJUSTING SPACING UP OR DOWN AS REQUIRED.

2 FREE FORM MASS PLANTING
NTS



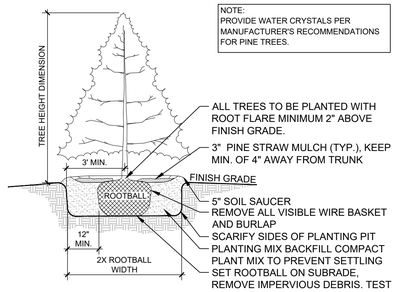
3 TYPICAL CONTAINERIZED SHRUB PLANTING
NTS

NOTE:
ALL TREES AND SHRUBS NOT COVERED BY IRRIGATION TO BE AMENDED WITH TERRA SORB WATER RETAINING AGENT AS PER MANUFACTURER'S RECOMMENDATIONS.



4 MULTI- TRUNKED TREE PLANTING
NTS

NOTE:
PROVIDE WATER CRYSTALS PER MANUFACTURER'S RECOMMENDATIONS FOR PINE TREES.



5 EVERGREEN TREE PLANTING
NTS

NOTE:
ALL TREES AND SHRUBS NOT COVERED BY IRRIGATION TO BE AMENDED WITH TERRA SORB WATER RETAINING AGENT AS PER MANUFACTURER'S RECOMMENDATIONS.

REVISIONS		
NO	DATE	DESCRIPTION
1	05/06/2026	REVISION PER NEW SITE PLAN

LANDSCAPE PLAN

JOB NO:	HCAR-2401
DATE:	09/12/2025
DRAWN BY:	TJC
CHECKED BY:	ALR
SHEET NUMBER:	L2.0

SOIL PREPARATION

1. SUBMITTALS: INCLUDE THE FOLLOWING PRODUCT DATA FOR EACH TYPE OF PRODUCT:

- RECOMMENDATIONS FOR APPLICATION AND USE
- TEST DATA SUBSTANTIATING COMPLIANCE WITH REQUIREMENTS
- SIEVE ANALYSIS FOR AGGREGATE MATERIALS
- MATERIAL CERTIFICATES FOR IMPORTED SOILS, SOIL AMENDMENTS, AND FERTILIZERS (INCLUDING ANALYSIS BY QUALIFIED TESTING AGENCY)

2. SAMPLES: FOR EACH BULK-SUPPLIED MATERIAL, SUBMIT 1-QUART VOLUME OF EACH IN SEALED CONTAINER LABELED WITH CONTENT, SOURCE, AND DATE OBTAINED. PROVIDE SAMPLES THAT ARE TYPICAL OF THE MATERIAL TO BE FURNISHED AND ACCURATE IN REPRESENTATION OF COMPOSITION,COLOR, AND TEXTURE.

3. SUBMIT PRE-CONSTRUCTION SOIL ANALYSIS AND TESTING AGENCY QUALIFICATIONS.

4. SOIL SAMPLING: NOTIFY LANDSCAPE ARCHITECT SEVEN (7) DAYS BEFORE SAMPLE COLLECTION. SAMPLES TO BE COLLECTED BY CONTRACTOR IN PRESENCE OF LANDSCAPE ARCHITECT OR BY QUALIFIED TESTING AGENCY PERSONNEL. COLLECT A MINIMUM OF THREE (3) SAMPLES FOR EACH SOIL TO BE USED. FOLLOW PROCEDURES IN USDA-NRCS "FIELD BOOK FOR DESCRIBING AND SAMPLING SOILS," LATEST EDITION. LABEL EACH SAMPLE WITH DATE, LOCATION (KEYED TO SITE PLAN), VISIBLE SOIL CONDITION, AND SAMPLING DEPTH.

5. SOIL TESTING: PER SSSA's "METHODS OF SOIL ANALYSIS."

-- PHYSICAL TESTING: SOIL TEXTURE, PARTICLE SIZE (SIEVE METHOD);TOTAL POROSITY (PARTICLE DENSITY AND BULK DENSITY); WATER RETENTION; SATURATED HYDRAULIC CONDUCTIVITY AT 85% STANDARD PROCTOR DENSITY. CHEMICAL TESTING: CEC SODIUM SATURATION AT pH 7; ANALYSIS AND ESTIMATED PERCENTAGE OF EXPANDABLE CLAY MATERIALS; HAZARDOUS METALS; PHYTOTOXIC TRACE MINERALS.

FERTILITY TESTING: ACCORDING TO STANDARD PROTOCOL OF SSSA NAPT SERA-6, INCLUDING THE FOLLOWING:

a.PERCENTAGE OF ORGANIC MATTER

b. CEC, CALCIUM % OF CEC, MAGNESIUM % OF CEC

c. SOIL REACTION (pH VALUE)

d. BUFFERED ACIDITY OR ALKALINITY

e. NITROGEN PPM

f. PHOSPHORUS PPM

g. POTASSIUM PPM

h. MANGANESE PPM

i. MANGANESE-AVAILABILTY PPM

j. ZINC PPM.

k. ZINC-AVAILABILITY PPM.

l. COPPER PPM

m. SODIUM PPM AND SODIUM ABSORPTION RATIO.

n.SOLUBLE-SALTS PPM.

o.PRESENCE AND QUANTITIES OF PROBLEMATIC MATERIALS INCLUDING SALTS AND METALS CITED IN THE STANDARD PROTOCOL. IF PRESENT,PROVIDE ADDITIONAL RECOMMENDATIONS FOR CORRECTIVE ACTION.

p.OTHER DELETERIOUS MATERIALS, INCLUDING CHARACTERISTICS AND CONTENT OF EACH.

-- RECOMMENDATIONS: BASED ON TEST RESULTS, STATE RECOMMENDATIONS FOR SOIL TREATMENTS AND SOIL AMENDMENTS TO BE INCORPORATED TO PRODUCE SATISFACTORY PLANTING SOIL SUITABLE FOR HEALTHY, VIABLE PLANTS INDICATED. AT MINIMUM, INCLUDE N-P-K FERTILIZATION AND FOR MICRONUTRIENTS.

6. PACKAGED MATERIAL DELIVERY AND STORAGE: DELIVER PACKAGED MATERIALS UNOPENED, UNDAMAGED CONTAINERS CLEARLY LABELED WITH WEIGHT, ANALYSIS MANUFACTURER NAME, AND COMPLIANCE WITH APPLICABLE LAWS.

7. BULK MATERIAL DELIVERY AND STORAGE: DO NOT DUMP OR STORE NEAR STRUCTURES, WALKWAYS/PAVEMENT, UTILITIES, OR ON EXISTING TURF OR PLANTED AREAS. PROVIDE EROSION CONTROL MEASURES TO PREVENT DISPLACEMENT (WATER- OR WIND-BORNE) OR DISCHARGE INTO WATERWAYS. DO NOT MOVE WHEN WET OR FROZEN. INCLUDE APPROPRIATE CERTIFICATES WITH DELIVERY.

8. PLANTING SOIL: EXISTING, ON-SITE SURFACE SOIL, WITH THE DUFF LAYER (IF ANY) RETAINED AND STOCKPILED ON-SITE; MODIFIED AS DIRECTED BY SOIL TEST RESULTS TO PRODUCE VIABLE PLANTING SOIL.

9. PLANTING SOIL, IMPORTED: NATURALLY FORMED SOIL FROM OFF-SITE SOURCES CONSISTING OF SANDY LOAM AND MODIFIED TO PRODUCE VIABLE PLANTING SOIL.TAKE UNAMMENDED IMPORTED SOIL FROM SOURCES THAT ARE NATURALLY WELL-DRAINED AND WHERE TOPSOIL OCCURS AT LEAST 4 INCHES DEEP NOT FROM AGRICULTURAL LAND, BOGS, OR MARSHES; AND NOT CONTAINING UNDESIRABLE ORGANISMS, PLANT PATHOGENS, NOXIOUS WEEDS OR INVASIVE PLANTS. BEFORE AMENDING,IMPORTED SOIL pH SHALL BE 5.5 - 7, WITH A MINIMUM OF 4% ORGANIC MATTER CONTENT, FRIABLE, AND WITH SUFFICIENT STRUCTURE TO PROVIDE GOOD TILTH AND AERATION.

10. UNACCEPTABLE MATERIALS IN PLANTING SOIL: CLEAN SOIL OF CONCRETE SLURRY, CONCRETE LAYERS OR CHUNKS, CEMENT, PLASTER, BUILDING DEBRIS; OILS, GASOLINE, DIESEL FUEL, PAINT, PAINT THINNER, TURPENTINE, TAR, ROOFING COMPOUNDS; ACID; AND ANY OTHER EXTRANEOUS MATERIALS HARMFUL TO PLANT GROWTH.

11. UNSUITABLE MATERIALS IN PLANTING SOIL: STONES; ROOTS; PLANTS, SOD; CLAY LUMPS, CLODS, OR COARSE SAND POCKETS EXCEEDING 2 INCHES IN ANY DIMENSION.

12. INORGANIC SOIL AMENDMENTS:

- ASTM C602, AGRICULTURAL LIME CONTAINING A MINIMUM OF 80% CALCIUM CARBONATE. CLASS AND FORM AS RECOMMENDED BY SOIL TEST RESULTS.
- GRANULAR, BIODEGRADABLE, AND CONTAINING A MINIMUM OF 90% ELEMENTAL SULFUR, WITH A MINIMUM OF 90% PASSING A NO. 6 SIEVE AND MAXIMUM OF 10% PASSING A NO. 40 SIEVE.
- IRON SULFATE: GRANULATED FERROUS SULFATE CONTAINING A MINIMUM OF 20% IRON AND 10% SULFUR.
- PERLITE: HORTICULTURAL PERLITE, SOIL AMENDMENT GRADE.
- AGRICULTURAL GYPSUM: MINIMUM 90% CALCIUM SULFATE, WITH 90% PASSING A NO. 50 SIEVE.

CLEAN, WASHED, NATURAL OR MANUFACTURED, FREE OF TOXIC MATERIALS; ASTM C33.

13. ORGANIC SOIL AMENDMENTS:

- COMPOST: WELL-COMPOSTED, STABLE, WEED-FREE ORGANIC MATTER PRODUCED BY COMPOSTING FEEDSTOCK, AND BEARING USCC's "SEAL OF TESTING ASSURANCE."
- PARTIALLY DECOMPOSED PEAT MOSS, GRANULAR (100% PASSING 1/2 INCH SIEVE). CHEMICAL PROPERTIES AS REQUIRED BY SOIL TESTING REPORT.WOOD DERIVATIVES: SHREDDED AND COMPOSTED, NITROGEN-TREATED SAWDUST, GROUND BARK, OR WOOD WASTE; OF UNIFORM TEXTURE, FREE OF CHIPS, STONES, STICKS, SOIL, OR TOXIC MATERIAL.
- WELL-ROTTED, UNLEACHED, STABLE OR CATTLE MANURE CONTAINING NOT MORE THAN 25% BY VOLUME OF STRAW, SAWDUST, OR OTHER BEDDING MATERIALS; FREE OF TOXIC SUBSTANCES, STONES, STICKS, SOIL, WEED SEED, DEBRIS, AND MATERIAL HARMFUL TO PLANT GROWTH.

14. FERTILIZERS: COMMERCIAL-GRADE COMPLETE FERTILIZER OF NEUTRAL CHARACTER, CONSISTING OF FAST- AND SLOW-RELEASE NITROGEN; 50% DERIVED FROM NATURAL ORGANIC SOURCES OF UREA FORMALDEHYDE, PHOSPHORUS, AND POTASSIUM IN AMOUNTS RECOMMENDED BY SOIL TESTING REPORTS.

15. EXCAVATION AND STOCKPILING OF TOPSOIL BY SITE CONTRACTOR.TILL SUBGRADE TO A MINIMUM DEPTH OF 6 INCHES AND REMOVE STONES,STICKS, RUBBISH, OR OTHER EXTRANEOUS MATTER LARGER THAN 2 INCHES IN ANY DIMENSION. APPLY, ADD AMENDMENTS, AND MIX APPROXIMATELY HALF THE THICKNESS OF UNAMENDED SOIL OVER LOOSENED SUBGRADE. MIX THOROUGHLY INTO TOP 2 INCHES OF SUBGRADE. SPREAD REMAINDER OF PLANTING SOIL TO TOTAL DEPTH INDICATED ON THE DRAWINGS, BUT NOT LESS THAN REQUIRED TO MEET FINISHED GRADES AFTER SETTLEMENT. DO NOT SPREAD IF SOIL OR SUBGRADE IS FROZEN, MUDDY, OR EXCESSIVELY WET.

16. DO NOT PLACE TOPSOIL UNTIL SUBGRADE HAS BEEN APPROVED IN ACCORDANCE WITH NOTE #15. BEFORE PLACING TOPSOIL, RAKE SUBSOIL SURFACE CLEAR OF STONES, DEBRIS, AND ROOTS. COMPACT TOPSOIL TO FORM LAYER WITH MINIMUM DEPTH OF 4-INCHES IN LAWN AREAS AND 12-INCHES IN SHRUB BEDS. PLACE TOPSOIL SO THAT AFTER FINAL SETTLEMENT THERE WILL BE POSITIVE DRAINAGE CONFORMING TO ELEVATIONS SHOWN ON CONSTRUCTION DRAWINGS

17. COMPACT EACH BLENDED LIFT OF PLANTING SOIL TO 82% OF MAXIMUM SPD (ASTM D698).

18. FINISH GRADING: GRADE PLANTING SOIL TO SMOOTH, UNIFORM SURFACE WITH LOOSE, UNIFORMLY FINE TEXTURE. ROLL AND RAKE, REMOVE RIDGES, AND FILL DEPRESSIONS TO MEET FINISH GRADES.

19. LAYERED SOIL ASSEMBLIES: SEE DETAILS IN DRAWINGS.

20. PROTECT AREAS OF IN-PLACE SOIL FROM ADDITIONAL COMPACTION, DISTURBANCE, AND CONTAMINATION. PROHIBIT THE FOLLOWING PRACTICES IN THESE AREAS (EXCEPT TO PERFORM PLANTING OPERATIONS):

- STORAGE OF CONSTRUCTION MATERIALS, DEBRIS, OR EXCAVATED MATERIAL
- PARKING VEHICLES OR EQUIPMENT
- VEHICLE OR FOOT TRAFFIC
- ERECTION OF SHEDS OR STRUCTURES
- IMPOUNDMENT OF WATER
- EXCAVATION OR DIGGING, UNLESS OTHERWISE INDICATED

21. IF SUBGRADE OR PLANTING SOIL IS OVER COMPACTED, DISTURBED, OR CONTAMINATED, REMOVE PLANTING SOIL AND CONTAMINATION; RESTORE SUBGRADE AS DIRECTED BY LANDSCAPE ARCHITECT;REPLACE WITH NEW PLANTING SOIL.

22. PROTECT AREAS ADJACENT TO PLANTING SOIL PREPARATION AND PLACEMENT AREAS FROM CONTAMINATION. KEEP ADJACENT PAVING AND CONSTRUCTION CLEAN AND IN ORDERLY CONDITION.

23. REMOVE SURPLUS SOIL AND WASTE MATERIAL, INCLUDING EXCESS SUBSOIL, UNSUITABLE MATERIALS, TRASH, AND DEBRIS, AND DISPOSE OF LEGALLY OFF-SITE.

PLANTS

1. COORDINATION: PLANT TREES, SHRUBS, AND OTHER PLANTS AFTER FINISHED GRADES ARE ESTABLISHED BUT BEFORE PLANTING TURF AREAS,UNLESS OTHERWISE INDICATED OR APPROVED BY LANDSCAPE ARCHITECT.

2. SUBMIT DIGITAL PHOTOGRAPHS (MIN. 10 MP OR 3648 x 2736 PIXELS; ±) 2.2 MB HIGH-QUALITY JPG) OF EACH REQUIRED SPECIES AND SIZE OF PLANT MATERIAL AS IT WILL BE FURNISHED. PHOTOGRAPHS SHALL DEPICT TRUE SIZE AND CONDITION OF TYPICAL PLANTS, AND INCLUDE A SCALE ROD,TAPE MEASURE, OR OTHER VISIBLE, READABLE OBJECT TO INDICATE SIZE.FOR SPECIES WHERE MORE THAN 20 INDIVIDUAL PLANTS ARE REQUIRED,SUBMIT A MINIMUM OF 3 PHOTOS SHOWING AN AVERAGE PLANT, THE BEST-QUALITY PLANT, AND THE POOREST-QUALITY PLANT TO BE FURNISHED. IDENTIFY PHOTOS WITH THE FULL SCIENTIFIC NAME OF THE PLANT, PLANT SIZE, AND NAME OF GROWING NURSERY.

3. SUBMIT SAMPLES OF THE FOLLOWING MATERIALS FOR VERIFICATION:

-ORGANIC MULCH: 1 QUART VOLUME OF EACH TYPE REQUIRED.

-ROOT BARRIER: WIDTH OF PANEL x 12 INCHES

-EDGING MATERIALS AND ACCESSORIES: ONE OF EACH IN MANUFACTURER'S STANDARD SIZES, TO VERIFY COLOR SELECTION

4. SUBMIT RECOMMENDED PROCEDURES TO BE ESTABLISHED BY OWNER FOR MAINTENANCE OF PLANTS DURING A CALENDAR YEAR BEFORE EXPIRATION OF CONTRACT MAINTENANCE PERIOD ENDS.

5. PROVIDE QUALITY, SIZE, GENUS, SPECIES, AND VARIETY OF PLANTS INDICATED, COMPLYING WITH THE APPLICABLE REQUIREMENTS OF ANSI Z60.1

6. DELIVER PACKAGED MATERIALS TO SITE IN ORIGINAL, UNOPENED, UNDAMAGED CONTAINERS SHOWING WEIGHT, CERTIFIED ANALYSIS, NAME AND ADDRESS OF MANUFACTURER, AND LABELING INDICATING COMPLIANCE WITH FEDERAL LAWS IF APPLICABLE.

7. DO NOT DUMP OR STORE BULK MATERIALS NEAR STRUCTURES, ON WALKWAYS OR PAVEMENTS, OR ON EXISTING TURF OR PLANTED AREAS.PROVIDE EROSION CONTROL MEASURES AS NECESSARY TO PREVENT DISPLACEMENT OF BULK MATERIALS OR DISCHARGE INTO WATER RUNOFF OR AIRBORNE DUST. ACCOMPANY BULK MATERIAL DELIVERY WITH APPROPRIATE CERTIFICATES.

8. DO NOT PRUNE TREES AND SHRUBS BEFORE DELIVERY. PROTECT BARK, BRANCHES, AND ROOT SYSTEMS FROM SUN SCALD, DRYING, WIND BURN,WHIPPING, AND OTHER DAMAGE FROM HANDLING AND TYING. DO NOT BEND OR BIND TREES OR SHRUBS IN A MANNER THAT WILL DESTROY THEIR NATURAL SHAPE. PROVIDE PROTECTIVE COVERING OF PLANTS DURING TRANSPORT. DO NOT DROP PLANTS DURING HANDLING OR DELIVERY.HANDLE PLANTING STOCK BY ROOT BALL.

9. DELIVER PLANTS AFTER PREPARATIONS FOR PLANTING HAVE BEEN COMPLETED, AND INSTALL IMMEDIATELY. IF PLANTING IS DELAYED MORE THAN 6 HOURS AFTER DELIVERY, SET PLANTS AND TREES IN APPROPRIATE LOCATION (FULL SUN, FILTERED SUN, OR SHADE), PROTECT FROM WEATHER AND MECHANICAL DAMAGE, AND KEEP ROOTS COVERED WITH MULCH AND MOIST.

10. FIELD CONDITIONS: VERIFY ACTUAL GRADE ELEVATIONS, SERVICE AND UTILITY LOCATIONS, IRRIGATION SYSTEM COMPONENTS, DIMENSIONS OF PLANTING AREAS, AND ADJACENT CONSTRUCTION WITH FIELD MEASUREMENTS BEFORE PROCEEDING WITH WORK.

11. WEATHER: PROCEED WITH PLANTING ONLY WHEN EXISTING AND FORECASTED WEATHER CONDITIONS PERMIT PLANTING TO BE PERFORMED SO THAT BENEFICIAL AND OPTIMAL RESULT CAN BE OBTAINED. APPLY PRODUCTS DURING FAVORABLE WEATHER CONDITIONS ACCORDING TO MANUFACTURER'S WRITTEN INSTRUCTIONS AND WARRANTY REQUIREMENTS.

12. SPECIAL WARRANTY: INSTALLER AGREES TO REPAIR OR REPLACE PLANTINGS AND ACCESSORIES THAT FAIL IN MATERIAL, WORKMANSHIP, OR GROWTH WITHIN A SPECIFIED WARRANTY PERIOD. FAILURES INCLUDE:

-- DEATH OR UNSATISFACTORY GROWTH (EXCEPT AS RESULTING FROM ABUSE, LACK OF MAINTENANCE, OR NEGLECT BY OWNER)

-- STRUCTURAL FAILURES, INCLUDING PLANTS FALLING OR BLOWING OVER

-- FAULTY PERFORMANCE OF TREE STABILIZATION, EDGINGS, TREE GRATES,ETC.

-- DETERIORATION OF METALS, FINISHES, ETC. BEYOND NORMAL WEATHERING.

13. WARRANTY PERIOD: FROM DATE OF SUBSTANTIAL COMPLETION.

-- TREES, SHRUBS, ORNAMENTAL GRASSES, VINES: 12 MONTHS

-- GROUNDCOVERS, PERENNIALS, BIENNIALS, OTHER PLANTS: 12 MONTHS

-- ANNUALS: TWO (2) MONTHS

14. REMEDIES:

-- REMOVE AND REPLACE DEAD PLANTS IMMEDIATELY, UNLESS IT IS REQUIRED TO PLANT IN THE SUCCEEDING PLANTING SEASON.

-- REPLACE PLANTS THAT ARE MORE THAN 25% DEAD OR IN UNHEALTHY CONDITION AT THE END OF WARRANTY PERIOD.

-- A LIMIT OF ONE REPLACEMENT OF EACH PLANT SHALL BE REQUIRED EXCEPT FOR LOSSES OR REPLACEMENTS DUE TO FAILURE TO COMPLY WITH REQUIREMENTS.

-- PROVIDE EXTENDED WARRANTY FOR PERIOD EQUAL TO ORIGINAL WARRANTY PERIOD FOR REPLACED PLANT MATERIAL.

15. PLANT MATERIAL: FURNISH NURSERY-GROWN PLANTS TRUE TO GENUS, SPECIES, VARIETY, CULTIVAR, STEM FORM, AND OTHER FEATURES AS INDICATED ON THE PLANTING SCHEDULE, AND COMPLYING WITH ANSI Z60.1. PLANTS SHALL HAVE HEALTHY ROOT SYSTEMS DEVELOPED BY TRANSPLANTING OR ROOT PRUNING. PROVIDE WELL-SHAPED, FULLY BRANCHED, HEALTHY, VIGOROUS STOCK, DENSELY FOLIATED AND FREE OF DISEASE, PESTS, EGGS, LARVAE, AND DEFECTS SUCH AS KNOTS, SUN SCALD, INJURIES, ABRASIONS, AND DISFIGUREMENT.

16. UNACCEPTABLE MATERIAL: TREES WITH DAMAGED, CROOKED, OR MULTIPLE LEADERS; INCLUDED BARK; CROSSING TRUNKS; CUT-OFF LIMBS MORE THAN 3/4" IN DIAMETER; OR WITH STEM GIRDLING ROOTS ARE UNACCEPTABLE.

17. DO NOT USE PLANTS HARVESTED FROM THE WILD, FROM NATIVE STANDS,FROM AN ESTABLISHED LANDSCAPE PLANTING, OR NOT GROWN IN A NURSERY, UNLESS OTHERWISE SPECIFICALLY INDICATED.

18. PROVIDE PLANTS OF SIZES, GRADES, AND BALL OR CONTAINER SIZES COMPLYING WITH ANSI Z60.1 TREES AND SHRUBS SHALL BE MEASURED FROM TOP OF ROOT BALL, WHICH BEGINS AT ROOT FLARE. ROOT FLARE SHALL BE VISIBLE BEFORE PLANTING.

19. LABEL AT LEAST ONE PLANT OF EACH VARIETY AND SIZE WITH A SECURELY ATTACHED, WATERPROOF TAG BEARING LEGIBLE DESIGNATION OF COMMON AND BOTANICAL NAMES, INCLUDING VARIETY, CULTIVAR, ETC. AS APPLICABLE.

20. ANNUALS AND BIENNIALS: PROVIDE HEALTHY, DISEASE-FREE PLANTS OF SPECIES AND VARIETY SHOWN OR LISTED, WITH WELL ESTABLISHED ROOT SYSTEMS REACHING THE SIDES OF THE CONTAINER TO MAINTAIN A FIRM ROOT BALL, BUT NOT WITH EXCESSIVE GROWTH CIRCLING THE CONTAINER. PROVIDE ONLY PLANTS ACCLIMATED TO OUTDOOR CONDITIONS BEFORE DELIVERY.

21. FERTILIZERS: TIGHTLY COMPRESSED, CHIP-TYPE, LONG-LASTING, SLOW-RELEASE, COMMERCIAL GRADE PLANTING FERTILIZER IN TABLET NPK: 20-10-5 BY WEIGHT, PLUS MICRONUTRIENTS, OR AS RECOMMENDED BY SOIL TEST REPORT.

22. ORGANIC MULCH: FREE FROM DELETERIOUS MATERIALS. TYPE, COLOR,AND SIZE RANGE (IF APPLICABLE) AS DESCRIBED IN THE PLANTING NOTES.

23. PESTICIDES: REGISTERED AND APPROVED BY EPA, ACCEPTABLE TO AHJ, AND OF TYPE RECOMMENDED BY MANUFACTURER FOR EACH SPECIFIC PROBLEM AS REQUIRED BY PROJECT CONDITIONS. DO NOT USE RESTRICTED PESTICIDES. APPLY ACCORDING TO MANUFACTURER'S WRITTEN RECOMMENDATIONS. DO NOT APPLY PRE-EMERGENT HERBICIDES TO SEEDED AREAS.

24. TREE-STABILIZATION MATERIALS: SEE PLANTING DETAILS. WOOD STAKES/STRUTS TO BE ROUGH-SAWN, SOUND, NEW HARDWOOD OR SOFTWOOD, FREE OF KNOTS, HOLES, OR OTHER DEFECTS; SIZE AS INDICATED.

25. METAL EDGING: STANDARD PROFILE COMMERCIAL EDGING (STEEL OR ALUMINUM EXTRUDED) WITH LOOPS STAMPED FROM FACE TO RECEIVE SIZE AND FINISH AS INDICATED IN DRAWINGS. STAKES: TAPERED STEEL, A MINIMUM OF 15 INCHES LONG.ACCESSORIES: PROVIDE STANDARD TAPERED ENDS, CORNERS, AND END SPLICES.INSTALL ACCORDING TO MANUFACTURER'S WRITTEN INSTRUCTIONS. DRIVE STAKES BELOW TOP ELEVATION OF EDGING.

26. TREE GRATES: ASTM A48, CLASS 35 OR BETTER, GREY-IRON CASTINGS. SIZE AND SHAPE AS INDICATED ON DRAWINGS. FRAMES: ASTM A36 STEEL ANGLE, HOT-DIP GALVANIZED, OF SHAPE, PATTERN, AND SIZE INDICATED. FINISH:AS NOTED ON DRAWINGS. INSTALL ACCORDING TO MANUFACTURER'S WRITTEN INSTRUCTIONS. SET FLUSH WITH ADJOINING SURFACES. LEVEL WITH SOIL RESISTANT PLASTIC SHIMS. REMOVE PORTIONS OF GRATE CASTING ACCORDING TO MANUFACTURER'S INSTRUCTIONS TO MAINTAIN A MINIMUM 3 INCH GROWTH RADIUS AROUND BASE OF TREE.

27. SLOW-RELEASE WATERING DEVICE: STANDARD PRODUCT MANUFACTURED FOR DRIP IRRIGATION OF PLANTS AND EMPTYING ITS WATER CONTENTS OVER TWO TO NINE HOURS, MANUFACTURED FROM UV-STABILIZED NYLON-REINFORCED POLYETHYLENE SHEET, PVC, OR HDPE PLASTIC.BASIS OF DESIGN: TREEGATOR ORIGINAL. COLOR: MANUFACTURER'S STANDARD GREEN. PROVIDE ONE DEVICE FOR EACH TREE. PLACE ON TOP OF MULCH AND FILL WITH WATER ACCORDING TO MANUFACTURER'S INSTRUCTIONS.

28. ROOT BARRIER: BLACK, MOLDED, MODULAR PANELS. DEPTH AS INDICATED ON DRAWINGS.85 MILS THICK WITH VERTICAL ROOT DEFLECTING RIBS PROTRUDING 3/4 INCH OUT FROM PANEL SURFACE;MANUFACTURED WITH A MINIMUM 50% RECYCLED POLYETHYLENE PLASTIC WITH UV INHIBITORS. INSTALL ROOT BARRIER WHERE TREES ARE PLANTED WITHIN 60 INCHES OF PAVING OR HARDSCAPE OVER WATER LINES, OR AS INDICATED ON DRAWINGS. POSITION TOP OF ROOT BARRIER ACCORDING TO MANUFACTURER'S INSTRUCTIONS. OVERLAP A MINIMUM OF 12 INCHES AT JOINTS;DO NOT INSTALL ROOT BARRIER AROUND ROOT BALL OF TREE.

29. ANTIDESSICANT: WATER-INSOLUBLE EMULSION, PERMEABLE MOISTURE READER, FILM FORMING, FOR TREES AND SHRUBS. DELIVER IN ORIGINAL, SEALED, AND FULLY LABELED CONTAINERS. MIX ACCORDING TO MANUFACTURER'S WRITTEN INSTRUCTIONS.

30. BURLAP:NON-SYNTHETIC, BIODEGRADABLE.

31. PLANTER DRAINAGE GRAVEL: WASHED, SOUND CRUSHED STONE COMPLYING WITH ASTM D448 FOR SIZE NO. 57.

32. PLANTER FILTER FABRIC: NONWOVEN GEOTEXTILE MANUFACTURED FOR SEPARATION APPLICATIONS MADE OF POLYPROPYLENE, POLYONEFIN, OR POLYESTER FIBERS, OR A COMBINATION OF THEM.

33. EXAMINE AREAS TO RECEIVE PLANTS, WITH INSTALLER PRESENT, FOR COMPLIANCE WITH THE REQUIREMENTS OF THE WORK. VERIFY THAT NO FOREIGN OR DELETERIOUS MATERIAL SUCH AS PAINT, PAINT WASHOUT, CONCRETE SLURRY, CONCRETE CHUNKS OR LAYERS CEMENT, PLASTER, OIL, FUEL,PAINT THINNER, TAR, ROOFING COMPOUND, OR ACID HAS BEEN DEPOSITED IN SOIL WITHIN A PLANTING AREA. REMOVE CONTAMINATION OR DELETERIOUS MATERIALS AND REPLACE WITH NEW PLANTING SOIL.

34. VERIFY ADEQUATE OVERHEAD CLEARANCE FOR PLANT DELIVERY VEHICLES.

35. SUSPEND PLANTING OPERATIONS DURING PERIODS OF EXCESSIVE SOIL MOISTURE UNTIL RETURNED TO ACCEPTABLE LEVELS. UNIFORMLY MOISTEN DRY SOIL WHICH IS UNWORKABLE OR DUSTY.

36. PROTECT STRUCTURES, UTILITIES, PAVING, AND OTHER FACILITIES; TURF AREAS AND EXISTING PLANTS FROM DAMAGE CAUSED BY PLANTING OPERATIONS.

37. LAYOUT INDIVIDUAL TREE AND SHRUB LOCATIONS AND AREAS FOR MASS PLANTINGS.STAKE LOCATIONS, OUTLINE AREAS, ADJUST LOCATIONS WHEN REQUESTED, AND OBTAIN LANDSCAPE ARCHITECT'S ACCEPTANCE OF LAYOUT BEFORE EXCAVATING OR PLANTING. MAKE MINOR ADJUSTMENTS AS REQUIRED.

38. PREPARE PLANTING AREA FOR SOIL PLACEMENT; MIX AND PLACE PLANTING SOIL ACCORDING TO SOIL PREPARATION. BEFORE PLANTING,OBTAIN LANDSCAPE ARCHITECT'S ACCEPTANCE OF FINISHED GRADING; RESTORE ANY AREA THAT ARE ERODED, SUBSIDED, OR OTHERWISE DISTURBED AFTER FINISH GRADING.

39. PLANTING PITS: EXCAVATE WITH SIDES SLOPING INWARD AT A 45° ANGLE, ROUGHLY 3 TIMES THE DIAMETER OF ROOT BALL/CONTAINER.EXCAVATIONS WITH VERTICAL SIDES ARE UNACCEPTABLE. TRIM PERIMETER OF BOTTOM LEAVING CENTER AREA SLIGHTLY RAISED TO SUPPORT ROOT BALL AND ASSIST IN DRAINAGE. ENSURE ROOT BALL WILL SIT ON UNDISTURBED BASE SOIL TO PREVENT SETTLING. DO NOT EXCAVATE DEEPER THAN DEPTH OF ROOT BALL (MEASURED FROM ROOT ADD SOIL TO RAISE TO CORRECT LEVEL AND THOROUGHLY TAMP TO PREVENT SETTLING. SCARIFY SIDES OF PLANTING PIT SMOOTHED BY EXCAVATION. DO NOT EXCAVATE SUBGRADES/SUBSTRATES OF ADJACENT PAVING, STRUCTURES, HARDSCAPES, OR OTHER IMPROVEMENTS. COVER OR PROTECT EXCAVATIONS LEFT UNATTENDED. SUBSOIL AND TOPSOIL REMOVED FROM EXCAVATIONS MAY BE USED FAS BACKFILL.

40. OBSTRUCTIONS: NOTIFY LANDSCAPE ARCHITECT IF UNEXPECTED ROCK OR OBSTRUCTIONS DETRIMENTAL TO TREES OR SHRUBS ARE ENCOUNTERED IN EXCAVATIONS.

41. DRAINAGE:NOTIFY LANDSCAPE ARCHITECT IF SUBSOIL CONDITIONS EVIDENCE UNEXPECTED WATER SEEPAGE OR RETENTION IN TREE OR SHRUB PITS.

42. REMOVE SOIL AS NEEDED TO EXPOSE ROOT FLARE IF NOT VISIBLE.

43. REMOVE STEM GIRDLING AND KINKED ROOTS. REMOVE INJURED ROOTS BY CUTTING CLEANLY (DO NOT BREAK).

44. SET EACH PLANT PLUMB AND IN CENTER OF PLANTING PIT OR TRENCH WITH ROOT FLARE 1 INCH ABOVE ADJACENT FINISH GRADES. BACKFILL WITH PLANTING SOIL (FOR TREES, USE EXCAVATED SOIL). BACKFILL AROUND ROOT BALL IN LAYERS, TAMPING TO SETTLE SOIL AND ELIMINATE AIR POCKETS. WHEN PLANTING PIT IS APPROXIMATELY HALF FILLED,PLACE PLANTING TABLETS EQUALLY DISTRIBUTED AROUND EACH PLANTING PIT ABOUT 1 INCH FROM ROOT BALL AND WATER THOROUGHLY BEFORE PLACING REMAINING BACKFILL.REPEAT WATERING UNTIL NO MORE WATER IS ABSORBED. CONTINUE BACKFILLING AND WATER AGAIN AFTER PLACING AND TAMPING FINAL SOIL LAYER.

45. PRUNING: REMOVE ONLY DEAD, DYING, OR BROKEN BRANCHES. DO NOT PRUNE FOR SHAPE UNLESS DIRECTED BY LANDSCAPE ARCHITECT TO RETAIN NATURAL CHARACTER. DO NOT APPLY PRUNING PAINT TO WOUNDS.

46. CONTAINER PLANTING SOIL PLACEMENT: PLACE A LAYER OF DRAINAGE GRAVEL AT LEAST4 INCHES THICK IN BOTTOM OF PLANTER; COVER WITH FILTER FABRIC AND WRAP FILTER FABRIC 6 INCHES UP ON ALL SIDES. DUCT TAPE ALONG ENTIRE TOP EDGE OF FILTER FABRIC. FILL PLANTER WITH PLANTING SOIL IN LIGHTLY COMPACTED LAYERS UP TO AN ELEVATION OF 11/2" BELOW TOP OF PLANTER.

47. GROUNDCOVERS AND SMALL PLANTS: SET OUT AND SPACE AS INDICATED ON DRAWINGS IN EVEN ROWS WITH TRIANGULAR SPACING. USE PLANTING SOIL FOR BACKFILL. DIG HOLES LARGE ENOUGH TO ALLOW SPREADING OF ROOTS. WORK SOIL AROUND ROOTS TO ELIMINATE AIR POCKETS AND LEAVE A SLIGHT SAUCER INDENTATION AROUND PLANTS TO HOLD WATER.WATER THOROUGHLY AFTER PLANTING. PROTECT PLANTS FROM HOT SUN AND WIND.

48. APPLY MULCH OF TYPE REQUIRED FOR EACH PLANTING AREA, TO EXTENTS AND DEPTH INDICATED ON DRAWINGS.

49. MAINTAIN PLANTINGS BY PRUNING, CULTIVATING, WATERING, WEEDING, FERTILIZING, MULCHING, RESTORING PLANT SAUCERS, ADJUSTING AND REPAIRING STABILIZATION DEVICES, RESETTING PLANTS TO PROPER GRADE AND PLUMB POSITION, AND PERFORMING OTHER OPERATIONS TO ESTABLISH HEALTHY, VIABLE PLANTINGS. FILL ANY SOIL SUBSIDENCE THAT MAY OCCUR BECAUSE OF SETTLING OR OTHER PROCESSES. REPLACE MULCH DAMAGED OR LOST. APPLY TREATMENTS TO KEEP PLANT MATERIALS, PLANTING AREAS, AND SOILS FREE OF PESTS, PATHOGENS, OR DISEASE. USE INTEGRATED PEST MANAGEMENT PRACTICES WHERE POSSIBLE.

50. REPAIR OR REPLACE EXISTING OR NEW TREES OR PLANTS DAMAGED BY CONSTRUCTION OPERATIONS, IN A MANNER APPROVED BY LANDSCAPE ARCHITECT. REMOVE TREES THAT ARE MORE THAN 25% DEAD,IN UNHEALTHY CONDITION, OR DETERMINED BY LANDSCAPE ARCHITECT TO BE INCAPABLE OF RESTORING TO NORMAL GROWTH PATTERN BEFORE THE END OF THE CORRECTIONS PERIOD. PROVIDE NEW TREES OF SAME SIZE AND SPECIES AS THOSE BEING REPLACED FOR NEW TREES. PROVIDE TWO 4-INCH CALIPER TREES FOR EACH TREE LARGER THAN 8 INCH DBH DAMAGED OR DESTROYED BY CONSTRUCTION ACTIVITIES AND NOT OTHERWISE SCHEDULED TO BE REMOVED; SPECIES TO BE SELECTED BY LANDSCAPE ARCHITECT.

51. KEEP ADJACENT PAVING AND CONSTRUCTION CLEAN AND MAINTAIN WORK AREA IN AN ORDERLY CONDITION. CLEAN VEHICLE WHEELS BEFORE LEAVING SITE TO AVOID TRACKING SOIL ONTO ROADS AND PAVED AREAS.

52. REMOVE SURPLUS SOIL AND WASTE MATERIAL, INCLUDING EXCESS AND UNSUITABLE SUBSOILS, TRASH, AND DEBRIS, AND LEGALLY DISPOSE OF THEM OFF SITE.

53. PROTECT PLANTS FROM DAMAGE BY OTHER TRADES. MAINTAIN PROTECTION DURING INSTALLATION ANDMAINTENANCE PERIODS.

54. REMOVE STAKES, TIE TAPE, WIRE, BURLAP, AND OTHER DEBRIS FROM PLANT MATERIAL AND PROJECT SITE BEFORE SUBSTANTIAL COMPLETION.REMOVE NURSERY TAGS AFTER LANDSCAPE ARCHITECT'S INSPECTION FOR PUNCH LIST.

55. VERIFY THAT TREE-WATERING DEVICES ARE IN WORK

LIGHTING, LUMINAIRE & PHOTOMETRIC NOTES:

PRODUCT & SCHEDULE NOTES

1 These Site Lighting Photometric Plans **DO NOT** convey any electrical connectivity information. All Electrical design and connection are to be provided by a professional electrical engineer or equally qualified specialist.

2 SEE Luminaire & Pole Cut Sheets for full product descriptions.

3 See Calculations and Schedules for photometric data and code related requirements.

LUMINAIRE NOTES

1 The included standards and photometric calculations are based on the AGI.32 Photometric Lighting Program designed to calculate the foot candle readings of lighting fixtures based on the imported data files provided by their manufacturers as illustrated in this plan set.

2 **Foot Candle Levels:** all foot candle levels illustrated are initial values based on manufacturer data calculated using no "Light Loss Factor" (LLF)

3 **Statistics:** the statistics noted herein were calculated within the project property parameters required by code, including offsite calculations required to assure that the maximum allowable spillage of light is maintained or less.

4 **Light Trespass:** Light levels must not exceed 0.5 foot candles on all property lines. For adjacent residential applications, this factor may not exceed 0.0 foot candles offset 10 feet from the property line. At a fifty foot (50') offset from all property lines, the photometric foot candles readings must be 0.0 in all other instances.

5 **Pole Height:** The pole heights are noted on the plans and/or by the Light Pole Cut Sheet.

6 **Shop Drawings:** the CONTRACTOR must submit shop drawings of all the specified lighting components and poles herein specified prior to the execution of work.

LIGHTING PERFORMANCE NOTES

1 If Lighting substitutions are made subsequent to the approval of these permit documents, the CONTRACTOR must submit shop drawings of the replacement fixture and/or pole and heights. These shop drawings must be complete with manufactures full breakdown of lighting components. Upon approval of the shop drawings, BOWMAN will be required to recalculate the photometrics and submit for modification to the Development Order. The CONTRACTOR assumes full risk of implementing any products that are herein specified prior to an approval from the jurisdictional agency when revisions are made.

2 All fixtures must be full cut-off style lighting systems.

3 For the Village of Estero; all lighting fixtures may not exceed 3,000 Kelvin in lighting temperatures.

v2024a

1 The CONTRACTOR is hereby notified that a Photometric Inspection of the executed lighting layout per plan is required as a prerequisite to receipt of a Certificate of Compliance. The CONTRACTOR will give the BOWMAN not less than 72-hours notice that the system is fully energized and ready for inspection. The system my have lights on during evening period in which to conduct the appropriate photometric inspections required by code.

2 The photometrics of this installation must be consistent with these approved permit drawings in effort to be certified as compliant therewith. Any deviations to these drawings without the appropriate notifications from the OWNER/APPLICANT of acceptance will be at the CONTRACTOR'S risk. Shop drawings of all fixtures and poles must be submitted prior to the request for certification as previously required and noted herein.

3 The CONTRACTOR is responsible for making all arrangements to have the lighting system inspected for compliance. The LANDSCAPE ARCHITECT/ENGINEER of Record shall be responsible for conducting said photometric inspections and shall coordinate the same with the local jurisdictional agency.

4 These drawings represent the layout and products to be utilized for the exterior lighting applications for this project. All electrical applications shall be executed by an Electrical Engineer or Licensed Contractor and must meet all requirements of local jurisdictional codes and safety standards.

5 These drawings as prepared by BOWMAN are solely for the purposes of lighting fixture and pole selections. locations, and exterior photometric affects. These drawings are not intended to be construed as electrical drawings or to define the necessary electrical systems required to support the lighting elements herein depicted.

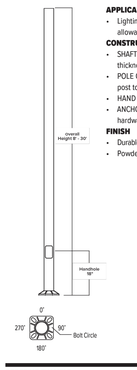
CATALOG #: RSA-B-SHO-S-25-50-C

RSA-B-SHO-S Series Poles
ROUND STRAIGHT ALUMINUM



APPLICATIONS
- Lighting installations for side and top mounting of luminaires with effective projected area (EPA) not exceeding maximum allowable loading of the specified pole in its installed geographic location

CONSTRUCTION
- SHAFT: One-piece straight aluminum with round cross section; Extruded shafts of 6061-T6 aluminum in 1/8", 3/16", or 1/4" thickness. Base plate of 356 cast aluminum.
- POLE CAP OR FINALS: Cap or decorative finials available for side mounted luminaires. Open top or tenons provided for post top mounted luminaires.
- HAND HOLE: Aluminum hand hole frame; Mounting provisions for grounding lug located behind cover
- ANCHOR BOLTS: Four galvanized anchor bolts provided per pole with minimum yield of 55,000 psi (ASTM F1554). Galvanized hardware with two washers and two nuts per bolt for leveling

FINISH
- Durable thermoset polyester powder coat paint finish with nominal 3.0 mil thickness
- Powder paint finish coat available in multiple colors; Custom colors available; RAL number preferable.

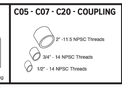
NOTE Factory supplied template must be used when setting anchor bolts. Current will deny any claim for incorrect anchorage placement resulting from failure to use factory supplied template and anchor bolts.

EHH - EXTRA HANDHOLE

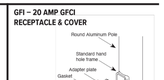
C05 - C07 - C20 - COUPLING



VM2 - VIBRATION DAMPER 2ND MODE

Factory installed, internal damper designed to alter pole resonance to reduce movement and material fatigue caused by 2nd mode vibration.

GFI – 20 AMP GFCI RECEPTACLE & COVER



OPTION ORIENTATION
Follow the logic below when ordering location specific options. For each option, include its orientation (in degrees) and its height (in feet). Example: Option C07 should be ordered as: **RSA-B-SHO-S16-40B-TN3-DBT-C05-0-15** | 5" coupling on the handhole/arm side of pole, 15 feet up from the pole base| 0° spacing required between option. Consult factory for other configurations.

VM2SXX - VIBRATION DAMPER 2ND MODE
Field installed, internal damper designed to alter pole resonance to reduce movement and material fatigue caused by 2nd mode vibration.

VM2508 – 8'
VM2512 – 12'
VM2516 – 16'
VM2520 – 20'
VM2524 – 24'

For more information about pole vibration and vibration dampers, please consult our website.

LIGHTING SPECIFICATIONS & GUIDELINES:

GENERAL NOTES & REQUIREMENTS:

1 The Electrical CONTRACTOR must comply with the Standard Building Codes (including the National Electric Code (NEC)) and all local codes as may be applicable. Submittal of Shop Drawings for all components herein specified is required prior to ordering. Any shipment or installation conducted without approved shop drawings will be at the CONTRACTOR'S risk.

2 The work herein depicted will include all labor, materials, permits, and costs for the installation of a complete lighting system. These drawings are for product and material specification for photometric lighting calculations as required by code. The products and materials herein specified must be followed or the photometric calculations required by code and the approved permit documents will become void. The CONTRACTOR assumes full responsibility for meeting these requirements and providing all associated electrical components and requirements to energize the system as intended.

3 All equipment, fixtures, outlets, etc. must be started, tested, adjusted, and placed in satisfactory operating condition by the CONTRACTOR who shall guarantee all workmanship, materials, and equipment to be free of defects for a period of not less than one-year from the time of final certification of occupancy or compliance. The CONTRACTOR will provide such repairs, replacements, and/or adjustments without cost to the Owner. All equipment shall be covered for the duration of the manufacturer's guarantee or warranty periods. The CONTRACTOR shall provide the Owner with all manufacturer's guarantees and warranties prior to final payment.

4 All Wire size must meet the minimum guidelines set by the NEC and the manufacturers, whichever is more stringent.

5 No "Wafer" or "Piggyback" breakers will be permitted and are strictly prohibited.

6 No circuit runs or devises are shown or implied by these drawings. The CONTRACTOR must employ all necessary components to properly energize the lighting layout herein depicted under the required guidelines, standards, and specifications given.

7 No piping or ductwork of any kind will be installed above an electrical switchboard or panelboard. A clearance of thirty-six inches (36") minimum must be maintained in front of any electrical equipment for the entire length of that equipment, plus an additional twelve-inches (12") per side. This from floor to slab above.

8 Any conduits provided without wire must include pull strings, secure, and labeled at each end.

9 All exterior lighting (fixtures, poles, and associated elements) must be certified to withstand wind loads defined by Local Code or State Statute.

10 Any existing or recently installed vegetation, walkways, paved areas, building related elements, or exterior hardscape items damaged by the execution of these documents will be the sole responsibility of the CONTRACTOR to remedy to the satisfaction of the OWNER.

NOTICE TO CONTRACTOR:

1 Any revisions to these drawings and the specified products herein illustrated will require revisions to the approved Development Order and the resubmittal and review of those revisions by the applicable Jurisdictional Agency.

2 Any cutting and patching of asphalt or concrete to execute the electrical system in support of the lighting layout herein depicted must be included in the CONTRACTOR'S bid.

3 PVC conduit may be used underground by adding an equipment grounding conductor, sized per NEC. All exposed conduit shall be rigid (including outside stub-outs) non corrosive metal fittings. EMT conduit shall be used in other locations inside of buildings or as specified by the Electrical Engineer. ALL wiring must be within conduits.

4 e

5 The CONTRACTOR must make particular attention to pole heights, specified fixtures, and fixture heights, along with the pole locations and execute accordingly. These Photometric Drawings have been approved base on this a specific information and must be certified as compliant. Any changes to these elements will require additional permitting submittals and an extension of time in order to review and receive these approvals. If the CONTRACTOR has made any of these changes without the specific approval of the Owner/Applicant, the CONTRACTOR will become fully responsible for the added professional and permitting expenses and any damages incurred due to the loss of time.

v.2024a

ELECTRICAL CONNECTIONS

NOTICE TO OWNER/CONTRACTOR:

1 These drawings are strictly limited to the purpose of Exterior Lighting Fixture Selections, Pole Type and locations, and corresponding Photometric Calculations as required by local code. These

CONSTRUCTION
- One-cast housing with hidden vertical heat fins are optimal for heat dissipation while keeping a clean smooth outer surface
- Corrosion resistant, die-cast aluminum housing with 1000 hour powder coat paint finish
- External hardware is corrosion resistant

OPTICS
- Micro Strike Optics (160, 320, 480, or 720 LED counts) maximize uniformity in applications and come standard with mid-power LEDs which evenly illuminate the entire luminous surface area to provide a low glare appearance. Catalog logic found on page 2
- Strike Optics (96, 72, 108, or 162 LED counts) provide best in class distributions and maximum efficiency. Strike optics are designed for high powered LEDs. Strike optics are held in place with a polycarbonate bezel to mimic the appearance of the Micro Strike Optics so both solutions can be combined on the same application. Catalog logic found on page 3
- Both optics maximize target zone illumination while minimizing wasted light and reducing trespassing light trespass issues. Additional backlight control shields and house side shields can be added for further reduction of illumination behind the pole
- One-piece silicone gasket ensures a weatherproof seal
- Zero up-light at 0 degrees of tilt
- Field rotatable optics

INSTALLATION
- Mounting patterns for each arm can be found on page 5
- Optional universal mounting block for ease of installation during retrofit applications. Available as an option (ASQU) or accessory for square and round poles
- All mounting hardware included
- Knuckle arm fitter option available for 2-3/8" OD tenon
- For products with EPA less than 1 mounted to a pole greater that 20ft, a vibration damper is recommended

ELECTRICAL
- Universal 120-277 VAC or 347-480 VAC input voltage, 50/60 Hz
- Ambient operating temperature -40°C to 40°C
- Drivers have greater than 90% power factor and less than 20% THD
- LED drivers have output power over-voltage, over-current protection and short circuit protection with auto recovery
- Field replaceable surge protection device provides 20kA protection meeting ANSI/ IEEE C62.41.2 Category C High and Surge Location Category C3; Automatically takes fixture off-line for protection when device is compromised
- Dual Driver option provides 2 drivers within luminaire. In the event of a driver failure, the luminaire, where Dual Power Feed provides two drivers which can be wired independently as two sets of leads are extended from the luminaire. Both options cannot be combined

CONTROLS
- Photo control, occupancy sensor programmable controls, and Zigbee wireless controls available for complete on/off and dimming control
- Please consult brand or sales representative when combining control and electrical options as some combinations may not operate as anticipated depending on your application
- 7-pin ANSI C136.41-2013 photocontrol receptacle option available for twist lock photocontrols or wireless control modules (control accessories sold separately)
- 0-10V Dimming Drivers are standard.
- NX Lighting Controls™ available with in fixture wireless control module, features dimming and occupancy sensor
- LightGRID+ available with in fixture wireless control modules, features dimming and occupancy sensor. Also available in 7-pin configuration

CERTIFICATIONS
- DLC® DesignLights Consortium Qualified, with some Premium Qualified configurations. Not all product variations listed in this document are DLC® qualified. Refer to http://www.designlights.org for the most up-to-date list.
- Listed to UL1598 and CSA C22.2#250.0-24 for wet locations and 40°C ambient temperatures
- 1.5 G rated for ANSI C136.31 high vibration applications
- Fixture is IP65 rated
- Meets DOA recommendations using 3K CCT configuration at 0 degrees of tilt
- This product needs federal procurement law requirements under the Buy American Act (FAR 52.225-1) and Trade Agreements Act (FAR 52.225-11). See Buy America(n) Solutions (link to https://www.currentlighting.com/resources/america-solutions)
- FCC CFR Title 47 Part 15, Class A

WARRANTY
- 5 year warranty

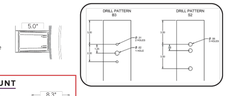
MOUNTING

A–STRAIGHT ARM MOUNT

Fixture ships with integral arm for ease of installation. Compatible with Current Outdoor B3 drill pattern for ease of installation on square poles. For round poles add applicable suffix (2/3/4/5)

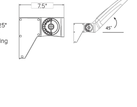


ASQU–UNIVERSAL ARM MOUNT

Universal mounting block for ease of installation. Compatible with drill patterns from 1.5" to 5.25" and Current drill pattern S2. For round poles add applicable suffix (2/3/4/5)

AAU–ADJUSTABLE ARM FOR POLE MOUNTING

Rotatable arm mounts directly to pole. Compatible with drill patterns from 1.5" to 5.25" and Current drill pattern S2 and B3. For round poles add applicable suffix (2/3/4/5). Rotatable in 5° aiming angle increments. Micro Strike configurations have a 45° aiming limitation. Strike configurations have a 30° aiming limitation.



ADU–DECORATIVE UPSWEPT ARM

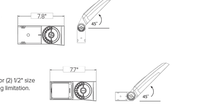
Upswept Arm compatible with drill patterns from 1.5" to 5.25" and Current drill pattern S2. For round poles add applicable suffix (2/3/4/5).

MAF–MAST ARM FITTER

Fits 2-3/8" OD horizontal tenons.

K–KNUCKLE

Rotatable in 5-degree aiming angle increments, fits 2-3/8" tenons or pipes. Micro Strike configurations have a 45° aiming limitation. Strike configurations have a 30° aiming limitation.



T–TRUNNION

Trunnion for surface and crossarm mounting using (1) 3/4" or (2) 1/2" size through bolts. Micro Strike configurations have a 45° aiming limitation. Strike configurations have a 30° aiming limitation.

WM–WALL MOUNT

Compatible with universal arm mount, adjustable arm mount, and decorative arm mount. The WA option uses the same wall bracket but replaces the decorative arm with an adjustable arm.

ORDINANCE NO. 2840

AN ORDINANCE OF THE CITY OF APOPKA, FLORIDA, CHANGING THE ZONING FROM TRANSITIONAL (T) TO PLANNED DEVELOPMENT (PD), FOR CERTAIN REAL PROPERTY LOCATED NORTH OF W. ORANGE BLOSSOM TRAIL AND WEST OF S.R. 429, COMPRISING 73.93 ACRES MORE OR LESS, AND OWNED BY COLLIER BENGE LAND JOINT VENTURE LLC; PROVIDING FOR DIRECTIONS TO THE COMMUNITY DEVELOPMENT DIRECTOR, SEVERABILITY, CONFLICTS, AND AN EFFECTIVE DATE.

WHEREAS, to manage growth, the City of Apopka, Florida, finds it in the best interest of the public health, safety and welfare of its citizens to establish zoning classifications within the City; and

WHEREAS, Andrew McCown, GAI Consultants, Inc. has requested a change in zoning on said property as identified in Section II of this ordinance, and legally described in Exhibit A attached hereto; and

WHEREAS, the proposed Planned Development (PD) zoning has been found to be consistent with the City of Apopka Comprehensive Plan, and the City of Apopka Land Development Code.

NOW THEREFORE, BE IT ORDAINED, by the City Council of the City of Apopka, Florida, as follows:

SECTION I: That the zoning classification of the following described property be designated as Planned Development (PD), as defined in the Apopka Land Development Code, and with the following development standards and provisions, and subject to the following zoning provisions:

A. Development of the property shall occur consistent with the Master Plan set forth in Exhibit B, attached hereto. Where any development standard conflicts between the Master Plan and the Land Development Code, the Master Plan shall preside. Any proposed revision to the Master Plan shall be evaluated and processed pursuant to the Land Development Code

B. A PD Agreement prepared in accordance with LDC Section 3.7.2.F.2 shall be approved by the City Council.

C. The uses permitted and prohibited within the PD District are those noted on the Master Plan.

D. If a Plat associated with the PD district has not been approved by the City within three years after approval of these Master Plan provisions, the approval of the Master Plan provisions will expire. At such time, the City Council may:

1. Permit a single six-month extension for submittal of the required Minor or Major Development Plan;

2. Allow the PD zoning designation to remain on the property pending resubmittal of new Master Plan provisions and any conditions of approval; or

3. Rezone the property to a more appropriate zoning classification.

SECTION II: That the zoning classification of the following described properties, attached hereto as Exhibit A and incorporated herein, being situated in the City of Apopka, Florida, is hereby amended from Transitional (T) to Planned Development (PD), as defined in the Apopka Land Development Code.

SECTION III: AUTHORITY OF COMMUNITY DEVELOPMENT DIRECTOR. That the Community Development Director, or the Director's designee, is hereby authorized to amend, alter, and implement the official zoning maps of the City of Apopka, Florida, to include said designation.

SECTION IV: SEVERABILITY. That if any section or portion of a section or subsection of this Ordinance proves to be invalid, unlawful, or unconstitutional, it shall not be held to invalidate or impair the validity, force or effect of any other section or portion of section or subsection or part of this ordinance.

SECTION V: That this Ordinance shall take effect upon the effective date of Ordinance No. 2840.

READ FIRST TIME: June 2, 2021

READ SECOND TIME AND ADOPTED: August 18, 2021

Bryan Nelson, Mayor

ATTEST:

Susan M. Bone, City Clerk

APPROVED AS TO FORM:

Michael A. Rodriguez, City Attorney

DULY ADVERTISED: April 30, 2021 and June 4, 2021

Exhibit "A" Legal Description

DESCRIPTION:

That part of MAP OF PLYMOUTH, according to the plat thereof, as recorded in Plat Book B, Pages 17 and 18, of the Public Records of Orange County, Florida, and that part of Section 36, Township 20 South, Range 27 East, Orange County, Florida, described as follows:

BEGIN at the Southeast corner of Tract G, according to the plat of STANTON RIDGE, as recorded in Plat Book 99, Pages 131 through 134, of the Public Records of Orange County, Florida; thence S89°28'53"W along the South line of said plat of STANTON RIDGE, for a distance of 947.63 feet to the Southwest corner of said plat of STANTON RIDGE and the West line of the Northeast 1/4 of the Southeast 1/4 of said Section 36; thence S02°34'31"E along said West line, 993.64 feet to the Northeast corner of the South 1/2 of the Southeast 1/4 of the Northwest 1/4 of the Southeast 1/4 of said Section 36; thence S89°29'29"W along the North line of said South 1/2 of the Southeast 1/4 of the Northwest 1/4 of the Southeast 1/4 of Section 36, for a distance of 665.02 feet to the Northwest corner of said South 1/2 of the Southeast 1/4 of the Northwest 1/4 of the Southeast 1/4 of Section 36; thence S02°44'36"E along the West line of said South 1/2 of the Southeast 1/4 of the Northwest 1/4 of the Southeast 1/4 of Section 36, for a distance of 298.07 feet to the North line of the South 1/2 acre of said South 1/2 of the Southeast 1/4 of the Northwest 1/4 of the Southeast 1/4 of Section 36; thence departing said West line run N89°30'13"E along said North line, 12.01 feet to the East line of the Western 12.00 feet of said South 1/2 acre of the South 1/2 of the Southeast 1/4 of the Northwest 1/4 of the Southeast 1/4 of Section 36; thence departing said North line run S02°44'36"E along said East line, 32.82 feet to the South line of said Southeast 1/4 of the Northwest 1/4 of the Southeast 1/4 of Section 36; thence departing said East line run S89°30'13"W along said South line, 12.01 feet to the Southwest corner of said Southeast 1/4 of the Northwest 1/4 of the Southeast 1/4 of Section 36; thence S02°44'36"E along the West line of the Northeast 1/4 of the Southwest 1/4 of the Southeast 1/4 of said Section 36, for a distance of 651.78 feet to the North line of lands described in Official Records Book 4175, Page 4995, of the Public Records of Orange County, Florida; thence departing said West line run N89°31'43"E along said North line and the North line of lands described in Official Records Book 4184, Page 3110, of the Public Records of Orange County, Florida, for a distance 662.15 feet to the West line of the Southeast 1/4 of the Southeast 1/4 of said Section 36; thence departing said North line run S02°34'31"E along said West line, 641.99 feet to the North line of lands described in Official Records Book 2987, Page 1787, of the Public Records of Orange County, Florida; thence departing said West line run N89°33'13"E along said North line and the North line of lands described in Official Records Book 9852, Page 5231, of the Public Records of Orange County, Florida, 92.05 feet; thence S76°32'30"E along said North line of lands described in Official Records Book 9852, Page 5231, for a distance of 41.61 feet to the North right-of-way line of Fudge Road, platted as Lake Street, according to the aforesaid plat of MAP OF PLYMOUTH; thence departing said North line run N89°33'13"E along said North right-of-way line, 592.78 feet to the Westerly limited access right-of-way line of State Road Number 429, as described in Official Records Book 9852, Page 6076, of the Public Records of Orange County, Florida; thence departing said North right-of way line run N79°37'51"E along said Westerly limited access right-of-way line, 200.23 feet; thence N56°40'34"E along said Westerly limited access right-of-way line, 78.30 feet to the Westerly limited access right-of-way line of State Road Number 429, as described in Official Records Book 9964, Page 3691, of the Public Records of Orange County, Florida; thence N02°19'28"W along said Westerly limited access right-of-way line, 545.26 feet to the Northwest corner of Lot 8, Block P, according to said plat of MAP OF PLYMOUTH, and the South line of lands described in Official Records Document Number 20190621267, of the Public Records of Orange County, Florida; thence departing said Westerly limited access right-of-way line, run S89°31'58"W along said South line, 862.00 feet to the Southwest corner of said lands described in Official Records Document Number 20190621267; thence N02°39'46"W along the West line of said lands described in Official Records Document Number 20190621267, for a distance 40.03 feet to the Northwest corner of said lands described in Official Records Document Number 20190621267; thence N89°31'58"E along the North line of said lands described in Official Records Document Number 20190621267, for a distance of 859.73 feet to the Southwest corner of Lot 1, Block P, according to said plat of MAP OF PLYMOUTH and the Westerly limited access right-of-way line of State Road Number 429, as described in Official Records Book 10808, Page 4332, of the Public Records of Orange County, Florida; thence departing said North line run N02°20'29"W along said Westerly limited access right-of-way line, 642.86 feet; thence N89°29'17"E along said Westerly limited access right-of-way line, 84.79 feet to the Westerly limited access right-of-way line of State Road Number 429, as described in Official Records Book 10764, Page 480, of the Public Records of Orange County, Florida and a non-tangent curve concave Westerly having a radius of 11294.16 feet and a chord bearing of N02°02'26"W; thence Northerly along said Westerly limited access right-of-way line and the arc of said curve through a central angle of 02°01'48" for a distance of 400.16 feet to the Westerly limited access right-of-way line of State Road Number 429, as described in Official Records Book 10705, Page 4582, of the Public Records of Orange County, Florida and as described in Official Records Book 10705, Page 6080, of the Public Records of Orange County, Florida and a non-tangent line; thence S89°29'17"W along said Westerly limited access right-of-way line, 125.14 feet to a non-tangent curve concave Westerly having a radius of 11169.16 feet and a chord bearing of N04°40'48"W; thence Northerly along said Westerly limited access right-of-way line and the arc of said curve through a central angle of 03°11'30" for a distance of 622.17 feet to a non-tangent line; thence N37°22'01"E along said Westerly limited access right-of-way line, 182.75 feet; thence N00°27'45"W along said Westerly limited access right-of-way line, 24.71 feet to the Southeast corner of the aforesaid plat of STANTON RIDGE; thence departing said Westerly limited access right-of-way line run the following courses and distances along the aforesaid South line of the plat of STANTON RIDGE: S89°31'59"W, 46.62 feet; N52°36'26"W, 79.53 feet; N00°31'22"W, 85.34 feet to the POINT OF BEGINNING. This description is based on Florida State Plane Coordinate System East Zone, scale factor of 0.99997293, NAD 83 Datum (2011 adjustment) and all distances are grid dimensions.

Containing 73.931 acres more or less when calculated in ground dimensions.

Being subject to any rights-of-way, restrictions, conditions and easements of record.

DESCRIPTION:

That part of MAP OF PLYMOUTH, according to the plat thereof, as recorded in Plat Book B, Pages 17 and 18, of the Public Records of Orange County, Florida, and that part of Section 36, Township 20 South, Range 27 East, Orange County, Florida, described as follows:

BEGIN at the Southeast corner of Tract G, according to the plat of STANTON RIDGE, as recorded in Plat Book 99, Pages 131 through 134, of the Public Records of Orange County, Florida; thence S89°28'53"W along the South line of said plat of STANTON RIDGE, for a distance of 947.63 feet to the Southwest corner of said plat of STANTON RIDGE and the West line of the Northeast 1/4 of the Southeast 1/4 of said Section 36; thence S02°34'31"E along said West line, 993.64 feet to the Northeast corner of the South 1/2 of the Southeast 1/4 of the Northwest 1/4 of the Southeast 1/4 of said Section 36; thence S89°29'29"W along the North line of said South 1/2 of the Southeast 1/4 of the Northwest 1/4 of the Southeast 1/4 of Section 36, for a distance of 665.02 feet to the Northwest corner of said South 1/2 of the Southeast 1/4 of the Northwest 1/4 of the Southeast 1/4 of Section 36; thence S02°44'36"E along the West line of said South 1/2 of the Southeast 1/4 of the Northwest 1/4 of the Southeast 1/4 of Section 36, for a distance of 298.07 feet to the North line of the South 1/2 acre of said South 1/2 of the Southeast 1/4 of the Northwest 1/4 of the Southeast 1/4 of Section 36; thence departing said West line run N89°30'13"E along said North line, 12.01 feet to the East line of the Western 12.00 feet of said South 1/2 acre of the South 1/2 of the Southeast 1/4 of the Northwest 1/4 of the Southeast 1/4 of Section 36; thence departing said North line run S02°44'36"E along said East line, 32.82 feet to the South line of said Southeast 1/4 of the Northwest 1/4 of the Southeast 1/4 of Section 36; thence departing said East line run S89°30'13"W along said South line, 12.01 feet to the Southwest corner of said Southeast 1/4 of the Northwest 1/4 of the Southeast 1/4 of Section 36; thence S02°44'36"E along the West line of the Northeast 1/4 of the Southwest 1/4 of the Southeast 1/4 of said Section 36, for a distance of 651.78 feet to the North line of lands described in Official Records Book 4175, Page 4995, of the Public Records of Orange County, Florida; thence departing said West line run N89°31'43"E along said North line and the North line of lands described in Official Records Book 4184, Page 3110, of the Public Records of Orange County, Florida, for a distance 662.15 feet to the West line of the Southeast 1/4 of the Southeast 1/4 of said Section 36; thence departing said North line run S02°34'31"E along said West line, 641.99 feet to the North line of lands described in Official Records Book 2987, Page 1787, of the Public Records of Orange County, Florida; thence departing said West line run N89°33'13"E along said North line and the North line of lands described in Official Records Book 9852, Page 5231, of the Public Records of Orange County, Florida, 92.05 feet; thence S76°32'30"E along said North line of lands described in Official Records Book 9852, Page 5231, for a distance of 41.61 feet to the North right-of-way line of Fudge Road, platted as Lake Street, according to the aforesaid plat of MAP OF PLYMOUTH; thence departing said North line run N89°33'13"E along said North right-of-way line, 592.78 feet to the Westerly limited access right-of-way line of State Road Number 429, as described in Official Records Book 9852, Page 6076, of the Public Records of Orange County, Florida; thence departing said North right-of-way line run N79°37'51"E along said Westerly limited access right-of-way line, 200.23 feet; thence N56°40'34"E along said Westerly limited access right-of-way line, 78.30 feet to the Westerly limited access right-of-way line of State Road Number 429, as described in Official Records Book 9984, Page 3691, of the Public Records of Orange County, Florida; thence N02°19'28"W along said Westerly limited access right-of-way line, 545.26 feet to the Northwest corner of Lot B, Block P, according to said plat of MAP OF PLYMOUTH, and the South line of lands described in Official Records Document Number 20190821267, of the Public Records of Orange County, Florida; thence departing said Westerly limited access right-of-way line, run S89°31'58"W along said South line, 862.00 feet to the Southwest corner of said lands described in Official Records Document Number 20190621267; thence N02°39'46"W along the West line of said lands described in Official Records Document Number 20190621267, for a distance 40.03 feet to the Northwest corner of said lands described in Official Records Document Number 20190821267; thence N89°31'58"E along the North line of said lands described in Official Records Document Number 20190621267, for a distance of 859.73 feet to the Southwest corner of Lot 1, Block P, according to said plat of MAP OF PLYMOUTH and the Westerly limited access right-of-way line of State Road Number 429, as described in Official Records Book 10808, Page 4332, of the Public Records of Orange County, Florida; thence departing said North line run N02°20'29"W along said Westerly limited access right-of-way line, 642.86 feet; thence N89°29'17"E along said Westerly limited access right-of-way line, 84.79 feet to the Westerly limited access right-of-way line of State Road Number 429, as described in Official Records Book 10764, Page 480, of the Public Records of Orange County, Florida and a non-tangent curve concave Westerly having a radius of 11294.16 feet and a chord bearing of N02°02'26"W; thence Northerly along said Westerly limited access right-of-way line and the arc of said curve through a central angle of 02°01'48" for a distance of 400.16 feet to the Westerly limited access right-of-way line of State Road Number 429, as described in Official Records Book 10705, Page 4582, of the Public Records of Orange County, Florida and as described in Official Records Book 10705, Page 8080, of the Public Records of Orange County, Florida and a non-tangent line; thence S89°29'17"W along said Westerly limited access right-of-way line, 125.14 feet to a non-tangent curve concave Westerly having a radius of 11169.16 feet and a chord bearing of N04°40'48"W; thence Northerly along said Westerly limited access right-of-way line and the arc of said curve through a central angle of 03°11'30" for a distance of 622.17 feet to a non-tangent line; thence N37°22'01"E along said Westerly limited access right-of-way line, 182.75 feet; thence N00°27'45"W along said Westerly limited access right-of-way line, 24.71 feet to the Southeast corner of the aforesaid plat of STANTON RIDGE; thence departing said Westerly limited access right-of-way line run the following courses and distances along the aforesaid South line of the plat of STANTON RIDGE: S89°31'59"W, 46.62 feet; N52°36'26"W, 79.53 feet; N00°31'22"W, 85.34 feet to the POINT OF BEGINNING. This description is based on Florida State Plane Coordinate System East Zone, scale factor of 0.99997293, NAD 83 Datum (2011 adjustment) and all distances are grid dimensions.

Containing 73.931 acres more or less when calculated in ground dimensions.

Being subject to any rights-of-way, restrictions, conditions and easements of record.

Phasing Plan

Phase	Item	Conditions
Phase 1a	Project Entrance Road and Connector Road Improvements	Abandonment of Fudge Road Segment
		Mass Grading and Master Stormwater System
	Roundabout	
	North-South Connector Road to Project Boundary	
	300 Multi-Family Units	Construction of Master Sewer Lift Station
		Construction of Clubhouse/Amenity Center
Phase 1b	Southfork Road from Plymouth Sorrento to Entrance Road	
Future Phase	Southfork Road from Entrance Road to western property line	
	Retail Town Center	
	200-300 Multi-Family Units	
	ALF/ILF	
	YMCA	
	Hotel	
	Flex Parcel	

Notes: 1. The City of Apopka Code of Ordinances (Sec. 3.7.2. F.3) defines the Phasing Plan as "the general sequence or phases in which the planned development is proposed to be developed including how residential and nonresidential development will be timed, how infrastructure (public and private), open space and other amenities will be provided and timed..."

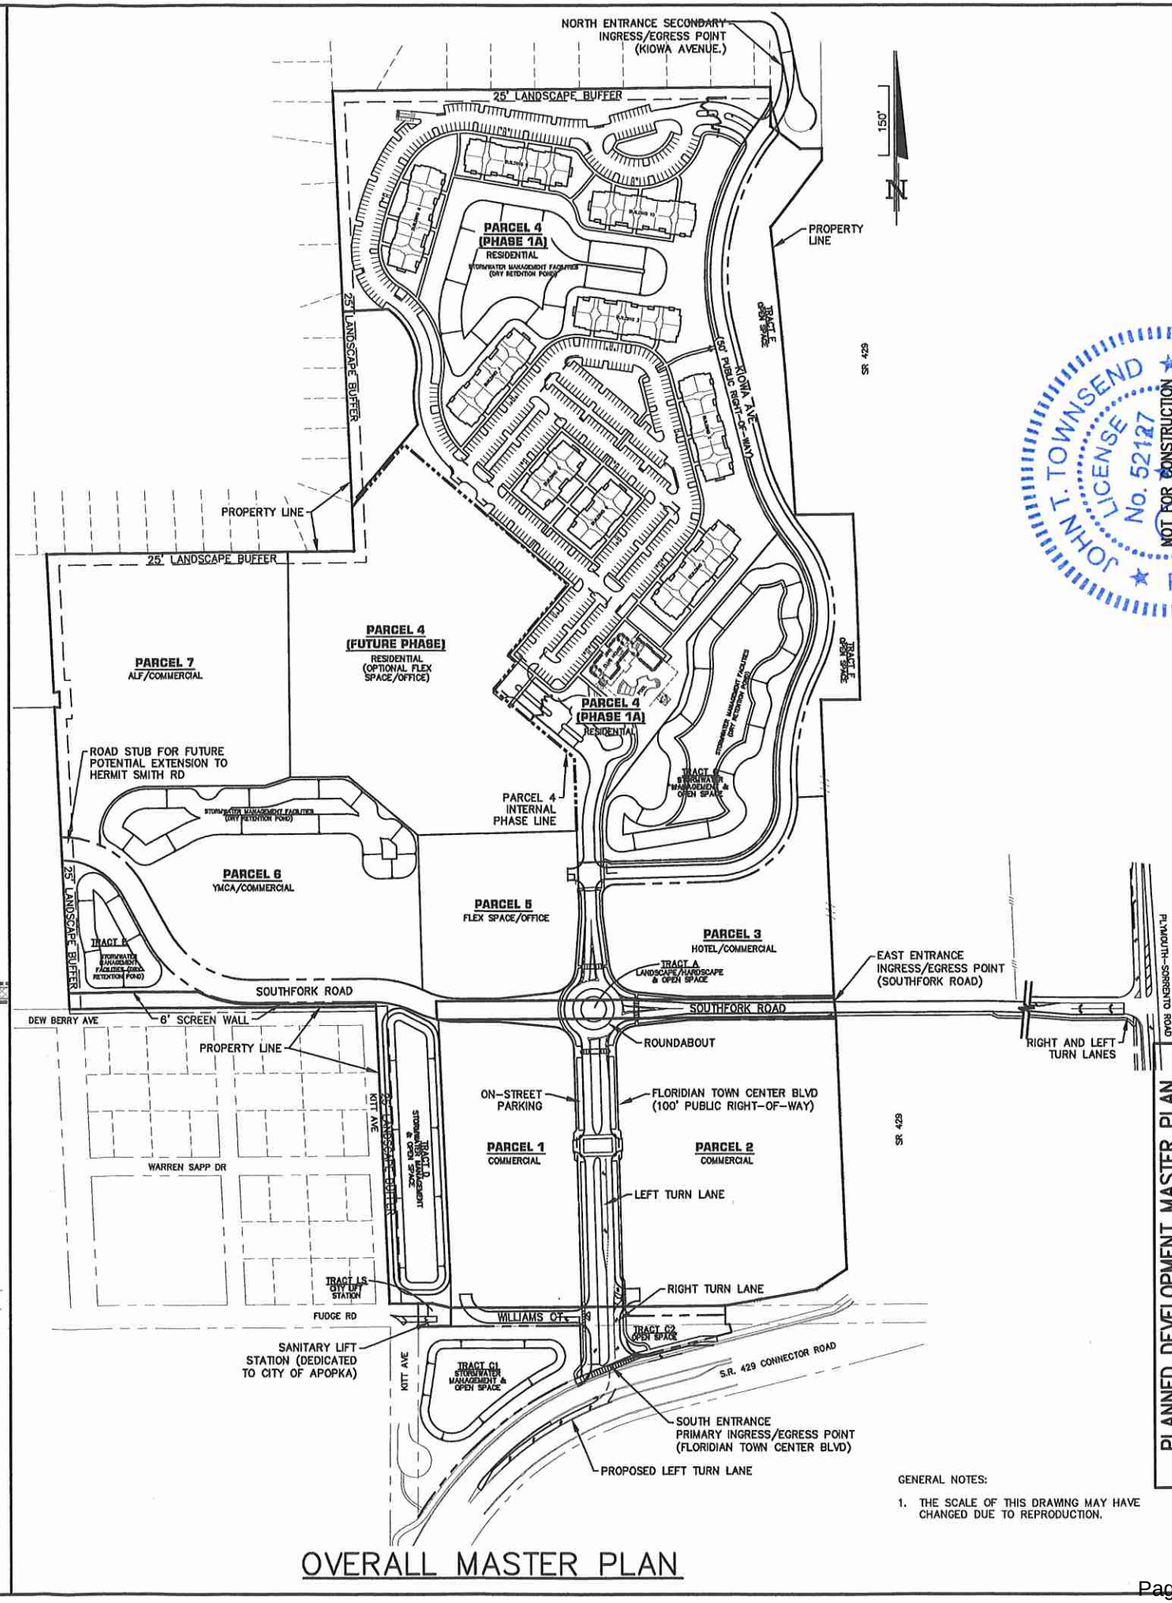
2. A performance bond may be required by the City for infrastructure or improvements pledged as amenities to the Floridian Town Center residents.

PHASE 1A DEVELOPMENT AREA

PHASE 1B DEVELOPMENT AREA

ALL OTHER AREAS ARE FUTURE DEVELOPMENT AREAS. MAJOR DEVELOPMENT PLANS WILL BE REQUIRED FOR FUTURE PARCEL DEVELOPMENT.

PHASING PLAN



GENERAL NOTES:

1. THE SCALE OF THIS DRAWING MAY HAVE CHANGED DUE TO REPRODUCTION.

PD Program Allocations

Development Parcel	Development Parcel Acreage	Use	Max Allocation of PD Program	Development Parcel Density/Intensity[1]
Commercial FLU				
1	4.01 acres	Commercial/Retail	57,834 sq ft	0.33 FAR
2	6.63 acres	Commercial/Retail	95,477 sq ft	0.33 FAR
3	3.12 acres	Hotel/Commercial	65,000 sq ft	0.48 FAR
6	5.62 acres	YMCA/Commercial	40,000 sq ft	0.16 FAR
Total Program Allocated in Commercial FLU			258,311 sq ft	0.25 FAR
HDR FLU				
4	30.39 acres	Multi-Family	500 du	16.5 du/acre
5	2.73 acres	Flex Space[2]	72 du 37,600 sq ft	26.4 du/acre 0.32 FAR
7	6.18 acres	ALF/ILF	180 du	29.1 du/acre
Total Program Allocated in HDR FLU			752 du 37,600 sq ft	15 du/acre 0.02 FAR

Notes: 1. Development parcels exclude some open space tracts, some stormwater pond tracts, and roads; therefore, parcel densities shown are based on program allocations to the net parcel acreages. Overall project densities are maintained per maximum FLU densities and intensities.

2. Parcel 5 Flex Space program is TBD. It may become an additional future phase of multi-family or may be commercial/professional office oriented to the Town Center, utilizing the Policy 3.1.h commercial allowance.

Multifamily Unit Breakdown

Unit Type	Minimum Square	Phase 1 Proposed Mix	
		Total Units	% of Units
Studio/1 Bedroom	750 sq ft	90	30%
2 Bedrooms	1,000 sq ft	150	50%
3 Bedrooms	1,300 sq ft	60	20%

Development Standards

Standard	Parcel						
	1	2	3	4	5	6	7
Lot Standards							
Min Lot Width	50'	50'	50'	75'	16'	50'	50'
Minimum Building Setbacks

Side	10'	10'	10'	15'	10'	10'	10'
Street Side	10'	10'	10'	15'	10'	10'	10'
Rear	15'	15'	15'	15'	15'	15'	15'
From Single Family Lot Line	60'	n/a	n/a	25'	n/a	60'	50'
Minimum Parking Setback							
From Single Family Lot Line	25'	n/a	n/a	25'	n/a	25'	25'
Minimum Building Separation (Residential)	n/a	n/a	n/a	40'	20'	n/a	n/a
Building Height							
Max Height	35'	35'	75'	50'	50'	35'	50'
Max Stories	3	3	6	4	4	2	4
Minimum Living Area	n/a	n/a	n/a	750'	750'	n/a	See Note *
Minimum Parking	2.75 space/ksf of commercial on average			1.7 spaces per unit + 1 space per 10 units guest	2.75 space/ksf of commercial on average or 1.7 space per unit + 1 space per 10 units guest		Per LDC

Notes: Minimum living area for ILF units shall be 550 square feet. All other units types shall be 750 square feet.

Max PD Program

FLU	Max Densities/ Intensities	Max PD Program Per FLU
Commercial 23.72 acres gross	0.25 FAR	258,311 sq ft
HDR 50.16 acres gross	15 du/acre 50 sq ft per unit	752 units 37,600 sq ft[1]

Notes: 1. The Apopka Comprehensive Plan Future Land Use Policy 3.1.h allows for 50 sq ft of commercial uses per unit within HDR.

Preliminary Phase Program Breakdown

Parcel	Phase 1		Future Phase	
1	0	sq ft	57,834	sq ft
2	0	sq ft	95,477	sq ft
3	0	sq ft	65,000	sq ft
6	0	sq ft	40,000	sq ft
4	300	du	200	units
5	0	sq ft	TBD[1]	
7	0	du	180	units

Notes: 1. See Note 2 under the PD Program Allocations Table.

Permitted Parcel Uses

Uses	Parcel						
	1	2	3	4	5	6	7
Multi-Family				Y	Y		
Townhome					Y		
Assisted Living Facility[1]							Y
Independent Living Facility[1]							Y
Hotel			Y				
Commercial/Retail	Y	Y	Y		Y	Y	
Professional Office	Y	Y	Y		Y		
Medical Office	Y	Y	Y		Y	Y	Y
Self-Service Storage[2]	Y	Y	Y				
Parks and Open Space[3]	Y	Y	Y	Y	Y	Y	Y
Indoor Recreation						Y	
Institutional/Civic					Y	Y	

Notes : 1. Assisted Living and Independent Living Facilities may contain ancillary personal services and food & beverage uses that are only offered to residents of the facility, not to exceed 4,000 sq ft.

2. Only indoor, climate controlled self-service storage shall be permitted. No outdoor self-service storage will be permitted.

3. Parks may include passive or active recreational facilities such as playgrounds, dog parks, sport courts, etc.

PROHIBITED PD USES

A. ANY USE THAT EMITS AN OBNOXIOUS ODOR, OBNOXIOUS NOISE, OR OBNOXIOUS SOUND THAT CAN BE HEARD OR SMELLED OUTSIDE OF ANY BUILDING IN THE PROJECT.

B. AN OPERATION PRIMARILY USED AS WAREHOUSE OPERATION OR ANY ASSEMBLING, MANUFACTURING, DISTILLING, REFINING, SMELTING, AGRICULTURAL, OR MINING OPERATION.

C. ANY SELF-SERVICE STORAGE FACILITIES THAT ARE NOT CLIMATE CONTROLLED.

D. ANY OUTDOOR STORAGE OF AUTOMOBILES, RECREATIONAL VEHICLES, OR BOATS.

E. ANY "SECOND HAND" STORE, ANY OPERATION SELLING "SURPLUS" OR "SALVAGE" GOODS, OR PAWN SHOP.

F. ANY MOBILE HOME PARK, TRAILER COURT, LABOR CAMP, JUNKYARD, OR STOCKYARD; BUT THIS PROHIBITION IS NOT APPLICABLE TO THE TEMPORARY USE OF CONSTRUCTION TRAILERS DURING PERIODS OF CONSTRUCTION, RECONSTRUCTION OR MAINTENANCE.

G. ANY DUMPING, DISPOSING, INCINERATION OR REDUCTION OF GARBAGE, BUT THIS PROHIBITION DOES NOT APPLY TO (I) GARBAGE COMPACTORS OR OTHER GARBAGE COLLECTION AREAS OR FACILITIES LOCATED NEAR THE REAR OF ANY BUILDING, OR (II) RECYCLING CENTERS THAT MAY BE REQUIRED BY GOVERNMENTAL REQUIREMENTS.

H. ANY FIRE SALE, BANKRUPTCY SALE (UNLESS PURSUANT TO A COURT ORDER) OR AUCTION HOUSE OPERATION.

I. ANY CENTRAL LAUNDRY, DRY CLEANING PLANT, OR LAUNDROMAT, BUT THIS RESTRICTION IS NOT INTENDED TO PREVENT THE OPERATION OF AN ON-SITE SERVICE ORIENTED SOLELY TO PICKUP AND DELIVERY OF CLOTHING BY THE ULTIMATE CONSUMER, WITH NO WASHING OR PROCESSING FACILITIES WITHIN THE PROJECT, AS THE SAME MAY BE FOUND IN RETAIL SHOPPING CENTERS IN THE METROPOLITAN AREA WHERE THE PROJECT IS LOCATED.

J. ANY (I) AUTOMOBILE, TRUCK, TRAILER, OR RECREATIONAL VEHICLE SALES, LEASING, OR DISPLAY OPERATION, (II) CAR WASH, OR (III) BODY SHOP REPAIR OPERATION.

K. ANY BOWLING ALLEY OR SKATING RINK.

L. ANY MORTUARY OR FUNERAL HOME.

M. ANY ESTABLISHMENT SELLING OR EXHIBITING OBSCENE OR SEXUALLY EXPLICIT MATERIAL.

N. ANY ESTABLISHMENT SELLING OR EXHIBITING ILLICIT DRUGS OR RELATED PARAPHERNALIA.

O. A STRIP CLUB.

P. ANY MASSAGE PARLOR OR SIMILAR ESTABLISHMENT (BUT THE PROVISION OF THERAPEUTIC MESSAGES AS PART OF A FIRST-CLASS HEALTH OR BEAUTY SPA OPERATION OR BY PROFESSIONAL HEALTH CARE PROVIDERS IS PERMITTED).

Q. ANY FLEA MARKET, AMUSEMENT OR VIDEO ARCADE, POOL OR BILLIARD HALL, OR DANCE HALL.

R. ANY TRAINING OR EDUCATIONAL FACILITY, INCLUDING: BEAUTY SCHOOLS, BARBER COLLEGES, READING ROOMS, PLACES OF INSTRUCTION, OR OTHER OPERATIONS CATERING PRIMARILY TO STUDENTS OR TRAINEES RATHER THAN TO CUSTOMERS, BUT THIS PROHIBITION IS NOT APPLICABLE TO ON-SITE EMPLOYEE TRAINING BY AN OCCUPANT INCIDENTAL TO THE CONDUCT OF ITS BUSINESS AT THE PROJECT.

S. ANY GAMBLING FACILITY OR OPERATION, INCLUDING: OFF-TRACK OR SPORTS BETTING PARLOR; TABLE GAMES SUCH AS BLACKJACK OR POKER; SLOT MACHINES, VIDEO POKER/BLACKJACK/KENO MACHINES OR SIMILAR DEVICES; OR BINGO HALL.

STATEMENT OF PLANNING AND DEVELOPMENT GOALS

THE FLORIDIAN TOWN CENTER WILL, THROUGH THE APPLICATION OF THE PROPOSED PD, PERMIT A CONTINUUM OF INSTITUTIONAL, SHOPPING, DINING, LODGING, AND RESIDENTIAL USES WITHIN A HIGH QUALITY, WELL DESIGNED, AND COMPACT PROJECT. EVEN WHILE USING STANDARD LAND USE CATEGORIES, THE PD WILL ALLOW FOR EFFECTIVE ALLOCATION AND INTEGRATION OF USES, INCLUDING THE FLEXIBILITY OF MIXED-USE IN THE CORE OF THE SITE. THE PD IS ESPECIALLY POWERFUL IN ITS ABILITY TO BALANCE THE NEED FOR RESPONSIVENESS IN THE FACE OF RAPIDLY CHANGING MARKETS WITH THE RESPONSIBILITY OF PROVIDING QUALITY ASSURANCE TO THE CITY AND TO NEIGHBORS. THE PD ENSURES THAT SIGNIFICANT OPEN SPACE, AMENITIES, COMMUNITY FACILITIES, AND WAYFINDING ARE PROVIDED AND THAT PEDESTRIAN ACCESS AND COMFORT ARE PRINCIPLE CONCERNS. THE PD ALSO ENSURES THAT THE OPPORTUNITY POSED AT THIS KEY PROPERTY, AT THE CONFLUENCE OF SOME OF THE LARGEST AND MOST IMPORTANT TRANSPORTATION CORRIDORS IN THE REGION, IS NOT WASTED ON INCREMENTAL, PIECEMEAL SPRAWL, BUT MAXIMIZED AS A NEW TOWN CENTER FOR NORTHWEST APOPKA.

COMPENSATING COMMUNITY BENEFITS

COMPENSATING COMMUNITY BENEFITS SHALL INCLUDE, BUT NOT BE LIMITED TO THE FOLLOWING:

- IN AREAS WHERE UNDERGROUND UTILITIES WOULD HAVE PREVENTED THE PLACEMENT OF TRADITIONAL CANOPY STREET TREES, WE ARE TAKING EXTRA STEPS TO ESTABLISH A QUALITY DESIGN AESTHETIC AND A PLEASANT PEDESTRIAN ENVIRONMENT. ON KIOWA AVENUE WE ARE PROVIDING FOR LIVE OAKS OUTSIDE THE ROW AND UTILITY BUFFER THAT WILL COME TO PROVIDE SHADE TO THE SIDEWALK AND DISTINCTIVE CHARACTER TO THE CORRIDOR. ON SOUTHFORK AND FLORIDIAN TOWN CENTER BLVD, THOUGH SMALLER TREES ARE BEING USED IN THE RIGHT OF WAY, WE ARE NEARLY DOUBLING THE STREET TREE REQUIREMENT, IN ORDER TO ACHIEVE THE DESIRED PEDESTRIAN ENVIRONMENT.
- PROTECTION OF MANY EXISTING SPECIMEN TREES BY ALTERING THE LOCATION AND CONFIGURATION OF NUMEROUS STORMWATER PONDS, ROADS, BUFFERS, LANDSCAPED AREAS, AND OPEN SPACE.
- PROVIDING CENTRAL STORMWATER FACILITIES FOR BOTH THE DEVELOPMENT AND THE CITY ROW.
- PROVIDING SIGNIFICANTLY MORE THAN THE MINIMUM 30% OPEN SPACE REQUIREMENT FOR A PD, WHICH IN ITSELF, IS HIGHER THAN THE REQUIREMENTS OF THE CITY'S TRADITIONAL ZONING CATEGORIES.
- PROVIDING FOR CO-BRANDING OF SIGNS AND GATEWAYS FOR THE CITY AND THE DEVELOPMENT.
- PROVIDING A SITE FOR A NEW YMCA, THE ONLY ONE IN THIS PART OF THE ORLANDO METRO.
- PROVIDING FOR THE EXTENSION OF A NEW LOCAL COLLECTOR ROAD, WHICH WILL EVENTUALLY CONNECT TO YOTHERS ROAD.

GENERAL NOTE:

1. ALL NOTES AND DATA TABLES PROVIDED HEREON HAS BEEN PROVIDED BY COMMUNITY SOLUTIONS GROUP, A GAI CONSULTANTS, INC. SERVICE GROUP

NOTES

COMMUNITY DESIGN

1. ALL VEHICLE PARKING LOTS AND STRUCTURES CONTAINING MORE THAN 50 PARKING SPACES SHALL PROVIDE CLEARLY IDENTIFIED PEDESTRIAN ROUTES BETWEEN PARKING AREAS AND A PRIMARY PEDESTRIAN ENTRANCE(S) TO THE BUILDING(S) SERVED BY THE PARKING AREA.
2. EACH MULTI-FAMILY BUILDING SHALL HAVE ACCESS TO A SIDEWALK THAT CONNECTS TO THE PROJECT PEDESTRIAN NETWORK.
3. THE MULTI-FAMILY DEVELOPMENT SHALL HAVE SIDEWALK CONNECTIONS TO THE TOWN CENTER.
4. WHERE A SIDEWALK OR OTHER WALKWAY CROSSES A STREET, DRIVEWAY, DRIVE AISLE, OR PARKING LOT, THE CROSSING SHALL BE CLEARLY MARKED WITH A CHANGE IN PAVING MATERIAL, COLOR, OR HEIGHT, OR DECORATIVE BOLLARDS.

BUILDING DESIGN AND ARCHITECTURE

1. BUILDING FACADES SHALL NOT EXCEED 60 FEET ALONG A STREET FRONTAGE WITHOUT PROVIDING A SUBSTANTIAL VOLUME BREAK SUCH AS A VOLUME RECESS, A TOWER OR BAY, OR AN ARCHITECTURALLY PROMINENT PUBLIC ENTRANCE THE RECESSES AND PROJECTIONS SHALL HAVE A MINIMUM DEPTH OF THREE FEET.
2. IF A FLAT ROOF IS PROPOSED, PARAPET WALLS WITH THREE-DIMENSIONAL CORNICE TREATMENTS SHALL CONCEAL THE ROOF. THE CORNICE SHALL INCLUDE A PERPENDICULAR PROJECTION OF A MINIMUM OF EIGHT (8) INCHES FROM THE PARAPET FACADE PLANE.
3. ALL PRIMARY PEDESTRIAN ENTRANCES INTO PRINCIPAL BUILDINGS SHALL BE CLEARLY DEFINED AND EMPHASIZED USING CHANGES IN THE WALL PLANE OR FACADE MATERIAL, PILASTERS, AWNINGS, CANOPIES, PORCHES, OR OTHER ARCHITECTURAL ELEMENTS. WHERE THE FACADE OF A PRINCIPAL BUILDING ABUTS OR FACES A STREET, AT LEAST ONE OPERABLE PEDESTRIAN ENTRANCE PROVIDING BOTH INGRESS AND EGRESS SHALL BE PROVIDED. IF THE FACADE INCLUDES MULTIPLE TENANT SPACES, AT LEAST ONE SUCH ENTRANCE SHALL BE PROVIDED FOR EACH STREET-LEVEL TENANT SPACE. THESE REQUIRED PEDESTRIAN ENTRANCES SHALL OPEN DIRECTLY TO THE STREET SIDEWALK WITHOUT REQUIRING PEDESTRIANS TO PASS THROUGH A GARAGE, PARKING LOT, OR OTHER NON-PEDESTRIAN AREA LOCATED BETWEEN THE ENTRANCE AND THE STREET.
4. FAÇADES SHALL NOT EXCEED 20 HORIZONTAL FEET AND TEN VERTICAL FEET WITHOUT INCLUDING AT LEAST ONE OF THE FOLLOWING ELEMENTS:(CANOPIES, RECESSES, ARCADES, RAISED PARAPETS, ROOF FORMS, ADJACENT DISPLAY WINDOWS) TO ESTABLISH CLEARLY DEFINED, HIGHLY VISIBLE, PRIMARY BUILDING ENTRANCES. BUILDING FACADES ALONG PUBLIC STREETS SHALL MAINTAIN A PEDESTRIAN SCALE AND INTEGRATE THE PUBLIC AND PRIVATE SPACES USING ARCHITECTURAL ELEMENTS.
5. ANY AC OR MECHANICAL UNITS LOCATED ON THE ROOF SHALL BE SCREENED FROM VIEW.
6. THE MULTI-FAMILY DEVELOPMENT WILL BE GATED.

MULTI-FAMILY AMENITIES

1. ONE COMMUNITY CLUBHOUSE AND POOL WILL BE PROVIDED IN THE FIRST PHASE OF MULTI-FAMILY DEVELOPMENT.
2. THE COMMUNITY CLUBHOUSE SHALL BE EQUIPPED WITH RESTROOMS, KITCHEN AREA, WORKOUT ROOM, AND MEETING AREA.
3. ACCESS TO THE COMMUNITY CLUBHOUSE SHALL BE RESTRICTED TO THE MULTI-FAMILY RESIDENTS AND THEIR GUESTS.
4. THE COMMUNITY CLUBHOUSE SHALL BE DESIGNED TO ACCOMMODATE PERSONS WITH DISABILITIES AS REQUIRED BY FLORIDA BUILDING CODE AND ADA, CURRENT ENFORCED EDITIONS.
5. THE ARCHITECTURAL DESIGN OF THE COMMUNITY CLUBHOUSE SHALL BE COMPLIMENTARY TO THE DESIGN OF THE MULTI-FAMILY BUILDINGS.

FLEX ZONE

1. THE PARCEL 5 "FLEX ZONE" LIES WITHIN THE HDR FUTURE LAND USE AREA AND WILL BE DEVELOPED IN A FUTURE PHASE. MULTIPLE OPTION ARE PROPOSED SUBJECT TO FUTURE MAJOR DEVELOPMENT PLAN APPROVALS:
   - OPTION 1: MULTI-FAMILY/TOWNHOME
   - OPTION 2: COMMERCIAL/RETAIL
   - OPTION 3: PROFESSIONAL OFFICE
   - OPTION 4: MIXED-USE COMBINATION OF 1-3.

PARKING

1. PARKING RATIOS ARE PROVIDED ON SHEET 6.
2. COMPACT SPACES ALLOWED IN COMMERCIAL, UP TO 25% MAXIMUM.
3. REQUEST A WAIVER TO CITY LDC SECTION 5.1.5.I.(2) REQUIREMENT FOR WHEEL STOPS. DEVELOPMENT WILL UTILIZE RAISED CURBS IN LIEU OF WHEEL STOPS. ADDITIONAL DESIGN ALLOWANCE WILL PROVIDE FOR 2' VEHICLE OVERHANG BY EXPANDING CONCRETE SIDEWALKS AND/OR LANDSCAPE AREAS ADJACENT TO PARKING STALLS.

LANDSCAPE & BUFFERS

1. ALL LANDSCAPE DESIGNS WILL ABIDE BY THE CITY OF APOPKA LAND DEVELOPMENT CODE WITH THE EXCEPTIONS LISTED IN THIS SECTION BELOW.
2. THE CITY OF APOPKA LDC APPENDIX D SECTION 4.5 - LANDSCAPING AND BUFFERS REQUIRES STREET TREES TO BE PROVIDED 50' APART AND "CLOSE TO THE CURB". THIS IS IN CONFLICT WITH PUBLIC WORKS AND ENGINEERING REQUIREMENTS TO PROTECT SIDEWALKS AND UNDERGROUND UTILITIES INCLUDING WATER, RECLAIMED, STORMWATER, AND SANITARY SEWER. WE ARE ADDRESSING THIS CONFLICT IN THE FOLLOWING WAYS, DEPENDING ON CONTEXT:

   ON KIOWA AVE - WE ARE PROVIDING THE SAME OR SIMILAR REQUIRED NUMBER OF STREET TREES OUTSIDE BUT ADJACENT TO THE ROW, SEPARATED FROM UTILITIES BY 10'.

   ON SOUTHFORK (EAST OF THE ROUNDABOUT) - DUE TO THE EXPRESSWAY OVERPASS AND NARROW CORRIDORS FOR UNDERGROUND UTILITIES, UNDERSTORY STREET TREES ARE PROVIDED IN PLACE OF CANOPY TREES "CLOSE TO THE CURB". WE HAVE DOUBLED THE NUMBER OF UNDERSTORY TREES TO PROVIDE ADDITIONAL CANOPY AND SHADE.

   ON FLORIDIAN TOWN CENTER BLVD - DUE TO UNDERGROUND UTILITIES, UNDERSTORY TREES ARE PROVIDED "CLOSE TO THE CURB". LIVE OAKS ARE PROVIDED IN THE CENTRAL MEDIAN, AWAY FROM UTILITIES TO INCREASE THE MASS OF TREES AND CANOPY.
3. LANDSCAPE BUFFER PLANTINGS TO BE PROVIDED PER CITY OF APOPKA LDC.
4. THIS PROJECT WILL ABIDE BY ALL RELEVANT TREE PROTECTION STANDARDS PER THE CITY OF APOPKA LAND DEVELOPMENT CODE.
5. NATIVE VEGETATION AROUND THE PERIMETER OF THE SITE WILL BE PRESERVED TO THE GREATEST EXTENT POSSIBLE.

FIRE DEPARTMENT

1. ADEQUATE STABILIZED ACCESS AND FIRE HYDRANTS SHALL BE IN PLACE WITHIN 500' OF ANY STRUCTURE PRIOR TO VERTICAL CONSTRUCTION.
2. FIRE HYDRANTS MUST BE WITHIN 500 FEET OF EACH RESIDENTIAL UNIT.
3. FIRE HYDRANTS SHALL BE MARKED WITH A BLUE ROAD REFLECTOR.
4. ALL MULTI-FAMILY RESIDENTIAL MUST BE EQUIPPED WITH FIRE SPRINKLER SYSTEMS AND FIRE ALARMS MEETING FLORIDA FIRE PREVENTION CODE.
5. FIRE DEPARTMENT CONNECTIONS (FDC) FOR SPRINKLER SYSTEMS MUST BE REMOTE FROM THE BUILDINGS WITH FIRE LANES.
6. IF THE MULTI-FAMILY DEVELOPMENT IS GATED, THE GATE SHALL BE EQUIPPED WITH AN OPTI-COM TYPE SIGNALING DEVICE THAT IS COMPATIBLE WITH CITY OF APOPKA EMERGENCY VEHICLES. IT MUST ALSO BE EQUIPPED WITH A YELP SIREN ACTIVATION AND GATE CODE REQUESTED BY THE FIRE DEPARTMENT.

PUBLIC SERVICES

1. ROADS, DRIVEWAYS, AND ROUNDABOUTS SHALL FOLLOW CITY STANDARDS AND SPECIFICATIONS.
2. UTILITIES SHALL BE COORDINATED WITH AND PROVIDED BY THE CITY OF APOPKA.
3. SANITATION SERVICES SHALL BE COORDINATED WITH AND PROVIDED BY THE CITY OF APOPKA.
4. SANITATION SERVICE SHALL BE VIA ROLL-OFF BINS LOCATED WITHIN AN ENCLOSED COMPACTOR BAY ON EACH SITE.
5. LANDSCAPE AND IRRIGATION DESIGN SHALL BE IN ACCORDANCE WITH THE CITY OF APOPKA ORDINANCE 2069, ADOPTED MAY 21, 2008, WHICH ESTABLISHES WATERWISE LANDSCAPE AND IRRIGATION STANDARDS.

PROJECT ROADS

1. PROJECT ROADS, INCLUDING KIOWA AVENUE, SOUTHFORK ROAD, WILLIAMS COURT, AND FLORIDIAN TOWN CENTER BOULEVARD WILL BE OWNED BY THE CITY AND MAINTAINED ACCORDING TO THE CONDITIONS OF THE DEVELOPMENT AGREEMENT AND ANY SUBSEQUENT MAINTAINED AGREEMENT(S).
2. MAINTENANCE FOR ALL LANDSCAPED MEDIANS AND STREET TREES SHALL BE THE RESPONSIBILITY OF THE MASTER ASSOCIATION, ACCORDING TO THE CONDITIONS OF THE DEVELOPMENT AGREEMENT AND ANY SUBSEQUENT MAINTENANCE AGREEMENTS.
3. ROUNDABOUT PAVEMENT WILL BE MAINTAINED BY THE CITY AS PART OF THE CITY-MAINTAINED ROW. LANDSCAPE AND HARDSCAPE COMPONENTS INTERIOR TO THE ROUNDABOUT PAVEMENT WILL BE MAINTAINED BY THE MASTER ASSOCIATION ACCORDING TO THE CONDITIONS OF THE DEVELOPMENT AGREEMENT AND ANY SUBSEQUENT MAINTENANCE AGREEMENT.

SIGNAGE

1. A SIGN PLAN IS PROVIDED ON SHEET S-1. THIS PLAN ADDRESSES THE DIMENSIONS AND LOCATIONS OF THE PROJECT'S OVERALL WAYFINDING PER SECTION 5.10.7.B. OF THE LAND DEVELOPMENT CODE BUT DOES NOT ADDRESS ON-SITE SIGNAGE AND BUILDING SIGNAGE.
2. ALL BUILDING AND SITE SIGNAGE SHALL BE IN ACCORDANCE WITH SECTION 5.10, CITY OF APOPKA LAND DEVELOPMENT CODE
3. THE DESIGNS ILLUSTRATED IN THE SIGN PLAN ARE CONCEPTUAL AND THE MATERIALS, COLORS, AND DESIGNS MAY CHANGE SLIGHTLY AT PERMITTING.

ADDITIONAL NOTES

1. ALL RESIDENTIAL UNITS SHALL COMPLY WITH THE FAIR HOUSING ACT ACCESSIBILITY STANDARDS.
2. ALL RESIDENTIAL UNITS SHALL HAVE LAUNDRY FACILITIES LOCATED WITHIN THE LIVABLE AREA.
3. BICYCLE RACKS SHALL BE PROVIDED AT THE COMMUNITY CLUBHOUSE AND PARK AREAS.
4. DEVELOPMENT WITHIN THE PUD SHALL BE SUBJECT TO MAJOR DEVELOPMENT PLAN APPROVAL.
5. OFF-SITE SIGNAGE SHALL BE SUBJECT TO THE PROPER EASEMENTS.
6. FINAL PLAT SHALL BE RECORDED PRIOR TO FIRST CO.
7. LIGHTING REQUIREMENTS MUST MEET ALL CITY OF APOPKA AND THE ELECTRIC PROVIDER'S REGULATIONS AT THE TIME OF ANY CONSTRUCTION PLAN SUBMITTAL AND ANY SUBSEQUENT APPROVALS

ORDINANCE NO. 3060

AN ORDINANCE OF THE CITY OF APOPKA, FLORIDA, AMENDING ORDINANCE NO. 2840, WHICH IS KNOWN AS THE "FLORIDIAN TOWN CENTER" PLANNED DEVELOPMENT (PD), GENERALLY LOCATED NORTH OF W. ORANGE BLOSSOM TRAIL AND WEST OF S.R. 429, COMPRISING 73.93 ACRES MORE OR LESS; PROVIDING FOR DIRECTIONS TO THE COMMUNITY DEVELOPMENT DIRECTOR, SEVERABILITY, CONFLICTS, AND AN EFFECTIVE DATE.

WHEREAS, to manage the growth, the City of Apopka, Florida, finds it in the best interest of the public health, safety and welfare of its citizens to establish zoning classifications within the City; and

WHEREAS, the property owners have requested to amend Ordinance No. 2840; and

WHEREAS, the proposed PD (Planned Development) District zoning has been found to be consistent with the City of Apopka Comprehensive Plan, and the City of Apopka Land Development Code.

NOW THEREFORE, BE IT ORDAINED, by the City Council of the City of Apopka, Florida, as follows:

Section I. That the zoning classification of the property described in Exhibit A, being situated in the City of Apopka, Florida, is hereby PD District, as defined in the Apopka Land Development Code, and with the following provisions:

A. Development of the property shall occur consistent with the Master Plan set forth in Exhibit "B". Where any development standard conflicts between the Master Plan and the Land Development Code, the Master Plan shall preside. Any proposed revision to the Master Plan shall be evaluated and processed pursuant to the Land Development Code.

B. A PD Agreement prepared in accordance with LDC Section 3.7.2.F.2 shall be approved by the City Council.

C. The uses permitted and prohibited within the PD District are those noted on the Master Plan and PD Agreement.

D. If a Plat associated with the PD district has not been approved by the City within three years after approval of these Master Plan, the approval of the Master Plan provisions will expire. At such time, the City Council may:

1. Permit a single six-month extension for submittal of the required Minor or Major Development Plan;

2. Allow the PD zoning designation to remain on the property pending resubmittal of new Master Plan provisions and any conditions of approval; or

3. Rezone the property to an appropriate zoning classification

Section II. That the zoning classification is consistent with the Comprehensive Plan of the City of Apopka, Florida. The applicant shall obtain all approvals as required, if any, per the Orange

County Charter and the Amended Interlocal Agreement for Public School Facility Planning and Implementation of Concurrency.

Section III. That the Community Development Director, or the Director's designee, is hereby authorized to amend, alter, and implement the official zoning maps of the City of Apopka, Florida, to include said designation.

Section IV. That if any section or portion of a section or subsection of this Ordinance proves to be invalid, unlawful, or unconstitutional, it shall not be held to invalidate or impair the validity, force or effect of any other section or portion of section or subsection or part of this ordinance.

Section V. That all ordinances or parts of ordinances in conflict herewith are hereby repealed.

Section VI. That this Ordinance shall take effect upon the date of adoption.

ADOPTED at a regular meeting of the City Council of the City of Apopka, Florida, this 17th day of July, 2024.

thence S78°32'30"E along said North line of lands described in Official Records Book 9852, Page 5231, for a distance of 41.61 feet to the North right-of-way line of Fudge Road, platted as Lake Street, according to the aforesaid plat of MAP OF PLYMOUTH; thence departing said North line run N89°37'13"E along said North right-of-way line, 592.78 feet to the Westerly limited access right-of-way line of State Road Number 429, as described in Official Records Book 9852, Page 8078, of the Public Records of Orange County, Florida; thence departing said North right-of-way line run N79°37'31"E along said Westerly limited access right-of-way line, 200.23 feet; thence N36°40'34"E along said Westerly limited access right-of-way line, 78.30 feet to the Westerly limited access right-of-way line of State Road Number 429, as described in Official Records Book 9984, Page 2831, of the Public Records of Orange County, Florida; thence N02°19'28"W along said Westerly limited access right-of-way line, 545.26 feet to the Northwest corner of Lot 8, Block P, according to said plat of MAP OF PLYMOUTH, and the South line of lands described in Official Records Document Number 20180621287, of the Public Records of Orange County, Florida; thence departing said Westerly limited access right-of-way line, run S89°31'58"W along said South line, 882.00 feet to the Southwest corner of said lands described in Official Records Document Number 20180621287; thence N02°26'48"W along the West line of said lands described in Official Records Document Number 20180621287, for a distance 40.03 feet to the Northwest corner of said lands described in Official Records Document Number 20180621287; thence N89°31'58"E along the North line of said lands described in Official Records Document Number 20180621287, for a distance of 859.73 feet to the Southwest corner of Lot 1, Block P, according to said plat of MAP OF PLYMOUTH and the Westerly limited access right-of-way line of State Road Number 429, as described in Official Records Book 10808, Page 4322, of the Public Records of Orange County, Florida; thence departing said North line run N02°20'29"W along said Westerly limited access right-of-way line, 642.86 feet; thence N89°25'17"E along said Westerly limited access right-of-way line, 54.79 feet to the Westerly limited access right-of-way line of State Road Number 429, as described in Official Records Book 10784, Page 480, of the Public Records of Orange County, Florida and a non-tangent curve concave Westerly having a radius of 11294.16 feet and a chord bearing of N02°02'28"W; thence Northerly along said Westerly limited access right-of-way line and the arc of said curve through a central angle of 02°01'48" for a distance of 400.15 feet to the Westerly limited access right-of-way line of State Road Number 429, as described in Official Records Book 10705, Page 4582, of the Public Records of Orange County, Florida and as described in Official Records Book 10705, Page 8080, of the Public Records of Orange County, Florida and a non-tangent line; thence S89°23'12"W along said Westerly limited access right-of-way line, 125.14 feet to a non-tangent curve concave Westerly having a radius of 11168.15 feet and a chord bearing of N04°40'48"W; thence Northerly along said Westerly limited access right-of-way line and the arc of said curve through a central angle of 03°11'36" for a distance of 622.17 feet to a non-tangent line; thence N37°22'01"E along said Westerly limited access right-of-way line, 182.75 feet; thence N00°27'45"W along said Westerly limited access right-of-way line, 24.71 feet to the Southeast corner of the aforesaid plat of STANTON RIDGE; thence departing said Westerly limited access right-of-way line run the following courses and distances along the aforesaid South line of the plat of STANTON RIDGE: S89°31'58"W, 48.82 feet; N32°38'28"W, 78.53 feet; N00°31'22"W, 85.34 feet to the POINT OF BEGINNING. This description is based on Florida State Plane Coordinate System East Zone, scale factor of 0.99997293, NAD 83 Datum (2011 adjustment) and all distances are grid dimensions.

Containing 73.831 acres more or less when calculated in ground dimensions.

Being subject to any rights-of-way, restrictions, conditions and easements of record.

PD Program Allocations

Development Parcel	PUD Parcel Acreage	Use	Allocation of PD Program	Net Parcel Density/Intensity[1]
Commercial FLU				
1	4.00 acres	Commercial/Retail/Office	25,235 sq ft	0.14 FAR
2	6.63 acres	Commercial/Retail/Office	67,500 sq ft	0.23 FAR
3	3.12 acres	Commercial/Retail/Office	32,000 sq ft	0.24 FAR
5	2.91 acres	Commercial/Retail/Hotel	72,000 du	0.57 FAR
6	3.03 acres	Commercial/Retail/Office	62,000 sq ft	0.47 FAR
7	5.85 acres	Commercial/Retail/Office	110,000 sq ft	0.43 FAR
Total Program Allocated in Commercial FLU			368,735 sq ft	0.25 FAR
HDR FLU				
4	30.76 acres	Multi-Family	601 du	19.5 du/acre
Total Program Allocated in HDR FLU			601 du 30,050 sq ft	15.0 du/acre 0.01 FAR

Notes: 1. Development parcels exclude some open space tracts, some stormwater pond tracts, and public ROWs; therefore, parcel densities shown are based on program allocations to the net parcel acreages. Overall project densities are maintained per maximum FLU densities and intensities.

Max PD Program

FLU	Max Densities/ Intensities	Max PD Program Per FLU
Commercial 33.84 acres gross	0.25 FAR	368,517 sq ft
HDR 40.09 acres gross	15 du/acre 50 sq ft per unit	601 units 30,050 sq ft[1]

Notes: 1. The Apopka Comprehensive Plan Future Land Use Policy 3.1.h allows for 50 sq ft of commercial uses per unit within HDR.

Multifamily Unit Breakdown

Unit Type	Minimum Square Footage	Phase 1 Proposed Mix Total Units[1]	% of Units
Studio/1 Bedroom	750 sq ft	150	25%
2 Bedrooms	1,000 sq ft	120	20%
3 Bedrooms	1,300 sq ft	30	5%

Notes: 1. The unit type breakdown is conceptual and may vary at MDP.

Preliminary Phase Program Breakdown

Parcel	Phase 1	Future Phase
1	0 sq ft	25,235 sq ft
2	0 sq ft	67,500 sq ft
3	0 sq ft	32,000 sq ft
4	312 du[1]	289 du[1]
5	0 sq ft	72,000 sq ft
6	0 sq ft	62,000 sq ft
7	0 sq ft	110,000 sq ft

1. The phase subtotals for residential units may fluctuate up to 5% so long as the total unit count for Parcel 4 does not exceed 601 units

Development Standards

Standard	Parcel 1	2	3	4	5	6	7
Lot Standards							
Min Lot Width	50'	50'	50'	75'	50'	50'	50'

Side	10'	10'	10'	15'	10'	10'	10'
Street Side	10'	10'	10'	15'	10'	10'	10'
Rear	15'	15'	15'	15'	15'	15'	15'
From Single Family Lot Line	60'	n/a	n/a	25'	n/a	60'	50'
Minimum Parking Setback							
From Single Family Lot Line	25'	n/a	n/a	25'	n/a	25'	25'
Minimum Building Separation (Residential)	n/a	n/a	n/a	20'	n/a	n/a	n/a
Building Height							
Max Height	35'	35'	75'	50'	75'	35'	50'
Max Stories	3	3	6	4	6	2	4
Minimum Living Area[1]	n/a	n/a	n/a	750'	n/a	n/a	n/a
Minimum Parking	2.75 space/ksf of commercial on average			1.45 spaces per unit + 1 space per 10 units guest	2.0 space/ksf of hotel use 2.75 space/ksf of commercial on average		Per LDC

1. See detailed unit breakdown table for minimum living area by unit type.

Permitted Parcel Uses

Uses	Parcel 1	2	3	4	5	6	7
Multi-Family				Y			
Townhome							
Hotel			Y				
Commercial/Retail	Y	Y	Y		Y	Y	
Professional Office	Y	Y	Y		Y	Y	Y
Medical Office	Y	Y	Y		Y	Y	Y
Self-Service Storage[1]	Y	Y	Y				Y
Parks and Open Space[2]	Y	Y	Y	Y	Y	Y	Y
Indoor Recreation						Y	
Institutional/Civic					Y	Y	

Notes : 1. Only indoor, climate controlled self-service storage shall be permitted. No outdoor self-service storage will be permitted.
2. Parks may include passive or active recreational facilities such as playgrounds, dog parks, sport courts, etc.

PROHIBITED PD USES

A. ANY USE THAT EMITS AN OBNOXIOUS ODOR, OBNOXIOUS NOISE, OR OBNOXIOUS SOUND THAT CAN BE HEARD OR SMELLED OUTSIDE OF ANY BUILDING IN THE PROJECT.

B. AN OPERATION PRIMARILY USED AS WAREHOUSE OPERATION OR ANY ASSEMBLING, MANUFACTURING, DISTILLING, REFINING, SMELTING, AGRICULTURAL OR MINING OPERATION.

C. ANY SELF-SERVICE STORAGE FACILITIES THAT ARE NOT CLIMATE CONTROLLED.

D. ANY OUTDOOR STORAGE OF AUTOMOBILES, RECREATIONAL VEHICLES, OR BOATS.

E. ANY "SECOND HAND" STORE, ANY OPERATION SELLING "SURPLUS" OR "SALVAGE" GOODS, OR PAWN SHOP.

F. ANY MOBILE HOME PARK, TRAILER COURT, LABOR CAMP, JUNKYARD, OR STOCKYARD; BUT THIS PROHIBITION IS NOT APPLICABLE TO THE TEMPORARY USE OF CONSTRUCTION TRAILERS DURING PERIODS OF CONSTRUCTION, RECONSTRUCTION OR MAINTENANCE.

G. ANY DUMPING, DISPOSING, INCINERATION OR REDUCTION OF GARBAGE, BUT THIS PROHIBITION DOES NOT APPLY TO (i) GARBAGE COMPACTORS OR OTHER GARBAGE COLLECTION AREAS OR FACILITIES LOCATED NEAR THE REAR OF ANY BUILDING, OR (ii) RECYCLING CENTERS THAT MAY BE REQUIRED BY GOVERNMENTAL REQUIREMENTS.

H. ANY FIRE SALE, BANKRUPTCY SALE (UNLESS PURSUANT TO A COURT ORDER) OR AUCTION HOUSE OPERATION.

I. ANY CENTRAL LAUNDRY, DRY CLEANING PLANT, OR LAUNDROMAT, BUT THIS RESTRICTION IS NOT INTENDED TO PREVENT THE OPERATION OF AN ON-SITE SERVICE ORIENTED SOLELY TO PICKUP AND DELIVERY OF CLOTHING BY THE ULTIMATE CONSUMER, WITH NO WASHING OR PROCESSING FACILITIES WITHIN THE PROJECT, AS THE SAME MAY BE FOUND IN RETAIL SHOPPING CENTERS IN THE METROPOLITAN AREA WHERE THE PROJECT IS LOCATED.

J. ANY (i) AUTOMOBILE, TRUCK, TRAILER, OR RECREATIONAL VEHICLE SALES, LEASING, OR DISPLAY OPERATION, (ii) CAR WASH, OR (iii) BODY SHOP REPAIR OPERATION.

K. ANY BOWLING ALLEY OR SKATING RINK.

L. ANY MORTUARY OR FUNERAL HOME.

M. ANY ESTABLISHMENT SELLING OR EXHIBITING OBSCENE OR SEXUALLY EXPLICIT MATERIAL.

N. ANY ESTABLISHMENT SELLING OR EXHIBITING ILLICIT DRUGS OR RELATED PARAPHERNALIA.

O. A STRIP CLUB.

P. ANY MASSAGE PARLOR OR SIMILAR ESTABLISHMENT (BUT THE PROVISION OF THERAPEUTIC MESSAGES AS PART OF A FIRST-CLASS HEALTH OR BEAUTY SPA OPERATION OR BY PROFESSIONAL HEALTH CARE PROVIDERS IS PERMITTED).

Q. ANY FLEA MARKET, AMUSEMENT OR VIDEO ARCADE, POOL OR BILLIARD HALL, OR DANCE HALL.

R. ANY TRAINING OR EDUCATIONAL FACILITY, INCLUDING: BEAUTY SCHOOLS, BARBER COLLEGES, READING ROOMS, PLACES OF INSTRUCTION, OR OTHER OPERATIONS CATERING PRIMARILY TO STUDENTS OR TRAINEES RATHER THAN TO CUSTOMERS, BUT THIS PROHIBITION IS NOT APPLICABLE TO ON-SITE EMPLOYEE TRAINING BY AN OCCUPANT INCIDENTAL TO THE CONDUCT OF ITS BUSINESS AT THE PROJECT.

S. ANY GAMBLING FACILITY OR OPERATION, INCLUDING: OFF-TRACK OR SPORTS BETTING PARLOR; TABLE GAMES SUCH AS BLACKJACK OR POKER; SLOT MACHINES, VIDEO POKER/BLACKJACK/KENO MACHINES OR SIMILAR DEVICES; OR BINGO HALL.

STATEMENT OF PLANNING AND DEVELOPMENT GOALS

THE FLORIDIAN TOWN CENTER WILL, THROUGH THE APPLICATION OF THE PROPOSED PD, PERMIT A CONTINUUM OF INSTITUTIONAL, SHOPPING, DINING, LODGING, AND RESIDENTIAL USES WITHIN A HIGH QUALITY, WELL DESIGNED, AND COMPACT PROJECT. EVEN WHILE USING STANDARD LAND USE CATEGORIES, THE PD WILL ALLOW FOR EFFECTIVE ALLOCATION AND INTEGRATION OF USES, INCLUDING THE FLEXIBILITY OF MIXED-USE IN THE CORE OF THE SITE. THE PD IS ESPECIALLY POWERFUL IN ITS ABILITY TO BALANCE THE NEED FOR RESPONSIVENESS IN THE FACE OF RAPIDLY CHANGING MARKETS WITH THE RESPONSIBILITY OF PROVIDING QUALITY ASSURANCE TO THE CITY AND TO NEIGHBORS. THE PD ENSURES THAT SIGNIFICANT OPEN SPACE, AMENITIES, COMMUNITY FACILITIES, AND WAYFINDING ARE PROVIDED AND THAT PEDESTRIAN ACCESS AND COMFORT ARE PRINCIPLE CONCERNS. THE PD ALSO ENSURES THAT THE OPPORTUNITY POSED AT THIS KEY PROPERTY, AT THE CONFLUENCE OF SOME OF THE LARGEST AND MOST IMPORTANT TRANSPORTATION CORRIDORS IN THE REGION, IS NOT WASTED ON INCREMENTAL, PIECEMEAL SPRAWL, BUT MAXIMIZED AS A NEW TOWN CENTER FOR NORTHWEST APOPKA.

COMPENSATING COMMUNITY BENEFITS

COMPENSATING COMMUNITY BENEFITS SHALL INCLUDE, BUT NOT BE LIMITED TO THE FOLLOWING:

- IN AREAS WHERE UNDERGROUND UTILITIES WOULD HAVE PREVENTED THE PLACEMENT OF TRADITIONAL CANOPY STREET TREES, WE ARE TAKING EXTRA STEPS TO ESTABLISH A QUALITY DESIGN AESTHETIC AND A PLEASANT PEDESTRIAN ENVIRONMENT. ON KIOWA AVENUE WE ARE PROVIDING FOR LIVE OAKS OUTSIDE THE ROW AND UTILITY BUFFER THAT WILL COME TO PROVIDE SHADE TO THE SIDEWALK AND DISTINCTIVE CHARACTER TO THE CORRIDOR. ON SOUTHFORK AND FLORIDIAN TOWN CENTER BLVD, THOUGH SMALLER TREES ARE BEING USED IN THE RIGHT OF WAY, WE ARE NEARLY DOUBLING THE STREET TREE REQUIREMENT, IN ORDER TO ACHIEVE THE DESIRED PEDESTRIAN ENVIRONMENT.
- PROTECTION OF MANY EXISTING SPECIMEN TREES BY ALTERING THE LOCATION AND CONFIGURATION OF NUMEROUS STORMWATER PONDS, ROADS, BUFFERS, LANDSCAPED AREAS, AND OPEN SPACE.
- PROVIDING CENTRAL STORMWATER FACILITIES FOR BOTH THE DEVELOPMENT AND THE CITY ROW.
- PROVIDING SIGNIFICANTLY MORE THAN THE MINIMUM 30% OPEN SPACE REQUIREMENT FOR A PD, WHICH IN ITSELF, IS HIGHER THAN THE REQUIREMENTS OF THE CITY'S TRADITIONAL ZONING CATEGORIES.
- PROVIDING FOR CO-BRANDING OF SIGNS AND GATEWAYS FOR THE CITY AND THE DEVELOPMENT.
- PROVIDING FOR THE EXTENSION OF A NEW LOCAL COLLECTOR ROAD, WHICH WILL EVENTUALLY CONNECT TO YOTHERS ROAD.

GENERAL NOTE:

1. ALL NOTES AND DATA TABLES PROVIDED HEREON HAVE BEEN PROVIDED BY COMMUNITY SOLUTIONS GROUP, A GAI CONSULTANTS, INC. SERVICE GROUP

NOTES

COMMUNITY DESIGN

1. ALL VEHICLE PARKING LOTS AND STRUCTURES CONTAINING MORE THAN 50 PARKING SPACES SHALL PROVIDE CLEARLY IDENTIFIED PEDESTRIAN ROUTES BETWEEN PARKING AREAS AND A PRIMARY PEDESTRIAN ENTRANCE(S) TO THE BUILDING(S) SERVED BY THE PARKING AREA.
2. EACH MULTI-FAMILY BUILDING SHALL HAVE ACCESS TO A SIDEWALK THAT CONNECTS TO THE PROJECT PEDESTRIAN NETWORK.
3. THE MULTI-FAMILY DEVELOPMENT SHALL HAVE SIDEWALK CONNECTIONS TO THE TOWN CENTER.
4. WHERE A SIDEWALK OR OTHER WALKWAY CROSSES A STREET, DRIVEWAY, DRIVE AISLE, OR PARKING LOT, THE CROSSING SHALL BE CLEARLY MARKED WITH A CHANGE IN PAVING MATERIAL, COLOR, OR HEIGHT, OR DECORATIVE BOLLARDS.

BUILDING DESIGN AND ARCHITECTURE

1. BUILDING FACADES SHALL NOT EXCEED 60 FEET ALONG A STREET FRONTAGE WITHOUT PROVIDING A SUBSTANTIAL VOLUME BREAK SUCH AS A VOLUME RECESS, A TOWER OR BAY, OR AN ARCHITECTURALLY PROMINENT PUBLIC ENTRANCE THE RECESSES AND PROJECTIONS SHALL HAVE A MINIMUM DEPTH OF THREE FEET.
2. IF A FLAT ROOF IS PROPOSED, PARAPET WALLS WITH THREE-DIMENSIONAL CORNICE TREATMENTS SHALL CONCEAL THE ROOF. THE CORNICE SHALL INCLUDE A PERPENDICULAR PROJECTION OF A MINIMUM OF EIGHT (8) INCHES FROM THE PARAPET FACADE PLANE.
3. ALL PRIMARY PEDESTRIAN ENTRANCES INTO PRINCIPAL BUILDINGS SHALL BE CLEARLY DEFINED AND EMPHASIZED USING CHANGES IN THE WALL PLANE OR FACADE MATERIAL, PILASTERS, AWNINGS, CANOPIES, PORCHES, OR OTHER ARCHITECTURAL ELEMENTS. WHERE THE FACADE OF A PRINCIPAL BUILDING ABUTS OR FACES A STREET, AT LEAST ONE OPERABLE PEDESTRIAN ENTRANCE PROVIDING BOTH INGRESS AND EGRESS SHALL BE PROVIDED. IF THE FACADE INCLUDES MULTIPLE TENANT SPACES, AT LEAST ONE SUCH ENTRANCE SHALL BE PROVIDED FOR EACH STREET-LEVEL TENANT SPACE. THESE REQUIRED PEDESTRIAN ENTRANCES SHALL OPEN DIRECTLY TO THE STREET SIDEWALK WITHOUT REQUIRING PEDESTRIANS TO PASS THROUGH A GARAGE, PARKING LOT, OR OTHER NON-PEDESTRIAN AREA LOCATED BETWEEN THE ENTRANCE AND THE STREET.
4. FACADES SHALL NOT EXCEED 20 HORIZONTAL FEET AND TEN VERTICAL FEET WITHOUT INCLUDING AT LEAST ONE OF THE FOLLOWING ELEMENTS:(CANOPIES, RECESSES, ARCADES, RAISED PARAPETS, ROOF FORMS, ADJACENT DISPLAY WINDOWS) TO ESTABLISH CLEARLY DEFINED, HIGHLY VISIBLE, PRIMARY BUILDING ENTRANCES. BUILDING FACADES ALONG PUBLIC STREETS SHALL MAINTAIN A PEDESTRIAN SCALE AND INTEGRATE THE PUBLIC AND PRIVATE SPACES USING ARCHITECTURAL ELEMENTS.
5. ANY AC OR MECHANICAL UNITS LOCATED ON THE ROOF SHALL BE SCREENED FROM VIEW.
6. THE MULTI-FAMILY DEVELOPMENT WILL BE GATED.

MULTI-FAMILY AMENITIES

1. ONE COMMUNITY CLUBHOUSE AND POOL WILL BE PROVIDED IN THE FIRST PHASE OF MULTI-FAMILY DEVELOPMENT.
2. THE COMMUNITY CLUBHOUSE SHALL BE EQUIPPED WITH RESTROOMS, KITCHEN AREA, WORKOUT ROOM, AND MEETING AREA.
3. ACCESS TO THE COMMUNITY CLUBHOUSE SHALL BE RESTRICTED TO THE MULTI-FAMILY RESIDENTS AND THEIR GUESTS.
4. THE COMMUNITY CLUBHOUSE SHALL BE DESIGNED TO ACCOMMODATE PERSONS WITH DISABILITIES AS REQUIRED BY FLORIDA BUILDING CODE AND ADA, CURRENT ENFORCED EDITIONS.
5. THE ARCHITECTURAL DESIGN OF THE COMMUNITY CLUBHOUSE SHALL BE COMPLIMENTARY TO THE DESIGN OF THE MULTI-FAMILY BUILDINGS.

PARKING

1. PARKING RATIOS ARE PROVIDED ON SHEET 6.
2. COMPACT SPACES ALLOWED IN COMMERCIAL, UP TO 25% MAXIMUM.
3. REQUEST A WAIVER TO CITY LDC SECTION 5.11.1.(2) REQUIREMENT FOR WHEEL STOPS. DEVELOPMENT WILL UTILIZE RAISED CURBS IN LIEU OF WHEEL STOPS. ADDITIONAL DESIGN ALLOWANCE WILL PROVIDE FOR 2' VEHICLE OVERHANG BY EXPANDING CONCRETE SIDEWALKS AND/OR LANDSCAPE AREAS ADJACENT TO PARKING STALLS.

LANDSCAPE & BUFFERS

1. ALL LANDSCAPE DESIGNS WILL ABIDE BY THE CITY OF APOPKA LAND DEVELOPMENT CODE WITH THE EXCEPTIONS LISTED IN THIS SECTION BELOW.
2. THE CITY OF APOPKA LDC APPENDIX D SECTION 4.5 - LANDSCAPING AND BUFFERS REQUIRES STREET TREES TO BE PROVIDED 50' APART AND "CLOSE TO THE CURB". THIS IS IN CONFLICT WITH PUBLIC WORKS AND ENGINEERING REQUIREMENTS TO PROTECT SIDEWALKS AND UNDERGROUND UTILITIES INCLUDING WATER, RECLAIMED, STORMWATER, AND SANITARY SEWER. WE ARE ADDRESSING THIS CONFLICT IN THE FOLLOWING WAYS, DEPENDING ON CONTEXT:

   ON KIOWA AVE - WE ARE PROVIDING THE SAME OR SIMILAR REQUIRED NUMBER OF STREET TREES OUTSIDE BUT ADJACENT TO THE ROW, SEPARATED FROM UTILITIES BY 10'.

   ON SOUTHFORK (EAST OF THE ROUNDABOUT) - DUE TO THE EXPRESSWAY OVERPASS AND NARROW CORRIDORS FOR UNDERGROUND UTILITIES, UNDERSTORY STREET TREES ARE PROVIDED IN PLACE OF CANOPY TREES "CLOSE TO THE CURB". WE HAVE DOUBLED THE NUMBER OF UNDERSTORY TREES TO PROVIDE ADDITIONAL CANOPY AND SHADE.

   ON FLORIDIAN TOWN CENTER BLVD - DUE TO UNDERGROUND UTILITIES, UNDERSTORY TREES ARE PROVIDED IN "CLOSE TO THE CURB". LIVE OAKS ARE PROVIDED IN THE CENTRAL MEDIAN, AWAY FROM UTILITIES TO INCREASE THE MASS OF TREES AND CANOPY.
3. LANDSCAPE BUFFER PLANTINGS TO BE PROVIDED PER CITY OF APOPKA LDC.
4. THIS PROJECT WILL ABIDE BY ALL RELEVANT TREE PROTECTION STANDARDS PER THE CITY OF APOPKA LAND DEVELOPMENT CODE.
5. NATIVE VEGETATION AROUND THE PERIMETER OF THE SITE WILL BE PRESERVED TO THE GREATEST EXTENT POSSIBLE.

FIRE DEPARTMENT

1. ADEQUATE STABILIZED ACCESS AND FIRE HYDRANTS SHALL BE IN PLACE WITHIN 500' OF ANY STRUCTURE PRIOR TO VERTICAL CONSTRUCTION.
2. FIRE HYDRANTS MUST BE WITHIN 500 FEET OF EACH RESIDENTIAL UNIT.
3. FIRE HYDRANTS SHALL BE MARKED WITH A BLUE ROAD REFLECTOR.
4. ALL MULTI-FAMILY RESIDENTIAL MUST BE EQUIPPED WITH FIRE SPRINKLER SYSTEMS AND FIRE ALARMS MEETING FLORIDA FIRE PREVENTION CODE.
5. FIRE DEPARTMENT CONNECTIONS (FDC) FOR SPRINKLER SYSTEMS MUST BE REMOTE FROM THE BUILDINGS WITH FIRE LANES.
6. IF THE MULTI-FAMILY DEVELOPMENT IS GATED, THE GATE SHALL BE EQUIPPED WITH AN OPTI-COM TYPE SIGNALING DEVICE THAT IS COMPATIBLE WITH CITY OF APOPKA EMERGENCY VEHICLES. IT MUST ALSO BE EQUIPPED WITH A KEY SWITCH ACTIVATION AND GATE CODE REQUESTED BY THE FIRE DEPARTMENT.

PUBLIC SERVICES

1. ROADS, DRIVEWAYS, AND ROUNDABOUTS SHALL FOLLOW CITY STANDARDS AND SPECIFICATIONS.
2. UTILITIES SHALL BE COORDINATED WITH AND PROVIDED BY THE CITY OF APOPKA.
3. SANITATION SERVICES SHALL BE COORDINATED WITH AND PROVIDED BY THE CITY OF APOPKA.
4. SANITATION SERVICE SHALL BE VIA ROLL-OFF BINS LOCATED WITHIN AN ENCLOSED COMPACTOR BAY ON EACH SITE.
5. LANDSCAPE AND IRRIGATION DESIGN SHALL BE IN ACCORDANCE WITH THE CITY OF APOPKA ORDINANCE 2003, ADOPTED MAY 21, 2008, WHICH ESTABLISHES WATERWISE LANDSCAPE AND IRRIGATION STANDARDS.

PROJECT ROADS

1. PROJECT ROADS, INCLUDING KIOWA AVENUE, SOUTHFORK ROAD, WILLIAMS COURT, AND FLORIDIAN TOWN CENTER BOULEVARD WILL BE OWNED BY THE CITY AND MAINTAINED ACCORDING TO THE CONDITIONS OF THE DEVELOPMENT AGREEMENT AND ANY SUBSEQUENT MAINTAINED AGREEMENT(S).
2. MAINTENANCE FOR ALL LANDSCAPED MEDIANS AND STREET TREES SHALL BE THE RESPONSIBILITY OF THE MASTER ASSOCIATION, ACCORDING TO THE CONDITIONS OF THE DEVELOPMENT AGREEMENT AND ANY SUBSEQUENT MAINTENANCE AGREEMENTS.
3. ROUNDABOUT PAVEMENT WILL BE MAINTAINED BY THE CITY AS PART OF THE CITY-MAINTAINED ROW. LANDSCAPE AND HARDSCAPE COMPONENTS INTERIOR TO THE ROUNDABOUT PAVEMENT WILL BE MAINTAINED BY THE MASTER ASSOCIATION ACCORDING TO THE CONDITIONS OF THE DEVELOPMENT AGREEMENT AND ANY SUBSEQUENT MAINTENANCE AGREEMENT.

SIGNAGE

1. A SIGN PLAN IS PROVIDED ON SHEET 5-1. THIS PLAN ADDRESSES THE DIMENSIONS AND LOCATIONS OF THE PROJECT'S OVERALL WAYFINDING PER SECTION 5.10 / B. OF THE LAND DEVELOPMENT CODE BUT DOES NOT ADDRESS ON-SITE SIGNAGE AND BUILDING SIGNAGE.
2. ALL BUILDING AND SITE SIGNAGE SHALL BE IN ACCORDANCE WITH SECTION 5.10, CITY OF APOPKA LAND DEVELOPMENT CODE
3. THE DESIGNS ILLUSTRATED IN THE SIGN PLAN ARE CONCEPTUAL AND THE MATERIALS, COLORS, AND DESIGNS MAY CHANGE SLIGHTLY AT PERMITTING.

ADDITIONAL NOTES

1. ALL RESIDENTIAL UNITS SHALL COMPLY WITH THE FAIR HOUSING ACT ACCESSIBILITY STANDARDS.
2. ALL RESIDENTIAL UNITS SHALL HAVE LAUNDRY FACILITIES LOCATED WITHIN THE LIVABLE AREA.
3. BICYCLE RACKS SHALL BE PROVIDED AT THE COMMUNITY CLUBHOUSE AND PARK AREAS.
4. DEVELOPMENT WITHIN THE PUD SHALL BE SUBJECT TO MAJOR DEVELOPMENT PLAN APPROVAL.
5. OFF-SITE SIGNAGE SHALL BE SUBJECT TO THE PROPER EASEMENTS.
6. FINAL PLAT SHALL BE RECORDED PRIOR TO FIRST CO.
7. LIGHTING REQUIREMENTS MUST MEET ALL CITY OF APOPKA AND THE ELECTRIC PROVIDER'S REGULATIONS AT THE TIME OF ANY CONSTRUCTION PLAN SUBMITTAL AND ANY SUBSEQUENT APPROVALS

MASTER DEVELOPMENT AGREEMENT
(FLORIDIAN TOWN CENTER)

This **MASTER DEVELOPMENT AGREEMENT (FLORIDIAN TOWN CENTER)** ("**Agreement**") is made and entered into this 25th day of August, 2021 ("**Effective Date**"), by and between City of Apopka, a Florida municipal corporation, whose mailing is 120 East Main Street, Apopka, Florida 32703 ("**City**"), and Collier Benge Land Joint Venture, LLC, a Florida limited liability company, whose mailing address is 220 N. Main Street, Gainesville, FL 32601 ("**Developer**"). The City and the Developer are sometimes collectively referred to herein as the "**Parties**" and individually as a "**Party**."

WITNESSETH:

WHEREAS, Developer is currently the owner and developer of that certain property located in the City of Apopka, Orange County, Florida legally described in **Exhibit "A"** attached hereto and expressly incorporated herein by this reference ("**Property**");

WHEREAS, the Property is commonly known as Floridian Town Center which is an approved Planned Development by the City, as may be amended from time to time ("**PD**" or "**PD Master Plan**"), consisting of commercial, apartments/multi-family and recreational uses (collectively, "**Project**");

WHEREAS, it is initially anticipated by the Developer that the Project will be developed in two (2) or more phases, as approved through the City's applicable process;

WHEREAS, Developer will establish the Master Association, as hereinafter defined, to administer the maintenance of the common elements of the Project, in order to ensure the orderly development of the Project, and ensuring the ordered development of the Project serves the public purpose of providing the public with a high-quality development while minimizing adverse public impacts;

WHEREAS, Developer has agreed to safeguard against certain adverse public impacts on the Property by securing performance bonds or other financial assurances for the construction of the common improvements within the Project, including the street network; and

WHEREAS, the City confirms that this Agreement is consistent with and an exercise of the City's powers under the Municipal Home Rule Powers Act; Article VII, Section 2(b) of the Constitution of the State of Florida; Chapter 166, Florida Statutes; all City Rules; other controlling law; and the City's police powers, and is a non-statutory development agreement which is not subject to or enacted pursuant to the provisions of Section 163.3220-163.3243, *Florida Statutes.*

NOW, THEREFORE, for and in consideration of the mutual obligations contained herein and the sum of ten dollars ($10.00) and other good and valuable consideration the sufficiency of which is hereby conclusively acknowledged the Parties agree as follows:

AGREEMENT

1. **Recitals.** The Recitals contained above are true and correct and are incorporated in this Agreement in full as if set forth herein.

2. **Project Phasing**. The Project is anticipated to be developed in two (2) or more phases and consist of seven (7) or more development parcels, as identified and depicted on the Parcel Plan ("**Parcel Plan**") attached hereto as **Exhibit "B"** and expressly incorporated herein by this reference. The development parcels are depicted on the Parcel Plan and identified herein by Parcel number (i.e. - "**Parcel 1**", "**Parcel 2**", etc.). Parcel 4 may be developed in one (1) or more phases and any phase subsequent to Phase 1 may be used and developed as Flex Space. The Parcel Plan and phasing of the Project are subject to revision. The uses permitted within each parcel are as shown on the Permitted Use Table attached hereto as **Exhibit "C"** and expressly incorporated herein by this reference.

3. **Flex Space Permitted Uses.** The following land uses are permissible uses within the Flex Space Parcel (Any subsequent Phases of Parcel 4 and Parcel 5) ("**Flex Parcel**"):

   a. Hotel. A hotel use not to exceed 120 rooms and all rooms must have entry only through the interior of the hotel building. A restaurant will be permitted at the hotel but must be interior to the hotel or connected by a covered walkway. Restaurant facilities must be managed or leased by the hotel owner. Any hotel shall demonstrate character and attributes common to the definition of such hotels and shall be furnished in a themed, stylish and/or aspirational manner.

   b. Day care, adult or child.

   c. Assisted Living Facility, Independent Living Facility, or Senior Housing.

   d. Residential. The City and the Developer agree that in the event nonresidential development does not occur on the Flex Space Parcel, Developer shall be permitted to convert the flex space to develop multi-family residential units on the Flex Space Parcel to the extent and limited to a maximum residential density of fifteen (15) units per acre for the entire area of the Project pursuant to the Future Land Use

Element of the City's Comprehensive Policy Plan in effect as of the date hereof. Such uses may include residential apartments above first-floor professional or business office uses consistent with Section 9 below.

e. Professional or Office Buildings.

f. Medical Office Building.

g. Vertical Mixed-Use Buildings. Professional or office uses on the first floor and apartments on the upper floors.

4. **Master Association.** Developer has formed the Floridian Town Center Master Association, Inc. ("**Master Association**") through the creation and filing of Articles of Incorporation, and will, prior to the issuance of the first certificate of occupancy or its equivalent for vertical construction on the Project adopt Bylaws and a Declaration of Covenants, Conditions and Restrictions, or similar ("**Governing Documents**") governing the Project. The Governing Documents shall be consistent with this Agreement and the Transportation Impact Fee Agreement, as hereinafter defined, and, to the extent of a conflict, this Agreement and the Transportation Impact Fee Agreement shall supersede the Governing Documents. Each member of the Master Association shall agree on behalf of itself and their respective successors and assigns to comply with the PD and other City approvals for the Project applicable to any portion of the Property owned by the particular party. The Governing Documents shall specify that an annual budget is established to adequately fund the maintenance of any common park space and common property/elements. The Governing Documents shall also provide for the establishment of an Architectural Review Committee ("**ARC**"). The City and the Developer agree that the Project is intended to be a first-class mixed-use development and the ARC shall establish review criteria consistent with such intent and similar communities within the Central Florida area. The Master Association shall be responsible for the maintenance of the storm water system and ponds within the Project (except those serving only Parcel on which they are located if maintained by such Parcel owners), Project signage, and common landscaping, trees and grass within all medians and rights-of-way along all internal roads and further discussed in the Transportation Impact Fee Agreement. Maintenance shall include mowing grass and maintaining any vegetation or trees planted within the right-of-way.

5. **Internal Street Network**. All internal streets, roads and rights-of-way within the PD ("**Internal Streets**") shall be public and shall be dedicated to the City, by recorded plat or otherwise, except the streets, roads and rights-of-way within any residential/multi-family development which, if gated or otherwise exclusively or primarily serves a residential purpose, shall be private through Parcel 4 as depicted on the Road Phasing Plan attached hereto as **Exhibit "D"** and expressly incorporated herein by this reference. The foregoing shall also be applicable, at Developer's option, as to any other Parcel in the event that any other Parcel is developed as residential/multi-family use. Developer shall be entitled to impact fees credits for the construction of all of the Internal Streets which are public streets, roads and rights-of-way as set forth in the Transportation Impact Fee Agreement (**"Transportation Impact Fee Agreement"**) attached hereto as **Exhibit "E"** and expressly incorporated herein by this reference.

6. **External Street Network/Improvements**. The Developer shall be responsible for the external roadway improvements to the off-site streets, roads and rights-of way as depicted on **Exhibit "D"** and as more particularly set forth in the Transportation Impact Fee Agreement. The Developer shall be entitled to appropriate impact fee credits for all such external roadway improvements (including, drainage improvements, landscaping, irrigation, required signage, lighting and similar improvements) as provided in the Transportation Impact Fee Agreement.

7. **Parking and On-Site Infrastructure**. Although the Project may be constructed in phases consistent with the Phasing Plan and this Agreement, each individual phase of the Project shall be required to provide sufficient on-site infrastructure to satisfy the applicable City Code requirements. Further, each individual phase shall be required to provide the number of parking spaces set forth within the PD Master Plan. All on street parking spaces with the exception of Parcel 4 (and any other Parcel hereafter permitted for multi-family use) shall be considered common areas and accessible to residents and guests of the entire Project.

8. **Apartments.** The multi-family development on Parcel 4 (and any other Parcel hereafter permitted for multi-family use) of the Project is characterized as luxury apartments and may contain all or some of following amenity features: (1) a clubhouse; (2) a swimming pool; (3) a dog park, and (4) a washer and dryer within each apartment.

9. **Commercial Uses**.

   a. Permitted uses. Any commercial use allowed under the City's Land Development Code (or equivalent) and ordinances shall be permitted within Parcels 1, 2, 3, 5 and 6 or other portions of the Project now or hereafter designated a retail or commercial use.

   b. Prohibited uses. Notwithstanding anything to the contrary herein, the Project shall prohibit the uses set forth on **Exhibit "F"** attached hereto and expressly incorporated herein by this reference.

   c. Ability to close streets. Within the commercial and retail areas of the Project, the Developer and the Master Association shall have the right and be permitted to close parking areas, streets and roadways within one (1) or more Parcels for special events, fairs, street fairs, farmers markets and other events at the Project (**"Special Events"**) in a manner otherwise consistent with City codes, ordinances, and regulations including the required prior notification to all necessary City and County agencies; provided, however, access shall be maintained at all times to Parcel 4 and other non-retail and commercial Parcels.

   d. Outdoor dining. Within the commercial and retail areas of the Project, outdoor dining shall be permitted, including tables set up and service at all times on sidewalks, walkways and, in the case of Special Events, in the roadways in a manner otherwise consistent with City codes, ordinances, and regulations including the required prior notification to all necessary City and County agencies.

10. **Signage**.

a. On-Site Signage. On-site signage shall be permitted on the Property as set forth herein and as provided in the PD. Signs and other forms of advertising in the Developer's discretion within the Property shall be allowed during the Project development, for sale and leasing during any sale and leasing period for the Project or individual Parcels and at other times on a temporary basis.

b. Special Events. The Developer and the Master Association shall be permitted to place directional and event signs within the Project for Special Events.

c. Directional Signage. The Developer shall have the right to place directional signage and similar signage within the Project, in Developer's discretion.

d. Off-Site Signage. The Developer shall be entitled to locate off-site signage as depicted on **Exhibit "G"** attached hereto and expressly incorporated herein by this reference.

11. **Water and Sewer; Utilities**. The Developer shall provide all requisite utilities to each Phase of the Project in accordance with the Utility Phasing Plans attached hereto as **Exhibits "H-1", "H-2", and "H-3"** and expressly incorporated herein by this reference, as and when required for the development of such Phase, including, but not limited to, water, sewer, storm sewer, reclaimed water, electric, gas (if available at Developer's option), and other services. Developer shall be entitled to impact fee credits for all such improvements and any oversizing of any such improvements located outside the Property, and shall be entitled to impact fee credits for the as provided for and set forth in the Utility Impact Fee Agreement attached hereto as **Exhibit "I"** attached hereto and expressly incorporated herein by this reference.

12. **Underlying Easement Agreement**. The Property is subject to that certain Easement Agreement between the City and the Developer dated July 1, 2020, as recorded July 22, 2020 under Instrument No. 20200390471, Public Records of Orange County, Florida ("**Easement**"). The Developer shall be entitled to impact fee credits for all cost related to improvements required to be constructed pursuant to the terms and provisions of the Easement. The Developer may locate signage within the Easement.

13. **South Fork Drive Improvements and Conveyance to the City**. The Developer owns a 7/8th interest in South Fork Drive, whereas the City owns the remaining 1/8th interest. The Developer shall improve the entirety of South Fork Drive to City standards and convey ownership thereof to the City. The City and the Developer shall then enter into an easement agreement in similar form and substance as the Easement referenced in **Paragraph 12** herein. The Developer shall be entitled to impact fee credits for all costs related to the improvements required to be constructed on South Fork Drive.

14. **Existing Impact Fee Credits**. Developer shall receive credit for the impact fees paid or vested in the previous use on the Property. Attached hereto as **Exhibit "J"** is an identification of Parcel IDs with structures that may have existing impact fees that will be credited to Developer.

15. **Covenants Running with the Land/Assignment**. The terms, provisions, covenants, conditions and restrictions set forth in this Agreement and the rights, privileges and benefits and duties, obligations and burdens assigned, granted, imposed and created pursuant to this Agreement

shall and are hereby declared to be covenants running with the title to the Property. This Agreement shall legally benefit and bind the Developer and its respective successors and assigns.

16. **Force Majeure**. Except as otherwise expressly set forth in this Agreement, if either Party's performance of any act (other than the payment of money) required hereunder is impractical, impossible, delayed, hindered, or prevented by reason of strikes, lock-outs, labor troubles, inability to procure materials, failure of power, restrictive governmental laws or regulations, pandemic or epidemic health occurrences as declared by applicable governmental or world health organizations, health events resulting in government mandated quarantine, shelter-in-place, travel restrictions, government office shut-down and/or moratoria, or other government-directed cessation of business related to pandemic or epidemic health occurrences, riots, terrorist acts, insurrection, adverse weather conditions, war or other reasons of a like nature not the fault of the Party delayed in performing work or doing acts required under the terms of this Agreement (all of such reasons or causes referred to in this Agreement as "force majeure"), then performance of such acts shall be excused for the period of the delay, and the period within which the performance of such act may be required hereunder shall be extended by a period equivalent to the period of such delay plus thirty (30) days. In any case where work is to be paid for out of insurance proceeds or condemnation awards or other similar such proceeds, due allowance, not to exceed ninety (90) days in the aggregate, shall be made, both to the Party required to perform such work and to the Party required to make such payment, for delays in the collection of such proceeds and award.

17. **Legal Proceedings, Attorneys' Fees**. In the event that either Party shall institute litigation or other legal proceedings against the other to interpret or enforce any term, provision, warranty, covenant or condition set forth in this Agreement, the prevailing Party in such litigation or other legal proceedings following all appeals therefrom, if any, shall be entitled to recover from the non-prevailing Party in such litigation or other legal proceedings reasonable attorneys', paralegals', and experts' fees and expenses and court costs incidental thereto, including those incurred on any bankruptcy proceeding and/or appeal of a lower court decision.

18. **Notices.**

a. All notices provided for in this Agreement shall be in writing and delivered to the addresses below:

b. Any notice, request, demand, instruction or other communication to be given to either Party hereunder, shall be in writing and shall be hand-delivered, sent by Federal Express or a comparable overnight mail or delivery service, mailed by U.S. registered or certified mail, return receipt requested, postage prepaid, by electronic mail (email), or transmitted by facsimile or telecopier to the Parties and their listed co-recipients, at their respective addresses and/or facsimile numbers set forth herein. Any notice delivered as aforesaid shall be deemed delivered immediately upon mailing, delivery to an appropriate carrier, or receipt or refusal of delivery of said notice, whichever is earliest. The inability to deliver because of change in address of which no notice is given shall be deemed to be a receipt of the notice, demand and request. The Party claiming delivery of notice via telecopier or facsimile shall have the burden of proving notice was in fact sent, which burden can be carried without further evidence if confirmed by the transmitting telecopier or facsimile machine. Any communication sent by electronic mail, facsimile or telecopier shall promptly be followed by a copy delivered by one of the other approved methods. Receipt shall be deemed to have occurred if delivered to an authorized agent or any employee of the addressee or of the addressee's company. A time period in which a response to any notice, demand or request must be given pursuant to the terms of the Agreement, shall commence to run from the date of receipt. Any Party may change the address for receiving notices, request, demands, or other communication by not less than three (3) days prior notice in accordance with this Section. Telephone numbers are provided for convenience only. Notice from a Party's attorney shall constitute legal notice hereunder.

c. City and Developer may from time to time notify the other of changes regarding where and to whom notices should be sent by sending notification of such changes pursuant to this Section.

19. **Miscellaneous Provisions.**

a. **Entire Agreement**. This Agreement constitutes the complete and entire understanding and agreement between City and Developer concerning or with respect to the topics addressed in this Agreement and supersede any and all prior or contemporaneous covenants, agreements, undertakings, statements, representations or warranties, whether written or oral, of any Party hereto concerning or with respect thereto.

b. **Relationship of the Parties**. This Agreement does not evidence the creation of, nor shall it be construed as creating a partnership or joint venture between the City and Developer. Developer cannot create an obligation or responsibility on behalf of City or bind City in any manner. Each Party is acting for its own account, and it has made its own independent decisions to enter into this Agreement and as to whether the same is appropriate or proper for it based upon its own judgment and upon advice from such advisers as it has deemed necessary. Each Party acknowledges that none of the other Parties hereto is acting as a fiduciary for or as an adviser to it in respect of this Agreement or any responsibility or obligation contemplated herein.

c. **Agency**. Developer and City, and their agents, contractors and subcontractors, shall perform all activities described in this Agreement as independent entities and not as agents of one another.

d. **Sovereign Immunity**. Nothing contained in this Agreement shall be construed as a waiver of City's right to sovereign immunity for tort claims under and subject to § 768.28, *Florida Statutes*.

e. **Captions, Section and Paragraph Headings**. Captions, section and paragraph headings contained in this Agreement are for convenience of reference only and are in no way intended, and shall in no way be deemed, to define, describe, extend or limit the scope, content or intent of this Agreement or of any particular term, provision, section or paragraph hereof.

f. **Modification, Amendment or Termination**. This Agreement may not be changed, modified, amended or terminated except as expressly set forth in a separate writing signed by both of the Parties to this Agreement or their respective successors in interest or title.

g. **Recording in Public Records.** Developer shall ensure that this Agreement and the Transportation Agreement are recorded among the public records of Orange County, Florida promptly after the execution of the Agreement and Transportation Agreement by all Parties.

h. **Indemnification.** Developer hereby indemnifies and holds City and its elected and appointed officials, employees and agents harmless from and against any and all claims (at law or in equity), disputes, lawsuits, injuries, damages, attorneys' fees and all adverse matters in any way arising out of or relating to the risks assumed by Developer under this Agreement.

i. **Default**. Failure by a Party to perform any of its obligations hereunder shall constitute default hereunder, entitling the non-defaulting Party to terminate this Agreement or to pursue the remedies of specific performance, injunctive relief or damages as set forth in this Agreement. Prior to termination of this Agreement, the non-defaulting Party exercising such right shall first provide the defaulting Party with written notice specifying such default and the actions needed to cure same, in reasonable detail. Upon receipt of said notice, the defaulting Party shall be provided thirty (30) day opportunity within which to cure such default.

j. **Bankruptcy**. In the event (a) an order or decree is entered appointing a receiver for Developer or its assets or (b) a petition is filed by Developer for relief under federal bankruptcy laws or any other similar law or statute of the United States, which action is not dismissed, vacated or discharged within sixty (60) days after the filing thereof, then City shall have the right to terminate immediately this Agreement.

k. **No Liability or Monetary Remedy**. Notwithstanding anything herein to the contrary, Developer and City, on behalf of themselves, and their respective successors and assigns, hereby agree that neither Party shall be liable to the other for any direct, indirect, special, punitive or consequential damages, including but not limited to, damages based on loss of service, revenues, profits or business opportunities, and hereby waive any and all claims and causes of action for the recovery of such direct, indirect, special, punitive or consequential damages.

l. **Governing Law; Binding Effect**. This Agreement and the construction, interpretation and enforcement thereof shall be construed in accordance with and governed by the laws of the State of Florida and shall be binding upon, inure to the benefit of and be enforceable by the Parties hereto and their respective successors in interest or title.

m. **Venue**. The location for settlement of any and all claims, controversies, or disputes, arising out of or relating to any part of this Agreement, or any breach hereof, shall be Orange County, Florida.

n. **Construction of Agreement**. The fact that any one of the Parties to this Agreement shall have drafted or structured or shall be deemed to have drafted or structured this Agreement or any particular term or provision of this Agreement shall not be considered by any court or other tribunal in the construction or interpretation of this Agreement or any particular term or provision of this Agreement, either in favor or to the disadvantage of such Party.

o. **Severability**. If any of the terms, provisions, covenants or conditions set forth in this Agreement or the application thereof to any particular circumstance shall be held by any Court having jurisdiction to be illegal, invalid or unenforceable under applicable law, the remainder of this Agreement shall not be affected thereby and each provision of this Agreement shall be valid and enforceable to the fullest extent otherwise permitted by law.

p. **Counterparts**. This Agreement may be executed in two or more counterparts, each of which shall be and be taken to be an original, and are collectively but one instrument.

q. **Time of the Essence**. Time, and timely performance, is of the essence of this Agreement and of the covenants and provisions hereunder. When a date upon which a specified event shall occur or be performed falls upon a weekend or legal holiday, the time allowed for the event or performance to occur shall be extended to 5:00 p.m. on the next succeeding business day. For purposes of this Agreement, a "business day" shall mean any weekday that the banks in the county in which the Property is located are open for business (thereby excluding Saturdays, Sundays and legal holidays).

r. **Statutory Development Agreement**. This Agreement is not a statutory development agreement pursuant to Chapter 163, Florida Statutes (Florida Local Government Development Agreement Act), and is being entered into by the City pursuant to the City's home rule authority.

Prohibited Uses

A. An operation primarily used as warehouse operation or any assembling, manufacturing, distilling, refining, smelting, agricultural, or mining operation.

B. Any self-service storage facilities that are not climate controlled.

C. Any outdoor storage of automobiles, recreational vehicles, or boats.

D. Any "second hand" store, any operation selling "surplus" or "salvage" goods, or pawn shop.

E. Any mobile home park, trailer court, labor camp, junkyard, or stockyard; but this prohibition is not applicable to the temporary use of construction trailers during periods of construction, reconstruction or maintenance.

F. Any dumping, disposing, incineration or reduction of garbage, but this prohibition does not apply to (i) garbage compactors or other garbage collection areas or facilities located near the rear of any building, or (ii) recycling centers that may be required by Governmental Requirements.

G. Any fire sale, bankruptcy sale (unless pursuant to a court order) or auction house operation.

H. Any central laundry, dry cleaning plant, or laundromat, but this restriction is not intended to prevent the operation of an on-site service oriented solely to pickup and delivery of clothing by the ultimate consumer, with no washing or processing facilities within the Project, as the same may be found in retail shopping centers in the metropolitan area where the Project is located.

I. Any (i) automobile, truck, trailer, or recreational vehicle sales, leasing, or display operation, (ii) car wash, or (iii) body shop repair operation.

J. Any bowling alley or skating rink.

K. Any mortuary or funeral home.

L. Any establishment selling or exhibiting obscene or sexually explicit material.

M. Any establishment selling or exhibiting illicit drugs or related paraphernalia.

N. A strip club.

O. Any massage parlor or similar establishment (but the provision of therapeutic messages as part of a first-class health or beauty spa operation or by professional health care providers is permitted).

P. Any flea market, amusement or video arcade, pool or billiard hall, or dance hall.

Q. Any training or educational facility, including: beauty schools, barber colleges, reading rooms, places of instruction, or other operations catering primarily to students or trainees rather than to customers, but this prohibition is not applicable to on-site employee training by an occupant incidental to the conduct of its business at the Project.

R. Any gambling facility or operation, including: off-track or sports betting parlor; table games such as blackjack or poker; slot machines, video poker/blackjack/keno machines or similar devices; or bingo hall.

AMENDMENT TO MASTER DEVELOPMENT AGREEMENT (FLORIDIAN TOWN CENTER)

This Amendment to Master Development Agreement (herein referred to as this "Amendment") is made and entered into on this 19th day of June, 2024 (the "Effective Date"), by and between (i) FLORIDIAN APOPKA PHASE I OWNER, LLC, a Delaware limited liability company ("Developer"), as successor in interest to COLLIER BENGE LAND JOINT VENTURE, LLC, a Florida limited liability company ("Collier"), and (ii) the CITY OF APOPKA, a Florida municipal corporation (the "City").

RECITALS

A. Collier and the City entered into that certain Master Development Agreement (Floridian Town Center), dated as of September 20, 2021 (the "Original MDA") to address issues involved in the development of certain lands in the City.

B. Collier assigned its rights in the Original MDA to Developer pursuant to that certain Assignment of Permits and Development Rights, dated as of April 13, 2022 (the "Assignment", and together with the Original MDA, the "MDA").

C. Developer and the City wish to further amend the MDA for the purposes set forth herein.

NOW, THEREFORE, in consideration of the foregoing, and in consideration of the mutual covenants herein contained, Developer and the City hereby agree as follows:

PART 1
RECITALS; DEFINITIONS

1.1 **Recitals**. The Recitals set forth above are true and correct and are incorporated in this Amendment by this reference.

1.2 **Definitions**. Capitalized terms used in this Amendment that are not defined in this Amendment shall have the same meaning as set forth in the MDA.

PART 2
AMENDMENTS

2.1 Section 9(a) of the MDA is hereby deleted in its entirety and replaced with the following language:

"Permitted uses. Any commercial use allowed under the City's Land Development Code (or equivalent) and ordinances shall be permitted within Parcels 1, 2, 3, 5, 6 and 7, or other portions of the Project now or hereafter designated a retail or commercial use."

2.2 Section 18(a) of the MDA is hereby deleted in its entirety and replaced with the following language:

"All notices provided for in this Agreement shall be in writing and delivered to the addresses below in writing:

2.3 Exhibit "B" to the MDA is hereby replaced in its entirety with Schedule I attached hereto and made a part hereof.

2.4 Exhibit "C" to the MDA is hereby replaced in its entirety with Schedule II attached hereto and made a part hereof.

2.5 Exhibit "D" to the MDA is hereby replaced in its entirety with Schedule III attached hereto and made a part hereof.

2.6 Exhibits "H-1"/H-2/H-3" to the MDA are hereby replaced in their entirety with Schedule IV attached hereto and made a part hereof.

2.7 Exhibit "G" to the MDA is hereby replaced in its entirety with Schedule V attached hereto and made a part hereof.

PART 3
MISCELLANEOUS

3.1 Ratification and Unchanged Provisions. Except as may be inconsistent with the specific terms of this Amendment, Developer and the City hereby ratify all other provisions of the MDA which all other provisions shall remain unchanged. For avoidance of doubt, any clause, sentence, paragraph, or other provision of the MDA that is not expressly amended, revised, or deleted in this Amendment shall remain unchanged.

3.2 Binding Effect. This Amendment shall run with the land and shall be binding upon and shall inure to the benefit of the parties hereto and their respective successors, heirs and assigns in title

3.3 Counterparts. Developer and the City expressly agree that signatures delivered by facsimile or electronic transmission shall be treated as original signatures for all purposes hereunder. This Amendment may be executed in one or more counterparts, each of which shall constitute an original, but when taken together shall constitute one and the same agreement.

3.4 Authority. Each party executing this Amendment on behalf of Developer

and the City hereby represents and warrants, with respect to itself, that the execution and delivery of this Amendment has been authorized by all necessary action of each entity, that the individual executing this Amendment on behalf of any entity has all requisite corporate power and approval to execute this Amendment on behalf of such entity, and that this Amendment constitutes the legal, valid, and binding agreement of each party, enforceable in accordance with its terms.

3.5 Effect of Amendment. To the extent of any conflict between the terms and provisions of this Amendment and any term or provision of the MDA, the terms and provisions of this Amendment shall control.

Gainesville, FL 32601

TRANSPORTATION IMPACT FEE CREDIT AGREEMENT (FLORIDIAN TOWN CENTER)

THIS TRANSPORTATION IMPACT FEE CREDIT AGREEMENT (hereinafter, the "**Agreement**") is entered into this 25th day of August, 2021 (the "**Effective Date**") by and between the **City of Apopka**, a Florida municipal corporation organized and existing pursuant to the laws of the State of Florida with an address of 120 East Main Street, Apopka, Florida 32703 (hereinafter, the "**City**") and **Collier Benge Land Joint Venture, LLC**, a Florida limited liability company with an address of 220 N. Main Street, Gainesville, FL 32601 (hereinafter, the "**Developer**").

WITNESSETH:

WHEREAS, Developer is the owner of real property in the City of Apopka, Orange County, Florida consisting approximately of 73.87 acres and generally located west of Florida State Road 429 and north of U.S. 441/Orange Blossom Trail, as more particularly described in **Exhibit "A"** attached hereto and incorporated herein (hereinafter, the "**Property**"); and

WHEREAS, Developer intends to develop the Property as Floridian Town Center, a City-approved Planned Development (hereinafter, the "**Project**"); and

WHEREAS, in conjunction with the Development of the Project, Developer will design and construct certain public transportation improvements ("**Transportation Improvements**") as shown on **Exhibit "B"** attached hereto and incorporated herein; and City services easement lying adjacent to the Transportation Improvements to be granted to the City by Developer for stormwater, sidewalks, and general utilities (the "**Service Easement**") (the Transportation Improvements and Service Easement, collectively, the "**Right-of-Way**");

WHEREAS, the Transportation Improvements will consist of the construction of and/or improvement to Kiowa Avenue, Town Center Boulevard, South Fork Drive, SR 429 Connector Road, and Plymouth Sorrento Road and connection to Yothers Road (should additional parcels be incorporated into the PD for Floridian Town Center necessitating such connection), with attendant improvements including all site work (cut, fill, and stabilization), stormwater management, curbs and gutters, pavement, contribution of land and such Land Development Code minimum landscaping improvements along the Right-of-Way as would be required for delivery of a

completed Transportation Improvement, which are non-site related improvements to the road network, or on-site or site adjacent arterial roads that are not attributable to traffic generated by the Project; and

WHEREAS, Chapter 22 of the Code of Ordinances of the City of Apopka (hereinafter, the "**Transportation Impact Fee Ordinance**") provides developers may propose to enter into impact fee agreement with the City to permit or recognize the cost of construction of specific improvements to the road network as a credit against the applicable transportation impact fees; and

WHEREAS, the Transportation Impact Fee Ordinance provides that such credits shall be an amount equal to the costs of non-site related transportation improvements to the road network including onsite and adjacent arterial roads and major collectors that are not attributable to the traffic generated by the Project; and

WHEREAS, the Transportation Impact Fee Ordinance further provides that credits are available for the contribution of land, money, or services for non-site related transportation improvements to the major road network including on-site and site adjacent arterial roads and major collectors; and

WHEREAS, the Transportation Impact Fee Ordinance further provides that credits are available for the cost of land for non-site-related roadway improvements previously contributed, paid for or committed to by the applicant or his predecessor in interest as a condition of any development permit issued by the city, including on-site and adjacent arterial roads and major collectors; and

WHEREAS, the Developer and the City wish to delineate and confirm the transportation impact fee credits due for the dedication of land for the Transportation Improvements and for the construction and/or funding of the Transportation Improvements related to the Project (hereinafter "**Transportation Impact Fee Credits**" or "**Credits**");

NOW, THEREFORE, in consideration of the mutual promises set forth in this Agreement and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Developer and City agree as follows:

AGREEMENT

1. Recitals. The Recitals set forth in the preamble to this Agreement are true and correct and are incorporated herein by this reference as if fully set out below.

2. Transportation Improvements. Developer is solely responsible for the design, permitting, and construction of the Transportation Improvements. Developer shall ensure that said design and construction occurs consistent with all applicable laws, rules, and regulations, including standards developed by the Florida Department of Transportation in accordance with Section

336.045, *Florida Statutes*. Developer shall have ten (10) years from the Effective Date of this Agreement to construct the Transportation Improvements or will lose the right to apply for Credits.

a. Acceptance by the City. Upon completion of the Transportation Improvements, the Developer may request in writing that the City conduct an inspection for the purposes of accepting the Transportation Improvements for ownership and maintenance (**"Developer's Notice"**). Upon completion of its inspection, the City shall notify the Developer of its determination in writing within thirty (30) days of Developer's Notice to the City. If the City determines that all work has been completed in conformance with the permitted construction plans and any other applicable construction, permitting, or engineering requirements, the City may notify Developer in writing of its intent to accept the Transportation Improvements for ownership and maintenance. Upon receipt of the City's written notification, Developer shall cause its contractor(s) to submit a final completion certification of the Transportation Improvements. This certification shall be accompanied by the As-Built drawings as well as any necessary warranties, waivers and releases from contractors, subcontractors, and suppliers, test certifications, operation manuals and documentation of approval of the construction by governmental authorities having jurisdiction other than the City, if any. Upon the City's review of the certification and supporting documents, the City shall notify the Developer in writing of its acceptance or denial of the Transportation Improvements for ownership and maintenance. As a condition of the City's acceptance of the Transportation Improvements, the Developer shall: (i) dedicate or convey the Transportation Improvements to the City; (ii) dedicate or convey to the City the Road Right-of-Way; and (iii) grant to the City the Service Easements The Right-of-Way shall be conveyed to the City, by standard fee simple deed with respect to the Road Right-of-Way, and by standard City easement with respect to the easement, all conveyances warranting marketable title and being free and clear of any and all liens, encumbrances, or mortgages, within ten (10) days of the City's acceptance of the Transportation Improvements for ownership and maintenance.

b. Warranty. Upon the City's acceptance of the Transportation Improvements, Developer shall obtain from its contractor(s) for the Transportation Improvements a one-year warranty (in a form reasonably acceptable to the City) on the materials and work performed. The City shall be named as an additional beneficiary on the warranty. The commencement date of the warranty shall be the date upon which the Transportation Improvements are accepted by the City in subparagraph (a) above, unless otherwise agreed to by the parties.

3. Transportation Impact Fee Credits for Improvements. In consideration of Developer's conveyance, at no cost to the City, of the Transportation Improvements, which is more than what will be attributable to traffic generated by the Project, the City agrees to award to Developer Transportation Impact Fee Credits in an amount equal to one hundred percent (100%) of all costs incurred for the design, engineering, permitting, environmental mitigation (if any), procurement of land, and construction of the Transportation Improvements consistent with the depiction of the Transportation Improvements in the attached **Exhibit "B."** The Impact Fee Credits received by Developer shall be limited to the amounts Utility Impact Fees generated

by the new construction within the Floridian Town Center and paid by any Developer, operator or other Contract Purchaser to the City of Apopka. The initial area of Impact Fee Credits is defined on **Exhibit "B."**, however this area may be expanded by the Developer if any contiguous land parcels are added to the Floridian Town Center. Any improvements that are identified in the City of Apopka CIP program shall be eligible to be credited to the improvements constructed by Developer and shall be paid as soon as the CIP funds for that improvement are released by the City of Apopka.

4. Existing Impact Fee Credits. Developer shall receive credit for the impact fees paid or vested in the previous use on the Property. Attached hereto as **Exhibit "C"** is an identification of Parcel IDs with structures that may have existing impact fees that will be credited to Developer.

5. Impact Fee Credit and Reimbursement. The Developer may apply for a credit and/or reimbursement from the City based upon a percentage of work completed by delivering to the City a certification by a third party licensed Professional Engineer indicating the percentage of work completed, through the date of the certification, which credit and/or reimbursement shall be available to Developer upon inspection, approval, and acceptance by the City. The Developer shall pay transportation impact fees pursuant to Transportation Impact Fee Ordinance until the City's first approval of a portion of the credit entitlement under this Agreement. During construction, such transportation impact fee credit shall accrue, and or reimbursement paid to the Developer in an amount equal to 100% of the costs associated with shall be available for approval and acceptance by the City.

6. Utility Infrastructure Upgrades as Transportation Improvements. Any installation and/or construction of utility infrastructure that is needed for Transportation Improvements that is a benefit to the Project and minimizes the future expense of utility infrastructure construction, which is not otherwise eligible for impact fee credit under the Utility Impact Fee Credit Agreement can be pursued for Credits under this Agreement. Notwithstanding the foregoing, Developer shall not be entitled to Credits for the same item of work under both the Utility Impact Fee Credit Agreement and this Agreement.

7. Assignment of Transportation Impact Fee Credits by Developer. The Transportation Impact Fee Credits shall be fully transferrable and assignable by Developer in accordance with this Section 7. An assignment of Transportation Impact Fee Credits can only be assigned once, not including any collateral assignments in favor of a bank, a community development district created pursuant to Chapter 190, *Florida Statutes*, or other unit of local special purpose government.

8. City Contributions. The City has purchased sections of roadway and/or parcels of land from Central Florida Expressway Authority ("**CFX**"), which will be used in the development of the Project. The funds spent by the City in acquiring the right-of-way from CFX for 1/8th of South Fork Drive and the 429 Connector Road parcel shall not be eligible for Credits to Developer under this Agreement.

9. Financial Accounting. All financial records of Developer pertaining to this Agreement shall be maintained according to generally accepted accounting principles. A separate project shall be created in the accounting records to account for the Transportation Improvements costs. The financial records shall enable ready identification of all Transportation Improvements costs.

10. Subcontracts. Developer shall be responsible for all work performed and all expenses incurred in connection with the Transportation Improvements. It is understood by the Developer that the City will not be liable to the subcontractor(s) for any expenses or liabilities incurred under any subcontract and that the Developer shall be solely liable to its subcontractor(s).

11. Independent Contractors. Developer, its agents, contractor, subcontractors, or engineers shall perform all activities that are outlined in this Agreement as independent entities and not as agents, employees, or representatives of the City, or their employees or representatives. Nothing herein operates to impose any obligation, responsibility, or liability upon the City with respect to the Transportation Improvements prior to the date of dedication to the City of the Transportation Improvements as contemplated in Section 2(a) of this Agreement.

12. Indemnification. Developer shall indemnify, release, and hold harmless the City , its agents, employees, and elected and appointed officials, from and against all liability, claims, damages, losses, and expenses (including all costs and attorneys' fees), arising out of or relating from this Agreement, and the design, permitting, and construction of the Transportation Improvements, or which are caused in whole or in part, directly or indirectly, by the negligence or willful misconduct of Developer or any of its contractors, subcontractors, or anyone directly or indirectly employed by any of them, or anyone for whose acts any of them may be liable. This provision shall survive the termination of this Agreement but only to the extent of covering acts or omissions occurring prior to the date of dedication of the Transportation Improvements. Nothing in this Agreement operates to waive the City's sovereign immunity or the limits of liability established under § 768.28, *Florida Statutes*.

13. Use and Transfer of Impact Fee Credits. The Credits granted pursuant to this Agreement may be freely transferred to successors and assigns of Developer but only to be used in connection with the development of the Project.

14. Legal Validity. No statements, representations, warranties, either written or oral from whatsoever source arising, except as expressly stated in this Agreement, shall have any legal validity between the parties or be binding upon any of them. The parties acknowledge that this Agreement contains the entire understanding and agreement of the parties. No modifications hereof shall be effective unless made in writing and executed by the parties with the same formalities as this Agreement is executed.

15. Terms. All terms and provisions of this Agreement shall be binding upon and inure to the benefit of the parties hereto, their respective assigns, successors, legal representatives, heirs, and beneficiaries, as applicable.

16. No Waiver. This Agreement does not, in any way, constitute a waiver of City's rights to approve and/or regulate development of the Property in accordance with the Code of Ordinances of the City of Apopka and any other applicable laws or regulations.

17. Interpretation. The headings contained in this Agreement are for reference purposes only and will not affect in any way the meaning or interpretation of this Agreement.

18. Legal Counsel. All the parties to this Agreement acknowledge that they have had ample opportunity to seek and consult with independent legal counsel prior to executing this Agreement and all parties represent and warrant that they have sought such independent legal advice or counsel or have knowingly or voluntarily waived this right.

19. Negotiation. The parties to this Agreement acknowledge that all terms of this Agreement were negotiated at arm's length and all documents executed in connection herewith were prepared and executed without undue influence exerted by any party. Further, this Agreement was drafted jointly by all parties and no party is entitled to the benefit of any rule of construction with respect to the interpretation of any terms, conditions, or provisions of this Agreement in favor of or against any person or party that drafted this Agreement.

20. Entire Agreement. This Agreement constitutes the entire Agreement between the parties with respect to the specific matters contained herein and supersedes all previous discussions, understandings, and agreements; provided, however, that it does not superseded the Code of Ordinances of the City of Apopka.

21. Release. At such time as the terms, obligations, and conditions of this Agreement have been met, the parties hereto agree to execute a document in recordable form, stating that said terms, obligations, and conditions have been satisfied.

22. Severability. If any term or provision of this Agreement is deemed unenforceable by a court of competent jurisdiction, the remaining terms and provisions shall remain in full force and effect so long as the purpose and the intent of the Agreement may be achieved.

23. Governing Law. This Agreement and the provisions contained herein shall be construed, controlled, and interpreted according to the laws of the State of Florida, and all duly adopted ordinances, regulations, and policies of the City now in effect and those hereinafter adopted. The location for settlement of any and all claims, controversies, or disputes arising out of or relating to any part of this Agreement or any breach hereof shall in be Orange County, Florida.

24. Due Diligence. All parties to this Agreement covenant that they shall immediately commence all reasonable action necessary to fulfill their obligations hereunder and shall diligently pursue the same throughout the existence of this Agreement.

25. Binding Effect. This Agreement, once effective, shall run with the Property described herein and shall be binding upon and enforceable by and against the parties hereto and their beneficiaries, heirs, successors, and assigns.

26. Notices.

a. All notices provided for in this Agreement shall be in writing and delivered to the addresses below:

EXECUTIVE SUMMARY

Project Information

Name:	Floridian Town Center
Location:	Northwest corner of SR 429 and the SR 429 Connector Road
Jurisdiction:	City of Apopka, Florida
Description:	504 dwelling unit apartment complex, 120 room hotel, 25,000 square foot medical office space, 160,000 square foot retail/commercial space, 55,000 square foot supermarket, 160 bed assisted living facility, and a 20,000 square foot recreational community center
Buildout Year:	2024
Access:	Directional access driveway on SR 429 Connector Road (Main Entrance), a full access driveway on Plymouth Sorrento Road via Southfork Drive, and a full access driveway via Yothers Road.

Findings

Trip Generation:	12,415 New Daily Trips / 571 AM Peak Hour Trips / 985 AM Peak Hour Trips.
Roadway Capacity:	All study segments currently operate within their adopted capacities and are projected to do so at buildout.
Intersection Capacity:	All study intersections currently operate at acceptable level of service (LOS) and are projected to do so at buildout.
Access:	Site access driveways are projected to operate at acceptable LOS at buildout.

Recommendations

Access Treatment: It is recommended to provide a 145-foot right turn lane and a 235-foot left turn lane at the project access driveway on SR 429 Connector Road.

It is recommended to provide a 240-foot right turn lane and a 265-foot left turn lane at the project access driveway on Plymouth Sorrento Road via Southfork Drive. The timing of this improvement will correspond with the internal roadway connection to Southfork as depicted in the Development Master Plan.

PROFESSIONAL ENGINEERING CERTIFICATION

I hereby certify that I am a Professional Engineer properly registered in the State of Florida practicing with Traffic & Mobility Consultants LLC, a corporation authorized to operate as an engineering business, CA-30024, by the State of Florida Department of Professional Regulation, Board of Professional Engineers, and that I have prepared or approved the evaluations, findings, opinions, conclusions, or technical advice attached hereto for:

PROJECT: Floridian Town Center

LOCATION: City of Apopka, Florida

CLIENT: Benge Development Corporation

I hereby acknowledge that the procedures and references used to develop the results contained in these computations are standard to the professional practice of Transportation Engineering as applied through professional judgment and experience.

1.0 INTRODUCTION

This traffic analysis was performed to assess the impact of the proposed Floridian Town Center development located in the northwest corner of SR 429 and the SR 429 Connector Road in the City of Apopka, Florida. The development consists of a 504 dwelling unit apartment complex, a 120-room hotel, 25,000 square foot medical office space, 160,000 square foot retail/commercial space, a 55,000 square foot supermarket, a 160-bed assisted living facility, and a 20,000 square foot recreational community center, with a proposed full buildout of the year 2024. **Figure 1** depicts the location of the project site and the surrounding roadway network. Access to the site is proposed via a directional access driveway on SR 429 Connector Road (Main Entrance), a full access driveway via Southfork Drive, and a full access driveway via Yothers Road. A preliminary site plan is provided in **Appendix A**.

The following analysis was conducted in accordance with the approved methodology included in **Appendix B**. The analysis considers the project's impacts on the following roadways and intersections within the project's influence area:

Roadway Segments

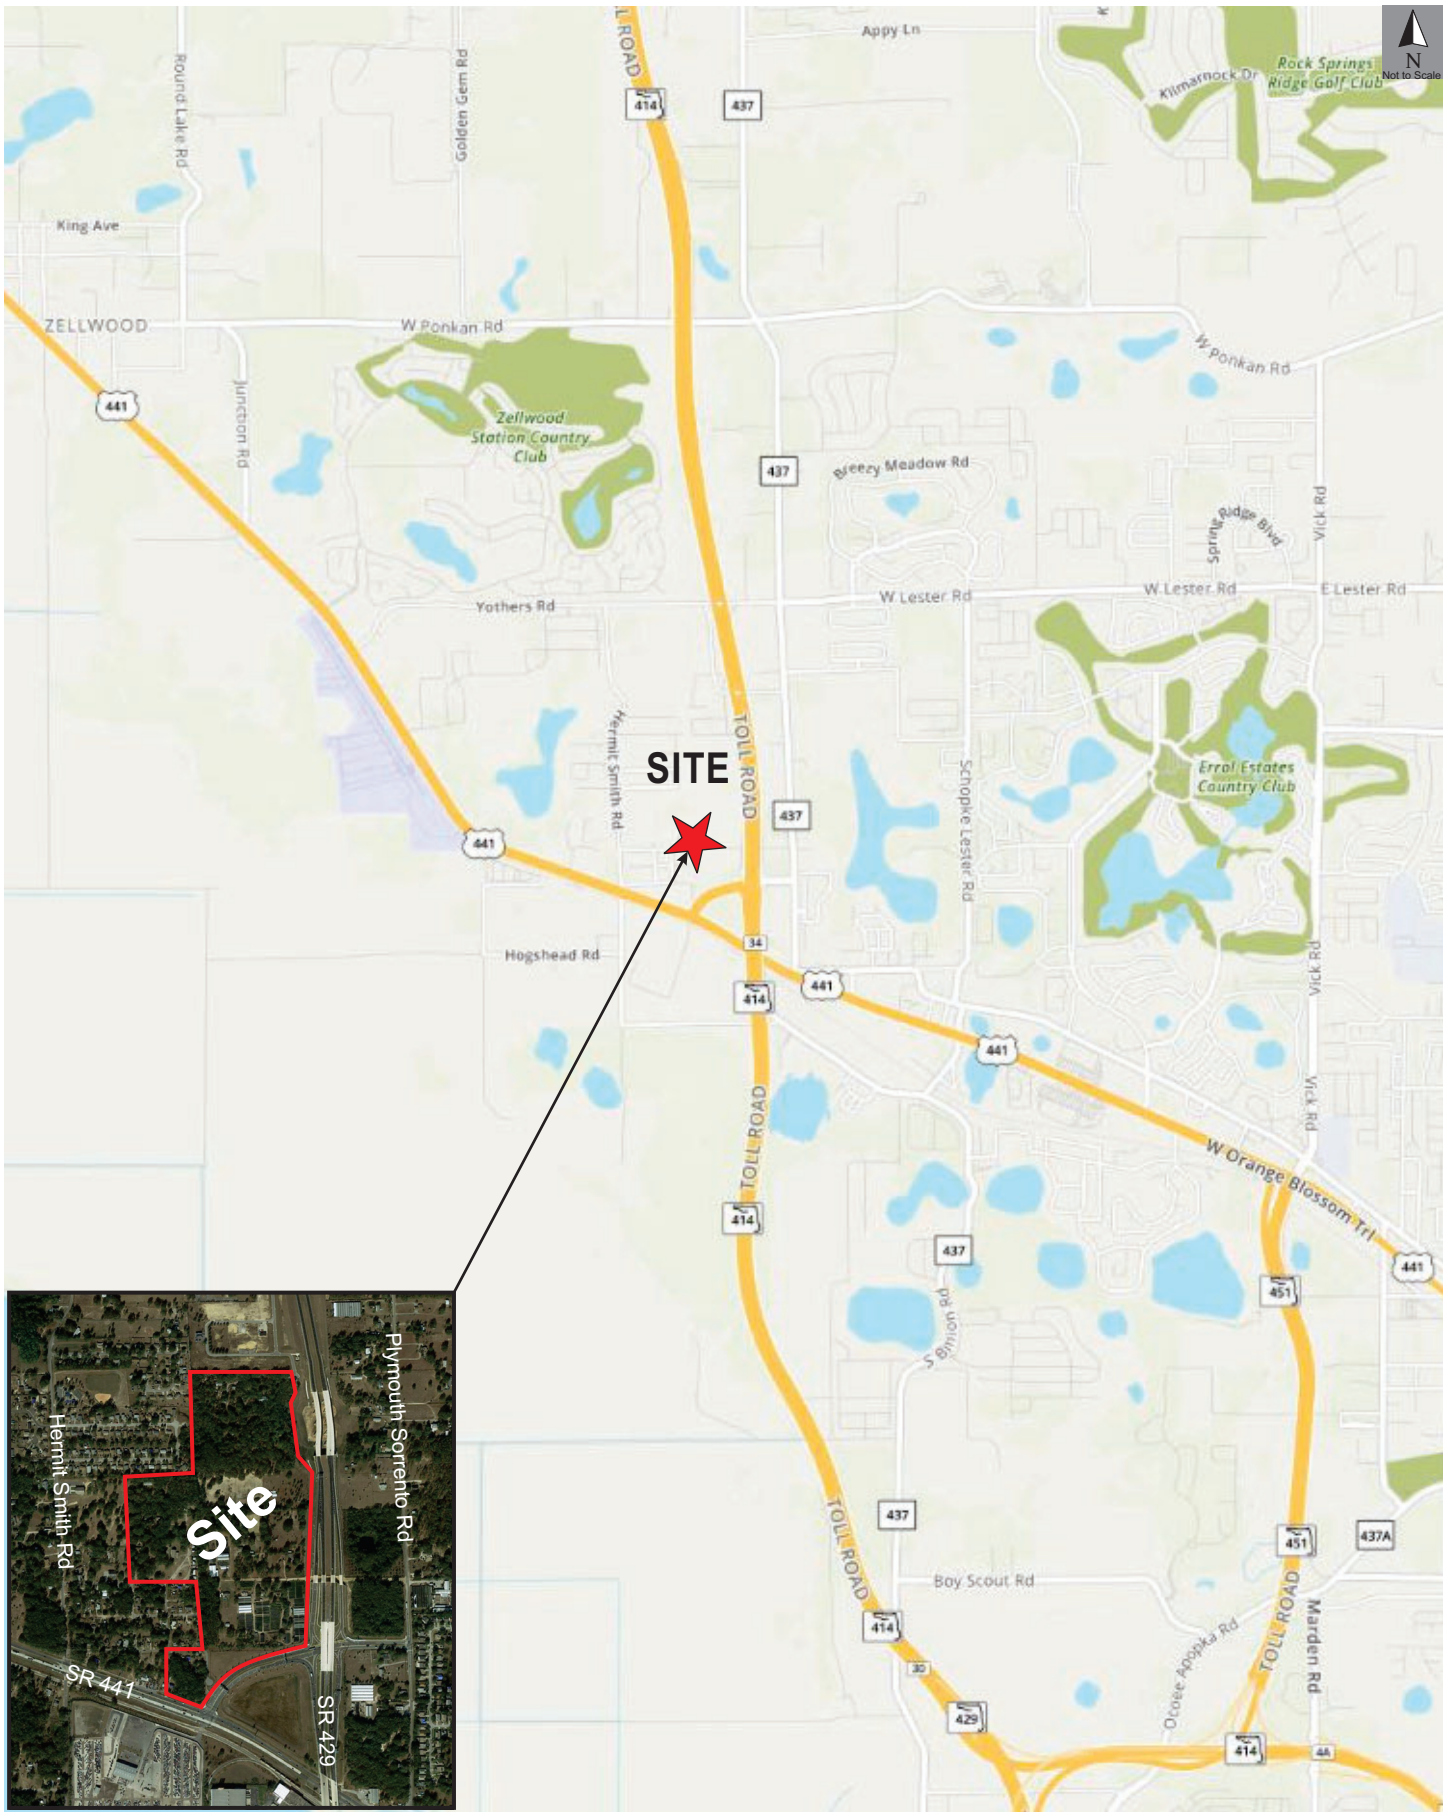
- US 441
  - Yothers Road to SR 429 Connector Road
  - SR 429 Connector Road to Plymouth Sorrento Road
  - Plymouth Sorrento Road to Boy Scout Road

- SR 429 Connector Road
  - US 441 to Plymouth Sorrento Road

- Yothers Road
  - US 441 to Plymouth Sorrento Road

- Lester Road
  - Plymouth Sorrento Road to Schopke Lester Road

- Plymouth Sorrento Road
  - Ponkan Road to Lester Road/Yothers Road
  - Lester Road/Yothers Road to Schopke Road
  - Schopke Road to SR 429 Connector Road
  - SR 429 Connector Road to US 441



Site Location Map

Intersections

- Plymouth Sorrento Road & SR 429 Connector Road
- Plymouth Sorrento Road & US 441
- Plymouth Sorrento Road & Yothers Road
- Plymouth Sorrento Road & Southfork Drive (Project Access)
- SR 429 Connector Road and SR 429 Ramps
- US 441 & SR 429 Connector Road
- US 441 & Hermit Smith Road
- US 441 & Orange Avenue
- US 441 & Lakeview Drive/Boy Scout Boulevard
- SR 429 Connector Road and Project Access
- Yothers Road and Project Access

Data used in the analysis consisted of site plan/development information provided by the project engineers, peak hour traffic counts obtained by Traffic & Mobility Consultants LLC (TMC), road segment data obtained from the City of Apopka, and seasonal data obtained from Florida Department of Transportations (FDOT).

2.0 EXISTING CONDITIONS ANALYSIS

2.1 Roadway Segment Capacity

Table 1 presents a summary of the existing conditions for the roadway segments examined in this study. Roadway segments were analyzed by comparing the existing Level of Service (LOS) for each roadway segment with the adopted LOS standard. Existing Daily, PM peak hour directional traffic volumes, capacities, and committed trips were obtained from the *City of Apopka CMS 2019 Daily and PM Peak Hour/Peak Direction Encumbered Traffic Allocation Worksheets*, included in **Appendix C**.

Table 1
Existing Roadway Capacity Analysis

Roadway Segment	No Lns	LOS Std	Daily			PM Peak Hour			
			Capacity	Volume	LOS	Capacity	Volume	Peak Dir	LOS
US 441									
Yothers Road to SR 429 Connector Road	4	D	49,500	37,394	A	2,480	1,765	SB/WB	A
SR 429 Connector Road to Plymouth Sorrento Road	4	D	49,500	25,546	A	2,480	1,181	SB/WB	A
Plymouth Sorrento Road to Boy Scout Road	4	D	49,500	26,060	A	2,480	1,107	SB/WB	A
SR 429 Connector Road									
US 441 to Plymouth Sorrento Road	4	E	39,800	14,245	C	2,000	736	NB/EB	C
Yothers Road									
US 441 to Plymouth Sorrento Road	2	E	14,000	1,959	C	720	95	SB/WB	C
Lester Road									
Plymouth Sorrento Road to Schopke Lester Road	2	E	14,000	4,220	C	720	217	NB/EB	C
Plymouth Sorrento Road									
Ponkan Road to Lester Road/Yothers Road	2	E	17,700	8,066	C	920	481	NB/EB	C
Lester Road/Yothers Road to Schopke Road	2	E	19,000	9,714	C	950	595	NB/EB	C
Schopke Road to SR 429 Connector Road	2	E	19,000	9,714	C	950	595	NB/EB	C
SR 429 Connector Road to US 441	2	E	17,700	6,787	C	880	369	NB/EB	C

Volumes, capacities, and committed trips found from City of Apopka CMS

The existing conditions analysis reveals that all study roadway segments currently operate at satisfactory LOS.

2.2 Intersection Capacity

An intersection analysis was conducted using *Synchro* software and the methods of the *Highway Capacity Manual (HCM), 6th Edition*. The capacity analysis was performed using the existing intersection geometries and traffic volumes during the AM and PM peak hours. Traffic counts were seasonally adjusted using the FDOT *2019 Peak Season Factor. Category Report*. The raw intersection volume counts and seasonal factor data are provided in **Appendix D**. The existing intersection AM and PM peak hour volumes are displayed in **Figure 2** and **Figure 3**, respectively.

A summary of the intersection capacity analysis is presented in **Table 2**, which indicates that all study intersections currently operate at satisfactory overall LOS. The detailed analysis worksheets and signal timing are included in **Appendix E**.

3.0 PROJECT TRAFFIC

3.1 Trip Generation

The traffic generation of the proposed development was calculated using the Institute of Transportation Engineers (ITE) *Trip Generation Manual, 10th Edition* and *ITE Trip Generation Handbook 3rd Edition*. The trip generation for the project is summarized in **Table 3** and the ITE information sheets, along with the internal capture calculation sheets are provided in **Appendix F**.

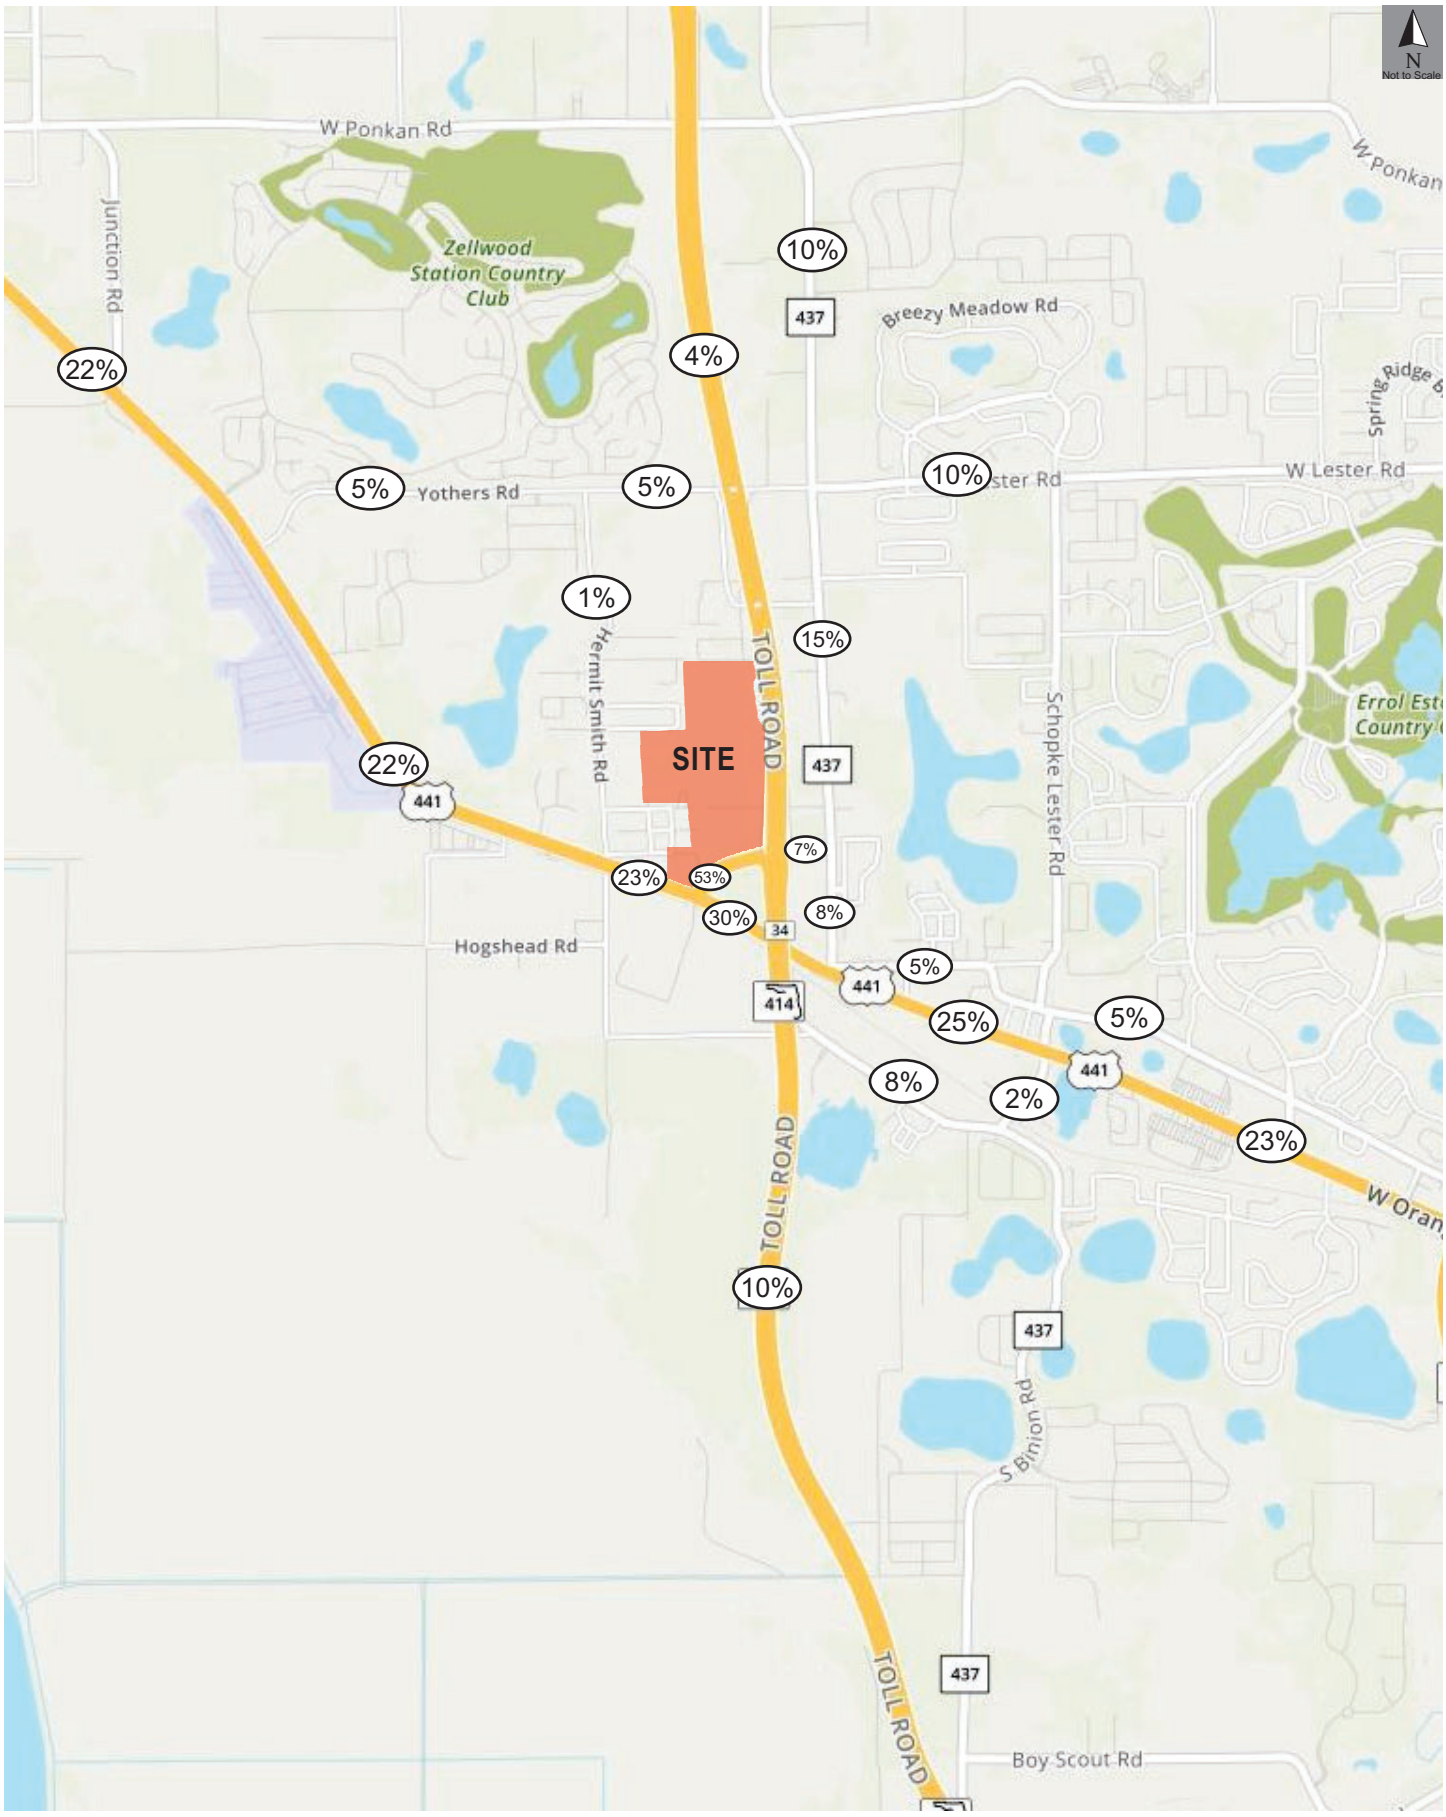
Source: ITE Trip Generation Manual, 10th Edition & Trip Generation Handbook 3rd Edition

The proposed development will generate 12,415 net external trips per day, of which 571 trips occur during the AM peak hour and 985 trips occur during the PM peak hour.

3.2 Trip Distribution/Assignment

To assign the peak hour trips generated by the proposed development to the study roadways, a distribution pattern in the general vicinity of the project site was determined initially based on the *Orlando Urban Area Transportation Study* (OUATS) model, cost feasible 2030, included in **Appendix G.** Manual adjustments were applied to the model generated distribution to better reflect the surrounding transportation network, land uses, and known access routes. The final trip distribution pattern is presented in **Figure 4.**



Project Trip Distribution
Floridian Town Center
18131.2

Figure 4

4.0 PROJECTED CONDITIONS ANALYSIS

The analysis was conducted for the projected background traffic volumes and project trips. Background traffic consists of existing traffic and committed trips (E+C), from approved developments in the area, which were obtained from the *City of Apopka CMS 2019 Daily and PM Peak Hour/Peak Direction Encumbered Traffic Allocation Worksheets*.

4.1 Roadway Segment Capacity

Projected segment traffic conditions for buildout year 2024 of the project were analyzed for daily and PM peak hour traffic. The roadway segment analysis was performed by comparing the projected LOS of the roadway with the adopted LOS standard. This analysis is summarized in **Table 4**, which reveals that all study segments will continue to operate at satisfactory LOS in the projected condition.

Table 4
Projected Roadway Capacity Analysis

			Daily							PM Peak Hour

Volumes, capacities, and committed trips found from City of Apopka CMS

4.2 Intersection Capacity

Projected intersection traffic conditions for buildout year 2024 of the project were analyzed for the AM and PM peak hour conditions. Committed trips were estimated by assigning the segment committed trips to the intersection turning movements. Then, a directional factor was applied to find the committed trips in the non-peak directions. The results of the analysis at project buildout are summarized in **Table 5.** The projected intersection volumes for the AM and PM peak hours are illustrated in **Figure 5** and **Figure 6**, respectively.

Table 5

5.0 SITE ACCESS REVIEW

The main access to the Floridian Town Center development is proposed via a directional driveway on SR 429 Connector Road, north of the intersection at US 441. Additionally, a full access driveway is proposed via Southfork Drive at Plymouth Sorrento Road. According to the City of Apopka Land Development Code, exclusive right and left deceleration lanes will be required at the project's proposed driveways. Below is the calculation of the required turn lane lengths at each driveway.

Right Turn Deceleration Lane at Project Access on SR 429 Connector Road

SR 429 Connector Road is a 6-lane divided roadway with a posted speed limit of 35 mph adjacent to the proposed project entrance. The required length of the right turn lane is based on the *Florida Design Manual Exhibit 212-1,* provided in **Appendix I.** Accordingly, the required length of the right turn lane at the project driveway is 145 feet, including a 50-foot taper.

Left Turn Deceleration Lane at Project Access on SR 429 Connector Road

The required length of the left turn lane is based on the *Florida Design Manual Exhibit 212-1,* provided in **Appendix I**. The left turn lane calculations are as follows:

95th % tile Queue Length (obtained from *Synchro*) = 3.6 vehicles = 90 feet (using 25 ft./veh)
Deceleration Distance = 145 feet
Total Left Turn Length = 90 + 145 = 235 feet (including a 50-foot taper)

The minimum recommended northbound left turn lane on SR 429 Connector Road at the project access is 235 feet (including a 50-foot taper).

Right Turn Deceleration Lane at Project Access on Plymouth Sorrento Road and Southfork Drive

Plymouth Sorrento Road is a 2-lane undivided roadway with a posted speed limit of 50 mph adjacent to the proposed project entrance via Southfork Drive. The required length of the right turn lane is based on the *Florida Design Manual Exhibit 212-1,* provided in **Appendix I**. Accordingly, the required length of the right turn lane at the project driveway is 240 feet, including a 50-foot taper.

Left Turn Deceleration Lane at Project Access on Plymouth Sorrento Road and Southfork Drive

The required length of the left turn lane is based on the *Florida Design Manual Exhibit 212-1,* provided in **Appendix I**. The left turn lane calculations are as follows:

95th % tile Queue Length (obtained from Synchro) = 1 vehicles = 25 feet
Deceleration Distance = 240 feet
Total Left Turn Length = 25 + 240 = 265 feet (including a 50-foot taper)

The minimum recommended northbound left turn lane on Plymouth Sorrento Road at Southfork Drive is 265 feet (including a 50-foot taper).

6.0 STUDY CONCLUSIONS

This traffic analysis was performed to assess the impact of the proposed Floridian Town Center development located in the northwest corner of SR 429 and the SR 429 Connector Road in the City of Apopka, Florida. The development consists of a 504 dwelling unit apartment complex, a 120-room hotel, 25,000 square foot medical office space, 160,000 square foot retail/commercial space, a 55,000 square foot supermarket, a 160-bed assisted living facility, and a 20,000 square foot recreational community center, with a proposed full buildout in the year 2024. The analysis evaluated project impacts to roadway segments and intersections within the primary site's influence area and a preliminary access review. The results of the analysis as documented herein are summarized below:

- The proposed development will generate a new daily traffic volume of 12,415 trips per day, of which 571 trips occur during the AM peak hour, and 985 trips occur during the PM peak hour.
- Analysis of roadway segment capacity reveals that all study segments currently operate within their adopted capacity and are projected to continue to do so at project buildout.
- Analysis of the study intersections indicates that all study intersections currently operate at adequate LOS and are projected to continue to do so at project buildout.
- Analysis of the project access points indicates that the proposed access intersections are projected to operate at adequate LOS at project buildout.
- The required length of the right turn lane at the project driveway on SR 429 Connector Road is 145 feet (including a 50-foot taper).
- The minimum recommended northbound left turn lane at the project driveway on SR 429 Connector Road is 235 feet (including a 50-foot taper).
- The required length of the right turn lane at the project driveway on Plymouth Sorrento Road at the intersection with Southfork Drive is 240 feet (including a 50-foot taper).
- The minimum recommended northbound left turn lane at the project access on Plymouth Sorrento Road at the intersection with Southfork Drive is 265 feet (including a 50-foot taper).
- The timing of the turn lane improvements on Plymouth Sorrento Road will correspond with the internal roadway connection to Southfork as depicted in the Development Master Plan.

Traffic Impact Analysis Methodology
City of Apopka, Florida
Project № 18131.2

The following is a methodology outline for the Traffic Impact Analysis (TIA) for the Floridian Town Center project.

Project Description

The proposed project is a development consisting of a 504 dwelling unit apartment complex, a 120 room hotel, 25,000 square foot medical office space, 160,000 square foot retail/commercial space, a 55,000 square foot supermarket, a 160 bed assisted living facility, and a 20,000 square foot recreational community center with a proposed buildout of the year 2024. A copy of the preliminary site plan is provided in the **Attachments**.

Project Location

The site is located in the northwest corner of SR 429 and the SR 429 Connector Road, in the City of Apopka, Florida, as shown in **Figure 1.**

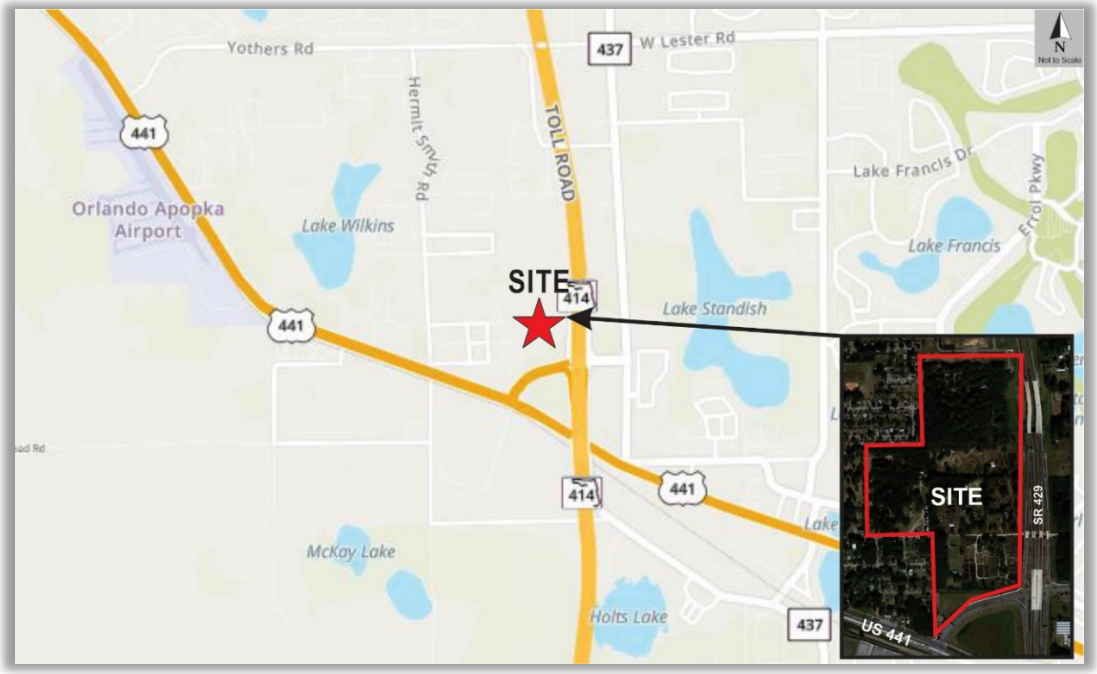

Figure 1 - Site Location

Project Access

Access to the site is proposed via a directional access driveway on SR 429 Connector Road (Main Entrance), a full access driveway on Southfork Drive, and a full access driveway to Yothers Road.

Trip Generation

The trip generation analysis was conducted using information published by the Institute of Transportation Engineers (ITE) in the *Trip Generation Manual, 10th Edition* and *Trip Generation Handbook 3rd Edition*. **Table 1** summarizes the resulting trip generation analysis. The ITE trip generation information sheets are included in the **Attachments**.

Table 1
Trip Generation

Source: ITE Trip Generation Manual, 10th Edition & Trip Generation Handbook 3rd Edition

The proposed development is projected to generate 12,415 new daily trips, of which 571 trips occur during the AM peak hour, and 985 trips occur during the PM peak hour.

Trip Distribution

The project trip distribution was estimated based on the Orlando Urban Area Transportation Study model (OUATS), Cost Feasible 2030 and modified to reflect prevailing patterns in the vicinity of the site and the surrounding land uses in the area. The OUATS model distribution plot is provided in the **Attachments** and the proposed trip distribution pattern is shown in **Figure 2.**

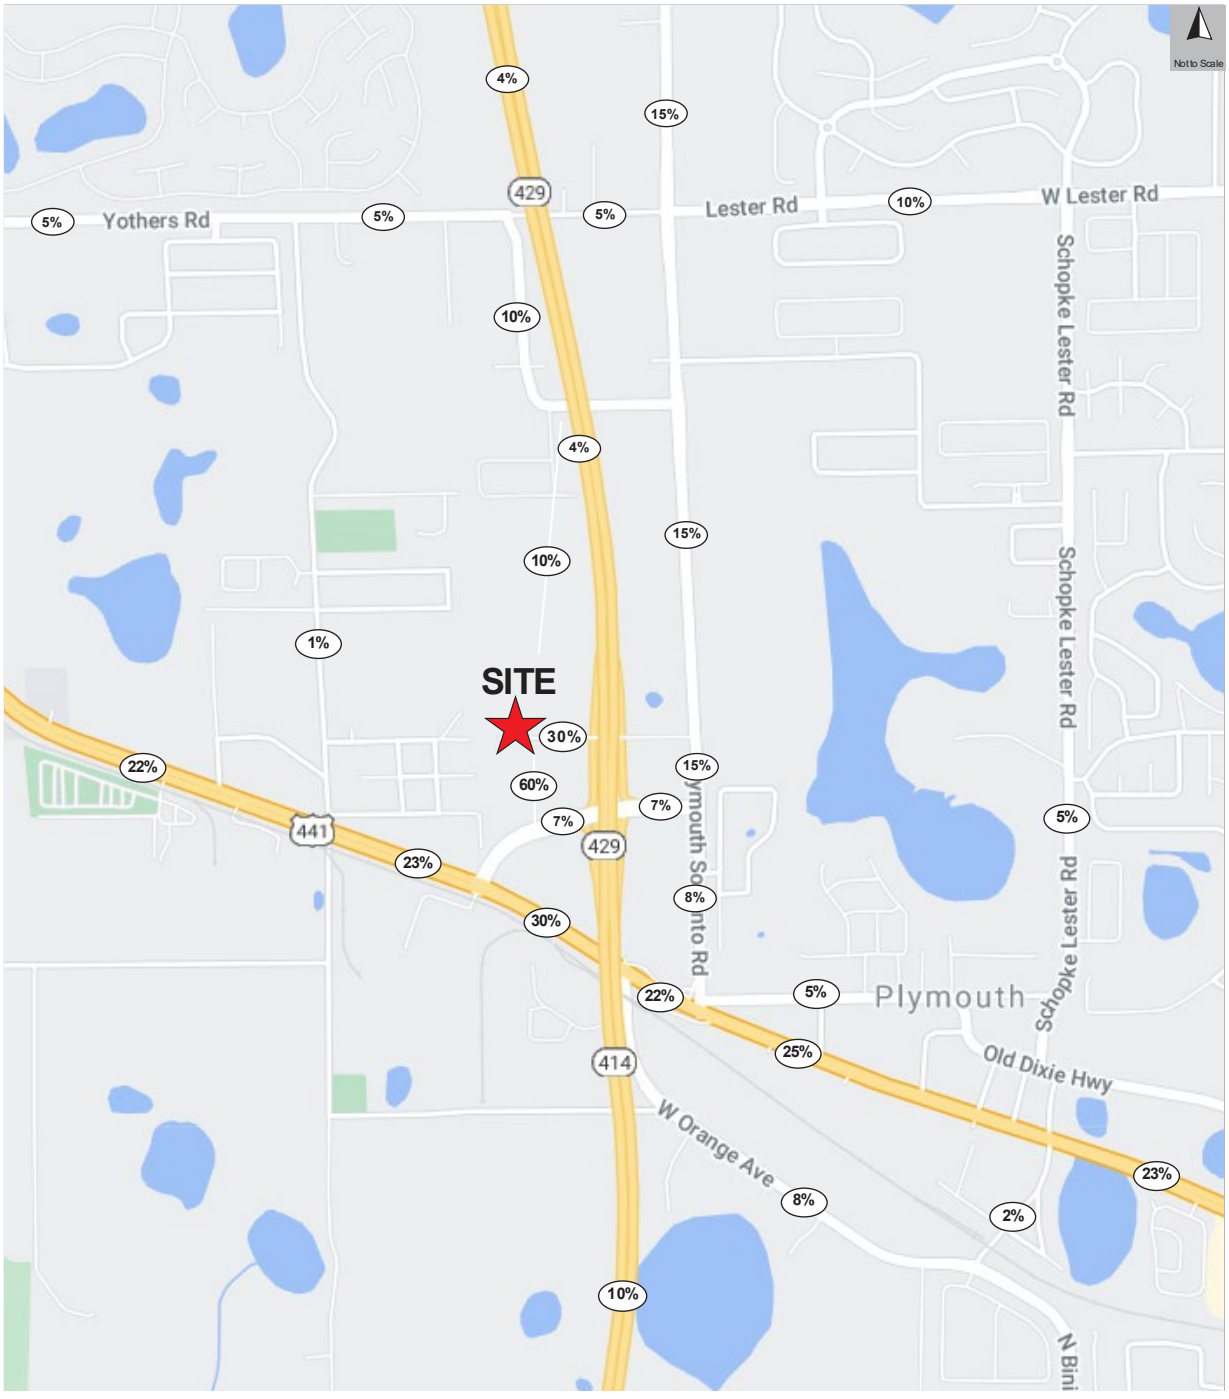

Figure 2 – Trip Distribution

Study Area

The following intersections will be analyzed for the AM and PM peak hour, and the roadway segments will be analyzed for the PM peak hour as part of this study:

Roadway Segments (within one-mile radius):

- US 441
    - Yothers Road to SR 429 Connector Road
    - SR 429 Connector Road to Plymouth Sorrento Road
    - Plymouth Sorrento Road to Boy Scout Boulevard
- SR 429 Connector Road
    - US 441 to Plymouth Sorrento Road
- Yothers Road
    - US 441 to Hermit Smith Road
    - Hermit Smith Road to Plymouth Sorrento Road
    - Plymouth Sorrento Road to Schopke Lester Road
- Plymouth Sorrento Road
    - W Ponkan Road to Yothers Road
    - Lester Road/Yothers Road to SR 429 Connector Road
    - SR 429 Connector Road to US 441

Study Intersections:

1. Plymouth Sorrento Road & SR 429 Connector Road
2. Plymouth Sorrento Road & US 441
3. Plymouth Sorrento Road & Yothers Road
4. Plymouth Sorrento Road & Southfork Drive (Project Access)
5. SR 429 Connector Road and SR 429 Ramps
6. US 441 & SR 429 Connector Road
7. US 441 & Hermit Smith Road
8. US 441 & Orange Avenue
9. US 441 & Lakeview Drive
10. SR 429 Connector Road and Project Access
11. Yothers Road and Project Access

Capacity Analysis

Roadway segment capacity will be analyzed for existing traffic and the new project peak hour directional traffic. The analysis will be based on City of Apopka adopted service volumes and capacities, as obtained from the City's latest available traffic data tables.

The study intersections will be analyzed for AM and PM peak hour conditions using the methods of the *Highway Capacity Manual* (HCM), *6th Edition*. The analysis will be performed for existing and buildout traffic conditions.

Right and left turn warrants will be conducted based on the City of Apopka's Methodology and in accordance with the City's Land Development Code for the project entrances on SR 429 Connector Road, Southfork Drive, and Klamath Loop Southfork.

Report

A traffic study report will be prepared outlining and summarizing the methods, findings, and recommendations.

Notes:

1 Base Volume from Existing Traffic Volume Tables, Available Capacity is Adopted Capacity minus (Base Volume plus Encumbered Traffic), and percentage shown represents amount of Available Capacity remaining.

2 Allowable 15% Degradation Thresholds Capacity, see attached Transportation Consulting Group's 12/29/92 letter.

CONTROLLER AND OPERATION NOTES:
* PER DRMP 429-201 AND ADJUSTED FIELD TIMINGS
TIMINGS ARE INITIAL AND MAY REQUIRE FIELD ADJUSTING AS DIRECTED BY THE PROJECT ENGINEER.
CONTROLLER ASSEMBLY - NEMA, FULLY ACTUATED EAGLE EPAC300 M52 TS-2 TYPE 2, INITIALLY OPERATED AS SOP 10 WITH FLASHER AND WIRED FOR SOP 10 CAPABILITY. THE MAJOR STREET IS CONNECTOR RD., NEMA MOVEMENTS 1, 2, 5 AND 6. THE MINOR STREET IS THE SR 429 RAMPS., NEMA MOVEMENTS 3, 4, AND 7. FLASHING OPERATION SHALL BE YELLOW FOR MOVEMENTS 2 AND 6 AND RED FOR MOVEMENTS 1, 3, 4, 5, AND 7.
SPEED LIMIT ON SR 429 CONNECTOR RD. IS 35 MPH. SPEED LIMIT ON RAMPS C AND D IS 45 MPH.
EXISTING SIGNAL TIMINGS TO REMAIN UNLESS NOTED OTHERWISE IN THE PLANS.

UPDATED 11/06/17

Re: Phase I Environmental Site Assessment Report

Dear Mr. Holloway:

Per your request and authorization, Bio-Tech Consulting, Inc. (BTC) has completed a Phase I Environmental Site Assessment (ESA) of the above referenced site located in Apopka, Orange County, Florida. The work was performed in general accordance with the ASTM International's Standard Practice E 1527-13 for Phase I ESAs and was targeted toward identifying Recognized Environmental Conditions (RECs) in connection with the property. The attached report summarizes our research, findings, and conclusions regarding the subject property.

As stated in Section 7.0 (Findings, Opinions, Data Gaps and Conclusions) of the report, this assessment revealed no RECs, no Controlled Recognized Environmental Conditions (CRECs) and no Historical Recognized Environmental Conditions (HRECs) in connection with the subject property.

We appreciate the opportunity to complete this assessment for you. Should you have any questions or require any additional information, please do not hesitate to contact our office at (407) 894-5969. Thank you.

Sincerely,

John Miklos
President

SECTION 1.0
SUMMARY

In April of 2022, Bio-Tech Consulting, Inc. (BTC) conducted a Phase I Environmental Site Assessment (ESA) of the seventeen (17) parcels, identified by Orange County as #36-20-27-0000-00-047, #36-20-27-0000-00-048, #36-20-27-0000-00-052, #36-20-27-0000-00-066, #36-20-27-0000-00-068, #36-20-27-0000-00-074, #36-20-27-0000-00-075, #36-20-27-0000-00-083, #36-20-27-0000-00-085, #36-20-27-0000-00-093, #06-21-28-7172-16-020, #06-21-28-7172-16-030, #06-21-28-7172-16-040, #06-21-28-7172-16-050, #06-21-28-7172-16-051, #06-21-28-7172-16-060, and #06-21-28-7172-16-070, which comprises the approximately 73.82-acre Collier - Apopka Site. These parcels, currently owned by Collier Benge Land Joint Venture, LLC, are located in the City of Apopka, at the physical addresses of 1374 and 1430 Plymouth Sorrento Road; 3189 Fudge Road; 3075, 3076, 3161, 3162, 3173, 3200 and 3201 Southfork Drive; 3205, 3225 and 3321 Dew Berry Avenue; 1243 and 1289 Hermit Smith Road; within Section 36, Township 20 South, Range 27 East; Orange County, Florida (Figure 1). At the time of the site investigation the subject property appeared as vacant lands with no identifiable use evident. There were no structures identified on the site during the investigation conducted.

This Phase I ESA was performed in general conformance with the scope and limitations of ASTM International's Standard Practice E 1527-13 for Phase I ESAs (hereafter referred to as ASTM E 1527-13). Any exceptions to, or deletions from, this practice are described in Section 2.8 of this report.

This assessment revealed no Recognized Environmental Conditions (RECs), no Controlled Recognized Environmental Conditions (CRECs) and no Historical Recognized Environmental Conditions (HRECs) in connection with the subject site or adjoining properties that would warrant further investigation at this time.

SECTION 2.0
INTRODUCTION

2.1 Site Location and Legal Description

The seventeen (17) parcels, identified by Orange County as #36-20-27-0000-00-047, #36-20-27-0000-00-048, #36-20-27-0000-00-052, #36-20-27-0000-00-066, #36-20-27-0000-00-068, #36-20-27-0000-00-074, #36-20-27-0000-00-075, #36-20-27-0000-00-083, #36-20-27-0000-00-085, #36-20-27-0000-00-093, #06-21-28-7172-16-020, #06-21-28-7172-16-030, #06-21-28-7172-16-040, #06-21-28-7172-16-050, #06-21-28-7172-16-051, #06-21-28-7172-16-060, and #06-21-28-7172-16-070, which comprise the approximately 73.82-acre Collier - Apopka Site, located in the City of Apopka, at the physical addresses of 1374 and 1430 Plymouth Sorrento Road; 3189 Fudge Road; 3075, 3076, 3161, 3162, 3173, 3200 and 3201 Southfork Drive; 3205, 3225 and 3321 Dew Berry Avenue; 1243 and 1289 Hermit Smith Road; within Section 36, Township 20 South, Range 27 East; Orange County, Florida. The following are the legal descriptions for the parcels as provided by the Orange County Property Appraiser's Office:

2.2 Site and Vicinity General Characteristics

2.2.1 Current Uses of the Subject Site and Adjoining Properties

In general, the subject site is situated in a former agricultural and residential use area, including homesites, and residential subdivisions. Historically the area appears to have been comprised mostly of lands associated with agricultural uses (citrus groves, nurseries and possibly some pastureland uses), undeveloped naturally vegetated uplands and wetlands and residential homesites from prior to 1940 through to the present time. In the 2000s the area started to see a decrease in agricultural usage and an increase in large-scale residential development. Since that time, residential uses have dominated the area with a continued decrease in undeveloped lands and lands utilized for agricultural purposes. At the time of the site investigation the subject property appeared as vacant lands with no identifiable use. Currently adjoining the subject property are lands associated with residential subdivisions (north and west), lands associated with single-family homesites (southwest) and the State Road 429 right-of-way (east and south).

2.2.2 Soils

According to the SSURGO Soils Map of Orange County, Florida, prepared by the U.S. Department of Agriculture (USDA) Natural Resources Conservation Service (NRCS), five (5) soil types occur within the subject property boundaries (Figure 2). The following presents a brief description of these soil types mapped for the property:

Candler fine sand, 0 to 5 percent slopes (#4) is a nearly level to gently sloping, excessively drained soil found on the uplands. The surface layer of this soil type generally consists of very dark grayish brown fine sand about 5 inches thick. The seasonal high-water table for this soil type is at a depth of more than 80 inches. Permeability of this soil type is rapid in the surface and subsurface layers and is rapid to moderately rapid in the subsoil.

Candler fine sand, 5 to 12 percent slopes (#5) is a sloping to strongly sloping, excessively drained soil found on the uplands. The surface layer of this soil type generally consists of dark grayish brown fine sand about 4 inches thick. The seasonal high-water table for this soil type is at a depth of more than 80 inches. Permeability of this soil type is rapid in the surface and subsurface layers and is rapid to moderately rapid in the subsoil.

Candler-Urban land complex, 0 to 5 percent slopes (#7) is a nearly level to gently sloping and excessively drained soil complex found in the uplands. Typically, the surface layer of Chandler soil is very dark grayish brown find sand about 4 inches thick. The subsurface layer, to a depth of about 67 inches, is very pale brown fine sand. A seasonal high-water table is at a depth of more than 80 inches. The permeability of Chandler soils is rapid in the surface and subsurface layers and rapid to moderately rapid in the subsoil.

Tavares fine sand, 0 to 5 percent slopes (#46) is a nearly level to gently sloping, moderately well drained soil found on low ridges and knolls on the uplands. The surface layer of this soil type generally consists of very dark gray fine sand about 6 inches thick. The seasonal high-water table for this soil type is at a depth of 40 to 80 inches for more than 6 months, and recedes to a depth of more than 80 inches during extended dry periods. Permeability of this soil type is very rapid throughout.

Tavares - Millhopper fine sands, 0 to 5 percent slopes (#47) are nearly level to gently sloping, moderately well drained soils found on low ridges and knolls on the uplands and on the flatwoods. Typically, the surface layer of Tavares and Millhopper soils is dark grayish brown fine sand about 6 inches thick. The seasonal high-water table for Tavares soil is at a depth of 40 to 72 inches for more than 6 months, and recedes to a depth of more than 80 inches during extended dry periods. The seasonal high-water table for Millhopper soil is at a depth of 40 to 60 inches for 1 to 4 months, and recedes to a depth of 60 to 72 inches for 2 to 4 months. Permeability of Tavares soil is very rapid. Permeability of Millhopper soil is rapid in the surface and subsurface layers and is moderately rapid or moderate in the subsoil.

Pursuant to the Hydric Soils of Florida Handbook, Fourth Edition, March 2007, the Florida Association of Environmental Soil Scientists (FAESS) does not consider the main components or inclusions in any of the soil types associated with the site to be hydric.

2.2.3 Topography

Based upon a review of the USGS Topographic Map presented in Figure 3 (Apopka, Florida Quadrangle – 1960/Photorevised 1980), the subject lands appear to have a fair amount of fall, with elevations ranging between 154 and down to nearly 100 feet above the National Geodetic Vertical Datum of 1929 (NGVD). In general, it would appear that the subject parcel slopes gradually towards the south, as well as towards the depressional area in the north.

2.3 Purpose

The purpose of this Phase I ESA was to identify RECs associated with the subject site. A REC, as defined by the ASTM International Standard Practice E 1527-13 for Phase I ESAs, refers to the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: (1) due to any release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment. *De minimis* conditions are not RECs. For the purposes of this assessment, a "release" is identified as any spilling, leaking, pumping, pouring, emitting, emptying, discharging, injecting, escaping, leaching, dumping, or disposing into the environment (including the abandonment or discharging of barrels, containers, and other closed receptacles containing any hazardous substances or pollutant or contaminant). The term "environment" includes (A) the navigable waters, the waters of contiguous zone, and the ocean waters and (B) any other surface water, groundwater, drinking water supply, land surface or subsurface strata.

An HREC is a past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted residential use criteria established by a regulatory authority, without subjecting the property to any required controls (e.g., property use restrictions, activity and use limitations [AULs], institutional controls, or engineering controls). A CREC is a REC resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority (e.g., as evidenced by the issuance of a No Further Action [NFA] letter or equivalent, or meeting risk-based criteria established by regulatory), with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls (e.g., property use restrictions, AULs, institutional controls, or engineering controls). *De minimis* conditions generally would not present material risk of harm to public health or the environment and generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies. *De minimis* conditions are not RECs.

This Phase I ESA was performed in general accordance with ASTM International Standard Practice E 1527-13 for Phase I ESAs utilizing methods and procedures consistent with good commercial or customary practice. The independent conclusions represent our best professional judgment based on information and data available to us during the course of this assessment and on the conditions that existed and information available at the time of the assessment.

2.4 Scope of Services

The Phase I ESA was performed as part of the user's due diligence process associated with a potential commercial real estate transaction (land purchase for future residential development). It is assumed it will be utilized to assess the environmental condition of the property for reasons of qualifying for one of the *Landowner Liability Protections* (LLPs) offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001 (the "*Brownfields Amendments*"). As the Phase I ESA was conducted in general compliance with the scope and instructions of ASTM E 1527-13, it should constitute "All Appropriate Inquiry" into the previous ownership and uses of the property consistent with good commercial or customary practice.

To achieve the stated purpose, the following services were performed by BTC for this assessment:

- Physical characteristics and uses of the subject property and adjoining lands were reviewed.

- Standard environmental record sources maintained by federal, state, local and tribal agencies to identify sites that could have the potential to impact the environmental quality of the subject property were reviewed. Governmental agency information is collected and compiled by a contracted data research company. The data research company report is based on a radius search which focuses both on the subject property and neighboring lands which may have impacted the site.

- The site history was reviewed in an attempt to identify possible property ownership and/or uses that would suggest an impact to the environmental integrity of the property. This is performed through review of reasonably ascertainable land title records and standard historical sources.

- A site reconnaissance was performed to visually and physically inspect the subject property. This includes a visual inspection of the portions of adjoining properties visible from the subject site and public thoroughfares.

- Interviews were conducted, when possible, with individuals and local government representatives considered likely to know useful information regarding the subject property and adjoining properties.

- A report was prepared, which included the results of our investigation, our findings, opinions, and conclusions, and a discussion of any data gaps encountered.

2.5 Significant Assumptions

The following notable assumptions were made through the course of this assessment:

- It is assumed that petroleum and/or hazardous waste discharges located greater than ¼-mile from the subject site will not affect site groundwater quality at the property.

- It is assumed the site was undeveloped and vacant on the 1947 historical aerial photograph reviewed by BTC as part of this assessment.

- It is assumed the site was in use for a first time agricultural use for citrus production on the 1947 historical aerial photograph reviewed by BTC as part of this assessment. Before the agricultural use, the site is assumed to have been undeveloped and vacant.

2.6 Limitations and Exceptions of Assessment

This Phase I ESA was conducted in a manner consistent with that level of care and skill exercised by members of the profession currently practicing under similar conditions, and was based upon the information made available to BTC at the time of this assessment. This Phase I ESA is strictly limited to the scope of services listed in Section 2.4. The Environmental Professional did not evaluate the site for conditions relating to asbestos containing building materials, biological agents, cultural and historical resources, ecological resources, endangered species, health and safety, indoor air quality/vapor intrusion (unrelated to releases of hazardous substances or petroleum products into the environment), industrial hygiene, lead-based paint, lead in drinking water, mold, radon, regulatory compliance and wetlands.

As stated in ASTM E 1527-13, the user or environmental professional is not obligated to identify, obtain, or review every possible record that might exist with respect to a property; it is only necessary to review record information that is reasonably ascertainable from standard sources. Such information is publicly available, obtainable within reasonable time and cost constraints, and practically reviewable.

A Phase I ESA is intended to reduce, but not eliminate, uncertainty regarding the potential for RECs in connection with a property. As noted by the legal analysis in ASTM E 1527-13, there may be environmental issues or conditions at a property that parties may wish to assess in connection with commercial real estate that are outside the scope of this practice. Also, some substances may be present on a property in quantities and under conditions that may lead to contamination of the property or of nearby properties but are not included in Comprehensive Environmental Response, Compensation, and Liability Act's (CERCLA) definition of hazardous substances. It is therefore recognized that the possibility exists that some hazardous substances or wastes may not be detected because it is beyond the level of inquiry for this type of study.

At the time of the site investigation the subject property appeared as vacant lands with no identifiable use evident. There were no structures identified on the site during the investigation conducted.

2.7 Special Terms and Conditions

This report, and the information contained herein, shall be the sole property of BTC until payment of any unpaid balance is made in full. Floridian Apopka Phase I Owner, LLC, hereinafter referred to as the User of this Phase I ESA report, agrees that until payment is made in full, the User shall not have proprietary interest in this report or the information contained herein. BTC shall have absolute right to request the return of any and all copies of this report submitted to other parties, public or private, on behalf of the User in the event of nonpayment of outstanding fees by the User.

2.8 Deviations

This Phase I ESA did not delete or deviate from ASTM E 1527-13.

2.9 User Reliance

This Phase I ESA was completed for use by the following entities/individuals:

- Floridan Apopka Phase I Owner, LLC and related assigns
- First American Bank
- Collier Benge Land Joint Venture LLC and related assigns
- Orange County, Florida

No other parties are authorized to rely on this report without express written permission from BTC.

SECTION 3.0
USER PROVIDED INFORMATION

In order to qualify for one of the Landowner Liability Protections (LLPs) to CERCLA liability, the user of a Phase I ESA must provide specific information (if available) to the environmental professional (EP) conducting the assessment. This task is intended to help identify the possibility of RECs in connection with the subject property. Failure of the user to provide this information could result in a determination the "All Appropriate Inquiry" is not complete. The User Questionnaire was not returned in the timeframe allotted for this assessment. The following provides a summary of the questionnaire items:

3.1 Environmental Liens or Activity and Use Limitations

An environmental lien is defined as a charge, security or encumbrance upon title to a property to secure the payment of a cost, damage, debt, obligation or duty arising out of response actions, cleanup, or other remediation of hazardous substances or petroleum products upon a property. Activity and Use Limitations (AULs) collectively are institutional (legal) restrictions and engineering (physical) controls, put in place to prevent adverse impacts to individuals and populations resulting from exposure to hazardous substances and petroleum products.

It is the user's responsibility to check, or engage a title company or title professional to check ascertainable, recorded land title records for environmental liens and AULs, if any, that are currently recorded against the property. Any environmental liens or AULs so identified shall be reported.

No response was provided regarding any environmental liens or AULs associated with the subject property. BTC is unaware of any environmental liens or AULs associated with the subject property

3.2 Specialized Knowledge

No response was provided regarding specialized knowledge associated with the past or present uses of the subject site or nearby properties that is material to RECs in connection with this assessment.

3.3 Valuation Reduction for Environmental Issues

BTC was not informed of a valuation reduction for environmental issues. No response was provided regarding a valuation reduction for environmental issues.

3.4 Commonly Known or Reasonably Ascertainable Information

No response was provided regarding the past uses of the property. The user also provided no response regarding knowledge of any past or present chemical use or storage on the site, any spills or other chemical releases that have taken place at the parcel, or any environmental cleanups that have occurred on the property.

3.5 Obvious Indicators of Releases

No response was provided regarding any obvious indicators that point to the presence or likely presence of contamination at the property.

3.6 Reason for Performing Phase I ESA

No response was provided regarding the reason for requesting this this Phase I ESA. It is assumed that is was requested as part of the user's due diligence process associated with a potential commercial real estate transaction (land purchase for future residential development) and will be utilized to assess the environmental condition of the property for reasons of qualifying for the innocent landowner defense to CERCLA liability.

3.7 Title Records

No historical ownership (chain-of-title) information for the subject property was provided to BTC by the user of this assessment. Based on a review of available historical aerial photographs (dating from 1947 through 2022), as well as information gathered via interviews and during our site visit, it appears that past/present owners of the site, to at least the mid-1940s, have only used the property for agricultural and residential uses (no developed uses other than for agricultural purposes for citrus production and nursery, along with rural, residential uses identified on-site). Based on this information, it appears that no past owners of the site represented entities of heavy industrial, chemical production, or waste disposal repositories.

Please note that properties occurring in areas with a historic use focused on cattle ranching during the period 1906 to 1961 may include, or be in close proximity, to a historic cattle dip vat. Failure to provide chain of title information limits the environmental professional's ability to cross-reference past ownership of the subject property with the State's list of historic cattle dip vat locations.

SECTION 4.0
RECORDS REVIEW

As a component part of our Phase I ESA investigations, reasonably ascertainable standard Federal, State and Tribal environmental records are reviewed. In addition, historical record sources such as aerial photographs, ascertainable Sanborn Fire Insurance Maps, City Directories and topographic maps are reviewed. The purpose of the records review is to obtain and review records that will help identify potential RECs in connection with the subject site. The following sections detail these activities.

4.1 Standard Federal and State Environmental Records

BTC reviewed standard environmental record sources, consisting of Federal, State and Tribal environmental databases compiled by Environmental Data Resources, Inc. (EDR) of Shelton Connecticut. The complete regulatory database report provided by EDR (Report #6925306.2s) is included with this report as Appendix A. Each database has a corresponding search radius as specified by ASTM E 1527-13. Facilities identified to be within this search radius are listed within this subsection. BTC also reviewed unmappable sites, which cannot be precisely located, generally due to inaccurate or missing location information in the record provided by the agency. Any unmappable site identified to be located within its applicable search radius of the site is discussed in the relevant section below.

The following table summarizes the databases reviewed, their ASTM search radii and the number of facilities identified in the environmental database review. Supporting information for each database is provided in the sections referenced. Additionally, database descriptions are included in the attached database report.

ENVIRONMENTAL RECORD SOURCES	ASTM Search Distance (miles)	Listings within Search Distance	Reference Section
Standard Federal Sources			
Federal NPL Site List	1.0	0	4.1.1
Federal Delisted NPL Site List	0.5	0	4.1.1
Federal CERCLIS List/Superfund Enterprise Management System (SEMS)	0.5	0	4.1.2
Federal CERCLIS-NFRAP Site List	0.5	0	4.1.3
Federal RCRA-CORRACTS Facilities List	1.0	0	4.1.4
Federal RCRA-Non CORRACTS TSD Facilities List	0.5	0	4.1.5
Federal RCRA-Generators List	Target and Adjoining Properties	0 0 (Non-Gen)	4.1.6

Federal Institutional Controls/Engineering Controls Registries	Property Only	0	4.1.7
Federal ERNS List	Property Only	0	4.1.8
Standard State and Tribal Sources			
State and Tribal Hazardous Waste Sites (SHWS) – *CERCLIS equivalent*	0.5	0	4.1.9
State and Tribal Solid Waste/Landfill Facilities (SWF/LF)	0.5	1	4.1.10
State and Tribal Leaking Underground Storage Tank Sites (LUST)	0.5	3	4.1.11
State Registered Underground Storage Tank and Aboveground Storage Tank Lists (AST and UST)	Target and Adjoining Properties	0	4.1.12
State and Tribal Institutional Control/ Engineering Control Registries	Property Only	0	4.1.13
State and Tribal Voluntary Cleanup Sites (VCP)	0.5	0	4.1.14
State and Tribal Brownfields Areas/Sites	0.5	0	4.1.15
Additional Environmental Records			
State Dry-cleaning Facilities (DRYCLEANERS)	0.25	0	4.1.16
State Dry-cleaning Priority Ranking List (PRIORITYCLEANERS)	0.5	0	4.1.17
State Delineated Areas - Ethylene Dibromide (DEDB) Database	0.5	0	4.1.18
Florida Cattle Dip Vat Sites	0.25	0	4.1.19
Unmappable Sites		0	4.1.20

4.1.1 Federal National Priorities List (NPL) and Delisted NPL

The NPL itemizes facilities and/or locations with confirmed environmental contamination. The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. The Delisted NPL identifies sites where no further response has been deemed appropriate.

There were no NPL sites identified within one mile of the subject site and no Delisted NPL sites identified within one-half mile of the subject property.

4.1.2 Federal CERCLIS List/Superfund Enterprise Management System (SEMS)

The U.S. Environmental Protection Agency (USEPA) renamed the CERCLIS list to Superfund Enterprise Management System (SEMS) in 2015. The SEMS contains data on potential hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). The SEMS contains sites which are either proposed for inclusion on the National Priorities List (NPL) or are in the screening and assessment phase for possible inclusion on the NPL. A listing in the SEMS does not always indicate the presence of contamination, only that the site is being investigated.

There were no CERCLIS/SEMS sites identified within one-half mile of the subject property.

4.1.3 Federal CERCLIS No Further Remedial Action Planned (NFRAP)

The CERCLIS NFRAP is an identification of those facilities and/or locations which have been removed from the EPA inventory of potential and confirmed hazardous waste sites (CERCLIS sites). This database was created in an effort to help cities, states, private investors and affected citizens promote economic redevelopment.

There were no CERCLIS NFRAP sites identified within one-half mile of the subject property.

4.1.4 Federal Resource Conservation and Recovery Act Information System (RCRA) – CORRACTS Facilities List

The RCRA-CORRACTS list identifies hazardous waste handlers with RCRA corrective action activity.

There were no CORRACTS (corrective action) sites identified within one mile of the subject property.

4.1.5 Federal RCRA – Non-CORRACTS TSD Sites

The RCRA-TSD list identifies facilities and/or locations that are associated with the treating, storing or disposal of hazardous substances or waste. The facilities listed in the TSD list are potential sources of contamination although no release has necessarily been reported at these sites.

There were no Non-CORRACTS TSD (treatment, storage & disposal) sites identified within one-half mile of the subject property.

4.1.6 Federal RCRA – Generator Sites

The RCRA-Generators list identifies facilities and/or locations associated with the handling, storing or transporting hazardous substances or waste. The facilities listed in the RCRA-Generators list are potential sources of contamination although no release has necessarily been reported at these sites.

Neither the subject property nor immediately adjoining properties are identified as RCRA Generator sites in the available radius information.

4.1.7 Federal Institutional Control/Engineering Control Registries

The Institutional Control and Engineering Control Registries are listings of sites with institutional or engineering controls in place. Institutional controls include administrative measures and post remediation care requirements intended to prevent exposure to contaminants remaining on a site. Engineering controls include various forms of caps, building foundations, liners, and treatment methods to create pathway elimination for regulated substances to enter environmental media or effect human health.

The subject property is not identified in association with any Federal institutional and/or engineering controls.

4.1.8 Federal Emergency Response Notification System (ERNS)

The ERNS lists information on releases of petroleum products and hazardous waste. The ERNS list identifies those facilities and/or locations that have been reported to the USEPA under the Emergency Response Notification System because of the release of potentially hazardous material.

The subject property is not identified as an ERNS site.

4.1.9 State Hazardous Waste Sites (SHWS)

The State Hazardous Waste Sites List (SHWS) is the State equivalent to the CERCLIS list. These sites may or may not already be listed on the Federal CERCLIS list.

There were no SHWS sites identified within one-half mile of the subject property.

4.1.10 State Solid Waste/Landfill Facilities (SWF/LF)

The SWF/LF list includes facilities and/or locations identified with the handling or land filling of solid waste. Inclusion of a site on the SWF list does not indicate that contamination has been reported, but rather that there is the potential.

There was one (1) SWF/LF site identified within one-half mile of the subject property. This area SWF/LF listing is reported as follows:

- **Shalom Tire and Auto Service**
  3355 West Orange Blossom Trail
  Apopka, Florida 32712
  Approximately 1950-feet WSW (cross/down-gradient)
  Facility ID: #101358
  Classification: Waste Tire Collection Center
  Facility Status: Exempt from SW Permitting/Registration (E)

The Shalom Tire and Auto Service listing is reported as a waste tire collection center last inspected by the FDEP on June 17, 2013. The site is not identified in association with any compliance/enforcement or permitting/cleanup documents in public file information gathered from the Florida Department of Environmental Protection's Division of Waste Management OCULUS System. Based on this information, as well as the nature of the operations at this facility, this area SWF/LF listing does not appear significant to the subject site and this assessment at this time.

4.1.11 State Leaking Underground Storage Tanks (LUST)

The State Leaking Underground Storage Tank (LUST) list was screened via the Florida Department of Environmental Protection's (FDEP's) Division of Waste Management OCULUS System. The LUST list includes specifically those sites that have reported incidences of leaks or discharges associated with underground storage tanks (USTs).

There were three (3) LUST sites identified within one-half mile of the subject property. These area LUST listings are reported as follows:

- **Fiskars Brands Inc.**
  3000 West Orange Avenue
  Apopka, Florida 32703
  Facility ID #9503025
  Facility Status: Closed Industrial Plant
  Discharge Cleanup Status: SRCR – SRCR Complete as of 04/11/2002

Based on a review of public file information gathered from the FDEP's Division of Waste Management OCULUS System, the Fiskars Brands Inc. site is associated with a discharge of vehicular diesel to soil and groundwater reported in August of 1994. This listing does not appear significant to the subject property and this assessment at this time (potential for discharges associated with this reported listing to have impacted the subject property is low). This determination is based on cleanup status achieved/rendered (SRCR – SRCR Complete as of 04/11/2002), as well as soil and groundwater assessment sampling results and flow determinations detailed in various site investigation reports (completed by others) and agency correspondence reviewed by BTC as part of this assessment.

- **Diamond Food Mart**
  2901 West Orange Blossom Trail
  Apopka, Florida 32712
  Facility ID #8513126
  Facility Status: Open Retail Station
  Discharge Cleanup Status – RA – RA Ongoing as of 10/12/2004

Based on a review of public file information gathered from the FDEP's Division of Waste Management OCULUS System, the Diamond Food Mart site is associated with a discharge of unleaded gasoline to soil and groundwater reported in July of 1990. This listing does not appear significant to the subject property and this assessment at this time (potential for discharges associated with this reported listing to have impacted the subject property is low). This determination is based on the physical distance from the subject property, the topographic character within the area, soil and groundwater assessment sampling results and flow determinations detailed in various site investigation reports (completed by others) and agency correspondence reviewed by BTC as part of this assessment. The following provides excerpts from a General Site Assessment Report and No Further Action Proposal dated November 11, 2019, prepared by Advanced Environmental Technologies, LLC., for this area LUST site:

CONCLUSIONS
The July 25, 2019, groundwater elevation data indicated a northerly flow direction. On July 25, 2019, AET collected groundwater samples from two (2) monitor wells (MW-6 and MW-9R) and submitted for laboratory analysis using EPA Method 8260 (BTEX/MTBE) and 8270 (PAHs). The July 25, 2019, groundwater analytical data did not reveal concentrations above the GCTLs from the locations sampled. In September 2017, soil confirmation samples were collected from soil boring locations SB-2A (former SB-10), SB-5A (former SB-7) and SB-10A (former SB-11) that previously reported soil concentrations above the Soil Cleanup Target Levels (SCTLs). The 2017 soil samples did not report soil concentrations above the SCTLs

RECOMMENDATIONS
AET recommends that this site be approved for No Further Action and that a Site Rehabilitation Completion Order be issued after proper abandonment of all wells. A change order or new purchase order will be required to abandon all the on-site and off-site wells associated with the site.

While it appears there still may be an issue with potential lead contamination associated with the site based on our review of readily available public file records, this area LUST site does not appear significant to the subject site and this assessment at this time.

- **Southland Garden Nursery**
  700 South Hermit Smith Road
  Apopka, Florida 32768
  Facility ID #8513126
  Facility Status: Closed
  Discharge Cleanup Status – NFAC Complete as of 3/27/2020

Based on our review of readily available public file records as well as the location of the site being at the limit of the radius and being significantly downgradient, this area LUST site does not appear significant to the subject site and this assessment at this time.

4.1.12 State and Tribal Registered Storage Tank Lists (AST/UST)

The State and Tribal Registered Storage Tank lists include all facilities and/or locations that are required by Florida Administrative Code (F.A.C.) to register aboveground storage tanks (ASTs) and underground storage tanks (USTs). Inclusion on these lists does not indicate that a release of petroleum product has occurred, but rather that there is the potential for a release. The AST and UST registries were screened via the FDEP's OCULUS System.

Neither the subject site nor adjoining properties are identified as being associated with registered ASTs or USTs.

4.1.13 State Institutional Control/Engineering Control Registries

The Institutional Control and Engineering Control Registries are listings of contaminated sites in the State which are subject to institutional or engineering controls. Institutional controls include administrative measures and post remediation care requirements intended to prevent exposure to contaminants remaining on a site. Engineering controls encompass a variety of engineered remedies to contain and/or reduce contamination, and/or physical barriers intended to limit access to a property.

The subject property is not identified in association with any State institutional and/or engineering controls.

4.1.14 State Voluntary Cleanup Sites (VCP)

The VCP database lists facilities and/or locations that are associated with voluntary cleanup activities.

There were no VCP sites identified within one-half mile of the subject property.

4.1.15 State Brownfields Areas/Sites

Brownfields are defined by the FDEP as abandoned, idled, or underused industrial and commercial facilities where expansion or redevelopment is complicated by real or perceived environmental contamination. The primary goals of Florida's Brownfields Redevelopment Act (Ch. 97-277, Laws of Florida, codified at ss. 376.77-.85, F.S.) are to reduce health and environmental hazards on existing commercial and industrial sites that are abandoned or underused due to these hazards and create financial and regulatory incentives to encourage redevelopment and voluntary cleanup of contaminated properties. A "brownfield area" means a contiguous area of one or more brownfield sites, some of which may not be contaminated, that has been designated as such by a local government resolution. Such areas may include all or portions of community redevelopment areas, enterprise zones, empowerment zones, other such designated economically deprived communities and areas, and USEPA designated brownfield pilot projects.

There were no State Brownfield Areas/Sites identified within one-half mile of the subject property.

4.1.16 State Dry-cleaning Facilities (DRYCLEANERS)

The DRYCLEANERS database includes information about permitted dry cleaner facilities. A listing on the DRYCLEANERS database does not indicate that a release has occurred, but rather that there is the potential for a release.

There were no DRYCLEANERS sites identified within one-quarter mile of the subject property.

4.1.17 State Dry-cleaner Priority Ranking List (PRIORITYCLEANERS)

The PRIORITYCLEANERS database is a listing of all facilities that have applied for a state funded program which aids in the cleanup of properties that are contaminated as a result of the operations of a dry-cleaning facility or wholesale supply facility. A listing on PRIORITYCLEANERS indicates that a release has occurred, although the quantity released may not pose a threat to either the releasing facility or to surrounding properties.

There were no PRIORITYCLEANERS sites identified within one-half mile of the subject property.

4.1.18 State Delineated Areas - Ethylene Dibromide (DEDB) Database

Ethylene Dibromide (EDB) is a carcinogenic compound determined by the USEPA to have the potential to produce adverse health effects from prolonged consumption. EDB was used as a soil fumigant between 1962 and 1983 to control nematodes on citrus groves, golf courses and some other crops such as peanuts and soybean. It also was an additive to leaded gasoline from the 1920s until leaded gasoline was phased out in the 1980s. Subsequently, EDB was identified as a carcinogen and as a groundwater contaminant associated with older leaking underground storage tank sites (LUSTs), as well as with certain historical agricultural lands.

The FDEP now delineates areas of EDB contamination, which are codified under Chapter 62-524, F.A.C. Although EDB sites have been confirmed in twenty-two (22) Florida counties, most of the sites are located in five (5) counties: Highlands, Jackson, Lake, Orange and Polk. The Delineated Areas-Ethylene Dibromide database (DEDB) identifies those locations where the FDEP has delineated a 1000-foot setback zone from a confirmed EDB-contaminated groundwater well or in areas where EDB was historically applied, but for which groundwater quality data is limited. While a review of this database is not required specifically by the ASTM standard, an investigation of this information is considered good commercial and customary practice in Florida, particularly in historic citrus growing areas [or the five (5) aforementioned counties], out to a radius of one-half mile from a subject property.

There were no DEDB test sites identified within one-half mile of the subject property in the available radius information. In order to further assess the potential for EDB to have affected the subject property, a review of FDEP Groundwater Contamination Areas data was conducted as part of this assessment. This review did not identify the subject property as being located within a known historical EDB application area, pursuant to Chapter 62-524, F.A.C., New Potable Water Well Permitting in Delineated Areas.

4.1.19 Florida Cattle Dip Vat Sites

The State Cattle Dip Vat database lists the known locations of historic cattle dip vats. According to the Florida Department of Health, approximately 3,400 cattle-dipping vats were constructed on private properties throughout Florida from 1906 through 1962. These vats were used in an effort to eradicate cattle fever ticks, and State law required that all cattle, horses, mules, goats, and other susceptible animals be dipped every fourteen (14) days. The vats contained insecticide solutions that were mixed on site and therefore, most were located near a water source. The sites consisted of a concrete trough, typically measuring 30-feet long, 3-feet wide and up to 7-feet deep, with a drip pad at the exit and a drip pen beyond the pad.

It is now known that the solutions used in these cattle-dipping vats are harmful to humans and areas with the vats may have contaminated soils and groundwater in their vicinity. The most significant contaminant of concern at cattle dip vat locations is arsenic, although other potential contaminants include BHC, DDT, DDE and toxaphene. The original State records typically identified vat locations descriptively or by property owner and did not include an address or map location.

Consequently, while eighty-five (85) cattle dip vats are listed as having been constructed in Orange County, only one (1) of them has been mapped in recent years. Hence, properties located in areas with an historic land use of cattle ranching may have or be in close proximity to an historic cattle dip vat.

There were no cattle dip vat sites identified within one-quarter mile of the subject property in the available radius report.

4.1.20 Unmappable Sites

BTC reviewed the EDR Orphan Summary (unmapped sites included in databases) as part of this assessment. Unmappable sites are those for which inadequate location information exists (i.e. no definitive street address, zip code or latitude/longitude data) for a practical review.

Based on the information reviewed, there were no orphan sites listed within close proximity to the subject property.

4.2 Additional Environmental Records Sources

Additional environmental record sources considered during the course of this study included two (2) Responsible Party (RESP PARTY) sites that were included in the radius report obtained by BTC for the property. These area RESP PARTY listings are reported as follows:

- **Fiskars Brands Inc.**
  3000 West Orange Avenue
  Apopka, Florida 32703
  Approximately 1,550-feet SSW (cross/down-gradient)
  Site ID #342206
  Project ID #350470
  Site Status: Closed

Based on a review of public file information gathered from the FDEP, it appears the Fiskars Brands Inc. RESP PARTY listing is associated with an exterior area of oil-stained pavement and soil observed near the manufacturing building associated with this facility. The staining is reported as covering approximately 20-square feet of paved area and 10-square feet of soil. Based on the public file information reviewed, the affected soil was excavated, the pavement was power washed and confirmation soils samples were collected in December of 2015 and January of 2016. Information included in the radius report for this record notes that the best available evidence regarding the file demonstrated that contamination above applicable standards or criteria did not extend off-site from this facility. Based on this information, as well as the location of this site with respect to the subject and the topographic character in the area, the Fiskars Brands Inc. RESP PARTY listing does not appear significant to the subject property and this assessment at this time (potential for discharges at this facility to have impacted the subject property appears low).

- **Progress Energy SARAP Plymouth**
  3001 West Orange Avenue,
  Apopka, Florida 32703
  Approximately 1,900-feet S (cross/down-gradient)
  Site ID #314616
  Project ID #334926
  Site Status: Closed Cleanup Status: CR – CR Complete as of 12/10/2012

Based on a review of public file information gathered from the FDEP, it appears the Progress Energy SARAP Plymouth listing was historically associated with a discharge from a pad-mounted electrical transformer that was addressed to the FDEP's satisfaction in 2012. The following provides the Review of Report, "Substation Assessment and Remedial Action Plan Report Plymouth Substation Orange County" issued by the FDEP on December 10, 2012:

The Central District's Waste Cleanup Program has reviewed the has reviewed the June 28, 2012 "Substation Assessment and Remedial Action Plan Report Plymouth Substation Orange County" for the Progress Energy pad-mounted transformer site located at 3001 Orange Ave in Apopka, Orange County, Florida. The report submitted on your behalf on July 12, 2012 by S&ME, Inc.

Based on the results documented in the report, the Department has determined the requirements of the Department approved February 2011 Substation Assessment and Remedial Action Plan (SARAP) have been met and additional action will not be required at this time.

Based on this information, as well as the location of this site with respect to the subject and the topographic character in the area, the Progress Energy SARAP Plymouth RESP PARTY listing does not appear significant to the subject property and this assessment at this time (potential for discharges at this facility to have impacted the subject property appears low).

4.3 Historical Use Information - Subject and Adjoining Properties

4.3.1 Historical Aerial Photographs

The land use history of the subject site and adjoining properties was determined, in part, through analysis of historical aerial photographs dating from 1947 through 2022 (see Appendix B). The aerials were obtained from the Florida Department of Transportation (FDOT) and the University of Florida (Publication of Archival, Library & Museum Materials - PALMM). The purpose of the review was to identify evidence of structures, objects, or disturbances at the site and surrounding areas which may indicate the presence of RECs at the time the aerial photographs were taken. Our observations are summarized below:

1947 Historical Aerial Photograph

The subject property appears as agricultural lands in use for citrus crop production, cleared lands and naturally vegetated lands on the 1947 aerial photograph. There are no structures or other improvements evident on the subject site at this time. Adjoining lands appear either similar to the subject site (agricultural lands in use for citrus crop production), as undeveloped lands covered by natural vegetation or as a residential homesites on the 1947 aerial photograph. Located to the south is a roadway along the current State Road 441 right-of-way alignment.

1954 Historical Aerial Photograph

Other than the residential homesites on the west-central portion of the subject property, land clearing to the west and additional homesites to the southwest, no significant changes appear on the subject or immediately adjoining properties.

1969 Historical Aerial Photograph

Other than construction of a homesite and additional clearing in the northern portion of the subject property, the appearance of homesites to the southwest, no significant changes appear on the subject or immediately adjoining properties.

1974 Historical Aerial Photograph

Other than a residential subdivision adjoining to the west, no significant changes appear on the subject or immediately adjoining properties.

1978 Historical Aerial Photograph

Other than some clearing on the western portion of the subject property and additional buildings offsite to the northeast and east, no significant changes appear on the subject or immediately adjoining properties.

1984 Historical Aerial Photograph

Aside from the development of the lands for nursery operations, conversions for residential use to the west and the appearance of Southfork Dive to the west, no significant changes appear on the subject or immediately adjoining properties.

1990 Historical Aerial Photograph

Aside from the appearance of expansion of the onsite nursery operations, a rural homesite in the western portion of the property, and a residential subdivision to the northwest no significant changes appear on the subject or immediately adjoining properties. The subject site appears idle and no longer in use for citrus production at this time.

1995 Historical Aerial Photograph

No significant changes appear on the subject or immediately adjoining properties.

1999 Historical Aerial Photograph

No significant changes appear on the subject or immediately adjoining properties.

2002 Historical Aerial Photograph

No significant changes appear on the subject or immediately adjoining properties.

2006 Historical Aerial Photograph

No significant changes appear on the subject or immediately adjoining properties.

2010 Historical Aerial Photograph

Other than clearing of the northern adjoining property for a residential subdivision, no significant changes appear on the subject or immediately adjoining properties.

2014 Historical Aerial Photograph

Aside from the construction of a large paved roadway where the current West Orange Blossom Trail off and on ramp exist on the southern adjoining properties, no significant changes appear on the subject or immediately adjoining properties.

2017 Historical Aerial Photograph

Aside from the appearance of the U.S. Highway 441/State Road 429 Connector Road, no significant changes appear on the subject or immediately adjoining properties.

2019 Historical Aerial Photograph

Aside from commencement of construction of State Road 429 to the west, no significant changes appear on the subject or immediately adjoining properties.

2022 Historical Aerial Photograph

All debris and historic agricultural and nursery implements have removed. Open areas of the site have been stripped. Aside from that, no significant changes appear on the subject or immediately adjoining properties.

4.3.2 Historical Sanborn Maps

Sanborn Fire Insurance Maps were produced for the fire insurance industry from 1876 through 1961, with photo revisions continuing until 1975. These maps show buildings and their associated land uses down to parcel and lot within many U.S. towns and cities (mostly concentrated to urbanized areas). Therefore, these fire maps can be very useful in identifying potential environmental concerns associated with past land uses during periods prior to and overlapping with, the advent of aerial photography.

A search for Sanborn Fire Insurance Maps for the location in which the subject property is situated was not conducted, as it is known by BTC that this is an unmapped area.

4.3.3 Historical City Directory Information

Based on the positive identification of past uses of the subject property identified through review of historical aerial photographs (no developed uses other than for agricultural purposes for citrus production and nursery, along with rural, residential uses identified on-site), a search of available city directories was not conducted as part of this assessment.

4.3.4 Historical Topographic Maps

Based on historical topographic maps reviewed, it appears that structures existed in the southwestern and northwestern portions of the site at the time of the publications for 1960. This is consistent with historical aerial photographs reviewed.

Based on historical topographic maps reviewed, it appears that ten (10) landmark structures existed on the subject site at the time of the publications for 1960. It is assumed these structures are the residential dwellings that currently exist, as well as associated accessory buildings. Based on Orange County Property Appraiser records reviewed by BTC as part of this assessment, as well as observations during our site visit, the structures that currently exist on the property appear to have been constructed by the 1950s.

4.4 Physical Setting Characteristics

Based upon a review of the USGS Topographic Map presented in Figure 3 (Apopka, Florida Quadrangle – 1960/Photorevised 1980), the subject lands appear to have a fair amount of fall, with elevations ranging between 154 and down to nearly 100 feet above the National Geodetic Vertical Datum of 1929 (NGVD). In general, it would appear that the subject parcel slopes gradually towards the south, as well as towards the depressional area in the north.

4.4.1 Stormwater Drainage

It appears that run-off from the subject property drains to the south portion of the site, as well as northwest towards a lower, depressional area. Due to the relief which exists in the vicinity of the subject property, as well as physical and stormwater management features present in the area, off-site run-off likely enters the site from the north.

4.4.2 Groundwater

The groundwater hydrology of Central Florida can be described in terms of the nature and relationship of three basic aquifers – the surficial-, the intermediate-, and the Floridan aquifers.

The surficial aquifer is highly permeable and includes the local water table. In general, the sands of the surficial aquifer extend to depths of 40 to 70 feet. The surficial aquifer sits atop the much less permeable intermediate aquifer, consisting of the Hawthorn Group and various confining beds. The Hawthorn Group is characterized by low permeability clays and ranges in thickness from nearly absent in some locations to greater than 100 feet. Beneath this intermediate aquifer is the Floridan Aquifer, consisting of a limestone formation, which may be several thousand feet thick at various locations. The limestone formation, which is the primary source of drinking water in Central Florida, is highly permeable due to the presence of large interconnected channels and cavities throughout the rock. The amount of groundwater flow between the surficial and Floridan aquifers is dependent on the thickness and consistency of the Hawthorn clay confining beds, which as previously stated varies widely throughout Central Florida.

Although no test borings were performed by BTC during the assessment of the property, the following presents a general description of the expected hydrogeology in the vicinity of the subject property:

Groundwater in the immediate vicinity of the subject property is assumed to follow, more-or-less, ground surface topography. Based solely on the topographic information presented in Figure 3, it is inferred that the shallow groundwater in the vicinity of the subject property flows towards the south and north or northwest towards the depressional area. Due to the relief which exists in the vicinity of the subject property, it appears off-site groundwater could likely enter the site from north. Based on the above assumptions, and information obtained from EDR and the FDEP, there appear to be no significant issues of concern regarding contaminated sites located in the vicinity of the subject property.

SECTION 5.0
SITE RECONNAISSANCE

Inspection of the subject and adjoining properties was performed in April of 2022. The objective of this site visit was to visually/physically identify RECs in connection with the subject property. Photographs documenting conditions found at the subject site are included as Appendix C. Our observations and findings resulting from the reconnaissance are provided below.

5.1 Methodology and Limiting Conditions

The site visit included a pedestrian inspection of the subject property and visual observations of adjacent properties. The properties were investigated for any evidence of the following items as part of the assessment:

- **Hazardous Substance in Connection with Identified Uses**
- **Hazardous and Unidentified Substance Containers**
- **Storage Tanks**
- **Indication of PCBs**
- **Indication of Solid Waste Disposal**
- **Stained Soils or Pavement**
- **Stressed Vegetation**
- **Odors**
- **Pools of Liquid**
- **Domestic/Sanitary Waste Handling**
- **Ponds, Lagoons or Pits**
- **Wells**

All areas located within the subject property boundaries were accessible, allowing a full and complete investigation of the site as described herein.

5.2 General Site Setting

5.2.1 General Exterior Observations

The site investigation began with an inspection of the subject property and boundaries and continued with a pedestrian survey of the adjoining properties. A vehicle survey was conducted of facilities of interest from the EDR Radius Map Report. Access to the site was gained via Dew Berry Avenue, which exists along the southern property boundary.

At the time of the site investigation the subject property appeared as vacant lands with no identifiable use evident. There were no structures identified on the site during the investigation conducted. There were no observations of past releases, ongoing discharges and/or significant threats of releases to the environment identified in association with the current uses of the exterior portions of the subject property during the investigation conducted.

5.2.2 General Interior Observations

As there were no structures identified on the subject property during the investigation completed, interior observations are not applicable.

5.3 Hazardous Substance in Connection with Identified Uses

There were no hazardous substances observed in connection with identified uses of the subject property during the investigation conducted.

5.4 Hazardous and Unidentified Substance Containers

There were no hazardous or unidentified substance containers identified on the subject site during the investigation.

5.5 Storage Tanks

There were no ASTs or evidence of USTs identified on the subject site during the investigation.

5.6 Indication of PCBs

Polychlorinated biphenyls have been used in power transformers and capacitors due to their excellent heat exchange and dielectric properties. However, this group of compounds was determined to be carcinogenic and their production was banned in the US in 1979. Consequently, distribution of transformers containing PCBs was phased out in the 1980s. Other potential sources of PCBs include older hydraulic machinery (such as are associated with elevators and lift equipment). Although PCB-type transformers and hydraulic components have been replaced in the time since, an unknown number have been allowed to stay in service for the duration of their life-cycles.

There were no potential sources of PCBs identified on the subject site during the investigation.

5.7 Indication of Solid Waste Disposal

There were no indications of solid waste disposal identified on the subject site during the investigation.

5.8 Stained Soils or Pavement

There were no indications of stained soils or pavement identified on the subject site during the investigation.

5.9 Stressed Vegetation

There were no indications of stressed vegetation identified on the subject site during the investigation.

5.10 Odors

There were no unusual odors identified on the subject site during the investigation.

5.11 Pools of Liquid

There were no pools of liquid observed on the subject site during the investigation.

5.12 Domestic/Sanitary Waste Handling

Based on observations during the site visit, it appeared that domestic/sanitary wastes were not being generated on the subject property.

5.13 Ponds, Lagoons and Pits

Other than the depressional area in the northern portion of the site, there were no ponds, lagoons or pits identified on the subject site during the investigation.

5.14 Wells

There were no wells, nor indications of abandoned or sealed wells, observed on the subject property during the investigation.

5.15 Adjoining Property Observations

In general, the subject property is situated in a former agricultural and residential use area, including homesites, which is currently in transition for larger scale mixed-use development. Historically the area appears to have been comprised mostly of lands associated with agricultural uses (citrus production and possibly some pastureland uses), undeveloped naturally vegetated uplands and residential homesites from prior to 1947 through to the 1980s. In the 1980s, former citrus areas were converted into undeveloped lands and residential homesites. In the 2000s the area started to see a decrease in agricultural usage and an increase in large-scale residential development, with State Road 429 immediately east of the subject property. Since that time, residential uses have increased in the area with a continued decrease in undeveloped lands and lands utilized for agricultural purposes.

Currently adjoining the subject property are lands associated with residential subdivisions (north and west), lands associated with a single-family homesite (southwest) and the State Road 429 right-of-way (east and south). No significant issues of concern to this assessment were observed in association with any of the adjoining properties during the site visit conducted as part of this site assessment.

SECTION 6.0
INTERVIEWS

The objective of interviews conducted in order to comply with ASTM E 1527-13 is to obtain information indicating RECs in connection with the subject site. In addition to the user of the Phase I ESA and present owner of the site, BTC makes reasonable attempts to conduct interviews with parties it believes could provide useful information regarding potential RECs. Parties to be interviewed are determined based on the past/present uses identified and their availability for interview within reasonable timeframes. Parties such as occupants, site managers, local government officials and past owners are interviewed, when possible, based on their potential to provide relevant information.

6.1 Interview with Owners

At the present time the recorded owner of the subject property is Collier Benge Land Joint Venture LLC. BTC made contact with a representative for this entity in the timeframe allotted for this assessment. Based on information obtained from the owner, as well as public records and historical aerials reviewed, it appears that the current owner has been associated with the property for approximately three (3) years (May 2019 to present). The current owner has undertaken efforts to ensure that the site is clean and developable, by eliminating historic debris, remaining agricultural implements and stripping the open areas.

Based on additional responses from the owner, the current owner has no knowledge of any past or present storage tanks on the parcel, any past or present chemical use or storage on the site, or any cattle dip vats that existed on the property. The owner also has no knowledge of any spills or chemical releases that have taken place at the site or any environmental cleanups that have occurred on the property. In addition, the owner has no knowledge of any environmental liens and/or AULs associated with the site. Further, the current owner has never been informed by any nearby property owners or the FDEP about groundwater contamination that may be migrating onto the property from off-site sources based on the completed questionnaire.

6.2 Interviews with Past Owners

Interviews with past owners were not conducted as part of this assessment. Based on the past uses of the site identified through the course of this investigation (no developed uses other than for agricultural purposes for citrus production and nursery, along with rural, residential uses identified on-site) and the length of time associated with the current ownership, interviews with past owners were not considered necessary as part of this investigation. The absence of past owner provided information does not appear to significantly affect the ability of BTC to identify RECs in connection with the site due to the availability of relevant information from other sources.

6.3 Interviews with Local Governmental Officials

Interviews with local governmental officials were not conducted as part of this assessment. Based on the past uses of the site identified through the course of this investigation (no developed uses other than for agricultural purposes for citrus production and nursery, along with rural, residential uses identified on-site), interviews with local governmental officials were not considered necessary as part of this investigation. The absence of local governmental officials provided information does not appear to significantly affect the ability of BTC to identify RECs in connection with the site due to the availability of relevant information from other sources.

6.4 Interviews with Others

Based on information obtained and assumed by BTC through the course of this investigation, additional interviews were not performed or considered necessary for this assessment.

SECTION 7.0
FINDINGS, OPINIONS, DATA GAPS AND CONCLUSIONS

The following summarizes the findings, opinions and conclusions representing BTC's best professional judgment based on information and data available to us during the course of this assessment. Included in this section are a list of data gaps encountered, as well as a summary of both our findings and of potential RECs, whether historical (HREC), controlled (CREC) or recognized (REC), and *de minimis* conditions.

7.1 Findings

The following summarizes the findings representing BTC's best professional judgment based on information and data available to us during the course of this assessment.

In general, the subject site is situated in a former agricultural and residential use area, including homesites, and residential subdivisions. Historically the area appears to have been comprised mostly of lands associated with agricultural uses (citrus groves, nurseries and possibly some pastureland uses), undeveloped naturally vegetated uplands and wetlands and residential homesites from prior to 1947 through to the present time. In the 2000s the area started to see a decrease in agricultural usage and an increase in large-scale residential development. Since that time, residential uses have dominated the area with a continued decrease in undeveloped lands and lands utilized for agricultural purposes. At the time of the site investigation the subject property appeared as vacant lands with no identifiable use. Currently adjoining the subject property are lands associated with residential subdivisions (north and west), lands associated with single-family homesites (southwest) and the State Road 429 right-of-way (east and south).

There were no observations of significant past releases, ongoing discharges and/or significant threats of releases to the environment identified in association with the past uses/current uses of the subject site during the inspection conducted. Based on interviews conducted, as well as a review of historical aerial photographs dating back to 1947, it appears that uses of the site have been limited to citrus production (grove) and nursery, with limited rural residential uses. Historical aerial review dating back to 1947 indicates that adjoining lands were, for the most part, undeveloped or utilized for agricultural endeavors (citrus production and pastureland use) from prior to the late 1940s through the early 1980s. As citrus production declined in the area, other agricultural uses increased. Rural, residential and larger-scale residential developments uses have also appeared in the area since that time. At the present time, the general area is a mixture of rural, residential and larger-scale residential development uses with limited agricultural uses. No heavy industrial uses on the properties immediately adjoining the subject site were identified on the available aerial photographs reviewed. There were no items of note or issues of concern to this assessment observed in association with the past uses of the subject property or immediately adjoining lands during the investigation.

A review of standard and additional Federal and State environmental records revealed one (1) area State SWF/LF sites listings (Shalom Tire and Auto Service), three (3) area State LUST listings (Fiskars Brands Inc., Diamond Food Mart and Southland Garden Nursery) and two (2) area RESP PARTY listings (Fiskars Brands Inc. and Progress Energy SARAP Plymouth) within radii of the subject site that were deemed appropriate for the area conditions.

7.2 Opinions

The following presents BTC opinion(s) of the data gaps encountered, as well as the impact on the subject property of conditions identified in Section 7.1 (Findings). This section details BTC's logic and reasoning in evaluating information collected during the course of investigation. Frequently, items initially considered to be a REC are subsequently determined, upon further evaluation, to not be considered a REC.

As noted in our findings, there were no observations of past releases, ongoing discharges or significant threats of releases to the environment or other issues of concern to this assessment identified in association with the current uses of the subject site or immediately adjoining lands during the inspection conducted. In addition, no significant issues of concern to this assessment were revealed in association with the past uses of the subject site or immediately adjoining lands during the investigation conducted.

A review of standard and additional Federal and State environmental records revealed one (1) area State SWF/LF sites listings (Shalom Tire and Auto Service), three (3) area State LUST listings (Fiskars Brands Inc., Diamond Food Mart and Southland Garden Nursery) and two (2) area RESP PARTY listings (Fiskars Brands Inc. and Progress Energy SARAP Plymouth) within radii of the subject site that were deemed appropriate for the area conditions; however, these listings do not appear significant to the subject site and this assessment at this time based on public file information reviewed.

Based on the above findings and opinions, this assessment revealed no RECs, no CRECs and no HRECs in connection with the subject property or adjoining properties that would warrant further investigation at this time.

7.3 Data Gaps

The following data gaps were encountered by BTC during the course of the Phase I ESA:

- Historical ownership (chain-of-title) information was not provided to BTC by the user of this assessment. The absence of historic ownership information does not appear to significantly affect the ability of BTC to identify RECs in connection with the site due to the availability of relevant information from other sources. Based on a review of available historical aerial photographs (dating from 1947 through 2022), as well as information gathered via interviews and during our site visit, it appears that past/present owners of the site, to at least the mid-1940s, have only used the property for agricultural and residential uses (no developed uses other than for agricultural purposes for citrus production and nursery, along with rural, residential uses identified on-site). Based on this information, it appears that no past owners of the site represented entities of heavy industrial, chemical production, or waste disposal repositories.

- Interviews with past owners were not conducted as part of this assessment. Based on the past uses of the site identified through the course of this investigation (no developed uses other than for agricultural purposes for citrus production and nursery, along with rural, residential uses identified on-site) and the length of time associated with the current ownership, interviews with past owners were not considered necessary as part of this investigation. The absence of past owner provided information does not appear to significantly affect the ability of BTC to identify RECs in connection with the site due to the availability of relevant information from other sources.

- As required by ASTM E 1527-13 (8.3.2), a definitive identification of obvious uses of the subject property from the present back to the property's first developed use, or back to 1940, whichever is earlier, was not achievable during the course of this assessment. This was due to the availability of reasonably ascertainable standard historical sources for the area (historical aerial photographs, historical topographic maps, Sanborn Fire Insurance Maps, property tax files, land title records, local street directories, etc...). Our review of available historical resources only identified information for the site and immediate area dating back to 1947, at which time the subject property appeared undeveloped and/or in agricultural use. It was assumed by the environmental professional that the noted use of the site for agriculture was the first "developed" use based on limited local knowledge. Based on this, and in the opinion of the environmental professional, this data gap does not constitute a data failure with regards to this assessment.

7.4 Conclusions

BTC has performed a Phase I ESA, in general conformance with the scope and limitations of ASTM Practice E 1527-13, of the seventeen (17) parcels, identified by Orange County as #36-20-27-0000-00-047, #36-20-27-0000-00-048, #36-20-27-0000-00-052, #36-20-27-0000-00-066, #36-20-27-0000-00-068, #36-20-27-0000-00-074, #36-20-27-0000-00-075, #36-20-27-0000-00-083, #36-20-27-0000-00-085, #36-20-27-0000-00-093, #06-21-28-7172-16-020, #06-21-28-7172-16-030, #06-21-28-7172-16-040, #06-21-28-7172-16-050, #06-21-28-7172-16-051, #06-21-28-7172-16-060, and #06-21-28-7172-16-070, which comprise the approximately 73.82-acre Collier - Apopka Site, the subject property. Any exceptions to, or deletions from, this practice are described in Section 2.8 of this report. This assessment has revealed no RECs, no CRECs and no HRECs in association with the subject property.

SECTION 8.0
QUALIFICATIONS OF ENVIRONMENTAL PROFESSIONALS

I declare that, to the best of my professional knowledge and belief, I meet the definition of Environmental Professional as defined in §312.10 of 40 CFR §312.

and

I have specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject site. I have developed and performed the all-appropriate inquiries in general conformance with the standards and practices set forth in 40 CFR Part 312.

John Miklos
President

SECTION 9.0
ADDITIONAL SERVICES

No additional services, outside the scope of ASTM International's Standard Practice E 1527-13, were requested by the user of this assessment.

SECTION 10.0
REFERENCES

The following is a list of literature, agencies and/or individuals utilized in the preparation of this report.

1. SSURGO Soils Map of Orange County, Florida, United States Department of Agriculture, Natural Resource Conservation Service

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E1527-21), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E 2247-16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E 1528-14) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

EXECUTIVE SUMMARY

TARGET PROPERTY SEARCH RESULTS

The target property was not listed in any of the databases searched by EDR.

DATABASES WITH NO MAPPED SITES

No mapped sites were found in EDR's search of available ("reasonably ascertainable ") government records either on the target property or within the search radius around the target property for the following databases:

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.
Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Lists of state and tribal landfills and solid waste disposal facilities

SWF/LF: The Solid Waste Facilities/Landfill Sites records typically contain an inventory of solid waste disposal facilities or landfills in a particular state. The data come from the Department of Environmental Protection's Facility Directory (Solid Waste Facilities).

A review of the SWF/LF list, as provided by EDR, has revealed that there is 1 SWF/LF site within approximately 0.5 miles of the target property.

Lower Elevation	Address	Direction / Distance	Map ID	Page
SHALOM TIRE & AUTO S	3355 WEST ORANGE BLO	WSW 1/8 - 1/4 (0.139 mi.)	A2	8

Database: SWF/LF, Date of Government Version: 01/10/2022

Facility-Site Id: 101358
Class Status: EXEMPT FROM SW PERMITTING/REGISTRATION (E)

Lists of state and tribal leaking storage tanks

LUST: The Leaking Underground Storage Tank Incident Reports contain an inventory of reported leaking underground storage tank incidents. The data come from the Department of Environmental Protection's PCTO1--Petroleum Contamination Detail Report.

A review of the LUST list, as provided by EDR, and dated 11/03/2021 has revealed that there are 3 LUST sites within approximately 0.5 miles of the target property.

Lower Elevation	Address	Direction / Distance	Map ID	Page

Discharge Cleanup Status: NFAC - NO FURTHER ACTION WITH CONDITIONS Facility Status: CLOSED Facility-Site Id: 9601585				

Lists of state and tribal registered storage tanks

UST: The Underground Storage Tank database contains registered USTs. Shortly after the September 11 event, the DEP was instructed to remove the detail about some of the storage tank facilities in the state from their reports. Federal-owned facilities and bulk storage facilities are included in that set.

A review of the UST list, as provided by EDR, has revealed that there is 1 UST site within approximately 0.25 miles of the target property.

Lower Elevation	Address	Direction / Distance	Map ID	Page
RACETRAC#2543	***1102 HERMIT SMITH RD***	***W 1/8 - 1/4 (0.162 mi.)***	***3***	***9***
Database: UST, Date of Government Version: 11/16/2021 Tank Status: U Facility-Site Id: 9817033 Facility Status: OPEN				

AST: Shortly after the Sept 11 event, the DEP was instructed to remove the detail about some of the storage tank facilities in the state from their reports. Federal-owned facilities and bulk storage facilities are included in that set.

A review of the AST list, as provided by EDR, has revealed that there is 1 AST site within approximately 0.25 miles of the target property.

Lower Elevation	Address	Direction / Distance	Map ID	Page
COPART OF CONNECTICU	3352 W ORANGE BLOSSO	SW 1/8 - 1/4 (0.138 mi.)	A1	8
Database: AST, Date of Government Version: 11/16/2021				
Facility-Site Id: 9816362				
Facility Status: OPEN				
Facility Status: OPEN				

TANKS: This listing includes storage tank facilities that do not have tank information. The tanks have either be closed or removed from the site, but the facilities were still registered at some point in history.

A review of the TANKS list, as provided by EDR, and dated 11/16/2021 has revealed that there is 1 TANKS site within approximately 0.25 miles of the target property.

Lower Elevation	Address	Direction / Distance	Map ID	Page
GAINEY CORP FUEL SPI	1087 PLYMOUTH SORREN	E 1/8 - 1/4 (0.199 mi.)	4	14
Facility Status: CLOSED				
Facility ID: 9801558				

State and tribal institutional control / engineering control registries

ENG CONTROLS: The registry is a database of all contaminated sites in the state of Florida which are subject to engineering controls. Engineering Controls encompass avariety of engineered remedies to contain and/or reduce , contamination , and/or physical barriers intended to limit access to property ECs include fences, signs, guards, landfill caps, provision of potable water , slurry walls, sheet pile (vertical caps), pumping and treatment of groundwater, monitoring wells, and vapor extraction systems.

A review of the ENG CONTROLS list, as provided by EDR, and dated 12/08/2021 has revealed that there is 1 ENG CONTROLS site within approximately 0.5 miles of the target property.

Lower Elevation	Address	Direction / Distance	Map ID	Page
DIAMOND FOOD MART	***2901 W ORANGE BLOSSO***	***SE 1/4 - 1/2 (0.426 mi.)***	***C9***	***35***
Facility-Site Id: 9802872				

INST CONTROL: The registry is a database of all contaminated sites in the state of Florida which are subject to institutional and engineering controls.

A review of the INST CONTROL list, as provided by EDR, and dated 12/08/2021 has revealed that there is 1 INST CONTROL site within approximately 0.5 miles of the target property.

Lower Elevation	Address	Direction / Distance	Map ID	Page
DIAMOND FOOD MART	***2901 W ORANGE BLOSSO***	***SE 1/4 - 1/2 (0.426 mi.)***	***C9***	***35***

Facility-Site Id: 8513126
Facility-Site Id: 9802872
Facility-Site Id: ERIC_7284

ADDITIONAL ENVIRONMENTAL RECORDS

Other Ascertainable Records

DWM CONTAM: A listing of active or known sites. The listing includes sites that need cleanup but are not actively being working on because the agency currently does not have funding (primarily petroleum and drycleaning).

A review of the DWM CONTAM list, as provided by EDR, and dated 11/30/2021 has revealed that there are 5 DWM CONTAM sites within approximately 0.5 miles of the target property.

Lower Elevation	Address	Direction / Distance	Map ID	Page
FISKARS BRANDS INC Program Site Id: 9503025	***3000 W ORANGE AVE***	***SSE 1/4 - 1/2 (0.340 mi.)***	***B5***	***15***

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal NPL (Superfund) sites

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Date of Government Version: 01/25/2022
Date Data Arrived at EDR: 02/03/2022

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 01/25/2022

Data Release Frequency: Quarterly

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Date of Government Version: 10/15/1991

Lists of Federal Delisted NPL sites

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Lists of Federal sites subject to CERCLA removals and CERCLA orders

FEDERAL FACILITY: Federal Facility Site Information listing

A listing of National Priority List (NPL) and Base Realignment and Closure (BRAC) sites found in the Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) Database where EPA Federal Facilities Restoration and Reuse Office is involved in cleanup activities.

Date of Government Version: 05/25/2021

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Data Release Frequency: Quarterly

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

Lists of Federal RCRA TSD facilities

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Lists of Federal RCRA generators

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

Date of Government Version: 02/28/2022

RCRA-SQG: RCRA - Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

RCRA-VSQG: RCRA - Very Small Quantity Generators (Formerly Conditionally Exempt Small Quantity Generators)

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

State and tribal institutional control / engineering control registries

ENG CONTROLS: Institutional Controls Registry

The registry is a database of all contaminated sites in the state of Florida which are subject to engineering controls. Engineering Controls encompass a variety of engineered remedies to contain and/or reduce contamination, and/or physical barriers intended to limit access to property. ECs include fences, signs, guards, landfill caps, provision of potable water, slurry walls, sheet pile (vertical caps), pumping and treatment of groundwater, monitoring wells, and vapor extraction systems.

Lists of state and tribal brownfield sites

BROWNFIELDS AREAS: Brownfields Areas Database
A "brownfield area" means a contiguous area of one or more brownfield sites, some of which may not be contaminated, that has been designated as such by a local government resolution. Such areas may include all or portions of community redevelopment areas, enterprise zones, empowerment zones, other such designated economically deprived communities and areas, and Environmental Protection Agency (EPA) designated brownfield pilot projects. This layer provides a polygon representation of the boundaries of these designated Brownfield Areas in Florida.

BSRA: Brownfield Site Rehabilitation Agreements Listing
The BSRA provides DEP and the public assurance that site rehabilitation will be conducted in accordance with Florida Statutes and DEP's Contaminated Site Cleanup Criteria rule. In addition, the BSRA provides limited liability protection for the voluntary responsible party. The BSRA contains various commitments by the voluntary responsible party, including milestones for completion of site rehabilitation tasks and submittal of technical reports and plans. It also contains a commitment by DEP to review technical reports according to an agreed upon schedule. Only those brownfield sites with an executed BSRA are eligible to apply for a voluntary cleanup tax credit incentive pursuant to Section 376.30781, Florida Statutes.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

Other Ascertainable Records

RCRA NonGen / NLR: RCRA - Non Generators / No Longer Regulated

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing
A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

FL Cattle Dip. Vats: Cattle Dipping Vats

From the 1910's through the 1950's, these vats were filled with an arsenic solution for the control and eradication of the cattle fever tick. Other pesticides, such as DDT, were also widely used. By State law, all cattle, horses, mules, goats, and other susceptible animals were required to be dipped every 14 days. Under certain circumstances, the arsenic and other pesticides remaining at the site may present an environmental or public health hazard.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants
The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:
Source: American Hospital Association, Inc.
Telephone: 312-280-5991
The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing
Source: Centers for Medicare & Medicaid Services
Telephone: 410-786-3000
A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

Nursing Homes
Source: National Institutes of Health
Telephone: 301-594-6248
Information on Medicare and Medicaid certified nursing homes in the United States.

Public Schools
Source: National Center for Education Statistics

Photographic Documentation

City of Apopka
CITY COMMISSION STAFF REPORT

Section: PUBLIC HEARINGS/ORDINANCES/RESOLUTION (Action Item)
Item #: 1.
Meeting Date: August 5, 2026
Department: Human Resources

SUBJECT:
Ordinance No. 3169 - Second Reading - General Employees Pension Trust - "Opt Out" clause

ACTION ITEM INFORMATION:

REQUEST:
Adopt Ordinance No. 3169.

SUMMARY:
The City Charter was recently amended to establish term limits for elected officials. As a result of this change, it has been determined that it is in the best interest of the Board of Trustees, the General Employees' Retirement System, and the City to allow the Mayor, the Senior Executive Assistant to the Mayor, the City Administrator, and Department Directors the option to voluntarily opt out of participation in the General Employees' Retirement System.

Ordinance No. 3169 amends Chapter 54, "Retirement Systems," Article II, "General Employees' Retirement System," by revising Sections 54-19 ("Definitions"), 54-20 ("Membership"), and 54-21 ("Board of Trustees") to implement these changes and clarify membership eligibility and governance provisions consistent with the City's updated Charter.

FUNDING SOURCE:

ORDINANCE NO. 3169

AN ORDINANCE OF THE CITY COMMISSION OF THE CITY OF APOPKA, FLORIDA, AMENDING CHAPTER 54 "RETIREMENT SYSTEMS," ARTICLE II, "GENERAL EMPLOYEES' RETIREMENT SYSTEM," BY AMENDING SECTION 54-19, "DEFINITIONS"; BY AMENDING SECTION 54-20, "MEMBERSHIP"; BY AMENDING SECTION 54-21, "BOARD OF TRUSTEES"; PROVIDING FOR CODIFICATION; PROVIDING FOR SEVERABILITY; PROVIDING FOR CONFLICTS AND SETTING AN EFFECTIVE DATE.

WHEREAS, The City of Apopka, Florida has established the City of Apopka General Employees' Retirement System (the "Plan") for the benefit of its general employees and their beneficiaries; and

WHEREAS, Under the terms of the Plan, members must accrue ten years of credited service to be entitled to an early retirement benefit; and

WHEREAS, The City Commission has determined it would be in the best interest of its general employees and the City to permit the Mayor, the Senior Executive Assistant to the Mayor, the City Administrator and Department Directors to opt out of participation in the Plan; and

WHEREAS, In order to implement such a change, amendment of the City of Apopka General Employees' Retirement System is required.

NOW, THEREFORE, be it ordained by the City Commission of the City of Apopka, Florida, as follows:

[Words with strike through indicate deletions; words with underscore indicate additions; asterisks (* * *) indicate an omission from the existing text which is intended to remain unchanged.]*

SECTION I. The foregoing recitals are hereby adopted as the legislative findings of the City Commission of the City of Apopka, Florida.

SECTION II. CHAPTER 54, RETIREMENT SYSTEMS, ARTICLE II, SECTION 54-19 "Definitions" shall be amended as follows

Sec. 54-19. Definitions.

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

* * *

Member means an actively employed general employee who fulfills the prescribed membership requirements. Benefit improvements which, in the past, have been provided for by amendments to the system adopted by city ordinance, and any benefit improvements which might be made in the future, shall apply prospectively and shall not apply to members who terminate employment or who retire prior to the effective date of any ordinance adopting such benefit improvements, unless such ordinance specifically

provides to the contrary. The term "member" shall not include any senior management employee who irrevocably elects not to participate in the system, in accordance with sec. 54-20(c),

* * *

Senior management means a general employee actively employed with the City in the position of Mayor, the Senior Executive Assistant to the Mayor, the City Administrator, or Department Director.

* * *

SECTION III. CHAPTER 54, RETIREMENT SYSTEMS, ARTICLE II, SECTION 54-20 "Membership" shall be amended as follows:

Sec. 54-20. Membership

(a) *Conditions of eligibility.* All general employees as of the effective date, and all future new general employees, shall become members of this system as a condition of employment; except as otherwise expressly provided herein.

(b) *Designation of beneficiary.* Each general employee shall complete a form prescribed by the board designating a beneficiary or beneficiaries.

(c) *Optional Participation.* Effective [insert effective date of ordinance], a senior management employee may make a one-time election to opt out of participation in this system by submitting an irrevocable notice of election in writing to the board and the city on or before: i) [insert date 90 days after effective date of ordinance], or ii) within 90 days of initial employment in a senior management position, whichever is later. The accumulated member contributions of an employee opting out of the system, if any, shall be refunded in accordance with the terms of the system. Thereafter, the rights of such employee to any benefit under the system shall be deemed waived, and he or she shall be barred from future membership in the system.

SECTION IV. CHAPTER 54, RETIREMENT SYSTEMS, ARTICLE II, SECTION 54-21 "Board of Trustees" shall be amended as follows:

Sec. 54-21. Board of trustees.

(a) Sole and exclusive administration of and responsibilities for the proper operation of the system and for making effective the provisions of this article is hereby vested in a board of trustees. The board is hereby designated as the plan administrator. The board shall consist of five trustees, two of whom shall be the mayor (or his or her designee) and the city clerk, and two of whom shall be members of the system, who shall be elected by a majority of the general employees who are members of the system and who vote in said election. The fifth trustee shall be chosen by a majority of the previous four trustees as provided for herein, and such person's name shall be submitted to the city commission ~~council~~. Upon receipt of the fifth person's name, the city commission ~~council~~ shall, as a ministerial duty, appoint such person to the board as its fifth trustee. The fifth trustee shall have the same rights as each of the other four trustees appointed or elected as herein provided and shall serve a two-year term unless he sooner vacates the office. Each member trustee shall serve as trustee for a period of two years, unless he sooner leaves the employment of the city as a general employee or otherwise

vacates his office as trustee, whereupon a successor shall be chosen in the same manner as the departing trustee. Each trustee may succeed himself in office. Deferred retirement option plan (DROP) participants can be elected as and vote for elected trustees. The board shall establish and administer the nominating and election procedures for each election. The board shall meet at least quarterly each year. The board shall be a legal entity with, in addition to other powers and responsibilities contained herein, the power to bring and defend lawsuits of every kind, nature, and description.

* * *

SECTION V. The provisions of this Ordinance shall be included and incorporated into the Code of Ordinances of the City of Apopka as additions or amendments thereto.

SECTION VI. All ordinances or parts thereof in conflict herewith are repealed to the extent of such conflict.

SECTION VII. Should any word, phrase, sentence, subsection, or section be held by a court of competent jurisdiction to be illegal, void, unenforceable, or unconstitutional, then that word, phrase, sentence, subsection, or section so held shall be severed from this Ordinance and all other words, phrases, sentences, subsections, or sections shall remain in full force and effect.

SECTION VIII. *EFFECTIVE DATE*: This Ordinance shall take effect immediately upon its passage and adoption.

PASSED UPON the first reading of the City Commission, this ____ day of _____ 2026.

PASSED UPON the second and final reading of the City Commission, this ____ day of _____ 2026.

ORDINANCE BUSINESS IMPACT ESTIMATE

Florida Statutes, Section 166.041(4)

ORDINANCE NUMBER: 3169

ORDINANCE: General Employees' Pension Plan Opt Out

DEPARTMENT: Human Resources

MEETING DATE: July 15, 2026

This form should be included in the agenda packet for the item under which the proposed ordinance is to be considered and must be posted on the City of Apopka's website by the time notice of the proposed ordinance is published.

ORDINANCE NO. 3169

AN ORDINANCE OF THE CITY COMMISSION OF THE CITY OF APOPKA, FLORIDA, AMENDING CHAPTER 54 "RETIREMENT SYSTEMS," ARTICLE II, "GENERAL EMPLOYEES' RETIREMENT SYSTEM," BY AMENDING SECTION 54-19, "DEFINITIONS"; BY AMENDIGN SECTION 54-20, "MEMBERSHIP"; BY AMEDNING SECTION 54-21, "BOARD OF TRUSTEES"; PROVIDING FOR CODIFICATION; PROVIDING FOR SEVERABILITY; PROVIDING FOR CONFLICTS AND SETTING AN EFFECTIVE DATE.

This Business Impact Estimate is provided in accordance with section 166.041(4), Florida Statutes. If one or more boxes are checked below, this means the City is of the view that a business impact estimate is not required by state law[1] for the proposed ordinance, but the City is, nevertheless, providing this Business Impact Estimate as a courtesy and to avoid any procedural issues that could impact the enactment of the proposed ordinance. This Business Impact Estimate may be revised following its initial posting.

- ☐ The proposed ordinance is required for compliance with Federal or State law or regulation;
- ☐ The proposed ordinance relates to the issuance or refinancing of debt;
- ☒ The proposed ordinance relates to the adoption of budgets or budget amendments, including revenue sources necessary to fund the budget;
- ☐ The proposed ordinance is required to implement a contract or an agreement, including, but not limited to, any Federal, State, local, or private grant or other financial assistance accepted by the municipal government;
- ☐ The proposed ordinance is an emergency ordinance;
- ☐ The ordinance relates to procurement; or

[1] See Section 166.041(4)(c), Florida Statutes.

☐ The proposed ordinance is enacted to implement the following:

a. Development orders and development permits, as those terms are defined in s. 163.3164, and development agreements, as authorized by the Florida Local Government Development Agreement Act under ss. 163.3220-163.3243;
b. Comprehensive plan amendments and land development regulation amendments initiated by an application by a private party other than the City of Apopka;
c. Sections 190.005 and 190.046, Florida Statutes, regarding community development districts;
d. Section 553.73, Florida Statutes, relating to the Florida Building Code; or
e. Section 633.202, Florida Statutes, relating to the Florida Fire Prevention Code.

In accordance with the provisions of controlling law, the City hereby publishes the following information:

1. Summary of the proposed ordinance (must include a statement of the public purpose, such as serving the public health, safety, morals, and welfare):

This Ordinance contains a proposed amendment to the general City employee pension to allow the Mayor, City Administrator, and Department Heads, and Senior Executive Assistant to the Mayor the option to opt out of participation in the General Employee Pension Plan.

2. An estimate of the direct economic impact of the proposed ordinance on private, for-profit businesses in the City, if any:

(a) An estimate of direct compliance costs that businesses may reasonably incur;

No direct impact to compliance costs for existing general businesses.

(b) Any new charge or fee imposed by the proposed ordinance or for which businesses will be financially responsible; and

No new charges or fees for existing general businesses.

(c) An estimate of the City's regulatory costs, including estimated revenues from any new charges or fees to cover such costs.

No additional regulatory costs, staff administration only.

3. Good faith estimate of the number of businesses likely to be impacted by the proposed ordinance:

Undeterminable.

4. Additional information the governing body deems useful (if any): Actuarial Impact Statement attached.

ACTUARIAL IMPACT STATEMENT
August 5, 2026
(Page 1)

This statement outlines the projected impact on the Total Required Contribution (per Chapter 112, Florida Statutes) and the Required City Contribution resulting from the following proposed amendments to the Code of Ordinances, Chapter 54, Sections 19, 20, and 21.

1) Sec. 54-19 - Definitions
    a. The proposed opt-out option in the definition of *Member* does not substantiate any changes to our valuation assumptions or methods and therefore has no impact to the plan's projected Total Required Contribution.

2) Sec. 54-20 - Membership
    a. The proposed opt-out option does not substantiate any changes to our valuation assumptions or methods and therefore has no impact to the plan's projected Total Required Contribution.

3) Sec. 54-21 – Board of trustees
    a. The proposed change in wording does not substantiate any changes to our valuation assumptions or methods and therefore has no impact to the plan's projected Total Required Contribution.

* *Please also note that all assumptions and methods used in the Impact Statement are the same as those reflected in the 10/1/2025 Actuarial Valuation Report.*

CITY COMMISSION STAFF REPORT

Section: PUBLIC HEARINGS/ORDINANCES/RESOLUTION (Action Item)
Item #: 2.
Meeting Date: August 5, 2026
Department: Community Development

SUBJECT:
Ordinance No. 3158 - First Reading - Legislative - Small-Scale Future Land Use Amendment – 4410 Chandler Road and 4420 Chandler Road

ACTION ITEM INFORMATION:
Owner(s): Richard Chandler
Applicant: Camila Neira
Parcel Identification Number(s): 18-20-28-0000-00-030, 18-20-28-0000-00-063
Location: 4410 Chandler Road, 4420 Chandler Road
Existing Future Land Use: Residential Very Low Suburban
Proposed Future Land Use: Office
Existing Use(s): Residential
Existing Zoning: RSF-1A (Residential Single-Family-Estate)
Proposed Zoning: O (Office)
Tract Size: 5.12 +/- Acres
Proposed Use: Child care facility
Project Manager: Jun Sohn, Ph.D.

REQUEST:
Accept First Reading of Ordinance No. 3158 and hold it over for Second Reading and Adoption.

SUMMARY:
Owner(s): Richard Chandler
Applicant: Camila Neira
Parcel Identification Number(s): 18-20-28-0000-00-030, 18-20-28-0000-00-063
Location: 4410 Chandler Road, 4420 Chandler Road
Existing Future Land Use: Residential Very Low Suburban
Proposed Future Land Use: Office
Existing Use(s): Residential
Existing Zoning: RSF-1A (Residential Single-Family-Estate)
Proposed Zoning: O (Office)
Tract Size: 5.12 +/- Acres
Proposed Use: Child care facility

Direction	Future Land Use	Zoning	Present Use
North	Residential Very Low Suburban	PD	Residential
East	Residential Estate	PD	Residential

South	Residential Very Low Suburban	RSF-1B	Residential
West	Residential Very Low Suburban	RSF-1A	Residential

PROJECT SUMMARY:

The subject properties, which are approximately 5.12 acres in size, are located at 4410 Chandler Road and 4420 Chandler Road. The current use is residential. The applicant is requesting an amendment to the properties future land use for the new development of a child care facility to be consistent with the Comprehensive Plan and Land Development Code. Per the Apopka Comprehensive Plan, Policy 3.1.j. primary uses of land use designation of Office shall be business and professional offices or institutional uses. Per the Apopka Land Development Code (LDC), Table 4.2.2.C. Principal Use Table, the child care facility is under the category of Public, Civic, and Institutional Uses, and it is permitted in the Office zoning district with a Special Exception. Therefore, the requested future land use of Office will be compatible with the proposed use of the child care facility on the subject properties.

A Special Exception for the Child Care Facility use was approved on July 24, 2025, by the Planning Commission Board, with the current land use and zoning of Residential Very Low Suburban and RSF-1A. After approval of the Special Exception, the applicant has submitted a Site Plan for a maximum student capacity of 275 students, and, per the applicant, this is the number of students that meets Florida Statute requirements.

During the site plan review process, staff indicated to the applicant that Land Development Code (LDC) Section 4.2.3.D.2.b.7,(c) states the maximum number of children to attend the facility shall be limited in residential zoning districts by the number of persons per household, as projected in the Apopka Comprehensive Plan and the maximum number of dwellings per acre permitted in the Future Land Use District in which the proposed site is located. Per the 2030 Comprehensive Plan, Table 2-1 Population projections, the total population in 2030 is projected at 125,538. Per the 2030 Comprehensive Plan, Table 2-19 Population projections, Estimated and Projected Households by Size, the total households in 2030 are projected at 44,193. Therefore, the number of persons per household is approximately 2.84 (125,538 ÷ 44,193).

With the existing Future Land Use designation of Residential Very Low Suburban allowing a maximum density of 2 dwelling units per acre for a property of 5.12 acres, the maximum student capacity is 29 students (2.84 persons per household * 5.12 acres * 2 dwelling units per acre = 29.08.

Upon notification of this requirement to the applicant, it was noted that changing the future land use and zoning of the subject properties from residential to Office would remove the maximum student capacity as that is not applicable in the Office future land use and zoning categories, if approved. The K-8 school located to the north of the subject parcels on Jason Dwelley Parkway has a zoning of Office and a future land use designation of Institutional/Public Use as Policy 3.1.p of the future land use element of the Comprehensive Plan only permits public buildings and facilities to have a Institutional/Public Use future land use designation. If the change of future land use and rezoning are approved, the applicant is required to obtain approval for a new Special Exception permit from the Planning Commission within the Office zoning district of the properties. If the change of future land use and zoning to Office is not approved, the maximum student restriction will remain on the property in accordance with LDC Section 4.2.3.D.2.b.7,(c).

Source: Shimberg Center for Affordable Housing, 2006; Land Design Innovations (projections).

Land Development Code Section 2.5.1.D.3 requires the Commission to weigh the relevance of and consider whether and the extent to which the proposed amendment:

a. Is consistent with and furthers the goals, objectives and policies of the comprehensive plan and other adopted City plans;

- Applicant's response: The proposed Future Land Use amendment supports the goals and objectives of the City's Comprehensive Plan by allowing development that provides a needed community service while maintaining compatibility with surrounding uses. The proposed daycare facility will support local families and promote access to early childhood education. The request also supports orderly growth by allowing an institutional use that is consistent with nearby educational and office uses.
- Staff response: Staff has no objection. Kelly Park School (K-8) is approximately 350 feet north of 4410 and 4420 Chandler Road, which is Institutional use. Similar uses are found in the surrounding area.

b. Is in conflict with any provisions of the LDC;

- Applicant's response: The proposed amendment is not in conflict with the City's Land Development Code. Any future development of the site will comply with all applicable requirements of the Land Development Code, including site development standards, buffering, landscaping, parking, access, and stormwater management regulations.
- Staff response: Staff has no objection. Development plans will be required to be consistent with the Comprehensive Plan and Land Development Code.

c. Addresses a demonstrated community need;

- Applicant's response: The amendment addresses a demonstrated need for childcare services within the community. As the population in the area continues to grow, access to quality daycare and early childhood education facilities becomes increasingly important for working families. The proposed daycare will provide a valuable service to nearby residents and families associated with the neighboring school.
- Staff response: Staff has no objection.

d. Is required by changed conditions;

- Applicant's response: Changed conditions in the surrounding area support the requested amendment. The subject property is located adjacent to an existing school that is already zoned for office or institutional use. Over time, the area has evolved to include educational and community-oriented services. The proposed amendment reflects this transition and allows the property to be used in a manner compatible with surrounding development.
- Staff response: Staff has no objection. Kelly Park School (K-8) is approximately 350 feet north of 4410 and 4420 Chandler Road, which is Institutional use. Similar uses are found in the surrounding area.

e. Is compatible with existing and proposed uses surrounding the subject land, and is the appropriate zoning district for the land;

- Applicant's response: The proposed use is compatible with surrounding development. The property is located next to an existing school and other institutional or office-type uses, making the Office designation appropriate for the site. A daycare facility is a low-intensity use that operates primarily during daytime hours and complements the educational character of the surrounding area.
- Staff response: Staff has no objection. Kelly Park School (K-8) is approximately 350 feet north of 4410 and 4420 Chandler Road, which is Institutional use. Similar uses are found in the surrounding area.

f. Would result in a logical and orderly development pattern;

- Applicant's response: Approving this amendment would create a logical and orderly development pattern by aligning the land use designation with nearby properties that already support institutional and office uses. The proposed daycare facility represents a transitional use that fits well between residential areas and existing educational facilities.
- Staff response: Staff has no objection. Kelly Park School (K-8) is approximately 350 feet north of 4410 and 4420 Chandler Road, which is Institutional use. Similar uses are found in the surrounding area.

g. Would not result in significant adverse impacts on the natural environment—including, but not limited to, water, air, noise, stormwater management, wildlife, vegetation, wetlands, and the natural functioning of the environment; and

- Applicant's response: The proposed development is not expected to result in significant adverse environmental impacts. The project will comply with all applicable environmental regulations and City development standards related to stormwater management, drainage, landscaping, and environmental protection. As a low-intensity use, a daycare facility is not expected to generate substantial noise, emissions, or environmental disturbance. Operational hours are Monday thru Friday from 6AM to 6:30 PM.
- Staff response: Staff has no objection.

h. Would result in development that is adequately served by public facilities (e.g., streets, potable water, sewerage, stormwater management, solid waste collection and disposal, schools, parks, police, and fire and emergency medical facilities).

- Applicant's response: The property is located in an area that is already served by existing public infrastructure and municipal services. The proposed development will have access to existing streets and will connect to available potable water, sanitary sewer, and stormwater management

systems in accordance with City requirements. The site is also served by existing public services including solid waste collection, police, fire, and emergency medical services, ensuring that the development can be adequately supported by public facilities.

- Staff response: Staff has no objection.

SCHOOL CAPACITY REPORT:
Not applicable.

ORANGE COUNTY NOTIFICATION:
The JPA (Joint Planning Agreement) requires the City to notify the County 30 days before any public hearing or advisory board. The City notified Orange County on March 12, 2026.

PUBLIC HEARING SCHEDULE:
June 9, 2026 – Planning Commission (5:30 P.M.)
August 5, 2026 – City Commission (1:30 P.M.), First Reading
August 19, 2026 - City Commission (6:00 P.M.), Second Reading and Adoption

DULY ADVERTISED:
July 3, 2026 – Apopka Chief
May 26, 2026 – Mailed notices to adjacent property owners
April 20, 2026 – Posters placed on property

LAND USE REPORT:

Relationship of adjacent properties

Direction	Future Land Use	Zoning	Present Use
North	Residential Very Low Suburban	PD	Residential
East	Residential Estate	PD	Residential
South	Residential Very Low Suburban	RSF-1B	Residential
West	Residential Very Low Suburban	RSF-1A	Residential

II. **Land Use Analysis**

The subject properties are located in the Joint Planning Area. The properties are surrounded by Residential Estate with a maximum of 1 dwelling unit per acre, Residential Very Low Suburban, with a maximum density of 2 dwelling units per acre. In addition, Kelly Park School (K-8) is approximately 350 feet north of 4410 and 4420 Chandler Road, with an Institutional/ Public Use land use designation, which makes the land uses of 4410 and 4420 Chandler Road compatable to the proposed Office land use.

The properties are approximately 5.12 acres in size and are located in one of the following areas:

- Wekiva Parkway Interchange Plan Area: No
- Wekiva River Protection Area: No
- Area of Critical State Concern: No

JPA: The City of Apopka and Orange County entered into a Joint Planning Area (JPA) agreement on October 26, 2004. The proposed Small-Scale Future Land Use Amendment request for a change from Mixed Use and Commercial to Industrial is consistent with the terms of the JPA (Second Amendment).

City of Apopka Comprehensive Plan Policies:
Future Land Use Element:
Policy 3.1.j
Office
Primary uses shall be for business and professional offices or institutional land uses with a maximum floor area

ratio of .30 gross floor area. Public facilities or utilities of less than five acres shall also be primary uses.

Transportation Element: Policies 1.1 and 1.2 state that the City of Apopka is a Transportation Concurrency Exception Area.

Infrastructure Element: Policies 1.1.1, 2.1.1 and 5.1.2 state the minimum levels of service for the City's wastewater and water systems as well as the City's solid waste collection service.

Conservation Element: A habitat study will not be required as the development is less than ten (10) acres.

This initial review does not preclude conformance with concurrency requirements at the time of development approval.

FUNDING SOURCE:

Not applicable.

RECOMMENDED MOTION:

Development Review Committee (DRC):

On April 1, 2026, the Development Review Committee (DRC) recommended approval of the change in Future Land Use designation from Residential Very Low Suburban to Office, finding the proposed amendment consistent with the Comprehensive Plan and Land Development Code, and compatible with the character of the surrounding areas, based on the findings and facts presented in the staff report and exhibits.

Planning Commission:

On June 9, 2026, the Planning Commission unanimously recommended denial of Ordinance No. 3158, the proposed Change of Future Land Use designation from Residential Very Low Suburban to Office, due to concerns of future office uses not being compatible with the surrounding area in the event the proposed child care facility was not constructed on the property.

Recommended Motion – City Commission:

Accept First Reading of Ordinance No. 3158 and hold it over for Second Reading and Adoption.

Note: This item is considered Legislative. The staff report and its findings are to be incorporated into and made a part of the minutes of this meeting.

ORDINANCE NO. 3158

AN ORDINANCE OF THE CITY OF APOPKA, FLORIDA, AMENDING THE FUTURE LAND USE ELEMENT OF THE APOPKA COMPREHENSIVE PLAN OF THE CITY OF APOPKA; CHANGING THE FUTURE LAND USE DESIGNATION FROM RESIDENTIAL VERY LOW SUBURBAN TO OFFICE FOR PROPERTIES LOCATED AT 4410 CHANDLER ROAD AND 4420 CHANDLER ROAD; OWNED BY RICHARD CHANDLER, COMPRISING 5.12 ACRES MORE OR LESS; PROVIDING FOR SEVERABILITY, CONFLICTS, AND AN EFFECTIVE DATE.

WHEREAS, the City Commission of the City of Apopka adopted the City's Comprehensive Plan by Ordinance No. 653 on October 2, 1991, in accordance with the laws of the State of Florida; and

WHEREAS, the City of Apopka is committed to planning and managing the future growth and development of the City; and

WHEREAS, the City Commission of the City of Apopka has the authority to amend its Comprehensive Plan pursuant to Chapter 163, *Florida Statutes*; and

WHEREAS, the City of Apopka Planning Commission held a public hearing on June 9, 2026, to consider this small-scale amendment to the Future Land Use Map of the Comprehensive Plan and determined that this amendment is not consistent with the City's Comprehensive Plan; and

WHEREAS, the City Commission of the City of Apopka held public hearings to consider this amendment, with due public notice having been provided, to obtain public comment, and considered all written and oral comments received during public hearings, including support documents; and

WHEREAS, the City of Apopka has complied with all requirements and procedures of Florida law in processing this small-scale amendment to the City's Comprehensive Plan; and

WHEREAS, the City Commission of the City of Apopka hereby finds and determines that this amendment is internally consistent with the City's Comprehensive Plan.

NOW THEREFORE, BE IT ORDAINED, by the City Commission of the City of Apopka, Florida, as follows:

Section I. Purpose and Intent. This Ordinance is enacted to carry out the purpose and intent of, and exercise the authority set out in, the Community Planning Act. The City of Apopka has complied with all requirements of Florida Law in processing this ordinance. The recitals set

forth above recitals are hereby adopted.

Section II. Future Land Use Map Amendment. Page 1-32 (Map 1-6) of the Future Land Use Element of the City of Apopka Comprehensive Plan, is hereby amended to change the land use from Residential Very Low Suburban to Office for certain real property generally located West of Jason Dwelley Parkway and South of White Dahlia Drive, comprising 5.12 acres more or less; as shown and further described in Exhibit "A" attached hereto.

Section III. Applicability and Effect. The applicability and effect of the City of Apopka Comprehensive Plan shall be as provided by the Community Planning Act as set forth in Chapter 163, *Florida Statutes*.

Section IV. Severability. If any provision or portion of this Ordinance is declared by any court of competent jurisdiction to be void, unconstitutional, or unenforceable, then all remaining provisions and portions of this Ordinance shall remain in full force and effect.

Section V. Conflicts. All Ordinances or parts of Ordinances in conflict with any of the provisions of this Ordinance are hereby repealed**.**

Section VI. Effective Date. This Ordinance shall become effective thirty-one (31) days after adoption. If challenged within thirty (30) days after adoption, the Ordinance shall become effective after the state land planning agency or the Administration Commission, respectively, issues a final order determining that the adopted small-scale development amendment is in compliance with applicable law.

ADOPTED at a regular meeting of the City Commission of the City of Apopka, Florida, this _____ day of _____, 2026.

READ FIRST TIME: August 5, 2026

READ SECOND TIME AND ADOPTED: _____

ATTEST:

_____ _____

Susan Bone, City Clerk Nicholas L. Nesta III, Mayor

Approved as to form and legal sufficiency:

_____

Clifford B. Shepard, City Attorney

DULY ADVERTISED FOR PUBLIC HEARING: May 29, 2026 and July 3, 2026

Joy Child Academy
4410 & 4420 Chandler Road
Apopka, FL 32712

Community Meeting Summary
Special Exception Application
Meeting Date: September 18, 2025
Time: 6:30 p.m. – 7:00 p.m.
Location: Kelly Park School, Room 125

Project Information

The community meeting was held to discuss the proposed rezoning and special exception request for the properties located at **4410 & 4420 Chandler Road**, identified by parcel numbers **18-20-28-0000-00-030 (2.62 acres ±)** and **18-20-28-0000-00-063 (2.50 acres ±)**.

The meeting was hosted by **Camila Neira** on behalf of the property owner and contract purchaser.

Meeting Attendance

The following individuals attended the meeting:
Rick Chandler, Mark Arnold, Joanna Walrsh, Adam Walrsh, Danielle Devinicer, Tim, Chris Thomas, April Thomas, Jose Neira, Latife Neira, Joaquin Carvajal, Bobby Sanders, and Jessica Sanders.

A sign-in sheet was provided during this second community meeting. No other notified members of the community attended.

Project Overview

The proposed development consists of a **15,000-square-foot daycare facility** to be operated as **Joy Child Academy**, an early childhood education center designed to serve approximately **280 children**.

The project aims to meet the needs of the growing Apopka community by providing a safe, nurturing, and educational environment for young children.

Presentation Summary

During the meeting, a **conceptual site plan and building elevations** were presented. Key design and operational elements discussed included:

- A single **right-in/right-out driveway** along **Jason Dwelley Parkway**.
- **On-site circulation** designed to maximize stacking and minimize off-site queuing.
- Daycare operations differ from schools; **drop-off and pick-up occur throughout the day**, requiring parents to park and walk children inside.

- **Tree preservation** efforts to maintain natural features on site.
- **Child-focused building design** prioritizing safety, visibility, and natural light.
- **Dedicated indoor and outdoor spaces** supporting play, learning, and family engagement.

Community Feedback

Neighbor feedback and questions were discussed during the meeting, including:

- **Use of White Dahlia Drive and Chandler Road** by **Kelly Park School parents during pick-up times** for parking while waiting for their children to arrive.
- **Fencing height** recommendations ranging from **4 to 6 feet** around the facility.

All community input will be taken into consideration as the project continues to progress.

CITY OF APOPKA
PUBLIC HEARING NOTICE
CHANGE OF FUTURE LAND USE AND CHANGE OF ZONING

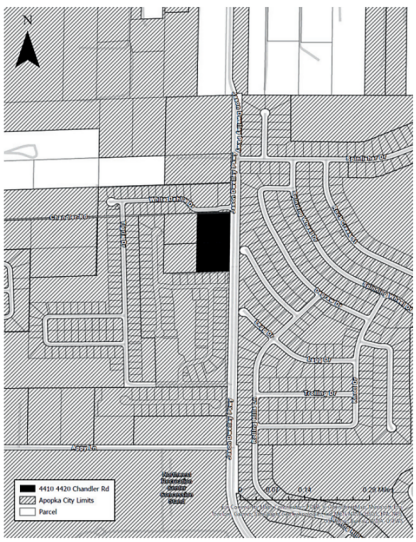
NOTICE is hereby given that **Camila Neira** has made application relating to the properties located at 4410 Chandler Road and 4420 Chandler Road, Apopka, Florida 32703 shown below for a change of future land use and a change of zoning and requested that the City of Apopka adopt the following ordinances:

ORDINANCE NO. 3158

AN ORDINANCE OF THE CITY OF APOPKA, FLORIDA, CHANGING THE FUTURE LAND USE FROM RESIDENTIAL VERY LOW SUBURBAN TO OFFICE, FOR CERTAIN REAL PROPERTIES LOCATED AT 4410 CHANDLER ROAD AND 4420 CHANDLER ROAD; OWNED BY CHANDLER RICHARD, COMPRISING 5.12 ACRES, MORE OR LESS; PROVIDING FOR SEVERABILITY, CONFLICTS, AND AN EFFECTIVE DATE.

ORDINANCE NO. 3159

AN ORDINANCE OF THE CITY OF APOPKA, FLORIDA, CHANGING THE ZONING FROM RSF-1A (RESIDENTIAL SINGLE-FAMILY ESTATE) TO O (OFFICE), FOR CERTAIN REAL PROPERTIES LOCATED AT 4410 CHANDLER ROAD AND 4420 CHANDLER ROAD; OWNED BY CHANDLER RICHARD, COMPRISING 5.12 ACRES, MORE OR LESS; PROVIDING FOR SEVERABILITY, CONFLICTS, AND AN EFFECTIVE DATE.



Parcel Identification Number(s): 18-20-28-0000-00-030 and 18-20-28-0000-00-063
Contains: 5.12 +/- Acres

Notice is given that the **City of Apopka Planning Commission** will hold public hearings for **Ordinance Number 3158 and 3159** at its regularly scheduled meeting in the City Commission Chambers of the Apopka City Hall, 120 E. Main Street, Apopka, Florida on **Tuesday, June 9, 2026 beginning at 5:30 P.M.**, or as soon thereafter as possible.

FURTHER NOTICE is given that public hearings for **Ordinance Number 3158 and 3159** will be held by the **City of Apopka City Commission** at its regularly scheduled meeting in the City Commission Chambers of the Apopka City Hall, 120 E. Main Street, Apopka, Florida on **Wednesday, July 1, 2026 beginning at 1:30 P.M., and Wednesday, July 15, 2026 beginning at 7:00 P.M.**, or as soon thereafter as possible.

Interested parties and the public may appear at the above-listed hearings to speak. The proposed ordinances, along with any additional information regarding the application and review process, may be inspected at the Apopka Community Development Department located at Apopka City Hall, 120 E. Main Street, Apopka, Florida 32703, on weekdays between the hours of 8:00 a.m. and 4:30 p.m. Please be advised that, under State law, if you decide to appeal a decision made with respect to this matter, you will need a record of the proceedings and may need to ensure that a verbatim record is made, which record includes the testimony and evidence upon which the appeal is to be based. Written public comments regarding the application for the proposed ordinance may be submitted by mail to the City Clerk's Office at 120 East Main Street, Apopka FL 32703. In accordance with the Americans with Disabilities Act (ADA), persons with disabilities needing assistance to participate in any of these proceedings should contact the City Clerk's Office at 120 East Main Street, Apopka FL 32703, Telephone: 407-703-1704, at least 48 hours prior to the proceeding.

Existing Zoning: RSF-1A (Residential Single-Family-Estate)
Proposed Zoning: O (Office)
Existing Use(s): Residential
Existing Future Land Use: Residential Very Low Suburban
Proposed Future Land Use: Office
Tract Size: 5.12 +/- Acres
Proposed Use: Child care facility
Project Manager: Jun Sohn, Ph.D.

REQUEST:
Accept First Reading of Ordinance No. 3159 and hold it over for Second Reading and Adoption.

SUMMARY:
Owner(s): Richard Chandler
Applicant: Camila Neira
Parcel Identification Number(s): 18-20-28-0000-00-030, 18-20-28-0000-00-063
Location: 4410 Chandler Road, 4420 Chandler Road
Existing Zoning: RSF-1A (Residential Single-Family-Estate)
Proposed Zoning: O (Office)
Existing Use(s): Residential
Existing Future Land Use: Residential Very Low Suburban
Proposed Future Land Use: Office
Tract Size: 5.12 +/- Acres
Proposed Use: Child care facility

Direction	Future Land Use	Zoning	Present Use
North	Residential Very Low Suburban	PD	Residential
East	Residential Estate	PD	Residential

South	Residential Very Low Suburban	RSF-1B	Residential
West	Residential Very Low Suburban	RSF-1A	Residential

PROJECT SUMMARY:

The subject properties, which are approximately 5.12 acres in size, are located at 4410 Chandler Road and 4420 Chandler Road. The current use is residential. The applicant is requesting rezoning of the properties from RSF-1A (Residential Single-Family-Estate) to O (Office) for 4410 Chandler Road and 4420 Chandler Road for the new development of a child care facility to be consistent with the Comprehensive Plan and Land Development Code.

Per the Apopka Land Development Code, Table 4.2.2.C. Principal Use Table, the child care facility is under the category of Public, Civic, and Institutional Uses, and it is permitted in the Office zoning district with an approved Special Exception from the Planning Commission. Therefore, the requested zoning of Office will be compatible with the proposed use of the child care facility on the subject parcels. The zoning of the Jason Dwelley K-8 school located to the north is Office.

A Special Exception for the Child Care Facility use was approved on July 24, 2025 by the Planning Commission, with the current land use and zoning of Residential Very Low Suburban and RSF-1A. After approval of the Special Exception, the applicant submitted a Site Plan for a maximum student capacity of 275 students, and, per the applicant, this is the number of students that meets Florida Statute requirements.

During the site plan review process, staff indicated to the applicant that Land Development Code (LDC) Section 4.2.3.D.2.b.7,(c) states the maximum number of children to attend the facility shall be limited in residential zoning districts by the number of persons per household, as projected in the Apopka Comprehensive Plan and the maximum number of dwellings per acre permitted in the Future Land Use District in which the proposed site is located. Per the 2030 Comprehensive Plan, Table 2-1 Population projections, the total population in 2030 is projected at 125,538. Per the 2030 Comprehensive Plan, Table 2-19 Population projections, Estimated and Projected Households by Size, the total households in 2030 are projected at 44,193. Therefore, the number of persons per household is approximately 2.84 (125,538 ÷ 44,193).

With the existing Future Land Use designation of Residential Very Low Suburban allowing a maximum density of 2 dwelling units per acre for a property of 5.12 acres, the maximum student capacity is 29 students (2.84 persons per household * 5.12 acres * 2 dwelling units per acre = 29.08.

Upon notification of this requirement to the applicant, it was noted that changing the future land use and zoning of the subject properties from residential to Office would remove the maximum student capacity as that is not applicable in the Office future land use and zoning categories, if approved. The K-8 school located to the north of the subject parcels on Jason Dwelley Parkway has a zoning of Office and a future land use designation of Institutional/Public Use as Policy 3.1.p of the future land use element of the Comprehensive Plan only permits public buildings and facilities to have a Institutional/Public Use future land use designation. If the change of future land use and rezoning are approved, the applicant is required to obtain approval for a new Special Exception permit from the Planning Commission within the Office zoning district of the properties. If the change of future land use and zoning to Office is not approved, the maximum student restriction will remain on the property in accordance with LDC Section 4.2.3.D.2.b.7,(c).

After the change of future land use and rezoning, the applicant is required to obtain approval for a new special exception permit within the new zoning district of the properties.

TABLE 2- 1: POPULATION PROJECTIONS, 2010-2030

Year	Permanent and Institutional Population	Seasonal Population*	Total Population
2010	41,382**	601	41,983

Land Development Code Section 2.5.1.D.3 requires the Council to weigh the relevance of and consider whether and the extent to which the proposed amendment:

a. Is consistent with and furthers the goals, objectives and policies of the comprehensive plan and other adopted City plans;

- Applicant's response: The proposed Future Land Use amendment supports the goals and objectives of the City's Comprehensive Plan by allowing development that provides a needed community service while maintaining compatibility with surrounding uses. The proposed daycare facility will support local families and promote access to early childhood education. The request also supports orderly growth by allowing an institutional use that is consistent with nearby educational and office uses.
- Staff response: Staff has no objection. Kelly Park School (K-8) is approximately 350 feet north of 4410 and 4420 Chandler Road, which is Institutional use has a zoning of Office. Similar uses are found in the surrounding area.

b. Is in conflict with any provisions of the LDC;

- Applicant's response: The proposed amendment is not in conflict with the City's Land Development Code. Any future development of the site will comply with all applicable requirements of the Land Development Code, including site development standards, buffering, landscaping, parking, access, and stormwater management regulations.
- Staff response: Staff has no objection. Development plans will be required to be consistent with the Comprehensive Plan and Land Development Code.

c. Addresses a demonstrated community need;

- Applicant's response: The amendment addresses a demonstrated need for childcare services within the community. As the population in the area continues to grow, access to quality daycare and early childhood education facilities becomes increasingly important for working families. The proposed daycare will provide a valuable service to nearby residents and families associated with the neighboring school.
- Staff response: Staff has no objection.

d. Is required by changed conditions;

- Applicant's response: Changed conditions in the surrounding area support the requested amendment. The subject property is located adjacent to an existing school that is already zoned for office or institutional use. Over time, the area has evolved to include educational and community-oriented services. The proposed amendment reflects this transition and allows the property to be used in a manner compatible with surrounding development.
- Staff response: Staff has no objection. Staff has no objection. Kelly Park School (K-8) is approximately 350 feet north of 4410 and 4420 Chandler Road, which is Institutional use has a zoning of Office. Similar uses are found in the surrounding area.

e. Is compatible with existing and proposed uses surrounding the subject land, and is the appropriate zoning district for the land;

- Applicant's response: The proposed use is compatible with surrounding development. The property is located next to an existing school and other institutional or office-type uses, making the Office designation appropriate for the site. A daycare facility is a low-intensity use that operates primarily during daytime hours and complements the educational character of the surrounding area.
- Staff response: Staff has no objection. Kelly Park School (K-8) is approximately 350 feet north of 4410 and 4420 Chandler Road, which is Institutional use has a zoning of Office. Similar uses are found in the surrounding area.

f. Would result in a logical and orderly development pattern;

- Applicant's response: Approving this amendment would create a logical and orderly development pattern by aligning the land use designation with nearby properties that already support institutional and office uses. The proposed daycare facility represents a transitional use that fits well between residential areas and existing educational facilities.
- Staff response: Staff has no objection. Kelly Park School (K-8) is approximately 350 feet north of 4410 and 4420 Chandler Road, which is Institutional use has a zoning of Office. Similar uses are found in the surrounding area.

g. Would not result in significant adverse impacts on the natural environment—including, but not limited to, water, air, noise, stormwater management, wildlife, vegetation, wetlands, and the natural functioning of the environment; and

- Applicant's response: The proposed development is not expected to result in significant adverse environmental impacts. The project will comply with all applicable environmental regulations and City development standards related to stormwater management, drainage, landscaping, and environmental protection. As a low-intensity use, a daycare facility is not expected to generate substantial noise, emissions, or environmental disturbance. Operational hours are Monday thru Friday from 6AM to 6:30 PM.
- Staff response: Staff has no objection.

h. Would result in development that is adequately served by public facilities (e.g., streets, potable water, sewerage, stormwater management, solid waste collection and disposal, schools, parks, police, and fire and emergency medical facilities).

- Applicant's response: The property is located in an area that is already served by existing public infrastructure and municipal services. The proposed development will have access to existing streets and will connect to available potable water, sanitary sewer, and stormwater management

systems in accordance with City requirements. The site is also served by existing public services including solid waste collection, police, fire, and emergency medical services, ensuring that the development can be adequately supported by public facilities.

- Staff response: Staff has no objection.

SCHOOL CAPACITY REPORT:
Not applicable.

ORANGE COUNTY NOTIFICATION:
The JPA (Joint Planning Agreement) requires the City to notify the County 30 days before any public hearing or advisory board. The City notified Orange County on March 12, 2026.

PUBLIC HEARING SCHEDULE:
June 9, 2026 – Planning Commission (5:30 P.M.)
August 5, 2026 – City Commission (1:30 P.M.), First Reading
August 19, 2026 - City Commission (6:00 P.M.), Second Reading and Adoption

DULY ADVERTISED:
July 3, 2026 – Apopka Chief
May 26, 2026 – Mailed notices to adjacent property owners
April 20, 2026 – Posters placed on property

FUNDING SOURCE:
Not applicable.

RECOMMENDED MOTION:
Development Review Committee (DRC):
On April 1, 2026, the Development Review Committee (DRC) recommended approval of the Change of Zoning from RSF-1A (Residential Single-Family-Estate) to O (Office), finding the proposed change consistent with the Comprehensive Plan and Land Development Code, and compatible with the character of the surrounding areas, based on the findings and facts presented in the staff report and exhibits.

Planning Commission:
On June 9, 2026, the Planning Commission unanimously recommended denial of Ordinance No. 3159, the proposed Change of Zoning from RSF-1A (Residential Single-Family-Estate) to O (Office), due to concerns of future office uses not being compatible with the surrounding area in the event the proposed child care facility was not constructed on the property.

Recommended Motion – City Commission:
Accept First Reading of Ordinance No. 3159 and hold it over for Second Reading and Adoption.

Note: This item is considered quasi-judicial. The staff report and its findings are to be incorporated into and made a part of the minutes of this meeting.

ORDINANCE NO. 3159

AN ORDINANCE OF THE CITY OF APOPKA, FLORIDA, CHANGING THE ZONING FROM RSF-1A (RESIDENTIAL SINGLE-FAMILY-ESTATE) TO O (OFFICE) FOR CERTAIN REAL PROPERTIES GENERALLY LOCATED AT 4410 CHANDLER ROAD AND 4420 CHANDLER ROAD; OWNED BY RICHARD CHANDLER, COMPRISING 5.12 MORE OR LESS; PROVIDING FOR SEVERABILITY, CONFLICTS, AND AN EFFECTIVE DATE.

WHEREAS, to manage the growth, the City of Apopka, Florida, finds it in the best interest of the public health, safety and welfare of its citizens to establish zoning classifications within the City; and

WHEREAS, Camila Neira has requested a change in zoning on said properties as identified in Section I of this ordinance; and

WHEREAS, the proposed O (Office) zoning has been found to be consistent with the City of Apopka Comprehensive Plan, and the City of Apopka Land Development Code.

NOW THEREFORE, BE IT ORDAINED, by the City Commission of the City of Apopka, Florida, as follows:

Section I. That the zoning classification of the property described in Exhibit A, being situated in the City of Apopka, Florida, is hereby O District, as defined in the Apopka Land Development Code, and with the following provision:

Section II. That the zoning classification is consistent with the Comprehensive Plan of the City of Apopka, Florida. The applicant shall obtain all approvals as required, if any, per the Orange County Charter and the Amended Interlocal Agreement for Public School Facility Planning and Implementation of Concurrency.

Section III. That the Community Development Director, or the Director's designee, is hereby authorized to amend, alter, and implement the official zoning maps of the City of Apopka, Florida, to include said designation.

Section IV. That if any section or portion of a section or subsection of this Ordinance proves to be invalid, unlawful, or unconstitutional, it shall not be held to invalidate or impair the validity, force or effect of any other section or portion of section or subsection or part of this ordinance.

Section V. That all ordinances or parts of ordinances in conflict herewith are hereby repealed.

Section VI. That this Ordinance shall take effect upon the date of adoption.

ADOPTED at a regular meeting of the City Commission of the City of Apopka, Florida, this ____ day of_____, 2026.

READ FIRST TIME: August 5, 2026

READ SECOND TIME AND ADOPTED: _____

COMMUNITY MEETING NOTIFICATION LETTER
Subject: Rezoning of 4410 & 4420 Chandler Rd , Apopka, FL, 32712

Dear Property Owner,

Apopka Child Academy LLC would like to invite you to attend a Community Awareness and Participation (CAP) Meeting to discuss the proposed development. The proposed rezoning is located at 4410 & 4420 Chandler Rd , Apopka, FL, 32712. The meeting will be held in person on the following date and Time:

September 18th, 2025 at 6:30pm - 7:30pm
Join us at Kelly Park School
4700 Jason Dwelley Pkwy, Apopka, FL, 32712
Library- Room # 125

A daycare center will be constructed as part of this development.

I would like to address any comments or concerns you may have regarding this project. If you are unable to attend the meeting , please feel free to email your comments to apopkachild@gmail.com or mail to our office at 170 e magnolia st, Apopka, fl, 32703.

Please call me at 407-848-9294 or email at apopkachild@gmail.com if you have any questions regarding the development prior to the meeting.

I look forward to hearing from you or meeting you to discuss this development.

Sincerely,

Camila Neira

CITY OF APOPKA
PUBLIC HEARING NOTICE
CHANGE OF FUTURE LAND USE AND CHANGE OF ZONING

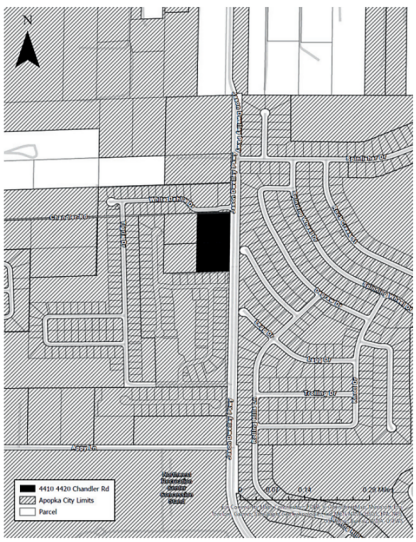
NOTICE is hereby given that **Camila Neira** has made application relating to the properties located at 4410 Chandler Road and 4420 Chandler Road, Apopka, Florida 32703 shown below for a change of future land use and a change of zoning and requested that the City of Apopka adopt the following ordinances:

ORDINANCE NO. 3158

AN ORDINANCE OF THE CITY OF APOPKA, FLORIDA, CHANGING THE FUTURE LAND USE FROM RESIDENTIAL VERY LOW SUBURBAN TO OFFICE, FOR CERTAIN REAL PROPERTIES LOCATED AT 4410 CHANDLER ROAD AND 4420 CHANDLER ROAD; OWNED BY CHANDLER RICHARD, COMPRISING 5.12 ACRES, MORE OR LESS; PROVIDING FOR SEVERABILITY, CONFLICTS, AND AN EFFECTIVE DATE.

ORDINANCE NO. 3159

AN ORDINANCE OF THE CITY OF APOPKA, FLORIDA, CHANGING THE ZONING FROM RSF-1A (RESIDENTIAL SINGLE-FAMILY ESTATE) TO O (OFFICE), FOR CERTAIN REAL PROPERTIES LOCATED AT 4410 CHANDLER ROAD AND 4420 CHANDLER ROAD; OWNED BY CHANDLER RICHARD, COMPRISING 5.12 ACRES, MORE OR LESS; PROVIDING FOR SEVERABILITY, CONFLICTS, AND AN EFFECTIVE DATE.



Parcel Identification Number(s): 18-20-28-0000-00-030 and 18-20-28-0000-00-063
Contains: 5.12 +/- Acres

Notice is given that the **City of Apopka Planning Commission** will hold public hearings for **Ordinance Number 3158 and 3159** at its regularly scheduled meeting in the City Commission Chambers of the Apopka City Hall, 120 E. Main Street, Apopka, Florida on **Tuesday, June 9, 2026 beginning at 5:30 P.M.**, or as soon thereafter as possible.

FURTHER NOTICE is given that public hearings for **Ordinance Number 3158 and 3159** will be held by the **City of Apopka City Commission** at its regularly scheduled meeting in the City Commission Chambers of the Apopka City Hall, 120 E. Main Street, Apopka, Florida on **Wednesday, July 1, 2026 beginning at 1:30 P.M., and Wednesday, July 15, 2026 beginning at 7:00 P.M.**, or as soon thereafter as possible.

Interested parties and the public may appear at the above-listed hearings to speak. The proposed ordinances, along with any additional information regarding the application and review process, may be inspected at the Apopka Community Development Department located at Apopka City Hall, 120 E. Main Street, Apopka, Florida 32703, on weekdays between the hours of 8:00 a.m. and 4:30 p.m. Please be advised that, under State law, if you decide to appeal a decision made with respect to this matter, you will need a record of the proceedings and may need to ensure that a verbatim record is made, which record includes the testimony and evidence upon which the appeal is to be based. Written public comments regarding the application for the proposed ordinance may be submitted by mail to the City Clerk's Office at 120 East Main Street, Apopka FL 32703. In accordance with the Americans with Disabilities Act (ADA), persons with disabilities needing assistance to participate in any of these proceedings should contact the City Clerk's Office at 120 East Main Street, Apopka FL 32703, Telephone: 407-703-1704, at least 48 hours prior to the proceeding.

City of Apopka
CITY COMMISSION STAFF REPORT

Section: PUBLIC HEARINGS/ORDINANCES/RESOLUTION (Action Item)
Item #: 4.
Meeting Date: August 5, 2026
Department: Community Development

SUBJECT:
Ordinance No. 3160 - First Reading - Legislative - Small-Scale Future Land Use Amendment – E. Keene Road

ACTION ITEM INFORMATION:
Owner(s): HCH Development LLC
Applicant: Michael Rankin
Parcel Identification Number(s): 22-21-28-0000-00-206
Location: E. Keene Road
Existing Future Land Use: Commercial
Proposed Future Land Use: Industrial
Existing Use(s): Vacant
Existing Zoning: C-C (Community Commercial)
Proposed Zoning: I-L (Light Industrial)
Tract Size: 5.23 +/- Acres
Proposed Use: Warehouse storage (enclosed car storage)
Project Manager: Jun Sohn, Ph.D.

REQUEST:
Accept First Reading of Ordinance No. 3160 and hold it over for Second Reading and Adoption.

SUMMARY:
Owner(s): HCH Development LLC
Applicant: Michael Rankin
Parcel Identification Number(s): 22-21-28-0000-00-206
Location: E. Keene Road
Existing Future Land Use: Commercial
Proposed Future Land Use: Industrial
Existing Use(s): Vacant
Existing Zoning: C-C (Community Commercial)
Proposed Zoning: I-L (Light Industrial)
Tract Size: 5.23 +/- Acres
Proposed Use: Warehouse storage (enclosed car storage)

Direction	Future Land Use	Zoning	Present Use
North	Commercial	C-C (Community Commercial)	Vacant
East	County Rural	County A-1	Vacant
South	Commercial	C-C (Community Commercial)	Vacant

West	Commercial	C-R (Regional Commercial)	Gas Station, Vacant

PROJECT SUMMARY:
The subject property, which is approximately 5.23 acres in size, is located at the northeast corner of the intersection of East of Clarcona Road and E. Keene Road. The property is currently vacant. The applicant is requesting an amendment to the property's future land use to allow new development for warehouse storage for enclosed luxury car storage. Warehouse storage is not a permitted use in the Commerical future land use and zoning designations.

Land Development Code Section 2.5.1.D.3 requires the Commission to weigh the relevance of and consider whether and the extent to which the proposed amendment:

a. Is consistent with and furthers the goals, objectives and policies of the comprehensive plan and other adopted City plans;

- Applicant’s response: FLU Policy 3.1.1 states that the primary use shall be industrial, intensive commercial, agricultural and business/research parks. Also allowed are public facilities and supporting infrastructure. The maximum floor area ratio is 0.60 gross floor area. The proposed amendment to industrial is compatible with the adjacent commercial land use which has been previously established in the general area where existing industrial land uses adjacent to Keene Road are located adjacent to commercial and agriculture land uses. Additional industrial land uses are also located adjacent to Clarcona Road and Coral Hills Road to the north of the subject site which are adjacent to Agriculture land use.
- Staff response: Staff has no objection.

b. Is in conflict with any provisions of the LDC;

- Applicant’s response: The proposed comprehensive plan amendment and zoning amendment is not in conflict with the LDC. Proposed development will need to comply with the LDC.
- Staff response: Staff has no objection.

c. Addresses a demonstrated community need;

- Applicant’s response: The proposed land use amendment to Industrial and rezoning to Light Industrial will provide an opportunity for the community to store luxury cars within an enclosed facility with clubhouse. This type of facility is currently not offered within the city limits.
- Staff response: Staff has no objection.

d. Is required by changed conditions;

- Applicant’s response: The current commercial land use and community commercial zoning allows for an enclosed parking facility and with a special exception automobile service station; however, it does specifically allow for enclosed vehicle storage areas; therefore, a land use amendment and rezoning is required to meet the needs of area luxury car owners.
- Staff response: Staff has no objection.

e. Is compatible with existing and proposed uses surrounding the subject land, and is the appropriate zoning district for the land;

- Applicant’s response: The proposed amendment to industrial is compatible with the adjacent commercial land use which has been previously established in the general area where existing industrial land uses adjacent to Keene Road are located adjacent to commercial and agriculture land uses. Additional industrial land uses are also located adjacent to Clarcona Road and Coral Hills Road to the north of the subject site which are adjacent to Agriculture land use.
- Staff response: Staff has no objection.

f. Would result in a logical and orderly development pattern;

- Applicant's response: The general area is a mixture of agriculture, commercial and industrial land uses and zoning. Therefore, the proposed industrial land use and rezoning to Light Industrial would result in a logical and orderly development pattern consistent with the future land use map and comprehensive plan.
- Staff response: Staff has no objection.

g. Would not result in significant adverse impacts on the natural environment—including, but not limited to, water, air, noise, stormwater management, wildlife, vegetation, wetlands, and the natural functioning of the environment; and

- Applicant's response: The subject site is classified as uplands with no environmental constraints such as wetlands, water bodies or flood areas therefore, no significant impacts to the natural environment are anticipated (Figures 8 and 9). Any proposed development would need to meet the St. Johns River Water Management District stormwater criteria as well as the City of Apopka LDC, therefore, no adverse impacts are anticipated. The site will be served by the City of Apopka utilities. Ambient noise (background sound) is produced by traffic of the three major roadways adjacent to the site and the proposed enclosed luxury car storage and maintenance facility is not anticipated to increase noise levels.
- Staff response: Staff has no objection.

h. Would result in development that is adequately served by public facilities (e.g., streets, potable water, sewerage, stormwater management, solid waste collection and disposal, schools, parks, police, and fire and emergency medical facilities).

- Applicant's response: The subject site is within the City of Apopka utility service area and any proposed development will meet the minimum level of service requirements for public facilities pursuant to Infrastructure Element Policies 1.1.1, 2.1.1, and 5.1.2. The proposed industrial land use will reduce the impacts to utilities (Tables 2 and 3). The industrial land use and light industrial zoning will not affect schools or parks. Stormwater management will need to meet the St. Johns River Water Management District regulations and the City of Apopka LDC. The subject site is located within the City of Apopka and receives city services such as police, fire, and emergency medical services. The closest city fire station is Station 6 located at 1757 Ocoee Apopka Road and the closest Orange County Fire Station is Station 28 located at 3250 Clarcona Road. The city has available capacity to serve the proposed development.
- Staff response: Staff has no objection.

SCHOOL CAPACITY REPORT:
Not applicable as this is non-residential development.

ORANGE COUNTY NOTIFICATION:
The JPA (Joint Planning Agreement) requires the City to notify the County 30 days before any public hearing or advisory board. The City notified Orange County on March 16, 2026.

PUBLIC HEARING SCHEDULE:
July 14, 2026 – Planning Commission (5:30 P.M.)
August 5, 2026 – City Commission (1:30 P.M.), First Reading
August 19, 2026 – City Commission (6:00 P.M.), Second Reading and Adoption

DULY ADVERTISED:
July 3, 2026 – Apopka Chief
June 9, 2026 – Mailed notices to adjacent property owners
June 29, 2026 – Posters placed on property

LAND USE REPORT:

I. **Relationship of adjacent properties**

Direction	Future Land Use	Zoning	Present Use
North	Commercial	C-C (Community Commercial)	Vacant
East	County Rural	County A-1	Vacant
South	Commercial	C-C (Community Commercial)	Vacant
West	Commercial	C-R (Regional Commercial)	Gas Station, Vacant

II. **Land Use Analysis**

The subject property is located in the Joint Planning Area. The property is surrounded by vacant properties with Commercial future land use. The property on the north and south sides are currently vacant, with a Commercial future land use. One of the properties on the west side is a gas station, and the other is vacant but approved for development as a landscape business for lawn company in 2025. The property on the east is vacant, and per the aerial image, the current use is stormwater management.
While the intersection of Clarcona Road and Keene Road is designated for Commercial future land use, most of these properties have been vacant and undeveloped due to a lack of competitiveness as commercial land uses. Meanwhile, surrounding properties have been developed for industrial and agricultural uses along the Clarcona Road and Keene Road corridor. The request to change the future land use of the subject property from Commercial to Industrial for enclosed luxury car storage is consistent with the characteristics of the corridor along which the property is located. As a result, future land use of the subject property is recommended for Industrial future land use to be consistent with the characteristics of the corridor, as well as the Comprehensive Plan policies, Development Design Guidelines, and the Land Development Code.
The property is approximately 5.23 acres in size and is located in one of the following areas:

- Wekiva Parkway Interchange Plan Area: No
- Wekiva River Protection Area: No
- Area of Critical State Concern: No

JPA: The City of Apopka and Orange County entered into a Joint Planning Area (JPA) agreement on October 26, 2004. The proposed Small-Scale Future Land Use Amendment request for a change from Mixed Use and Commercial to Industrial is consistent with the terms of the JPA (Second Amendment).

City of Apopka Comprehensive Plan Policies:
Future Land Use Element:
Policy 3.1.l
Industrial
The primary use shall be industrial, intensive commercial, agricultural and business/research parks. Also allowed are public facilities and supporting infrastructure. The use of the Planned Unit Development process shall be encouraged. The maximum floor area ratio shall be 0.6.

Transportation Element: Policies 1.1 and 1.2 state that the City of Apopka is a Transportation Concurrency Exception Area.

Infrastructure Element: Policies 1.1.1, 2.1.1 and 5.1.2 state the minimum levels of service for the City's wastewater and water systems as well as the City's solid waste collection service.

Conservation Element: A habitat study will not be required as the development is less than ten (10) acres.

This initial review does not preclude conformance with concurrency requirements at the time of development approval.

FUNDING SOURCE:
Not Applicable.

RECOMMENDED MOTION:
Development Review Committee (DRC):
On April 8, 2026, the DRC recommended approval of the change in Future Land Use designation from Commercial to Industrial, finding the proposed amendment consistent with the Comprehensive Plan and Land Development Code, and compatible with the character of the surrounding areas, based on the findings and facts presented in the staff report and exhibits.

Planning Commission:
On July 14, 2026, the Planning Commission unanimously recommended approval of Ordinance No. 3160, the proposed change of Future Land Use designation from Commercial to Industrial, consistent with the Comprehensive Plan and Land Development Code, and compatible with the character of the surrounding areas, and recommend approval of the proposed Change of Future Land Use, based on the findings and facts presented in the staff report and exhibits.

Recommended Motion – City Commission:
Accept First Reading of Ordinance No. 3160 and hold it over for Second Reading and Adoption.

Note: This item is considered Legislative. The staff report and its findings are to be incorporated into and made a part of the minutes of this meeting.

ORDINANCE NO. 3160

AN ORDINANCE OF THE CITY OF APOPKA, FLORIDA, AMENDING THE FUTURE LAND USE ELEMENT OF THE APOPKA COMPREHENSIVE PLAN OF THE CITY OF APOPKA; CHANGING THE FUTURE LAND USE DESIGNATION FROM COMMERCIAL TO INDUSTRIAL FOR PROPERTY LOCATED AT E KEENE ROAD; OWNED BY HCH DEVELOPMENT LLC, COMPRISING 5.23 ACRES MORE OR LESS; PROVIDING FOR SEVERABILITY, CONFLICTS, AND AN EFFECTIVE DATE.

WHEREAS, the City Commission of the City of Apopka adopted the City's Comprehensive Plan by Ordinance No. 653 on October 2, 1991, in accordance with the laws of the State of Florida; and

WHEREAS, the City of Apopka is committed to planning and managing the future growth and development of the City; and

WHEREAS, the City Commission of the City of Apopka has the authority to amend its Comprehensive Plan pursuant to Chapter 163, *Florida Statutes*; and

WHEREAS, the City of Apopka Planning Commission held a public hearing on July 14, 2026, to consider this small-scale amendment to the Future Land Use Map of the Comprehensive Plan and determined that this amendment is internally consistent with the City's Comprehensive Plan; and

WHEREAS, the City Commission of the City of Apopka held public hearings to consider this amendment, with due public notice having been provided, to obtain public comment, and considered all written and oral comments received during public hearings, including support documents; and

WHEREAS, the City of Apopka has complied with all requirements and procedures of Florida law in processing this small-scale amendment to the City's Comprehensive Plan; and

WHEREAS, the City Commission of the City of Apopka hereby finds and determines that this amendment is internally consistent with the City's Comprehensive Plan.

NOW THEREFORE, BE IT ORDAINED, by the City Commission of the City of Apopka, Florida, as follows:

Section I. Purpose and Intent. This Ordinance is enacted to carry out the purpose and intent of, and exercise the authority set out in, the Community Planning Act. The City of Apopka has complied with all requirements of Florida Law in processing this ordinance. The recitals set forth above recitals are hereby adopted.

Section II. Future Land Use Map Amendment. Page 1-32 (Map 1-6) of the Future Land Use Element of the City of Apopka Comprehensive Plan, is hereby amended to change the land use from Commercial to Industrial for certain real property generally located East of Clarcona Road and North of Keene Road, comprising 5.23 acres more or less; as shown and further described in Exhibit "A" attached hereto.

Section III. Applicability and Effect. The applicability and effect of the City of Apopka Comprehensive Plan shall be as provided by the Community Planning Act as set forth in Chapter 163, *Florida Statutes*.

Section IV. Severability. If any provision or portion of this Ordinance is declared by any court of competent jurisdiction to be void, unconstitutional, or unenforceable, then all remaining provisions and portions of this Ordinance shall remain in full force and effect.

Section V. Conflicts. All Ordinances or parts of Ordinances in conflict with any of the provisions of this Ordinance are hereby repealed**.**

Section VI. Effective Date. This Ordinance shall become effective thirty-one (31) days after adoption. If challenged within thirty (30) days after adoption, the Ordinance shall become effective after the state land planning agency or the Administration Commission, respectively, issues a final order determining that the adopted small-scale development amendment is in compliance with applicable law.

ADOPTED at a regular meeting of the City Commission of the City of Apopka, Florida, this _____ day of _____, 2026.

READ FIRST TIME: August 5, 2026

READ SECOND TIME AND ADOPTED: _____

ATTEST:

_____ _____

Susan Bone, City Clerk Nicholas L. Nesta, III, Mayor

Approved as to form and legal sufficiency:

_____

Clifford B. Shepard, City Attorney

DULY ADVERTISED FOR PUBLIC HEARING: July 3, 2026

LPG, LLC

LAND PLANNING GROUP

COMMUNITY MEETING NOTICE

You are cordially invited to a Community Meeting to discuss proposed application filed with the City of Apopka. The small-scale comprehensive plan amendment consists of 5.23 + acres. The subject site is located north of E Keen Road, east of Clarcoona Road and south of Apopka Expressway (SR 414). The property record card indicates the property identification number is 22-21-28-0000-00-206 and the property use commercial vacant land. The subject property is located within the City of Apopka. The subject site is designated as Commercial on the City of Apopka future land use map with an existing zoning designation of Community Commercial (C-C). It is proposed to rezone the subject site to Light Industrial (I-L). In conjunction with the rezoning, an amendment from Commercial to Industrial is sought pursuant to the Apopka Comprehensive Plan and Land Development Code Appendix A. A Master Plan has been included for this purpose. You may request additional information by emailing Michael Rankin, LPG, LLC at MichaelR@lpgurp.com or calling (352) 385-1940.

CITY OF APOPKA
PUBLIC HEARING NOTICE
CHANGE OF FUTURE LAND USE AND CHANGE OF ZONING

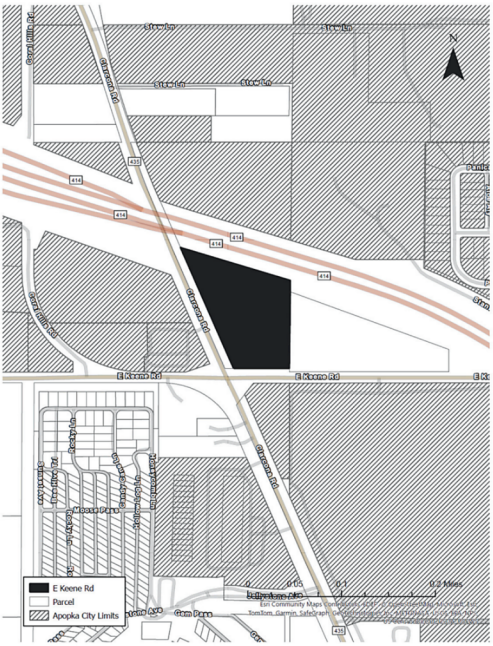
NOTICE is hereby given that Michael Rankin has made application relating to the property located at E. Keene Road, Apopka, Florida 32703, shown below for a change of future land use and a change of zoning and requested that the City of Apopka adopt the following ordinances:

ORDINANCE NO. 3160

AN ORDINANCE OF THE CITY OF APOPKA, FLORIDA, CHANGING THE FUTURE LAND USE FROM COMMERCIAL TO INDUSTRIAL, FOR CERTAIN REAL PROPERTY LOCATED AT E. KEENE ROAD; OWNED BY HCH DEVELOPMENT LLC, COMPRISING 5.23 ACRES, MORE OR LESS; PROVIDING FOR SEVERABILITY, CONFLICTS, AND AN EFFECTIVE DATE.

ORDINANCE NO. 3161

AN ORDINANCE OF THE CITY OF APOPKA, FLORIDA, CHANGING THE ZONING FROM C-C (COMMUNITY COMMERCIAL) TO I-L (LIGHT INDUSTRIAL), FOR CERTAIN REAL PROPERTY LOCATED AT E. KEENE ROAD; OWNED BY HCH DEVELOPMENT LLC, COMPRISING 5.23 ACRES, MORE OR LESS; PROVIDING FOR SEVERABILITY, CONFLICTS, AND AN EFFECTIVE DATE.



Parcel Identification Number(s): 22-21-28-0000-00-206
Contains: 5.23 +/- Acres

Notice is given that the **City of Apopka Planning Commission** will hold public hearings for **Ordinance Number 3160 and 3161** at its regularly scheduled meeting in the City Commission Chambers of the Apopka City Hall, 120 E. Main Street, Apopka, Florida on **Tuesday, July 14, 2026 beginning at 5:30 P.M.,** or as soon thereafter as possible.

FURTHER NOTICE is given that public hearings for **Ordinance Number 3160 and 3161** will be held by the **City of Apopka City Commission** at its regularly scheduled meeting in the City Commission Chambers of the Apopka City Hall, 120 E. Main Street, Apopka, Florida on **Wednesday, August 5, 2026 beginning at 1:30 P.M., and Wednesday, August 19, 2026** beginning at 6:00 P.M., or as soon thereafter as possible.

Interested parties and the public may appear at the above-listed hearings to speak. The proposed ordinances, along with any additional information regarding the application and review process, may be inspected at the Apopka Community Development Department located at Apopka City Hall, 120 E. Main Street, Apopka, Florida 32703, on weekdays between the hours of 8:00 a.m. and 4:30 p.m. Please be advised that, under State law, if you decide to appeal a decision made with respect to this matter, you will need a record of the proceedings and may need to ensure that a verbatim record is made, which record includes the testimony and evidence upon which the appeal is to be based. Written public comments regarding the application for the proposed ordinance may be submitted by mail to the City Clerk's Office at 120 East Main Street, Apopka FL 32703. In accordance with the Americans with Disabilities Act (ADA), persons with disabilities needing assistance to participate in any of these proceedings should contact the City Clerk's Office at 120 East Main Street, Apopka FL 32703, Telephone: 407-703-1704, at least 48 hours prior to the proceeding.

CITY COMMISSION STAFF REPORT

Section: PUBLIC HEARINGS/ORDINANCES/RESOLUTION (Action Item)
Item #: 5.
Meeting Date: August 5, 2026
Department: Community Development

SUBJECT:
Ordinance No. 3161 First Reading - Quasi-Judicial – Change of Zoning – E. Keene Road

ACTION ITEM INFORMATION:
Owner(s): HCH Development LLC
Applicant: Michael Rankin
Parcel Identification Number(s): 22-21-28-0000-00-206
Location: E. Keene Road
Existing Zoning: C-C (Community Commercial)
Proposed Zoning: I-L (Light Industrial)
Existing Use(s): Vacant
Existing Future Land Use: Commercial
Proposed Future Land Use: Industrial
Tract Size: 5.23 +/- Acres
Proposed Use: Warehouse storage (enclosed car storage)
Project Manager: Jun Sohn, Ph.D.

REQUEST:
Accept First Reading of Ordinance No. 3161 and hold it over for Second Reading and Adoption.

SUMMARY:
Owner(s): HCH Development LLC
Applicant: Michael Rankin
Parcel Identification Number(s): 22-21-28-0000-00-206
Location: E. Keene Road
Existing Zoning: C-C (Community Commercial)
Proposed Zoning: I-L (Light Industrial)
Existing Use(s): Vacant
Existing Future Land Use: Commercial
Proposed Future Land Use: Industrial
Tract Size: 5.23 +/- Acres
Proposed Use: Warehouse storage (enclosed car storage)

Direction	Future Land Use	Zoning	Present Use
North	Commercial	C-C (Community Commercial)	Vacant
East	County Rural	County A-1	Vacant
South	Commercial	C-C (Community Commercial)	Vacant
West	Commercial	C-R (Regional Commercial)	Gas Station, Vacant

PROJECT SUMMARY:
The subject property, which is approximately 5.23 acres in size, is located at the northeast corner of the intersection of East of Clarcona Road and E. Keene Road. The property is currently vacant. The applicant is requesting rezoning of the property to allow new development for warehouse storage for enclosed luxury car storage. The use of warehouse storage is permitted in the I-L zoning district per Land Development Code Section 3.5. and Table 4.2.2.C. Warehouse storage is not a permitted use in the Commercial future land use and zoning designations.

a. Is consistent with and furthers the goals, objectives and policies of the comprehensive plan and other adopted City plans;

    - Applicant's response: FLU Policy 3.1.1 states that the primary use shall be industrial, intensive commercial, agricultural and business/research parks. Also allowed are public facilities and supporting infrastructure. The maximum floor area ratio is 0.60 gross floor area. The proposed amendment to industrial is compatible with the adjacent commercial land use which has been previously established in the general area where existing industrial land uses adjacent to Keene Road are located adjacent to commercial and agriculture land uses. Additional industrial land uses are also located adjacent to Clarcona Road and Coral Hills Road to the north of the subject site which are adjacent to Agriculture land use.
    - Staff response: Staff has no objection.

b. Is in conflict with any provisions of the LDC;

    - Applicant's response: The proposed comprehensive plan amendment and zoning amendment is not in conflict with the LDC. Proposed development will need to comply with the LDC.
    - Staff response: Staff has no objection.

c. Addresses a demonstrated community need;

    - Applicant's response: The proposed land use amendment to Industrial and rezoning to Light Industrial will provide an opportunity for the community to store luxury cars within an enclosed facility with clubhouse. This type of facility is currently not offered within the city limits.
    - Staff response: Staff has no objection.

d. Is required by changed conditions;

    - Applicant's response: The current commercial land use and community commercial zoning allows for an enclosed parking facility and with a special exception automobile service station; however, it does specifically allow for enclosed vehicle storage areas; therefore, a land use amendment and rezoning is required to meet the needs of area luxury car owners.
    - Staff response: Staff has no objection.

e. Is compatible with existing and proposed uses surrounding the subject land, and is the appropriate zoning district for the land;

    - Applicant's response: The proposed amendment to industrial is compatible with the adjacent commercial land use which has been previously established in the general area where existing industrial land uses adjacent to Keene Road are located adjacent to commercial and agriculture land uses. Additional industrial land uses are also located adjacent to Clarcona Road and Coral Hills Road to the north of the subject site which are adjacent to Agriculture land use.
    - Staff response: Staff has no objection.

f. Would result in a logical and orderly development pattern;

    - Applicant's response: The general area is a mixture of agriculture, commercial and industrial land uses and zoning. Therefore, the proposed industrial land use and rezoning to Light Industrial would result in a logical and orderly development pattern consistent with the future land use map and comprehensive plan.

- Staff response: Staff has no objection.

g. Would not result in significant adverse impacts on the natural environment—including, but not limited to, water, air, noise, stormwater management, wildlife, vegetation, wetlands, and the natural functioning of the environment; and

- Applicant's response: The subject site is classified as uplands with no environmental constraints such as wetlands, water bodies or flood areas therefore, no significant impacts to the natural environment are anticipated (Figures 8 and 9). Any proposed development would need to meet the St. Johns River Water Management District stormwater criteria as well as the City of Apopka LDC, therefore, no adverse impacts are anticipated. The site will be served by the City of Apopka utilities. Ambient noise (background sound) is produced by traffic of the three major roadways adjacent to the site and the proposed enclosed luxury car storage and maintenance facility is not anticipated to increase noise levels.
- Staff response: Staff has no objection.

h. Would result in development that is adequately served by public facilities (e.g., streets, potable water, sewerage, stormwater management, solid waste collection and disposal, schools, parks, police, and fire and emergency medical facilities).

- Applicant's response: The subject site is within the City of Apopka utility service area and any proposed development will meet the minimum level of service requirements for public facilities pursuant to Infrastructure Element Policies 1.1.1, 2.1.1, and 5.1.2. The proposed industrial land use will reduce the impacts to utilities (Tables 2 and 3). The industrial land use and light industrial zoning will not affect schools or parks. Stormwater management will need to meet the St. Johns River Water Management District regulations and the City of Apopka LDC. The subject site is located within the City of Apopka and receives city services such as police, fire, and emergency medical services. The closest city fire station is Station 6 located at 1757 Ocoee Apopka Road and the closest Orange County Fire Station is Station 28 located at 3250 Clarcona Road. The city has available capacity to serve the proposed development.
- Staff response: Staff has no objection.

SCHOOL CAPACITY REPORT:
Not applicable.

ORANGE COUNTY NOTIFICATION:
The JPA (Joint Planning Agreement) requires the City to notify the County 30 days before any public hearing or advisory board. The City notified Orange County on March 16, 2026.

PUBLIC HEARING SCHEDULE:
July 14, 2026 – Planning Commission (5:30 P.M.)
August 5, 2026 – City Commission (1:30 P.M.), First Reading
August 19, 2026 – City Commission (6:00 P.M.), Second Reading and Adoption

DULY ADVERTISED:
July 3, 2026 – Apopka Chief
June 9, 2026 – Mailed notices to adjacent property owners
June 29, 2026 – Posters placed on property

FUNDING SOURCE:
Not Applicable.

RECOMMENDED MOTION:
Development Review Committee (DRC):
On April 8, 2026, DRC recommended approval of the Change of Zoning from C-C (Community Commercial) to I-L (Light Industrial), finding the proposed change consistent with the Comprehensive Plan and Land Development Code, and compatible with the character of the surrounding areas, based on the findings and facts presented in the

staff report and exhibits.

Planning Commission:
On July 14, 2026, the Planning Commission unanimously recommended approval of Ordinance No. 3161, the proposed Change of Zoning from C-C (Community Commercial) to I-L (Light Industrial), consistent with the Comprehensive Plan and Land Development Code, and compatible with the character of the surrounding areas, recommend approval of the proposed Change of Zoning, based on the findings and facts presented in the staff report and exhibits.

Recommended Motion – City Commission:
Accept First Reading of Ordinance No. 3161 and hold it over for Second Reading and Adoption.

Note: This item is considered quasi-judicial. The staff report and its findings are to be incorporated into and made a part of the minutes of this meeting.

ORDINANCE NO. 3161

AN ORDINANCE OF THE CITY OF APOPKA, FLORIDA, CHANGING THE ZONING FROM C-C (COMMUNITY COMMERCIAL) TO I-L (LIGHT INDUSTRIAL) FOR CERTAIN REAL PROPERTY GENERALLY LOCATED AT E. KEENE ROAD; OWNED BY HCH DEVELOPMENT LLC, COMPRISING 5.23 ACRES MORE OR LESS; PROVIDING FOR SEVERABILITY, CONFLICTS, AND AN EFFECTIVE DATE.

WHEREAS, to manage the growth, the City of Apopka, Florida, finds it in the best interest of the public health, safety and welfare of its citizens to establish zoning classifications within the City; and

WHEREAS, Michael Rankin has requested a change in zoning on said property as identified in Section I of this ordinance; and

WHEREAS, the proposed I-L (Light Industrial) zoning has been found to be consistent with the City of Apopka Comprehensive Plan, and the City of Apopka Land Development Code.

NOW THEREFORE, BE IT ORDAINED, by the City Commission of the City of Apopka, Florida, as follows:

Section I. That the zoning classification of the property described in Exhibit A, being situated in the City of Apopka, Florida, is hereby changed to I-L District, as defined in the Apopka Land Development Code.

Section II. That the zoning classification is consistent with the Comprehensive Plan of the City of Apopka, Florida. The applicant shall obtain all approvals as required, if any, per the Orange County Charter and the Amended Interlocal Agreement for Public School Facility Planning and Implementation of Concurrency.

Section III. That the Community Development Director, or the Director's designee, is hereby authorized to amend, alter, and implement the official zoning maps of the City of Apopka, Florida, to include said designation.

Section IV. That if any section or portion of a section or subsection of this Ordinance proves to be invalid, unlawful, or unconstitutional, it shall not be held to invalidate or impair the validity, force or effect of any other section or portion of section or subsection or part of this ordinance.

Section V. That all ordinances or parts of ordinances in conflict herewith are hereby repealed.

Section VI. That this Ordinance shall take effect upon the date of adoption.

ADOPTED at a regular meeting of the City Commission of the City of Apopka, Florida, this ____ day of_____, 2026.

READ FIRST TIME: August 5, 2026

READ SECOND TIME AND ADOPTED: _____

ATTEST:

CITY OF APOPKA
PUBLIC HEARING NOTICE
CHANGE OF FUTURE LAND USE AND CHANGE OF ZONING

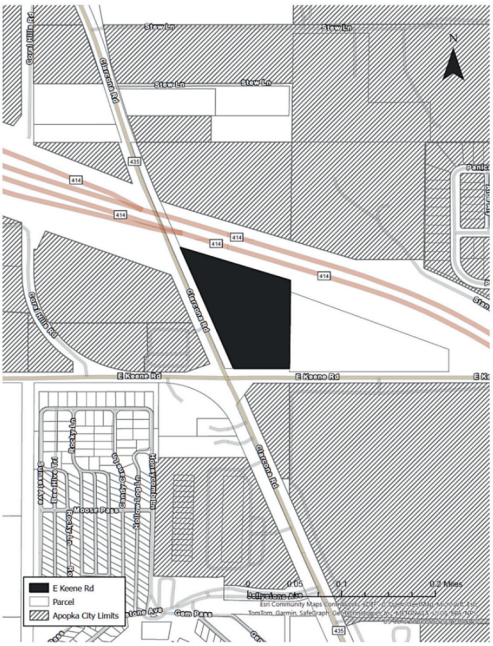
NOTICE is hereby given that Michael Rankin has made application relating to the property located at E. Keene Road, Apopka, Florida 32703, shown below for a change of future land use and a change of zoning and requested that the City of Apopka adopt the following ordinances:

ORDINANCE NO. 3160

AN ORDINANCE OF THE CITY OF APOPKA, FLORIDA, CHANGING THE FUTURE LAND USE FROM COMMERCIAL TO INDUSTRIAL, FOR CERTAIN REAL PROPERTY LOCATED AT E. KEENE ROAD; OWNED BY HCH DEVELOPMENT LLC, COMPRISING 5.23 ACRES, MORE OR LESS; PROVIDING FOR SEVERABILITY, CONFLICTS, AND AN EFFECTIVE DATE.

ORDINANCE NO. 3161

AN ORDINANCE OF THE CITY OF APOPKA, FLORIDA, CHANGING THE ZONING FROM C-C (COMMUNITY COMMERCIAL) TO I-L (LIGHT INDUSTRIAL), FOR CERTAIN REAL PROPERTY LOCATED AT E. KEENE ROAD; OWNED BY HCH DEVELOPMENT LLC, COMPRISING 5.23 ACRES, MORE OR LESS; PROVIDING FOR SEVERABILITY, CONFLICTS, AND AN EFFECTIVE DATE.



Parcel Identification Number(s): 22-21-28-0000-00-206
Contains: 5.23 +/- Acres

Notice is given that the **City of Apopka Planning Commission** will hold public hearings for **Ordinance Number 3160 and 3161** at its regularly scheduled meeting in the City Commission Chambers of the Apopka City Hall, 120 E. Main Street, Apopka, Florida on **Tuesday, July 14, 2026 beginning at 5:30 P.M.,** or as soon thereafter as possible.

FURTHER NOTICE is given that public hearings for **Ordinance Number 3160 and 3161** will be held by the **City of Apopka City Commission** at its regularly scheduled meeting in the City Commission Chambers of the Apopka City Hall, 120 E. Main Street, Apopka, Florida on **Wednesday, August 5, 2026 beginning at 1:30 P.M., and Wednesday, August 19, 2026** beginning at 6:00 P.M., or as soon thereafter as possible.

Interested parties and the public may appear at the above-listed hearings to speak. The proposed ordinances, along with any additional information regarding the application and review process, may be inspected at the Apopka Community Development Department located at Apopka City Hall, 120 E. Main Street, Apopka, Florida 32703, on weekdays between the hours of 8:00 a.m. and 4:30 p.m. Please be advised that, under State law, if you decide to appeal a decision made with respect to this matter, you will need a record of the proceedings and may need to ensure that a verbatim record is made, which record includes the testimony and evidence upon which the appeal is to be based. Written public comments regarding the application for the proposed ordinance may be submitted by mail to the City Clerk's Office at 120 East Main Street, Apopka FL 32703. In accordance with the Americans with Disabilities Act (ADA), persons with disabilities needing assistance to participate in any of these proceedings should contact the City Clerk's Office at 120 East Main Street, Apopka FL 32703, Telephone: 407-703-1704, at least 48 hours prior to the proceeding.

City of Apopka
CITY COMMISSION STAFF REPORT

Section: PUBLIC HEARINGS/ORDINANCES/RESOLUTION (Action Item)
Item #: 6.
Meeting Date: August 5, 2026
Department: Code Enforcement

SUBJECT:
Resolution No. 2026-31 - Adopting Administrative Fine Settlement Guidelines for Code Enforcement Liens

ACTION ITEM INFORMATION:

REQUEST:
Adopt Resolution Number 2026-31 Establishing the Fine Settlement Guidelines for Code Enforcement Liens.

SUMMARY:
The City Commission has directed staff to establish uniform administrative fine settlement guidelines to promote compliance, encourage the correction of violations, reduce uncollectible lien balances, and provide a consistent method for resolving code enforcement liens. The attached resolution establishes a set Fine Settlement Guideline for both Residential and Commercial property liens as follows:

Unless otherwise approved by the City Commission, eligible code enforcement liens may be settled according to the following minimum guidelines:

A. Residential Property: Five percent (5%) of the total lien amount or Five percent (5%) of the value of the property, whichever is of lesser value.

B. Commercial, Industrial, Mixed-Use, or Nonresidential Property: Ten percent (10%) of the total lien amount or Ten percent (10%) of the value of the property, whichever is of lesser value.

FUNDING SOURCE:
N/A

RECOMMENDED MOTION:
Adopt Resolution Number 2026-31.

ATTACHMENTS:
1. Resolution No 2026-31

RESOLUTION NO 2026-31

A RESOLUTION OF THE CITY COMMISSION OF THE CITY OF APOPKA, FLORIDA, ADOPTING ADMINISTRATIVE FINE SETTLEMENT GUIDELINES FOR CODE ENFORCEMENT LIENS; ESTABLISHING MINIMUM SETTLEMENT AMOUNTS FOR RESIDENTIAL AND COMMERCIAL PROPERTIES; PROVIDING ELIGIBILITY REQUIREMENTS; AUTHORIZING THE PROCESSING OF LIEN SETTLEMENT REQUESTS; PROVIDING FOR SATISFACTION OR RELEASE OF LIENS; PROVIDING FOR CONFLICTS, SEVERABILITY, AND AN EFFECTIVE DATE.

WHEREAS, Chapter 162, Florida Statutes, authorizes municipalities to enforce codes and ordinances through code enforcement boards or special magistrates and to impose administrative fines for violations; and

WHEREAS, Section 162.09, Florida Statutes, provides that a certified copy of an order imposing a fine may be recorded in the public records and thereafter constitutes a lien; and

WHEREAS, liens arising from code enforcement fines run in favor of the local governing body, and the local governing body may execute satisfactions or releases of such liens as authorized by law; and

WHEREAS, the City Commission desires to establish uniform administrative fine settlement guidelines to promote compliance, encourage the correction of violations, reduce uncollectible lien balances, and provide a consistent method for resolving code enforcement liens; and

WHEREAS, the City Commission finds that settlement of eligible code enforcement liens after compliance has been achieved serves a valid municipal purpose and is in the best interest of the City.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF APOPKA, FLORIDA:

SECTION 1. ADOPTION OF ADMINISTRATIVE FINE SETTLEMENT GUIDELINES.

The City Commission hereby adopts administrative fine settlement guidelines for eligible code enforcement liens imposed pursuant to Chapter 162, Florida Statutes, and the City Code.

SECTION 2. ELIGIBILITY.

A property owner, contract purchaser, lienholder, or other party with a legal or equitable interest in the property may request settlement of an eligible code enforcement lien, provided that:

1. The property is in full compliance with all cited code violations related to the lien;
2. An affidavit or written confirmation of compliance has been issued by the City;

3. All applications, forms, and supporting documents required by the city have been submitted;
4. All City-incurred hard costs, including recording costs, title search costs, abatement costs, administrative costs, and attorney's fees, have been paid or are included in the settlement amount;
5. The request does not involve active litigation, foreclosure, bankruptcy, or other legal proceedings unless reviewed and approved by the City Attorney; and
6. The applicant has disclosed whether the property is residential, commercial, mixed-use, or vacant.

SECTION 3. SETTLEMENT AMOUNTS.

Unless otherwise approved by the City Commission, eligible code enforcement liens may be settled according to the following minimum guidelines:

A. Residential Property: Five percent (5%) of the total lien amount or Five percent (5%) of the value of the property, whichever is of lesser value.

B. Commercial, Industrial, Mixed-Use, or Nonresidential Property: Ten percent (10%) of the total lien amount or Ten percent (10%) of the value of the property, whichever is of lesser value.

SECTION 4. CALCULATION OF TOTAL LIEN AMOUNT.

For purposes of this Resolution, "total lien amount" means the total accrued administrative fine balance as of the date the city calculates the settlement amount.

SECTION 5. PAYMENT DEADLINE.

The approved settlement amount shall be paid in full within ninety (90) days after written notice of the approved settlement amount is provided to the applicant. If payment is not timely received, the settlement approval shall expire automatically, and the full lien amount shall remain due and owing.

SECTION 6. SATISFACTION OR RELEASE OF LIEN.

Upon confirmation of full payment of the approved settlement amount and all required costs, the City, is authorized to execute and record a satisfaction or release of lien in the public records.

SECTION 7. NO ENTITLEMENT TO REDUCTION.

Nothing in this Resolution creates a right or entitlement to a lien reduction, settlement, compromise, satisfaction, or release. The City retains discretion to deny, modify, or condition any request based on the facts of the case, public health and safety concerns, repeat violations, bad faith, noncompliance, pending litigation, or other circumstances deemed relevant by the City.

SECTION 8. EXCLUSIONS.

The city may deny or exclude from settlement any lien involving:

1. Repeat violations;
2. Life-safety violations;
3. Irreparable or irreversible violations;
4. Properties with active violations;
5. Properties subject to foreclosure, bankruptcy, or litigation;
6. Fraud, misrepresentation, or bad faith by the applicant; or
7. Any matter where settlement is determined not to be in the best interest of the city.

SECTION 9. CONFLICTS.

All resolutions or parts of resolutions in conflict with this Resolution are repealed to the extent of such conflict.

SECTION 10. SEVERABILITY.

If any section, sentence, clause, or provision of this Resolution is held invalid, the remaining provisions shall remain in full force and effect.

SECTION 11. EFFECTIVE DATE.

This Resolution shall take effect immediately upon adoption.

PASSED AND ADOPTED this ____ day of _____, 2026.

The following is a narrative of the City's Budget-to-Actual Comparison for the Nine-Months Ending June 30, 2026. This Report will highlight the key revenues and expenditures/expenses variances of the following: General Fund, Street Improvement Fund, Transportation Impact Fee, Recreation Impact Fees, Fire Impact Fees, Police Impact Fees, Stormwater Fund, Water & Wastewater Operating Fund, Sanitation, Water & Wastewater Reuse Fund and Community Development Fund.

Revenues:

General Fund

The General Fund is the primary operating fund of the City. It exists to account for the resources devoted to finance the services traditionally associated with local government. Included in these services are Mayor's Office, Legal Services, Administrative Services, Facilities Maintenance, City Clerk, Finance, Human Resources, Fire Department, Police Department, Public Services, Parks and Recreation, Community Development, Economic Development, Information Technology and any other activity for which a special fund has not been created.

Type:	Revenue
Fund:	001 GENERAL FUND

FY26 Amended Revenue Budget	FY26 Revenue Collected	FY26 Annual Projection	% Recognized	
$123,362,149	$74,336,453	$94,763,612	60.26%	

Year-to-date revenues received are lower than the 75.00% anticipated due to revenues are lower than anticipated year-to-date for building permits and plan analysis fees. We are hoping the growth in development resumes in the very near future.

Street Improvements Fund

The Streets Division performs functions related to right-of-way maintenance such as road resurfacing, sidewalk repair, potholes repair, curbs repair, street sweeping, traffic regulatory signage installation and maintenance, traffic signals maintenance, tree trimming, stormwater pond mowing, and a wide variety of related tasks as needs arise.

Type:	Revenue
Fund:	101 STREET IMPROVEMENTS FUND

FY26 Amended Revenue Budget	FY26 Revenue Collected	FY26 Annual Projection	% Recognized	
$9,391,292	$6,642,104	$9,237,190	70.73%	

Year-to-date revenues collected are slightly under the anticipated amount. Revenues are lower than anticipated year-to-date for Gas Tax Revenue due to payments are made a month in arrears. Annually, we are projecting to exceed the budget.

Transportation Impact Fee Fund

The Transportation Impact Fee Fund tracks and accounts for the fees collected to ensure new development helps cover the costs associated with street infrastructure improvements within the City of Apopka.

Type:	Revenue
Fund:	102 TRANSPORTATION IMPACT FEES

FY26 Amended Revenue Budget	FY26 Revenue Collected	FY26 Annual Projection	% Recognized
$38,641,905	$6,298,579	$8,398,106	16.30%

Year-to-date revenues collected are under the anticipated amount. Revenues for Transportation Impact Fees - Residential are coming in lower than anticipated. Please note that this fund typically uses reserves to support new and expansion related projects. As such, the budgeted revenues include $23.3M of carry over appropriations to support such projects. This contributes to the lower percentage year-to-date.

Recreation Impact Fees Fund

The recreation impact fees are collected from new residential construction to purchase, build or improve the City's parks and recreation facilities.

Type:	Revenue
Fund:	104 RECREATION IMPACT FEES

FY26 Amended Revenue Budget	FY26 Revenue Collected	FY26 Annual Projection	% Recognized
$7,986,826	$1,313,740	$1,751,653	16.45%

Year-to-date revenues received are less than the75.00% anticipated. This is primarily due to less that anticipated residential recreation impact fee revenue. Please note that this fund typically uses reserves to support new and expansion related projects. As such, the budgeted revenues include $5.1M of carry over appropriations to support such projects. This contributes to the lower percentage year-to-date.

Fire Impact Fees Fund

The fire impact fees are collected from new residential construction to purchase, build or improve the City's fire facilities.

Type:	Revenue
Fund:	110 FIRE IMPACT FEES

FY26 Amended Revenue Budget	FY26 Revenue Collected	FY26 Annual Projection	% Recognized
$7,348,881	$1,170,618	$1,560,824	15.93%

Year-to-date revenues received are less than the 75.00%% anticipated. This is primarily due to less that anticipated residential fire impact fee revenue. Please note that this fund typically uses reserves to support new and expansion related projects. As such, the budgeted revenues include $5.3M of carry over appropriations to support such projects. This contributes to the lower percentage year-to-date.

Police Impact Fees Fund

The Police Impact Fees Fund are collected from new residential construction to purchase, build or improve the City's police facilities.

Type:	Revenue
Fund:	115 POLICE IMPACT FEES

FY26 Amended Revenue Budget	FY26 Revenue Collected	FY26 Annual Projection	% Recognized
$7,299,150	$1,244,363	$2,700,233	17.05%

Year-to-date revenues received are less than the 75.00% anticipated. This is primarily due to less that anticipated police residential impact fee revenue. Please note that this fund typically uses reserves to support new and expansion related projects. As such, the budgeted revenues include $5.2M of carry over appropriations to support such projects. This contributes to the lower percentage year-to-date.

Stormwater Fund

The primary purpose of the Stormwater Fund is to comply with NPDES MS4 regulations. The primary objectives of this Fund are to inspect, clean, repair, rehabilitate, and design/permit/build improvements to stormwater systems that provide flood control and significantly increases water quality treatment within the City.

Type:	Revenue
Fund:	120 STORMWATER SPECIAL REVENUE FUND

FY26 Amended Revenue Budget	FY26 Revenue Collected	FY26 Annual Projection	% Recognized
$2,889,659	$2,543,640	$2,796,301	88.03%

Year-to-date revenues received are over the 75.00% anticipated. This is primarily due to higher than anticipated stormwater collection fee and miscellaneous revenue.

Water & Wastewater Operating Fund

The Utilities Operations Fund is used to ensure the effective operation for water, sewer and reclaim utilities for all citizens of Apopka.

Type:	Revenue
Fund:	401 WATER & WASTEWATER OPERATING FUND

FY26 Amended Revenue Budget	FY26 Revenue Collected	FY26 Annual Projection	% Recognized
$51,147,533	$32,188,660	$42,918,213	62.93%

Year-to-date revenues collected are under the anticipated amount. This is primarily due to slightly less than anticipated revenue for backflow fee, backflow conversions, and interest on investments. Please note that this fund typically uses carryover funding to support ongoing capital projects approved in a previous year. As such, the budgeted revenues include $7.1M of carry over appropriations to support such projects. This contributes to the lower percentage year-to-date.

Sanitation Fund

The Sanitation Fund provides commercial and household solid waste pick-up and disposal for our citizens. Solid Waste service includes residential garbage, recycling, yard waste and bulky pick-up services and commercial dumpster service.

Type:	Revenue
Fund:	402 SANITATION

FY26 Amended Revenue Budget	FY26 Revenue Collected	FY26 Annual Projection	% Recognized
$10,399,731	$6,811,461	$9,081,948	65.50%

Year-to-date revenues collected are under the anticipated amount. Revenues for sanitation service fees and franchise fees are trending slightly lower than expected year-to-date.

Water & Wastewater Reuse Fund

The Utilities Operations Fund is used to ensure the effective operation for water, sewer and reclaim utilities for all citizens of Apopka.

Type:	Revenue
Fund:	403 WATER, WASTEWATER AND REUSE

FY26 Amended Revenue Budget	FY26 Revenue Collected	FY26 Annual Projection	% Recognized
$48,215,533	$12,098,986	$16,131,981	25.09%

Year-to-date revenues received are less than the 75.00% anticipated. This is primarily due to less than anticipated revenues for water, wastewater, and reclaimed residential impact fees due to slow growth. Also, please note that this fund typically use reserves to support new and expansion related projects. As such, the budgeted revenues include $24.9M of carry over appropriations to support such projects. This contributes to the lower percentage year-to-date.

Community Development Fund

The City's Community Redevelopment Fund provides the framework for projects and programs intended to revitalize and improve conditions within the Community Redevelopment Area.

Type:	Revenue
Fund:	610 COMMUNITY DEVELOPMENT AGENCY

FY26 Amended Revenue Budget	FY26 Revenue Collected	FY26 Annual Projection	% Recognized
$6,426,590	$1,637,463	$1,689,863	25.48%

Year-to-date revenues received are less than the 75.00% anticipated. Please note that this fund typically use reserves to support ongoing projects approved in a prior year and new projects. As such, the budgeted revenues include $4.9M of carry over appropriations to support such projects. This contributes to the lower percentage year-to-date.

Expenditures/Expenses:

General Fund

Type:	Expenditure
Fund:	001 GENERAL FUND
Div No. / Name:	1010 MAYOR'S OFFICE

FY26 Amended Expenditure Budget	FY26 YTD Expenditures	FY26 Annual Projection	% Expended
$600,020	$409,625	$528,725	68.27%

Overall year-to-date expenses are slightly less than anticipated but are expected to remain within the annual budget throughout the remainder of the year.

Type:	Expenditure
Fund:	001 GENERAL FUND
Div No. / Name:	1015 LEGAL SERVICES

FY26 Amended Expenditure Budget	FY26 YTD Expenditures	FY26 Annual Projection	% Expended
$3,349,417	$1,942,923	$2,929,896	58.01%

Overall year-to-date expenses are less than anticipated. This is primarily due to lower contract services, other current charges & books publications & subscriptions.

Type:	Expenditure
Fund:	001 GENERAL FUND
Div No. / Name:	1020 ADMINISTRATIVE SERVICES

FY26 Amended Expenditure Budget	FY26 YTD Expenditures	FY26 Annual Projection	% Expended
$605,486	$160,235	$213,567	26.46%

Overall year-to-date expenses are less than anticipated primarily due to the vacany of the City Administrator posiiton and lower expenses for contractual services. Also, this budget includes the $100K budgeted for the program to support non-profit organizations. City Commission has awarded $97,000 for the year.

Type:	Expenditure
Fund:	001 GENERAL FUND
Div No. / Name:	1022 FACILITIES MAINTENANCE

FY26 Amended Expenditure Budget	FY26 YTD Expenditures	FY26 Annual Projection	% Expended
$5,714,328	$2,174,547	$2,679,423	38.05%

Overall year-to-date expenses are less than anticipated, primarily due to lower expenses for other contractual services, utility services, rental and leases, repairs and maintenance, vehicle maintenance, operating supplies, fuel and gasoline, buildings, and infrastructure, machinery and equipment. In addition, capital expenditures for various projects (annex renovations, fire station #2 renovations, roof renovations, museum repairs, restroom renovation, ACC walls and stages, and public services utility building roof) are scheduled to begin over the next few months.

Type:	Expenditure

	Overall year-to-date expenses are less than anticipated, primarily due to less than anticipated expenditures for travel, communication services, postage, rentals, repairs & maintenance, vehicle maintenance, printing, legal advertising, office & operatiing supplies, training, and vehicle purchases.				

Type:	Expenditure
Fund:	001 GENERAL FUND
Div No. / Name:	4022 ECONOMIC DEVELOPMENT

FY26 Amended Expenditure Budget	FY26 YTD Expenditures	FY26 Annual Projection	% Expended	
$404,861	$314,794	$415,565	77.75%	
Overall year-to-date expenses are slightly higher than anticipated. This is primarily due to higher expenses for subscriptions and equipment purchases, but are expected to remain within the annual budget throughout the remainder of the year.				

Type:	Expenditure
Fund:	001 GENERAL FUND
Div No. / Name:	5110 INFORMATION TECHNOLOGY

FY26 Amended Expenditure Budget	FY26 YTD Expenditures	FY26 Annual Projection	% Expended	
$5,874,667	$4,336,969	$5,519,112	73.82%	

Overall year-to-date expenses are slightly lower than anticipated. This is primarily due to expenses for professional services, postage, vehicle maintenance, office & operating supplies, training, equipment and other capital purchases (upgrades to the Chamber, Desktop Replacements, and City-wide Security System Expansion) year-to-date.

Type:	Expenditure
Fund:	001 GENERAL FUND
Div No. / Name:	9011 TRANSFERS

FY26 Amended Expenditure Budget	FY26 YTD Expenditures	FY26 Annual Projection	% Expended	
$8,066,326	$5,589,404	$7,496,954	69.29%	

Overall year-to-date transfers are slightly lower than anticipated, primarily due to the debt services related to the Fleet Building is pending the final design completion to begin the solicitation.

Street Improvement Fund

Type:	Expenditure
Fund:	101 STREET IMPROVEMENTS FUND

FY26 Amended Expenditure Budget	FY26 YTD Expenditures	FY26 Annual Projection	% Expended	
$9,391,292	$6,378,085	$7,855,694	67.91%	

Overall year-to-date expenses are lower than anticipated year-to-date. This is primarily due to lower than anticpated expenditures for professional services, other contractual services, utility services, rental and leases, repairs & maintenance, FDOT signals & equipment, street striping, vehicle maintenance, printing services, other current charges, temporary labor, office & operating supplies, fuel & gasoline, road materials & supplies, subscriptions, training, speed hump program and equipment purchases. Overtime is 46.93% year-to-date, which is below the 75.00% anticipated.

Transportation Fund

Type:	Expenditure
Fund:	102 TRANSPORTATION IMPACT FEES

FY26 Amended Expenditure Budget	FY26 YTD Expenditures	FY26 Annual Projection	% Expended
$38,641,905	$3,009,212	$6,386,340	7.79%

Overall year-to-date expenses are less than anticipated, primarily due to less than anticipated expenditures for professional services and various improvement projects : (New Sidewalks Design & Construction, Rock Spring Road to Welch Road Intersection Improvement Design Phase, Vick Road - widen to 4 lanes design phase, Martin Street to Sun Bluff, Welch Road to Lester Road, Old Dixie Highway to Martin Street, Park Ave and Votaw Road- Intersection Improvement , Sandpiper and Park intersection improvement and signal, Lust and Binion roundabout design, Matching Funds - Ocoee-Apopka Complete Streets project pending grant agreement execution, Bradshaw & Johns Road, and several carryover projects from prior years including Kelly Park Road Widening, Harmon Road, Us 441 Errol Parkway & Bradshaw Signal Improvements, New Trail Design & Construction, Ocoee Apopka Road Widening to Alston Bay, Ocoee Apopka Road Widening Harmon Road to Bradshaw Road, West Kelly Park Road Widening and New Signals from west of Golden Gem Road to Plymouth Sorrento Road, and others .

Recreation Impact Fees

Type:	Expenditure
Fund:	104 RECREATION IMPACT FEES

FY26 Amended Expenditure Budget	FY26 YTD Expenditures	FY26 Annual Projection	% Expended
$7,986,826	$555,782	$741,043	6.96%

Overall year-to-date expenses are less than anticipated, primarily due to less than anticipated expenditures for various projects: Mountain Park Developments, Tennis & Pickleball Facility Building & Parking Lot, and the NWRC Mulitpurpose Fields. We are expecting these expenditures to increase over the next two months.

Fire Impact Fees

Type:	Expenditure
Fund:	110 FIRE IMPACT FEES

FY26 Amended Expenditure Budget	FY26 YTD Expenditures	FY26 Annual Projection	% Expended
$7,348,881	$3,750	$5,000	0.05%

Overall year-to-date expenses are less than anticipated, due to less than anticipated expenditures for the Architectural Design for Public Safety Administration Complex.

Police Impact Fees

Type:	Expenditure
Fund:	115 POLICE IMPACT FEES

FY26 Amended Expenditure Budget	FY26 YTD Expenditures	FY26 Annual Projection	% Expended
$7,299,150	$3,750	$541,154	0.05%

Overall year-to-date expenses are less than anticipated, due to less than anticipated expenditures for the Architectural Design for Public Safety Administration Complex.

Stormwater

Type:	Expenditure
Fund:	120 STORMWATER SPECIAL REVENUE FUND

FY26 Amended Expenditure Budget	FY26 YTD Expenditures	FY26 Annual Projection	% Expended
$2,889,659	$1,423,499	$2,264,399	49.26%

Overall year-to-date expenses are less than anticipated, primarily due to less than anticpated expenditures for professional services, utility services, rentals, repairs & maintenance, printing, other current charges, office & operating supplies, fuel, subscriptions, training, and equipment purchases.

Water and wastewater Operating Fund

Type:	Expenditure
Fund:	401 WATER & WASTEWATER OPERATING FUND

FY26 Amended Expenditure Budget	FY26 YTD Expenditures	FY26 Annual Projection	% Expended
$51,147,533	$21,586,527	$28,277,923	42.20%

Overall year-to-date expenses are less than anticipated, primarily due to less than anticpated expenditures for salaries, wages, & fringe, professional and other contractual services, communication services, travel, other current charges, postage, rentals, vehicle and repairs & maintenance, office & operating supplies, training, utility services, fuel subscriptions, backflow operational supplies, and various improvements (Plymouth Regional WTP - Misc. Rehabilitation, Vehicle purchases, Bleach Tank Replacements, High Service Distribution Pump and Drive Motor, Flow Meter, Aerator Motors, Clarifier Cleaning System, Miscellaneous Watermain Upgrades, Asbestos and Galvanized Watermain Replacement, Tower Base Stations, Wastewate Collections System Pipeline Rehab & Replacement Program, Lift Station 017-Install new lift station, Generator and Bypass pumps, and several carryover projects (Northwest Reclaim Storage Ponds, NWRC Reclaim Water Storage Pond Tranfer Pump Station, WRF Lower Resevoir & Pump Station, Distribution Flow Meter Replacements, Grossenbacher WTP - 1.5 (MG) GST Addition, Grossenbacher WTP (Wells #1, #2, & #3), Water Plant Infrastructure Assessment (wells/pumps at 3 Water Plants, and SCADA RTU upgrades)). Overtime is at 96.35% year-to-date, compared to the anticipated 75.00%, due to the extra time committed to the meter replacement & maintenance program needed to reduce the number of estimated utility billings.

Sanitation Fund

Type:	Expenditure
Fund:	402 SANITATION

FY26 Amended Expenditure Budget	FY26 YTD Expenditures	FY26 Annual Projection	% Expended
$10,399,731	$5,924,775	$8,832,026	56.97%

Overall year-to-date expenses are less than anticipated, primarily due to less than anticipated expenditures for salaries, wages, & fringe, other contractual services, travel, postage, sanitation tipping fees, rentals, repairs & vehicle maintenance, office & operating supplies, fuel, and vehicle purchases. Overtime is 67.48%, which is less than the anticipated 75.00% year-to-date.

Water and Wastewater Reuse Fund

Type:	Expenditure
Fund:	403 WATER, WASTEWATER AND REUSE

FY26 Amended Expenditure Budget	FY26 YTD Expenditures	FY26 Annual Projection	% Expended
$48,215,533	$7,863,025	$11,196,912	16.31%

Overall year-to-date expenses are less than anticipated, primarily due to less than anticpated expenditures for various improvement projects (New WTP Design at Golden Gem, Pipeline Upsizing, Orange County Cross Connection, Grossenbacher WTP High Service Pump, NWRC Reclaim Water Storage W Pond Transfer Pump Station Phase 2A, Golden Gem Reclaim Water Plant Expansion and Pump Station Construction, Master Lift Station Upsize Program - LS17 Construction, Lift Station Generator Program, Kelly Park (Jason Dwelley to Plymouth Sorrento Road Upsizing, W. Orange Avenue LS 50, and several carry over projects for Grossenbacher WTP, Plymouth Regional WTP Well #3, Potable Water Plant Designs, Northwest WTP - 1.0 (MG) GST, NW Recreation Ctr and Water Reclamation Facility Exp, NWRC Reclaim Water Storage NW Pond Transfer Pump Station, New Pipelines Upsizing, LS Capacity Upsizing, WWS New Pipeline Upsizing, and WRF Design).

CRA Community Redevelopment

Type:	Expenditure
Fund:	610 COMMUNITY DEVELOPMENT AGENC

FY26 Amended Expenditure Budget	FY26 YTD Expenditures	FY26 Annual Projection	% Expended
$6,426,590	$870,286	$1,451,673	13.54%

Overall year-to-date expenses are less than anticipated, primarily due to less than anticipated expenditures for the various programs, Demolition projects, improvements related to the Downtown Apopka Trail, 5th and Central Avenue signal design, 5th and Park Avenue Signal and Pedestrian Upgrades, Downtown streetscape enhancements – 5th Street, Sidewalks North-West, City Hall Downtown Park, Station Street Lighting, Historical Markers, and Neighborhood Park & E. 8th Street & S. Highland Ave .

We have attached the City's Budget-to-Actual Detailed Report for the Nine-Months Ending June 30, 2026 for your review and acceptance.
